shall timely notify the Lessee of the Lessor's intent to contest eminent domain/condemnation proceedings. The Lessor shall notify the Lessee within ten (10) days of acquisition by eminent domain/condemnation of the Leased premises described in paragraphs 2.1 and 2.2 by a public agency.

7.2 - If a total taking of the Leased premises by any public authority under the power of eminent domain/condemnation occurs, then the term of this Lease shall cease as of the day of possession and the rent shall be paid up to that day with a proportionate refund by the Lessor of such rent as may have been paid in advance for a period subsequent to the date of the taking. This covenant is cross referenced in Article XI.

7.3 - If a partial taking of the Leased premises by any public authority under eminent domain/condemnation occurs, the Lessee shall have the right either to terminate this Lease and declare same null and void, or, subject to the Lessor's right of termination as set forth below, to continue in possession of the remainder of the Leased premises, and shall notify the Lessor in writing within ten (10) days after such taking of the Lessee's intention. In the event the Lessee elects to remain in possession, all of the terms herein provided shall continue in effect, except that the fixed annual rental shall be reduced in proportion to the amount of the Leased premises taken and the Lessor shall, at its own cost and expense, make all the necessary repairs or alterations to the building, as originally installed by the Lessor, so as to constitute the remaining Leased premises a complete architectural unit.

7.4 - If more than fifty (50%) percent of the Leased premises are taken under the power of eminent domain/condemnation, the Lessor may, by written notice to the Lessee delivered on or before the date of surrendering possession to the public authority, terminate this Lease.

7.5 - All damages awarded for either a total or partial taking under the power of eminent domain/condemnation, of the Leased premises, including fee title, described in paragraphs 2.1 and 2.2 shall belong to and be the property of the Lessor, except damages awarded as compensation for diminution in value to the leasehold interest which shall belong to and be the property of the Lessee. The Lessee shall be entitled to all damages and costs flowing from its loss of the leasehold interest including, but not limited to, loss of the value of the remaining terms of the Lease, the economic value of the Lease, depreciation and cost of removal of the Lessee's supplies and fixtures, and relocation cost.

ARTICLE VIII - ESTOPPEL

8.1 - The Lessee shall, within fourteen (14) days of receipt of a request by the Lessor, pursuant to paragraph 12.1, certify, to the extent the Lessee believes the information to be true and deliver to the Lessor an executed estoppel certificate (Enclosure "D"). The Lessee's failure to deliver such statement shall be conclusive upon the Lessee that:

a) This Lease is in full force and effect without modification except as may be represented by the Lessor,

b) There are no uncured defaults in the Lessor's performance,

c) Not more than one (1) month's rent has been paid in advance.

ARTICLE IX - Deleted, Not Applicable

ARTICLE X - LESSOR'S MORTGAGEE

10.1 - For purposes of this Article, the term "Lessor's mortgagee" means any party of record holding a mortgage or deed of trust on the Leased premises described in paragraphs 2.1 and 2.2, or any part thereof. The Lessor shall give the Lessee written notice that such party holds such lien or deed of trust, and written evidence of the date the mortgage or deed of trust was executed, together with notice of the address of Lessor's mortgagee. A lien held by a Lessor's mortgagee on the Leased premises, or any portion thereof, is herein referred to as a "Lessor's mortgage".

10.2 - Pursuant to paragraph 10.1, the Lessor has disclosed all mortgages or deeds of trust affecting the Leased premises set forth in paragraphs 2.1 and 2.2 which exist as of the execution date of this Lease. If a mortgage or deed of trust exists or existed, as of the execution date of the original Lease, the Lessor shall cause each mortgagee to execute in favor of the Lessee the Nondisturbance Agreement, attached as Enclosure "E", whereby said mortgage agrees that it will not disturb the Lessee's tenancy in the event of foreclosure or other succession to the interest of the Lessor. Enclosure "E" shall be executed before this Lease becomes effective. Any mortgage is to be subordinate to this Lease, and any future amendment thereto unless specifically provided otherwise in writing.

10.3 - If the Leased premises are at any time during the term of this Lease subject to a Lessor's mortgage, then, whenever the Lessee gives notice to the Lessor alleging default by the Lessor in performance of any covenant or obligation under this Lease, the Lessee shall simultaneously give a copy of such notice to the Lessor's mortgagee (at the address of the Lessor's mortgagee provided pursuant to paragraph 10.1). Lessor's mortgagee shall have the right (but not the obligation) to cure or remedy Lessor's default during the same time period that is permitted to the Lessor hereunder for the remedying or curing of such default. Lessee will accept such curative or remedial action taken by a Lessor's mortgagee with the same effect as if such action had been taken by the Lessor. Any claims for damages by the Lessee shall not be waived by the Lessor's mortgagee's corrective or remedial action.

10.4 - In the event that the Lessor's mortgagee of record (or any other party) shall acquire title to the Leased premises or shall succeed to the Lessor's interest in this Lease, whether through foreclosure of the Lessor's mortgage, conveyance in lieu of foreclosure, or otherwise (collectively, a "foreclosure"), the Lessor's mortgagee (or other such party) shall thereupon, and without the necessity of attornment or other act or agreement, be substituted as the Lessee's landlord under this Lease, and shall be subject to the obligations thereof. The rights acquired by the Lessor's mortgagee are subordinate to this Lease and all of the Lessee's rights under the Lease continue undisturbed.

ARTICLE XI - CANCELLATION

11.1 – **Lessee may cancel this Lease during any period of possession by providing written notice to Lessor at least thirty (30) days before the effective date of cancellation and any one of the following occur:**

a) - There is a specific prohibition in an appropriation prohibiting expenditure of funds for this Lease.

b) – Funds for the payment of any Lessor obligation imposed by this Lease are not appropriated, including non-appropriation due to line item veto.

11.2 - **This Lease may be cancelled by the Lessee during the renewal option period beginning June 1, 2032 if:**

a) The Lessor is notified in writing at least ninety (90) days prior to the effective date of cancellation.

11.3 - This Lease may be cancelled by the Lessee provided the Lessor is notified in writing at least thirty (30) days prior to the effective date of cancellation and any one of the following occur:

a) The Lessor or any subcontractor, manufacturer or supplier of the Lessor appears in the register compiled by the Michigan Department of Labor pursuant to 1980 PA 278, as amended, MCL 423.321 et seq. (Employers Engaging in Unfair Labor Practices Act).

b) The Lessor or any subcontractor, manufacturer or supplier of the Lessor is found guilty of discrimination, pursuant to 1976 PA 453, as amended, MCL 37.2101 et seq. (Elliott-Larsen Civil Rights Act); or 1976 PA 220, as amended, MCL 37.1101 et seq. (Persons with Disabilities Civil Rights Act). This covenant is cross referenced in Article III.

c) The Leased premises do not comply with the barrier free design requirements of 1966 PA 1, as amended, MCL 125.1351 et seq. (Utilization of Public Facilities by Physically Limited). This covenant is cross referenced in Article III.

d) The Leased premises are taken for a public purpose by eminent domain/condemnation proceedings by a governmental unit. This covenant is cross referenced in Article VII.

e) The Lessee's use of the Leased premises is in violation of local adopted ordinance, or recorded deed restrictions.

f) The Lessee acquires fee title to the Leased premises in paragraphs 2.1 and 2.2. This covenant is cross referenced in Article VI.

g) The Lessor fails to maintain the Leased premises in a tenantable condition, described in and subject to the notice provision in paragraph 3.1(s). The Lessee shall provide detailed written notice to the Lessor, of not less than thirty (30) days, to correct defaults.

h) The Lessor fails to repair or restore the Leased premises for damage specified in paragraph 3.10. This covenant is cross referenced in Articles III, IV, and V.

i) The Lessor fails to deliver the Leased premises, according to the plans, specifications, and timeframe for remodeling or construction, found in paragraph 3.6.

j) Damage or destruction, specified in paragraph 3.10, is so extensive as to constitute a total destruction of the Leased premises. This covenant is cross referenced in Articles III, IV and V.

11.4 - This Lease may be cancelled by the Lessor if the Lessee is notified in writing at least sixty (60) days prior to the effective date of cancellation and any one of the following occur:

a) Damage or destruction to the Leased premises exceeds fifty percent (50%) of the replacement value of the Leased premises, as referenced in paragraph 3.10. This covenant is cross referenced in Articles III, IV and V.

b) The Leased premises are taken by eminent domain/condemnation proceedings, as referenced in Article VII.

ARTICLE XII - NOTICE, APPLICATION, AND APPROVALS

12.1 - Any notice to Lessee required by this Lease shall be complete if submitted in writing and transmitted by personal delivery (with signed delivery receipt), or certified or registered mail return receipt requested. Unless either party notifies the other in writing of a different mailing address, notice to the Lessor and/or Lessee shall be transmitted to:

The notice shall be deemed effective as of Noon, Eastern Time on the third business day following the date of mailing, if transmitted by mail. Business day is defined as any day other than a Saturday, Sunday, legal holiday, or day preceding a legal holiday. A receipt from a U.S. Postal Service, or successor agency, performing such function shall be conclusive evidence of the date of mailing.

12.2 - This Lease shall be interpreted in accordance with the laws of the State of Michigan.

12.3 - This Lease shall be binding upon and to the benefit of the heirs, executors, administrators, and assigns of the Lessor; and upon and to the benefit of the assignees and sublessees of the Lessee.

12.4 - This Lease shall not be binding or effective on either party until approved (and notarized as necessary) by the Lessor, Lessee, Department of the Attorney General, Department of Technology, Management & Budget, Building Committee of the State Administrative Board, and the State Administrative Board. If this Lease or any subsequent amendments to it fall within the requirements of 1984 PA 431, as amended, MCL 18.1101 et seq. (Management and Budget Act), this Lease and any subsequent amendments to it shall also require approval of the Joint Capital Outlay Subcommittee of the Legislature.

12.5 – **Deleted, no applicable**

12.6 - Should any provision of this Lease or any addenda thereto be found to be illegal or otherwise unenforceable by a court of law, such provision shall be severed from the remainder of the Lease, and such action shall not affect the enforceability of the remaining provisions of the Lease.

12.7 - This Lease, with all enclosures and attachments as listed below, constitutes the entire agreement between the parties with regard to this transaction and may be amended only in writing and executed in the same manner as this Lease was originally executed, as under paragraph 12.4.

12.8 - Electronic Funds Transfer (EFT): Public Act 533 of 2004 requires that payments under this Lease be processed by electronic funds transfer (EFT). Lessor is required to register to receive payments by EFT at the Contract & Payment Express website (www.cpexpress.state.mi.us).

SAMPLE ESTOPPEL CERTIFICATE

Date

Lessor Name/Mailing Address

Attn: Name of Lessor

Subject: Department of Xxxxxxxxxxx, Located at 1445 Xxxxxxxxxxx Avenue, Anytown, Michigan (#1234)

A review of the lease between Xxxxxxxxxxxxxxxxxxx and the State of Michigan for the above facility has been requested. Information obtained from this review might be used in negotiations for a possible change in ownership or financing of the facility.

The undersigned [is/is not] in possession as a tenant of certain rental space situated at [address of premises], Michigan, consisting of x,xxx square feet of [office/ warehouse/ residential/ (other)] space with a monthly rental of $xx,xxx.xx. In connection therewith, the undersigned represents as follows:

The Leased premises [are/ will be] occupied pursuant to a certain written Lease dated [month/ day/ year] between the State of Michigan, as Lessee and [Lessor's name], a [corporation/ partnership/ trust/ estate etc.] as Lessor. Such Lease is presently in full force and effect [and has been amended "x" times].

The term of possession provided in the Lease [commenced/ commences] on [month/ day/ year] and expires on [month/ day/ year]. Renewal options are provided which can be exercised to extend possession to [month/ day/ year]. [Actual possession took place on [month/ day/ year] at which time rental payments started]. [An agreement [was/ was not] written to change the Lease dates to coincide with the date of possession].

This Lease [may] contain(s) a [lump-sum/ rental rate] adjustment clause for [liability insurance/ real property taxes/ other].

The undersigned [has/ has not] accepted possession of the Leased premises. Obligations or improvements required by the terms of said Lease, to be furnished or made by the Lessor to the premises, have been completed to date to the satisfaction of the undersigned with the exception of the following items:

1. [items listed here], 2. etc., and 3., etc.

The most recent rent paid to the Lessor or Lessor's agent was for the month of Xxxxxx; no rent has been paid more than thirty days in advance of its due date. There is no security deposit. The last payment of its proportionate share of real property taxes and insurance was made by the undersigned to the Lessor on [month/ day/ year] as a part of the regular monthly rental payment; no such payment has been made more than thirty days in advance of its due date.

The State [pays utilities directly with the exception of water and sewer service; proportional payment for water and sewer service made directly to the Lessor upon presentation of a billing document from the city. Common area expenses are paid as a part of the monthly rental].

The undersigned knows of no default or breach of the Lease by either the Lessor or State except obligations or improvements listed above - if any. The Lessor holds no deposit or other property of the State. There are no offsets, claims, or rent deductions except those which might be made by the State by its Department of Xxxxxxxxxx. The Lessor should contact [name of State agency contact person] for information about rent deductions. The Lease (as amended) represents the entire agreement between the parties as to the Leased premises.

Sincerely,
Terri L. Fitzpatrick
Director, Real Estate Division

Enclosure "E" to Lease #**11530-2010** by and between **Lurvey White Ventures 1, LLC**, as Lessor and the State of Michigan for the Department of **Education**

SAMPLE NONDISTURBANCE AGREEMENT

This Agreement between , hereinafter called "Mortgagee," the State of Michigan by the Department of Technology, Management & Budget for the Department of , hereinafter called "Lessee," and , hereinafter called "Lessor," which terms "Lessor," "Lessee," and "Mortgagee" shall include the successors and assigns of the respective parties.

THE FOLLOWING is a recital of facts underlying this Agreement:

By State Lease #*****, [as amended], which is by reference made a part of this Agreement (hereinafter the Lease), Lessor in consideration of the rents reserved therein, and of the terms, covenants, conditions, and agreements set forth in the Lease, has demised and let to Lessee, and Lessee has leased from Lessor, certain premises described in Lease paragraphs 2.1 and 2.2, located in _____, for an original term extending until (date), and for any exercised extensions.

Mortgagee is the holder of a mortgage made by (name of Lessor), dated _____ which mortgage covers the real property described in Lease paragraphs 2.1 and 2.2 and buildings thereon, and other property, rights, franchises and privileges more particularly described in the Mortgage (which collectively are herein called the "Mortgaged Property").

Lessor is the owner and holder of title to the Mortgaged Property.

Mortgagee shall recognize Lessee's rights under the Lease in the event of a foreclosure of Mortgagee's lien.

The parties agree as follow:

So long as Lessee is not in default (beyond any period given Lessee to cure such default) in the payment of rent or additional rent, or the performance of any other terms, covenants, or conditions of the Lease, Lessee's possession under the Lease and Lessee's rights and privileges thereunder, or under any extensions or renewals thereof that may be affected in accordance with any option contained in the Lease, shall not be diminished or interfered with by Mortgagee. (The term "Mortgagee" shall include any purchaser at a foreclosure sale). Lessee's occupancy shall not be disturbed by Mortgagee during the term of this Lease or any extensions or renewals thereof.

As indicated in Lease Article X, when Mortgagee is substituted as the Lessee's Lessor, Mortgagee is subject to the obligation of the Lease including any amendments to the Lease. It is the intention of the parties hereto to incorporate the Lease into this Agreement by reference with the same force and effect as if set forth fully verbatim herein.

IN WITNESS WHEREOF, the parties hereto have executed this Agreement the day and year first above written.

OFFER TO PURCHASE REAL PROPERTY

Issued by Authority of Public Act 374 of 2010, State of Michigan

THIS OFFER TO PURCHASE REAL PROPERTY ("Offer") is entered into between **Lurvey White Ventures 1, LLC**, a Michigan limited liability company, ("Buyer"), and the **State of Michigan through its Department of Technology, Management and Budget** ("Seller"). Buyer agrees to purchase from Seller the land, structures and improvements ("Property") located in the City of Flint, Genesee County, State of Michigan, commonly known as the former Michigan School for the Deaf, located at 1667 Miller Road, Flint, Michigan, containing approximately 109 acres, more or less, and legally described on the attached Exhibit A, under the following terms and conditions:

1. **Purchase Price**. Buyer shall pay to Seller the sum of One Million Three Hundred Thousand Dollars ($1,300,000) ("Purchase Price") in exchange for a quitclaim deed to the Property. The Property is subject to all applicable building and use restrictions, liens, encumbrances, charges, title exceptions, and easements, if any, affecting the Property.

2. **Irrevocable Offer**. This Offer shall be irrevocable except as otherwise set forth in this Offer with respect to cancellation during the Inspection Period.

2.1 Seller, by executing the acceptance portion hereof and depositing the same in the U.S. mail, addressed to Buyer per Section 12, shall cause this Offer, without further action of either party, to become a binding contract for the sale of Property subject to all terms set forth in this Offer.

3. **Approvals**. Notwithstanding any other provision of this Offer, Buyer acknowledges that sale of the Property must be approved by the State Administrative Board prior to Closing. Seller makes no representation or assurance that the State Administrative Board will approve this Offer. Buyer further acknowledges that the Attorney General must approve the quitclaim deed conveying the Property as to legal form and compliance with the provisions of Public Act 374 of 2010.

4. **Earnest Money**. Upon execution of this Offer, Buyer shall deliver an earnest money deposit in the form of a certified check or cashier's check made payable to "The State of Michigan" in the amount of Sixty Five Thousand Dollars ($65,000) ("Earnest Money"). The Earnest Money shall be credited to the Purchase Price at Closing. Buyer shall not be entitled to any interest earned on the Earnest Money.

4.1 Upon acceptance of this Offer, Thirty Two Thousand Five Hundred Dollars ($32,500) of the Earnest Money is immediately non-refundable. Buyer acknowledges that the Earnest Money is deemed non-refundable and Buyer shall have no right, claim or interest in or to such Earnest Money. Buyer further acknowledges that the balance of the Earnest Money deposit shall only be refundable under the conditions set forth in Section 6 and that the full amount of the Earnest Money is non-refundable as liquidated damages in the event of default or failure by Buyer to perform any of its obligations under the terms of this Offer.

In the event that the State Administrative Board does not approve the lease transaction (Lease 11530) or the conveyance of the Property, Seller will return all of the Earnest Money to Buyer.

5. **Closing**. Closing ("Closing") must occur on or before June 20, 2011, at a location and time agreed upon by Seller and Buyer. Buyer acknowledges that Seller is prohibited from conveying the Property to Buyer pursuant to this Offer after June 20, 2011.

Initials _____

5.1. Closing shall be contingent upon receiving the approval of the State Administrative Board.

5.2. The quitclaim deed will be prepared by Seller and approved by the Attorney General. All other closing documents will be prepared by Buyer. Closing costs will be paid by Buyer. Special assessments, if any, up to $5,000 will be paid by Buyer. Amounts exceeding $5,000 will be paid by Seller.

5.3. At Closing, after receipt of the balance of the Purchase Price in the form of a certified check, cashier's check or electronic funds transfer from Buyer, Seller shall convey title to the Property by quitclaim deed, prepared and approved by the Attorney General, subject to any liens, charges, actions, encumbrances, restrictive covenant and title exceptions, Historic Preservation Covenant (Exhibit B) for superintendent's house and subject to the provisions of Public Act 374 of 2010.

5.4. The execution and delivery of the quitclaim deed by Seller shall be deemed to be in full performance and discharge of all the terms and conditions of this Offer to be observed or performed by Seller, except those that are stated expressly to survive Closing.

6. Inspection Period.

6.1. Buyer acknowledges that it has had the opportunity for physical inspection of the Property prior to acceptance of this Offer and agrees to accept the Property "AS IS, WHERE IS, WITH ALL FAULTS" that is, in its present condition.

6.2. Seller authorizes Buyer to enter the Property, with prior notification to Seller, to conduct investigations and studies, and Buyer hereby releases Seller of any and all liability associated with entry and inspection, and warrants that it will comply with applicable regulations regarding environmental and other matters. It shall be the sole responsibility of Buyer to make its own investigations, studies, tests, reports, and other due diligence inquiries as to the Property as deemed appropriate to Buyer until 5:00 p.m., Monday, June 6, 2011 ("Inspection Period").

6.3. After the Inspection Period, if Buyer is not reasonably satisfied with the results of its investigations and due diligence inquiries, Buyer may revoke its acceptance of this Offer at Buyer's sole discretion. If Buyer revokes its acceptance, it shall provide Seller with copies of any and all due diligence materials created by Buyer or any party engaged by Buyer to assist with the inspection of the Property including, but not limited to, environmental reports, surveys, title commitments, and other due diligence materials. If Buyer fails to provide these materials to Seller by June 20, 2011, Buyer waives its right to the return of Thirty Two Thousand Five Hundred Dollars ($32,500) of the Earnest Money.

After its inspection, if Buyer cannot meet the requirements of Article III of Lease #11530, Buyer may revoke its acceptance of this Offer. If Buyer revokes its acceptance, it shall provide Seller with copies of any and all its due diligence materials created by Buyer or any party engaged by Buyer to assist with the inspection of the Property including, but not limited to, environmental reports, surveys, title commitments, and other due diligence materials, and be entitled to a return of Sixty Five Thousand Dollars ($65,000) of the Earnest Money.

7. Environmental. Buyer agrees that Seller assumes no liability or responsibility for the presence of any toxic, hazardous, polluting or injurious substances on, in, or below the

Property. Except as expressly stated herein, Seller makes no representations as to any toxic, hazardous, polluting or injurious substances on, in, or below the Property or any property adjacent to the Property.

7.1. Pursuant to MCL 324.20116(1), Seller provides notice to Buyer that Seller has information indicating that one or more hazardous substances have been detected at the Property in excess of concentrations referenced in MCL 324.20120a, and that the Property may therefore be a "facility" as defined in MCL 324.20101(1)(o).

7.2. Buyer acknowledges that asbestos, lead paint, lead plumbing, mold, PCBs, and irradiating materials may be present within building materials and structures located on or below the surface of the Property. Buyer agrees to accept the Property "as is." Buyer further acknowledges and understands that the building materials and structures on the Property may contain asbestos and mold and that any reuse or redevelopment of the Property that results in demolition or structural changes may result in the release of asbestos or asbestos-containing materials and mold. After Closing, Buyer agrees to release and hold harmless Seller from any and all claims related to the existence or discovery of asbestos, asbestos-containing materials, lead paint, lead plumbing, PCBs and irradiating materials present within building materials and structures located on or below the surface of the Property.

7.3. Buyer further agrees to take no administrative, judicial or other legal action against Seller because of the existence or discovery of any toxic, hazardous, polluting or injurious substances. Actions include, but are not limited to, any action for contribution, cost recovery, third party action, injunctive relief to compel Seller to investigate or take remedial action, declaratory relief, damages, or any action associated with any obligations Buyer may have to comply with federal, state or local law in conjunction with the investigation, removal, or abatement of any toxic, hazardous, polluting or injurious substance including, but not limited to, asbestos or asbestos-containing materials. After Closing, Buyer agrees to release and hold harmless Seller from any and all claims related to the existence or discovery of any toxic, hazardous, polluting or injurious materials in, on, below or emanating from the Property.

7.4. Buyer agrees to indemnify Seller and to hold Seller harmless if any hazardous, polluting, injurious, or toxic substances exist, are discovered in, on, below, or emanating from the Property or their condition is exacerbated by Buyer.

7.5. Notwithstanding anything to the contrary in this Section or in this Offer, Seller will not be responsible to Buyer for asbestos, lead, or mold-related claims arising from exposure to asbestos, lead, or mold (if any) where the exposure occurs after the date of Closing, and Buyer will not be responsible to Seller for asbestos, lead, or mold-related claims arising from exposure to asbestos, lead, or mold (if any) where the exposure occurred prior to the date of Closing.

7.6. Except as expressly stated herein, Seller makes no representation or warranty as to the truth, accuracy or completeness of any materials, data or information delivered or made available by Seller to Buyer in connection with the sale of the Property. Buyer acknowledges and agrees that all materials, data and information delivered or made available by Seller to Buyer are provided as a convenience only and that any reliance on or use of such materials, data or information by Buyer shall be at the sole risk of Buyer.

Initials _____

7.7. Without limiting the foregoing provisions, Buyer acknowledges and agrees that (a) any environmental or other report regarding the Property which is delivered or made available by Seller to Buyer shall be for general informational purposes only, (b) Buyer shall not have any right to rely on such report delivered or made available by Seller to Buyer, but rather will rely on its own inspections and investigations of the Property and any reports commissioned by Buyer with respect thereto, (c) neither Seller nor the person or entity which prepared any such report delivered or made available by Seller to Buyer shall have any liability to Buyer for any inaccuracy in or omission from any such report, and (d) Buyer shall assume all liability and costs associated with federal, state and/or local environmental laws or regulations.

8. **Property Survey.** The survey dated January 24, 1998, by Polaris Survey Company for DTMB Facilities Administration, shall be the survey of record and shall govern the Closing. Buyer may, at Buyer's expense, obtain an independent survey of the Property. Any proposed changes to the survey of record, by Buyer or others, will require approval by the State Surveyor.

9. **Title Insurance.** Buyer shall be responsible for the costs of issuance of a title insurance policy, to be obtained at the discretion of Buyer.

10. **Zoning, Safety and Regulatory Compliance.** When title passes to Buyer at Closing, the Property will immediately become subject to certain State safety and regulatory laws and to certain local ordinances and regulations (including zoning and use requirements) to which the Property was not previously subject to because it was owned by the State. Buyer acknowledges that in certain substantial respects the Property may not comply with such statutes, rules, ordinances and regulations and may have to be substantially altered or repaired to become compliant. Buyer acknowledges that it shall comply with all zoning and use requirements. Buyer acknowledges that Seller is under no obligation to take any action to bring the Property into compliance with such statutes, and that Buyer has had the opportunity to make a personal inspection of the Property. Buyer further acknowledges that it is Buyer's responsibility to consult with all State and local regulatory agencies, which have and will continue to have, or will obtain jurisdiction.

11. **Fees and Commissions.** If Buyer has caused any person to assert a claim to a fee, commission or other compensation in relation to this transaction, as a broker, finder, or other capacity or for performance of services as a broker or finder in connection with this Offer, Buyer shall (a) indemnify, defend and hold harmless Seller against and from any such claim and all costs, expenses and liabilities incurred in connection with such claim or any action or proceeding brought thereon (including without limitation, any and all attorney fees and costs incurred in defending against such claim) and (b) satisfy promptly any settlement or judgment arising from any such claim or any action or proceeding brought thereon. Seller represents that Seller has not used the services of a broker in connection with this transaction.

Facsimile or electronic notices shall not be accepted.

13. Buyer Representations and Warranties. Buyer represents and warrants to Seller:

13.1. Buyer has the full right, power and authority to purchase the Property as provided in this Offer and to carry out Buyer's obligations hereunder, and all requisite action necessary to authorize Buyer to enter into this Offer and to carry out its obligations hereunder have been, or by the Closing will have been, taken. The person signing this Offer on behalf of Buyer is authorized to do so.

13.2. There is no action, suit, arbitration, unsatisfied order or judgment, government investigation or proceeding pending against Buyer which, if adversely determined, could interfere with the consummation of the transaction contemplated by this Offer.

13.3. The representation and warranties of Buyer shall survive Closing.

14. Public Policy Provisions.

14.1. Nondiscrimination. Pursuant to MCL 37.2209 and MCL 37.1209, Buyer shall comply with the Elliott-Larsen Civil Rights Act, 1976 PA 453, MCL 37.2101 *et seq.*; the Persons with Disabilities Civil Rights Act, 1976 PA 220, MCL 37.1101 *et seq.*; and all other federal, state and local fair employment practices and equal opportunity laws and covenants that it shall not discriminate against any employee or applicant for employment, to be employed in the performance of this Offer, with respect to his or her hire, tenure, terms, conditions, or privileges of employment, or any matter directly or indirectly related to employment, because of his or her race, religion, color, national origin, age, sex, height, weight, marital status, or physical or mental disability that is unrelated to the individual's ability to perform the duties of a particular job or position. Buyer agrees to include in every subcontract entered into for the performance of this Offer this covenant not to discriminate in employment. A breach of this covenant will constitute a material breach of the contract arising out of this Offer.

14.2. Unfair Labor Practices. Pursuant to MCL 423.324, the State may void a contract if Buyer or any of its contractors, subcontractors, manufacturers, or suppliers appears in the register compiled pursuant to 1980 PA 278, MCL 423.321 *et seq.* A breach of this covenant will constitute a material breach of the contract arising out of this Offer.

15. Termination. If Buyer fails to perform any of its obligations under this Offer, Seller will provide written notice of default to Buyer. If Buyer fails to cure within thirty (30) days after Seller's written notice, Seller may terminate this Offer and any monies paid hereunder may be retained by Seller as liquidated damages.

16. Miscellaneous Provisions.

16.1. In the event that the Property is damaged or destroyed by any casualty after Buyer's acceptance of this Offer and before Closing, Buyer may continue with Closing at the same purchase price or revoke its acceptance of this Offer without recourse against Seller and be entitled to a refund of Thirty Two Thousand Five Hundred ($32,500) of the Earnest Money.

If any of the above damage involves Fay Hall, Stevens Hall or the LRC Building and affects the historical value of the Property, Buyer may withdraw or terminate its Offer without recourse against Seller and be entitled to a full refund of the Earnest Money.

16.2. It is expressly understood and agreed that neither Seller nor Buyer shall assign its interest under this Offer or any portion thereof without the prior written consent of the other party, its successors or assigns.

16.3. Prior to Closing, any news releases or other media releases to the public of information with respect to the sale of the Property or any matters set forth in this Offer will be made only in the form approved by Seller in writing.

16.4. Each provision of this Offer shall be deemed to be severable from all other provisions of the Offer and, if one or more of the provisions of the Offer shall be declared invalid, the remaining provisions of this Offer shall remain in full force and effect.

16.5. This Offer may be changed or modified only if in writing. This Offer cannot be changed orally, and no Offer shall be effective to waive, change, modify or discharge it in whole or in part unless such Offer is in writing and is signed by the parties against whom enforcement of any waiver, change, modification or discharge is sought.

16.6. Each party will, without further consideration, execute and deliver such other documents and take such other action, whether prior or subsequent to Closing, as may be reasonably requested by the other party to consummate more effectively this Offer. Without limiting the generality of the foregoing, Buyer shall, if requested by Seller, execute acknowledgments of receipt with respect to any materials delivered by Seller to Buyer with respect to the Property. The provisions of this Section shall survive Closing.

16.7. The provisions of this Offer and of the documents to be executed and delivered at Closing are and will be for the benefit of Seller and Buyer only and are not for the

benefit of any third party. Accordingly, no third party shall have the right to enforce the provisions of this Offer or of the documents to be executed and delivered at Closing.

16.8. This Offer may be executed in any number of counterparts, each of which shall be deemed an original, and all of which when taken together, shall constitute the same instrument.

16.9. Captions and headings used in this Offer are for information and organizational purposes. Captions and headings, including inaccurate references, do not, in any way, define or limit the requirements or terms and conditions of this Offer.

16.10. Except as expressly stated herein, Seller makes no representation or warranty as to the truth, accuracy or completeness of any materials, data or information delivered or made available by Seller to Buyer in connection with the transaction contemplated hereby. Buyer acknowledges and agrees that all materials, data and information delivered or made available by Seller to Buyer in connection with the transaction contemplated hereby are provided to Buyer as a convenience only and that any reliance on or use of such materials, data or information by Buyer shall be at the sole risk of Buyer, except as otherwise expressly stated herein. Without limiting the generality of the foregoing provisions, Buyer acknowledges and agrees that (a) any environmental or other report with respect to the Property which is delivered or made available by Seller to Buyer shall be for general informational purposes only, (b) Buyer shall not have any right to rely on such report delivered or made available by Seller to Buyer, but rather will rely on its own inspections and investigations of the Property and any reports commissioned by Buyer with respect thereto, (c) neither Seller nor the person or entity which prepared any such report delivered or made available by Seller to Buyer shall have any liability to Buyer for any inaccuracy in or omission from any such report, and (d) Buyer shall assume all liability and costs associated with federal, state and/or local environmental laws or regulations.

17. **Governing Law**. This Offer shall in all respects be governed by, and construed in accordance with, the laws of the State of Michigan.

18. **Entire Agreement**. This instrument constitutes the entire agreement between Seller and Buyer, and there are no other terms, conditions, promises, understandings, statements or representations, express or implied, oral or written, concerning the transaction contemplated hereunder. The contract arising out of this Offer shall inure to the benefit of and bind both parties and their respective agents, representatives, successors and assigns.

19. **Effective Date**. The Effective Date of the contract arising out of this Offer shall be the date signed as accepted by the Interim Real Estate Director of the Department of Technology, Management and Budget.

Subject: Sample Storage Space

Neal – Based on our phone conversation, I'm looking for storage/warehouse space for a potentially large amount of water samples over the next few months with the State of Emergency that is happening in Flint right now. Wondering if there are any locations near the Lab that we could utilize for this effort if necessary. At a minimum, the space would need to be secured and temperature controlled, only to prevent freezing. Also looking for pallets that can hold around 1000 Lbs or more. The idea is that we palletize samples here and have them transferred to this storage location on a daily/weekly basis as necessary. There is really no storage space for this kind of capacity here at the State Lab. Initial estimate of space needs based on the number of potential samples would be 1000-1500 ft2, enough to hold around 100 (3'x4') pallets with additional space to maneuver around to get to specific pallets if necessary.

Sandip – Copying you on this message if you have any ideas that could help.

Thank you!
Kirby

Maureen: just a follow up to my phone message…

The attached noticed was sent to all residents and businesses in Flint.. I got this one because it was delivered to CAC at Gilbert Hall. According to Mark the school did not receive the notice.

We have ordered and have bottled water in this building and my understanding Mark is also doing the same.

Is there something that the State can do…other than what is being done through monitoring and testing ??

Thank you.

IMPORTANT INFORMATION ABOUT YOUR DRINKING WATER

City of Flint Did Not Meet Treatment Requirements

Our water system was recently found to be in violation of a drinking water standard. Although this incident was not an emergency, as our customers, you have a right to know what happened and what we are doing to correct this situation.

We routinely monitor for the presence of drinking water contaminants. Samples were collected for total trihalomethanes (TTHM) analysis from eight locations on a quarterly basis (May 21, August 21, and November 20 of 2014). The average of the results at **ANY** of the eight locations must not exceed the maximum contaminant level (MCL) for TTHMs, otherwise our water system exceeds the Maximum Contaminant Level (MCL). The standard for TTHMs is 80 ug/L. The location reporting the highest TTHM level was 81 ug/L, thus, our water system exceeds the TTHM MCL.

What should I do?

- There is nothing you need to do unless you have a severely compromised immune system, have an infant, or are elderly. In that case, you may be at increased risk and should seek advice about drinking water from your health care provider.
- You do not need to boil your water or take other corrective actions. If a situation arises where the water is no longer safe to drink, you will be notified within 24 hours.

What does this mean?

This is not an emergency. If it had been an emergency, you would have been notified within 24 hours.

People who drink water containing trihalomethanes in excess of the MCL over many years may experience problems with their liver, kidneys, or central nervous system, and may have an increased risk of getting cancer.

What is being done?

We are currently working on solutions to correct the problem. We anticipate resolving the problem in 2015.

For more information, please contact Mr. Brent Wright or Mike Glasgow at 810-787-6537 or the Water Plant at 4500 North Dort Highway, Flint, MI 48505.

Please share this information with all the other people who drink this water, especially those who may not have received this notice directly (for example, people in apartments, nursing homes, schools, and businesses). You can do this by posting this notice in a public place or distributing copies by hand or mail.

This notice is being sent to you by the City of Flint.

CERTIFICATION: F1 S3 WSSN: 02310

I certify that this water supply has fully complied with the public notification requirements in the Michigan Safe Drinking Water Act, 1976 PA 399, as amended, and the administrative rules. Reminder to water supplier: This notice/certification must be sent to the DEQ.

Maureen,
The attachment you sent does not indicate that the water is unsafe for consumption for most people. Does your statement mean that the City is now notifiying us that it is unsafe? We have two sites there and I want to be sure we are providing correct information. Can you clarify if it has been deemed unsafe for consumption? If it is not safe, what action is recommended, ie boiling water, using bottled water or what? Thanks, Kath

City of Flint Will Hold Public Water Presentation Wednesday, January 21, 2015 at 7:00pm in the City Hall Dome

Flint, Michigan – January 16, 2015 – The City of Flint will be hosting a water presentation on Wednesday, January 21, 2015 at 7pm. That presentation will be held in the City Hall Dome and will feature information detailing water treatment, water distribution and the steps being taken to ensure that citizens get water that meets all regulatory safety and quality standards. "We want the residents, businesses and visitors of Flint to know that the water in Flint is safe and that we are working every day to make improvements to our system to ensure that," said City DPW Director Howard Croft. "Our goal is make sure we get people the information on our efforts and assure them that we are on the right track with them."

DPW Director Croft and Utilities Administrator Daugherty Johnson will be joined on a panel by representatives from the Genesee County Drain Commissioner's office, the Michigan Department of Environmental Quality and LAN engineering. Written questions from the audience will be collected during the presentation and answered by the panel after the presentation.

Addressing Flint's Water Concerns

Recent events have raised concerns among many as to the safety and quality of the water provided by the City's utility system. The City is and continues to be committed to assuring that residents and visitors know that the water is safe and that those responsible for providing water are working every day to improve the quality of the water. The quality of the water does need improvement, but that is not to be confused with safety of the water. The recent notice by MDEQ clearly stated that the water provided by the utility system is safe to drink, but cautioned that some vulnerable groups may want to consult with their health care provider if they have concerns. The City remains committed to their efforts to assure that the water is safe for everyone and that quality is both improved and improving.

To date, the City has taken the following actions:

- As an integral part of the transition to the Flint River on a temporary basis, the MDEQ was consulted about the City's plans, and ultimately issued necessary permits to proceed. The City also engaged the services of the LAN engineering firm to guide the city in installing the necessary equipment to treat the water on an ongoing basis. This resulted in the development of a comprehensive drinking water plan.

- The City monitors its water quality on a daily basis to assure that water quality remains within established guidelines. With the variances in water temperature and the leakage and infiltration problems arising as the result of failure of parts of the distribution system, water quality did exceed, for a time, some of the established guidelines. This resulted in the issuance of the recent notices to the public. Upon receipt of information that some guidelines were exceeded, the City's priority focus was to bring water quality back within guidelines. Efforts taken to address non-compliance included increasing water flow through valve replacements and hydrant flushing and optimizing treatment processes.

- The City has committed to increasing communication with the public in order to inform water users factually of the issues which have arisen, to alleviate unnecessary concern and to identify the steps being taken to address the issues. This is being implemented through detailed and easy to understand educational materials being made available both online and at City Hall, as well as through ongoing public informational meetings.

- Most recently, in light of recent concerns raised by resident groups over the quality and safety of water, Department of Public Works Director Howard Croft and his staff collected questions from citizens during a recent public meeting. After reviewing these questions, DPW Director Croft and his staff set out to answer them in concise detail; the result of that work is a full Water System Questions and Answers document is available online. Along with the detailed information within, the document also contains links to other source documents and regulatory statutes found online which were used as reference. **"We want the residents, businesses and visitors of Flint to know that the water in Flint is safe**

and that we are working every day to make improvements to our system to ensure that," said Croft. "Our goal is make sure we get people the information on our efforts and assure them that we are on the right track with them." More documentation, including regular water quality monitoring reports, will be made available.

- Additionally, a number of public meetings have and will continue to take place. Two of the most recent of these took place at the Antioch Baptist Church and the Mott Community College Regional Technology Center. These meetings were held by concerned neighborhood groups and were attended by Mayor Walling and DPW Director Croft. At both meetings, citizens voiced their concerns and asked questions about water quality and the recent violation notice. Director Croft offered detailed answers to common questions, but also offered to investigate specific water issues raised by residents in which the City could offer assistance. Those in attendance came away with a better understanding of the issues surrounding the drinking water in their community.

- The City of Flint will be hosting a water presentation on **Wednesday, January 21, 2015 at 7pm. That presentation will be held in the City Hall Dome** and will feature information detailing water treatment, water distribution and the steps being taken to ensure that citizens get water that meets all regulatory safety and quality standards. City DPW Director Howard Croft and Daugherty Johnson, Utilities Administrator, will be joined on a panel by representatives from the Genesee County Drain Commissioner's office, the Michigan Department of Environmental Quality and LAN engineering. Written questions from the audience will be collected during the presentation and answered by the panel after the presentation.

- The City of Flint has also determined that in light of the serious concerns raised, it will secure the services of an external firm with expertise in managing drinking water quality to assess the steps that the city has taken, to make recommendations as to other steps to be taken, to oversee their implementation, and to monitor operations until the City's water source becomes the KWA. A Request for Proposal was issued on January 15, 2015, with proposals due back on January 26.

The DWSD Question:

As a result of the concerns raised, several community members have suggested that the City reconnect to the Detroit Water and Sewer Department (DWSD). DWSD has advised that they would be willing to allow such a reconnection without a hook-up fee. However, the City would be obligated to pay a fixed monthly charge of $846,700 plus the $14.92/Mcf cost of water itself and agree to a long term arrangement. The City's analysis of the DWSD proposal concludes that the City's cost would increase by more than $12 million per year at the proposed rates, and could increase even more as proposed rates are subject to change after July 1, 2015. This increase in costs would not be in the best interests of the City or its water users, as the City is committed to assuring safety and improving water quality by following its current plan, and reconnecting to DWSD would likely require deferment of existing capital improvements or an additional increase in rates.

Good morning Maureen,

Can you please tell me if you sent out a water notice to state-leased offices in Genesee County? I think Alex mentioned something was sent out, but I haven't seen it.

If you did send something, can you please share it with me?

Thanks.

Subject: Flint Warehouse

Good morning Maureen,

Wanted to take a few minutes this morning to recap what I understand is your request for warehouse space in Flint Michigan.

It's my understanding that you are requesting a warehouse that has 100,000 ft.^{2} of storage space and I believe we can provide that I'm just waiting for a final number back from the owner.
The building I have in mind is one we looked purchase a few years back for warehousing of food grade products such as sugar and pickles.
The building is extremely nice and was formerly used as medical table assembly and manufacturing so as you can imagine anything that was used in the medical field is almost pristine as a warehouse.
The numbers are requested from the order are to be all inclusive of electric, HVAC, taxes, and all other cams. We may have to provide snow plowing lawn care as I'm not sure whether that will be included as the former tenant provided that prior to the building being available. I'm working as hard and fast I can do negotiate a good price and to be able to make it available as early as today, however, if not we can pull the product into the Owosso warehouse and transfer it to an alternate site as soon as it's available.
I have some questions regarding the receiving and disbursement of the product.
When the items I received am assuming everything is on pallets and I can through the information below call you a price to receive the items in my question really is how will the item go out?
Will it go out in pallet quantities or will it have to be broken down and go out in case quantities and will it go to individuals or to a smaller Strait truck for local deliveries.
I'm guessing the rate will be inclusive of all items in the $6-$7 a square foot and we will probably have to sign a two-year lease.
Please let me know if the square footage in the needs are correct as noted above and let me know if the price is below are acceptable for us handling the product or will you have state or local employees handling the product.

The following is our rate quotation for the warehouse handling of palletized bottled water for State of Michigan and/or The City of Flint. The rates and conditions for warehousing, handling and are as follows:

A. The inbound receiving handling charges of $3.69 will be charged per pallet received into the warehouse. There will be a minimum handling charge of $22.50 per receipt.
B. The outbound handling charge of $0.28 per case of bottled water that is shipped from the warehouse. There will be a minimum handling charge of $22.50 per outbound shipment.
C. Extra Labor charges if need will be at $32.00 per man-hour.
D. State of Michigan will insure their contents in our warehouse against all losses, except for warehouseman's negligence.
E. All parties agree to abide by the Federal Uniform Commercial Code for warehousing.
F. At the State of Michigan and/or The City of Flint request, the warehouseman will work overtime at an addition charge of $42.00 per man-hour, with a two-hour minimum charge.
G. Payment Terms: 30 Days
H. Orders must be released by email, E.D.I., or Faxing order to Davis Cartage

I. Order cut off time is 4:00 P.M. E.S.T. the business day before the order ship date, Orders received prior to this time will ship the next business day.
J. Rush Orders: Orders received after 4:00 P.M. for next day shipping will be assessed a $50.00 rush order fee. Orders for same day shipping will be assessed a $50.00 rush order fee.
K. Miscellaneous supplies and pallets if required will be invoiced at 1.2 times the cost of supplies.

We will have our normal warehouse hours available between 8:00 A.M. and 4:00 P.M. on business weekdays, and if you request additional loading hours, we will offer 24 hours per day, 7 days per week shipping and receiving with additional charges for the overtime services.

Please advise as soon as you can as we are diligently working to provide this service as requested.

Thanks and best regards always,

Subject: RE: Flint Warehouse

Good morning again Maureen,

I've been pondering the situations since you first gave me the heads up yesterday and I actually have a couple other thoughts that he P extremely more cost-effective for the state.

First of all in order to store water it has to be a food grade rated warehouse. This means that the product won't have any bugs or mice walking across the water containers and the food leaving urines and droppings.
Any product in the state of Michigan that stores food is required to have this certification.
That said, let me run this by you we have full grade warehouses in Owosso we receive the product here and then strategically locate trailers throughout the city of Flint such as churches, fire stations, please departments etc. etc. This allows it to be handled on a as is need and can be terminated at any time and no large storage and distribution costs of an additional warehouse. All warehousing is food grade certified and can be set up to receive and distribute the pallets within the pricing range I gave you earlier and I believe the only storage fee would be like $2.50 a pallet per month. With the product having a very fast turnaround or set up for just-in-time shipping and then shipping out that cost would be minimal. This would save the state literally hundreds of thousands of dollars, provide the product at the location needed and in the quantities and timeframe needed to complete the project.

The orders could be called are sent into our warehouse and the trailers would be picked up and a new one replacing it we also have small heaters that would be placed in the trailers to keep the product from freezing overnight but this would only be for the next couple months while in the winter season. Hopefully the flat water problem can read resolved in the next 6 to 12 months and our services could be terminated at any time.

Just throwing this out there as a logistics person to see if it has any merit understanding with the state.

Again thanks and best regards,

Sam

Thank you Sam for responding so quickly, since this was an emergency situation, the department handling the request has asked for my help in finding warehouse space, they have been working on finding space as well. At this time we have no idea how much time, or how long this space will be needed for any length of time.

Right now I think they have found some space that might work out for them.

We will keep the space you are submitting in mind and on file. We will contact you as soon as we have determined the extent our need, or if the space found doesn't work out.

Again I thank you for your help.
Maureen

Subject: Food License Question

Question came as to whether the warehouse (3086 E. Cort Street in Flint) being used for temporary storage and distribution of bottled water needs an MDARD food license. After discussion with MDARD Food & Dairy Division Director Kevin Besey, under the circumstances and due to the nature of this facility no license is needed. If DTMB / Operations has any questions about sanitation, MDARD can have a food inspector available for any questions.

Subject: Sample Storage Space

Neal – Based on our phone conversation, I'm looking for storage/warehouse space for a potentially large amount of water samples over the next few months with the State of Emergency that is happening in Flint right now. Wondering if there are any locations near the Lab that we could utilize for this effort if necessary. At a minimum, the space would need to be secured and temperature controlled, only to prevent freezing. Also looking for pallets that can hold around 1000 Lbs or more. The idea is that we palletize samples here and have them transferred to this storage location on a daily/weekly basis as necessary. There is really no storage space for this kind of capacity here at the State Lab. Initial estimate of space needs based on the number of potential samples would be 1000-1500 ft^2, enough to hold around 100 (3'x4') pallets with additional space to maneuver around to get to specific pallets if necessary.

Sandip – Copying you on this message if you have any ideas that could help.

Thank you!
Kirby

Subject: Volunteer Opportunity in Flint

The State Emergency Operations Center (SEOC) is coordinating a response to the ongoing health and safety issues in the city of Flint's drinking water. Teams from the Michigan State Police, Genesee County Sheriff's Department, Michigan Department of Health and Human Services, and volunteer organizations have been delivering bottled water, water filters, replacement cartridges and water testing kits at homes in the city of Flint since Tuesday.

To help with this critical work, the SEOC is looking for volunteers to expand this effort and continue this distribution during the upcoming holiday weekend. Teams are being assembled for shifts on Saturday, January 16; Sunday, January 17; and Monday, January 18, 2016. If you are interested in volunteering your time for this critical work, please complete the information in one of the attached surveys (depending on which day you are volunteering).

To volunteer on Saturday, January 16, https://www.surveymonkey.com/r/28NVJBL

To volunteer on Sunday, January 17, https://www.surveymonkey.com/r/26NMJKK

To volunteer on Monday, January 18, https://www.surveymonkey.com/r/26P7P5G

Volunteers will begin their assignment at the Local Emergency Operations Center located in the Genesee County Administration Building located at 1101 Beach St, Flint at 9 a.m. and end by 4 p.m. Parking is available at the corner of Beach Street and 8th Street. Lunch will be provided. This is strictly a volunteer effort, as all three days will be unpaid. Volunteers are responsible for their own transportation; mileage reimbursement for personal vehicles is not authorized. Volunteers should dress for working outdoors and wear foot attire appropriate for walking.

This opportunity is for state employees and their immediate family members 16 years of age or older only, others looking to assist should volunteer through the American Red Cross in Flint. The volunteer coordination center for the Red Cross is located at 1401 S. Grand Traverse, Flint, MI. They are open from 9 a.m. to 7 p.m.

For more information on the state's response efforts, visit www.michigan.gov/flintwater.

Subject: Sample Storage Space

Neal – Based on our phone conversation, I'm looking for storage/warehouse space for a potentially large amount of water samples over the next few months with the State of Emergency that is happening in Flint right now. Wondering if there are any locations near the Lab that we could utilize for this effort if necessary. At a minimum, the space would need to be secured and temperature controlled, only to prevent freezing. Also looking for pallets that can hold around 1000 Lbs or more. The idea is that we palletize samples here and have them transferred to this storage location on a

daily/weekly basis as necessary. There is really no storage space for this kind of capacity here at the State Lab. Initial estimate of space needs based on the number of potential samples would be 1000-1500 ft^2, enough to hold around 100 (3'x4') pallets with additional space to maneuver around to get to specific pallets if necessary.

Sandip – Copying you on this message if you have any ideas that could help.

Thank you!
Kirby

Subject: 618 for DEQ Drinking Water Storage Space
Attachments: 618 Drinking Water Sample Storage.doc

Hi Maureen

Per our phone conversation, here is the official space request asking for 2600-3000 square feet of temperature controlled storage for our Remediation Division to store drinking water samples from Flint. It is imperative that this space be located near the State Lab on North Martin Luther King Blvd here in Lansing.

Let me know if you need additional information.

Thanks

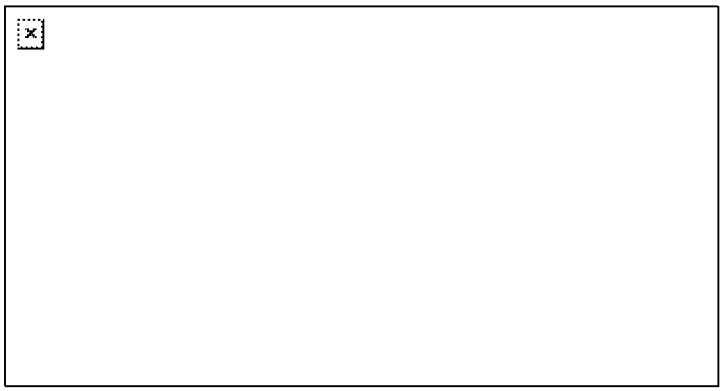
How we are fixing the Flint water crsis

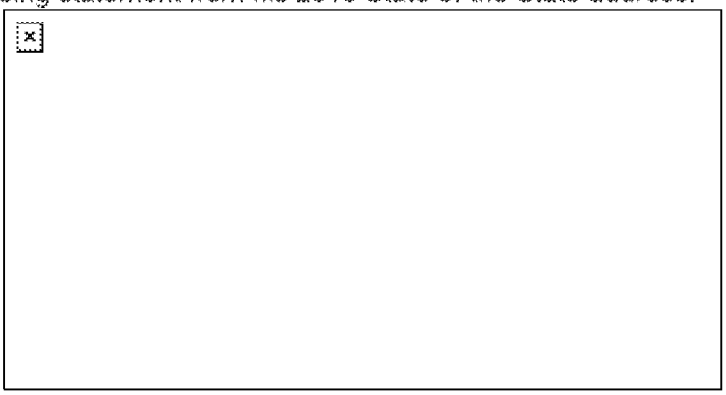
Governor Rick Snyder has committed to spending the rest of his time as Governor to fixing the Flint water crisis. Over the last few days, he has sat down to explain what happened and how we're fixing the Flint water crisis. Watch the interviews below and be sure to read the Governor's Op-Ed in the USA Today.



Governor Snyder on Morning Joe

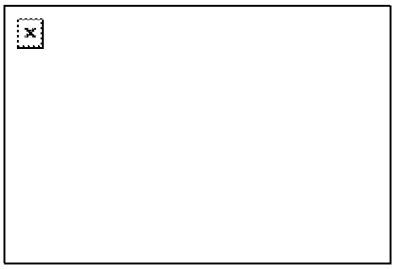
"What is so frustrating and what makes you so angry is you have a handful of experts who were career civil servants that made terrible decisions, in my view. We have to live with the consequences, and they worked for me, so I accept that responsibility. We are going to fix this problem." Watch Governor Snyder address how we are fixing the Flint water crisis on Morning Joe.

Governor Snyder with Charlie LeDuff on Fox 2 Detroit



"I feel awful about this. These are people. They've been harmed. You can't feel good about that. The people of Flint have been harmed and a major influence of that harm

came from people who worked for me, and I feel responsible for that. But I am committed to solving the problem and addressing the damage as much as possible for the rest of the time I'm Governor." Watch Governor Snyder address the Flint water crisis with Charlie LeDuff on Fox 2 News.



Governor Snyder's 2016 State of the State

"Michiganders don't quit, we don't give up, instead we will work with even more passion and commitment to truly improve our state. For everyone who's chosen to make Michigan their home, this is more than a promise, this is my commitment." Watch Governor Snyder's full closing statement from his 2016 State of the State address.

Governor in USA Today: "I will fix this, and I mean it."

"Residents in one of Michigan's proud cities cannot drink their water. That's unacceptable. The crisis in Flint arose from missteps at all levels of government — local, state and federal. But as governor, I take responsibility for what these families are going through, and I'm holding people in my administration accountable for their failures." Click here to read the Governor's full op-ed.

Washington Post: "Michigan Gov. Rick Snyder is in a tough spot, but he's his own best spokesman"

Snyder has born the brunt of criticism in the local health crisis that has turned into a national scandal. But unlike many other politicians facing crises of leadership, Snyder may also be his own best counter-programming. Click here to read the full story in the Washington Post.

Subject: DEQ New Lease Request in Lansing Area Assigned (2016-0095)

The following New Lease request has been received in the DTMB Real Estate Division and assigned as noted:

New Lease No: 11870
Address: 3306 N. Martin Luther King Blvd., Lansing
Request: New Lease – for controlled storage space for Remediation Division to store drinking water samples from Flint.
Assigned to: Maureen Bailey
Point of Contact: Maureen Bailey @ (517) 284-7929 or BaileyM1@michigan.gov
Project# 2016-0095

Per the requirements of Sec. 221 of the DMB Act:

- All leases must be approved by the State Administrative Board
- Leases exceeding $500,000.00, annual base cost require approval of the joint capital outlay subcommittee (JCOS).
- Rental Agreements exceeding $500,000.00, annual base cost require notification to the JCOS and to the fiscal agencies within 5 business days of execution.
- Renewals of an existing lease will require the approval of JCOS if the renewal results in changes to the lease that would cause it to meet the requirements above.

Hi DTMB Real Estate Team,

We are concerned with the criteria listed below as this lease needs to be expedited because it is directly related to the Flint water crisis. Is there a way to get this in front of the AD board right away vs. having to wait for their next meeting?

Also, do you have an estimated time frame as to how quickly we can take possession of this property?

Thanks so much for your help on this one.

Subject: Flint Volunteer Efforts

Dear State Employees,

Gov. Rick Snyder and I want to thank everyone who donated their time during the holiday weekend to deliver bottled water, water filters, replacement cartridges and water testing kits to families in the city of Flint. We are working hard to ensure all residents are provided with the safe water resources they need, and each donation and hour of your time volunteered goes a long way.

For employees who would like to help the residents of Flint, there are several opportunities to do so. Please visit www.helpforflint.com to learn how you can help.

For additional information and updates, visit www.michigan.gov/flintwater.

Again, thank you for all your support.

Sincerely, Mike Zimmer

Importance: High

Kirby,

I'm uncomfortable signing this lease until you have reviewed and approved the space, confirming it meets all of the needs of the lab. Biggest concern would be the contamination of the samples due to inadequate conditions related to temperature or other factors.

Paul

Brandon,

Can you make sure that our new guest have the parking activated. I did check two badges just before lunch and they are not working yet.
This is a big issue with DHHS and the limited parking they have for they're clients. So if we can have them directed to park there as soon as they can would be a great help to us.

I will assign one of my staff up there tomorrow morning to make sure they can get in.

Team,

We have reached out to Our Tenants DHHS Sandi Mose and talked about them giving up the 5 work station across from where FEMA is now.
DHHS has said there is no way that they could allow to lose that space. We were thinking that this space could be rebuilt to allow them to have multiple workers for FEMA to coordinate the operations.

However,

Sandi did mention that maybe the MCcree facility that they just moved out of is wide open and could house 180 staff as a possibility.

Please let us know if there is anything else we can do.

Subject: Contributing time, muscle and money

During this month's Martin Luther King Jr. holiday weekend, some state employees turned their "day off" into a "day on" in Flint. There, they delivered bottled water, water filters, replacement cartridges and water testing kits to families. The volunteers joined other Michiganders, turning Dr. King's birthday observance into a day of service.

Mike Zimmer, director of the Office of Good Government and the Department of Licensing and Regulatory Affairs, has shared a link – www.helpforflint.com – that offers other opportunities to contribute time, muscle and money to bring clean drinking water to the community.Here in DTMB, some of our employees didn't wait for an invitation to lend a hand. Office of Retirement Services staff contributed funds that were used to buy 31 cases and 23 gallons of water, which a local organization transported to Flint.

Autumn Hubbard, Ambrea Mack and Sarah Esquivel, who are in the photo at the left, nearly emptied the shelves at their local grocery store. Thanks for your efforts.

everyone.

Now work.

Last week, I signed a new policy that formalizes the annual employee review process and sets expectations for employees and managers. Administrative Policy 200.37 establishes consistent standards for implementing performance plans and reviews. Some of the standards are practices we have followed for years. Others are new. Some of particular note include:

- The mandatory use of HRMN
- A standard Feb. 1-Jan. 31 rating period for all employees
- An Individual Development Plan that specifies training or development programs for each employee
- Competencies and objectives that align to DTMB goals or scorecard metrics
- Consequences for managers and supervisors who do not complete the review process as required

A fundamental role of each DTMB manager or supervisor is to provide employees with direction and feedback on their performance. Employees also are expected to take an active role in pursuing professional development opportunities and achieving their competencies and objectives. I encourage you to review the new policy and talk with your manager or supervisor if you have questions. Of course, I welcome your questions and input as well. Please send your comments and ideas to me at behend@michigan.gov.

I know these have been busy weeks for many of you as you take on additional responsibilities and work hard to provide resources and services for our customers and citizens across the state. Please know that your hard work has not gone unnoticed. Thank you for everything you do, every day.

Have a great week,

David

Hi Will,

Carol has brought to my attention that there may be some concerns with the adjacent lease space at the Lab. She was also wondering if anyone has reached out to the DMVA across the road for possible storage space? Could you please advise to her concerns at your earliest convenience? Thanks in advance for your help with this Will and have a great day!!

Subject: Sample Storage Space

Neal – Based on our phone conversation, I'm looking for storage/warehouse space for a potentially large amount of water samples over the next few months with the State of Emergency that is happening in Flint right now. Wondering if there are any locations near the Lab that we could utilize for this effort if necessary. At a minimum, the space would need to be secured and temperature controlled, only to prevent freezing. Also looking for pallets that can hold around

1000 Lbs or more. The idea is that we palletize samples here and have them transferred to this storage location on a daily/weekly basis as necessary. There is really no storage space for this kind of capacity here at the State Lab. Initial estimate of space needs based on the number of potential samples would be 1000-1500 ft^2, enough to hold around 100 (3'x4') pallets with additional space to maneuver around to get to specific pallets if necessary.

Sandip – Copying you on this message if you have any ideas that could help.

Thank you!
Kirby

Hi Will,

Carol has brought to my attention that there may be some concerns with the adjacent lease space at the Lab. She was also wondering if anyone has reached out to the DMVA across the road for possible storage space? Could you please advise to her concerns at your earliest convenience? Thanks in advance for your help with this Will and have a great day!!

Subject: Sample Storage Space

Neal – Based on our phone conversation, I'm looking for storage/warehouse space for a potentially large amount of water samples over the next few months with the State of Emergency that is happening in Flint right now. Wondering if there are any locations near the Lab that we could utilize for this effort if necessary. At a minimum, the space would need to be secured and temperature controlled, only to prevent freezing. Also looking for pallets that can hold around 1000 Lbs or more. The idea is that we palletize samples here and have them transferred to this storage location on a daily/weekly basis as necessary. There is really no storage space for this kind of capacity here at the State Lab. Initial estimate of space needs based on the number of potential samples would be 1000-1500 ft^2, enough to hold around 100 (3'x4') pallets with additional space to maneuver around to get to specific pallets if necessary.

Sandip – Copying you on this message if you have any ideas that could help.

Thank you!
Kirby

Subject: Sample Storage Space

Neal – Based on our phone conversation, I'm looking for storage/warehouse space for a potentially large amount of water samples over the next few months with the State of Emergency that is happening in Flint right now. Wondering if there are any locations near the Lab that we could utilize for this effort if necessary. At a minimum, the space would need to be secured and temperature controlled, only to prevent freezing. Also looking for pallets that can hold around 1000 Lbs or more. The idea is that we palletize samples here and have them transferred to this storage location on a daily/weekly basis as necessary. There is really no storage space for this kind of capacity here at the State Lab. Initial estimate of space needs based on the number of potential samples would be 1000-1500 ft^2, enough to hold around 100 (3'x4') pallets with additional space to maneuver around to get to specific pallets if necessary.

Sandip – Copying you on this message if you have any ideas that could help.

Thank you!
Kirby

Subject: Sample Storage Space

Neal – Based on our phone conversation, I'm looking for storage/warehouse space for a potentially large amount of water samples over the next few months with the State of Emergency that is happening in Flint right now. Wondering if there are any locations near the Lab that we could utilize for this effort if necessary. At a minimum, the space would need to be secured and temperature controlled, only to prevent freezing. Also looking for pallets that can hold around 1000 Lbs or more. The idea is that we palletize samples here and have them transferred to this storage location on a daily/weekly basis as necessary. There is really no storage space for this kind of capacity here at the State Lab. Initial estimate of space needs based on the number of potential samples would be 1000-1500 ft^2, enough to hold around 100 (3'x4') pallets with additional space to maneuver around to get to specific pallets if necessary.

Sandip – Copying you on this message if you have any ideas that could help.

Thank you!
Kirby

Subject: Additional Space near MLK Lab Colocation

Hi There

I've been working with Maureen Baily (copied here) on obtaining temperature controlled storage space on a temporary basis near the MLK lab to assist with storing water samples related to the Flint crisis. We have signed a rental agreement for a house and garage adjacent to the lab; however we only intend to use the garage. Maureen mentioned that you may be interested in the house portion of the space which is great. Let me know if this develops into anything more than discussion and I'd be happy to work with you on creating an MOU and working out the details.

Just for clarification to make sure this would work with your plans, we would want to secure the house separately from the garage as our samples are considered sensitive and should have limited staff accessible to them. Also, the palettes of samples will be coming and going on a daily basis from the lab with a high-low so we'll need to make sure we have free and clear access to the garage bays from the driveway.

Our lab staff was just curious if you knew the names of your DHHS staff that would be working in this house. You don't have to disclose that information until the decision is made, but my guess is they are probably already working side by side in the lab. ☺

Thanks,

MK

The following Rental Agreement request has been received in the DTMB Real Estate Division and assigned as noted:

Lease No: 11872
Address: 2629 Pierson Rd., Flint, MI
Request: New Rental Agreement for Warehouse/Distribution Center for Flint water crisis.
Assigned to: Maureen Bailey
Point of Contact: Maureen Bailey @ (517) 284-7929 or BaileyM1@michigan.gov
Project# 2016-0110

Per the requirements of Sec. 221 of the DMB Act:

- All leases must be approved by the State Administrative Board
- Leases exceeding $500,000.00, annual base cost require approval of the joint capital outlay subcommittee (JCOS).
- Rental Agreements exceeding $500,000.00, annual base cost require notification to the JCOS and to the fiscal agencies within 5 business days of execution.
- Renewals of an existing lease will require the approval of JCOS if the renewal results in changes to the lease that would cause it to meet the requirements above.

Kurt,
On the corner of Clio and Pierson Road in the strip mall near your office there is a little over 8,000 square feet of medical offices (12 rooms) for a clinic if you think you want one close by your office. Hurley Medical Center built it out in 2008 and has since moved. The Landlord will give a really good square foot rate if you think someone may want to occupy it for the Flint lead testing site, or for any reason for that matter.
Thanks,
Maureen

Subject: Thank you for your service

THANK YOU!

Fellow employees,

Each day, more than 46,000 state of Michigan employees come to work with the confidence and commitment to make Michigan a better place to live, work and play. I appreciate the way you care about the citizens we serve, and how it is reflected in the work that you do.

As you have heard from me and the media, our reputation and trust can be severely impacted when people do not make good decisions, or use good judgment in solving problems. That principle is universal, but never more so than when public health is at stake. What happened in Flint can never be allowed to happen again anywhere in our state.

I know that you want to work in a place where employee input is valued, efforts are recognized, and teams are always striving for continuous improvement. That's why we introduced employee surveys, Bureaucracy Busters and other reinvention initiatives. We want and deserve a culture of innovation, continuous improvement and employee engagement at every level. We can never take for granted how important the people are who depend on us to do our jobs, and I am asking you not to let the situation in Flint negatively impact your motivation to excel every day.

Many of you have taken an interest in helping the citizens of Flint on your own time, and I'd like to take this opportunity to recognize and thank those who have volunteered over the last couple of weekends. You have worked tirelessly to deliver cases of bottled water, water filters, replacement cartridges and water testing kits to the families in need. I appreciate you donating your time to help our fellow Michiganders. To date, more than 37,000 homes have been visited by one of our water resource teams.

For employees who would like to further help the people of Flint, please visit www.HelpForFlint.com to learn how you can do so. For additional information and to sign up for daily updates, please visit www.mi.gov/FlintWater. I am committed to ensuring that all residents have access to safe and clean water.

Again, I'd like to express my gratitude for the work you do every day to continuously improve our state and earn the trust of those you serve. You make a real difference.

Thanks,

Governor Rick Snyder

Good morning… just a follow up from Terry Martin, et al… Diana McKittrick (CAC director) and I had a conference call with Terry this morning… CAC is willing to have the office here in Gilbert Hall (first floor) with its own entrance.

Terry and the person who will be staffing the office will be out next week at some time to visit Gilbert hall and see the accommodations. CAC will require a small 'rental fee' , however. They will discuss this with Terry.

For some reason if it does not work out here at Gilbert Hall, I spoke to Dave Lurvey this morning… Dave and Rigeway could find space in downtown Flint for them… but we are relatively positive that it will out in Gilbert Hall.

Just an update. Thanks..

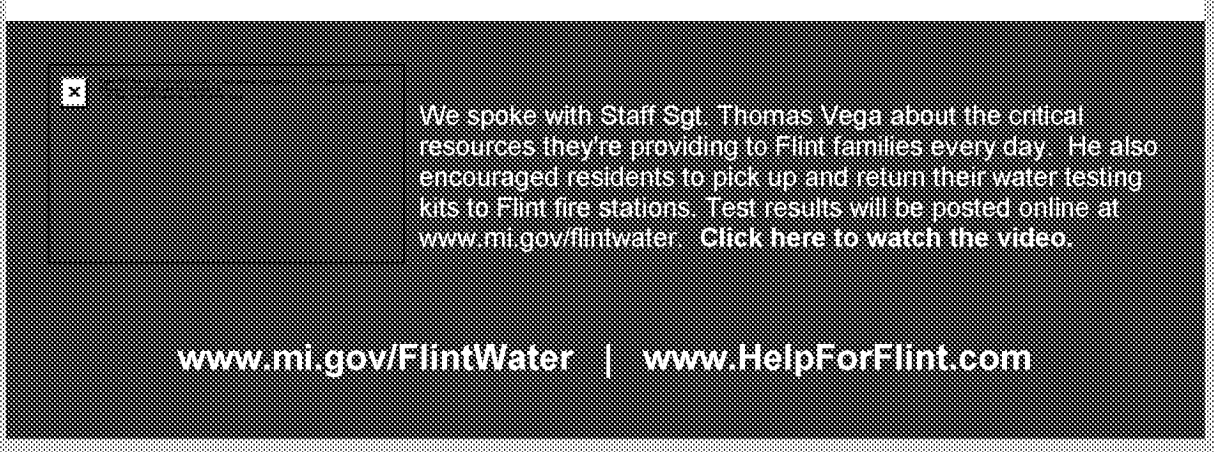
Sent: Wednesday, February 03, 2016 6:02 PM
To: Bailey, Maureen (DTMB)
Subject: "Flint residents should not have to pay for water they cannot drink"

Budget recommendation will include $30 million request for Flint water bill repayments

When Governor Rick Snyder presents his budget recommendation next Wednesday, Feb. 10, he will include a $30 million request for the residents of Flint to keep their water service on and eliminate the need to pay for water they cannot completely trust to drink.



Under the governor's ask, the funding would enable the city of Flint to apply credits for customers on future bills. Estimates show water is roughly 47 percent of billing and sewer costs are around 53 percent. The credit would be applied to consumption usage (roughly

65 percent) of a resident's water portion of the bill, such as for bathing, drinking, cooking, and washing your hands. Residents still would be responsible for paying the sewer portion of their water bills.

Professor Marc Edwards of Virginia Tech said, "This essentially refunds all the money associated with consumption or consumer use. I think it's an amazing gesture of common sense and good will and it corrects an injustice. I don't think there's a precedent for this. I feel so encouraged by the direction this is going."

Click here to learn more about the budget request.

Hi Keith,
I spoke with Jeanette Doll this morning, the address is for the food bank is 2300 Lapeer Road, Flint, 48503 Please call 810-239-4441, they will schedule a dock time for you to deliver.

She won't call you back since she knew I was calling for you.

If you had a semi full you would go to the warehouse below, they are unloading up to 30 semi's a day, most days, they don't have any schedule, trucks just show up....

It is Bell Warehousing & Manufacturing Services, Inc.
Gary Porrett Sr.
5510 Clio Road
Flint, MI 48504
Phone #810-275-7926

Hope this works for you.

Subject: NEWS UPDATE--Senate OKs $30M For Flint Water Bills

Thursday, February 4, 2016, 11:34 AM

Senate OKs $30M For Flint Water Bills

The Senate in a surprise move passed a bill today with $30 million to the city of Flint to essentially reimburse Flint residents on their water bills for water they could not use as a result of the city's contaminated water.

The money came via an amendment by Sen. Rick Jones (R-Grand Ledge) on SB 136, which was discharged from the Senate Appropriations Committee.

"Everybody in this room knows that Flint has had a major problem with their water. We all want to do what we can to fix it. Nobody in this room is to blame," Mr. Jones said in a statement on the floor. "What I want to do as a former sheriff who believes in action is take care of those water bills."

Senate Minority Leader Jim Ananich (D-Flint) unsuccessfully attempted to change the amount of money to $60 million.

Wednesday, about 12 hours after Governor Rick Snyder revealed his proposal for $30 million, top Senate Republicans did not commit to supporting it. But that clearly changed quickly.

Subject: FOIA Request
Importance: High

I have a meeting today at 3:30 to discuss this. What if any records would we have to support this? Thoughts on process and time to respond for our Team?

Request for Public Record

To: FOIA Coordinators via email

I am a person as defined under Michigan FOIA. Please accept this correspondence as a request pursuant to the Michigan Freedom of Information Act (FOIA) Michigan Compiled Laws §15.231 to §15.246 *et seq*., the Michigan Constitution and common law, and the U.S. Constitution, for certain public documents hereinafter specified.

Date of Request: 2/4/16 **Time:** 4:40 p.m. via email

Person Requesting Record: Matthew Dolan Phone: 313-223-4743

Mailing address: Detroit Free Press

160 W. Fort Street

Detroit, MI 48226

Email Address: msdolan@freepress.com **Fax:** n/a

Delivery Specifications:

Please select the quickest form to be able to view the documents:

∟**Email:** to requestor at the email address above if possible, and if not please mail to the address above.

∟**In-office Inspection:** Please contact me with an acceptable contact, time, and date when I may appear for inspection and possible scanning of documents.

∟**Pick- up:** Please contact me with an acceptable contact, time, and date when I may pick up the documents.

Auditor or Attorney: _____ Contact: _____

Media Specification: Paper Copies or Email attachment less than 20 MB, CD-ROM or DVD, unless certain records are not available in computer format, in which case response by fax or in-person viewing is preferred

Records requested: The records and documents I am requesting are all those relating to:

Copies of the documents, including but not limited to emails already requested by and provided to Progress Michigan or those associated with the organization related to any and all discussion of Flint's water supply, including but not limited to contaminant such as lead and copper in the water as well as any and all discussion of Legionnaire's disease in Genesee County, Mich.

For the purposes of this request, the term "**you**" or "**your**" refers to public body generating or maintaining the public records requested in this request, and to which this request is directed, whether that be an agency, municipality, office, county, or any other entity subject to disclosure under this act; the term "**records**" refers to all documents, regardless of physical form (including without limitation papers, reports, notes of telephone conversations, telephone call messages, studies, proposals, indices, letters, messages, faxes, minutes, logs, journal entries, calendars, and computer-based or computer-generated materials including e-mail, or any other documentation of any kind of any and all kind) of or belonging to any department, agency, service area, board or other subdivision of the public body. "Records" shall include drafts of records to the extent permitted by law; The term "**email**" includes any electronic message and any attachment to any such message, and specifically includes emails sent or received by an officer, agent, or employee using an email address other than that person's official government issued email address if sent or received while on duty, using a government computer, in a government building, sent or received using a government contact list, or other using any other government resource.

Michigan law requires you to respond to this request not more than five (5) days from your receipt of this request, but you are asked to expedite this request if possible. If this request is sent by fax or email, the time to comply begins the day after the faxed request is sent to you. If your

agency does not maintain these public records, please let my designated auditor know who does, and include the proper custodian's name and address. If this fax request does not go directly to the office of the FOIA coordinator, you must deliver it there immediately. If you deny any part of this request, please indicate the name and position of the person too who an appeal should be directed prior to instituting suit, so that needless litigation in which costs, damages, and attorney fee may be taxed against you might be avoided.

Take notice of the penalties and consequences for failure to comply with this request: Willful violation of FOIA by refusing to disclose or delaying in disclosing or providing copies of a public record, may result in the court awarding in addition to any actual or compensatory damages, award punitive damages in the amount of $500 to the person seeking the right to inspect or receive a copy of a public record. Reasonable attorneys' fees, costs, and disbursements" will be awarded to any person who prevails in an action to compel disclosure under MCLA § 15.240. If the requesting person only prevails in part, "the court may, in its discretion, award all or an appropriate portion of reasonable attorneys' fees, costs, and disbursements.

Because of the civic educational purpose of this request, I request a fee waiver and ask that you determine that a waiver or reduction of the fee is in the public interest because furnishing copies of the public record can be considered as primarily benefiting the general public." MCLA § 15.234(l)

I agree to pay any reasonable search, copying, and postage fees of not more than $2.00. If the cost would be greater than this amount, Please immediately contact me by telephone or email if you anticipate that the costs will exceed this amount, so as not to cause delay in the prompt disclosure of the records requested. I may appear in person to inspect the documents on scan them using my portable equipment. Please provide a receipt indicating the charges for each document. The Michigan FOIA law provides that, "A fee shall not be charged for the cost of search, examination, review, and the deletion and separation of exempt from nonexempt information as provided in section 14 unless failure to charge a fee would result in unreasonably high costs to the public body because of the nature of the request in the particular instance, and the public body specifically identifies the nature of these unreasonably high costs. MCLA § 15.234(3).

If the documents I have requested are not subject to disclosure in their entirety, I request that you release all nonexempt portions of the documents that may be segregated and all parts of the documents that can be rendered disclosable by redaction without fee. If you determine that any of the requested documents fall within a statutory exemption, I request that you exercise your discretion to disclose those materials because of the overriding public concern about the improper use of government email systems and resources to further political agendas. As to any portion of the documents that you withhold, please state with specificity the legal and factual basis for withholding such portion. To the extent that you are unable to produce copies of or otherwise make available all records requested within the time frame provided, please notify my auditor in writing and provide me with those records that are available within the prescribed time frame and the remainder of the records on a "rolling" basis as they become available for production.

I appreciate your anticipated prompt cooperation and will expect your response within 5 days, as required by the act. If you need further explanation of the details or the nature or scope of this request, please feel free to call me or my designated auditor or attorney specified above using the contact information provided.

Follow Up Flag: Follow up
Flag Status: Flagged

Thanks for the update Jamie. It doesn't sound like the "open space" will work for our staff due to the sensitivity of their work on this project.

Maureen: Are there any other agencies in Flint that might have room for 10 DEQ staff to squat for a while? We could draw up an MOU with that agency.

Subject: RE: Flint SOB Space for 10 DEQ Staff?

Mary Kay-

Sadly, we are full at the Flint State Office Building. Civil Rights moved out of the 5th floor back in November and DHHS is temporarily using the vacant DTMB space as well as part of Civil Rights' space until the 7th floor is finished. DHHS will then be reconfiguring and taking over the 5th floor space in March. We have converted all unused/unassigned space within the building into work areas for different groups responding to the water issues (DHHS, CDC, FEMA, etc).

I was informed today that a group of 10-15 people may be leaving on the 20th. This group is sitting in an open area with tables and chairs to hold 40 people. Other groups will still be in the area though and some of them are not state employess.

Thanks,

Jamie Phillippo

Subject: RE: Flint SOB Space for 10 DEQ Staff?

Mary Kay,
There is office space located at the same strip mall on Pierson Road in Flint. As you know the DHHS space is there as well as the prior Kroger store, 74,000 square feet, just leased by DTMB for the water filters and water distribution. The space was originally built-out by Hurley Medical Center, it has twelve offices etc. He is offering it @ $9.63 psf. Perhaps you can share this space with other departments that may need space if you can't use all of this space.
Please see the information below from the Landlord, just in case there isn't room at the State Office Building.
Thanks,
Maureen

Here is the data on the medical space build-out.

Size: 7800 square feet, single story, barrier free
Four restrooms, twelve, possibly more individual offices, large main office with built-in work stations, central filing bank in main office, large lobby, children's play area with restroom, large space for potential conference area.

Power operated entrance doors (two sets) additional storage in rear if needed in fenced-in location inside of 8,100 of storage space. We will replace all burned out lights, clean carpeting, paint walls which may require

same, clean restrooms and make ready for occupancy. The phone system KSU is in the building and would only need compatible phone instruments. The building also has a security system which could be activated. It is fully sprinkled.
Cost for all-inclusive lease, one year minimum is $6500 per month.

Let me know if anyone is interested as painting and cleaning can take a couple of days. Thanks.

Size: 7800 square feet, single story, barrier free
Four restrooms, twelve, possibly more individual offices, large main office with built-in work stations, central filing bank in main office, large lobby, children's play area with restroom, large space for potential conference area.

Power operated entrance doors (two sets) additional storage in rear if needed in fenced-in location inside of 8,100 of storage space. We will replace all burned out lights, clean carpeting, paint walls which may require same, clean restrooms and make ready for occupancy. The phone system KSU is in the building and would only need compatible phone instruments. The building also has a security system which could be activated. It is fully sprinkled.
Cost for all-inclusive lease, one year minimum is $6500 per month.

Let me know if anyone is interested as painting and cleaning can take a couple of days. Thanks.

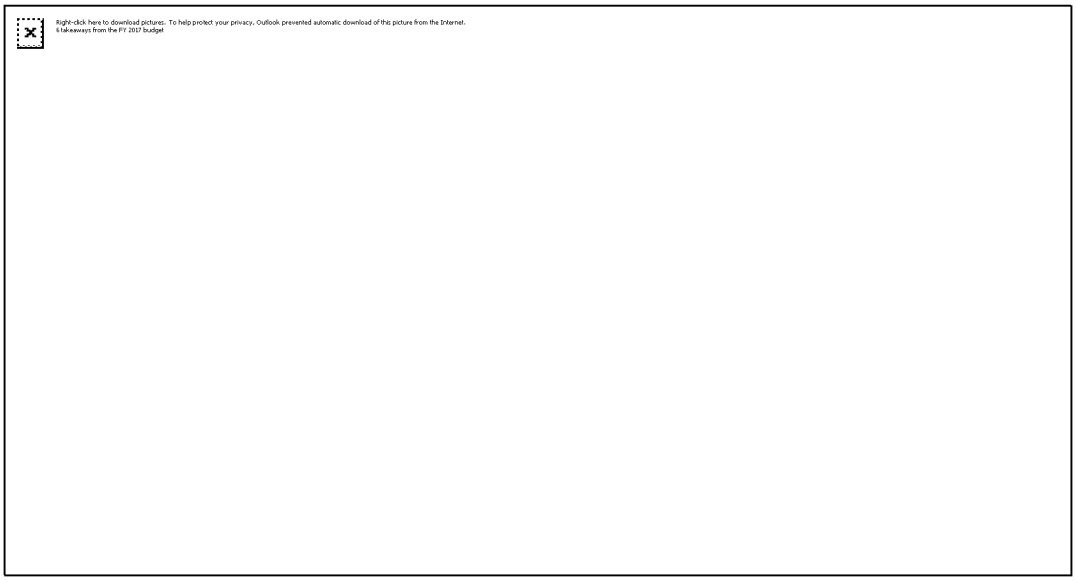
Subject: Flint SOB Space for 10 DEQ Staff?

Hi There

Amy Epkey asked me to look into finding space for approximately 10 DEQ staff that are working on the Flint water crisis. She heard that there is vacant space on the 5th floor. Any truth to that? Or any other ideas?



Thanks

MK

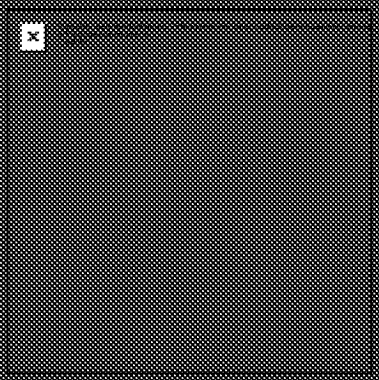
Subject: What this year's budget means for Michigan...

VIDEO: What Governor Snyder's FY17 budget means for Michigan

Gov. Rick Snyder's FY 2017 budget calls for critical investments for the Flint water crisis, statewide infrastructure and the Detroit Public Schools. The governor's recommendation also addresses the skyrocketing costs of specialty medications that Michigan residents depend on for better health outcomes.



This budget also stays committed to the Governor's core statewide priorities of education, talent and economic development, health and human services, and public safety.

The proposed FY 2017 budget makes key investments to strengthen the state for all of Michigan's families. Click here to learn more about the top 6 takeaways from the

Governor's FY 2017 state budget.

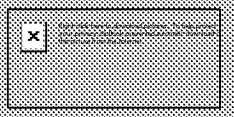
MIRS BREAKING NEWS: Gov Releases 21K Pages Of Department Documents Related To Flint -- 11:31 a.m.

http://www.mirsnews.com/alert.php?alert_id=2193

Gov. Rick **SNYDER**'s office today unleashed 21,065 pages of documents from several of his departments related to the Flint water crisis.

The Governor's office described the emails and documents as having been "made available to requesting entities from state departments regarding the Flint water crisis."

The documents span across the Michigan Departments of Environmental Quality (DEQ), Health and Human Services (DHHS), Treasury, Agriculture and Rural Development (MDARD) and Technology, Management and Budget (DTMB).



Since Snyder released his own emails about Flint from 2015 and 2014, he has faced pressure from Democrats and others to release more, including Snyder's earlier emails, his executive office staff's correspondence and emails from his departments.

Today's document dump appears to fulfill the latter of those demands.

A link at the Governor's office here provides links to download all the documents, with four separate files of DEQ correspondence.

MIRS BREAKING NEWS: Congressional Oversight Committee Puts Snyder On The Schedule -- 1:45 p.m.

http://www.mirsnews.com/alert.php?alert_id=2194

Gov. Rick **SNYDER** and other key players in the Flint water crisis have been put on the agenda to testify in front of the U.S. House Committee on Oversight and Government Reform in an upcoming hearing.

U.S. Rep. Jason **CHAFFETZ** (R-Utah), who chairs the committee, said in a statement that he accepted a request from Snyder to testify before the committee and remains committed to investigating the failures in Flint.

"We appreciate Gov. Snyder's willingness to appear before the Committee and look forward to hearing from EPA Administrator (Gina) **McCARTHY,** as well," he said in the statement. "Their perspectives on this issue are important as we seek to ensure a crisis of this magnitude never occurs in another American city. The diverse and insightful panel of witnesses assembled will shed light on many of our remaining questions and help us propose reforms to the authorizing committees."

The hearing does not yet have a set time or date, but is set to include testimony from the following:

- Snyder

- McCarthy

- Susan **HEDMAN**, former Region 5 Administrator for the U.S. Environmental Protection Agency (EPA)

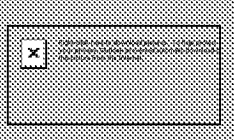
- Darnell **EARLEY**, former emergency manager of Flint

- Dayne **WALLING**, former mayor of Flint

- Marc **EDWARDS**, the Virginia Tech researcher who worked to expose high lead levels in Flint River water

- Miguel **DEL TORAL**, EPA Region 5 water expert

In a statement released this afternoon, Snyder said he asked the chairman of the U.S. House Committee on Oversight and Government Reform for an opportunity to explain how the local, state and federal governments combined to fail the people of Flint and the improvements he is recommending at the federal level as well as in Michigan.



"The people of Flint have suffered because they were failed by all levels of government, and so it is understandable that there are questions at all levels of government," Snyder said in the statement. "In Michigan we are learning a great deal from this crisis and I am hopeful the federal government also will use this as an opportunity to examine health and safety protections in place, assess infrastructure needs, and avoid this type of crisis in the future."

The U.S. House Committee held a hearing Feb. 3 featuring testimony from the EPA and local government officials, and Flint resident LeeAnne **WALTERS**.

At that hearing, the state was represented by Keith **CREAGH**, interim director of the Michigan Department of Environmental Quality.

VIDEO: How volunteers are helping Flint

Volunteers at the Food Bank of Eastern Michigan are working hard to collect donations in order to help the families of Flint. Last Thursday, Governor Snyder visited with the many dedicated volunteers and helped sort cans of food.

Good nutrition is critically important for Flint's children. Foods that are high in calcium, vitamin C, and iron can help limit the effects of lead exposure. To donate or volunteer at the Food Bank of Eastern Michigan, visit www.fbem.org.

Subject: The Gov. Snyder's Budget Proposal

Good morning everyone. I hope everyone had a great holiday weekend.

I had the good fortune to travel to Marquette on Monday with Chad Laidlaw, DTMB's policy and planning analyst, to meet with city, business and university leaders and to address the Economic Club of Marquette. I told them about the many things DTMB does, placing special emphasis on our work in mobility and cybersecurity. Marquette is really developing and making its mark as an innovative and entrepreneurial community.

Now work.

The executive budget Gov. Snyder presented last week outlined his investment plan for Michigan. Yes, the proposal for fiscal year 2017-18 outlined a strategy to address the critical challenges of addressing the Flint water crisis and turning around Detroit's Public Schools, but the $54.9 billion plan also includes investment in four key areas:

- **Education.** The budget increases investment to K-12 schools, community colleges and the state's public universities. Additional funds are proposed to expand career, technical, science, technology, engineering and math programs.
- **Protecting the Public.** The governor's plan expands the Secure Cities program, which has reduced violent crime in four major Michigan cities. Funds also would support an additional trooper recruit school and an academy to train corrections officers, among other initiatives.
- **Putting People First.** The governor recommends continued expansion of the Healthy Kids Dental Program and funding efforts to ensure residents have access to affordable health care. His proposal boosts funds to help cover new higher cost specialty medications to treat conditions such as hepatitis C and cystic fibrosis, among others.
- **Investing in Infrastructure.** The proposal allocates $1.2 billion to maintain and repair Michigan roads, bridges and other critical infrastructure.

The budget proposal also includes FY 2017-18 funding recommendations for DTMB. Gov. Snyder recommends ongoing funding of $1.3 billion for department operations and a one-time allocation of $32.4 million.

A few highlights include:

- $502 million for information technology support for all state agencies and $132.8 million for 14 high-priority IT projects in seven agencies. He recommends increasing the Information Technology Investment Fund by $7 million, from $65 million to $72 million. This fund supports several major multiyear IT projects and upgrades, including the replacement of outdated legacy systems.
- An additional $5 million to support cybersecurity improvements to safeguard citizens' personal information and protect critical infrastructure and government services.
- IT support of $6.5 million to modernize the Office of Retirement Services' systems and enhance customer service for more than 530,000 current and future retirees.

You can see the full executive budget recommendations, which are posted on the Budget Office website. Details of DTMB's proposed budget begin on page B-75.

We can expect to see many changes before the budgets are signed and become effective Oct. 1. The executive budget will be used by the House and Senate Appropriations Committees as they work on their own budgets and hold committee hearings on the proposals. I'll keep you posted as the process moves ahead.

As always, I welcome your notes, whether about the budget process or any other topic. Please send them to me at behend@michigan.gov.

Thank you again for all the good work you do. I hope you have a great week ahead.

David

Subject: DTMB New Lease Request in Flint Assigned (2016-0138)

The following New Lease request has been received in the DTMB Real Estate Division and assigned as noted:

Lease No: 11876
Address: T.B.D
Request: Warehouse space for water and other storage items for the Flint Water Emergency.
Assigned to: Maureen Bailey
Point of Contact: Maureen Bailey @ (517) 284-7929 or BaileyM1@michigan.gov
Project# 2016-0138

Per the requirements of Sec. 221 of the DMB Act:

- All leases must be approved by the State Administrative Board
- Leases exceeding $500,000.00, annual base cost require approval of the joint capital outlay subcommittee (JCOS).
- Rental Agreements exceeding $500,000.00, annual base cost require notification to the JCOS and to the fiscal agencies within 5 business days of execution.
- Renewals of an existing lease will require the approval of JCOS if the renewal results in changes to the lease that would cause it to meet the requirements above.

Subject: Re: Replacing plumbing fixtures, valves, etc. at Michigan School for the Deaf (MSD) in Flint

Dave,

Thank you for the follow-up to Mark's e-mail. We are already working with Johnson & Wood and Jeff regarding the faucet replacement program as a whole, so that should be no problem at all. They are both key pieces in us completing this project!

We are currently working on obtaining the last of the faucets needed to complete work in the main school building at MSD. If I am able to get that order before the end of the week, I would like to try and complete work in all three buildings this weekend. I will certainly keep you posted as I know more.

If you have any questions, please do not hesitate to get in touch with me. We greatly appreciate everyone working with us on this project.

Have a great evening,

Alesha

>
> > Good afternoon Joe,
> >
> > For the benefit of other people copied on this e-mail, I need to explain that you are the Chief of the Plumbing Division with Michigan Department of Licensing and Regulatory

Affairs (LARA) and have been leading the efforts of the Joint LARA/DEQ team that has tested water and inspected the plumbing system at MSD.

For clarity purposes, I feel the need to recap our conversation that we had yesterday.

You explained to me that LARA has made a material list of further plumbing upgrades needed to be made and that you plan to coordinate a team of plumbers coming into MSD as soon as possible to change:

1. Water supply valves to sinks in Stevens Hall
2. Faucets in the school building

I explained that MSD is not a typical school facility in that we are situated on private property that is leased from Lurvey-White Ventures of Flint (State Lease Number 11530-2010). Ultimately, the landlord holds responsibility for maintenance of the facility per the terms of the lease.

Neither Michigan School for the Deaf, nor our parent agency, the Michigan Department of Education, are able to assume any responsibility for any of the work that would be performed. It's our hope that you will obtain any necessary consent from the property owner before proceeding with any modifications.

At the same time, we would like to express our deepest gratitude for you sharing your technical expertise and making such strident efforts to ensure the safety of our students and staff.

Sincerely,

Mark Bouvy, Administrative Manager

Subject: FW: City of Flint WATER
Attachments: Flint Water.pdf

Flint water is unsafe.

IMPORTANT INFORMATION ABOUT YOUR DRINKING WATER

City of Flint Did Not Meet Treatment Requirements

Our water system was recently found to be in violation of a drinking water standard. Although this incident was not an emergency, as our customers, you have a right to know what happened and what we are doing to correct this situation.

We routinely monitor for the presence of drinking water contaminants. Samples were collected for total trihalomethanes (TTHM) analysis from eight locations on a quarterly basis (May 21, August 21, and November 20 of 2014). The average of the results at **ANY** of the eight locations must not exceed the maximum contaminant level (MCL) for TTHMs, otherwise our water system exceeds the Maximum Contaminant Level (MCL). The standard for TTHMs is 80 ug/L. The location reporting the highest TTHM level was 81 ug/L, thus, our water system exceeds the TTHM MCL.

What should I do?

- There is nothing you need to do unless you have a severely compromised immune system, have an infant, or are elderly. In that case, you may be at increased risk and should seek advice about drinking water from your health care provider.
- You do not need to boil your water or take other corrective actions. If a situation arises where the water is no longer safe to drink, you will be notified within 24 hours.

What does this mean?

This is not an emergency. If it had been an emergency, you would have been notified within 24 hours.

People who drink water containing trihalomethanes in excess of the MCL over many years may experience problems with their liver, kidneys, or central nervous system, and may have an increased risk of getting cancer.

What is being done?

We are currently working on solutions to correct the problem. We anticipate resolving the problem in 2015.

For more information, please contact Mr. Brent Wright or Mike Glasgow at 810-787-6537 or the Water Plant at 4500 North Dort Highway, Flint, MI 48505.

Please share this information with all the other people who drink this water, especially those who may not have received this notice directly (for example, people in apartments, nursing homes, schools, and businesses). You can do this by posting this notice in a public place or distributing copies by hand or mail.

This notice is being sent to you by the City of Flint.

CERTIFICATION: F1 S3 WSSN: 02310

I certify that this water supply has fully complied with the public notification requirements in the Michigan Safe Drinking Water Act, 1976 PA 399, as amended, and the administrative rules. Reminder to water supplier: This notice/certification must be sent to the DEQ.

David,
Kmart (3083 Miller Rd Flint, MI 48507) closed their doors on 12/7/14.
I wonder if this building would be available for McCree staff (in the event we move from that building)?

As an FYI –
I believe this building is located in Flint Township and would eliminate Flint city taxes being deducted from DHS staff at this location.
The Clio Road office is still within Flint city.

To: scherman810@comcast.net
Cc: Doxie, William (DTMB)
Subject: Warehouse Space in Flint for Storage.

Mr. Scherman,

In writing this e-mail, we are setting down the terms we have agreed to with MSP-Homeland Security, and DTMB and yourself for a Rental Agreement to follow tomorrow.

You have agreed to begin to receive eight semi loads of product tomorrow and every day after until Saturday, this may continue indefinitely next week. We are not sure at this time how long this will continue.

You have agreed to supply 100,000 square feet of warehouse space @$3.00 per square foot (psf). In addition, you will provide fork trucks and personnel to unload up to eight (8) semi loads a day of water and other materials needed to help relieve the water crisis in Flint.
You have agreed to $1.50 per lift to unload off a semi (a lift consists of removing the 1-2 pallets at a time, storing the product for an undetermined amount of time, taking it back to a truck/semi and loading it back on) this cost is to provide the fork lifts and the labor to move these semi loads of product (undetermined at this time) but probably consisting of bottled water, and other donated products for the residence of Flint.

The costs will pay for fuel and employee costs managing the product, you will keep a running total of these costs and will send a comprehensive itemized invoice each month for these services.

There will be no management fee.

Please indicate you have agreed to these terms by return mail.

Maureen S. Bailey, Property Specialist

Subject: Re: Warehouse Space in Flint for Storage.

Maureen Bailey,

I agree to these terms with the following exceptions: See items number in red in the body of your email.

1. We will cover this Saturday but we cannot commit to every Saturday. We can discuss Saturday deliveries on a week to week basis

2. Just to clarify - We will keep a running tally of the number of lifts and the square feet of space and send comprehensive invoice each month.

From: Sam McLaren [mailto:samiam.samiam@gmail.com] On Behalf Of Sam
Sent: Wednesday, January 13, 2016 7:55 AM
To: Bailey, Maureen (DTMB) <baileym1@michigan.gov>
Cc: 'Laura Walker' <walkerlauraann@gmail.com>
Subject: Flint Warehouse

Good morning Maureen,

Wanted to take a few minutes this morning to recap what I understand is your request for warehouse space in Flint Michigan.

It's my understanding that you are requesting a warehouse that has 100,000 ft.^{2} of storage space and I believe we can provide that I'm just waiting for a final number back from the owner.
The building I have in mind is one we looked purchase a few years back for warehousing of food grade products such as sugar and pickles.
The building is extremely nice and was formerly used as medical table assembly and manufacturing so as you can imagine anything that was used in the medical field is almost pristine as a warehouse.
The numbers are requested from the order are to be all inclusive of electric, HVAC, taxes, and all other cams. We may have to provide snow plowing lawn care as I'm not sure whether that will be included as the former tenant provided that prior to the building being available. I'm working as hard and fast I can do negotiate a good price and to be able to make it available as early as today, however, if not we can pull the product into the Owosso warehouse and transfer it to an alternate site as soon as it's available.
I have some questions regarding the receiving and disbursement of the product.
When the items I received am assuming everything is on pallets and I can through the information below call you a price to receive the items in my question really is how will the item go out?
Will it go out in pallet quantities or will it have to be broken down and go out in case quantities and will it go to individuals or to a smaller Strait truck for local deliveries.
I'm guessing the rate will be inclusive of all items in the $6-$7 a square foot and we will probably have to sign a two-year lease.
Please let me know if the square footage in the needs are correct as noted above and let me know if the price is below are acceptable for us handling the product or will you have state or local employees handling the product.

The following is our rate quotation for the warehouse handling of palletized bottled water for State of Michigan and/or The City of Flint. The rates and conditions for warehousing, handling and are as follows:

The inbound receiving handling charges of $3.69 will be charged per pallet received into the warehouse. There will be a minimum handling charge of $22.50 per receipt.
The outbound handling charge of $0.28 per case of bottled water that is shipped from the warehouse. There will be a minimum handling charge of $22.50 per outbound shipment.
Extra Labor charges if need will be at $32.00 per man-hour.
State of Michigan will insure their contents in our warehouse against all losses, except for warehouseman's negligence.
All parties agree to abide by the Federal Uniform Commercial Code for warehousing.
At the State of Michigan and/or The City of Flint request, the warehouseman will work overtime at an addition charge of $42.00 per man-hour, with a two-hour minimum charge.
Payment Terms: 30 Days
Orders must be released by email, E.D.I., or Faxing order to Davis Cartage
Order cut off time is 4:00 P.M. E.S.T. the business day before the order ship date, Orders received prior to this time will ship the next business day.
Rush Orders: Orders received after 4:00 P.M. for next day shipping will be assessed a $50.00 rush order fee. Orders for same day shipping will be assessed a $50.00 rush order fee.
Miscellaneous supplies and pallets if required will be invoiced at 1.2 times the cost of supplies.

We will have our normal warehouse hours available between 8:00 A.M. and 4:00 P.M. on business weekdays, and if you request additional loading hours, we will offer 24 hours per day, 7 days per week shipping and receiving with additional charges for the overtime services.

Please advise as soon as you can as we are diligently working to provide this service as requested.

Thanks and best regards always,

Subject: Warehouse space for the State of Michigan

Mr. Porrett:

In writing this e-mail, we are setting down the terms we have agreed to with MSP-Homeland Security, and DTMB and yourself for a Rental Agreement to follow.

1- You have agreed to begin to receive up to fifteen (15) semi loads of product today-January 13, 2016, and every day after until Saturday, this may continue indefinitely next week. We are not sure at this time how long this will continue. We are not sure at this time of the number of truckloads per day.

2- You have agreed to supply 80,000 square feet of warehouse space @$.40 per square foot (psf). In addition, you will provide fork trucks and personnel to unload up to fifteen (15) or more semi loads a day of water and other materials needed to help relieve the water crisis in Flint.

3- You have agreed to $2.50 per lift to unload a semi (a lift consists of removing the stacked pallets 1, 2, or 3 high at a time, storing the product for an undetermined amount of time, taking it back to a truck/semi and loading it back on) this cost is to provide the fork lifts and the labor to move these semi loads of product (undetermined at this time) but probably consisting of bottled water, and other donated products for the residence of Flint.

4- These costs will pay for fuel and employees managing the product, you will keep a running total of these costs and will send a comprehensive itemized invoice each month for these services.

5- You will indicate any overtime you are charging the State and the hours, days and times you are charging.

6- You have also indicated you can provide up-to $2.MIL aggregate of Liability Insurance naming the State of Michigan DTMB as an additional insured.

7- You will keep a running tally of the number of lifts and the square feet of space and send comprehensive invoice each month.

8- There will be no management fee.

Please indicate you have agreed to these terms by return mail.

SUBJECT: State of Michigan, Agreement #11867-2016 - Flint, MI

Dear Mr. Porrett:

We are enclosing an original Rental Agreement for your review and approval. Before returning the original it *must:*

(a) be signed and dated by the Landlord where indicated
(b) have the Landlord's name printed below their signature

A signature checklist is enclosed to assist you

The Rental Agreement also requires that the items checked below be supplied to the State. These must be received before rental payments can be authorized:

☒ Written and Approved Fire Inspection Report
☒ A current Certificate of Insurance, which

- specifies the beginning and ending dates of the insurance policy
- names the State as an additional insured
- has minimum policy limits that meet Agreement requirements
- identifies the location of the property
- includes the Agreement number on the certificate

☒ Public Act 533 of 2004 requires that payments under this Agreement be processed by electronic funds transfer (EFT). Lessor is required to register at the Contract & Payment Express website http://www.cpexpress.state.mi.us or call (888) 734-9749 to receive payments by EFT

The above documents should be returned to the address on this letter. If you have any questions please feel free to contact me at 517-284-7929 or baileym1@michigan.gov.

Your prompt attention to these matters will aid us in expediting this transaction.

Sincerely,

Maureen S. Bailey
Specialist, Real Estate Division

SIGNATURE CHECKLIST

NOTE: This is a legal document and in order for us to process this lease, **the signature page must be completed in detail.**

( ) **Compare the "Lessor"** on the first page with the signature page making sure they are exactly the same and as you had intended to hold the lease.

( ) **People signing are authorized** to sign on behalf of the Lessor, i.e. for Partnerships or Corporations, or are the parties to the Lease, i.e. husband and wife.

( ) **Lessor signature is exactly as it is typed or printed below the signature block.** If the area is blank, please print the signer's name as signed. **Signature must be dated.**

( ) If applicable, have each **signature witnessed twice and the witnesses print their name below the line as they signed.**

( ) When there is a **notary block, have the signatures notarized,** making sure the names appear exactly as signed and as printed below the signature. **Make sure the date of the notary is the same as the signature(s).**

( ) **Have two people** check the lease to make sure that all signatures and notary public are filled out correctly and exactly the same.

If there are **any discrepancies,** we will be **forced to delay the process** of the lease while they are corrected.

Thank you for your assistance and cooperation in this manner.

Agreement #11867 – 2016

Draft #1 RENTAL AGREEMENT

Between

Bell Warehousing & Manufacturing Services, Inc.

A Domestic Profit Corporation

and the

State Of Michigan

THIS RENTAL AGREEMENT (hereinafter referred to as "Agreement") is entered into by and between **Bell Warehousing & Manufacturing Services, Inc.**, a **Domestic Profit Corporation**, as Landlord, whose address is **5510 Clio Road, Flint, Michigan 48504**, and the State of Michigan, by the Department of Technology, Management & Budget, whose address is 7150 Harris Drive, Suite 2B, Dimondale, MI 48821, for the **Department of Technology, Management & Budget, (DTMB) Office of Infrastructure Protection**, as Tenant, and establishes the following terms, conditions, performance obligations, and covenants between the parties:

1. **Premises & Rent** –

   1.1 Landlord hereby rents to Tenant up to approximately **80,000** usable square feet of warehouse space, as further described in Attachment "A" to this Agreement, in the building commonly known as **5510 Clio Road, Flint, MI 48504** (the "Premises"). The Tenant shall further have non-exclusive use of the parking areas, docks, and entrances, hallways, and the restroom facilities of the warehouse Premises in common with the Landlord and/or other tenants of the Premises.

   1.2 Tenant shall pay to Landlord $.40 cents per square foot on a running total beginning on January 14, 2016, for up-to 80,000 square feet. Rent consideration installment payments shall be made during the month for which the installment applies.

   1.3 **IN** addition the Landlord will provide fork trucks, fuel, personnel and labor to unload semi loads of pallets consisting of water and other materials (product), @ $2.50 per lift (a lift consists of removing 1-3 pallets, of storing the product for an undetermined amount of time, taking it back and loading onto a truck/semi).

   1.4 The State also agrees to pay overtime costs for labor to unload semi/trucks and store pallets after 5:00 p.m. weekdays and Saturdays if deemed necessary and substantiated by RED CROSS employees. The Landlord will indicate any overtime charged to the State, the hours, days and times of charges, as substantiated by RED CROSS

1.5 **The Landlord shall supply the following information in an invoice to the State of Michigan, DTMB every month:**
(i) a running tally of the number of square feet of space used and (ii) overtime consideration, (iii) rent consideration installment payments and (iv) labor and lifts of pallets

1.6 All items shall be itemized and submitted during the month for which the installment applies.

1.7 **It is understood by all parties, there is no management fee to be paid for these services.**

2. **Term** - The term of this Agreement begins on **January 14, 2016** and ends on **January 13, 2017**, subject to the cancellation provisions of this Agreement.

3. **Holding Over** - In the event Tenant remains in possession of the Premises after the expiration or termination of the Agreement, it shall be deemed to be occupying the Premises as a Tenant from month-to-month, subject to all conditions, provisions and obligations of this Agreement.

4. **Cancellation** - This Agreement may be cancelled by the Tenant upon thirty (30) days written notice to the Landlord delivered to the address as set forth under the "Notices" Section of this Agreement, or to such other address as either party may designate in writing for the delivery of notices under this Agreement. This agreement will supersede and cancel all prior agreements.

   A satisfactory walk-thru inspection performed by DTMB Real Estate Division and the Landlord or the Landlord's representative; all keys and access cards returned to the Landlord;

5. **Services and Responsibilities of Landlord - Landlord shall furnish the following at its own expense:**
   - 5.1 Heating, mechanical ventilating, cooling.
   - 5.2 Electric service for lights, and all other electrical equipment. Lighting shall be adequate for a warehouse facility. Replacement of light bulbs and tubes as needed.
   - 5.3 100% payment for metered public utilities used for heating, cooling, illumination, power and water and/or sewer used in the premises.
   - 5.4 Provide and maintain any equipment required by the Fire Inspector for fire prevention and safety.
   - 5.5 Pest Control.
   - 5.6 Snow removal from driveways, steps, porches, walkways, exterior grounds maintenance, including grass and weed cutting, clippings removal, leaf raking, litter removal, sidewalk surface and parking lot surface maintenance.
   - 5.7 Removal of trash and refuse from the dumpsters on Premises.

6. **Services and Responsibilities of Tenant - Tenant shall furnish the following at its own expense:**
   - 6.1 None

7. **Repair and Maintenance** -

7.1 The Tenant shall notify the Landlord or his agent of the need for any repairs or replacements, which are not the responsibility of the Tenant to make. Landlord is to provide a list of telephone numbers (ESCR form) to call for maintenance services, including a number for window breakage, if needed.

7.2 The Tenant shall reimburse the Landlord for any repairs to the Premises from damage which exceeds normal wear and tear to be expected from lawful and proper use of the Premises and the sole cause of which was the negligent acts or omissions of Tenant's employees or clients.

7.3 The Tenant shall be responsible for the following repair and maintenance operations: **NONE.**

7.4 Alterations & Improvements – **Deleted, Not Applicable.**

8. **Landlord Obligations** -

8.1 Governmental Compliance - Landlord represents and warrants that the Premises will comply with all applicable governmental laws, rules and regulations during the term of this Agreement including, but not limited to, applicable codes and use permits.

8.2 Fire Inspection Report - Landlord shall provide to Tenant, a written fire inspection report dated within five years of the Effective Date on this Agreement, approving the Premises for occupancy.

8.3 Authority to Bind - Landlord represents and warrants that it has legal ownership and authority to enter into this Agreement, and shall provide a recorded warranty deed and/or other documentation necessary to confirm ownership and authority.

8.4 Insurance - Landlord is required to provide proof of General premises liability insurance for the Premises identified in Paragraph 1, which provides full coverage for the Landlord, the Tenant, and their respective agents and employees and which protects against all claims, demands, actions, suits, or causes of action, and judgments, settlements or recoveries, for bodily injury or property damage arising out of a condition of the Premises. The Landlord agrees to maintain minimum policy limits in the amount of $500,000.00 per occurrence for property damage, and $1,000,000.00 per occurrence for bodily injury, with a $2,000,000.00 aggregate. The Landlord shall provide to the Tenant a certificate of insurance listing the Tenant, its several departments, boards, agencies, commissions, officers, and employees as additional insureds, within thirty (30) calendar days following execution and delivery of this Agreement to the Landlord. The insurance policy shall provide that it may not be modified, cancelled, or allowed to expire without thirty (30) days prior written notice given to the Tenant.

8.5 Rent With-Holding - If the Landlord fails to provide supporting documentation, as required by Paragraphs 7.1, 8.2, 8.3 and 8.4, ten percent (10%) of the monthly rent consideration shall be held by the Tenant, until the required documentation is provided to the Tenant.

8.6 First Right of Refusal - The Landlord shall not rent or otherwise occupy any adjoining space which is or becomes vacant on the Premises known as 5510 Clio Road, Flint, MI 48504 during the term of this Agreement, or any extensions thereof, without first offering for a period of ten (10) days, the space to the Tenant at the Tenant's current rental rate, and under the same terms and conditions found in this Agreement.

9. **Public Policy Provisions** -

9.1 Non-Discrimination - Landlord shall comply with the Elliott-Larsen Civil Rights Act, 1976 PA 453, as amended, MCL 37.2101 et seq., the Persons with Disabilities Civil Rights Act, 1976 PA 220, as amended, MCL 37.1101 et seq.,

and all other federal, state and local fair employment practices and equal opportunity laws and covenants that it shall not discriminate against any employee or applicant for employment, to be employed in the performance of this Agreement, with respect to his or her hire, tenure, terms, conditions, or privileges of employment, or any matter directly or indirectly related to employment, because of his or her race, religion, color, national origin, age, sex, height, weight, marital status, or physical or mental disability that is unrelated to the individual's ability to perform the duties of a particular job or position. The Landlord agrees to include in every subcontract entered into for the performance of this real estate contract this covenant not to discriminate in employment. A breach of this covenant is a material breach of this Agreement.

9.2 Utilization of Public Facilities by Physically Limited - Premises shall comply with the barrier free design requirements of 1966 PA 1, as amended, MCL 125.1351 et seq.

9.3 Unfair Labor Practices - This Agreement may be canceled by Tenant if Landlord or any subcontractor, manufacturer or supplier of the Landlord appears in the register compiled by the State of Michigan pursuant to 1980 Public Act 278, as amended, MCL 423.321 et seq. (Employers Engaging in Unfair Labor Practices Act). A breach of this covenant is a material breach of this Agreement.

9.4 Electronic Funds Transfer - Public Act 533 of 2004 requires that payments under this Agreement be processed by electronic funds transfer (EFT). Landlord is required to register to receive payments by EFT at the Contract & Payment Express website (www.mi.gov/cpexpress) or call (888) 734-9749 to receive payments by EFT.

10. **Notices** - Any notice to Tenant required by this Agreement shall be complete if submitted in writing and transmitted by personal delivery (with signed delivery receipt), or certified or registered mail return receipt requested, or by a nationally recognized overnight delivery service. Unless either party notifies the other in writing of a different mailing address, notice to the Landlord and/or Tenant shall be transmitted to:

Landlord	**Tenant**
Bell Warehousing & Manufacturing Services, Inc.	Director, Real Estate Division

The notice shall be deemed on either (i) the third business day following the date of mailing, if transmitted by mail or (ii) the date on which the noticed party receives or refuses receipt of the

notice, if transmitted by personal delivery, or a nationally recognized overnight delivery service. Business day is defined as any day other than a Saturday, Sunday, legal holiday, or day preceding a legal holiday. A receipt from a U.S. Postal Service, or successor agency, performing such function shall be conclusive evidence of the date of mailing.

11. Miscellaneous Provisions -

11.1 Governing Law - This Agreement shall be governed by and interpreted in accordance with the laws of the State of Michigan.

11.2 Mutual Drafting - This Agreement shall be interpreted and construed as drafted mutually by both parties.

11.3 Entire Agreement - This Agreement, with all Attachments as listed herein, constitutes the entire agreement between the parties with regard to this transaction and may be amended only in writing, signed by each party.

11.4 Severability - Should any provision of this Agreement or any addenda thereto be found to be illegal or otherwise unenforceable by a court of law, such provision shall be severed from the remainder of the Agreement, and such action shall not affect the enforceability of the remaining provisions of the Agreement.

11.5 Waiver - Failure to enforce any term of this Agreement shall not be deemed a waiver of the enforcement of that or any other term of this Agreement.

11.6 Effective Date - The Effective Date of this Agreement is the date signed by the Real Estate Director of the Department of Technology, Management & Budget.

11.7 Binding Effect - This Agreement shall be binding upon and inure to the benefit of the heirs, executors, administrators and assigns of Landlord and Tenant.

11.8 Counterparts - This Agreement may be executed in counterparts, each which shall be deemed an original, and all of which together shall constitute one and the same agreement. An electronic, scanned or facsimile signature shall be deemed an original.

11.9 Assignment - The Tenant, through its Department of Technology, Management & Budget may assign or reassign any or all of the Premises to any branch, department, board, agency, commission or other instrumentality of State government without the necessity of obtaining consent of the Landlord.

12. Attachments -

Sweet Cakes

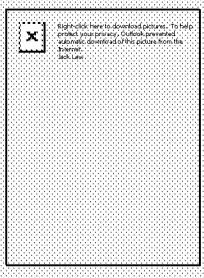
Baking up controversy?

By Linda Gilden

Sweet Cakes by Melissa has closed its storefront doors but the battle that began in January 2013 for Melissa Klein and her husband Aaron over their refusal to bake a wedding cake for a same-sex couple is far from over.

Lesbian couple Laurel and Rachel Bowman-Cryer moved from Texas to Oregon four years ago hoping to find acceptance in a more gay-friendly state. Two years earlier they had purchased a Sweet Cake for Cryer's mother's wedding so they returned to Sweet Cakes to order their wedding cake. As they sat down with the Kleins to discuss what they needed, a problem arose over who was to be the groom. Upon learning there were two brides, the Kleins refused to bake the cake.

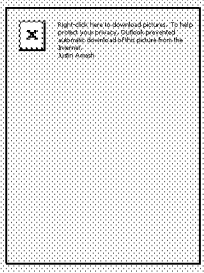
"I believe I have wasted your time," Aaron claims to have



Secretary of State John Kerry has expressed his discontent with the Iranians releasing footage of the U.S. sailors captured and on their knees at gunpoint last week which likely violated the Geneva Convention.

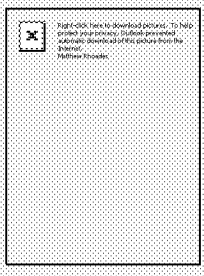
The head of the **Environmental Protection Agency** defended her agency's response to the drinking water crisis in Flint, Michigan, saying "it did what it was supposed to do." Meanwhile the crisis goes unresolved. Pray for President Obama and members of his cabinet as they deal with foreign and domestic crises.

Deadly floods across the U.S. has created a new urgency for insurance reform, deal with outdated flood maps, and engaging private sector insurers rather than just using the National Flood Insurance Program.



Senator Cory Booker (New Jersey) made the case for criminal justice reform in his keynote speech at a celebration of Martin Luther King, Jr., Day, saying, "Nothing will change unless we do."
Pray for Congress as they deal with a full agenda of reforms, whether in flood insurance or criminal justice.

said. "We do not do cakes for same-sex weddings."



Jack Lew, United States Secretary of the Treasury

Secretary of the Treasury Jack Lew expressed concern about what he called the "challenge" for China's economy, after worries about China cascaded through global stock markets to kick off the first trading of 2016, sending U.S. markets tumbling.

Justin Amash, U.S. Representative for Michigan

There's bipartisan movement in Congress to roll back a recent change made to the U.S. visa program amid growing concerns that it discriminates against people based on their ethnicity. Representative Justin Amash along with Representative John Conyers, both of Michigan, put forward a bill that would eliminate a provision aimed at restricting the entry of dual nations from Iran, Syria, Sudan and Iraq.

Matthew Rhoades, Team Chief (Policy), Legislative Affairs at Office of Secretary of Defense

As concerns mount about a renewed surge of illegal immigration, the Obama administration is considering housing unaccompanied millions detained illegally entering the U.S.-Mexico border at military bases throughout the U.S., according to information from the Office of the Secretary of Defense.

A trial starting this week in Phoenix will pit a polygamous religious community against the U.S. government which claims the community's public officers discriminate against people who don't share the sect's beliefs.

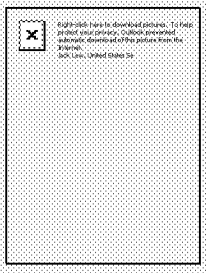
Lawyers for undocumented Central American immigrants who have flocked to the U.S. since 2014 have won an early round in their legal battle to prove they were held in filthy, inhumane conditions at U.S. Border Patrol stations.
Pray for judges who decide issues of individual and human rights and government responsibilities.

WARS AND TERRORISM

Armed militants stormed a university in a volatile region of Pakistan Wednesday, killing at least 20 people and wounding dozens. A senior Taliban commander has claimed responsibility for the assault.

Desertions among the Afghan army have increased since November as thousands shed their uniforms and "just go home," adding to the security worries of the remaining U.S. forces in the area.
Pray about the increases being made by the Taliban in Afghanistan and Pakistan, and the regions volatility.

FOREIGN INTERESTS & CONFLICTS

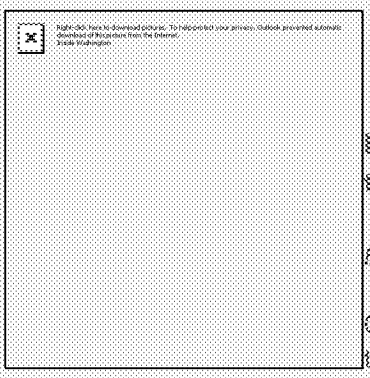


Iran's Supreme Leader warned against American deceit after Tehran finalized its landmark nuclear deal with world powers including the U.S., and told his country to "be wary of violations of arrogant states."

Syrian peace talks due to begin next week are looking increasingly moot as a string of recent battlefield victories by government troops shave bolstered President Bashar Assad's hand and plunged the rebels into disarray.
Pray about the pending peace talks regarding Syria, and about Iran and Russia's support of Assad.

ISRAEL AND THE MIDDLE EAST

A senior Israeli military figure is predicting that cyber-attacks will spike in 2016 because nation-state actors will have no incentive to "behave" in the wake of the nuclear agreement between the West and Iran.



The refugee crisis caused by the Syrian civil war has affected Lebanon more severely than any of its neighbors, with approximately 1.2 million refugees in the country, and a nation struggling to deal with the weight of the crisis.
Pray about the broad impact of refugees from Syria. Pray for a return to peaceful streets in Israel.

Chief Judge Solomon Oliver, Jr., U.S. District Court for the Northern District of Ohio

A California lawyer has filed a suit in the U.S. District Court for the Northern District of Ohio to stop the government from printing money with the phrase "In God We Trust." The lawsuit filed in Akron names defendants like U.S. Congress, Secretary of the Treasury Jacob J. Lew, and Director of the Bureau of Engraving and Printing Leonard R. Olijar.

The Battle at Hand

Healthcare wars and the true enemy

By Carol Hatcher

Obamacare will reduce the workforce by two million jobs by 2025, according to a new 22-page report by the Congressional Budget Office (CBO). While no one is suggesting Obamacare is the cause of firings and layoffs, the news doesn't sound positive to those watching the national healthcare plan.

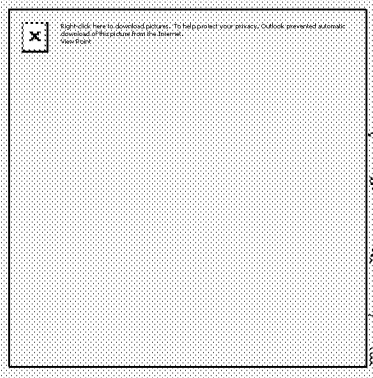
The CBO originally announced this prediction in February of 2014, but stood by its findings in the latest report published this past December. If layoffs are not the reason for the decreased work force, then what is the cause? The CBO offers several possible explanations.

Since more Americans can acquire individual healthcare without an employer, many are not motivated to seek outside employment. For example, sometimes one spouse may choose to work solely for the healthcare coverage. With the expansion of new coverage, this is no longer necessary. Or an individual close to retirement but working in order to get benefits is no longer tied to the job. They can retire and still get coverage.

Big Deal or Not?

THE ECONOMY

Senator Sherrod Brown (Ohio) announced a new anti-poverty federal initiative after USDA statistics show that one-third of Americans living in rural areas and one-in-four children in those areas live in poverty.



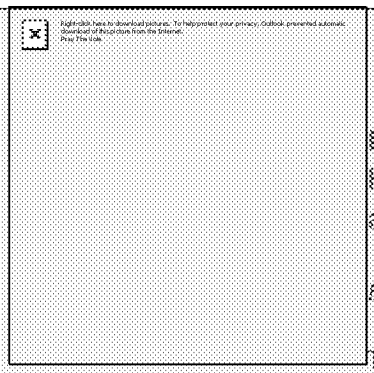
The chances of a recession in the United States are at their highest levels since the fall of 2011 as fears are rising for the sixth straight month and now sit at 28.8 percent according to a new CNBC survey.
Pray about the high levels of poverty in America and whether federal programs will alleviate it.

HEALTH CARE AND EDUCATION

Dozens of schools in at least six states are just the latest in a rash of threats of violence against U.S. schools in recent weeks. Robo-calls and emails have triggered police investigations, including disruptive searches for planted bombs.

The Obama Administration has issued new guidelines to make it easier for patients to get access to their own medical records, telling doctors and hospitals, in most cases, they must provide the records within 30 days of request.
Pray about the fear that can attach to students when their schools are the target of phony bomb threats.

Words Will Ever Hurt Me



The vital battle over vocabulary

By Jim Ray

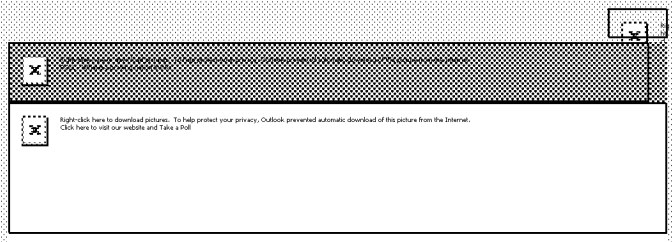
True or false? "A picture is worth a thousand words." If you believe it, maybe you don't understand the power of words. Or maybe you are an anti-language extremist, clearly out-of-step with the fair-minded Americans who understand the value of words to our way of life and who oppose your mean-spirited and wrong-side-of-history efforts to restrict free speech and promote a fringe belief in imagery at the expense of locution.

What, you may be asking?

This is about the power of words to shape how you

President Obama will hold off on endorsing a candidate

By Louie Christensen



The Obama administration recently announced that President Obama will not be endorsing a candidate in the Democratic presidential nomination race. "That's not our job," Dennis McDonough, the White House Chief of Staff, said on NBC's Meet the Press. "That's the job of the party to make those decisions, and then we'll take a look at the agendas and the positions of those candidates."

It may seem like an interesting stance, and you will surely see the talking heads on the major media outlets attempt to spin a fabulous story out of it. But, a presidential endorsement is a rare event.

George W. Bush didn't endorse Sen. John McCain until March 5th, when he had already secured the party's bid. Ronald Reagan didn't endorse his vice president George H.W. Bush until May. In the last 30 years, Bill Clinton was the only president to endorse a candidate (Vice President Al Gore) prior to the party's nomination being a lock. Whether presidents purposefully choose to avoid the extra press an endorsement would lead to, or they would rather dodge any potential political backlash, the odds of seeing the president change his mind are slim.

perceive others—and how others perceive you. Shrewd political operatives and ideologues understand that words—much more than sticks and stones—can hurt a person or a cause. And if you are not wise to these tactics, you are sure to be marginalized by them. It's not just your political views that will be defined, but your values and your faith also. How will you be cast?

Do you make a conscious decision over what words or phrases to use when discussing issues (i.e. pro-life vs. anti-abortion)? ___Yes ___No

Subject: Flint UIA office
Importance: High

Maureen,

In an effort to assist the people of flint during the water crisis, UIA would like to establish a mini-problem resolution office in Flint. I checked with Troy Spitzley, and he indicated that there is not space at the Flint State Office Building. Can you please reach out to the other agencies with space in flint or give me a list of space so that I can make contact? Obviously, this is on the fast track. Any help/ideas would be appreciated. We are looking for a single office or cubicle.

Thanks much!
Teri

Flint, MI 48504

SUBJECT: State of Michigan, Agreement #11867-2016 - Flint, MI

Dear Mr. Porrett:

Enclosed is a copy of the above-mentioned Rental Agreement approved and signed on behalf of the Director for the Department of Technology, Management & Budget. The Real Estate Division will retain the original and forward a copy to the Department of Technology, Management & Budget.

The following documentation is required by the terms of the Rental Agreement to authorize rent and should be mailed to the address on this letter.

☒ A copy of an approved fire inspection report (contact your local fire authority to obtain this report)

☒ A copy of the enclosed Emergency Service Call Record form providing all requested information

☒ A current Certificate of Insurance, which

- specifies the beginning and ending dates of the insurance policy
- names the State as an additional insured
- has minimum policy limits that meet the Rental Agreement requirements
- identifies the location of the property
- includes the Rental Agreement number on the certificate

☒ Public Act 533 of 2004 requires that payments under this Agreement be processed by electronic funds transfer (EFT). Lessor is required to register at the Contract & Payment Express website http://www.cpexpress.state.mi.us or call (888) 734-9749 to receive payments by EFT

☒ A floor plan of the space occupied in your building.

If you have any questions, please feel free to contact me at 517-284-7929 or baileym1@michigan.gov.

Thank you for your cooperation in this matter.

Sincerely,

Maureen S. Bailey
Specialist, Real Estate Division

STATE OF MICHIGAN

RICK SNYDER
GOVERNOR

DEPARTMENT OF TECHNOLOGY, MANAGEMENT & BUDGET
LANSING

DAVID B. BEHEN
DIRECTOR

Dear Lessor:

The purpose of this letter is to advise you of the laws and procedures related to real estate leasing for the Executive Branch, State of Michigan.

No employee of the State of Michigan has authority to make oral or written promises regarding a lease agreement or changes to an existing lease agreement without the approval of the State Administrative Board. Oral discussions or representations made by any employee of the State cannot be construed as a promise or as a verbal contract of any type.

The Department of Management and Budget Act (Public Act 431 of 1984) and Executive Order 2002-20 specifies that the Department of Technology, Management & Budget (DTMB) is the only Department authorized to enter into lease agreements, only after obtaining all necessary approvals. Conversations and discussions with representatives from a department or agency other than DTMB are prohibited. Department or agency personnel may only engage in conversations with the Lessor to report maintenance problems within a leased facility. Lessors who are contacted for non-maintenance issues should direct the department or agency personnel to contact the DTMB Real Estate Division.

Discussions on lease matters should only be conducted with DTMB. Discussions directly with personnel from other departments or agencies should not occur.

In dealing with the Department of Technology, Management & Budget on real estate matters, verbal discussions or negotiations, or transmittal of draft documents, should not be construed as promises or contracts of any type due to the requirement for approvals to complete the transaction. You must receive a fully executed document, signed by an authorized representative of the DTMB for an agreement to be valid.

Thank you for your cooperation. Feel free to contact me at 517-335-6877 if you have any questions.

Sincerely,

Robert M. Burns
Director, Real Estate Division

and the

State Of Michigan

THIS RENTAL AGREEMENT (hereinafter referred to as "Agreement") is entered into by and between **Bell Warehousing & Manufacturing Services, Inc., a Domestic Profit Corporation**, as Landlord, whose address is **6510 Clio Road, Flint, Michigan 48504**, and the State of Michigan, by the Department of Technology, Management & Budget, whose address is 7150 Harris Drive, Suite 2B, Dimondale, MI 48821, for the **Department of Technology, Management & Budget, (DTMB) Office of Infrastructure Protection**, as Tenant, and establishes the following terms, conditions, performance obligations, and covenants between the parties:

1. Premises & Rent –

1.1 Landlord hereby rents to Tenant up to approximately **80,000** usable square feet of warehouse space, as further described in Attachment "A" to this Agreement, in the building commonly known as **4315 Clio Road, Flint, MI 48504** (the "Premises"). The Tenant shall further have non-exclusive use of the parking areas, docks, and entrances, hallways, and the restroom facilities of the warehouse Premises in common with the Landlord and/or other tenants of the Premises.

1.2 Tenant shall pay to Landlord $4.00 per square foot annually beginning on January 14, 2016, for up to 80,000 square feet. Rent consideration installment payments shall be made during the month for which the installment applies.

1.3 In addition the Landlord will provide four fork trucks, fuel, and four personnel and labor to unload semi loads of pallets consisting of water and other materials (product), @ $75.00 per hour per fork lift and driver (all inclusive) for an 8 hour shift starting at 7:00 a.m. until 3:30 p.m. and overtime shall be paid @$90.00 per hour for the next four (4) hours for a total of twelve (12) hours a day and up to seven days a week that shall not exceed four (4) employees plus the supervisor. This work schedule shall be approved and substantiated by Jeannette Doll, or her counterpart from Department of Technology, Management & Budget, Office of Infrastructure Protection (DTMB, OIP), for an undetermined amount of time.

EXECUTION DTMB COPY

1.4 The State also agrees to pay for the Landlord to provide a Supervisor for his staff to coordinate the trucks and people from all agencies as deemed necessary by Jeanette Doll, DTMB/OIP, for not more than twelve (12) hours per day at a cost of $45.00 per hour with overtime billed at $67.50 per hour for four hours. The Landlord will indicate any overtime charged to the State, the hours, days and times of charges, as substantiated by DTMB/OIP.

1.5 **The Landlord shall supply the following information in an invoice to the State of Michigan, DTMB every month: (i) a running tally of the number of square feet of space used and (ii) overtime consideration, (iii) rent consideration installment payments and (iv) labor and overtime indicated in paragraphs 1.3 and 1.4 of this document. (v) all utility bills for heat and electric service to the Leased premise (vi) a one-time itemized charge listing the hours and equipment and personnel used to empty two offsite warehouses on January 14, 2016.**

1.6 **All items shall be itemized and submitted during the month for which the installment applies and may be on a per diem basis (if necessary).**

1.7 **It is understood by all parties, there is no management fee to be paid for these services.**

2. Term - The term of this Agreement begins on **January 14, 2016** and ends on **January 13, 2017**, subject to the cancellation provisions of this Agreement.

3. Holding Over - In the event Tenant remains in possession of the Premises after the expiration or termination of the Agreement, it shall be deemed to be occupying the Premises as a Tenant from month-to-month, subject to all conditions, provisions and obligations of this Agreement.

4. Cancellation - This Agreement may be cancelled by the Tenant upon thirty (30) days written notice to the Landlord delivered to the address as set forth under the "Notices" Section of this Agreement, or to such other address as either party may designate in writing for the delivery of notices under this Agreement. This agreement will supersede and cancel all prior agreements.

   Upon cancellation, a satisfactory walk-thru inspection performed by DTMB Real Estate Division and the Landlord or the Landlord's representative; all keys and access cards returned to the Landlord.

5. **Services and Responsibilities of Landlord - Landlord shall furnish the following at its own expense:**
   - 5.1 Heating, mechanical ventilating, cooling.
   - 5.2 Electric service for lights, and all other electrical equipment. Lighting shall be adequate for a warehouse facility. Replacement of light bulbs and tubes as needed.
   - 5.3 100% payment for water and/or sewer used in the premises
   - 5.4 Provide and maintain any equipment required by the Fire Inspector for fire prevention and safety.
   - 5.5 Pest Control.
   - 5.6 Snow removal from driveways, steps, porches, walkways, exterior grounds maintenance, including grass and weed cutting, clippings removal, leaf raking,

EXECUTED DTMB

litter removal, sidewalk surface and parking lot surface maintenance.

8.7 Removal of trash and refuse from the dumpsters on Premises.

6. Services and Responsibilities of Tenant - **Tenant shall furnish the following at its own expense:**

6.1- 100% payment for metered public utilities used for heating, cooling, illumination.

7. Repair and Maintenance -

The Tenant shall notify the Landlord or his agent of the need for any repairs or replacements, which are not the responsibility of the Tenant to make. Landlord is to provide a list of telephone numbers (ESCR form) to call for maintenance services, including a number for window breakage, if needed.

7.1 The Tenant shall reimburse the Landlord for any repairs to the Premises from damage which exceeds normal wear and tear to be expected from lawful and proper use of the Premises and the sole cause of which was the negligent acts or omissions of Tenant's employees or clients.

7.2 The Tenant shall be responsible for the following repair and maintenance operations: **NONE.**

7.3 Alterations & Improvements – **Deleted, Not Applicable.**

8. Landlord Obligations -

8.1 Governmental Compliance - Landlord represents and warrants that the Premises will comply with all applicable governmental laws, rules and regulations during the term of this Agreement including, but not limited to, applicable codes and use permits.

8.2 Fire Inspection Report - Landlord shall provide to Tenant, a written fire inspection report dated within five years of the Effective Date on this Agreement, approving the Premises for occupancy.

8.3 Authority to Bind - Landlord represents and warrants that it has legal ownership and authority to enter into this Agreement, and shall provide a recorded warranty deed and/or other documentation necessary to confirm ownership and authority.

8.4 Insurance - Landlord is required to provide proof of General premises liability insurance for the Premises identified in Paragraph 1, which provides full coverage for the Landlord, the Tenant, and their respective agents and employees and which protects against all claims, demands, actions, suits, or causes of action, and judgments, settlements or recoveries, for bodily injury or property damage arising out of a condition of the Premises. The Landlord agrees to maintain minimum policy limits in the amount of $500,000.00 per occurrence for property damage, and $1,000,000.00 per occurrence for bodily injury, with a $2,000,000.00 aggregate. The Landlord shall provide to the Tenant a certificate of insurance listing the Tenant, its several departments, boards, agencies, commissions, officers, and employees as additional insureds, within thirty (30) calendar days following execution and delivery of this Agreement to the Landlord. The insurance policy shall provide that it may not be modified, cancelled, or allowed to expire without thirty (30) days prior written notice given to the Tenant.

8.5 Rent With-Holding - If the Landlord fails to provide supporting documentation, as required by Paragraphs 7.1, 8.2, 8.3 and 8.4, ten percent (10%) of the monthly rent consideration shall be held by the Tenant, until the required documentation is provided to the Tenant.

8.6 First Right of Refusal - The Landlord shall not rent or otherwise occupy any adjoining space which is or becomes vacant on the Premises known as 5510 Clio Road, Flint, MI 48504 during the term of this Agreement, or any extensions

thereof, without first offering for a period of ten (10) days, the space to the Tenant at the Tenant's current rental rate, and under the same terms and conditions found in this Agreement.

EXECUTION OTMB COPY

9. **Public Policy Provisions** -

9.1 Non-Discrimination - Landlord shall comply with the Elliott-Larsen Civil Rights Act, 1976 PA 453, as amended, MCL 37.2101 et seq., the Persons with Disabilities Civil Rights Act, 1976 PA 220, as amended, MCL 37.1101 et seq., and all other federal, state and local fair employment practices and equal opportunity laws and covenants that it shall not discriminate against any employee or applicant for employment, to be employed in the performance of this Agreement, with respect to his or her hire, tenure, terms, conditions, or privileges of employment, or any matter directly or indirectly related to employment, because of his or her race, religion, color, national origin, age, sex, height, weight, marital status, or physical or mental disability that is unrelated to the individual's ability to perform the duties of a particular job or position. The Landlord agrees to include in every subcontract entered into for the performance of this real estate contract this covenant not to discriminate in employment. A breach of this covenant is a material breach of this Agreement.

9.2 Utilization of Public Facilities by Physically Limited - Premises shall comply with the barrier free design requirements of 1966 PA 1, as amended, MCL 125.1351 et seq.

9.3 Unfair Labor Practices - This Agreement may be canceled by Tenant if Landlord or any subcontractor, manufacturer or supplier of the Landlord appears in the register compiled by the State of Michigan pursuant to 1980 Public Act 278, as amended, MCL 423.321 et seq. (Employers Engaging in Unfair Labor Practices Act). A breach of this covenant is a material breach of this Agreement.

9.4 Electronic Funds Transfer - Public Act 533 of 2004 requires that payments under this Agreement be processed by electronic funds transfer (EFT). Landlord is required to register to receive payments by EFT at the Contract & Payment Express website (www.mi.gov/cpexpress) or call (888) 734-9749 to receive payments by EFT.

10. **Notices** - Any notice to Tenant required by this Agreement shall be complete if submitted in writing and transmitted by personal delivery (with signed delivery receipt), or certified or registered mail return receipt requested, or by a nationally recognized overnight delivery service. Unless either party notifies the other in writing of a different mailing address, notice to the Landlord and/or Tenant shall be transmitted to:

Landlord	Tenant
Bell Warehousing & Manufacturing Services, Inc.	Director, Real Estate Division
Attn: Gary Porrett Sr.	Department of Technology, Management & Budget

The notice shall be deemed on either (i) the third business day following the date of mailing, if transmitted by mail or (ii) the date on which the noticed party receives or refuses receipt of the notice, if transmitted by personal delivery, or a nationally recognized overnight delivery service. Business day is defined as any day other than a Saturday, Sunday, legal holiday, or day preceding a legal holiday. A receipt from a U.S. Postal Service, or successor agency, performing such function shall be conclusive evidence of the date of mailing.

11. **Miscellaneous Provisions** -

11.1 Governing Law - This Agreement shall be governed by and interpreted in accordance with the laws of the State of Michigan.

11.2 Mutual Drafting - This Agreement shall be interpreted and construed as drafted mutually by both parties.

11.3 Entire Agreement - This Agreement, with all Attachments as listed herein, constitutes the entire agreement between the parties with regard to this transaction and may be amended only in writing, signed by each party.

11.4 Severability - Should any provision of this Agreement or any addenda thereto be found to be illegal or otherwise unenforceable by a court of law, such provision shall be severed from the remainder of the Agreement, and such action shall not affect the enforceability of the remaining provisions of the Agreement.

11.5 Waiver - Failure to enforce any term of this Agreement shall not be deemed a waiver of the enforcement of that or any other term of this Agreement.

11.6 Effective Date - The Effective Date of this Agreement is the date signed by the Real Estate Director of the Department of Technology, Management & Budget.

11.7 Binding Effect - This Agreement shall be binding upon and inure to the benefit of the heirs, executors, administrators and assigns of Landlord and Tenant.

11.8 Counterparts - This Agreement may be executed in counterparts, each which shall be deemed an original, and all of which together shall constitute one and the same agreement. An electronic, scanned or facsimile signature shall be deemed an original.

11.9 Assignment - The Tenant, through its Department of Technology, Management & Budget may assign or reassign any or all of the Premises to any branch, department, board, agency, commission or other instrumentality of State government without the necessity of obtaining consent of the Landlord.

12. **Attachments** -

Subject: Sample Storage Space

Neal – Based on our phone conversation, I'm looking for storage/warehouse space for a potentially large amount of water samples over the next few months with the State of Emergency that is happening in Flint right now. Wondering if there are any locations near the Lab that we could utilize for this effort if necessary. At a minimum, the space would need to be secured and temperature controlled, only to prevent freezing. Also looking for pallets that can hold around 1000 Lbs or more. The idea is that we palletize samples here and have them transferred to this storage location on a

daily/weekly basis as necessary. There is really no storage space for this kind of capacity here at the State Lab. Initial estimate of space needs based on the number of potential samples would be 1000-1500 ft^2, enough to hold around 100 (3'x4') pallets with additional space to maneuver around to get to specific pallets if necessary.

Sandip – Copying you on this message if you have any ideas that could help.

Thank you!

Mary Kay,
I understand they don't want the office space, we can do an RFP to find space if you like.
I have a call into the airport, waiting for them to call back. I asked Keith Pasch about DTMB warehouse space, he knows of nothing, still checking.
Perhaps Keith Hawes knows of something…
I will let the Landlord know that DEQ is not interested so that we don't hold him up any longer…that's where we will get into legal trouble.

Hi Will,

Carol has brought to my attention that there may be some concerns with the adjacent lease space at the Lab. She was also wondering if anyone has reached out to the DMVA across the road for possible storage space? Could you please advise to her concerns at your earliest convenience? Thanks in advance for your help with this Will and have a great day!!

Subject: Sample Storage Space

Neal – Based on our phone conversation, I'm looking for storage/warehouse space for a potentially large amount of water samples over the next few months with the State of Emergency that is happening in Flint right now. Wondering if there are any locations near the Lab that we could utilize for this effort if necessary. At a minimum, the space would need to be secured and temperature controlled, only to prevent freezing. Also looking for pallets that can hold around 1000 Lbs or more. The idea is that we palletize samples here and have them transferred to this storage location on a daily/weekly basis as necessary. There is really no storage space for this kind of capacity here at the State Lab. Initial estimate of space needs based on the number of potential samples would be 1000-1500 ft2, enough to hold around 100 (3'x4') pallets with additional space to maneuver around to get to specific pallets if necessary.

Sandip – Copying you on this message if you have any ideas that could help.

Thank you!
Kirby

Subject: FW: FORMER KROGER STORE, HALLWOOD PLAZA, 2629 W. PIERSON RD., FLINT

Jeanette,
I think we should add an additional $1.50-$3.00 psf for heat & electric.
The water bill is $400.00 per month (0.06 cents psf) which hasn't been paid, and this is for an empty building, not sure if it is estimated on past use or not.
I think the square foot rate may be$7.00-$7.50 psf without the dumpster charges (CAM) and the water bill but should only be a few cents psf depending on the usage.
Please let me know if you want me to proceed.
Maureen

Subject: FORMER KROGER STORE, HALLWOOD PLAZA, 2629 W. PIERSON RD., FLINT

Hi Maureen:
It was a pleasure to speak with you. I am recapping our conversation regarding the leased space.

Total Leased Area: 74,000 square feet
Address: 2629 West Pierson Road, Flint, MI 48504

Base Rent: $1.50/sq. ft. Annual: $111,000 Monthly: $9,250.
CAM: $2.10/ sq. ft. Annual: $155,400 Monthly: $12,950.
Taxes (if applicable): $154,000 annually X 36.6% = $56,364 (based on FY 2015) Monthly: $4,697=$.76 psf
Insurance: $68,000 annually X 36.6% = $24,888 (based on FY 2015) Monthly: $2,074 =$.34

We can arrange for and order a dumpster for your store which will be billed back at 100% on a monthly basis. You will need to contact Consumers Energy to arrange for the store's electrical and natural gas service transferred to your name. $2.-3. psf You may use the lighted sign on W. Pierson Rd. and pay for the electricity to illuminate the sign which is metered separately.
Please let me know if you have any further questions. Welcome!

Subject: RE: Flint

Kurt,
On the corner of Clio and Pierson Road in the strip mall near your office there is a little over 8,000 square feet of medical offices (12 rooms) for a clinic if you think you want one close by your office. Hurley Medical Center built it out in 2008 and has since moved. The Landlord will give a really good square foot rate if you think someone may want to occupy it for the Flint lead testing site, or for any reason for that matter.
Thanks,
Maureen

Agreement #11872 - 2016

RENTAL AGREEMENT

Between

HALLWOOD PLAZA, INC.

A Michigan Corporation

and the

State Of Michigan

THIS RENTAL AGREEMENT (hereinafter referred to as "Agreement") is entered into by and between **Hallwood Plaza, Inc.**, a **Michigan Corporation**, as Landlord, whose address is **4908 Mac Street, Midland, Michigan, 48640**, and the State of Michigan, by and for the Department of Technology, Management & Budget, whose address is 7150 Harris Drive, Suite 2B, Dimondale, MI 48821, as Tenant, and establishes the following terms, conditions, performance obligations, and covenants between the parties:

1. **Premises & Rent** –
   - **1.1** Landlord hereby rents to Tenant approximately **74,000** usable square feet of office space, as further described in Attachment "A" to this Agreement, in the building commonly known as **2629 Pierson Road**, **Flint**, MI **48504** (the "Premises"). The Tenant shall further have non-exclusive use of the parking areas, entrances, hallways, and the restroom facilities of the Premises in common with the Landlord and/or other tenants of the Premises.

   - **1.2** Tenant shall pay to Landlord rent at the rate of Thirteen Thousand Eight Hundred Seventy Five Dollars ($13,875.00) per month. Rent consideration installment payments shall be made during the month for which the installment applies.

2. **Term** - The term of this Agreement begins on **February 3, 2016** and ends on **January 31, 2017**, subject to the cancellation provisions of this Agreement.

3. **Holding Over** - In the event Tenant remains in possession of the Premises after the expiration or termination of the Agreement, it shall be deemed to be occupying the Premises as a Tenant from month-to-month, subject to all conditions, provisions and obligations of this Agreement, and the rent shall remain the same as the monthly rent owing at the end of the Agreement.

4. **Cancellation** - This Agreement may be cancelled by the Tenant upon thirty (30) days written notice to the Landlord delivered to the address as set forth under the "Notices" Section of this Agreement, or to such other address as either party may designate in writing for the delivery of notices under this Agreement. This agreement will supersede and cancel all prior agreements.

Upon cancellation or termination of this Agreement, the Tenant shall clean the Premises to "broom-clean condition", and shall remove all Tenant furnishings from the Premises. Furnishings remaining in or on the Premises after the cancellation or termination effective date shall be considered abandoned property, and the Tenant shall be obligated to pay the Landlord for all reasonable removal costs.

5. **<u>Services and Responsibilities of Landlord</u> - Landlord shall furnish the following at its own expense:**
   - **5.1** Heating, mechanical ventilating, cooling, and humidification system capable of providing a temperature range of 68°F to 78°F, measured at 30" above the finished floor, and 12" inside any exterior wall, and a humidification range of 30% to 50%, at all times occupied.
   - **5.2** Electric service for lights, office machines, and all other electrical equipment. Lighting to be a minimum of 50-foot candles, maintained at desk level. Replacement of light bulbs and tubes as needed.
   - **5.3** Provide and maintain any equipment required by the Fire Inspector for fire prevention and safety.
   - **5.4** Pest Control.
   - **5.5** Snow removal from driveways, steps, porches, walkways, exterior grounds maintenance, including grass and weed cutting, clippings removal, leaf raking, litter removal, sidewalk surface and parking lot surface maintenance.
   - **5.6** Removal of trash and refuse from the dumpsters on Premises.
   - **5.7** Total Access to the facility (Kroger store) including 2nd floor conference rooms and offices
   - **5.8** **Shelving units, produce department, ice freezers, coolers, two motorized pallet jacks/fork lifts, coolers and ice makers, deli equipment, signage and all other amenities or equipment on site**
   - **5.9** Commercial grade, heavy duty locking hardware. Prior to Tenant possession, all doors providing access to the Premises shall be rekeyed and two (2) keys per lock combination shall be provided to the Tenant.

6. **<u>Services and Responsibilities of Tenant</u> - Tenant shall furnish the following at its own expense:**
   - **6.1** 100% payment for metered public utilities used for heating, cooling, illumination, power and water and/or sewer used in the premises.
   - **6.2** Janitorial supplies, equipment, personnel, and supervision to provide cleaning services.
   - **6.3** Security and Telecommunication
   - **6.4** Dumpsters

7. **<u>Repair and Maintenance</u>** -
   - **7.1** The Tenant shall notify the Landlord or his agent of the need for any repairs or replacements, which are not the responsibility of the Tenant to make. Landlord is to provide a list of telephone numbers (ESCR form) to call for maintenance services, including a number for window breakage, if needed.
   - **7.2** The Tenant shall reimburse the Landlord for any repairs to the Premises from damage which exceeds normal wear and tear to be expected from lawful and proper use of the Premises and the sole cause of which was the negligent acts or omissions of Tenant's employees or clients.
   - **7.3** The Tenant shall be responsible for the following repair and maintenance operations: **NONE.**

7.4 **Alterations & Improvements**

- **Clean the premises and make necessary arrangements for repairing or replacing lights, activating electricity, heating and cooling as necessary**
- **Repair of the roof leak at the entrance**
- **Replace all missing ceiling tile**
- **Pay all outstanding heat, electricity, water, sewer bills**
- **Remove shelving at the request of the Tenant representative.**

8. Landlord Obligations -

8.1 Governmental Compliance - Landlord represents and warrants that the Premises will comply with all applicable governmental laws, rules and regulations during the term of this Agreement including, but not limited to, applicable codes and use permits.

8.2 Fire Inspection Report - Landlord shall provide to Tenant, a written fire inspection report dated within five years of the Effective Date on this Agreement, approving the Premises for occupancy.

8.3 Authority to Bind - Landlord represents and warrants that it has legal ownership and authority to enter into this Agreement, and shall provide a recorded warranty deed and/or other documentation necessary to confirm ownership and authority.

8.4 Insurance - Landlord is required to provide proof of General premises liability insurance for the Premises identified in Paragraph 1, which provides full coverage for the Landlord, the Tenant, and their respective agents and employees and which protects against all claims, demands, actions, suits, or causes of action, and judgments, settlements or recoveries, for bodily injury or property damage arising out of a condition of the Premises. The Landlord agrees to maintain minimum policy limits in the amount of $500,000.00 per occurrence for property damage, and $1,000,000.00 per occurrence for bodily injury, with a $2,000,000.00 aggregate. The Landlord shall provide to the Tenant a certificate of insurance listing the Tenant, its several departments, boards, agencies, commissions, officers, and employees as additional insureds, within thirty (30) calendar days following execution and delivery of this Agreement to the Landlord. The insurance policy shall provide that it may not be modified, cancelled, or allowed to expire without thirty (30) days prior written notice given to the Tenant.

8.5 Rent With-Holding - If the Landlord fails to provide supporting documentation, as required by Paragraphs 7.1, 8.2, 8.3 and 8.4, ten percent (10%) of the monthly rent consideration shall be held by the Tenant, until the required documentation is provided to the Tenant.

8.6 First Right of Refusal – **Deleted, Not Applicable**

9. Public Policy Provisions -

9.1 Non-Discrimination - Landlord shall comply with the Elliott-Larsen Civil Rights Act, 1976 PA 453, as amended, MCL 37.2101 et seq., the Persons with Disabilities Civil Rights Act, 1976 PA 220, as amended, MCL 37.1101 et seq., and all other federal, state and local fair employment practices and equal opportunity laws and covenants that it shall not discriminate against any employee or applicant for employment, to be employed in the performance of this Agreement, with respect to his or her hire, tenure, terms, conditions, or privileges of employment, or any matter directly or indirectly related to employment, because of his or her race, religion, color, national origin, age, sex, height, weight, marital status, or physical or mental disability that is unrelated to the individual's ability to perform the duties of a particular job or position. The Landlord agrees to include in every subcontract entered into for the performance

of this real estate contract this covenant not to discriminate in employment. A breach of this covenant is a material breach of this Agreement.

9.2 Utilization of Public Facilities by Physically Limited - Premises shall comply with the barrier free design requirements of 1966 PA 1, as amended, MCL 125.1351 et seq.

9.3 Unfair Labor Practices - This Agreement may be canceled by Tenant if Landlord or any subcontractor, manufacturer or supplier of the Landlord appears in the register compiled by the State of Michigan pursuant to 1980 Public Act 278, as amended, MCL 423.321 et seq. (Employers Engaging in Unfair Labor Practices Act). A breach of this covenant is a material breach of this Agreement.

9.4 Electronic Funds Transfer - Public Act 533 of 2004 requires that payments under this Agreement be processed by electronic funds transfer (EFT). Landlord is required to register to receive payments by EFT at the Contract & Payment Express website (www.mi.gov/cpexpress) or call (888) 734-9749 to receive payments by EFT.

10. Notices - Any notice to Tenant required by this Agreement shall be complete if submitted in writing and transmitted by personal delivery (with signed delivery receipt), or certified or registered mail return receipt requested, or by a nationally recognized overnight delivery service. Unless either party notifies the other in writing of a different mailing address, notice to the Landlord and/or Tenant shall be transmitted to:

Landlord	**Tenant**
Hallwood Plaza, Inc.	Director, Real Estate Division

The notice shall be deemed on either (i) the third business day following the date of mailing, if transmitted by mail or (ii) the date on which the noticed party receives or refuses receipt of the notice, if transmitted by personal delivery, or a nationally recognized overnight delivery service. Business day is defined as any day other than a Saturday, Sunday, legal holiday, or day preceding a legal holiday. A receipt from a U.S. Postal Service, or successor agency, performing such function shall be conclusive evidence of the date of mailing.

11. Miscellaneous Provisions -

11.1 Governing Law - This Agreement shall be governed by and interpreted in accordance with the laws of the State of Michigan.

11.2 Mutual Drafting - This Agreement shall be interpreted and construed as drafted mutually by both parties.

11.3 Entire Agreement - This Agreement, with all Attachments as listed herein, constitutes the entire agreement between the parties with regard to this transaction and may be amended only in writing, signed by each party.

11.4 Severability - Should any provision of this Agreement or any addenda thereto be found to be illegal or otherwise unenforceable by a court of law, such provision shall be severed from the remainder of the Agreement, and such action shall not affect the enforceability of the remaining provisions of the Agreement.

11.5 Waiver - Failure to enforce any term of this Agreement shall not be deemed a waiver of the enforcement of that or any other term of this Agreement.

11.6 Effective Date - The Effective Date of this Agreement is the date signed by the Real Estate Director of the Department of Technology, Management & Budget.

11.7 Binding Effect - This Agreement shall be binding upon and inure to the benefit of the heirs, executors, administrators and assigns of Landlord and Tenant.

11.8 Counterparts - This Agreement may be executed in counterparts, each which shall be deemed an original, and all of which together shall constitute one and the same agreement. An electronic, scanned or facsimile signature shall be deemed an original.

11.9 Assignment - The Tenant, through its Department of Technology, Management & Budget may assign or reassign any or all of the Premises to any branch, department, board, agency, commission or other instrumentality of State government without the necessity of obtaining consent of the Landlord.

12. Attachments -

12.1 Attachment "A" – Floor Plan, 2 pages

Budget recommendation will include $30 million request for Flint water bill repayments

HOME | NEWSROOM | BLOG | CONTACT | FACEBOOK | TWITTER | INSTAGRAM

Budget recommendation will include $30 million request for Flint water bill repayments

When Governor Rick Snyder presents his budget recommendation next Wednesday, Feb. 10, he will include a $30 million request for the residents of Flint to keep their water service on and eliminate the need to pay for water they cannot completely trust to drink.

Under the governor's ask, the funding would enable the city of Flint to apply credits for customers on future bills. Estimates show water is roughly 47 percent of billing and sewer costs are around 53 percent. The credit would be applied to consumption usage (roughly 65 percent) of a resident's water portion of the bill, such as for bathing, drinking, cooking, and washing your hands. Residents still would be responsible for paying the sewer portion of their water bills.

Professor Marc Edwards of Virginia Tech said, "This essentially refunds all the money associated with consumption or consumer use. I think it's an amazing gesture of common sense and good will and it corrects an injustice. I don't think there's a precedent for this. I feel so encouraged by the direction this is going."

Click here to learn more about the budget request.

We spoke with Staff Sgt. Thomas Vega about the critical resources they're providing to Flint families every day. He also encouraged residents to pick up and return their water testing kits to Flint fire stations. Test results will be posted online at www.mi.gov/flintwater. Click here to watch the video.

America Is Morally Broken

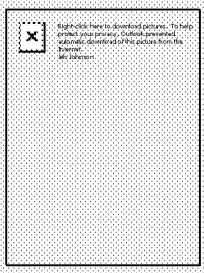
Franklin Graham's State of the Union

By Bill Noles Jr.

And if you faithfully obey the voice of the LORD your God, being careful to do all his commandments that I command you today, the LORD your God will set you high above all the nations of the earth. – Deuteronomy 28:1

On January 19, 2016 President Barack Obama gave his eighth and final State of the Union Address before a joint session of Congress. Much of his speech was spent on highlighting the economic and social accomplishments of his administration, including the Supreme Court's ruling that legalized same-sex marriage.

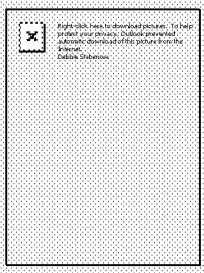
"Our unique strengths as a nation – our optimism and work ethic, our spirit of discovery, our diversity, our commitment to rule of law – these things give us everything we need to ensure prosperity and security for



President Barack Obama will meet with Columbian President Juan Manuel Santos in Washington Thursday as the President "pivots" to Latin America and the imminent end of Columbia's decades-old civil war signals new relations.

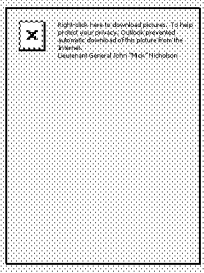
President Obama will ask Congress for $755 million in mandatory funding to support the administration's new "National Cancer Moonshot" initiative headed by **Vice President Joe Biden**, for a total of $1 billion.
Pray for President Obama and his Administration as they focus on both foreign and domestic issues.

Representative John Culberson (Texas) said he will use every tool at his disposal to end taxpayer funding to 300 so-called "sanctuary cities" that refuse to turn over illegal immigrants to the federal government for deportation.



Senator James Inhofe (Oklahoma) has introduced 16 amendments to a Senate energy bill designed to diminish or scrutinize the Obama Administration's landmark power plant and climate rules known as the Clean Power Plan.
Pray for the chairs of committees working to modify existing rules and regulations or draft new legislation.

generations to come," Obama stressed.



Jeh Johnson, Secretary of Homeland Security

The Department of Homeland Security remains unable to accurately report the number of aliens who illegally overstay their visas into the country more than 12 years after the agency was ordered to employ a tracking system to monitor these individuals, according to a new report from the Government Accountability Office that is highly critical of the department's efforts.

Debbie Stabenow, United States Senator from Michigan

Members of the Senate are seeking as much as $400 million in emergency federal money to fix or replace the corroded pipes polluting the water in Flint, Michigan, part of a proposed amendment to the bipartisan energy bill being considered in the Senate. "This legislation puts the attention and focus where it needs to be – helping the children and families of Flint," said Senator Debbie Stabenow of Michigan.

Lieutenant General John "Mick" Nicholson, Nominee to be Commander in Afghanistan

The general tapped to take over the command of troops in Afghanistan promised to make a recommendation on troop levels after his first 90 days in the role. "I think after the initial 90 days, I'll have a good sense of where we are building on the experience we have, and, of course, if confirmed, the chance to do some more thorough discussions with General [John] Campbell and with the team on the ground," Lieutenant General John "Mick" Nicholson told the Senate Armed Services Committee during his confirmation hearing.

The Supreme Court has scheduled oral arguments for March 23 in a case that challenges provisions of the Affordable Care Act requiring birth control provisions for employees of faith-based charities and schools.

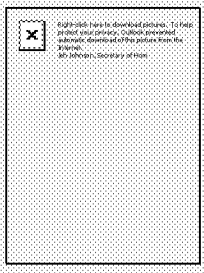
The Supreme Court allowed Virginia's election for members of the U.S. House of Representatives to go ahead based on new congressional district boundaries as imposed by a federal court panel.
Pray for wisdom for the members of the United States Supreme Court, and for their clerks sand legal assistants.

WARS AND TERRORISM

U.S. airstrikes in eastern Afghanistan killed 29 ISIS fighters and struck the terrorist group's FM radio station, the home also of some of its online activities, in a signal that American forces are still active in the region.

The Pentagon will not say how many American troops are fighting the Islamic State. Officially, there are now 3,500 in Iraq, primarily to help the Iraqi army, but the real number of "boots on the ground" is closer to 6,000 plus contractors.
Pray for the members of America's Armed Forces serving in many capacities in the conflict with Islamic State.

FOREIGN INTERESTS & CONFLICTS

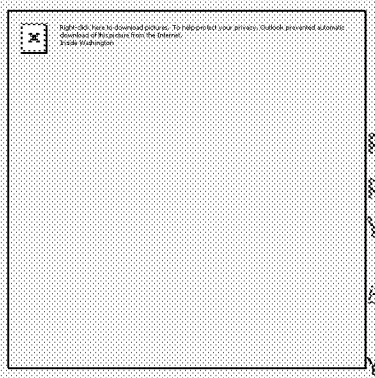


Beijing has let loose with a full barrage of media attacks against U.S. activities in the South China Sea, calling them "dangerous and irresponsible," as it justifies its claim to the area with a map it drew up in the 1940s.

A survivor hidden in a tree said he watched Boko Haram jihadists firebomb huts and heard the screams of children burning to death among 86 people officials say died in the latest attack by the Nigerian extremists.
Pray about the U.S.-China relationship over South China Sea territory, and for the suffering people of Nigeria.

ISRAEL AND THE MIDDLE EAST

Palestinian Authority security forces recently arrested five pro-Iranian operatives in Bethlehem planning to establish an Iranian foothold in the West Bank and carry out attacks against Israel, Israeli radio cited PA officials as saying.



An international sting operation has netted members of a European Hezbollah cell accused of using millions of

Judge J. Harvie Wilkinson III, United States Court of Appeals for the Fourth Circuit

A federal appeals court wrestled last week with whether local government leaders in North Carolina are violating the Constitution by holding exclusively Christian prayers at their meetings – the first time a court at that level has addressed the issue since the U.S. Supreme Court ruled in a town government's favor in a similar case in 2014.

Beware The Lame Duck

President Obama plans audacious final year

By Jim Ray

You are sitting in your office and the email from Human Resources pops up—it's one you've seen many times before and you know exactly what it means. "Joe Smith" (or whoever,) the email says, "has left the company to pursue other opportunities." When Joe Smith leaves to "pursue other opportunities," it means Joe has been terminated. Joe will not be leaving in two weeks, but right now. Joe may well have been escorted out of the building by security and asked never to set foot on the premises again. You have never seen an email that says "We have fired Joe but have asked him to stay on for the next year." That would potentially be catastrophic. Joe might take all the office supplies, steal company secrets or take a magnet to the computer hard drives.

But in the United States Congress, employees do "stay on" after they have been fired by the voters. They're called "lame duck" politicians—that is, legislators who have been voted out of office but have not yet completed their term. And in the case of the President, he is asked to stay on even after his replacement has been chosen. What can he do, while everyone's attention is focused on the next administration? Quite a lot, it turns out.

dollars from cocaine sales in South America to buy weapons for Syria, the U.S. Drug Enforcement Agency said.

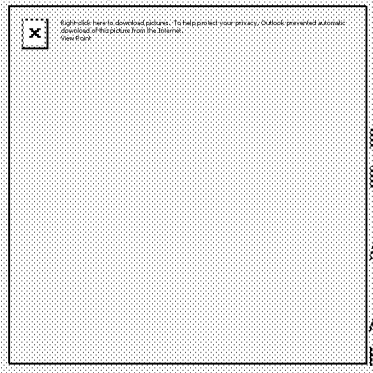
Pray about the wide-ranging reach of Iran and its surrogates, like Hezbollah, in their efforts to destroy Israel.

THE ECONOMY

Hiring by U.S. businesses slowed in January, but private-sector job growth remained solid in a sign the labor market has been able to withstand the recent financial market turmoil, according to a report released Wednesday.

Concerns are rising that the American shopper won't be able to save the U.S. from heading into a new recession, as spending even in the holiday month of December was flat, and Americans are saving more and spending less.

Pray about the many factors that contribute to a healthy economy, and that America can avoid another recession.



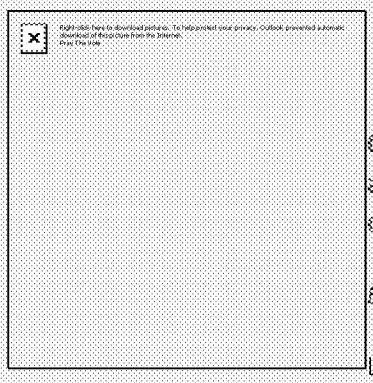
HEALTH CARE AND EDUCATION

Shortages of all kinds of drugs – anesthetics, pain killers, antibiotics, cancer treatments – have become the new normal in American medicine, but the rationing that results from the shortages has been largely hidden from the public.

President Obama will ask Congress to fund a new $4 billion program for states and another $100 million for districts to train teachers and provide equipment and tools so that every child in the U.S. can learn computer sciences.

Pray about the nation's health care issues and educational programs to benefit the widest range of citizens.

A Pulpit in the White House



Leaders who publicly honor God

By Holly L. Meade

America's leaders who have professed and upheld Christian principles have helped to preserve religious freedom for more than 200 years. The first U.S.

What Matters in This Election?

Candidates, voters and parties all diverge on priorities

By Dr. Tom Askew

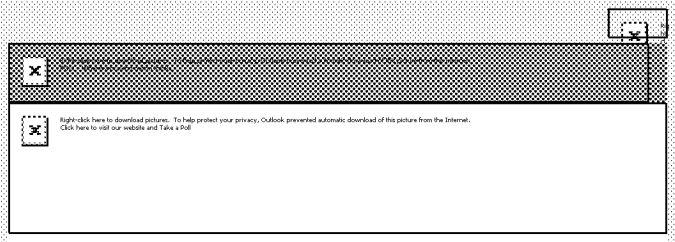
Like most Americans, you are probably weary from receiving e-mails or letters declaring that "this is the most critical time in American history."

In the abstract, it is difficult to compare the crises of one historic era with another. It is generally only in retrospect that historians see the pivotal events that define the path of a nation in its history. But for those who have lived more than a couple of decades in this country, things look pretty serious right now.

Unfortunately, Americans do not concur on which problems should have priority.

What do the Democrats prioritize?

The recent Democrat candidate debate revealed these concerns by each candidate:



- *Bernie Sanders:* Healthcare for everyone, a $15 minimum wage, creating new jobs through infrastructure spending
- *Martin O'Malley:* Higher wages and letting illegal immigrants work, climate change and a "new agenda" for U.S. cities
- *Hillary Clinton:* Jobs and equal pay for women, building on Obamacare, finding ways to unite the country and end the "mean-spiritedness" seen in the last several years. In a speech after the debate, Clinton stated, "There is no more important issue than reproductive rights."

Supreme Court Chief Justice, John Jay said, "Providence has given to our people the choice of their rulers, and it is the duty, as well as the privilege and interest of our Christian nation to select and prefer Christians for their rulers."

In fact, most of America's presidents have publicly expressed a faith in God. A member of the Episcopal Church, President George Washington said, "It is impossible to rightly govern the world without God and the Bible." Washington also continually thanked God for victorious battles and for this great nation.

John Adams, America's second president and co-drafter of the Declaration of Independence said, "Our Constitution was made for a moral and religious people, it is wholly inadequate to the government of any other." Adams never hid his Christian faith and was the first president to ask a blessing on the White House – not only for himself, but for all who followed him.

Do you believe the President should also set the moral and spiritual tone for the nation? ___Yes ___No

Subject: Flint Public Schools Rental Agreement

Good morning,

I am pleased to be able to send you a copy of the fully executed rental agreement. Please submit all costs for this agreement and invoices for the costs associated with pallets of water and the unloading of semi-trucks and storage. It is understood that this rental agreement was for one day and is considered to be terminated.

If you need a hard copy of these documents mailed to you please let me know.

Thanks again for your patience during the State's approval process.

Subject: RE: Flint SOB Space for 10 DEQ Staff?

Mary Kay,
There is office space located at the same strip mall on Pierson Road in Flint. As you know the DHHS space is there as well as the prior Kroger store, 74,000 square feet, just leased by DTMB for the water filters and water distribution. The space was originally built-out by Hurley Medical Center, it has twelve offices etc. He is offering it @ $9.63 psf.
Please see the information below, just in case there isn't room at the State Office Building.
Thanks,
Maureen

Here is the data on the medical space build-out.

Size: 7800 square feet, single story, barrier free For restrooms, twelve, possibly more individual offices, large main office with built-in work stations, central filing bank in main office, large lobby, children's play area with restroom, large space for potential conference area.

Power operated entrance doors (two sets) additional storage in rear if needed in fenced-in location inside of 8,100 of storage space. We will replace all burned out lights, clean carpeting, paint walls which may require same, clean restrooms and make ready for occupancy. The phone system KSU is in the building and would only need compatible phone instruments. The building also has a security system which could be activated. It is fully sprinkled.
Cost for all-inclusive lease, one year minimum is $6500 per month.

Let me know if anyone is interested as painting and cleaning can take a couple of days. Thanks.

Subject: Flint SOB Space for 10 DEQ Staff?

Hi There

Amy Epkey asked me to look into finding space for approximately 10 DEQ staff that are working on the Flint water crisis. She heard that there is vacant space on the 5th floor. Any truth to that? Or any other ideas?

Thanks

MK

Subject: FW: Invoice & ESCR Form Agreement # 11867-2016-Flint, Mi
Attachments: CCE02172016_0007.pdf

Jeanette,
Please find the invoice immediately after the Emergency Service Call Record.
Please have those who were on-site keeping track of the pallets, and other items both incoming and outgoing, go over these charges to substantiate the costs for this one month.
The rent is correct.

Subject: Invoice & ESCR Form Agreement # 11867-2016-Flint, Mi

Good Afternoon Maureen,

Attached is the billing that you and Gary Sr. discussed with our ESCR form.

The fire inspection will be done on Friday / Monday; as soon as we receive it I will forward it to you.

If you have any questions please let me know.

Thank you for all your help.

Sue

ADDENDUM TO LEASE

between

GENESEE COUNTY 9-1-1 CONSORTIUM
A Consortium

and the

STATE OF MICHIGAN

ADDENDUM # 2 to Lease #10235 (Lease), by and between Charter Township of Flint, and subsequently assigned to Genesee County 9-1-1 Consortium, as Lessor, whose address is G-4481 Corunna Road, Flint, Michigan 48532, and the State of Michigan by the Department of Technology, Management and Budget for the Department of State Police, as State, for property located at 4481 Corunna Road, Flint, Michigan.

The purpose of this Addendum is to add 2,970 square feet of office space for a revised total of 17,872 usable square feet of office space; extend the current Lease term; add two five-year renewal options; modify the Lessor and State responsibilities; revise the current floor plan (enclosure "A-1") and modify the rent for a lease savings.

Article II, Paragraph 2.1, of this Lease, is deleted in its entirety with the following text being inserted in lieu thereof:

2.1 – The Lessor leases to the State **17,872 usable** square feet of space, referred to as the "Leased premises", which is outlined on a plan attached as Enclosure "A-1". This square footage is based upon the A.N.S.I. Z65.1 - 1996 method for calculating space.

Article II, Paragraph 2.4, 2.5, and 2.6, of this Lease, are deleted in their entirety with the following text being inserted in lieu thereof:

2.4 - The Lessor shall furnish the Leased premises with their appurtenances to the State for a **thirty-year** initial term of possession beginning upon actual possession or at 12:01 a.m. on **December 20, 1995**, and ending at 11:59 p.m. on **December 19, 2025**, or such later date as provided in paragraph 3.6. If the Leased premises are not ready by the possession date, the beginning and ending dates may be altered by mutual written consent to reflect the correct possession date.

2.5 - This Lease may, at the option of the State, be extended for a **five-year** term beginning at 12:01 a.m. on **December 20, 2025**, and ending at 11:59 p.m. on **December 19, 2030**, provided notice be given in writing to the Lessor **sixty (60)** days before this Lease or extension expires.

DRAFT

2.6 - This Lease may, at the option of the State, be extended for a **five-year** term beginning at 12:01 a.m. on **December 20, 2030**, and ending at 11:59 p.m. on **December 19, 2035**, provided notice be given in writing to the Lessor **sixty (60)** days before this Lease or extension expires.

Article III, Paragraph 3.1f) and 3.1n), shall be added to this Lease:

3.1f) - Metered utility costs electricity, for natural gas, water, sewerage, steam, fuel oil, or coal **and propane to run the generator used in power outages**.

3.1n) - Trash removal from dumpsters, or equivalent containers used by the State.

Article IV, Paragraph 4.1a) c), f), of this Lease, are deleted in their entirety with the following text being inserted in lieu thereof:

4.1 – The State shall furnish:

a) Deleted, Not Applicable
c) Janitorial supplies, equipment, personnel for janitorial services.
f) Trash removal from office waste baskets

Article V, Paragraph 5.4a), of this Lease, is deleted in its entirety with the following text being inserted in lieu thereof:

5.4a) - The State shall pay to the Lessor as annual rent consideration for the Leased premises from 12:01 a.m. May 1, 2009, through 11:59 p.m. September 30, 2011, at the rate of Two Hundred Fifty Three Thousand Three Hundred Thirty four and 04/100 dollars ($253,334.04) per year, payable in installments of Twenty One Thousand One Hundred Eleven and 17/100 dollars ($21,111.17) per month.

Article V, Paragraph 5.4b) and 5.4c) shall be added to this Lease:

5.4b) - The State shall pay to the Lessor as annual rent consideration for the Leased premises from 12:01 a.m. October 1, 2011, through 11:59 p.m. September 30, 2013, at the rate of Zero (0) and 00/100 dollars ($-0-) per year.

5.4c) - The State shall pay to the Lessor as annual rent consideration for the Leased premises from 12:01 a.m. October 1, 2013, through 11:59 p.m. December 19, 2025, at the rate of One Hundred Twenty Five Thousand and 04/100 dollars ($125,000.04) per year, payable in installments of Ten Thousand Four Hundred Sixteen and 67/100 dollars ($10,416.67) per month.

Article V, Paragraph 5.5 and 5.6, of this Lease, are deleted in their entirety with the following text being inserted in lieu thereof:

5.5 - In the event the State exercises the renewal option pursuant to Article II, Paragraph 2.5, the State shall pay to the Lessor as rent consideration for the Leased premises from 12:01 a.m. at 12:01 a.m. on December 20, 2025, and ending at 11:59 p.m. on December 19, 2030, at the rate of One Hundred Twenty Five Thousand and 04/100 dollars ($125,000.04) per year, payable in installments of Ten Thousand Four Hundred Sixteen and 67/100 dollars ($10,416.67) per month.

DRAFT

5.6 - In the event the State exercises the renewal option pursuant to Article II, Paragraph 2.6, the State shall pay to the Lessor as rent consideration for the Leased premises from 12:01 a.m. at 12:01 a.m. on December 20, 2030, and ending at 11:59 p.m. on December 19, 2035, at the rate of One Hundred Twenty Five Thousand and 04/100 dollars ($125,000.04) per year, payable in installments of Ten Thousand Four Hundred Sixteen and 67/100 dollars ($10,416.67) per month.

Article XII, Paragraph 12.1 of this Lease, is deleted in its entirety with the following text being inserted in lieu thereof:

12.1 Pursuant to Article XII, Paragraph 12.1 of the Lease, you are hereby notified that the mailing address for all legal notices for the State of Michigan, as State, has been changed to:

Lessor	**State**
Lyndon Lattie, Attorney	Deborah M. Roberts, Interim Director

This Lease Addendum was approved by the Michigan State Administrative Board on

Item #

Form Updated: 04-21-2011

DRAFT

ADDENDUM TO LEASE

between

DRAFT-GENESEE COUNTY 9-1-1 CONSORTIUM
A Consortium

and the

STATE OF MICHIGAN

ADDENDUM # 2 to Lease #10235 (Lease), by and between Charter Township of Flint, and subsequently assigned to Genesee County 9-1-1 Consortium, as Lessor, whose address is G-4481 Corunna Road, Flint, Michigan 48532, and the State of Michigan by the Department of Technology, Management and Budget for the Department of State Police, as State, for property located at 4481 Corunna Road, Flint, Michigan.

The purpose of this Addendum is to change ownership of the Lessor; change the original Sub-Lease to a Lease; reduce the square footage of office space by 4,109 square feet for a revised total of 10,712 usable square feet of office space; modify the Lessor and State responsibilities; revise the current floor plan (enclosure "A-1" 2 pages) and modify the date and rent in Paragraph 5.4a), 5.4b), and 5.4c) 5.5 and 5.5a) for a lease savings; add renovation requirements; and exercise the renewal options provided for in Article 2.5 and 2.6 of the Lease upon approval of this addendum.

Article II, Paragraph 2.1, of this Lease, is deleted in its entirety with the following text being inserted in lieu thereof:

2.1 – The Lessor leases to the State **10,712 usable** square feet of space, referred to as the "Leased premises", which is outlined on a plan attached as Enclosure "A-1", 2 pages. This square footage is based upon the A.N.S.I. Z65.1 - 1996 method for calculating space.

Article III, Paragraph 3.1f) and 3.1n), shall be added to this Lease:

3.1f) - Metered utility costs electricity, for natural gas, water, sewerage, steam, fuel oil, or coal **and propane to run the generator used in power outages**.

3.1n) - Trash removal from dumpsters, or equivalent containers used by the State.

Article III, Paragraph 3.5a), 3.6-a) shall be added to this Lease:

3.5a) - The Lessor shall begin the remodeling or construction indicated in paragraph 3.6 within ninety (90) days of the date of approval of this addendum.

3.6a) - The Lessor shall complete renovations by March 31, 2012, as required, using the Michigan State Police Specifications identified in Paragraph 3.7 in the original Lease

to renovate pages one and two of the attached floor plan in A-1, including but not limited to:

Page one of floor plan A-1
Roof repair
Parking lot repaving
Landscaping repair and improvement

Page two of floor plan A-1
Roof repair
Interior remodel to suit
Parking lot repair and repaving
Grass and Landscaping including adding of security islands
Security fencing and removal of any drive thru windows

Article IV, Paragraph 4.1a) c), f), of this Lease, are deleted in their entirety with the following text being inserted in lieu thereof:

4.1 – The State shall furnish:

a) Deleted, Not Applicable
c) Janitorial supplies, equipment, personnel for janitorial services.
f) Trash removal from office waste baskets

Article V, Paragraph 5.4a), of this Lease, is deleted in its entirety with the following text being inserted in lieu thereof:

5.4a) - The State shall pay to the Lessor as annual rent consideration for the Leased premises from 12:01 a.m. May 1, 2009, through 11:59 p.m. September 30, 2011, at the rate of Two Hundred Fifty Three Thousand Three Hundred Thirty four and 04/100 dollars ($253,334.04) per year, payable in installments of Twenty One Thousand One Hundred Eleven and 17/100 dollars ($21,111.17) per month.

Article V, Paragraph 5.4b) and 5.4c) shall be added to this Lease:

5.4b) - The State shall pay to the Lessor as annual rent consideration for the Leased premises from 12:01 a.m. October 1, 2011, through 11:59 p.m. September 30, 2013, at the rate of Zero (0) and 00/100 dollars ($-0-) per year.

5.4c) -The State shall pay to the Lessor as annual rent consideration for the Leased premises from 12:01 a.m. October 1, 2013, through 11:59 p.m. December 19, 2025, at the rate of Seventy Four Thousand Nine Hundred Eighty Four and 04/100 dollars ($74,984.04) per year, payable in installments of Six Thousand Two Hundred Forty Eight and 67/100 dollars ($6,248.67) per month.

Article V, Paragraph 5.5 and 5.6, of this Lease, are deleted in their entirety with the following text being inserted in lieu thereof:

5.5 - In the event the State exercises the renewal option pursuant to Article II, Paragraph 2.5, the State shall pay to the Lessor as rent consideration for the Leased premises from 12:01 a.m. at 12:01 a.m. on December 20, 2025, and ending at 11:59 p.m. on December 19, 2030, at the rate of Seventy Four Thousand Nine Hundred Eighty Four and 04/100 dollars ($74,984.04) per year, payable in installments of Six Thousand Two Hundred Forty Eight and 67/100 dollars ($6,248.67) per month.

Article XII, Paragraph 12.1 of this Lease, is deleted in its entirety with the following text being inserted in lieu thereof:

12.1 Pursuant to Article XII, Paragraph 12.1 of the Lease, you are hereby notified that the mailing address for all legal notices for the State of Michigan, as State, has been changed to:

This Lease Addendum was approved by the Michigan State Administrative Board on

Item #

Form Updated: 04-21-2011

ADDENDUM TO LEASE

between

GENESEE COUNTY 9-1-1 CONSORTIUM
A Consortium

and the

STATE OF MICHIGAN

ADDENDUM # 2 to Lease #10235 (Lease), by and between Charter Township of Flint, and subsequently assigned to Genesee County 9-1-1 Consortium, as Lessor, whose address is G-4481 Corunna Road, Flint, Michigan 48532, and the State of Michigan by the Department of Technology, Management and Budget for the Department of State Police, as State, for property located at 4481 Corunna Road, Flint, Michigan.

The purpose of this Addendum is to change ownership of the Lessor; change the original Sub-Lease to a Lease; reduce the square footage of office space by 4,109 square feet for a revised total of 10,712 usable square feet of office space; modify the Lessor and State responsibilities; revise the current floor plan (enclosure "A-1" 2 pages) and modify the date and rent in Paragraph 5.4a), 5.4b), and 5.4c) 5.5 and 5.5a) for a lease savings; add renovation requirements; and exercise the renewal options provided for in Article 2.5 and 2.6 of the Lease upon approval of this addendum.

Article II, Paragraph 2.1, of this Lease, is deleted in its entirety with the following text being inserted in lieu thereof:

2.1 – The Lessor leases to the State **10,712 usable** square feet of space, referred to as the "Leased premises", which is outlined on a plan attached as Enclosure "A-1", 2 pages. This square footage is based upon the A.N.S.I. Z65.1 - 1996 method for calculating space.

Article III, Paragraph 3.1f) and 3.1n), shall be added to this Lease:

3.1f) - Metered utility costs electricity, for natural gas, water, sewerage, steam, fuel oil, or coal **and propane to run the generator used in power outages**.

3.1n) - Trash removal from dumpsters, or equivalent containers used by the State.

Article III, Paragraph 3.5a), 3.6-a) shall be added to this Lease:

3.5a) - The Lessor shall begin the remodeling or construction indicated in paragraph 3.6 within ninety (90) days of the date of approval of this addendum.

3.6a) - The Lessor shall complete renovations by March 31, 2012, as required, using the Michigan State Police Specifications identified in Paragraph 3.7 in the original Lease

to renovate pages one and two of the attached floor plan in A-1, including but not limited to:

Page one of floor plan A-1
Roof repair
Parking lot repaving
Landscaping repair and improvement

Page two of floor plan A-1
Roof repair
Interior remodel to suit
Parking lot repair and repaving
Grass and Landscaping including adding of security islands
Security fencing and removal of any drive thru windows

Article IV, Paragraph 4.1a) c), f), of this Lease, are deleted in their entirety with the following text being inserted in lieu thereof:

4.1 – The State shall furnish:

a) Deleted, Not Applicable
c) Janitorial supplies, equipment, personnel for janitorial services.
f) Trash removal from office waste baskets

Article V, Paragraph 5.4a), of this Lease, is deleted in its entirety with the following text being inserted in lieu thereof:

5.4a) - The State shall pay to the Lessor as annual rent consideration for the Leased premises from 12:01 a.m. May 1, 2009, through 11:59 p.m. September 30, 2011, at the rate of Two Hundred Fifty Three Thousand Three Hundred Thirty four and 04/100 dollars ($253,334.04) per year, payable in installments of Twenty One Thousand One Hundred Eleven and 17/100 dollars ($21,111.17) per month.

Article V, Paragraph 5.4b) and 5.4c) shall be added to this Lease:

5.4b) - The State shall pay to the Lessor as annual rent consideration for the Leased premises from 12:01 a.m. October 1, 2011, through 11:59 p.m. September 30, 2014, at the rate of Zero (0) and 00/100 dollars ($-0-) per year.

5.4c) -The State shall pay to the Lessor as annual rent consideration for the Leased premises from 12:01 a.m. October 1, 2014, through 11:59 p.m. December 19, 2015, at the rate of Seventy Four Thousand Nine Hundred Eighty Four and 04/100 dollars ($74,984.04) per year, payable in installments of Six Thousand Two Hundred Forty Eight and 67/100 dollars ($6,248.67) per month.

Article V, Paragraph 5.5 and 5.5a), of this Lease, are deleted in their entirety with the following text being inserted in lieu thereof:

5.5 - In the event the State exercises the renewal option pursuant to Article II, Paragraph 2.5, the State shall pay to the Lessor as rent consideration for the Leased premises from 12:01 a.m. at 12:01 a.m. on December 20, 2015, and ending at 11:59 p.m. on December 19, 2020, at the rate of Seventy Four Thousand Nine Hundred Eighty Four and 04/100 dollars ($74,984.04) per year, payable in installments of Six Thousand Two Hundred Forty Eight and 67/100 dollars ($6,248.67) per month.

5.5a) - In the event the State exercises the renewal option pursuant to Article II, Paragraph 2.6, the State shall pay to the Lessor as rent consideration for the Leased premises from 12:01 a.m. at 12:01 a.m. on December 20, 2020, and ending at 11:59 p.m. on December 19, 2025, at the rate of Seventy Four Thousand Nine Hundred Eighty Four and 04/100 dollars ($74,984.04) per year, payable in installments of Six Thousand Two Hundred Forty Eight and 67/100 dollars ($6,248.67) per month.

Article XII, Paragraph 12.1 of this Lease, is deleted in its entirety with the following text being inserted in lieu thereof:

12.1 Pursuant to Article XII, Paragraph 12.1 of the Lease, you are hereby notified that the mailing address for all legal notices for the State of Michigan, as State, has been changed to:

Lessor	**State**
Lyndon Lattie, Attorney	Deborah M. Roberts, Interim Director

This Lease Addendum was approved by the Michigan State Administrative Board on

Item #

Form Updated: 04-21-2011

ADDENDUM TO LEASE

between

GENESEE COUNTY 9-1-1 CONSORTIUM
A Consortium

and the

STATE OF MICHIGAN

ADDENDUM # 2 to Lease #10235 (Lease), by and between Charter Township of Flint, and subsequently assigned to Genesee County 9-1-1 Consortium, as Lessor, whose address is G-4481 Corunna Road, Flint, Michigan 48532, and the State of Michigan by the Department of Technology, Management and Budget for the Department of State Police, as State, for property located at 4481 Corunna Road, Flint, Michigan.

The purpose of this Addendum is to change ownership of the Lessor; change the original Sub-Lease to a Lease; reduce the square footage of office space by 4,109 square feet for a revised total of 10,712 usable square feet of office space; modify the Lessor and State responsibilities; revise the current floor plan (enclosure "A-1" 2 pages) and modify the date and rent in Paragraph 5.4a), 5.4b), and 5.4c) 5.5 and 5.5a) for a lease savings; add renovation requirements; and exercise the renewal options provided for in Article 2.5 and 2.6 of the Lease upon approval of this addendum.

Article II, Paragraph 2.1, of this Lease, is deleted in its entirety with the following text being inserted in lieu thereof:

2.1 – The Lessor leases to the State **10,712 usable** square feet of space, referred to as the "Leased premises", which is outlined on a plan attached as Enclosure "A-1", 2 pages. This square footage is based upon the A.N.S.I. Z65.1 - 1996 method for calculating space.

Article III, Paragraph 3.1f) and 3.1n), shall be added to this Lease:

3.1f) - Metered utility costs electricity, for natural gas, water, sewerage, steam, fuel oil, or coal **and propane to run the generator used in power outages**.

3.1n) - Trash removal from dumpsters, or equivalent containers used by the State.

Article III, Paragraph 3.5a), 3.6-a) shall be added to this Lease:

3.5a) - The Lessor shall begin the remodeling or construction indicated in paragraph 3.6 within ninety (90) days of the date of approval of this addendum.

3.6a) - The Lessor shall complete renovations by March 31, 2012, as required, using the Michigan State Police Specifications identified in Paragraph 3.7 in the original Lease

to renovate pages one and two of the attached floor plan in A-1, including but not limited to:

Page one of floor plan A-1
Roof repair
Parking lot repaving
Landscaping repair and improvement

Page two of floor plan A-1
Roof repair
Interior remodel to suit
Parking lot repair and repaving
Grass and Landscaping including adding of security islands
Security fencing and removal of any drive thru windows

Article IV, Paragraph 4.1a) c), f), of this Lease, are deleted in their entirety with the following text being inserted in lieu thereof:

4.1 – The State shall furnish:

a) Deleted, Not Applicable
c) Janitorial supplies, equipment, personnel for janitorial services.
f) Trash removal from office waste baskets

Article V, Paragraph 5.4a), of this Lease, is deleted in its entirety with the following text being inserted in lieu thereof:

5.4a) - The State shall pay to the Lessor as annual rent consideration for the Leased premises from 12:01 a.m. May 1, 2009, through 11:59 p.m. September 30, 2011, at the rate of Two Hundred Fifty Three Thousand Three Hundred Thirty four and 04/100 dollars ($253,334.04) per year, payable in installments of Twenty One Thousand One Hundred Eleven and 17/100 dollars ($21,111.17) per month.

Article V, Paragraph 5.4b) and 5.4c) shall be added to this Lease:

5.4b) - The State shall pay to the Lessor as annual rent consideration for the Leased premises from 12:01 a.m. October 1, 2011, through 11:59 p.m. September 30, 2013, at the rate of Zero (0) and 00/100 dollars ($-0-) per year.

5.4c) -The State shall pay to the Lessor as annual rent consideration for the Leased premises from 12:01 a.m. October 1, 2013, through 11:59 p.m. December 19, 2015, at the rate of One Hundred Twenty Five Thousand and 04/100 dollars ($125,000.04) per year, payable in installments of Ten Thousand Four Hundred Sixteen and 67/100 dollars ($10,416.67) per month.

Article V, Paragraph 5.5 and 5.5a), of this Lease, are deleted in their entirety with the following text being inserted in lieu thereof:

5.5 - In the event the State exercises the renewal option pursuant to Article II, Paragraph 2.5, the State shall pay to the Lessor as rent consideration for the Leased premises from 12:01 a.m. at 12:01 a.m. on December 20, 2015, and ending at 11:59 p.m. on December 19, 2020, at the rate of One Hundred Twenty Five Thousand and 04/100 dollars ($125,000.04) per year, payable in installments of Ten Thousand Four Hundred Sixteen and 67/100 dollars ($10,416.67) per month.

5.5a) - In the event the State exercises the renewal option pursuant to Article II, Paragraph 2.6, the State shall pay to the Lessor as rent consideration for the Leased premises from 12:01 a.m. at 12:01 a.m. on December 20, 2020, and ending at 11:59 p.m. on December 19, 2025, at the rate of One Hundred Twenty Five Thousand and 04/100 dollars ($125,000.04) per year, payable in installments of Ten Thousand Four Hundred Sixteen and 67/100 dollars ($10,416.67) per month.

Article XII, Paragraph 12.1 of this Lease, is deleted in its entirety with the following text being inserted in lieu thereof:

12.1 Pursuant to Article XII, Paragraph 12.1 of the Lease, you are hereby notified that the mailing address for all legal notices for the State of Michigan, as State, has been changed to:

This Lease Addendum was approved by the Michigan State Administrative Board on

Item #

Form Updated: 04-21-2011

ADDENDUM TO LEASE

between

GENESEE COUNTY 9-1-1 CONSORTIUM
A Consortium

and the

STATE OF MICHIGAN

ADDENDUM # 2 to Lease #10235 (Lease), by and between Charter Township of Flint, and subsequently assigned to Genesee County 9-1-1 Consortium, as Lessor, whose address is G-4481 Corunna Road, Flint, Michigan 48532, and the State of Michigan by the Department of Technology, Management and Budget for the Department of State Police, as State, for property located at 4481 Corunna Road, Flint, Michigan.

The purpose of this Addendum is to change ownership of the Lessor; change the original Sub-Lease to a Lease; reduce the square footage of office space by 4,109 square feet for a revised total of 10,712 usable square feet of office space; modify the Lessor and State responsibilities; revise the current floor plan (enclosure "A-1" 2 pages) and modify the date and rent in Paragraph 5.4a), 5.4b), and 5.4c) 5.5 and 5.5a) for a lease savings; add renovation requirements; and exercise the renewal options provided for in Article 2.5 and 2.6 of the Lease upon approval of this addendum.

Article II, Paragraph 2.1, of this Lease, is deleted in its entirety with the following text being inserted in lieu thereof:

2.1 – The Lessor leases to the State **10,712 usable** square feet of space, referred to as the "Leased premises", which is outlined on a plan attached as Enclosure "A-1", 2 pages. This square footage is based upon the A.N.S.I. Z65.1 - 1996 method for calculating space.

Article III, Paragraph 3.1f) and 3.1n), shall be added to this Lease:

3.1f) - Metered utility costs electricity, for natural gas, water, sewerage, steam, fuel oil, or coal **and propane to run the generator used in power outages**.

3.1n) - Trash removal from dumpsters, or equivalent containers used by the State.

Article III, Paragraph 3.5a), 3.6-a) shall be added to this Lease:

3.5a) - The Lessor shall begin the remodeling or construction indicated in paragraph 3.6 within ninety (90) days of the date of approval of this addendum.

3.6a) - The Lessor shall complete renovations by March 31, 2012, as required, using the Michigan State Police Specifications identified in Paragraph 3.7 in the original Lease

to renovate pages one and two of the attached floor plan in A-1, including but not limited to:

Page one of floor plan A-1
Roof repair
Parking lot repaving
Landscaping repair and improvement

Page two of floor plan A-1
Roof repair
Interior remodel to suit
Parking lot repair and repaving
Grass and Landscaping including adding of security islands
Security fencing and removal of any drive thru windows

Article IV, Paragraph 4.1a) c), f), of this Lease, are deleted in their entirety with the following text being inserted in lieu thereof:

4.1 – The State shall furnish:

a) Deleted, Not Applicable
c) Janitorial supplies, equipment, personnel for janitorial services.
f) Trash removal from office waste baskets

Article V, Paragraph 5.4a), of this Lease, is deleted in its entirety with the following text being inserted in lieu thereof:

5.4a) - The State shall pay to the Lessor as annual rent consideration for the Leased premises from 12:01 a.m. May 1, 2009, through 11:59 p.m. December 31, 2011, at the rate of Two Hundred Fifty Three Thousand Three Hundred Thirty four and 04/100 dollars ($253,334.04) per year, payable in installments of Twenty One Thousand One Hundred Eleven and 17/100 dollars ($21,111.17) per month.

Article V, Paragraph 5.4b) and 5.4c) shall be added to this Lease:

5.4b) - The State shall pay to the Lessor as annual rent consideration for the Leased premises from 12:01 a.m. January 1, 2012, through 11:59 p.m. December 31, 2013, at the rate of Zero (-0-) and 00/100 dollars ($-0-) per year. **It is understood by all parties the rent owed to Michigan State Police by the 9-1-1 Consortium from 2006 through 2012 will be satisfied at the end of this two year period.**

5.4c) -The State shall pay to the Lessor as annual rent consideration for the Leased premises from 12:01 a.m. January 1, 2014, through 11:59 p.m. December 19, 2015, at the rate of One Hundred Twenty Five Thousand and 04/100 dollars ($125,000.04) per year, payable in installments of Ten Thousand Four Hundred Sixteen and 67/100 dollars ($10,416.67) per month.

Article V, Paragraph 5.5 and 5.5a), of this Lease, are deleted in their entirety with the following text being inserted in lieu thereof:

5.5 - In the event the State exercises the renewal option pursuant to Article II, Paragraph 2.5, the State shall pay to the Lessor as rent consideration for the Leased premises from 12:01 a.m. at 12:01 a.m. on December 20, 2015, and ending at 11:59 p.m. on December 19, 2020, at the rate of One Hundred Twenty Five Thousand and 04/100 dollars ($125,000.04) per year, payable in installments of Ten Thousand Four Hundred Sixteen and 67/100 dollars ($10,416.67) per month.

5.5a) - In the event the State exercises the renewal option pursuant to Article II, Paragraph 2.6, the State shall pay to the Lessor as rent consideration for the Leased premises from 12:01 a.m. at 12:01 a.m. on December 20, 2020, and ending at 11:59 p.m. on December 19, 2025, at the rate of One Hundred Twenty Five Thousand and 04/100 dollars ($125,000.04) per year, payable in installments of Ten Thousand Four Hundred Sixteen and 67/100 dollars ($10,416.67) per month.

Article XII, Paragraph 12.1 of this Lease, is deleted in its entirety with the following text being inserted in lieu thereof:

12.1 Pursuant to Article XII, Paragraph 12.1 of the Lease, you are hereby notified that the mailing address for all legal notices for the State of Michigan, as State, has been changed to:

Lessor	**State**
Lyndon Lattie, Attorney	Deborah M. Roberts, Interim Director

LEASE

State Lease **#7890-2011**

between

B.N.B. COMPANY, LLC, as Lessor

and

THE STATE OF MICHIGAN, as Lessee

THIS LEASE is entered into by B.N.B. Company, LLC, as Lessor, whose address is 405 South State Street, Davison, Michigan 48423, and the State of Michigan by the Department of Technology, Management & Budget for the Department of State, as Lessee.

The parties, for the considerations specified in this Lease, agree to the following terms, conditions, and covenants:

ARTICLE I - DEFINITIONS

1.1 - A.N.S.I.: American National Standards Institute, Inc., a New York corporation that identifies public requirements for national standards and coordinates voluntary standardization activities. A.N.S.I. standards are used in calculating square footage used in this Lease.

1.2 - Cancellation: Ending all rights and obligations of the Lessor and Lessee, except for any rights and obligations that are due and owing.

1.3 - Construction: Assembling of foundation, structural, architectural, electrical, and mechanical systems, on the Leased premises, where none existed prior.

1.4 - Executive: An Executive Order of the Governor pursuant to the Constitution 1963, Article 5, § 2 and 20, or a decision by the Director of the Department of Technology, Management & Budget in conjunction with the head of the principal State department or agency for whose use the Lease was entered.

1.5 - Maintenance: That effort, including repair, replacement, or removal, required to keep the Leased premises and the appearance of said Leased premises functioning or operating as originally designed, constructed, or installed, including but not limited to mechanical, electrical, architectural, or civil systems within the Leased premises, outside the Leased premises, or those systems otherwise attached thereto.

1.6 - Occupancy: Actual physical presence by the Lessee in the Leased premises.

1.7 - **Reserved**

1.8 - Possession: Lawful availability and physical access to install the Lessee's furnishings and compliance with paragraphs 3.1(z) and 3.7.

1.9 - Potable water: Water free from impurities present in amounts sufficient to cause disease or harmful physiological effects and conforming in its bacteriological and chemical

quality to the requirements of the Public Health Service Drinking Water Standards or the regulations of the public health authority having jurisdiction.

1.10 - Purpose: The purpose for this Lease is **office** space use for the department or agency mentioned in the Lease in the specific geographic location described in paragraph 2.2 of the Lease.

1.11 - Remodel: Includes alterations, renovations, and any related demolition, and is the rearranging of existing architectural, civil, electrical, and/or mechanical systems within the Leased premises. Remodeling does not include enlarging or decreasing of structural or foundation systems, or new construction.

1.12 - State Government Managed: Property management tasks and responsibilities provided or contracted for and managed by a) the State of Michigan; b) any of the several departments, boards, commissions, offices, or agencies of the executive, legislative or judicial branches of state government; c) any institution of higher learning funded in whole or in part by the State of Michigan; or d) any entity created by act of the Legislature as an instrumentality of Michigan State government.

1.13 - State Government Owned: Real property fee title to which is held by a) the State of Michigan; b) any of the several departments, boards, commissions, offices, or agencies of the executive, legislative or judicial branches of state government; c) the State Building Authority; d) any institution of higher learning funded in whole or in part by the State of Michigan; or e) any entity created by act of the Legislature as an instrumentality of Michigan State government.

1.14 - Substantial Completion: The construction work has been completed in accordance with Enclosure C and C-1, to the extent that the Lessee can use or occupy the Leased premises for the use intended, without any outstanding or concurrent work remaining, except as required to complete minor punch list items. The Lessee has the sole discretion to determine whether punch list items are "minor". Prerequisites for substantial completion include (a) receipt by the Lessee of all required operating and maintenance documentation, (b) all systems have been successfully tested and demonstrated by the Lessor for their intended use, and (c) the Lessee has received all required certifications and/or occupancy approvals from the State and any other political subdivisions having jurisdiction over the work. Receipt of all certificates and/or occupancy approvals in and of itself does not necessarily connote substantial completion.

1.15 -Tenantable: Habitable for the effective conduct of the Lessee's intended business.

1.16 -Tenant Improvements: Remodeling, attachment of fixtures, erection of additions, partitions, structures or signs by the Lessee in and upon the Leased premises after the Lessee has acquired possession.

ARTICLE II - POSSESSION

2.1 - The Lessor leases to the Lessee 3,376 usable square feet of space, referred to as the "Leased premises", which is outlined on a plan attached as Enclosure "A". This square footage is based upon the A.N.S.I. Z65.1 - 1996 method for calculating space.

2.2 - The Leased premises, located on the property described in Enclosure "B" also known as 408 South Saginaw Street, in the City of Flint, County of Genessee, State of Michigan.

2.3 - If the Leased premises are available for possession by the Lessee prior to the commencement of the term defined in paragraph 2.4, the Lessee, at its sole option, may

possess the Leased premises when the same are available. The Lessor shall provide written notice to the Lessee of such availability. For each day of possession prior to commencement of such term, the Lessee shall pay to the Lessor, at the same time that rent consideration for the first month of the regular term of the Lease is due, 1/365 of the initial annual rent consideration set forth in Article V.

2.4 - The Lessor shall furnish the Leased premises with their appurtenances to the Lessee for a five-year initial term of possession beginning upon actual possession or at 12:01 a.m. on January 1, 2013 and ending at 11:59 p.m. on December 31, 2018 or such later date as provided in paragraph 3.6. If the Leased premises are not ready by the possession date, the beginning and ending dates may be altered by mutual written consent to reflect the correct possession date. If the initial possession date is changed, paragraphs 2.5, 2.6, and Article V shall also be changed accordingly.

2.5 - This Lease may, at the option of the Lessee, be extended for a five-year term beginning at 12:01 a.m. on January 1, 2018 and ending at 11:59 p.m. on December 31, 2023 provided notice be given in writing to the Lessor thirty (30) days before this Lease or extension expires.

2.6 - **Deleted, Not Applicable**

2.7 - **Deleted, Not Applicable**

2.8 - **Deleted, Not Applicable**

2.9 - The Lessee may, upon written notice to the Lessor, at least thirty (30) days prior to termination of this Lease or any extension, remain in possession of the Leased premises for the period specified in the notice, not to exceed three months. The Lessee shall pay the Lessor for each month or part of a month a sum equal to 1/12 of the annual rent consideration set forth in Article V.

2.10 - The Lessee may assign this Lease or may sublet the Leased premises in whole or in part, with prior written consent of the Lessor, which shall not be unreasonably withheld. The Lessee, through its Department of Technology, Management & Budget may assign or reassign any or all of the Leased premises to any branch, department, board, agency, commission or other instrumentality of State government without the necessity of obtaining consent of the Lessor. **The Lessor specifically consents to the Lessee installing, or having installed through a third-party agreement, automatic teller machines (ATMs) within the Leased Premises**.

2.11 - The Lessee, upon payment of the rental consideration specified in Article V and upon performing all covenants, shall and may peacefully and quietly have, hold, and enjoy the Leased premises for the term of this Lease or any extension.

2.12 - The Lessor or Lessor's agent may enter the Leased premises with reasonable advance notice for the purpose of conducting repairs, preventive maintenance, or providing replacements, as required under Article III.

2.13 - If for any reason relating to ownership of the Leased premises the Lessor is unable to lawfully put and maintain the Lessee in possession of the Leased premises as of the commencement of the term of this Lease or any proper extension thereof, the Lessor shall immediately secure other premises which in the Lessee's sole judgment is substantially equivalent to the Leased premises described herein, at a rental rate to the Lessee which shall not exceed the rental consideration in this Lease.

ARTICLE III - LESSOR OBLIGATIONS

3.1 - The Lessor shall furnish to the Lessee and pay the cost of the following:

a) Heating, mechanical ventilating, cooling, and humidification system capable of providing a temperature range of 68°F to 78°F, measured at 30" above the finished floor, and 12" inside any exterior wall, and a humidification range of 30% to 50%, at all times occupied. Ventilation in restrooms shall be a minimum of 100 cfm, exhausted to the outdoors. **It is understood by all parties the Lessor shall install a ventilation unit at a cost of $2,800.00 to alleviate a problem with air quality at no charge to the State.**

b) Electrical power distribution system throughout the Leased premises, for the operation of all business machinery and equipment.

c) Natural and/or artificial interior illumination that provides a minimum **70** foot-candles, measured at desk level, at all times, throughout the Leased premises. Artificial illumination shall be by incandescent or fluorescent lamps, and shall include tubes, bulbs, starters, ballasts, and fuses used inside the illumination fixture, and the replacement thereof for the Leased premises and common areas.

d) Domestic plumbing system to restrooms and break rooms capable of supplying hot and cold water, and removing sanitary waste water. Hot water delivery shall be not more than 120°F and not less than 110°F, measured at the tap.

e) Potable water shall meet the requirement of the Safe Drinking Water Act, 1976 PA 399, as amended, MCL 325.1001 et seq.

f) **Deleted, Not Applicable**

g) Adequate roof, vertical, and foundation thermal insulation in accordance with applicable codes.

h) Complete moisture protection from all exterior weather sources, on all sides, floors, and roof of the Leased premises.

i) Sound attenuation between any mechanical system or other tenant in the premises and the Leased premises, which provides not greater than 45dbA sound level readings, under conditions with all Lessee business equipment shut down.

j) Vibration isolation between any mechanical, plumbing, electrical, or other building system attached to and a part of the Leased premises.

k) Any equipment, portable or fixed, including alarm notification systems, required by the local public fire marshal authority.

l) Commercial grade, heavy-duty locking hardware.

m) Pest control, including but not limited to: insects, rodents, flying animals, etc. Spraying must be performed after business hours or on weekends.

n) Trash removal from office wastebaskets, dumpsters, or equivalent containers.

o) Exterior grounds maintenance, including grass and weed cutting, clippings removal, leaf raking, litter removal, sidewalk surface and parking lot surface maintenance, de-icing, and snow removal. Snow removal is required anytime the accumulated depth is 2" or more, 24

hours after the most recent snowfall, and there shall be a clear path from the handicapper motor vehicle parking spaces to the barrier free entrances.

p) **Deleted, Not Applicable**

q) **Deleted, Not Applicable**

r) Leased premises shall comply with the barrier free design requirements of 1966 PA 1, as amended, MCL 125.1351 et seq. (Utilization of Public Facilities by Physically Limited).

s) Complete maintenance of the Leased premises, except for any obligations expressly undertaken by the Lessee set forth in Article IV. The Lessor shall keep the Leased premises in good repair, and able to perform and operate as designed, free from dangerous or defective conditions, and in tenantable condition, and at the Lessor's sole expense, properly and in a manner customarily accepted by the skilled trades, make all repairs and/or replacements, structural or nonstructural, of whatever nature. The Lessor shall provide inspections and preventive maintenance for heating and cooling systems in accordance with manufacturers' standards and any local codes or ordinances. The Lessor shall have a reasonable period of time, not to exceed thirty (30) days after receipt of a detailed written notice from the Lessee, to cure any maintenance defect. Additional time to cure any such maintenance defects may be allowed provided, in the Lessee's discretion, the Lessor proceeds with due diligence both during and after such thirty (30) day period, and the total time period to cure does not exceed ninety (90) days. This provision is cross referenced in paragraphs 4.2, 5.15, 5.17, and 11.3.

t) A listing of all important service or repair contractors to be contacted by telephone by the Lessee for emergency service or maintenance. These emergency telephone numbers shall be used by the Lessee only after attempting contact with the Lessor, given the scope and nature of the emergency. The Lessor shall maintain an updated or otherwise current listing. Lessor's failure to provide the emergency telephone numbers or to notify the Lessee of changes to the current listing shall be considered as authorization for the Lessee to contact an emergency service or maintenance contractor of choice.

u) Full replacement value insurance, for the Leased premises identified in paragraphs 2.1 and 2.2, having only standard exclusions, i.e. for acts of war, nuclear disaster, or civil riots.

v) General premises liability insurance for the Leased premises identified in paragraphs 2.1 and 2.2, which provides full coverage for the Lessor, the Lessee, and their respective agents and employees and which protects against all claims, demands, actions, suits, or causes of action, and judgments, settlements or recoveries, for bodily injury or property damage arising out of a condition of the Leased premises. The Lessor agrees to maintain minimum policy limits in the amount of $500,000.00 per occurrence for property damage, and $1,000,000.00 per occurrence for bodily injury, with a $2,000,000.00 aggregate. The Lessor shall provide to the Lessee a certificate of insurance listing the Lessee, its several departments, boards, agencies, commissions, officers, and employees as additional insureds, within thirty (30) calendar days following execution and delivery of this Lease to the Lessor, and every year thereafter. The insurance policy shall provide that it may not be modified, cancelled, or allowed to expire without thirty (30) days prior written notice given to the Lessee.

w) A written report, not more than sixty (60) days old from the date of first possession, from the local public fire marshal authority, indicating the Leased premises are approved for occupancy. If a renewal option is exercised, the Lessor shall provide the Lessee with an updated report within sixty (60) days from the beginning date of each renewal period.

x) A legible photocopy of the recorded warranty deed, or other instrument conveying current legal possession or title, with right to lease or sublease the Leased premises, as found

in paragraphs 2.1 and 2.2, to the Lessor; and copies of all other documents limiting or restricting the use of the Leased premises or affecting title to the lands and Leased premises.

y) A legible photocopy of the current legal entity documents (corporation, partnership, trust, D.B.A., etc.) of the Lessor. This shall include signature authorizations indicating the signatory of this Lease is authorized to act on behalf of the legal entity, in this real estate transaction.

z) A legible photocopy of any certificates of occupancy, as approved by the local public building department or authority, if remodeling or construction is performed in paragraph 3.7.

aa) Legible photocopies of all paid-in-full supporting documents necessary to calculate adjustments to the rental consideration referenced in Article V.

bb) Adequate and easily accessible indoor space in the vicinity of any shipping and receiving docks, areas, or platforms, for the purpose of the placement of holding containers for state-government recyclable materials and supplies, in accordance with 1994 PA 451, as amended, MCL 324.16501 et seq.

cc) **Deleted, Not Applicable**

3.2 - The Lessor warrants that any asbestos contained within the Leased premises has been removed prior to the Lessee taking possession; or if not removed, is present or installed in a manner that will not harm or injure human occupants. The parties agree that the Lessee assumes no liability or responsibility for the presence of asbestos in or on the Leased premises.

3.3 - a) The Lessor covenants that he/she has undertaken an environmental assessment of the Leased premises, satisfactory to and for the benefit of the Lessee, that is adequate to establish the liability exemptions and defenses available in Sections 20126(1)(c) and 20126(3)(h) of the Natural Resources and Environmental Protection Act (NREPA), MCL 324.20126(1)(c) and 324.20126(3)(h) and Section 107(b)(3) of the Comprehensive Environmental Response Compensation Liability Act, 42 USC 9607(b)(3), and that the Leased premises, and property on which the Leased premises is located, do not contain a concentration of any hazardous substance above applicable criteria.

b) The Lessor covenants that in the event a release or the threat of a release of a hazardous substance is discovered after execution of the Lease, to exist on, in or below the Leased premises, the Lessor shall:

1) Promptly notify both the State, as the Lessee, and the Michigan Department of Natural Resources and Environment (MDNRE) of the release or threatened release.

2) Report, investigate, remediate, and take all other actions consistent with Federal, State and local laws and regulations including, without limitation, Part 201 of the Natural Resources and Environmental Protection Act (NREPA), MCL 324.20101, et seq.

3) Inform the Lessee, the MDNRE, and all other parties required to be notified under Federal, State or local law, of all actions taken under (2) above.

4) Provide the Lessee, the MDNRE, and all other parties required to be notified under Federal, State or local law, with all reports, data, analyses and other documents and information related in any way to the investigation, remediation or other steps taken under (2) above.

c) The Lessor, except as otherwise provided herein, agrees to hold the Lessee harmless and to indemnify the Lessee for any claims brought against the Lessee related to asbestos or the release or threatened release of any hazardous substance on, in or below the Leased premises that may have occurred prior to or after the Lessee's occupancy of the Leased premises. This indemnification and hold harmless provision shall survive the termination of the leasehold interest and the sale of the Leased premises by the Lessor.

d) The Lessor agrees to take no administrative or judicial action against the Lessee including, without limitation, any action for damages, contribution, cost recovery, or injunctive relief to compel the Lessee to investigate or take remedial action, declaratory relief, or any action associated with the Lessor's obligations to comply with Federal, State or local law as a result of asbestos or the release or threat of release of any hazardous substance on, in or below the Leased premises, except if the release or threatened release is caused solely by the Lessee.

e) The Lessor and Lessee mutually agree that they shall not release on, in, or below the Leased premises any hazardous substance. The Lessee assumes responsibility, to the extent provided by law, for a release or threatened release of a hazardous substance caused by the Lessee. The Lessor need not indemnify or defend the Lessee if the release or threatened release is caused solely by the Lessee.

3.4 - The Lessor is responsible for defending the Lessee against any claim whether meritorious or frivolous, by any person challenging the Lessor's right to Lease the Leased premises, and shall at its sole expense satisfy any judgment against the Lessee.

3.5 - The Lessor shall begin the remodeling or construction indicated in paragraph 3.7 within fifteen (15) days from the date this Lease is fully executed. All work required under paragraph 3.7 shall meet the latest local and state building codes, fire codes, and barrier free regulations. The Lessor shall be responsible for acquisition of and payment for all necessary permits.

3.6 - **Deleted, Not Applicable**

3.7 - **Deleted, Not Applicable**

3.8 **Deleted, Not Applicable**

3.9 **Deleted, Not Applicable**.

3.10 - In the event that less than ten percent (10%) of the replacement value of the Leased premises are damaged or destroyed by any casualty insured under the Lessor's insurance policy, the Lessor shall at its own expense, as speedily as circumstances permit, repair said damage and restore the Leased premises to its prior condition, within thirty (30) days notice after the damage or destruction. In the event that between ten percent (10%) and fifty percent (50%) of the replacement value of the Leased premises are damaged or destroyed by any casualty insured under the Lessor's insurance policy, the Lessor shall at its own expense, as speedily as circumstances permit, repair said damage and restore the Leased premises to its prior condition, within ninety (90) day's notice after the damage or destruction. In the event that more than fifty percent (50%) of the replacement value of the Leased premises are damaged or destroyed by any casualty insured under the Lessor's insurance policy, the Lessor shall have the option of repairing or reconstructing, or canceling this Lease, which option shall be exercised within ninety (90) days after the damage or destruction. This covenant is cross referenced in Articles IV, V and XI.

3.11 - The Lessor shall not rent or otherwise occupy any adjoining space which is or becomes vacant on the Leased premises known as **412 South Saginaw Street, Flint, Michigan 48502** during the term of this Lease, or any extensions thereof, without first offering for a period of ten (10) days, the space to the Lessee at the Lessee's current rental rate, and under the same terms and conditions found in this Lease.

3.12 - The Lessor shall comply with the Elliott-Larsen Civil Rights Act, 1976 PA 453, as amended, MCL 37.2101 et seq, the Persons with Disabilities Civil Rights Act, 1976 PA 220, as amended, MCL 37.1101 et seq, and all other federal, state and local fair employment practices and equal opportunity laws and covenants that it shall not discriminate against any employee or applicant for employment, to be employed in the performance of this real estate contract, with respect to his or her hire, tenure, terms, conditions, or privileges of employment, or any matter directly or indirectly related to employment, because of his or her race, religion, color, national origin, age, sex, height, weight, marital status, or physical or mental disability that is unrelated to the individual's ability to perform the duties of a particular job or position. The Lessor agrees to include in every subcontract entered into for the performance of this real estate contract this covenant not to discriminate in employment. A breach of this covenant is a material breach of this real estate contract. This covenant is cross referenced in Article XI.

3.13 - The Lessor shall have the right to specify positioning of safes or other concentrated loads, that do not exceed the structural loading capacities, in the floor design layout.

3.14 - The Lessor shall, within forty-five (45) days after transfer of its ownership interest in the Leased premises, provide notice to the Lessee of said transfer so that the Lessee can calculate the amount of the potential increase in real estate taxes as a result of such transfer.

3.15 – **Deleted, Not Applicable**

3.16 - Time extension requests must be submitted in writing to Lessee each month in which the Lessor believes he/she is entitled to more time. Such requests shall detail the length of time extension requested and indicate why the Lessor believes more time is warranted. Lessee will respond to such requests and may extend the timeframe allowed for substantial completion. If no time extension is requested in writing, it will be assumed that no additional time is needed and no timeframe extension will be allowed for that month.

3.17 - The Lessor shall permit the Lessee to display public notifications of applicable public meetings as required by 1976 PA 267, as amended, MCL 15.261 et seq., in public lobby areas of the building wherein the Leased premises are located, in a manner consistent with the decor of the public lobby areas. Any display cases or other means used to display such public notifications shall be at the Lessee's expense.

3.18 - **Deleted, Not Applicable**

3.19 - In all contracts for the construction or renovation of the Leased Premises, the Lessor must include a provision stating that the rates of wages and fringe benefits to be paid to each class of construction mechanics by the Lessor's General Contractor, all of the General Contractor's Subcontractors, and all lower tier Subcontractors shall not be less than the wage and fringe benefit rates issued by the Michigan Department of Energy, Labor & Economic Growth, Wage and Hour Division in its schedule of occupational classification and wage and fringe benefit rates for the locality in which the work is to be performed. "Construction mechanic" means a skilled or unskilled mechanic, laborer, worker, helper, assistant, or apprentice working on the construction or renovation of the Leased Premises but shall not include executive, administrative, professional, office, or custodial employees. The Lessor or the Lessor's General Contractor must keep posted on the construction or renovation site, in a

conspicuous place, a copy of all prevailing wage and fringe benefit rates and the address and telephone number of the Michigan Department of Licensing and Regulatory Affairs' Wage and Hour Division, currently 7150 Harris Drive, P.O. Box 30476, Lansing, Michigan 48909-7976, Phone: (517) 322-1825 and a notice that as the intended beneficiaries of 1965 PS 166, as amended, MCL 408.551, et seq., construction mechanics who have not been paid in accordance with the Act may file a claim with the Department of Licensing and Regulatory Affairs. The Lessor or the Lessor's General Contractor must keep an accurate record showing the name and classification of each person performing work on the site, the dates on which work was performed, the hours each person worked on the site, and the actual hourly wages and benefits paid to each person. This record must be made available for inspection by the Department of Technology, Management & Budget and/or the Michigan Department of Licensing and Regulatory Affairs, at any time, upon request.

ARTICLE IV - LESSEE OBLIGATIONS, DUTIES, and OPTIONS

4.1 - The Lessee shall furnish:

a) 100% payment for public utilities used for heating, cooling, illumination, power, and water and/or sewer.

b) Janitorial supplies, equipment, personnel, and supervision for complete janitorial service.

c) **Deleted, Not Applicable**

d) **Deleted, Not Applicable**

e) **Deleted, Not Applicable**

f) **Deleted, Not Applicable**

g) Telecommunications system and equipment.

h) Intrusion alarm system monitoring.

i) Reimbursement to the Lessor, for any repairs to the Leased premises, from damage that exceeds the normal wear and tear expected from the lawful and proper use of the Leased premises, and the sole cause of which was the negligent acts or omissions of the Lessee's employees, agents, wards, clients, or customers. (New 01-08)

j) **Deleted, Not Applicable**

k) **Deleted, Not Applicable**

4.2 - The Lessee shall give detailed written notice to the Lessor, and if applicable, to the Lessor's mortgagee, of the need for any maintenance which is the obligation of the Lessor pursuant to Article III. This provision is cross referenced in paragraphs 3.1(s), 5.15, and 5.17.

4.3 - a) The Lessee shall have the option to add tenant improvements to the Leased premises during this Lease or any extension at the Lessee's expense. The tenant improvements to the Leased premises shall be and remain the property of the Lessee, and may be removed by the Lessee prior to cancellation or termination of this Lease. In the event the Lessee exercises its option to remove any tenant improvements to the Leased premises under this paragraph upon cancellation or termination of this Lease, the Lessee shall restore or

otherwise return the Leased premises to the Lessor in an "as found" condition, except for normal wear and tear, unless otherwise agreed upon in writing.

b) In the event the Lessee removes any fixtures, finishes, additions, or structures owned by the Lessor, placed in or attached to the Leased premises, upon termination or cancellation of this Lease, the Lessee shall restore or otherwise return the Leased premises to the Lessor in an "as found" condition, except for normal wear and tear, unless otherwise agreed upon in writing.

4.4 - All tenant improvements by the Lessee, made pursuant to paragraph 4.3, shall be performed in a manner customarily accepted by the skilled trades, and in accordance with all federal, state, and local rules, ordinances, laws, codes, or nationally recognized standards of good construction practice.

4.5 - Upon cancellation or termination of this Lease, the Lessee shall clean the Leased premises to "broom-clean condition", and shall remove all furnishings from the Leased premises. Furnishings remaining in or on the Leased premises after the cancellation or termination effective date shall be considered abandoned property, and the Lessee shall be obligated to pay the Lessor for all reasonable removal costs.

4.6 - The Lessee shall be responsible to request and obtain any local government sign ordinance variances and the payment of any related fees.

4.7 - In the event the Lessor fails to proceed with repairs necessitated by damage or destruction that is fifty percent (50%) or less, as referenced in paragraph 3.10, the Lessee may proceed, after affording insurance surveyors or adjusters opportunity to inspect the damages, with repairs for the account of and at the expense of the Lessor.

4.8 - If the Lessee records this Lease with the county register of deeds, the Lessee shall record a discharge or notice of cancellation or termination of Lease within thirty (30) days after the cancellation or termination of this Lease is effective. The discharge from the public record shall include any recorded amendments to this Lease.

4.9 - The Lessee shall close all open windows, skylights, doors, or other exterior openings to the Leased premises, within the control of the Lessee, to avoid possible damage from fire, storms, rain, or freezing, when leaving the Leased premises at the close of the business day, or prior to any times when the Leased premises shall be unoccupied.

4.10 - The Lessee shall not permit:

a) Bicycles, mopeds, or other vehicles used for personal transportation, to be stored within the Leased premises or other common areas, unless otherwise specifically authorized elsewhere in this Lease, or agreed upon in writing with the Lessor.

b) Any items to be attached to suspended acoustical ceiling grids.

c) Access to any roof or overhang structure, except as under emergencies to maintain the roof moisture barrier or any rooftop mechanical system affecting the Leased premises.

ARTICLE V - RENT CONSIDERATION

5.1 - Rent consideration installment payments shall be made during the month for which the installment applies.

5.2 - If the Leased premises are not ready for possession by the date established in paragraphs 2.4 and 3.6, the Lessee shall not be responsible for rent until taking possession, nor shall the Lessee waive any claims to damages which the Lessee may have suffered.

5.3 - The Lessee shall pay to the Lessor as annual rent consideration for the Leased premises from 12:01 a.m. **January 1, 2013**, through 11:59 p.m. **December 31, 2018**, at the rate of **Thirty Two Thousand One Hundred Thirty Nine and 48/100** dollars (**$32,139.48**) per year, payable in installments of **Two Thousand Six Hundred Seventy Eight and 29/**100 dollars ($**2,678.29**) per month.

5.4 - The Lessee shall pay to the Lessor as annual rent consideration for the Leased premises from 12:01 a.m. **January 1, 2018**, through 11:59 p.m. **December 31, 2023**, at the rate of **Thirty Five Thousand One Hundred Forty Four and 16/100** dollars **($35,144.16)** per year, payable in installments of **Two Thousand Nine Hundred Twenty Eight and 68/100** dollars **($2,928.68)** per month

5.5 - **Deleted, Not Applicable**

5.6 - **Deleted, Not Applicable**

5.7 - **Deleted, Not Applicable**

5.8 - **Deleted, Not Applicable**

5.9 - **Deleted, Not Applicable**

5.10 - **Deleted, Not Applicable**

5.11 - **Deleted, Not Applicable**

5.12 - **Deleted, Not Applicable**

5.13 - **Reserved**

5.14 - **Reserved**

5.15 - If the Lessor fails to provide maintenance or complete the remodeling or construction, as referenced in Article III, the Lessee may provide the required maintenance, or complete the required remodeling or construction, and deduct the costs from future rent consideration payments due the Lessor.

5.16 - If the Lessor fails to provide supporting documentation or warranties, as required by Article III, four percent (4%) of the monthly rent consideration shall be held by the Lessee, until the required documentation is provided to the Lessee.

5.17 - The Lessee shall be entitled to an abatement of rent consideration for the period during which the Leased premises are rendered untenantable or incapable of the use for which the premises were leased as described in paragraph 1.10. In the event that only a part of the Leased premises are untenantable or incapable of such use, the rent shall be reduced in proportion to the entire area rented by the Lessee. This covenant is cross referenced in Articles III, IV and XI.

5.18 - Any rent consideration prepaid in advance to the Lessor, shall, upon damage or destruction as identified in paragraph 3.10, be repaid by the Lessor to the Lessee, within thirty (30) days of cancellation.

ARTICLE VI - LESSEE OPTION TO PURCHASE
Deleted, Not Applicable

ARTICLE VII - EMINENT DOMAIN/CONDEMNATION

7.1 - The Lessor shall notify the Lessee within ten (10) days of the commencement of eminent domain/condemnation proceedings against the Leased premises described in paragraphs 2.1 and 2.2 by a public agency authorized by law to condemn property. The Lessor shall timely notify the Lessee of the Lessor's intent to contest eminent domain/condemnation proceedings. The Lessor shall notify the Lessee within ten (10) days of acquisition by eminent domain/condemnation of the Leased premises described in paragraphs 2.1 and 2.2 by a public agency.

7.2 - If a total taking of the Leased premises by any public authority under the power of eminent domain/condemnation occurs, then the term of this Lease shall cease as of the day of possession and the rent shall be paid up to that day with a proportionate refund by the Lessor of such rent as may have been paid in advance for a period subsequent to the date of the taking. This covenant is cross referenced in Article XI.

7.3 - If a partial taking of the Leased premises by any public authority under eminent domain/condemnation occurs, the Lessee shall have the right either to terminate this Lease and declare same null and void, or, subject to the Lessor's right of termination as set forth below, to continue in possession of the remainder of the Leased premises, and shall notify the Lessor in writing within ten (10) days after such taking of the Lessee's intention. In the event the Lessee elects to remain in possession, all of the terms herein provided shall continue in effect, except that the fixed annual rental shall be reduced in proportion to the amount of the Leased premises taken and the Lessor shall, at its own cost and expense, make all the necessary repairs or alterations to the building, as originally installed by the Lessor, so as to constitute the remaining Leased premises a complete architectural unit.

7.4 - If more than fifty (50%) percent of the Leased premises are taken under the power of eminent domain/condemnation, the Lessor may, by written notice to the Lessee delivered on or before the date of surrendering possession to the public authority, terminate this Lease.

7.5 - All damages awarded for either a total or partial taking under the power of eminent domain/condemnation, of the Leased premises, including fee title, described in paragraphs 2.1 and 2.2 shall belong to and be the property of the Lessor, except damages awarded as compensation for diminution in value to the leasehold interest which shall belong to and be the property of the Lessee. The Lessee shall be entitled to all damages and costs flowing from its loss of the leasehold interest including, but not limited to, loss of the value of the remaining terms of the Lease, the economic value of the Lease, depreciation and cost of removal of the Lessee's supplies and fixtures, and relocation cost.

ARTICLE VIII - ESTOPPEL

8.1 - The Lessee shall, within fourteen (14) days of receipt of a request by the Lessor, pursuant to paragraph 12.1, certify, to the extent the Lessee believes the information to be true and deliver to the Lessor an executed estoppel certificate (Enclosure "D"). The Lessee's failure to deliver such statement shall be conclusive upon the Lessee that:

a) This Lease is in full force and effect without modification except as may be represented by the Lessor,

b) There are no uncured defaults in the Lessor's performance,

c) Not more than one (1) month's rent has been paid in advance.

ARTICLE IX - Deleted, Not Applicable

ARTICLE X - LESSOR'S MORTGAGEE

10.1 - For purposes of this Article, the term "Lessor's mortgagee" means any party of record holding a mortgage or deed of trust on the Leased premises described in paragraphs 2.1 and 2.2, or any part thereof. The Lessor shall give the Lessee written notice that such party holds such lien or deed of trust, and written evidence of the date the mortgage or deed of trust was executed, together with notice of the address of Lessor's mortgagee. A lien held by a Lessor's mortgagee on the Leased premises, or any portion thereof, is herein referred to as a "Lessor's mortgage".

10.2 - Pursuant to paragraph 10.1, the Lessor has disclosed all mortgages or deeds of trust affecting the Leased premises set forth in paragraphs 2.1 and 2.2 which exist as of the execution date of this Lease. If a mortgage or deed of trust exists or existed, as of the execution date of the original Lease, the Lessor shall cause each mortgagee to execute in favor of the Lessee the Nondisturbance Agreement, attached as Enclosure "E", whereby said mortgagee agrees that it will not disturb the Lessee's tenancy in the event of foreclosure or other succession to the interest of the Lessor. Enclosure "E" shall be executed before this Lease becomes effective. Any mortgage is to be subordinate to this Lease, and any future amendment thereto unless specifically provided otherwise in writing.

10.3 - If the Leased premises are at any time during the term of this Lease subject to a Lessor's mortgage, then, whenever the Lessee gives notice to the Lessor alleging default by the Lessor in performance of any covenant or obligation under this Lease, the Lessee shall simultaneously give a copy of such notice to the Lessor's mortgagee (at the address of the Lessor's mortgagee provided pursuant to paragraph 10.1). Lessor's mortgagee shall have the right (but not the obligation) to cure or remedy Lessor's default during the same time period that is permitted to the Lessor hereunder for the remedying or curing of such default. Lessee will accept such curative or remedial action taken by a Lessor's mortgagee with the same effect as if such action had been taken by the Lessor. Any claims for damages by the Lessee shall not be waived by the Lessor's mortgagee's corrective or remedial action.

10.4 - In the event that the Lessor's mortgagee of record (or any other party) shall acquire title to the Leased premises or shall succeed to the Lessor's interest in this Lease, whether through foreclosure of the Lessor's mortgage, conveyance in lieu of foreclosure, or otherwise (collectively, a "foreclosure"), the Lessor's mortgagee (or other such party) shall thereupon, and without the necessity of attornment or other act or agreement, be substituted as the Lessee's landlord under this Lease, and shall be subject to the obligations thereof. The rights acquired by the Lessor's mortgagee are subordinate to this Lease and all of the Lessee's rights under the Lease continue undisturbed.

ARTICLE XI - CANCELLATION

11.1 – This Lease may be cancelled by the Lessee if the Lessor is notified in writing at least **ninety (90)** days prior to the effective date of cancellation.

11.2 –**Deleted, Not Applicable**

11.3 - This Lease may be cancelled by the Lessee provided the Lessor is notified in writing at least thirty (30) days prior to the effective date of cancellation and any one of the following occur:

a) The Lessor or any subcontractor, manufacturer or supplier of the Lessor appears in the register compiled by the Michigan Department of Energy, Labor & Economic Growth pursuant to 1980 PA 278, as amended, MCL 423.321 et seq. (Employers Engaging in Unfair Labor Practices Act).

b) The Lessor or any subcontractor, manufacturer or supplier of the Lessor is found guilty of discrimination, pursuant to 1976 PA 453, as amended, MCL 37.2101 et seq. (Elliott-Larsen Civil Rights Act); or 1976 PA 220, as amended, MCL 37.1101 et seq. (Persons with Disabilities Civil Rights Act). This covenant is cross referenced in Article III.

c) The Leased premises do not comply with the barrier free design requirements of 1966 PA 1, as amended, MCL 125.1351 et seq. (Utilization of Public Facilities by Physically Limited). This covenant is cross referenced in Article III.

d) The Leased premises are taken for a public purpose by eminent domain/condemnation proceedings by a governmental unit. This covenant is cross referenced in Article VII.

e) The Lessee's use of the Leased premises is in violation of local adopted ordinance, or recorded deed restrictions.

f) The Lessee acquires fee title to the Leased premises in paragraphs 2.1 and 2.2. This covenant is cross referenced in Article VI.

g) The Lessor fails to maintain the Leased premises in a tenantable condition, described in and subject to the notice provision in paragraph 3.1(s). The Lessee shall provide detailed written notice to the Lessor, of not less than thirty (30) days, to correct defaults.

h) The Lessor fails to repair or restore the Leased premises for damage specified in paragraph 3.10. This covenant is cross referenced in Articles III, IV, and V.

i) The Lessor fails to deliver the Leased premises, according to the plans, specifications, and timeframe for remodeling or construction, found in paragraph 3.6.

j) Damage or destruction, specified in paragraph 3.10, is so extensive as to constitute a total destruction of the Leased premises. This covenant is cross referenced in Articles III, IV and V.

11.4 - This Lease may be cancelled by the Lessor if the Lessee is notified in writing at least sixty (60) days prior to the effective date of cancellation and any one of the following occur:

a) Damage or destruction to the Leased premises exceeds fifty percent (50%) of the replacement value of the Leased premises, as referenced in paragraph 3.10. This covenant is cross referenced in Articles III, IV and V.

b) The Leased premises are taken by eminent domain/condemnation proceedings, as referenced in Article VII.

ARTICLE XII - NOTICE, APPLICATION, AND APPROVALS

12.1 - Any notice to Lessee required by this Lease shall be complete if submitted in writing and transmitted by personal delivery (with signed delivery receipt), or certified or registered mail return receipt requested. Unless either party notifies the other in writing of a different mailing address, notice to the Lessor and/or Lessee shall be transmitted to:

Lessor	Lessee
B.N.B. Company, LLC	Interim Director, Real Estate Division
Robert Thompson	Michigan Department of Technology, Management & Budget
405 S. State Street	530 West Allegan Street
Davison, MI 48423	Lansing MI 48933
E-mail: bobtremax@charter.net	**CC to Department of State**
Telephone: 810-653-5020	William Pruzinsky
Fax: 989-854-1146	Department of State
	E-mail: pruzinskyw@michigan.gov
	Telephone: 517-241-4228

The notice shall be deemed effective as of Noon, Eastern Time on the third business day following the date of mailing, if transmitted by mail. Business day is defined as any day other than a Saturday, Sunday, legal holiday, or day preceding a legal holiday. A receipt from a U.S. Postal Service, or successor agency, performing such function shall be conclusive evidence of the date of mailing.

12.2 - This Lease shall be interpreted in accordance with the laws of the State of Michigan.

12.3 - This Lease shall be binding upon and to the benefit of the heirs, executors, administrators, and assigns of the Lessor; and upon and to the benefit of the assignees and sublessees of the Lessee.

12.4 - This Lease shall not be binding or effective on either party until approved (and notarized as necessary) by the Lessor, Lessee, Department of the Attorney General, Department of Technology, Management & Budget, Building Committee of the State Administrative Board, and the State Administrative Board. If this Lease or any subsequent amendments to it fall within the requirements of 1984 PA 431, as amended, MCL 18.1101 et seq. (Management and Budget Act), this Lease and any subsequent amendments to it shall also require approval of the Joint Capital Outlay Subcommittee of the Legislature.

12.5 - **Deleted, Not Applicable**

12.6 - Should any provision of this Lease or any addenda thereto be found to be illegal or otherwise unenforceable by a court of law, such provision shall be severed from the remainder of the Lease, and such action shall not affect the enforceability of the remaining provisions of the Lease.

12.7 - This Lease, with all enclosures and attachments as listed below, constitutes the entire agreement between the parties with regard to this transaction and may be amended only in writing and executed in the same manner as this Lease was originally executed, as under paragraph 12.4.

12.8 - Electronic Funds Transfer (EFT): Public Act 533 of 2004 requires that payments under this Lease be processed by electronic funds transfer (EFT). Lessor is required to register to receive payments by EFT at the Contract & Payment Express website (www.cpexpress.state.mi.us).

SAMPLE ESTOPPEL CERTIFICATE

Date

Lessor Name/Mailing Address

Attn: Name of Lessor

Subject: Department of Xxxxxxxxxxx, Located at 1445 Xxxxxxxxxxx Avenue, Anytown, Michigan (#1234)

A review of the lease between Xxxxxxxxxxxxxxxxxxx and the State of Michigan for the above facility has been requested. Information obtained from this review might be used in negotiations for a possible change in ownership or financing of the facility.

The undersigned [is/is not] in possession as a tenant of certain rental space situated at [address of premises], Michigan, consisting of x,xxx square feet of [office/ warehouse/ residential/ (other)] space with a monthly rental of $xx,xxx.xx. In connection therewith, the undersigned represents as follows:

The Leased premises [are/ will be] occupied pursuant to a certain written Lease dated [month/ day/ year] between the State of Michigan, as Lessee and [Lessor's name], a [corporation/ partnership/ trust/ estate etc.] as Lessor. Such Lease is presently in full force and effect [and has been amended "x" times].

The term of possession provided in the Lease [commenced/ commences] on [month/ day/ year] and expires on [month/ day/ year]. Renewal options are provided which can be exercised to extend possession to [month/ day/ year]. [Actual possession took place on [month/ day/ year] at which time rental payments started]. [An agreement [was/ was not] written to change the Lease dates to coincide with the date of possession].

This Lease [may] contain(s) a [lump-sum/ rental rate] adjustment clause for [liability insurance/ real property taxes/ other].

The undersigned [has/ has not] accepted possession of the Leased premises. Obligations or improvements required by the terms of said Lease, to be furnished or made by the Lessor to the premises, have been completed to date to the satisfaction of the undersigned with the exception of the following items:

1. [items listed here], 2. etc., and 3., etc.

The most recent rent paid to the Lessor or Lessor's agent was for the month of Xxxxx; no rent has been paid more than thirty days in advance of its due date. There is no security deposit. The last payment of its proportionate share of real property taxes and insurance was made by the undersigned to the Lessor on [month/ day/ year] as a part of the regular monthly rental payment; no such payment has been made more than thirty days in advance of its due date.

The State [pays utilities directly with the exception of water and sewer service; proportional payment for water and sewer service made directly to the Lessor upon presentation of a billing document from the city. Common area expenses are paid as a part of the monthly rental].

The undersigned knows of no default or breach of the Lease by either the Lessor or State except obligations or improvements listed above - if any. The Lessor holds no deposit or other property of the State. There are no offsets, claims, or rent deductions except those which might be made by the State by its Department of Xxxxxxxxxx. The Lessor should contact [name of State agency contact person] for information about rent deductions. The Lease (as amended) represents the entire agreement between the parties as to the Leased premises.

Sincerely,
Deborah M. Roberts
Interim Director, Real Estate Division

Enclosure "E" to Lease **#7890-2011** by and between **B.N.B. Company, LLC**, as Lessor and the State of Michigan for the Department of **State**

SAMPLE NONDISTURBANCE AGREEMENT

This Agreement between , hereinafter called "Mortgagee," the State of Michigan by the Department of Technology, Management & Budget for the Department of , hereinafter called "Lessee," and , hereinafter called "Lessor," which terms "Lessor," "Lessee," and "Mortgagee" shall include the successors and assigns of the respective parties.

THE FOLLOWING is a recital of facts underlying this Agreement:

By State Lease #*****, [as amended], which is by reference made a part of this Agreement (hereinafter the Lease), Lessor in consideration of the rents reserved therein, and of the terms, covenants, conditions, and agreements set forth in the Lease, has demised and let to Lessee, and Lessee has leased from Lessor, certain premises described in Lease paragraphs 2.1 and 2.2, located in _____, for an original term extending until (date), and for any exercised extensions.

Mortgagee is the holder of a mortgage made by (name of Lessor), dated _____ which mortgage covers the real property described in Lease paragraphs 2.1 and 2.2 and buildings thereon, and other property, rights, franchises and privileges more particularly described in the Mortgage (which collectively are herein called the "Mortgaged Property").

Lessor is the owner and holder of title to the Mortgaged Property.

Mortgagee shall recognize Lessee's rights under the Lease in the event of a foreclosure of Mortgagee's lien.

The parties agree as follow:

So long as Lessee is not in default (beyond any period given Lessee to cure such default) in the payment of rent or additional rent, or the performance of any other terms, covenants, or conditions of the Lease, Lessee's possession under the Lease and Lessee's rights and privileges thereunder, or under any extensions or renewals thereof that may be affected in accordance with any option contained in the Lease, shall not be diminished or interfered with by Mortgagee. (The term "Mortgagee" shall include any purchaser at a foreclosure sale). Lessee's occupancy shall not be disturbed by Mortgagee during the term of this Lease or any extensions or renewals thereof.

As indicated in Lease Article X, when Mortgagee is substituted as the Lessee's Lessor, Mortgagee is subject to the obligation of the Lease including any amendments to the Lease. It is the intention of the parties hereto to incorporate the Lease into this Agreement by reference with the same force and effect as if set forth fully verbatim herein.

IN WITNESS WHEREOF, the parties hereto have executed this Agreement the day and year first above written.

MONTH-TO-MONTH AGREEMENT

Agreement # 1577-2012 **Between**

Shapiro II, L.L.C.

A Michigan Limited Liability Company, As Landlord

and the

State Of Michigan, As Tenant

THIS MONTH-TO-MONTH AGREEMENT ("Agreement") is entered into by and between **Shapiro II, L.L.C.**, a Michigan Limited Liability Company, as ("Landlord"), whose address is 3110 Hawthorne, Flint, MI 48503, and the State of Michigan, by the Department of Technology, Management & Budget, whose address is 530 W. Allegan Street, Lansing, MI 48933, for the Michigan Department of **Military and Veterans Affairs** ("Tenant"), and establishes the following terms, conditions, performance obligations, and covenants between the parties:

1. **Premises.** Landlord hereby rents to Tenant approximately 1,800 usable square feet of office floor space and two (2) standard parking spaces on the grounds of the property commonly known as 3292 Linden Road, Flint, Michigan (the "Premises") as further described in Attachment A to this Agreement.

2. **Term.** The term of this Agreement is month-to-month beginning June 1, 2012 or upon the Department taking occupancy and ending May 31, 2013, subject to the cancellation provisions of this Agreement.

3. **Rent.** Tenant shall pay to Landlord rent at the rate of Two Thousand Nine Hundred Sixty Two Dollars and 50 Cents ($2,962.50) per month. Rent consideration installment payments shall be made during the month for which the installment applies. Public Act 533 of 2004 requires that payments under this Agreement be processed by electronic funds transfer (EFT). Landlord is required to register to receive payments by EFT at the Contract & Payment Express website (www.cpexpress.state.mi.us).

4. **Date of Possession.** The Premises shall be available for possession by Tenant beginning on June 1, 2012. The Date of Possession and ending date may be altered by mutual written consent.

5. **Cancellation.** This Agreement may be canceled by the Tenant upon thirty (30) days written notice to the Landlord delivered either in person or by certified mail to the other party's address as set forth under the "Notices" Section of this Agreement, or to such other address as either party may designate in writing for the delivery of notices under this Agreement.

6. **Landlord Representations, Obligations and Warranties.**

6.1 Fire Inspection Report. Landlord shall provide to Tenant, before possession, a written fire inspection report approving the Premises for occupancy.

6.2 Governmental Compliance. Landlord represents and warrants that the Premises will comply with all applicable governmental laws, rules and regulations during the term of this Agreement including, but not limited to, applicable codes and use permits.

6.3 Authority to Bind. Landlord represents and warrants that it has legal ownership and authority to enter into this Agreement, and shall provide a recorded warranty deed and/or other documentation necessary to confirm ownership and authority.

7. Repair and Maintenance. Except as to obligations expressly undertaken by Tenant as set forth herein, Landlord agrees to maintain the Premises, including exterior and interior and parking areas and sidewalks if any, as well as all maintenance and repair to mechanical, plumbing and electrical systems serving the Premises as needed to keep them in sound working order and in compliance with applicable legal codes and free from dangerous or defective conditions. If Landlord fails to fulfill its obligation to the satisfaction of Tenant, Tenant may either cancel the Agreement or make the necessary repairs and maintenance and deduct the expense from future rent due after giving Landlord a 30-day written notice to cure detailing the maintenance or repair defect.

8. Services and Responsibilities of Tenant. Tenant shall furnish the following at its own expense:

8.1 Janitorial services and supplies.

8.2 Telecommunication services.

8.3 Alarm service.

9. Services and Responsibilities of Landlord. Landlord shall furnish the following at its own expense:

9.1 All utilities serving the Premises, including water, sewer, gas, electricity and/or steam.

9.2 Replacement of light bulbs and tubes as needed.

9.3 Snow removal from driveways, steps, porches and walkways.

9.4 Removal of trash and refuse from the Premises.

9.5 Pest Control.

9.6 Heat and air-conditioning maintained at a temperature of 68 degrees Fahrenheit, dry bulb, minimum (maximum 30% relative humidity) in winter and 78 degrees Fahrenheit, dry bulb, maximum in summer.

9.7 Electric service for lights, office machines, and all other electrical equipment. Lighting to be a minimum of 50-foot candles, maintained at desk level.

9.8 Hot and cold water for restrooms. Provide water well and septic system where required.

9.9 Replacement of all glass breakage in windows and doors, including plate glass, unless said breakage was caused by the negligence of the State's employees or agents.

9.10 Provide and maintain any equipment required by the Fire Inspector for fire prevention and safety.

9.11 Pay all real estate taxes and special assessments, if any.

10. Assignment and Subletting. Tenant shall neither assign this Agreement nor sublet the Premises, in whole or in part, without the prior written consent of the Landlord, which consent shall not be unreasonably withheld. Tenant, through its Department of Management and Budget, may assign or reassign any or all of the Premises to any branch, department, board, agency, commission or other instrumentality of State government without obtaining consent of Landlord; however, such an assignment shall not relieve Tenant of its obligations under this Agreement.

11. Alterations and Improvements. No alterations, modifications, or improvements shall be made to the Premises without the prior written consent of the Landlord, which consent shall

not be unreasonably withheld. Any alternations or improvements being made under this Agreement, if applicable, are described in Attachment B. At the expiration of the Agreement, all such alterations, modifications, and improvements to the Premises shall become the property of the Landlord, unless otherwise agreed in writing or the Tenant acquires fee title to the Premises. Landlord shall not unreasonably deny a request from Tenant to have certain of the rented parking spaces painted to indicate they are reserved for handicap parking only.

12. **Damage and Destruction.** In the event that less than 50% of the replacement value of the Premises are damaged or destroyed by any casualty, the Landlord shall, at its own expense, repair said damage and restore the Premises to its prior condition, within ninety (90) days notice after the damage or destruction. In the event that more than 50% of the replacement value of the Premises is damaged or destroyed by any casualty, the Landlord shall have the option of repairing or reconstructing, or canceling this Agreement, which option shall be exercised within ninety (90) days after the damage or destruction. Tenant shall be liable for any damage to Premises caused by sole action of the Tenant, Tenant's employees or Tenant's guests or by any casualty insured under the Tenant's insurance policy, excepting reasonable wear and tear or damage by the elements.

13. **Holding Over**. In the event Tenant remains in possession of the Premises after the expiration or termination of the Agreement, it shall be deemed to be occupying the Premises as a Tenant from month-to-month, subject to all conditions, provisions and obligations of this Agreement, and the rent shall remain the same as the monthly rent owing at the end of the Agreement.

14. **Environmental.** The parties shall comply with all applicable federal, state and local environmental laws, regulations and rules, including without limitation financial liability and responsibility for the cleanup, containment and abatement of any spills or discharges of hazardous substances on or within the Premises.

    14.1 Landlord represents and warrants that there is no known adverse environmental condition on or within the Premises.

    14.2 Tenant assumes no liability or responsibility for any spills or discharges of hazardous substances that occurred before Possession, regardless of when those spills or discharges are discovered.

15. **Insurance**. Landlord is required to provide proof of General premises liability insurance for the Premises identified in Paragraph 1, which provides full coverage for the Landlord, the Tenant, and their respective agents and employees and which protests against all claims, demands, actions, suits, or causes of action, and judgments, settlements or recoveries, for bodily injury or property damage arising out of a condition of the Premises. The Landlord agrees to maintain minimum policy limits in the amount of $500,000.00 per occurrence for property damage, and $1,000,000.00 per occurrence for bodily injury, with a $2,000,000.00 aggregate. The Landlord shall provide to the Tenant a certificate of insurance listing the Tenant, its several departments, boards, agencies, commissions, officers, and employees as additional insureds, within thirty (30) calendar days following execution and delivery of this Agreement to the Landlord. The insurance policy shall provide that it may not be modified, cancelled, or allowed to expire without thirty (30) days prior written notice given to the Tenant.

16. **Public Policy Provisions.**

    16.1 Non-Discrimination. Landlord shall comply with the Elliott-Larsen Civil Rights Act, 1976 PA 453, as amended, MCL 37.2101 et seq., the Persons with Disabilities Civil Rights Act, 1976 PA 220, as amended, MCL 37.1101 et seq., and all other federal, state and local fair employment practices and equal opportunity laws and covenants that it shall not

discriminate against any employee or applicant for employment, to be employed in the performance of this Agreement, with respect to his or her hire, tenure, terms, conditions, or privileges of employment, or any matter directly or indirectly related to employment, because of his or her race, religion, color, national origin, age, sex, height, weight, marital status, or physical or mental disability that is unrelated to the individual's ability to perform the duties of a particular job or position. The Landlord agrees to include in every subcontract entered into for the performance of this real estate contract this covenant not to discriminate in employment. A breach of this covenant is a material breach of this Agreement.

16.2 Unfair Labor Practices. This Agreement may be canceled by Tenant if Landlord or any subcontractor, manufacturer or supplier of the Landlord appears in the register compiled by the Michigan Department of Licensing and Regulatory Affairs pursuant to 1980 Public Act 278, as amended, MCL 423.321 et seq. (Employers Engaging in Unfair Labor Practices Act). A breach of this covenant is a material breach of this Agreement.

17. Notices. Any notices under this Agreement shall be complete if submitted in writing and transmitted by certified or registered mail return receipt requested. Notices shall be deemed effective on the date and time of the delivery receipt.

18. Quiet Enjoyment. Tenant, upon payment of the stated rent and the performance of the conditions outlined herein, may peacefully and quietly have, hold, and enjoy the Premises. Landlord may access the Premises as needed to perform its responsibilities under this Agreement and to make reasonable inspections of Landlord's property.

19. Miscellaneous Provisions.

19.1 Governing Law. This Agreement shall be governed by and interpreted in accordance with the laws of the State of Michigan.

19.2 Mutual Drafting. This Agreement shall be interpreted and construed as drafted mutually by both parties.

19.3 Entire Agreement. This Agreement, with all Attachments as listed herein, constitutes the entire agreement between the parties with regard to this transaction and may be amended only in writing, signed by each party.

19.4 Severability. Should any provision of this Agreement or any addenda thereto be found to be illegal or otherwise unenforceable by a court of law, such provision shall be severed from the remainder of the Agreement, and such action shall not affect the enforceability of the remaining provisions of the Agreement.

19.5 Waiver. Failure to enforce any term of this Agreement shall not be deemed a waiver of the enforcement of that or any other term of this Agreement.

19.6 Effective Date. The Effective Date of this Agreement is the date signed by the Real Estate Director of the Department of Technology, Management & Budget.

19.7 Binding Effect. This Agreement shall be binding upon and inure to the benefit of the heirs, executors, administrators and assigns of Landlord and Tenant.

19.8 Counterparts. This Agreement may be executed in counterparts, each which shall be deemed an original, and all of which together shall constituted one and the same agreement. An electronic, scanned or facsimile signature shall be deemed an original.

MONTH-TO-MONTH AGREEMENT

Agreement # 1577-2012 **Between**

Shapiro II, L.L.C.

A Michigan Limited Liability Company, As Landlord

and the

State Of Michigan, As Tenant

THIS MONTH-TO-MONTH AGREEMENT ("Agreement") is entered into by and between **Shapiro II, L.L.C.**, a Michigan Limited Liability Company, as ("Landlord"), whose address is PO Box 320500, Flint, MI 48532-0009, and the State of Michigan, by the Department of Technology, Management & Budget, whose address is 530 W. Allegan Street, Lansing, MI 48933, for the Michigan Department of **Military and Veterans Affairs** ("Tenant"), and establishes the following terms, conditions, performance obligations, and covenants between the parties:

1. **Premises.** Landlord hereby rents to Tenant approximately 1,800 usable square feet of office floor space and two (2) standard parking spaces on the grounds of the property commonly known as 3292 Linden Road, Flint, Michigan (the "Premises") as further described in Attachment A to this Agreement.

2. **Term.** The term of this Agreement is month-to-month beginning August 1, 2012 with rental payments beginning upon the Department taking occupancy and ending July 31, 2013, subject to the cancellation provisions of this Agreement.

3. **Rent.** Tenant shall pay to Landlord rent at the rate of Two Thousand Nine Hundred Sixty Two Dollars and 50 Cents ($2,962.50) per month. Rent consideration installment payments shall be made during the month for which the installment applies. Public Act 533 of 2004 requires that payments under this Agreement be processed by electronic funds transfer (EFT). Landlord is required to register to receive payments by EFT at the Contract & Payment Express website (www.cpexpress.state.mi.us).

4. **Date of Possession.** The Premises shall be available for possession by Tenant beginning on August 1, 2012. The Date of Possession and ending date may be altered by mutual written consent.

5. **Cancellation.** This Agreement may be canceled by the Tenant upon **ninety (90)** days written notice to the Landlord delivered either in person or by certified mail to the other party's address as set forth under the "Notices" Section of this Agreement, or to such other address as either party may designate in writing for the delivery of notices under this Agreement. **This Agreement shall cancel upon the Lease #11577 being rent authorized after approval by the State Building Authority and the State Administrative Board, signed by the Real Estate Division Director.**

6. **Landlord Representations, Obligations and Warranties.**

6.1 Fire Inspection Report. Landlord shall provide to Tenant, before possession, a written fire inspection report approving the Premises for occupancy.

6.2 Governmental Compliance. Landlord represents and warrants that the Premises will comply with all applicable governmental laws, rules and regulations during the term of this Agreement including, but not limited to, applicable codes and use permits.

6.3 Authority to Bind. Landlord represents and warrants that it has legal ownership and authority to enter into this Agreement, and shall provide a recorded warranty deed and/or other documentation necessary to confirm ownership and authority.

7. **Repair and Maintenance.** Except as to obligations expressly undertaken by Tenant as set forth herein, Landlord agrees to maintain the Premises, including exterior and interior and parking areas and sidewalks if any, as well as all maintenance and repair to mechanical, plumbing and electrical systems serving the Premises as needed to keep them in sound working order and in compliance with applicable legal codes and free from dangerous or defective conditions. If Landlord fails to fulfill its obligation to the satisfaction of Tenant, Tenant may either cancel the Agreement or make the necessary repairs and maintenance and deduct the expense from future rent due after giving Landlord a 30-day written notice to cure detailing the maintenance or repair defect.

8. **Services and Responsibilities of Tenant.** Tenant shall furnish the following at its own expense:

8.1 Janitorial services and supplies.
8.2 Telecommunication services.
8.3 Alarm service.

9. **Services and Responsibilities of Landlord.** Landlord shall furnish the following at its own expense:

9.1 All utilities serving the Premises, including water, sewer, gas, electricity and/or steam.
9.2 Replacement of light bulbs and tubes as needed.
9.3 Snow removal from driveways, steps, porches and walkways.
9.4 Removal of trash and refuse from dumpsters or equivalent containers.
9.5 Pest Control.
9.6 Heat and air-conditioning maintained at a temperature of 68 degrees Fahrenheit, dry bulb, minimum (maximum 30% relative humidity) in winter and 78 degrees Fahrenheit, dry bulb, maximum in summer.
9.7 Electric service for lights, office machines, and all other electrical equipment. Lighting to be a minimum of 50-foot candles, maintained at desk level.
9.8 Hot and cold water for restrooms. Provide water well and septic system where required.
9.9 Replacement of all glass breakage in windows and doors, including plate glass, unless said breakage was caused by the negligence of the State's employees or agents.
9.10 Provide and maintain any equipment required by the Fire Inspector for fire prevention and safety.
9.11 Pay all real estate taxes and special assessments, if any.

10. **Assignment and Subletting.** Tenant shall neither assign this Agreement nor sublet the Premises, in whole or in part, without the prior written consent of the Landlord, which consent shall not be unreasonably withheld. Tenant, through its Department of Management and Budget, may assign or reassign any or all of the Premises to any branch, department, board, agency, commission or other instrumentality of State government without obtaining consent of Landlord; however, such an assignment shall not relieve Tenant of its obligations under this Agreement.

11. **Alterations and Improvements.** No alterations, modifications, or improvements shall be made to the Premises without the prior written consent of the Landlord, which consent shall not be unreasonably withheld. Any alternations or improvements being made under this Agreement, if applicable, are described in Attachment B. At the expiration of the Agreement, all such alterations, modifications, and improvements to the Premises shall become the property of the Landlord, unless otherwise agreed in writing or the Tenant acquires fee title to the Premises. Landlord shall not unreasonably deny a request from Tenant to have certain of the rented parking spaces painted to indicate they are reserved for handicap parking only.

12. **Damage and Destruction.** In the event that less than 50% of the replacement value of the Premises are damaged or destroyed by any casualty, the Landlord shall, at its own expense, repair said damage and restore the Premises to its prior condition, within ninety (90) days notice after the damage or destruction. In the event that more than 50% of the replacement value of the Premises is damaged or destroyed by any casualty, the Landlord shall have the option of repairing or reconstructing, or canceling this Agreement, which option shall be exercised within ninety (90) days after the damage or destruction. Tenant shall be liable for any damage to Premises caused by sole action of the Tenant, Tenant's employees or Tenant's guests or by any casualty insured under the Tenant's insurance policy, excepting reasonable wear and tear or damage by the elements.

13. **Holding Over.** In the event Tenant remains in possession of the Premises after the expiration or termination of the Agreement, it shall be deemed to be occupying the Premises as a Tenant from month-to-month, subject to all conditions, provisions and obligations of this Agreement, and the rent shall remain the same as the monthly rent owing at the end of the Agreement.

14. **Environmental.** The parties shall comply with all applicable federal, state and local environmental laws, regulations and rules, including without limitation financial liability and responsibility for the cleanup, containment and abatement of any spills or discharges of hazardous substances on or within the Premises.

    14.1 Landlord represents and warrants that there is no known adverse environmental condition on or within the Premises.

    14.2 Tenant assumes no liability or responsibility for any spills or discharges of hazardous substances that occurred before Possession, regardless of when those spills or discharges are discovered.

15. **Insurance.** Landlord is required to provide proof of General premises liability insurance for the Premises identified in Paragraph 1, which provides full coverage for the Landlord, the Tenant, and their respective agents and employees and which protests against all claims, demands, actions, suits, or causes of action, and judgments, settlements or recoveries, for bodily injury or property damage arising out of a condition of the Premises. The Landlord agrees to maintain minimum policy limits in the amount of $500,000.00 per occurrence for property damage, and $1,000,000.00 per occurrence for bodily injury, with a $2,000,000.00 aggregate. The Landlord shall provide to the Tenant a certificate of insurance listing the Tenant, its several departments, boards, agencies, commissions, officers, and employees as additional insureds, within thirty (30) calendar days following execution and delivery of this Agreement to the Landlord. The insurance policy shall provide that it may not be modified, cancelled, or allowed to expire without thirty (30) days prior written notice given to the Tenant.

16. **Public Policy Provisions.**

    16.1 Non-Discrimination. Landlord shall comply with the Elliott-Larsen Civil Rights Act, 1976 PA 453, as amended, MCL 37.2101 et seq., the Persons with Disabilities Civil Rights Act,

1976 PA 220, as amended, MCL 37.1101 et seq., and all other federal, state and local fair employment practices and equal opportunity laws and covenants that it shall not discriminate against any employee or applicant for employment, to be employed in the performance of this Agreement, with respect to his or her hire, tenure, terms, conditions, or privileges of employment, or any matter directly or indirectly related to employment, because of his or her race, religion, color, national origin, age, sex, height, weight, marital status, or physical or mental disability that is unrelated to the individual's ability to perform the duties of a particular job or position. The Landlord agrees to include in every subcontract entered into for the performance of this real estate contract this covenant not to discriminate in employment. A breach of this covenant is a material breach of this Agreement.

16.2 Unfair Labor Practices. This Agreement may be canceled by Tenant if Landlord or any subcontractor, manufacturer or supplier of the Landlord appears in the register compiled by the Michigan Department of Licensing and Regulatory Affairs pursuant to 1980 Public Act 278, as amended, MCL 423.321 et seq. (Employers Engaging in Unfair Labor Practices Act). A breach of this covenant is a material breach of this Agreement.

17. **Notices.** Any notices under this Agreement shall be complete if submitted in writing and transmitted by certified or registered mail return receipt requested. Notices shall be deemed effective on the date and time of the delivery receipt.

MONTH-TO-MONTH AGREEMENT

Agreement # 6477-2013

MICHAEL J. COSTANZA as Landlord
An Individual

and

THE STATE OF MICHIGAN, as Tenant

THIS MONTH-TO-MONTH AGREEMENT ("Agreement") is entered into by and between Michael J. Costanza, as Lessor, whose address is 5081 South Genesee Road, Grand Blanc, Michigan , as Landlord, and the State of Michigan, by the Department of Technology, Management & Budget, whose address is 530 W. Allegan Street, Lansing, MI 48933, for the Michigan Department of Licensing And Regulatory Affairs ("Tenant"), and establishes the following terms, conditions, performance obligations, and covenants between the parties:

Premises. Landlord hereby rents to Tenant approximately 4,354 usable square feet of 1st floor space and twenty-five (25) standard parking spaces on the grounds of the property commonly known as G-1388 West Bristol Road, Suite 106, Flint, Michigan 48507 (the "Premises") as further described in Attachment A to this Agreement.

1. **Term.** The term of this Agreement is month-to-month beginning January 8, 2014 and ending January 7, 2014, subject to the cancellation provisions of this Agreement.

2. **Rent.** Tenant shall pay to Landlord rent at the rate of Three Thousand Six Hundred Twenty Eight Dollars and 33 Cents ($3,628.33) per month. Rent consideration installment payments shall be made during the month for which the installment applies. Public Act 533 of 2004 requires that payments under this Agreement be processed by electronic funds transfer (EFT). Landlord is required to register to receive payments by EFT at the Contract & Payment Express website (www.cpexpress.state.mi.us).

3. **Date of Possession.** The Premises shall be available for possession by Tenant beginning on January 8, 2013. The Date of Possession and ending date may be altered by mutual written consent.

4. **Cancellation.** This Agreement may be canceled by the Tenant upon thirty (30) days written notice to the Landlord delivered either in person or by certified mail to the other party's address as set forth under the "Notices" Section of this Agreement, or to such other address as either party may designate in writing for the delivery of notices under this Agreement.

5. Landlord Representations, Obligations and Warranties.

5.1 Fire Inspection Report. Landlord shall provide to Tenant, before possession, a written fire inspection report approving the Premises for occupancy.

5.2 Governmental Compliance. Landlord represents and warrants that the Premises will comply with all applicable governmental laws, rules and regulations during the term of this Agreement including, but not limited to, applicable codes and use permits.

5.3 Authority to Bind. Landlord represents and warrants that it has legal ownership and authority to enter into this Agreement, and shall provide a recorded warranty deed and/or other documentation necessary to confirm ownership and authority.

5.4 First right of refusal for adjacent. The Landlord shall not rent or otherwise occupy any adjoining space which is or becomes vacant on the Premises known as **G-1388 West Bristol Road, Flint, Michigan** during the term of this Agreement, or any extensions thereof, without first offering for a period of ten (10) days, the space to the Tenant at the Tenant's current rental rate, and under the same terms and conditions found in this Agreement.

6. Repair and Maintenance. Except as to obligations expressly undertaken by Tenant as set forth herein, Landlord agrees to maintain the Premises, including exterior and interior and parking areas and sidewalks if any, as well as all maintenance and repair to mechanical, plumbing and electrical systems serving the Premises as needed to keep them in sound working order and in compliance with applicable legal codes and free from dangerous or defective conditions. If Landlord fails to fulfill its obligation to the satisfaction of Tenant, Tenant may either cancel the Agreement or make the necessary repairs and maintenance and deduct the expense from future rent due after giving Landlord a 30-day written notice to cure detailing the maintenance or repair defect.

7. Services and Responsibilities of Tenant. Tenant shall furnish the following at its own expense:

7.1 Payment for electrical utilities and heat for the premises. Thermostat temperature in the unoccupied space shall be set no higher than 45 degrees.

7.2 Replacement of light bulbs, tubes and ballast as needed.

7.3 Janitorial services and supplies.

7.4 Hot and cold water for restrooms.

7.5 Telecommunication services.

7.6 Alarm service.

7.7 Removal of trash and refuse from the Premises.

8. Services and Responsibilities of Landlord. Landlord shall furnish the following at its own expense:

8.1 Snow removal from driveways, steps, porches and walkways.

8.2 Pest Control.

8.3 Heat and air-conditioning maintained at a temperature of 68 degrees Fahrenheit, dry bulb, minimum (maximum 30% relative humidity) in winter and 78 degrees Fahrenheit, dry bulb, maximum in summer.

8.4 Electric service for lights, office machines, and all other electrical equipment. Lighting to be a minimum of 50-foot candles, maintained at desk level.

8.5 Provide water well and septic system where required.
8.6 Replacement of all glass breakage in windows and doors, including plate glass, unless said breakage was caused by the negligence of the State's employees or agents.
8.7 Provide and maintain any equipment required by the Fire Inspector for fire prevention and safety.
8.8 Pay all real estate taxes and special assessments, if any.

9. Assignment and Subletting. Tenant shall neither assign this Agreement nor sublet the Premises, in whole or in part, without the prior written consent of the Landlord, which consent shall not be unreasonably withheld. Tenant, through its Department of Management and Budget, may assign or reassign any or all of the Premises to any branch, department, board, agency, commission or other instrumentality of State government without obtaining consent of Landlord; however, such an assignment shall not relieve Tenant of its obligations under this Agreement.

10. Alterations and Improvements. No alterations, modifications, or improvements shall be made to the Premises without the prior written consent of the Landlord, which consent shall not be unreasonably withheld. Any alternations or improvements being made under this Agreement, if applicable, are described in Attachment B. At the expiration of the Agreement, all such alterations, modifications, and improvements to the Premises shall become the property of the Landlord, unless otherwise agreed in writing or the Tenant acquires fee title to the Premises. Landlord shall not unreasonably deny a request from Tenant to have certain of the rented parking spaces painted to indicate they are reserved for handicap parking only.

11. Damage and Destruction. In the event that less than 50% of the replacement value of the Premises are damaged or destroyed by any casualty, the Landlord shall, at its own expense, repair said damage and restore the Premises to its prior condition, within ninety (90) days notice after the damage or destruction. In the event that more than 50% of the replacement value of the Premises is damaged or destroyed by any casualty, the Landlord shall have the option of repairing or reconstructing, or canceling this Agreement, which option shall be exercised within ninety (90) days after the damage or destruction. Tenant shall be liable for any damage to Premises caused by sole action of the Tenant, Tenant's employees or Tenant's guests or by any casualty insured under the Tenant's insurance policy, excepting reasonable wear and tear or damage by the elements.

12. Holding Over. In the event Tenant remains in possession of the Premises after the expiration or termination of the Agreement, it shall be deemed to be occupying the Premises as a Tenant from month-to-month, subject to all conditions, provisions and obligations of this Agreement, and the rent shall remain the same as the monthly rent owing at the end of the Agreement.

13. Environmental. The parties shall comply with all applicable federal, state and local environmental laws, regulations and rules, including without limitation financial liability and responsibility for the cleanup, containment and abatement of any spills or discharges of hazardous substances on or within the Premises.

13.1 Landlord represents and warrants that there is no known adverse environmental condition on or within the Premises.

13.2 Tenant assumes no liability or responsibility for any spills or discharges of hazardous substances that occurred before Possession, regardless of when those spills or discharges are discovered.

14. Insurance. Landlord is required to provide proof of General premises liability insurance for the Premises identified in Paragraph 1, which provides full coverage for the Landlord, the Tenant, and their respective agents and employees and which protests against all claims, demands, actions, suits, or causes of action, and judgments, settlements or recoveries, for bodily injury or property damage arising out of a condition of the Premises. The Landlord agrees to maintain minimum policy limits in the amount of $500,000.00 per occurrence for property damage, and $1,000,000.00 per occurrence for bodily injury, with a $2,000,000.00 aggregate. The Landlord shall provide to the Tenant a certificate of insurance listing the Tenant, its several departments, boards, agencies, commissions, officers, and employees as additional insureds, within thirty (30) calendar days following execution and delivery of this Agreement to the Landlord. The insurance policy shall provide that it may not be modified, cancelled, or allowed to expire without thirty (30) days prior written notice given to the Tenant.

15. Public Policy Provisions.

15.1 Non-Discrimination. Landlord shall comply with the Elliott-Larsen Civil Rights Act, 1976 PA 453, as amended, MCL 37.2101 et seq., the Persons with Disabilities Civil Rights Act, 1976 PA 220, as amended, MCL 37.1101 et seq., and all other federal, state and local fair employment practices and equal opportunity laws and covenants that it shall not discriminate against any employee or applicant for employment, to be employed in the performance of this Agreement, with respect to his or her hire, tenure, terms, conditions, or privileges of employment, or any matter directly or indirectly related to employment, because of his or her race, religion, color, national origin, age, sex, height, weight, marital status, or physical or mental disability that is unrelated to the individual's ability to perform the duties of a particular job or position. The Landlord agrees to include in every subcontract entered into for the performance of this real estate contract this covenant not to discriminate in employment. A breach of this covenant is a material breach of this Agreement.

15.2 Unfair Labor Practices. This Agreement may be canceled by Tenant if Landlord or any subcontractor, manufacturer or supplier of the Landlord appears in the register compiled by the Michigan Department of Licensing and Regulatory Affairs pursuant to 1980 Public Act 278, as amended, MCL 423.321 et seq. (Employers Engaging in Unfair Labor Practices Act). A breach of this covenant is a material breach of this Agreement.

16. Notices. Any notices under this Agreement shall be complete if submitted in writing and transmitted by certified or registered mail return receipt requested. Notices shall be deemed effective on the date and time of the delivery receipt.

RENTAL AGREEMENT

Agreement # 6477-2013

MICHAEL J. COSTANZA as Landlord
An Individual

and

THE STATE OF MICHIGAN, as Tenant

THIS RENTAL AGREEMENT ("Agreement") is entered into by and between Michael J. Costanza, as Lessor, whose address is 5081 South Genesee Road, Grand Blanc, Michigan , as Landlord, and the State of Michigan, by the Department of Technology, Management & Budget, whose address is 530 W. Allegan Street, Lansing, MI 48933, for the Michigan Department of Licensing And Regulatory Affairs ("Tenant"), and establishes the following terms, conditions, performance obligations, and covenants between the parties:

Premises. Landlord hereby rents to Tenant approximately 4,354 usable square feet of 1st floor space and twenty-five (25) standard parking spaces on the grounds of the property commonly known as G-1388 West Bristol Road, Suite 106, Flint, Michigan 48507 (the "Premises") as further described in Attachment A to this Agreement.

1. **Term.** The term of this Agreement is month-to-month beginning January 8, 2014 and ending January 7, 2015, subject to the cancellation provisions of this Agreement.

2. **Rent.** Tenant shall pay to Landlord rent at the rate of Three Thousand Six Hundred Twenty Eight Dollars and 33 Cents ($3,628.33) per month. Rent consideration installment payments shall be made during the month for which the installment applies. Public Act 533 of 2004 requires that payments under this Agreement be processed by electronic funds transfer (EFT). Landlord is required to register to receive payments by EFT at the Contract & Payment Express website (www.cpexpress.state.mi.us).

3. **Date of Possession.** The Premises shall be available for possession by Tenant beginning on January 8, 2013. The Date of Possession and ending date may be altered by mutual written consent.

4. **Cancellation.** This Agreement may be canceled by the Tenant upon thirty (30) days written notice to the Landlord delivered either in person or by certified mail to the other party's address as set forth under the "Notices" Section of this Agreement, or to such other address as either party may designate in writing for the delivery of notices under this Agreement.

5. **Landlord Representations, Obligations and Warranties.**

5.1 Fire Inspection Report. Landlord shall provide to Tenant, before possession, a written fire inspection report approving the Premises for occupancy.

5.2 Governmental Compliance. Landlord represents and warrants that the Premises will comply with all applicable governmental laws, rules and regulations during the term of this Agreement including, but not limited to, applicable codes and use permits.

5.3 Authority to Bind. Landlord represents and warrants that it has legal ownership and authority to enter into this Agreement, and shall provide a recorded warranty deed and/or other documentation necessary to confirm ownership and authority.

5.4 First right of refusal for adjacent. The Landlord shall not rent or otherwise occupy any adjoining space which is or becomes vacant on the Premises known as **G-1388 West Bristol Road, Flint, Michigan** during the term of this Agreement, or any extensions thereof, without first offering for a period of ten (10) days, the space to the Tenant at the Tenant's current rental rate, and under the same terms and conditions found in this Agreement.

6. Repair and Maintenance. Except as to obligations expressly undertaken by Tenant as set forth herein, Landlord agrees to maintain the Premises, including exterior and interior and parking areas and sidewalks if any, as well as all maintenance and repair to mechanical, plumbing and electrical systems serving the Premises as needed to keep them in sound working order and in compliance with applicable legal codes and free from dangerous or defective conditions. If Landlord fails to fulfill its obligation to the satisfaction of Tenant, Tenant may either cancel the Agreement or make the necessary repairs and maintenance and deduct the expense from future rent due after giving Landlord a 30-day written notice to cure detailing the maintenance or repair defect.

7. Services and Responsibilities of Tenant. Tenant shall furnish the following at its own expense:

7.1 Payment for electrical utilities and heat for the premises. Thermostat temperature in the unoccupied space shall be set no higher than 45 degrees.
7.2 Replacement of light bulbs, tubes and ballast as needed.
7.3 Janitorial services and supplies.
7.4 Hot and cold water for restrooms.
7.5 Telecommunication services.
7.6 Alarm service.
7.7 Removal of trash and refuse from the Premises.

8. Services and Responsibilities of Landlord. Landlord shall furnish the following at its own expense:

8.1 Snow removal from driveways, steps, porches and walkways.
8.2 Pest Control.
8.3 Heat and air-conditioning maintained at a temperature of 68 degrees Fahrenheit, dry bulb, minimum (maximum 30% relative humidity) in winter and 78 degrees Fahrenheit, dry bulb, maximum in summer.
8.4 Electric service for lights, office machines, and all other electrical equipment. Lighting to be a minimum of 50-foot candles, maintained at desk level.
8.5 Provide water well and septic system where required.
8.6 Replacement of all glass breakage in windows and doors, including plate glass, unless said breakage was caused by the negligence of the State's employees or agents.
8.7 Provide and maintain any equipment required by the Fire Inspector for fire prevention

and safety.

8.8 Pay all real estate taxes and special assessments, if any.

9. Assignment and Subletting. Tenant shall neither assign this Agreement nor sublet the Premises, in whole or in part, without the prior written consent of the Landlord, which consent shall not be unreasonably withheld. Tenant, through its Department of Management and Budget, may assign or reassign any or all of the Premises to any branch, department, board, agency, commission or other instrumentality of State government without obtaining consent of Landlord; however, such an assignment shall not relieve Tenant of its obligations under this Agreement.

10. Alterations and Improvements. No alterations, modifications, or improvements shall be made to the Premises without the prior written consent of the Landlord, which consent shall not be unreasonably withheld. Any alternations or improvements being made under this Agreement, if applicable, are described in Attachment B. At the expiration of the Agreement, all such alterations, modifications, and improvements to the Premises shall become the property of the Landlord, unless otherwise agreed in writing or the Tenant acquires fee title to the Premises. Landlord shall not unreasonably deny a request from Tenant to have certain of the rented parking spaces painted to indicate they are reserved for handicap parking only.

11. Damage and Destruction. In the event that less than 50% of the replacement value of the Premises are damaged or destroyed by any casualty, the Landlord shall, at its own expense, repair said damage and restore the Premises to its prior condition, within ninety (90) days notice after the damage or destruction. In the event that more than 50% of the replacement value of the Premises is damaged or destroyed by any casualty, the Landlord shall have the option of repairing or reconstructing, or canceling this Agreement, which option shall be exercised within ninety (90) days after the damage or destruction. Tenant shall be liable for any damage to Premises caused by sole action of the Tenant, Tenant's employees or Tenant's guests or by any casualty insured under the Tenant's insurance policy, excepting reasonable wear and tear or damage by the elements.

12. Holding Over. In the event Tenant remains in possession of the Premises after the expiration or termination of the Agreement, it shall be deemed to be occupying the Premises as a Tenant from month-to-month, subject to all conditions, provisions and obligations of this Agreement, and the rent shall remain the same as the monthly rent owing at the end of the Agreement.

13. Environmental. The parties shall comply with all applicable federal, state and local environmental laws, regulations and rules, including without limitation financial liability and responsibility for the cleanup, containment and abatement of any spills or discharges of hazardous substances on or within the Premises.

13.1 Landlord represents and warrants that there is no known adverse environmental condition on or within the Premises.

13.2 Tenant assumes no liability or responsibility for any spills or discharges of hazardous substances that occurred before Possession, regardless of when those spills or discharges are discovered.

14. Insurance. Landlord is required to provide proof of General premises liability insurance for the Premises identified in Paragraph 1, which provides full coverage for the Landlord, the Tenant, and their respective agents and employees and which protests against all claims,

demands, actions, suits, or causes of action, and judgments, settlements or recoveries, for bodily injury or property damage arising out of a condition of the Premises. The Landlord agrees to maintain minimum policy limits in the amount of $500,000.00 per occurrence for property damage, and $1,000,000.00 per occurrence for bodily injury, with a $2,000,000.00 aggregate. The Landlord shall provide to the Tenant a certificate of insurance listing the Tenant, its several departments, boards, agencies, commissions, officers, and employees as additional insureds, within thirty (30) calendar days following execution and delivery of this Agreement to the Landlord. The insurance policy shall provide that it may not be modified, cancelled, or allowed to expire without thirty (30) days prior written notice given to the Tenant.

15. Public Policy Provisions.

15.1 Non-Discrimination. Landlord shall comply with the Elliott-Larsen Civil Rights Act, 1976 PA 453, as amended, MCL 37.2101 et seq., the Persons with Disabilities Civil Rights Act, 1976 PA 220, as amended, MCL 37.1101 et seq., and all other federal, state and local fair employment practices and equal opportunity laws and covenants that it shall not discriminate against any employee or applicant for employment, to be employed in the performance of this Agreement, with respect to his or her hire, tenure, terms, conditions, or privileges of employment, or any matter directly or indirectly related to employment, because of his or her race, religion, color, national origin, age, sex, height, weight, marital status, or physical or mental disability that is unrelated to the individual's ability to perform the duties of a particular job or position. The Landlord agrees to include in every subcontract entered into for the performance of this real estate contract this covenant not to discriminate in employment. A breach of this covenant is a material breach of this Agreement.

15.2 Unfair Labor Practices. This Agreement may be canceled by Tenant if Landlord or any subcontractor, manufacturer or supplier of the Landlord appears in the register compiled by the Michigan Department of Licensing and Regulatory Affairs pursuant to 1980 Public Act 278, as amended, MCL 423.321 et seq. (Employers Engaging in Unfair Labor Practices Act). A breach of this covenant is a material breach of this Agreement.

16. Notices. Any notices under this Agreement shall be complete if submitted in writing and transmitted by certified or registered mail return receipt requested. Notices shall be deemed effective on the date and time of the delivery receipt.

RENTAL AGREEMENT

Agreement # 6477-2014

Between

MICHAEL J. COSTANZA

An Individual, As Landlord

and the

State Of Michigan, As Tenant

THIS RENTAL AGREEMENT ("Agreement") is entered into by and between Michael J. Costanza, an Individual, as ("Landlord"), whose address is 5081 South Genesee Road, Grand Blanc, Michigan 48439, and the State of Michigan, by the Department of Technology, Management & Budget, whose address is 7150 Harris Drive, Dimondale, MI 48821, for the Michigan Department of Licensing & Regulatory Affairs ("Tenant"), and establishes the following terms, conditions, performance obligations, and covenants between the parties:

1. **Premises.** Landlord hereby rents to Tenant approximately 4,354 usable square feet of 1st floor space and thirty (30) standard parking spaces on the grounds of the property commonly known as G-1388 Bristol Road, Suite 106, Flint, Michigan 48507 (the "Premises") as further described in Attachment A to this Agreement.

2. **Term.** The term of this Agreement is month-to-month beginning January 8, 2014 and ending January 27, 2015, subject to the cancellation provisions of this Agreement.

3. **Rent.** Tenant shall pay to Landlord rent at the rate of Three Thousand Six Hundred Twenty Eight Dollars and 33 Cents ($3,628.33) per month. Rent consideration installment payments shall be made during the month for which the installment applies. Public Act 533 of 2004 requires that payments under this Agreement be processed by electronic funds transfer (EFT). Landlord is required to register to receive payments by EFT at the Contract & Payment Express website (www.cpexpress.state.mi.us).

4. **Date of Possession.** Deleted, Not Applicable

5. **Cancellation.** This Agreement may be canceled by the Tenant upon thirty (30) days written notice to the Landlord delivered either in person or by certified mail to the other party's address as set forth under the "Notices" Section of this Agreement, or to such other address as either party may designate in writing for the delivery of notices under this Agreement.

6. **Landlord Representations, Obligations and Warranties.**

   6.1 Fire Inspection Report. Landlord shall provide to Tenant, before possession, a written fire inspection report approving the Premises for occupancy.

   6.2 Governmental Compliance. Landlord represents and warrants that the Premises will comply with all applicable governmental laws, rules and regulations during the term of this Agreement including, but not limited to, applicable codes and use permits.

6.3 Authority to Bind. Landlord represents and warrants that it has legal ownership and/or authority to enter into this Agreement, and shall provide a recorded warranty deed and/or other documentation necessary to confirm ownership and authority.

6.4 First right of refusal for adjacent. The Landlord shall not rent or otherwise occupy any adjoining space which is or becomes vacant on the Premises known as during the term of this Agreement, or any extensions thereof, without first offering for a period of ten (10) days, the space to the Tenant at the Tenant's current rental rate, and under the same terms and conditions found in this Agreement.

7. Repair and Maintenance. Except as to obligations expressly undertaken by Tenant as set forth herein, Landlord agrees to maintain the Premises, including exterior and interior and parking areas and sidewalks if any, as well as all maintenance and repair to mechanical, plumbing and electrical systems serving the Premises as needed to keep them in sound working order and in compliance with applicable legal codes and free from dangerous or defective conditions. If Landlord fails to fulfill its obligation to the satisfaction of Tenant, Tenant may either cancel the Agreement or make the necessary repairs and maintenance and deduct the expense from future rent due after giving Landlord a 30-day written notice to cure detailing the maintenance or repair defect.

8. Services and Responsibilities of Tenant. Tenant shall furnish the following at its own expense:

8.1 All utilities serving the Premises, including water, sewer, gas, electricity and/or steam.
8.2 Replacement of light bulbs and tubes as needed.
8.3 Janitorial services and supplies.
8.1 Deleted, Not Applicable
8.2 Removal of trash and refuse from the Premises.
8.3 Deleted, Not Applicable
8.4 Telecommunication services.
8.5 Alarm service.

9. Services and Responsibilities of Landlord. Landlord shall furnish the following at its own expense:

9.1 Snow removal from driveways, steps, porches and walkways
9.2 Pest Control
9.3 Heating, mechanical ventilating, cooling, and humidification system capable of providing a temperature range of 68°F to 78°F, measured at 30" above the finished floor, and 12" inside any exterior wall, and a humidification range of 30% to 50%, at all times occupied. Ventilation in restrooms shall be a minimum of 100 cfm, exhausted to the outdoors
9.4 Electric service for lights, office machines, and all other electrical equipment. Lighting to be a minimum of 50-foot candles, maintained at desk level.
9.5 Hot and cold water for restrooms. Provide water well and septic system where required.
9.6 Replacement of all glass breakage in windows and doors, including plate glass, unless said breakage was caused by the negligence of the State's employees or agents.
9.7 Provide and maintain any equipment required by the Fire Inspector for fire prevention and safety.
9.8 Pay all real estate taxes and special assessments, if any.

10. Assignment and Subletting. Tenant shall neither assign this Agreement nor sublet the Premises, in whole or in part, without the prior written consent of the Landlord, which consent shall not be unreasonably withheld. Tenant, through its Department of Management and Budget, may assign or reassign any or all of the Premises to any branch, department, board,

agency, commission or other instrumentality of State government without obtaining consent of Landlord; however, such an assignment shall not relieve Tenant of its obligations under this Agreement.

11. **Alterations and Improvements.** No alterations, modifications, or improvements shall be made to the Premises without the prior written consent of the Landlord, which consent shall not be unreasonably withheld. Any alternations or improvements being made under this Agreement, if applicable, are described in Attachment B. At the expiration of the Agreement, all such alterations, modifications, and improvements to the Premises shall become the property of the Landlord, unless otherwise agreed in writing or the Tenant acquires fee title to the Premises. Landlord shall not unreasonably deny a request from Tenant to have certain of the rented parking spaces painted to indicate they are reserved for handicap parking only.

12. **Damage and Destruction.** In the event that less than 50% of the replacement value of the Premises are damaged or destroyed by any casualty, the Landlord shall, at its own expense, repair said damage and restore the Premises to its prior condition, within ninety (90) days notice after the damage or destruction. In the event that more than 50% of the replacement value of the Premises is damaged or destroyed by any casualty, the Landlord shall have the option of repairing or reconstructing, or canceling this Agreement, which option shall be exercised within ninety (90) days after the damage or destruction. Tenant shall be liable for any damage to Premises caused by sole action of the Tenant, Tenant's employees or Tenant's guests or by any casualty insured under the Tenant's insurance policy, excepting reasonable wear and tear or damage by the elements.

13. **Holding Over**. In the event Tenant remains in possession of the Premises after the expiration or termination of the Agreement, it shall be deemed to be occupying the Premises as a Tenant from month-to-month, subject to all conditions, provisions and obligations of this Agreement, and the rent shall remain the same as the monthly rent owing at the end of the Agreement.

14. **Environmental.** The parties shall comply with all applicable federal, state and local environmental laws, regulations and rules, including without limitation financial liability and responsibility for the cleanup, containment and abatement of any spills or discharges of hazardous substances on or within the Premises.

    14.1 Landlord represents and warrants that there is no known adverse environmental condition on or within the Premises.

    14.2 Tenant assumes no liability or responsibility for any spills or discharges of hazardous substances that occurred before Possession, regardless of when those spills or discharges are discovered.

15. **Insurance**. Landlord is required to provide proof of General premises liability insurance for the Premises identified in Paragraph 1, which provides full coverage for the Landlord, the Tenant, and their respective agents and employees and which protects against all claims, demands, actions, suits, or causes of action, and judgments, settlements or recoveries, for bodily injury or property damage arising out of a condition of the Premises. The Landlord agrees to maintain minimum policy limits in the amount of $500,000.00 per occurrence for property damage, and $1,000,000.00 per occurrence for bodily injury, with a $2,000,000.00 aggregate. The Landlord shall provide to the Tenant a certificate of insurance listing the Tenant, its several departments, boards, agencies, commissions, officers, and employees as additional insureds, within thirty (30) calendar days following execution and delivery of this Agreement to the Landlord. The insurance policy shall provide that it may not be modified, cancelled, or allowed to expire without thirty (30) days prior written notice given to the Tenant.

16. Public Policy Provisions.

16.1 Non-Discrimination. Landlord shall comply with the Elliott-Larsen Civil Rights Act, 1976 PA 453, as amended, MCL 37.2101 et seq., the Persons with Disabilities Civil Rights Act, 1976 PA 220, as amended, MCL 37.1101 et seq., and all other federal, state and local fair employment practices and equal opportunity laws and covenants that it shall not discriminate against any employee or applicant for employment, to be employed in the performance of this Agreement, with respect to his or her hire, tenure, terms, conditions, or privileges of employment, or any matter directly or indirectly related to employment, because of his or her race, religion, color, national origin, age, sex, height, weight, marital status, or physical or mental disability that is unrelated to the individual's ability to perform the duties of a particular job or position. The Landlord agrees to include in every subcontract entered into for the performance of this real estate contract this covenant not to discriminate in employment. A breach of this covenant is a material breach of this Agreement.

16.2 Unfair Labor Practices. This Agreement may be canceled by Tenant if Landlord or any subcontractor, manufacturer or supplier of the Landlord appears in the register compiled by the Michigan Department of Licensing and Regulatory Affairs pursuant to 1980 Public Act 278, as amended, MCL 423.321 et seq. (Employers Engaging in Unfair Labor Practices Act). A breach of this covenant is a material breach of this Agreement.

17. Notices. Any notices under this Agreement shall be complete if submitted in writing and transmitted by certified or registered mail return receipt requested, or by a nationally recognized overnight delivery service. Notices shall be deemed effective on the date and time of the delivery receipt.

RENTAL AGREEMENT

Agreement # 6477-2014

Between

MICHAEL J. COSTANZA

An Individual, As Landlord

and the

State Of Michigan, As Tenant

THIS RENTAL AGREEMENT ("Agreement") is entered into by and between Michael J. Costanza, an Individual, as ("Landlord"), whose address is 5081 South Genesee Road, Grand Blanc, Michigan 48439, and the State of Michigan, by the Department of Technology, Management & Budget, whose address is 7150 Harris Drive, Dimondale, MI 48821, for the Michigan Department of Licensing & Regulatory Affairs ("Tenant"), and establishes the following terms, conditions, performance obligations, and covenants between the parties:

1. **Premises.** Landlord hereby rents to Tenant approximately 4,354 usable square feet of 1st floor space and thirty (30) standard parking spaces on the grounds of the property commonly known as G-1388 Bristol Road, Suite 106, Flint, Michigan 48507 (the "Premises") as further described in Attachment A to this Agreement.

2. **Term.** The term of this Agreement is month-to-month beginning January 8, 2015 and ending January 27, 2016, subject to the cancellation provisions of this Agreement.

3. **Rent.** Tenant shall pay to Landlord rent at the rate of Three Thousand Nine Hundred Ninety One Dollars and 17 Cents ($3,991.17) per month. Rent consideration installment payments shall be made during the month for which the installment applies. Public Act 533 of 2004 requires that payments under this Agreement be processed by electronic funds transfer (EFT). Landlord is required to register to receive payments by EFT at the Contract & Payment Express website (www.cpexpress.state.mi.us).

4. **Date of Possession.** Deleted, Not Applicable

5. **Cancellation.** This Agreement may be canceled by the Tenant upon thirty (30) days written notice to the Landlord delivered either in person or by certified mail to the other party's address as set forth under the "Notices" Section of this Agreement, or to such other address as either party may designate in writing for the delivery of notices under this Agreement.

6. **Landlord Representations, Obligations and Warranties.**

   6.1 Fire Inspection Report. Landlord shall provide to Tenant, before possession, a written fire inspection report approving the Premises for occupancy.

   6.2 Governmental Compliance. Landlord represents and warrants that the Premises will comply with all applicable governmental laws, rules and regulations during the term of this Agreement including, but not limited to, applicable codes and use permits.

6.3 Authority to Bind. Landlord represents and warrants that it has legal ownership and/or authority to enter into this Agreement, and shall provide a recorded warranty deed and/or other documentation necessary to confirm ownership and authority.

6.4 First right of refusal for adjacent. The Landlord shall not rent or otherwise occupy any adjoining space which is or becomes vacant on the Premises known as G1388 Bristol Road, Flint during the term of this Agreement, or any extensions thereof, without first offering for a period of ten (10) days, the space to the Tenant at the Tenant's current rental rate, and under the same terms and conditions found in this Agreement.

7. Repair and Maintenance. Except as to obligations expressly undertaken by Tenant as set forth herein, Landlord agrees to maintain the Premises, including exterior and interior and parking areas and sidewalks if any, as well as all maintenance and repair to mechanical, plumbing and electrical systems serving the Premises as needed to keep them in sound working order and in compliance with applicable legal codes and free from dangerous or defective conditions. If Landlord fails to fulfill its obligation to the satisfaction of Tenant, Tenant may either cancel the Agreement or make the necessary repairs and maintenance and deduct the expense from future rent due after giving Landlord a 30-day written notice to cure detailing the maintenance or repair defect.

8. Services and Responsibilities of Tenant. Tenant shall furnish the following at its own expense:

8.1 All utilities serving the Premises, including water, sewer, gas, electricity and/or steam.
8.2 Replacement of light bulbs and tubes as needed.
8.3 Janitorial services and supplies.
8.1 Deleted, Not Applicable
8.2 Removal of trash and refuse from the Premises.
8.3 Deleted, Not Applicable
8.4 Telecommunication services.
8.5 Alarm service.

9. Services and Responsibilities of Landlord. Landlord shall furnish the following at its own expense:

9.1 Snow removal from driveways, steps, porches and walkways
9.2 Pest Control
9.3 Heating, mechanical ventilating, cooling, and humidification system capable of providing a temperature range of 68°F to 78°F, measured at 30" above the finished floor, and 12" inside any exterior wall, and a humidification range of 30% to 50%, at all times occupied. Ventilation in restrooms shall be a minimum of 100 cfm, exhausted to the outdoors
9.4 Electric service for lights, office machines, and all other electrical equipment. Lighting to be a minimum of 50-foot candles, maintained at desk level.
9.5 Hot and cold water for restrooms. Provide water well and septic system where required.
9.6 Replacement of all glass breakage in windows and doors, including plate glass, unless said breakage was caused by the negligence of the State's employees or agents.
9.7 Provide and maintain any equipment required by the Fire Inspector for fire prevention and safety.
9.8 Pay all real estate taxes and special assessments, if any.

10. Assignment and Subletting. Tenant shall neither assign this Agreement nor sublet the Premises, in whole or in part, without the prior written consent of the Landlord, which consent shall not be unreasonably withheld. Tenant, through its Department of Management and Budget, may assign or reassign any or all of the Premises to any branch, department, board,

agency, commission or other instrumentality of State government without obtaining consent of Landlord; however, such an assignment shall not relieve Tenant of its obligations under this Agreement.

11. **Alterations and Improvements.** No alterations, modifications, or improvements shall be made to the Premises without the prior written consent of the Landlord, which consent shall not be unreasonably withheld. Any alternations or improvements being made under this Agreement, if applicable, are described in Attachment B. At the expiration of the Agreement, all such alterations, modifications, and improvements to the Premises shall become the property of the Landlord, unless otherwise agreed in writing or the Tenant acquires fee title to the Premises. Landlord shall not unreasonably deny a request from Tenant to have certain of the rented parking spaces painted to indicate they are reserved for handicap parking only.

12. **Damage and Destruction.** In the event that less than 50% of the replacement value of the Premises are damaged or destroyed by any casualty, the Landlord shall, at its own expense, repair said damage and restore the Premises to its prior condition, within ninety (90) days notice after the damage or destruction. In the event that more than 50% of the replacement value of the Premises is damaged or destroyed by any casualty, the Landlord shall have the option of repairing or reconstructing, or canceling this Agreement, which option shall be exercised within ninety (90) days after the damage or destruction. Tenant shall be liable for any damage to Premises caused by sole action of the Tenant, Tenant's employees or Tenant's guests or by any casualty insured under the Tenant's insurance policy, excepting reasonable wear and tear or damage by the elements.

13. **Holding Over**. In the event Tenant remains in possession of the Premises after the expiration or termination of the Agreement, it shall be deemed to be occupying the Premises as a Tenant from month-to-month, subject to all conditions, provisions and obligations of this Agreement, and the rent shall remain the same as the monthly rent owing at the end of the Agreement.

14. **Environmental.** The parties shall comply with all applicable federal, state and local environmental laws, regulations and rules, including without limitation financial liability and responsibility for the cleanup, containment and abatement of any spills or discharges of hazardous substances on or within the Premises.

    14.1 Landlord represents and warrants that there is no known adverse environmental condition on or within the Premises.

    14.2 Tenant assumes no liability or responsibility for any spills or discharges of hazardous substances that occurred before Possession, regardless of when those spills or discharges are discovered.

15. **Insurance**. Landlord is required to provide proof of General premises liability insurance for the Premises identified in Paragraph 1, which provides full coverage for the Landlord, the Tenant, and their respective agents and employees and which protects against all claims, demands, actions, suits, or causes of action, and judgments, settlements or recoveries, for bodily injury or property damage arising out of a condition of the Premises. The Landlord agrees to maintain minimum policy limits in the amount of $500,000.00 per occurrence for property damage, and $1,000,000.00 per occurrence for bodily injury, with a $2,000,000.00 aggregate. The Landlord shall provide to the Tenant a certificate of insurance listing the Tenant, its several departments, boards, agencies, commissions, officers, and employees as additional insureds, within thirty (30) calendar days following execution and delivery of this Agreement to the Landlord. The insurance policy shall provide that it may not be modified, cancelled, or allowed to expire without thirty (30) days prior written notice given to the Tenant.

16. Public Policy Provisions.

16.1 Non-Discrimination. Landlord shall comply with the Elliott-Larsen Civil Rights Act, 1976 PA 453, as amended, MCL 37.2101 et seq., the Persons with Disabilities Civil Rights Act, 1976 PA 220, as amended, MCL 37.1101 et seq., and all other federal, state and local fair employment practices and equal opportunity laws and covenants that it shall not discriminate against any employee or applicant for employment, to be employed in the performance of this Agreement, with respect to his or her hire, tenure, terms, conditions, or privileges of employment, or any matter directly or indirectly related to employment, because of his or her race, religion, color, national origin, age, sex, height, weight, marital status, or physical or mental disability that is unrelated to the individual's ability to perform the duties of a particular job or position. The Landlord agrees to include in every subcontract entered into for the performance of this real estate contract this covenant not to discriminate in employment. A breach of this covenant is a material breach of this Agreement.

16.2 Unfair Labor Practices. This Agreement may be canceled by Tenant if Landlord or any subcontractor, manufacturer or supplier of the Landlord appears in the register compiled by the Michigan Department of Licensing and Regulatory Affairs pursuant to 1980 Public Act 278, as amended, MCL 423.321 et seq. (Employers Engaging in Unfair Labor Practices Act). A breach of this covenant is a material breach of this Agreement.

17. Notices. Any notices under this Agreement shall be complete if submitted in writing and transmitted by certified or registered mail return receipt requested, or by a nationally recognized overnight delivery service. Notices shall be deemed effective on the date and time of the delivery receipt.

18. Quiet Enjoyment. Tenant, upon payment of the stated rent and the performance of the conditions outlined herein, may peacefully and quietly have, hold, and enjoy the Premises. Landlord may access the Premises as needed to perform its responsibilities under this Agreement and to make reasonable inspections of Landlord's property.

19. Miscellaneous Provisions.

19.1 Governing Law. This Agreement shall be governed by and interpreted in accordance with the laws of the State of Michigan.
19.2 Mutual Drafting. This Agreement shall be interpreted and construed as drafted mutually by both parties.
19.3 Entire Agreement. This Agreement, with all Attachments as listed herein, constitutes the entire agreement between the parties with regard to this transaction and may be amended only in writing, signed by each party.
19.4 Severability. Should any provision of this Agreement or any addenda thereto be found to be illegal or otherwise unenforceable by a court of law, such provision shall be severed from the remainder of the Agreement, and such action shall not affect the enforceability of the remaining provisions of the Agreement.
19.5 Waiver. Failure to enforce any term of this Agreement shall not be deemed a waiver of the enforcement of that or any other term of this Agreement.
19.6 Effective Date. The Effective Date of this Agreement is the date signed by the Real Estate Director of the Department of Technology, Management & Budget.
19.7 Binding Effect. This Agreement shall be binding upon and inure to the benefit of the heirs, executors, administrators and assigns of Landlord and Tenant.
19.8 Counterparts. This Agreement may be executed in counterparts, each which shall be deemed an original, and all of which together shall constituted one and the same agreement. An electronic, scanned or facsimile signature shall be deemed an original.

RENTAL AGREEMENT

Agreement # 6477-2014

Between

MICHAEL J. COSTANZA

An Individual, As Landlord

and the

State Of Michigan, As Tenant

THIS RENTAL AGREEMENT ("Agreement") is entered into by and between Michael J. Costanza, an Individual, as ("Landlord"), whose address is 5081 South Genesee Road, Grand Blanc, Michigan 48439, and the State of Michigan, by the Department of Technology, Management & Budget, whose address is 7150 Harris Drive, Dimondale, MI 48821, for the Michigan Department of Licensing & Regulatory Affairs ("Tenant"), and establishes the following terms, conditions, performance obligations, and covenants between the parties:

1. **Premises.** Landlord hereby rents to Tenant approximately 4,354 usable square feet of 1st floor space and thirty (30) standard parking spaces on the grounds of the property commonly known as G-1388 Bristol Road, Suite 106, Flint, Michigan 48507 (the "Premises") as further described in Attachment A to this Agreement.

2. **Term.** The term of this Agreement is month-to-month beginning January 8, 2015 and ending January 27, 2016, subject to the cancellation provisions of this Agreement. _____
Initial & Date

3. **Rent.** Tenant shall pay to Landlord rent at the rate of Three Thousand Nine Hundred Ninety One Dollars and 17 Cents ($3,991.17) per month. Rent consideration installment payments shall be made during the month for which the installment applies. Public Act 533 of 2004 requires that payments under this Agreement be processed by electronic funds transfer (EFT). Landlord is required to register to receive payments by EFT at the Contract & Payment Express website (www.cpexpress.state.mi.us).

4. **Date of Possession.** Deleted, Not Applicable

5. **Cancellation.** This Agreement may be canceled by the Tenant upon thirty (30) days written notice to the Landlord delivered either in person or by certified mail to the other party's address as set forth under the "Notices" Section of this Agreement, or to such other address as either party may designate in writing for the delivery of notices under this Agreement.

6. **Landlord Representations, Obligations and Warranties.**

   6.1 Fire Inspection Report. Landlord shall provide to Tenant, before possession, a written fire inspection report approving the Premises for occupancy.

   6.2 Governmental Compliance. Landlord represents and warrants that the Premises will comply with all applicable governmental laws, rules and regulations during the term of this Agreement including, but not limited to, applicable codes and use permits.

6.3 Authority to Bind. Landlord represents and warrants that it has legal ownership and/or authority to enter into this Agreement, and shall provide a recorded warranty deed and/or other documentation necessary to confirm ownership and authority.

6.4 First right of refusal for adjacent. The Landlord shall not rent or otherwise occupy any adjoining space which is or becomes vacant on the Premises known as G1388 Bristol Road, Flint during the term of this Agreement, or any extensions thereof, without first offering for a period of ten (10) days, the space to the Tenant at the Tenant's current rental rate, and under the same terms and conditions found in this Agreement.

7. **Repair and Maintenance**. Except as to obligations expressly undertaken by Tenant as set forth herein, Landlord agrees to maintain the Premises, including exterior and interior and parking areas and sidewalks if any, as well as all maintenance and repair to mechanical, plumbing and electrical systems serving the Premises as needed to keep them in sound working order and in compliance with applicable legal codes and free from dangerous or defective conditions. If Landlord fails to fulfill its obligation to the satisfaction of Tenant, Tenant may either cancel the Agreement or make the necessary repairs and maintenance and deduct the expense from future rent due after giving Landlord a 30-day written notice to cure detailing the maintenance or repair defect.

8. **Services and Responsibilities of Tenant.** Tenant shall furnish the following at its own expense:

8.1 All utilities serving the Premises, including water, sewer, gas, electricity and/or steam.
8.2 Replacement of light bulbs and tubes as needed.
8.3 Janitorial services and supplies.
8.1 Deleted, Not Applicable
8.2 Removal of trash and refuse from the Premises.
8.3 Deleted, Not Applicable
8.4 Telecommunication services.
8.5 Alarm service.

9. **Services and Responsibilities of Landlord.** Landlord shall furnish the following at its own expense:

9.1 Snow removal from driveways, steps, porches and walkways
9.2 Pest Control
9.3 Heating, mechanical ventilating, cooling, and humidification system capable of providing a temperature range of 68°F to 78°F, measured at 30" above the finished floor, and 12" inside any exterior wall, and a humidification range of 30% to 50%, at all times occupied. Ventilation in restrooms shall be a minimum of 100 cfm, exhausted to the outdoors
9.4 Electric service for lights, office machines, and all other electrical equipment. Lighting to be a minimum of 50-foot candles, maintained at desk level.
9.5 Hot and cold water for restrooms. Provide water well and septic system where required.
9.6 Replacement of all glass breakage in windows and doors, including plate glass, unless said breakage was caused by the negligence of the State's employees or agents.
9.7 Provide and maintain any equipment required by the Fire Inspector for fire prevention and safety.
9.8 Pay all real estate taxes and special assessments, if any.

10. **Assignment and Subletting.** Tenant shall neither assign this Agreement nor sublet the Premises, in whole or in part, without the prior written consent of the Landlord, which consent shall not be unreasonably withheld. Tenant, through its Department of Management and Budget, may assign or reassign any or all of the Premises to any branch, department, board,

agency, commission or other instrumentality of State government without obtaining consent of Landlord; however, such an assignment shall not relieve Tenant of its obligations under this Agreement.

11. **Alterations and Improvements.** No alterations, modifications, or improvements shall be made to the Premises without the prior written consent of the Landlord, which consent shall not be unreasonably withheld. Any alternations or improvements being made under this Agreement, if applicable, are described in Attachment B. At the expiration of the Agreement, all such alterations, modifications, and improvements to the Premises shall become the property of the Landlord, unless otherwise agreed in writing or the Tenant acquires fee title to the Premises. Landlord shall not unreasonably deny a request from Tenant to have certain of the rented parking spaces painted to indicate they are reserved for handicap parking only.

12. **Damage and Destruction.** In the event that less than 50% of the replacement value of the Premises are damaged or destroyed by any casualty, the Landlord shall, at its own expense, repair said damage and restore the Premises to its prior condition, within ninety (90) days notice after the damage or destruction. In the event that more than 50% of the replacement value of the Premises is damaged or destroyed by any casualty, the Landlord shall have the option of repairing or reconstructing, or canceling this Agreement, which option shall be exercised within ninety (90) days after the damage or destruction. Tenant shall be liable for any damage to Premises caused by sole action of the Tenant, Tenant's employees or Tenant's guests or by any casualty insured under the Tenant's insurance policy, excepting reasonable wear and tear or damage by the elements.

13. **Holding Over**. In the event Tenant remains in possession of the Premises after the expiration or termination of the Agreement, it shall be deemed to be occupying the Premises as a Tenant from month-to-month, subject to all conditions, provisions and obligations of this Agreement, and the rent shall remain the same as the monthly rent owing at the end of the Agreement.

14. **Environmental.** The parties shall comply with all applicable federal, state and local environmental laws, regulations and rules, including without limitation financial liability and responsibility for the cleanup, containment and abatement of any spills or discharges of hazardous substances on or within the Premises.

    14.1 Landlord represents and warrants that there is no known adverse environmental condition on or within the Premises.

    14.2 Tenant assumes no liability or responsibility for any spills or discharges of hazardous substances that occurred before Possession, regardless of when those spills or discharges are discovered.

15. **Insurance**. Landlord is required to provide proof of General premises liability insurance for the Premises identified in Paragraph 1, which provides full coverage for the Landlord, the Tenant, and their respective agents and employees and which protects against all claims, demands, actions, suits, or causes of action, and judgments, settlements or recoveries, for bodily injury or property damage arising out of a condition of the Premises. The Landlord agrees to maintain minimum policy limits in the amount of $500,000.00 per occurrence for property damage, and $1,000,000.00 per occurrence for bodily injury, with a $2,000,000.00 aggregate. The Landlord shall provide to the Tenant a certificate of insurance listing the Tenant, its several departments, boards, agencies, commissions, officers, and employees as additional insureds, within thirty (30) calendar days following execution and delivery of this Agreement to the Landlord. The insurance policy shall provide that it may not be modified, cancelled, or allowed to expire without thirty (30) days prior written notice given to the Tenant.

16. Public Policy Provisions.

16.1 Non-Discrimination. Landlord shall comply with the Elliott-Larsen Civil Rights Act, 1976 PA 453, as amended, MCL 37.2101 et seq., the Persons with Disabilities Civil Rights Act, 1976 PA 220, as amended, MCL 37.1101 et seq., and all other federal, state and local fair employment practices and equal opportunity laws and covenants that it shall not discriminate against any employee or applicant for employment, to be employed in the performance of this Agreement, with respect to his or her hire, tenure, terms, conditions, or privileges of employment, or any matter directly or indirectly related to employment, because of his or her race, religion, color, national origin, age, sex, height, weight, marital status, or physical or mental disability that is unrelated to the individual's ability to perform the duties of a particular job or position. The Landlord agrees to include in every subcontract entered into for the performance of this real estate contract this covenant not to discriminate in employment. A breach of this covenant is a material breach of this Agreement.

16.2 Unfair Labor Practices. This Agreement may be canceled by Tenant if Landlord or any subcontractor, manufacturer or supplier of the Landlord appears in the register compiled by the Michigan Department of Licensing and Regulatory Affairs pursuant to 1980 Public Act 278, as amended, MCL 423.321 et seq. (Employers Engaging in Unfair Labor Practices Act). A breach of this covenant is a material breach of this Agreement.

17. Notices. Any notices under this Agreement shall be complete if submitted in writing and transmitted by certified or registered mail return receipt requested, or by a nationally recognized overnight delivery service. Notices shall be deemed effective on the date and time of the delivery receipt.

RENTAL AGREEMENT

Agreement # 6477-2014

Between

MICHAEL J. COSTANZA

An Individual, As Landlord

and the

State Of Michigan, As Tenant

THIS RENTAL AGREEMENT ("Agreement") is entered into by and between Michael J. Costanza, an Individual, as ("Landlord"), whose address is 5081 South Genesee Road, Grand Blanc, Michigan 48439, and the State of Michigan, by the Department of Technology, Management & Budget, whose address is 7150 Harris Drive, Dimondale, MI 48821, for the Michigan Department of Licensing & Regulatory Affairs ("Tenant"), and establishes the following terms, conditions, performance obligations, and covenants between the parties:

1. **Premises.** Landlord hereby rents to Tenant approximately 4,354 usable square feet of 1st floor space and thirty (30) standard parking spaces on the grounds of the property commonly known as G-1388 Bristol Road, Suite 106, Flint, Michigan 48507 (the "Premises") as further described in Attachment A to this Agreement.

2. **Term.** The term of this Agreement is month-to-month beginning January 8, 2015 and ending January 7, 2016, subject to the cancellation provisions of this Agreement.

3. **Rent.** Tenant shall pay to Landlord rent at the rate of Three Thousand Nine Hundred Ninety One Dollars and 17 Cents ($3,991.17) per month. Rent consideration installment payments shall be made during the month for which the installment applies. Public Act 533 of 2004 requires that payments under this Agreement be processed by electronic funds transfer (EFT). Landlord is required to register to receive payments by EFT at the Contract & Payment Express website (www.cpexpress.state.mi.us).

4. **Date of Possession.** Deleted, Not Applicable

5. **Cancellation.** This Agreement may be canceled by the Tenant upon thirty (30) days written notice to the Landlord delivered either in person or by certified mail to the other party's address as set forth under the "Notices" Section of this Agreement, or to such other address as either party may designate in writing for the delivery of notices under this Agreement.

6. **Landlord Representations, Obligations and Warranties.**

   6.1 Fire Inspection Report. Landlord shall provide to Tenant, before possession, a written fire inspection report approving the Premises for occupancy.

   6.2 Governmental Compliance. Landlord represents and warrants that the Premises will comply with all applicable governmental laws, rules and regulations during the term of this Agreement including, but not limited to, applicable codes and use permits.

6.3 Authority to Bind. Landlord represents and warrants that it has legal ownership and/or authority to enter into this Agreement, and shall provide a recorded warranty deed and/or other documentation necessary to confirm ownership and authority.

6.4 First right of refusal for adjacent. The Landlord shall not rent or otherwise occupy any adjoining space which is or becomes vacant on the Premises known as G1388 Bristol Road, Flint during the term of this Agreement, or any extensions thereof, without first offering for a period of ten (10) days, the space to the Tenant at the Tenant's current rental rate, and under the same terms and conditions found in this Agreement.

7. **Repair and Maintenance**. Except as to obligations expressly undertaken by Tenant as set forth herein, Landlord agrees to maintain the Premises, including exterior and interior and parking areas and sidewalks if any, as well as all maintenance and repair to mechanical, plumbing and electrical systems serving the Premises as needed to keep them in sound working order and in compliance with applicable legal codes and free from dangerous or defective conditions. If Landlord fails to fulfill its obligation to the satisfaction of Tenant, Tenant may either cancel the Agreement or make the necessary repairs and maintenance and deduct the expense from future rent due after giving Landlord a 30-day written notice to cure detailing the maintenance or repair defect.

8. **Services and Responsibilities of Tenant.** Tenant shall furnish the following at its own expense:

8.1 All utilities serving the Premises, including water, sewer, gas, electricity and/or steam.
8.2 Replacement of light bulbs and tubes as needed.
8.3 Janitorial services and supplies.
8.4 Removal of trash and refuse from the Premises.
8.5 Telecommunication services.
8.6 Alarm service.

9. **Services and Responsibilities of Landlord.** Landlord shall furnish the following at its own expense:

9.1 Snow removal from driveways, steps, porches and walkways
9.2 Pest Control
9.3 Heating, mechanical ventilating, cooling, and humidification system capable of providing a temperature range of 68°F to 78°F, measured at 30" above the finished floor, and 12" inside any exterior wall, and a humidification range of 30% to 50%, at all times occupied. Ventilation in restrooms shall be a minimum of 100 cfm, exhausted to the outdoors
9.4 Electric service for lights, office machines, and all other electrical equipment. Lighting to be a minimum of 50-foot candles, maintained at desk level.
9.5 Hot and cold water for restrooms. Provide water well and septic system where required.
9.6 Replacement of all glass breakage in windows and doors, including plate glass, unless said breakage was caused by the negligence of the State's employees or agents.
9.7 Provide and maintain any equipment required by the Fire Inspector for fire prevention and safety.
9.8 Pay all real estate taxes and special assessments, if any.

10. **Assignment and Subletting.** Tenant shall neither assign this Agreement nor sublet the Premises, in whole or in part, without the prior written consent of the Landlord, which consent shall not be unreasonably withheld. Tenant, through its Department of Management and Budget, may assign or reassign any or all of the Premises to any branch, department, board, agency, commission or other instrumentality of State government without obtaining consent of Landlord; however, such an assignment shall not relieve Tenant of its obligations under this

Agreement.

11. **Alterations and Improvements.** No alterations, modifications, or improvements shall be made to the Premises without the prior written consent of the Landlord, which consent shall not be unreasonably withheld. Any alternations or improvements being made under this Agreement, if applicable, are described in Attachment B. At the expiration of the Agreement, all such alterations, modifications, and improvements to the Premises shall become the property of the Landlord, unless otherwise agreed in writing or the Tenant acquires fee title to the Premises. Landlord shall not unreasonably deny a request from Tenant to have certain of the rented parking spaces painted to indicate they are reserved for handicap parking only.

12. **Damage and Destruction.** In the event that less than 50% of the replacement value of the Premises are damaged or destroyed by any casualty, the Landlord shall, at its own expense, repair said damage and restore the Premises to its prior condition, within ninety (90) days notice after the damage or destruction. In the event that more than 50% of the replacement value of the Premises is damaged or destroyed by any casualty, the Landlord shall have the option of repairing or reconstructing, or canceling this Agreement, which option shall be exercised within ninety (90) days after the damage or destruction. Tenant shall be liable for any damage to Premises caused by sole action of the Tenant, Tenant's employees or Tenant's guests or by any casualty insured under the Tenant's insurance policy, excepting reasonable wear and tear or damage by the elements.

13. **Holding Over**. In the event Tenant remains in possession of the Premises after the expiration or termination of the Agreement, it shall be deemed to be occupying the Premises as a Tenant from month-to-month, subject to all conditions, provisions and obligations of this Agreement, and the rent shall remain the same as the monthly rent owing at the end of the Agreement.

14. **Environmental.** The parties shall comply with all applicable federal, state and local environmental laws, regulations and rules, including without limitation financial liability and responsibility for the cleanup, containment and abatement of any spills or discharges of hazardous substances on or within the Premises.

    14.1 Landlord represents and warrants that there is no known adverse environmental condition on or within the Premises.

    14.2 Tenant assumes no liability or responsibility for any spills or discharges of hazardous substances that occurred before Possession, regardless of when those spills or discharges are discovered.

15. **Insurance**. Landlord is required to provide proof of General premises liability insurance for the Premises identified in Paragraph 1, which provides full coverage for the Landlord, the Tenant, and their respective agents and employees and which protects against all claims, demands, actions, suits, or causes of action, and judgments, settlements or recoveries, for bodily injury or property damage arising out of a condition of the Premises. The Landlord agrees to maintain minimum policy limits in the amount of $500,000.00 per occurrence for property damage, and $1,000,000.00 per occurrence for bodily injury, with a $2,000,000.00 aggregate. The Landlord shall provide to the Tenant a certificate of insurance listing the Tenant, its several departments, boards, agencies, commissions, officers, and employees as additional insureds, within thirty (30) calendar days following execution and delivery of this Agreement to the Landlord. The insurance policy shall provide that it may not be modified, cancelled, or allowed to expire without thirty (30) days prior written notice given to the Tenant.

16. **Public Policy Provisions.**

    16.1 Non-Discrimination. Landlord shall comply with the Elliott-Larsen Civil Rights Act, 1976

PA 453, as amended, MCL 37.2101 et seq., the Persons with Disabilities Civil Rights Act, 1976 PA 220, as amended, MCL 37.1101 et seq., and all other federal, state and local fair employment practices and equal opportunity laws and covenants that it shall not discriminate against any employee or applicant for employment, to be employed in the performance of this Agreement, with respect to his or her hire, tenure, terms, conditions, or privileges of employment, or any matter directly or indirectly related to employment, because of his or her race, religion, color, national origin, age, sex, height, weight, marital status, or physical or mental disability that is unrelated to the individual's ability to perform the duties of a particular job or position. The Landlord agrees to include in every subcontract entered into for the performance of this real estate contract this covenant not to discriminate in employment. A breach of this covenant is a material breach of this Agreement.

16.2 Unfair Labor Practices. This Agreement may be canceled by Tenant if Landlord or any subcontractor, manufacturer or supplier of the Landlord appears in the register compiled by the Michigan Department of Licensing and Regulatory Affairs pursuant to 1980 Public Act 278, as amended, MCL 423.321 et seq. (Employers Engaging in Unfair Labor Practices Act). A breach of this covenant is a material breach of this Agreement.

17. Notices. Any notices under this Agreement shall be complete if submitted in writing and transmitted by certified or registered mail return receipt requested, or by a nationally recognized overnight delivery service. Notices shall be deemed effective on the date and time of the delivery receipt.

18. Quiet Enjoyment. Tenant, upon payment of the stated rent and the performance of the conditions outlined herein, may peacefully and quietly have, hold, and enjoy the Premises. Landlord may access the Premises as needed to perform its responsibilities under this Agreement and to make reasonable inspections of Landlord's property.

19. Miscellaneous Provisions.

19.1 Governing Law. This Agreement shall be governed by and interpreted in accordance with the laws of the State of Michigan.

19.2 Mutual Drafting. This Agreement shall be interpreted and construed as drafted mutually by both parties.

19.3 Entire Agreement. This Agreement, with all Attachments as listed herein, constitutes the entire agreement between the parties with regard to this transaction and may be amended only in writing, signed by each party.

19.4 Severability. Should any provision of this Agreement or any addenda thereto be found to be illegal or otherwise unenforceable by a court of law, such provision shall be severed from the remainder of the Agreement, and such action shall not affect the enforceability of the remaining provisions of the Agreement.

19.5 Waiver. Failure to enforce any term of this Agreement shall not be deemed a waiver of the enforcement of that or any other term of this Agreement.

19.6 Effective Date. The Effective Date of this Agreement is the date signed by the Real Estate Director of the Department of Technology, Management & Budget.

19.7 Binding Effect. This Agreement shall be binding upon and inure to the benefit of the heirs, executors, administrators and assigns of Landlord and Tenant.

19.8 Counterparts. This Agreement may be executed in counterparts, each which shall be deemed an original, and all of which together shall constituted one and the same agreement. An electronic, scanned or facsimile signature shall be deemed an original.

20. Attachments.

20.1 Attachment A – Floor Plan

20.2 Attachment B – Deleted, Not Applicable

20.3 Attachment C – Deleted, Not Applicable

Subject: RE: City of Flint WATER

Hi Kathy,
I'm sorry, I shouldn't have used that term of explanation. This information was handed out to the Powers High School, and we got it from the School for the Deaf in Flint. The situation is just being reported, you are at liberty to do what you think is necessary with this information.

Subject: RE: City of Flint WATER

Maureen,
The attachment you sent does not indicate that the water is unsafe for consumption for most people. Does your statement mean that the City is now notifiying us that it is unsafe? We have two sites there and I want to be sure we are providing correct information. Can you clarify if it has been deemed unsafe for consumption? If it is not safe, what action is recommended, ie boiling water, using bottled water or what? Thanks, Kath

STATE OF MICHIGAN
DEPARTMENT OF TECHNOLOGY, MANAGEMENT & BUDGET
LANSING

RICK SNYDER
GOVERNOR

DAVID B. BEHEN
DIRECTOR

MEMORANDUM

TO: Frank J. Monticello, State Operations Division Chief
State Operations Division, Department of Attorney General

FROM: Robert M. Burns
Director, Real Estate Division

DATE: January 28, 2015

SUBJECT: Request Advice & Response Requiring Lease #11530 Interpretation

---

The State of Michigan entered into a lease with Lurvey White Ventures 1, LLC, as Lessor for the Department of Education effective July 20, 2012. This facility has a total of 115,955 usable square feet of school and campus for the Michigan School for the Deaf.

Issue:
Kitchen area and associated equipment are beginning to require maintenance and a determination is required for whom is the responsible party.

Type of Kitchen Equipment:
Walk-in coolers and freezers, dishwashers, steam tables, kitchen hoods, along with small appliances, water and ice dispensers, milk coolers, portable/movable freezers and refrigerators; tilt skillet, steam kettle, streamer, staqck ovens and a large ice maker.

This lease requires an interpretation on what is the responsibility of the Lessor and what is the responsibility of the Lessee to repair?

Maintenance is required under Article 3.1(s), however if items furnished by the State of Michigan are to be removed per Article 4.5. **Is ownership a consideration when making this determination?**

If you have any questions, please contact phone 517.335.6877 for either Troy Bos @ Bost@Michigan.gov or Maureen Bailey @ BaileyM1@Michigan.gov.

Thank you.

LEASE

State Lease **#11825-2015**

between

, as Lessor

and

THE STATE OF MICHIGAN, as Lessee

THIS LEASE is entered into by , as Lessor, whose address is , and the State of Michigan by the Department of Technology, Management & Budget for the Department of , as Lessee.

The parties, for the considerations specified in this Lease, agree to the following terms, conditions, and covenants:

ARTICLE I - DEFINITIONS

1.1 - A.N.S.I.: American National Standards Institute, Inc., a New York corporation that identifies public requirements for national standards and coordinates voluntary standardization activities. A.N.S.I. standards are used in calculating square footage used in this Lease.

1.2 - Cancellation: Ending all rights and obligations of the Lessor and Lessee, except for any rights and obligations that are due and owing.

1.3 - Construction: Assembling of foundation, structural, architectural, electrical, and mechanical systems, on the Leased premises, where none existed prior.

1.4 - Executive: An Executive Order of the Governor pursuant to the Constitution 1963, Article 5, § 2 and 20, or a decision by the Director of the Department of Technology, Management & Budget in conjunction with the head of the principal State department or agency for whose use the Lease was entered.

1.5 - Maintenance: That effort, including repair, replacement, or removal, required to keep the Leased premises and the appearance of said Leased premises functioning or operating as originally designed, constructed, or installed, including but not limited to mechanical, electrical, architectural, or civil systems within the Leased premises, outside the Leased premises, or those systems otherwise attached thereto.

1.6 - Occupancy: Actual physical presence by the Lessee in the Leased premises.

1.7 - **Reserved**

1.8 - Possession: Lawful availability and physical access to install the Lessee's furnishings and compliance with paragraphs 3.1(z) and 3.7.

1.9 - Potable water: Water free from impurities present in amounts sufficient to cause disease or harmful physiological effects and conforming in its bacteriological and chemical quality to the requirements of the Public Health Service Drinking Water Standards or the regulations of the public health authority having jurisdiction.

1.10 - Purpose: The purpose for this Lease is **office** space use for the department or agency mentioned in the Lease in the specific geographic location described in paragraph 2.2 of the Lease.

1.11 - Remodel: Includes alterations, renovations, and any related demolition, and is the rearranging of existing architectural, civil, electrical, and/or mechanical systems within the Leased premises. Remodeling does not include enlarging or decreasing of structural or foundation systems, or new construction.

1.12 - State Government Managed: Property management tasks and responsibilities provided or contracted for and managed by a) the State of Michigan; b) any of the several departments, boards, commissions, offices, or agencies of the executive, legislative or judicial branches of state government; c) any institution of higher learning funded in whole or in part by the State of Michigan; or d) any entity created by act of the Legislature as an instrumentality of Michigan State government.

1.13 - State Government Owned: Real property fee title to which is held by a) the State of Michigan; b) any of the several departments, boards, commissions, offices, or agencies of the executive, legislative or judicial branches of state government; c) the State Building Authority; d) any institution of higher learning funded in whole or in part by the State of Michigan; or e) any entity created by act of the Legislature as an instrumentality of Michigan State government.

1.14 - Substantial Completion: The construction work has been completed in accordance with Enclosure C and C-1, to the extent that the Lessee can use or occupy the Leased premises for the use intended, without any outstanding or concurrent work remaining, except as required to complete minor punch list items. The Lessee has the sole discretion to determine whether punch list items are "minor". Prerequisites for substantial completion include (a) receipt by the Lessee of all required operating and maintenance documentation, (b) all systems have been successfully tested and demonstrated by the Lessor for their intended use, and (c) the Lessee has received all required certifications and/or occupancy approvals from the State and any other political subdivisions having jurisdiction over the work. Receipt of all certificates and/or occupancy approvals in and of itself does not necessarily connote substantial completion.

1.15 -Tenantable: Habitable for the effective conduct of the Lessee's intended business.

1.16 -Tenant Improvements: Remodeling, attachment of fixtures, erection of additions, partitions, structures or signs by the Lessee in and upon the Leased premises after the Lessee has acquired possession.

ARTICLE II - POSSESSION

2.1 - The Lessor leases to the Lessee **4,000 usable** square feet of space, referred to as the "Leased premises", which is outlined on a plan attached as Enclosure "A". This square footage is based upon the A.N.S.I. Z65.1 - 1996 method for calculating space.

2.2 - The Leased premises, located on the property described in Enclosure "B" also known as , in the **City** of **Flint**, County of **Genesee**, State of Michigan.

2.3 - If the Leased premises are available for possession by the Lessee prior to the commencement of the term defined in paragraph 2.4, the Lessee, at its sole option, may possess the Leased premises when the same are available. The Lessor shall provide written notice to the Lessee of such availability. For each day of possession prior to commencement of such term, the Lessee shall pay to the Lessor, at the same time that rent consideration for the first month of the regular term of the Lease is due, 1/365 of the initial annual rent consideration set forth in Article V.

2.4 - The Lessor shall furnish the Leased premises with their appurtenances to the Lessee for a **ten-year** initial term of possession beginning upon actual possession or at 12:01 a.m. on **January 1, 2016**, and ending at 11:59 p.m. on **December 31, 2025**, or such later date as provided in paragraph 3.6. If the Leased premises are not ready by the possession date, the beginning and ending dates may be altered by mutual written consent to reflect the correct possession date. If the initial possession date is changed, paragraphs 2.5, 2.6, and Article V shall also be changed accordingly.

2.5 - This Lease may, at the option of the Lessee, be extended for a **five-year** term beginning at 12:01 a.m. on **January 1, 2026**, and ending at 11:59 p.m. on **December 31, 2030**, provided notice be given in writing to the Lessor **thirty** (**30**) days before this Lease or extension expires.

2.6 - This Lease may, at the option of the Lessee, be extended for a **five-year** term beginning at 12:01 a.m. on **January 1, 2031**, and ending at 11:59 p.m. on **December 31, 2035**, provided notice be given in writing to the Lessor **thirty** (**30**) days before this Lease or extension expires.

2.7 - **Deleted, Not Applicable**

2.8 - **Deleted, Not Applicable**

2.9 - The Lessee may, upon written notice to the Lessor, at least thirty (30) days prior to termination of this Lease or any extension, remain in possession of the Leased premises for the period specified in the notice, not to exceed three months. The Lessee shall pay the Lessor for each month or part of a month a sum equal to 1/12 of the annual rent consideration set forth in Article V.

2.10 - The Lessee may assign this Lease or may sublet the Leased premises in whole or in part, with prior written consent of the Lessor, which shall not be unreasonably withheld. The Lessee, through its Department of Technology, Management & Budget may assign or reassign any or all of the Leased premises to any branch, department, board, agency, commission or other instrumentality of State government without the necessity of obtaining consent of the Lessor. **The Lessor specifically consents to the Lessee installing, or having installed through a third-party agreement, automatic teller machines (ATMs) within the Leased premises.**

2.11 - The Lessee, upon payment of the rental consideration specified in Article V and upon performing all covenants, shall and may peacefully and quietly have, hold, and enjoy the Leased premises for the term of this Lease or any extension.

2.12 - The Lessor or Lessor's agent may enter the Leased premises with reasonable advance notice for the purpose of conducting repairs, preventive maintenance, or providing replacements, as required under Article III.

2.13 - If for any reason relating to ownership of the Leased premises the Lessor is unable to lawfully put and maintain the Lessee in possession of the Leased premises as of the commencement of the term of this Lease or any proper extension thereof, the Lessor shall immediately secure other premises which in the Lessee's sole judgment is substantially equivalent to the Leased premises described herein, at a rental rate to the Lessee which shall not exceed the rental consideration in this Lease.

ARTICLE III - LESSOR OBLIGATIONS

3.1 - The Lessor shall furnish to the Lessee and pay the cost of the following:

a) Heating, mechanical ventilating, cooling, and humidification system capable of providing a temperature range of 68°F to 78°F, measured at 30" above the finished floor, and 12" inside any exterior wall, and a humidification range of 30% to 50%, at all times occupied. Ventilation in restrooms shall be a minimum of 100 cfm, exhausted to the outdoors.

b) Electrical power distribution system throughout the Leased premises, for the operation of all business machinery and equipment.

c) Natural and/or artificial interior illumination that provides a minimum **70** foot-candles, measured at desk level, at all times, throughout the Leased premises. Artificial illumination shall be by incandescent or fluorescent lamps, and shall include tubes, bulbs, starters, ballasts, and fuses used inside the illumination fixture, and the replacement thereof for the Leased premises and common areas.

d) Domestic plumbing system to restrooms and break rooms capable of supplying hot and cold water, and removing sanitary waste water. Hot water delivery shall be not more than 120°F and not less than 110°F, measured at the tap.

e) Potable water shall meet the requirement of the Safe Drinking Water Act, 1976 PA 399, as amended, MCL 325.1001 et seq.

f) Metered utility costs for electricity, natural gas, water, sewerage, steam, fuel oil, or coal.

g) Adequate roof, vertical, and foundation thermal insulation in accordance with applicable codes.

h) Complete moisture protection from all exterior weather sources, on all sides, floors, and roof of the Leased premises.

i) Sound attenuation between any mechanical system or other tenant in the premises and the Leased premises, which provides not greater than 45dbA sound level readings, under conditions with all Lessee business equipment shut down.

j) Vibration isolation between any mechanical, plumbing, electrical, or other building system attached to and a part of the Leased premises.

k) Any equipment, portable or fixed, including alarm notification systems, required by the local public fire marshal authority.

l) Commercial grade, heavy-duty locking hardware.

Prior to Lessee possession, all doors providing access to the Leased premises shall be rekeyed and **five** (**5**) keys per lock combination shall be provided to the Lessee.

m) Pest control, including but not limited to: insects, rodents, flying animals, etc. Spraying must be performed after business hours or on weekends.

n) Trash removal from office wastebaskets, dumpsters, or equivalent containers.

o) Exterior grounds maintenance, including grass and weed cutting, clippings removal, leaf raking, litter removal, sidewalk surface and parking lot surface maintenance, de-icing, and snow removal. Snow removal is required anytime the accumulated depth is 2" or more, 24 hours after the most recent snowfall, and there shall be a clear path from the handicapper motor vehicle parking spaces to the barrier free entrances.

p) Janitorial supplies, equipment, personnel, and supervision to provide cleaning services as described in Enclosure "**F**".

q) Paved, striped, illuminated, and common motor vehicle parking on the Leased premises, for **50** motor vehicles, including overnight parking for state-owned motor vehicles. The striping on the parking lot shall be repainted **every two years** during the lease period in the summer by the Lessor. Illumination shall be not less than 2 foot-candles, with a uniformity not greater than 4 to 1, measured on the parking surface. The Lessor shall provide replacement tubes, bulbs, starters, and fuses, i.e., all parts and equipment necessary to provide and maintain this exterior illumination.

r) Leased premises shall comply with the barrier free design requirements of 1966 PA 1, as amended, MCL 125.1351 et seq. (Utilization of Public Facilities by Physically Limited).

s) Complete maintenance of the Leased premises, except for any obligations expressly undertaken by the Lessee set forth in Article IV. The Lessor shall keep the Leased premises in good repair, and able to perform and operate as designed, free from dangerous or defective conditions, and in tenantable condition, and at the Lessor's sole expense, properly and in a manner customarily accepted by the skilled trades, make all repairs and/or replacements, structural or nonstructural, of whatever nature. The Lessor shall provide inspections and preventive maintenance for heating and cooling systems in accordance with manufacturers' standards and any local codes or ordinances. The Lessor shall have a reasonable period of time, not to exceed thirty (30) days after receipt of a detailed written notice from the Lessee, to cure any maintenance defect. Additional time to cure any such maintenance defects may be allowed provided, in the Lessee's discretion, the Lessor proceeds with due diligence both during and after such thirty (30) day period, and the total time period to cure does not exceed ninety (90) days. This provision is cross referenced in paragraphs 4.2, 5.15, 5.17, and 11.3.

t) A listing of all important service or repair contractors to be contacted by telephone by the Lessee for emergency service or maintenance. These emergency telephone numbers shall be used by the Lessee only after attempting contact with the Lessor, given the scope and nature of the emergency. The Lessor shall maintain an updated or otherwise current listing. Lessor's failure to provide the emergency telephone numbers or to notify the Lessee of changes to the current listing shall be considered as authorization for the Lessee to contact an emergency service or maintenance contractor of choice.

u) Full replacement value insurance, for the Leased premises identified in paragraphs 2.1 and 2.2, having only standard exclusions, i.e. for acts of war, nuclear disaster, or civil riots.

v) General premises liability insurance for the Leased premises identified in paragraphs 2.1 and 2.2, which provides full coverage for the Lessor, the Lessee, and their respective agents and employees and which protects against all claims, demands, actions, suits, or causes of action, and judgments, settlements or recoveries, for bodily injury or property damage arising out of a condition of the Leased premises. The Lessor agrees to maintain minimum policy limits in the amount of $500,000.00 per occurrence for property damage, and $1,000,000.00 per occurrence for bodily injury, with a $2,000,000.00 aggregate. The Lessor shall provide to the Lessee a certificate of insurance listing the Lessee, its several departments, boards, agencies, commissions, officers, and employees as additional insureds, within thirty (30) calendar days following execution and delivery of this Lease to the Lessor, and every year thereafter. The insurance policy shall provide that it may not be modified, cancelled, or allowed to expire without thirty (30) days prior written notice given to the Lessee.

w) A written report, not more than sixty (60) days old from the date of first possession, from the local public fire marshal authority, indicating the Leased premises are approved for occupancy. If a renewal option is exercised, the Lessor shall provide the Lessee with an updated report within sixty (60) days from the beginning date of each renewal period.

x) A legible photocopy of the recorded warranty deed, or other instrument conveying current legal possession or title, with right to lease or sublease the Leased premises, as found in paragraphs 2.1 and 2.2, to the Lessor; and copies of all other documents limiting or restricting the use of the Leased premises or affecting title to the lands and Leased premises.

y) A legible photocopy of the current legal entity documents (corporation, partnership, trust, D.B.A., etc.) of the Lessor. This shall include signature authorizations indicating the signatory of this Lease is authorized to act on behalf of the legal entity, in this real estate transaction.

z) A legible photocopy of any certificates of occupancy, as approved by the local public building department or authority, if remodeling or construction is performed in paragraph 3.7.

aa) **Deleted, Not Applicable**

bb) Adequate and easily accessible indoor space in the vicinity of any shipping and receiving docks, areas, or platforms, for the purpose of the placement of holding containers for state-government recyclable materials and supplies, in accordance with 1994 PA 451, as amended, MCL 324.16501 et seq.

cc) New carpeting, paint and ceiling grid pads throughout, during the one hundred eighty (180) days immediately following the start of the first renewal option, if exercised. The 180-day period is intended as a "window period" only, not as permission to take 180 days to complete the replacement. The carpet and ceiling grid pads shall be of equal or better construction, materials, or grade, as compared to the carpeting and ceiling grid pads used upon initial possession. The Lessor will provide, at Lessor's sole cost, in addition to the carpet, moving or "lifting" of the existing furniture, if necessary; the adhesive for the new carpet and the replacement of any cove base if damaged.

dd) Signage located at all areas of ingress, egress and other conspicuous areas clearly designating "No Smoking" and/or the international "no smoking" symbol in sufficient number to communicate that smoking within the Leased premises is prohibited. If the Leased premises

includes both enclosed and unenclosed space, this signage must be located at comparable areas of any enclosed space.

ee) A designated smoking area located outside of the Leased premises at a sufficient distance from windows and ventilation systems to ensure that smoke does not enter the Leased premises; a sufficient number of receptacles specifically designed for smoking related trash to accommodate all smokers who work and conduct business in the Leased premises; and disposal of smoking related trash. If the Leased premises includes both enclosed and unenclosed space, the smoking area must be located outside any enclosed space at a sufficient distance from windows and ventilation systems to ensure that smoke does not enter the enclosed space.

3.2 - The Lessor warrants that any asbestos contained within the Leased premises has been removed prior to the Lessee taking possession; or if not removed, is present or installed in a manner that will not harm or injure human occupants. The parties agree that the Lessee assumes no liability or responsibility for the presence of asbestos in or on the Leased premises.

3.3 - a) The Lessor covenants that he/she has undertaken an environmental assessment of the Leased premises, satisfactory to and for the benefit of the Lessee, that is adequate to establish the liability exemptions and defenses available in Sections 20126(1)(c) and 20126(3)(h) of the Natural Resources and Environmental Protection Act (NREPA), MCL 324.20126(1)(c) and 324.20126(3)(h) and Section 107(b)(3) of the Comprehensive Environmental Response Compensation Liability Act, 42 USC 9607(b)(3), and that the Leased premises, and property on which the Leased premises is located, do not contain a concentration of any hazardous substance above applicable criteria.

b) The Lessor covenants that in the event a release or the threat of a release of a hazardous substance is discovered after execution of the Lease, to exist on, in or below the Leased premises, the Lessor shall:

1) Promptly notify both the State, as the Lessee, and the Michigan Department of Environmental Quality (DEQ) of the release or threatened release.

2) Report, investigate, remediate, and take all other actions consistent with Federal, State and local laws and regulations including, without limitation, Part 201 of the Natural Resources and Environmental Protection Act (NREPA), MCL 324.20101, et seq.

3) Inform the Lessee, the DEQ, and all other parties required to be notified under Federal, State or local law, of all actions taken under (2) above.

4) Provide the Lessee, the DEQ, and all other parties required to be notified under Federal, State or local law, with all reports, data, analyses and other documents and information related in any way to the investigation, remediation or other steps taken under (2) above.

c) The Lessor, except as otherwise provided herein, agrees to hold the Lessee harmless and to indemnify the Lessee for any claims brought against the Lessee related to asbestos or the release or threatened release of any hazardous substance on, in or below the Leased premises that may have occurred prior to or after the Lessee's occupancy of the Leased premises. This indemnification and hold harmless provision shall survive the termination of the leasehold interest and the sale of the Leased premises by the Lessor.

d) The Lessor agrees to take no administrative or judicial action against the Lessee including, without limitation, any action for damages, contribution, cost recovery, or injunctive relief to compel the Lessee to investigate or take remedial action, declaratory relief, or any

action associated with the Lessor's obligations to comply with Federal, State or local law as a result of asbestos or the release or threat of release of any hazardous substance on, in or below the Leased premises, except if the release or threatened release is caused solely by the Lessee.

e) The Lessor and Lessee mutually agree that they shall not release on, in, or below the Leased premises any hazardous substance. The Lessee assumes responsibility, to the extent provided by law, for a release or threatened release of a hazardous substance caused by the Lessee. The Lessor need not indemnify or defend the Lessee if the release or threatened release is caused solely by the Lessee.

3.5 - The Lessor shall begin the remodeling or construction indicated in paragraph 3.7 within **thirty** (30) days from the date this Lease is fully executed. All work required under paragraph 3.7 shall meet the latest local and state building codes, fire codes, and barrier free regulations. The Lessor shall be responsible for acquisition of and payment for all necessary permits.

3.6 - The Lessor shall complete the remodeling or construction in accordance with the standards and specifications listed in paragraph 3.7 by **December 1, 2015**, or **ninety** (**90**) days from the date this Lease is fully executed, whichever is later.

3.7 - See attached Enclosure "C", for remodeling or construction standards and specifications.

3.8 - During the remodeling or construction of the Leased premises, either party may request remodeling or construction changes, for the purposes of economizing, or Lessee program changes. The Lessor shall submit a complete description and itemized cost estimate for prior written approval to the Real Estate Division of the Department of Technology, Management & Budget, prior to performing the work required by the requested change. If the changes, and any resulting cost differences, are mutually agreed upon in writing by the Lessor, Lessee, and Real Estate Division, the Lessee shall make a lump-sum payment with, or lump-sum deduction from, the first month's rental consideration due the Lessor. Failure to include in the complete itemized cost estimate any cost directly or indirectly incurred as a result of the change constitutes Lessor's waiver of entitlement to such costs, except in the event that the Lessor or Lessor's contractor provides a detailed reservation of its right to additional costs which cannot be reasonably calculated as of the date the cost estimate is submitted.

3.9 - Remodeling of the Leased premises required by any existing or future laws, ordinances, or regulations of the city, village, township, county, state, or federal government, or other public building authority, shall be made by the Lessor, at no expense to the Lessee.

3.10 - In the event that less than ten percent (10%) of the replacement value of the Leased premises are damaged or destroyed by any casualty insured under the Lessor's insurance policy, the Lessor shall at its own expense, as speedily as circumstances permit, repair said damage and restore the Leased premises to its prior condition, within thirty (30) days notice after the damage or destruction. In the event that between ten percent (10%) and fifty percent (50%) of the replacement value of the Leased premises are damaged or destroyed by any casualty insured under the Lessor's insurance policy, the Lessor shall at its own expense, as speedily as circumstances permit, repair said damage and restore the Leased premises to its prior condition, within ninety (90) days notice after the damage or destruction. In the event that more than fifty percent (50%) of the replacement value of the Leased premises are damaged or destroyed by any casualty insured under the Lessor's insurance policy, the Lessor shall have the option of repairing or reconstructing, or canceling this Lease, which option shall be

exercised within ninety (90) days after the damage or destruction. This covenant is cross referenced in Articles IV, V and XI.

3.11 - The Lessor shall not rent or otherwise occupy any adjoining space which is or becomes vacant on the Leased premises known as during the term of this Lease or any extensions thereof, without first offering for a period of ten (10) days, the space to the Lessee at the same rental proposed for a third party, or if Lessor intends to occupy the space, at the Lessee's current rental rate and under the same terms and conditions found in this Lease.

3.11 - The Lessor shall not rent or otherwise occupy any adjoining space which is or becomes vacant on the Leased premises known as during the term of this Lease, or any extensions thereof, without first offering for a period of ten (10) days, the space to the Lessee at the Lessee's current rental rate, and under the same terms and conditions found in this Lease.

3.12 - The Lessor shall comply with the Elliott-Larsen Civil Rights Act, 1976 PA 453, as amended, MCL 37.2101 et seq, the Persons with Disabilities Civil Rights Act, 1976 PA 220, as amended, MCL 37.1101 et seq, and all other federal, state and local fair employment practices and equal opportunity laws and covenants that it shall not discriminate against any employee or applicant for employment, to be employed in the performance of this real estate contract, with respect to his or her hire, tenure, terms, conditions, or privileges of employment, or any matter directly or indirectly related to employment, because of his or her race, religion, color, national origin, age, sex, height, weight, marital status, or physical or mental disability that is unrelated to the individual's ability to perform the duties of a particular job or position. The Lessor agrees to include in every subcontract entered into for the performance of this real estate contract this covenant not to discriminate in employment. A breach of this covenant is a material breach of this real estate contract. This covenant is cross referenced in Article XI.

3.13 - The Lessor shall have the right to specify positioning of safes or other concentrated loads, that do not exceed the structural loading capacities, in the floor design layout.

3.14 - The Lessor shall, within forty-five (45) days after transfer of its ownership interest in the Leased premises, provide notice to the Lessee of said transfer so that the Lessee can calculate the amount of the potential increase in real estate taxes as a result of such transfer.

3.15 – **Deleted, Not Applicable**

3.16 - Time extension requests must be submitted in writing to Lessee each month in which the Lessor believes he/she is entitled to more time. Such requests shall detail the length of time extension requested and indicate why the Lessor believes more time is warranted. Lessee will respond to such requests and may extend the timeframe allowed for substantial completion. If no time extension is requested in writing, it will be assumed that no additional time is needed and no timeframe extension will be allowed for that month.

3.17 - The Lessor shall permit the Lessee to display public notifications of applicable public meetings as required by 1976 PA 267, as amended, MCL 15.261 et seq., in public lobby areas of the building wherein the Leased premises are located, in a manner consistent with the decor of the public lobby areas. Any display cases or other means used to display such public notifications shall be at the Lessee's expense.

3.18 - Lessee requires that all newly constructed buildings leased by the State of Michigan shall be designed and constructed in accordance with the Leadership in Energy and Environmental Design (LEED) Green Building Rating System developed by the United States Green Building Council and complies with Energy Star® designation.

ARTICLE IV - LESSEE OBLIGATIONS, DUTIES, and OPTIONS

4.1 - The Lessee shall furnish:

a) **Deleted, Not Applicable**

b) **Deleted, Not Applicable**

c) **Deleted, Not Applicable**

d) **Deleted, Not Applicable**

e) **Deleted, Not Applicable**

f) **Deleted, Not Applicable**

g) Telecommunications system and equipment.

h) Intrusion alarm system monitoring.

i) Reimbursement to the Lessor, for any repairs to the Leased premises, from damage that exceeds the normal wear and tear expected from the lawful and proper use of the Leased premises, and the sole cause of which was the negligent acts or omissions of the Lessee's employees, agents, wards, clients, or customers.

j) **Deleted, Not Applicable**

k) **Deleted, Not Applicable**

4.2 - The Lessee shall give detailed written notice to the Lessor, and if applicable, to the Lessor's mortgagee, of the need for any maintenance which is the obligation of the Lessor pursuant to Article III. This provision is cross referenced in paragraphs 3.1(s), 5.15, and 5.17.

4.3 - a) The Lessee shall have the option to add tenant improvements to the Leased premises during this Lease or any extension at the Lessee's expense. The tenant improvements to the Leased premises shall be and remain the property of the Lessee, and may be removed by the Lessee prior to cancellation or termination of this Lease. In the event the Lessee exercises its option to remove any tenant improvements to the Leased premises under this paragraph upon cancellation or termination of this Lease, the Lessee shall restore or otherwise return the Leased premises to the Lessor in an "as found" condition, except for normal wear and tear, unless otherwise agreed upon in writing.

b) In the event the Lessee removes any fixtures, finishes, additions, or structures owned by the Lessor, placed in or attached to the Leased premises, upon termination or cancellation of this Lease, the Lessee shall restore or otherwise return the Leased premises to the Lessor in an "as found" condition, except for normal wear and tear, unless otherwise agreed upon in writing.

4.4 - All tenant improvements by the Lessee, made pursuant to paragraph 4.3, shall be performed in a manner customarily accepted by the skilled trades, and in accordance with all federal, state, and local rules, ordinances, laws, codes, or nationally recognized standards of good construction practice.

4.5 - Upon cancellation or termination of this Lease, the Lessee shall clean the Leased premises to "broom-clean condition", and shall remove all furnishings from the Leased premises. Furnishings remaining in or on the Leased premises after the cancellation or termination effective date shall be considered abandoned property, and the Lessee shall be obligated to pay the Lessor for all reasonable removal costs.

4.6 - The Lessee shall be responsible to request and obtain any local government sign ordinance variances and the payment of any related fees.

4.7 - In the event the Lessor fails to proceed with repairs necessitated by damage or destruction that is fifty percent (50%) or less, as referenced in paragraph 3.10, the Lessee may proceed, after affording insurance surveyors or adjusters opportunity to inspect the damages, with repairs for the account of and at the expense of the Lessor.

4.8 - If the Lessee records this Lease with the county register of deeds, the Lessee shall record a discharge or notice of cancellation or termination of Lease within thirty (30) days after the cancellation or termination of this Lease is effective. The discharge from the public record shall include any recorded amendments to this Lease.

4.9 - The Lessee shall close all open windows, skylights, doors, or other exterior openings to the Leased premises, within the control of the Lessee, to avoid possible damage from fire, storms, rain, or freezing, when leaving the Leased premises at the close of the business day, or prior to any times when the Leased premises shall be unoccupied.

4.10 - The Lessee shall not permit:

a) Bicycles, mopeds, or other vehicles used for personal transportation, to be stored within the Leased premises or other common areas, unless otherwise specifically authorized elsewhere in this Lease, or agreed upon in writing with the Lessor.

b) Any items to be attached to suspended acoustical ceiling grids.

c) Access to any roof or overhang structure, except as under emergencies to maintain the roof moisture barrier or any rooftop mechanical system affecting the Leased premises.

ARTICLE V - RENT CONSIDERATION

5.1 - Rent consideration installment payments shall be made during the month for which the installment applies.

5.2 - If the Leased premises are not ready for possession by the date established in paragraphs 2.4 and 3.6, the Lessee shall not be responsible for rent until taking possession, nor shall the Lessee waive any claims to damages which the Lessee may have suffered.

5.3 - The Lessee shall pay to the Lessor as annual rent consideration for the Leased premises from 12:01 a.m. **January 1, 2016**, through 11:59 p.m. **December 31, 2030**, at the rate of /100 dollars ($) per year, payable in installments of /100 dollars ($) per month.

5.4 - [repeat paragraph 5.3 above for mid-term rent changes.].

5.5 - In the event the Lessee exercises the renewal option pursuant to Article II, paragraph 2.5, the Lessee shall pay to the Lessor as rent consideration for the Leased premises from 12:01 a.m. **January 1, 2031**, through 11:59 p.m. **December 31, 2035**, at the rate of

/100 dollars ($) per year, payable in installments of /100 dollars ($) per month.

a) In the event the Lessee exercises the renewal option pursuant to Article II, paragraph 2.6, the Lessee shall pay to the Lessor as rent consideration for the Leased premises from 12:01 a.m. **January 1, 2036**, through 11:59 p.m. **December 31, 2040**, at the rate of /100 dollars ($) per year, payable in installments of /100 dollars ($) per month.

5.6 - **Deleted, Not Applicable**

5.7 - **Deleted, Not Applicable**

5.8 - **Deleted, Not Applicable**

5.9 - **Deleted, Not Applicable**

5.10 – **Deleted, Not Applicable**

5.11 - **Deleted, Not Applicable**

5.12 - **Deleted, Not Applicable**

5.13 - **Reserved**

5.14 - **Reserved**

5.15 - If the Lessor fails to provide maintenance or complete the remodeling or construction, as referenced in Article III, the Lessee may provide the required maintenance, or complete the required remodeling or construction, and deduct the costs from future rent consideration payments due the Lessor.

5.16 - If the Lessor fails to provide supporting documentation or warranties, as required by Article III, four percent (4%) of the monthly rent consideration shall be held by the Lessee, until the required documentation is provided to the Lessee.

5.17 - The Lessee shall be entitled to an abatement of rent consideration for the period during which the Leased premises are rendered untenantable or incapable of the use for which the premises were leased as described in paragraph 1.10. In the event that only a part of the Leased premises are untenantable or incapable of such use, the rent shall be reduced in proportion to the entire area rented by the Lessee. This covenant is cross referenced in Articles III, IV and XI.

5.18 - Any rent consideration prepaid in advance to the Lessor, shall, upon damage or destruction as identified in paragraph 3.10, be repaid by the Lessor to the Lessee, within thirty (30) days of cancellation.

ARTICLE VI - LESSEE OPTION TO PURCHASE
Deleted, Not Applicable

ARTICLE VII - EMINENT DOMAIN/CONDEMNATION

7.1 - The Lessor shall notify the Lessee within ten (10) days of the commencement of eminent domain/condemnation proceedings against the Leased premises described in paragraphs 2.1 and 2.2 by a public agency authorized by law to condemn property. The Lessor

shall timely notify the Lessee of the Lessor's intent to contest eminent domain/condemnation proceedings. The Lessor shall notify the Lessee within ten (10) days of acquisition by eminent domain/condemnation of the Leased premises described in paragraphs 2.1 and 2.2 by a public agency.

7.2 - If a total taking of the Leased premises by any public authority under the power of eminent domain/condemnation occurs, then the term of this Lease shall cease as of the day of possession and the rent shall be paid up to that day with a proportionate refund by the Lessor of such rent as may have been paid in advance for a period subsequent to the date of the taking. This covenant is cross referenced in Article XI.

7.3 - If a partial taking of the Leased premises by any public authority under eminent domain/condemnation occurs, the Lessee shall have the right either to terminate this Lease and declare same null and void, or, subject to the Lessor's right of termination as set forth below, to continue in possession of the remainder of the Leased premises, and shall notify the Lessor in writing within ten (10) days after such taking of the Lessee's intention. In the event the Lessee elects to remain in possession, all of the terms herein provided shall continue in effect, except that the fixed annual rental shall be reduced in proportion to the amount of the Leased premises taken and the Lessor shall, at its own cost and expense, make all the necessary repairs or alterations to the building, as originally installed by the Lessor, so as to constitute the remaining Leased premises a complete architectural unit.

7.4 - If more than fifty (50%) percent of the Leased premises are taken under the power of eminent domain/condemnation, the Lessor may, by written notice to the Lessee delivered on or before the date of surrendering possession to the public authority, terminate this Lease.

7.5 - All damages awarded for either a total or partial taking under the power of eminent domain/condemnation, of the Leased premises, including fee title, described in paragraphs 2.1 and 2.2 shall belong to and be the property of the Lessor, except damages awarded as compensation for diminution in value to the leasehold interest which shall belong to and be the property of the Lessee. The Lessee shall be entitled to all damages and costs flowing from its loss of the leasehold interest including, but not limited to, loss of the value of the remaining terms of the Lease, the economic value of the Lease, depreciation and cost of removal of the Lessee's supplies and fixtures, and relocation cost.

ARTICLE VIII - ESTOPPEL

8.1 - The Lessee shall, within fourteen (14) days of receipt of a request by the Lessor, pursuant to paragraph 12.1, certify, to the extent the Lessee believes the information to be true and deliver to the Lessor an executed estoppel certificate (Enclosure "D"). The Lessee's failure to deliver such statement shall be conclusive upon the Lessee that:

a) This Lease is in full force and effect without modification except as may be represented by the Lessor,

b) There are no uncured defaults in the Lessor's performance,

c) Not more than one (1) month's rent has been paid in advance.

ARTICLE IX - Deleted, Not Applicable

ARTICLE X - LESSOR'S MORTGAGEE

10.1 - For purposes of this Article, the term "Lessor's mortgagee" means any party of record holding a mortgage or deed of trust on the Leased premises described in paragraphs 2.1 and 2.2, or any part thereof. The Lessor shall give the Lessee written notice that such party holds such lien or deed of trust, and written evidence of the date the mortgage or deed of trust was executed, together with notice of the address of Lessor's mortgagee. A lien held by a Lessor's mortgagee on the Leased premises, or any portion thereof, is herein referred to as a "Lessor's mortgage".

10.2 - Pursuant to paragraph 10.1, the Lessor has disclosed all mortgages or deeds of trust affecting the Leased premises set forth in paragraphs 2.1 and 2.2 which exist as of the execution date of this Lease. If a mortgage or deed of trust exists or existed, as of the execution date of the original Lease, the Lessor shall cause each mortgagee to execute in favor of the Lessee the Nondisturbance Agreement, attached as Enclosure "E", whereby said mortgagee agrees that it will not disturb the Lessee's tenancy in the event of foreclosure or other succession to the interest of the Lessor. Enclosure "E" shall be executed before this Lease becomes effective. Any mortgage is to be subordinate to this Lease, and any future amendment thereto unless specifically provided otherwise in writing.

10.3 - If the Leased premises are at any time during the term of this Lease subject to a Lessor's mortgage, then, whenever the Lessee gives notice to the Lessor alleging default by the Lessor in performance of any covenant or obligation under this Lease, the Lessee shall simultaneously give a copy of such notice to the Lessor's mortgagee (at the address of the Lessor's mortgagee provided pursuant to paragraph 10.1). Lessor's mortgagee shall have the right (but not the obligation) to cure or remedy Lessor's default during the same time period that is permitted to the Lessor hereunder for the remedying or curing of such default. Lessee will accept such curative or remedial action taken by a Lessor's mortgagee with the same effect as if such action had been taken by the Lessor. Any claims for damages by the Lessee shall not be waived by the Lessor's mortgagee's corrective or remedial action.

10.4 - In the event that the Lessor's mortgagee of record (or any other party) shall acquire title to the Leased premises or shall succeed to the Lessor's interest in this Lease, whether through foreclosure of the Lessor's mortgage, conveyance in lieu of foreclosure, or otherwise (collectively, a "foreclosure"), the Lessor's mortgagee (or other such party) shall thereupon, and without the necessity of attornment or other act or agreement, be substituted as the Lessee's landlord under this Lease, and shall be subject to the obligations thereof. The rights acquired by the Lessor's mortgagee are subordinate to this Lease and all of the Lessee's rights under the Lease continue undisturbed.

ARTICLE XI - CANCELLATION

11.1 - This Lease may be cancelled by the Lessee during any period of possession if:

a) The Lessor is notified in writing at least **ninety** (**90**) days prior to the effective date of cancellation.

11.2 - **Deleted, Not Applicable**

11.3 - This Lease may be cancelled by the Lessee provided the Lessor is notified in writing at least thirty (30) days prior to the effective date of cancellation and any one of the following occur:

a) The Lessor or any subcontractor, manufacturer or supplier of the Lessor appears in the register compiled by the Michigan Department of Labor pursuant to 1980 PA 278, as amended, MCL 423.321 et seq. (Employers Engaging in Unfair Labor Practices Act).

b) The Lessor or any subcontractor, manufacturer or supplier of the Lessor is found guilty of discrimination, pursuant to 1976 PA 453, as amended, MCL 37.2101 et seq. (Elliott-Larsen Civil Rights Act); or 1976 PA 220, as amended, MCL 37.1101 et seq. (Persons with Disabilities Civil Rights Act). This covenant is cross referenced in Article III.

c) The Leased premises do not comply with the barrier free design requirements of 1966 PA 1, as amended, MCL 125.1351 et seq. (Utilization of Public Facilities by Physically Limited). This covenant is cross referenced in Article III.

d) The Leased premises are taken for a public purpose by eminent domain/condemnation proceedings by a governmental unit. This covenant is cross referenced in Article VII.

e) The Lessee's use of the Leased premises is in violation of local adopted ordinance, or recorded deed restrictions.

f) The Lessee acquires fee title to the Leased premises in paragraphs 2.1 and 2.2. This covenant is cross referenced in Article VI.

g) The Lessor fails to maintain the Leased premises in a tenantable condition, described in and subject to the notice provision in paragraph 3.1(s). The Lessee shall provide detailed written notice to the Lessor, of not less than thirty (30) days, to correct defaults.

h) The Lessor fails to repair or restore the Leased premises for damage specified in paragraph 3.10. This covenant is cross referenced in Articles III, IV, and V.

i) The Lessor fails to deliver the Leased premises, according to the plans, specifications, and timeframe for remodeling or construction, found in paragraph 3.6.

j) Damage or destruction, specified in paragraph 3.10, is so extensive as to constitute a total destruction of the Leased premises. This covenant is cross referenced in Articles III, IV and V.

11.4 - This Lease may be cancelled by the Lessor if the Lessee is notified in writing at least sixty (60) days prior to the effective date of cancellation and any one of the following occur:

a) Damage or destruction to the Leased premises exceeds fifty percent (50%) of the replacement value of the Leased premises, as referenced in paragraph 3.10. This covenant is cross referenced in Articles III, IV and V.

b) The Leased premises are taken by eminent domain/condemnation proceedings, as referenced in Article VII.

ARTICLE XII - NOTICE, APPLICATION, AND APPROVALS

12.1 - Any notice to Lessee required by this Lease shall be complete if submitted in writing and transmitted by personal delivery (with signed delivery receipt), or certified or registered mail return receipt requested, or by a nationally recognized overnight delivery service. Unless either party notifies the other in writing of a different mailing address, notice to the Lessor and/or Lessee shall be transmitted to:

Landlord	**Tenant**
	Director, Real Estate Division

	Department of Technology, Management & Budget
	For private carrier delivery:
	General Office Building
	750 Harris Drive, Suite 3B
	Dimondale, MI 48821
	For U.S. Postal Service delivery:
	P.O. Box 30026
	Lansing, MI 48909
	Copy to

The notice shall be deemed effective as of Noon, Eastern Time on either the third business day following the date of mailing, if transmitted by mail, or the date on which the noticed party receives or refuses receipt of the notice, if transmitted by personal delivery or a nationally recognized overnight delivery service. Business day is defined as any day other than a Saturday, Sunday, legal holiday, or day preceding a legal holiday. A receipt from a U.S. Postal Service, or successor agency, performing such function shall be conclusive evidence of the date of mailing.

12.2 - This Lease shall be interpreted in accordance with the laws of the State of Michigan.

12.3 - This Lease shall be binding upon and to the benefit of the heirs, executors, administrators, and assigns of the Lessor; and upon and to the benefit of the assignees and sublessees of the Lessee.

12.4 - This Lease shall not be binding or effective on either party until approved (and notarized as necessary) by the Lessor, Lessee, Department of the Attorney General, Department of Technology, Management & Budget, Building Committee of the State Administrative Board, and the State Administrative Board. If this Lease or any subsequent amendments to it fall within the requirements of 1984 PA 431, as amended, MCL 18.1101 et seq. (Management and Budget Act), this Lease and any subsequent amendments to it shall also require approval of the Joint Capital Outlay Subcommittee of the Legislature.

12.5 – **Deleted, Not Applicable**

12.6 - Should any provision of this Lease or any addenda thereto be found to be illegal or otherwise unenforceable by a court of law, such provision shall be severed from the remainder of the Lease, and such action shall not affect the enforceability of the remaining provisions of the Lease.

12.7 - This Lease, with all enclosures and attachments as listed below, constitutes the entire agreement between the parties with regard to this transaction and may be amended only in writing and executed in the same manner as this Lease was originally executed, as under paragraph 12.4.

12.8 - Electronic Funds Transfer (EFT): Public Act 533 of 2004 requires that payments under this Lease be processed by electronic funds transfer (EFT). Lessor is required to register to receive payments by EFT at the Contract & Payment Express website (www.cpexpress.state.mi.us).

Date

Lessor Name/Mailing Address

Attn: Name of Lessor

Subject: Department of Xxxxxxxxxxx, Located at 1445 Xxxxxxxxxxx Avenue, Anytown, Michigan (#1234)

A review of the lease between Xxxxxxxxxxxxxxxxxxx and the State of Michigan for the above facility has been requested. Information obtained from this review might be used in negotiations for a possible change in ownership or financing of the facility.

The undersigned [is/is not] in possession as a tenant of certain rental space situated at [address of premises], Michigan, consisting of x,xxx square feet of [office/ warehouse/ residential/ (other)] space with a monthly rental of $xx,xxx.xx. In connection therewith, the undersigned represents as follows:

The Leased premises [are/ will be] occupied pursuant to a certain written Lease dated [month/ day/ year] between the State of Michigan, as Lessee and [Lessor's name], a [corporation/ partnership/ trust/ estate etc.] as Lessor. Such Lease is presently in full force and effect [and has been amended "x" times].

The term of possession provided in the Lease [commenced/ commences] on [month/ day/ year] and expires on [month/ day/ year]. Renewal options are provided which can be exercised to extend possession to [month/ day/ year]. [Actual possession took place on [month/ day/ year] at which time rental payments started]. [An agreement [was/ was not] written to change the Lease dates to coincide with the date of possession].

This Lease [may] contain(s) a [lump-sum/ rental rate] adjustment clause for [liability insurance/ real property taxes/ other].

The undersigned [has/ has not] accepted possession of the Leased premises. Obligations or improvements required by the terms of said Lease, to be furnished or made by the Lessor to the premises, have been completed to date to the satisfaction of the undersigned with the exception of the following items:

1. [items listed here], 2. etc., and 3., etc.

The most recent rent paid to the Lessor or Lessor's agent was for the month of Xxxxxx; no rent has been paid more than thirty days in advance of its due date. There is no security deposit. The last payment of its proportionate share of real property taxes and insurance was made by the undersigned to the Lessor on [month/ day/ year] as a part of the regular monthly rental payment; no such payment has been made more than thirty days in advance of its due date.

The State [pays utilities directly with the exception of water and sewer service; proportional payment for water and sewer service made directly to the Lessor upon presentation of a billing document from the city. Common area expenses are paid as a part of the monthly rental].

The undersigned knows of no default or breach of the Lease by either the Lessor or State except obligations or improvements listed above - if any. The Lessor holds no deposit or other property of the State. There are no offsets, claims, or rent deductions except those which might be made by the State by its Department of Xxxxxxxxxx. The Lessor should contact [name of State agency contact person] for information about rent deductions. The Lease (as amended) represents the entire agreement between the parties as to the Leased premises.

Sincerely,
Robert M. Burns
Director, Real Estate Division

Enclosure "E" to Lease # by and between , as Lessor and the State of Michigan for the Department of

SAMPLE NONDISTURBANCE AGREEMENT

This Agreement between , hereinafter called "Mortgagee," the State of Michigan by the Department of Technology, Management & Budget for the Department of , hereinafter called "Lessee," and , hereinafter called "Lessor," which terms "Lessor," "Lessee," and "Mortgagee" shall include the successors and assigns of the respective parties.

THE FOLLOWING is a recital of facts underlying this Agreement:

By State Lease #*****, [as amended], which is by reference made a part of this Agreement (hereinafter the Lease), Lessor in consideration of the rents reserved therein, and of the terms, covenants, conditions, and agreements set forth in the Lease, has demised and let to Lessee, and Lessee has leased from Lessor, certain premises described in Lease paragraphs 2.1 and 2.2, located in _____, for an original term extending until (date), and for any exercised extensions.

Mortgagee is the holder of a mortgage made by (name of Lessor), dated _____ which mortgage covers the real property described in Lease paragraphs 2.1 and 2.2 and buildings thereon, and other property, rights, franchises and privileges more particularly described in the Mortgage (which collectively are herein called the "Mortgaged Property").

Lessor is the owner and holder of title to the Mortgaged Property.

Mortgagee shall recognize Lessee's rights under the Lease in the event of a foreclosure of Mortgagee's lien.

The parties agree as follow:

So long as Lessee is not in default (beyond any period given Lessee to cure such default) in the payment of rent or additional rent, or the performance of any other terms, covenants, or conditions of the Lease, Lessee's possession under the Lease and Lessee's rights and privileges thereunder, or under any extensions or renewals thereof that may be affected in accordance with any option contained in the Lease, shall not be diminished or interfered with by Mortgagee. (The term "Mortgagee" shall include any purchaser at a foreclosure sale). Lessee's occupancy shall not be disturbed by Mortgagee during the term of this Lease or any extensions or renewals thereof.

As indicated in Lease Article X, when Mortgagee is substituted as the Lessee's Lessor, Mortgagee is subject to the obligation of the Lease including any amendments to the Lease. It is the intention of the parties hereto to incorporate the Lease into this Agreement by reference with the same force and effect as if set forth fully verbatim herein.

IN WITNESS WHEREOF, the parties hereto have executed this Agreement the day and year first above written.

Importance: High

I received your vm today. Is there a C-1 or any lease enclosure listing the kitchen equipment installed by the LR?

Who currently owns the walk-in coolers and freezers, dishwashers, steam tables, kitchen hoods, small appliances, water and ice dispensers, milk coolers, portable/movable freezers, refrigerators, tilt skillet, steam kettle, "streamer" (sp?), stack ovens and large ice maker, all in the main kitchen, I understand?

Are any of these items furnishings "supplied and owned by the State" which must be removed upon cancellation or termination of the lease in accordance with paragraph 4.5?

CONFIDENTIAL MEMORANDUM

To: State of Michigan

From: Ridgway White RW
David Lurvey

Hail Mary In

Date: June 2, 2010

Subject: Proposed Purchase of Michigan School for the Deaf and New School Building Construction

The purpose of this memorandum is to provide a synopsis of how Hail Mary Investments(HMI) can assist the State of Michigan (State) in both preserving the excellence and history of the Michigan School for the Deaf (MSD) campus and ensure that the campus will lead the nation in educating deaf and hearing-impaired students for many years to come. This proposal has three main components: the purchase of the entire MSD campus by HMI; construction of a new state-of-the-art 60,000sf school building, which will be attached to the existing Stevens Hall dormitory; and the renovation and expansion of the historic Fay Hall into a new home for Powers Catholic High School (Powers). All construction is slated to be complete in time for the start of classes in the fall of 2011.

The general concept behind the transaction is to enhance the MSD campus while saving the State money and relieving it of all liabilities which include the following:

- numerous deficient/dilapidated structures that require demolition
- significant asbestos and lead remediation
- the removal of several underground storage tanks
- all of the day-to-day costs of operating a campus that was designed for 600 students and is now occupied by only 140 students

Project Details:

Land Purchase

HMI will purchase the entire MSD campus including buildings and the grounds for $1.3 million. The State will convey the title to HMI free and clear of any liens or other inherent liabilities. In turn, HMI will remediate all of the asbestos and lead from the site and demolish several deteriorated and obsolete structures. HMI understands that the State may have one or more bond facilities that it should pay off prior to closing on the transaction.

New Fay Academy (School Building)

HMI will lease to the State a brand new state-of-the-art school building that will be custom tailored to today's educational needs. The new building combined with Stevens Hall (dormitory) will be approximately 105,000sf. The new building will be designed to accommodate up to 200 students (current enrollment is 140 students) and will include the following:

- media center/library;
- cafetorium;
- wood shop classroom;
- art room;
- therapy pool;
- full-size gymnasium capable of seating over 400 spectators;
- computer lab with highly specialized functions, including complete building technology with flat-panel displays that will serve as teaching aids and building announcement boards;
- new furniture;
- modern audiology lab.

The new building will replace a system designed for 600 students that included a 140,000sf academic building, a 30,000sf cafeteria building, a 40,000sf dormitory building, an old infirmary serving as an ad hoc, special-needs facility, and several vacant structures.

Along with the construction of the new building, Stevens Hall will undergo some minor renovations, including the installation of a new HVAC/boiler system, roof and reorganization to accommodate kids with extra special needs. The combined building square footage will be approximately 100,000sf.

The new structure will have an attached cafeteria, which will significantly enhance both the safety and functionality of the site and school day by alleviating the need to spend 20 minutes dressing and undressing elementary students for the winter months just to go to lunch and dinner.

Powers Catholic High School

Powers is a local, private high school with a long tradition of excellence in education in Flint. It currently has an enrollment of 600 students and is looking to grow to 800 students in the next five years. Its decision to relocate is based on the southerly migration of many of their students' families. Based on current demand, Powers believes that locating at the current MSD campus would provide it with a southerly move and allow it to keep some of its longstanding roots in the Flint community. As a part of the plan, HMI will renovate the existing historic Fay Hall into a new academic building and add a new media center, gymnasium, cafeteria, and auditorium.

MSD Useful Statistics:

Current Student Population

Elementary Students	39
Middle School Students	32
High School Students	50
Special Needs Students	19
Total Current Students	140

Current Annual Expenditures FY 2009

MSD maintenance and other non-curriculum-based expenditures/year	$ 1,734,450.90
Fay Hall maintenance and repair expenditures	309,163.90
Total	$ 2,043,614.80

FY 2011 Requests for capital expenditures in addition to General repairs and maintenance as outlined above: Cost to improve the site $2,052,000

MSD under its current operating scenario is expected to encumber over $2.3 Million dollars per year for the next 30 years in capital outlays. This is in addition to the general repairs and maintenance numbers outline above.

Campus Facilities Summary

Name	Function	Year Constructed	Square Footage
Fay Hall	Partially Occupied	1913	68,900
Service Building*	Services	1941	32,200
Superintendant Residence	Museum (not used)	1894	6,000
Stewart Gymnasium*	Vacant	1926	10,000
Brown Hall*	Vacant	1931	13,800
Gilbert Hall	Vacant	1932	11,100
Orchard Cottage*	Vacant	1897	3,900
Stevens Hall	Dormitory	1947	43,400
Fay Academy*	School	1956-72	140,000
Heating Plant*	Boiler	1952	6,500
Health Center*	Housing	1966	6,500
Residence*	Intern Housing	1912	2,300
Residence*	Intern Housing	1912	2,200
Residence*	Intern Housing	1912	2,800
School for the Blind** Vacant		1992	6,000

**Slated for demolition due to either functional obsolescence or disrepair.*

** *Estimate on size and year of construction.*

Current System Deficiencies

- Wheelchair-bound students have to go through the basement or outside to access the pool.
- All students have to go outside to get to the cafeteria.
- The dormitory is not attached; making end-of-the-week packing complicated (all students have to carry their belongings with them to class at the end of every week.
- The buildings are simply too big to operate efficiently.
- Technology in the school is not current.
- The boiler house is 50+ years old and will have to be redone in the near future.
- Many of the buildings on the campus are derelict and need to be demolished.
- All of the buildings on campus require extensive asbestos abatement and some require lead abatement.
- There are known environmental hazards on the site, including two underground storage tanks.

Project Timeline:

The entire project will take approximately 15 months to complete with 5 months of predevelopment and planning—some of which has already occurred—and 10 months of construction. The project should be ready for occupancy by the September 2011, assuming the transfer of ownership occurs by September 2010.

In order to ensure a seamless transfer for all MSD students, the existing MSD buildings shall remain intact through June 2011, with the exception of the existing cafeteria building. MSD would need to make arrangements with its existing vendor to prepare food offsite and deliver it to either the main school building or Stevens Hall on a daily basis.

After ownership transfer and during the construction period, HMI shall lease the current Fay Academy Building, Stevens Hall, and the infirmary to the State for $1 per month NNN. During this time period, MSD shall continue upkeep on such buildings in a manner to which they have been accustomed. It is also the intent of HMI to commence construction on the historic Fay Hall during this time period.

General Lease Terms:

Landlord: Hail Mary Investments or an affiliated entity

Tenant: State of Michigan

Premises:

A new state-of-the-art, 60,000sf school building specifically designed to meet the needs of the Michigan School for the Deaf. The building shall be attached to the existing Stevens Hall building (44,000sf), which will undergo some minor renovations including the installation of a new HVAC/boiler system. The site shall consist of approximately 85 acres (the entire campus shall be shared with Powers). Twenty-five acres shall be for the exclusive use of MSD. These areas shall include an outdoor playground, faculty and visitor parking, bus drop-off area, and soccer practice field. Shared facilities shall include the existing track and field area, a new biology preserve, and an outdoor lab area located in Happy Hollow.

Total Leasable Square Footage:

Approximately 105,000sf

General Building Program:

Classroom Building – Design Capacity: 200 Students

- 24 classrooms including 3 special needs classrooms, 480sf; average 7 students per room per state law.
- 1,600sf science lab
- 1,600sf wood shop
- 1,450sf art room w/kiln for pottery
- 1,700sf media center/library
- 1,600sf home economics room
- 1,000sf natatorium with therapy pool
- computer lab
- central administrative suite, per drawings
- cafeteria with full kitchen
- cafetorium with slide-out seating for 300
- gymnasium capable of seating 400 spectators
- full locker rooms

Lease Term:

The lease shall be for 20 years firm with no cancellation clauses.

Lease Rate:

The lease shall be $20.00 (Twenty Dollars) per square foot gross. For which the landlord shall be responsible for the following items:

- all real estate taxes.
- all utilities including water, electric, and gas, with the exception of all media-related services which may include, but are not limited to, telephone services, data/internet, cable, and any other special data or technological requirements that the tenant may have.
- all building maintenance and repairs
- will staff the building with at least one maintenance personnel
- maintenance shall include any and all items necessary to operate the building; such items will include window washing, snow removal, plumbing, and grounds maintenance.

Use Period: It is understood that the tenant is using the facility for a school. As such, the determined use period is Monday through Friday for the months of September through June. In the event that the tenant desires to use the building during other time periods, tenant shall notify the landlord in advance. Such use shall not be unreasonably withheld. In the event that heavy use occurs during the months of July and August, the tenant may be required to pay a utility adjustment for which a formula of calculation shall be the base month as established in the first year of operations minus any increase.

Transition Period: During the transition period (property transfer date to move into the new facility), the State shall lease Fay Academy, Stevens Hall, and the infirmary from the landlord for $1/month NNN. During such time, all costs, maintenance, and personnel shall remain the responsibility of the State.

Options: The lease shall convert to an evergreen lease after the initial 20 year lease period. The escalator shall remain in affect for all renewal periods.

Escalator: The rent rate shall escalate on an annual basis at a rate of 3 percent per year.

Lease Documents/ Purchase Agreement: In the event that the landlord and tenant reach an agreement on the primary terms, then the landlord will direct its attorney to draft a Lease and Purchase Agreement with the agreed-upon terms integrated into it.

Signage: Tenant shall have prominent building signage throughout the duration of the lease term.

Delivery Date: August 15, 2011.

Incentives: Brownfield Tax Increment Financing and Michigan Business Tax Credits, along with some other sources for other components of the project, may be used to help finance the project. The State will, if necessary, assist the landlord in securing such incentives if the landlord deems it necessary.

Assignments: There shall be no assignments of the lease without written authorization of the landlord. In the event that such assignment is granted, the tenant (State) shall remain responsible for the terms of the lease, including any and all rent payments, should assignee default on its obligations.

Surrender of Premises: In the event that the tenant terminates the lease, the tenant will be required to surrender the premises with all chattels and fixtures in place. Chattels and fixtures include, but are not limited to, all kitchen equipment, lighting, furnishings, and decorations.

Conditions Precedent: The conditions precedent to the landlord entering into the lease are as follows:

- Tenant's willingness to submit any information required by the landlord and landlord's financial institutions regarding tenant's ability to meet financial obligations of the lease;
- Tenant's approval of the following drawings and schedules:
  - proposed architectural drawings,
  - proposed furniture schedule;
- Landlord's ability to secure financing and special incentives such as tax credits.

Proposed Savings:

Current Annual Expenditures FY 2009

MSD maintenance and other non-curriculum-based expenditures/year	$ 1,734,450.90
Fay Hall maintenance and repair expenditures	309,163.90
Total	$ 2,043,614.80
FY 2011 Requests for capital expenditures in addition to General repairs and maintenance as outlined above:	$2,052,000
Total projected costs FY 2011	**$4,095,614.80**
Proposed Lease Payments	**($2,100,000.00)**
Total Savings	**$1,995,614**

Developer Background:

Ridgway H. White has developed over 600,000sf of mixed-use buildings, including the recent renovation of the former 372-room Hyatt Regency Hotel in Flint, Michigan, into a cutting-edge 550-bed student housing facility and conference center serving the University of Michigan-Flint, Mott Community College, Kettering University, and Baker College of Flint. He has background in economics and architecture and serves on the boards of the United States Sugar Corporation, the Isabel Foundation, and the Flint Cultural Center Corporation. His expertise in tax credit financing and historic renovation has led him to complete some of the most complicated financing structures in the state of Michigan in recent years.

David W. Lurvey has personally directed over 300 million dollars of construction and development. Leading a collaborative effort on the design and construction fronts, his expertise ranges from historical restoration, educational, institutional, mixed use and healthcare construction. Recent projects to this locale are the renovations to the Hyatt Regency Hotel, the Whaley Historical Home, McLaren Regional Medical Center, Genesee Regional Chamber of Commerce, Wade Trim Building and Blackstones Restaurant. He serves on various boards of

McLaren Health Care Corporation and the Community Foundation of Greater Flint. David is Vice President / Partner of Siwek Construction and Owner / Operator of Blackstones Pub, both located in Flint, Michigan.

Summary

HMI believes that a new building for MSD is essential for the continued success of its operations and students. The current facilities are simply too massive, too many, and too outdated to deliver a competitive environment for today's educational needs. Coupled with the State's ability to shield itself from major environmental liabilities and ongoing operational costs that will only increase this need makes the current deal a win for the state. This, combined with Powers' need to find a new campus, will help both entities and provide a solid anchor of two great institutions in the Flint community for years to come.

We are excited to submit this proposal and welcome the opportunity for feedback and suggestions.

MEMORANDUM

MICHIGAN DEPARTMENT OF EDUCATION
Michigan Schools for the Deaf and Blind

CENTRAL SUPPORT

TO: Rick Floria

FROM: Patricia Ward

DATE: November 6, 2009

SUBJECT: **MSDB Capital Outlay Request FY11**

Attached is our capital outlay request for FY11. While we have no Major Capital Outlay Project requests for the upcoming budget year, we do have a list of critical Special Maintenance Projects that are needed to help MSDB complete its core mission. Years of deferred maintenance have made it necessary that these pending needs be addressed as soon as possible. If you have any questions regarding this project list, please contact our Facilities Manager, Byron Jolly, at 810-257-1441. Thank you for your consideration of these projects.

Michigan Department of Education
Michigan Schools for the Deaf and Blind
FY 2011 CAPITAL OUTLAY - LUMP SUM
SPECIAL MAINTENANCE REQUEST
[Total Project(s) Request $2,052,000]

A. Prioritization/Description of Request(s)

Please utilize this format to list in order of priority your Department's Special Maintenance Request(s) including: A brief description of the current condition of facility; location; type of repair work needed; dollar amount associated with each priority; relationship to department/agency business plan; and the consequence of not performing the requested level of repair work. Please also identify whether a health or safety issue is being addressed and if other funds are available to offset costs.)

Please DO NOT include projects for which financing is already authorized - either directly (line item) or indirectly (allocated bond projects) - in an appropriations act.

1. FENCE-Repair existing fence and add fencing to completely enclose campus area. Additional funding is needed to properly enclose the campus. This is a health and safety issue. Rising incidents of theft and vagrancy are occurring on campus. We have increased our request due to the loss of Homeland Security funds that had a time specific deadline to be used.
   Cost: $352,000.
2. ROOF REPAIR TO FAY ACADEMY, STEVENS HALL, AND SERVICE BUILDING-Repairs are needed on roofs for FAY Academy and Stevens Hall. Currently we are fixing problems as they come up, but it would be more cost efficient to repair the problem areas. Failure to do so will cause health and safety issues for the school as the current state invites bee's nests and water damage to the main building structure.
   Cost: FAY Academy: $225,000, Stevens Hall: $125,000
3. CARPET REPLACEMENT FOR FAY ACADEMY: Replace existing carpet throughout the school. Carpet has been in place since 1972 and besides being worn and torn in many places, mildew exists in other areas. Without replacing, we are creating an unhealthy environment for students.
   Cost: $100,000
4. PAINT INTERIOR, CLASSROOMS AND OFFICES OF FAY ACADEMY: The building was originally painted in 1972. There are several areas where mildew has started to show up. There are several areas where there is chipping and peeling of the paint. A complete paint job is needed to ensure a healthy environment for the students.

Cost: $150,000

5. REPLACE CURRENT GENERATOR-MSD currently has one backup generator on campus to use in case of a power outage. This generator is old and is limited to only the power plant and service building. In the event of a power outage, the dorm and school would remain without power. This is a health and safety concern for the students on campus.
   Cost: Replace current: $175,000
6. ADD GENERATOR TO STEVENS HALL- MSD currently has one backup generator on campus to use in case of a power outage. This generator is old and is limited to only the power plant and service building. In the event of a power outage, the dorm and school would remain without power. This is a health and safety concern for the students on campus.
   Cost: $125,000
7. REPAIR AND EXPANSION OF BLACKTOP PARKING LOTS – FLINT CAMPUS: Many of the parking lots are in poor condition, with potholes, surface cracking and deterioration.
   Cost: $200,000.
8. RENOVATION OF GILBERT HALL-Repairs and renovations needed to Gilbert Hall to bring the building up to code per DMB inspection for use of students. This is a health and safety issue. The building cannot be occupied by students until these repairs are made.
   Cost: $600,000.

FIVE YEAR COMPREHENSIVE CAPITAL OUTLAY COMPONENTS

FY2010

Michigan School for the Deaf and Blind Flint Campus

I. Mission Statement

The Michigan Schools for the Deaf and Blind (MSDB) is a single unit that contains two programs designed to meet the unique needs of children who are blind or visually impaired (School for the Blind) and children who are deaf or hard of hearing (School for the Deaf). The two educational programs are supported by a central business administration unit that provides business office, food service, maintenance, and janitorial support. The overall goal for the Michigan Schools for the Deaf and Blind is to provide a variety of education programs and services to meet the unique needs of the identified populations.

II. Programming Changes

The Michigan Schools for the Deaf (MSD) and Michigan School for the Blind / Low Incidence Outreach (MSB/LIO) are in continuous improvement processes in an ongoing effort to align programs with emerging promising practices. To achieve our mission of providing programs and services to meet the unique needs of children with visual impairments and hearing impairments, there is a continual process in place to review the statewide needs in the education of these two populations and develop new programs as needed. Two recently identified needs are the development of an alternative education program at MSD and increased capacity for Braille transcribing and production for MSDB/LIO.

III. Facility Assessment

In November 1991, the DMB Office of Facilities performed a comprehensive facility assessment. All of the buildings on campus were evaluated to determine their physical condition from an architectural, mechanical, and electrical viewpoint. With modifications due to need, the Michigan Schools for the Deaf and Blind has been following the plan as developed by the DMB Office of Facilities as it prepares its capital outlay requests.

IV. Implementation Plan

The following is our itemized list of special maintenance projects. They are listed in order of priority.

August 2007

MSDB Gilbert Hall
Estimation Report

By: DMB – Facilities Administration,
Design and Construction Division

The Gilbert Hall Building is a masonry two story building with a partial basement, which was constructed in 1938 on the campus of Michigan School for the Deaf and Blind. The facility has been updated a number of times over the years with the latest renovation taking place in the mid 1990's. The facility is currently only being partially used as a rental / lease facility to State of Michigan departments. Currently less than one quarter of the facility is being rented / leased. The purpose of this assessment is to establish an estimated cost to reoccupy the building for use as a school that will meet current building codes. This estimate is not based on a specific building renovation plan, but rather is an estimate of general costs of updating several code items that do not meet the latest regulatory standards.

Included in the estimate are the costs of contracting a Professional Architect to develop renovation plans. Also included in the costs are contractor markups and construction management fees.

Architectural / Engineering Costs / Fees, General Renovations, ADA / Barrier Free Renovation
Mechanical / Electrical Renovations, Construction Management Fees

Total Estimated Renovation Costs	$600,000.00
This equals a cost per square foot of	$42.67
(Excluding the basement area square footage)	

Also see the attached spreadsheet
Submitted by: Dennis Stamm

Aug-07

MSDB Gilbert Hall
Renovation Estimate

Item	Estimate
Architectural / Carpentry	$ 164,559.77
Structural	$ 3,000.00
Barrier Free / ADA	$ 66,000.00
HVAC modifications	$ 16,000.00
Elevator upgrades	$ 3,468.00
Electrical Upgrades	$ 12,000.00
Fire / Smoke Detection	$ 64,000.00
Parking expansion	$ 16,000.00
Contractor Mark up / Fees	$ 75,805.55
A / E Services	$ 54,580.00
DMB	$ 31,838.33
School Operation Items	$ 20,000.00
Contaminate clean up & management plan	$ 14,000.00
Contingency	$ 37,902.79
Testing Services	$ 7,580.56
Taxes	$ 13,265.00
Total Estimated Costs	$ 600,000.00

Per square foot cost of project $ 42.67

From: Stamm, Dennis
Sent: Friday, August 31, 2007 4:12 PM
To: Davlantes, Alex (MDE)
Subject: Re: Gilbert Hall Renovation Estimate

Architectural Items - Roof, waterproofing, misc doors / hardware, New floor finishes, new paint for walls, some new drop ceiling and wall patching, some new short section of walls, etc...

Structural - Misc steel supports and fire escape modifications

Barrier Free - install door opener for front door, handicap ramps and sidewalks, some rework of exit pathways.

HVAC units - Units on roof top are getting old and need upgrades, some duct revisions.

Elevator- minor code upgrade but mostly correction of wet sump pit area.

Electrical - lighting changes and modification required to support fire alarm / smoke detection added work and some work to add communication systems.

Fire / Smoke detection - mostly added smoke detection equipment and some horn / strobe renovations. Relocation of fire alarm panel.

Parking expansion - additional parking in the area of the building.

School Operations - chalk & marker boards, deaf education equipment.

Contamination clean up & Management plan - reinspection and an update of the asbestos plan as well as some additional asbestos clean up.

Testing Services - Construction testing of new concrete, and paving materials.

Please let me know if this is enough explanation.

>>> Alex Davlantes 8/31/2007 3:46 PM >>>
this looks good...thank you...would it be possible to expand just a bit on each of the items on the spreadsheet...exactly what items would be arch/carpentry...etc...

Thank you..

>>> Dennis Stamm 8/31/2007 3:17 PM >>>
Attached please find an estimate for the Gilbert Hall renovations.

If you have any questions please call.

Request for Proposal (RFP)
Michigan Department of Technology, Management and Budget (DTMB)
for
DEPARTMENT OF STATE (DOS) – FLINT, MI
SR #2015-0173

RFP Summary, Submission Requirements and Checklist

SUMMARY

Agency:	Department of State (DOS)
Location:	City of Flint
Square Footage/Use:	4000 sq. ft. /Office
Floor(s):	Ground
Parking Requirement:	50 spaces
Occupancy Date:	December 1, 2015
Broker:	The Miller Group of Saginaw Inc.
Lease Agreement:	Standard form of state lease agreement is attached to this RFP.
Note:	The attached RFP and lease agreement contains energy efficiency requirements.
Other:	Proposals must be submitted no later than 5:00 p.m. on July 17, 2015

SUBMISSION DOCUMENT CHECKLIST

- ☐ Written summary of proposal
- ☐ Complete Space Available Proposal (SAP) form
- ☐ Proof of ownership of property
- ☐ Proof of legal authority to enter into agreement (see attached "legal documentation and signature requirements checklist")
- ☐ Proposed floor plan
- ☐ Proposed site plan
- ☐ Proposed time line from executed date of agreement
- ☐ Proposed rendering
- ☐ Signed bidder's acknowledgement

SUBMISSION DUE DATE / PROCEDURES

Two (2) copies of each proposal, clearly indicating the appropriate proposal number SR #2015-0173, must be received by 5:00 p.m. E.S.T. on July 17, 2015 to: Robert M. Burns, Director, Real Estate Division, Michigan Department of Technology, Management and Budget, c/o Maureen S. Bailey, General Office Building, 7150 Harris Drive, Suite 3B, Dimondale, MI 48821 (or PO BOX 30026, Lansing, MI 48909).

Please be advised that proposals MUST be received by the date and time stated herein or they will not be accepted. There will be NO exceptions.

An electronic version of the proposal is also requested and should be submitted to dtmb-realestate@michigan.gov within 24 hours of the due date defined herein and please indicate the appropriate proposal number SR# 2015-0173 in the subject line.

Request for Proposal (RFP)
Michigan Department of Technology, Management and Budget (DTMB)
for
DEPARTMENT OF STATE (DOS) – FLINT, MI.
SR #2015-0173
June 12, 2015

Introduction and Overview
The State of Michigan, by the Department of Technology, Management and Budget (DTMB/State or Lessee), for the Department of State (DOS) is evaluating their space alternatives in Flint, Michigan. The Miller Group of Saginaw Inc. is acting as agent for the State of Michigan. Please respond to the Request for Proposal (RFP) if you (Lessor or Bidder) have a potential location in the geographic boundaries set forth in this RFP. If you have more than one potential location, submit separate proposals for each location.

Please review and read this package thoroughly. Your proposal should be based on the sample documents and the requirements as detailed in this package.

Please be advised that State tax credits and incentives are administered by the Michigan Economic Development Corporation (MEDC), who is the appropriate contact for resources and program information. The DTMB will not accept proposals contingent upon receiving credits, incentives or other project cost inducements.

The State reserves the right to waive any irregularities or defects in any submission; to request clarifications or additional information regarding proposals; to conduct a Best and Final Offer (BAFO); and to reject any and all proposals at its sole discretion. The submission of this RFP does not constitute an agreement to lease with the State. The State shall assume no liability whatsoever for any expense incurred by a Bidder in replying to this RFP. The State shall also assume no liability for any development risk of a successful bidder. A lease agreement, if completed, shall be with the proposal deemed to have offered the best value to the State of Michigan.

Pursuant to 1984 PA 431, as amended, ("The DMB Act"), the Department of Technology, Management and Budget is the only agency authorized to enter into lease agreements on behalf of the State of Michigan. No individual, employee or agent of the State of Michigan has authority to bind the State without proper authorization. Bidders are directed to section VI.4 Proposal Submission of this RFP for correct information on the submission of a proposal. Bidders are hereby notified that communications during the RFP process non-compliant with the Proposal Submission guidelines may result in disqualification of a proposal.

Any release to the public of information relating in any respect to the contemplated lease agreement or any other matters set forth (i.e. advertisement, ground breaking, press releases, etc.) must have prior written approval and be made only in the form approved by the DTMB Real Estate Division Director.

I. Space Requirements

I.1. **Location:** The space shall be located within the boundaries of Union Street to the North, Court Street to the South, Harrison Street to the East, and Beach Street to the West. This includes properties on either side of the street delineating the boundaries. Please identify the location of the space by street and mailing address.

I.2. **Space (Premises):** The State requires approximately 4,000 usable square feet of ground floor office space. The State reserves the right to increase or decrease the size of this requirement by up to 10%. Special circumstances may require more extensive program size changes.

Please verify that the Premises square footage is based upon the A.N.S.I. Z65.1 – 1996 method for calculating space.

I.3. **Parking:** The State requires fifty (50) on site, paved, striped, illuminated parking spaces with handicap/special spaces as required. Please describe the parking provided at the site, including the total number of spaces available and provide detail as to how you will meet this parking requirement.

I.4. **Occupancy/Commencement:** The Occupancy/Commencement Date is the latest date on which the improvements to the Premises are substantially complete and the Lessor secures a Certificate of Occupancy, or the Lessee begins beneficial use of the Premises. The Lessor will deliver the Premises to the Lessee no later than December 1, 2015.

II. Lease Term

II.1. **Initial Lease Term:** The Initial Lease Term is for a minimum of Ten (10) years; however, the State will consider a longer lease term if economic benefits are deemed to be in the State's best interest.

Please propose a fixed, or flat, rental rate for a Gross Lease: including all expenses – taxes, insurance, janitorial services, maintenance, etc.

The State may elect to pay for utilities separately so please include a cost per square foot to reduce the rental rate if such occurs.

II.2. **Renewal Option(s):** The State requires two (2) five (5) year options to renew with sixty (60) days advance written notice to the Lessor to exercise such option based on the terms and conditions defined in the Initial Lease. Please outline the rental rate for said option periods.

II.3. **Adjustments/Escalations:** There will be no adjustments made to the rental consideration.

II.4. **Allowances and Contributions:** Please include all allowances and contributions proposed with respect to design costs, construction, moving, and any allowance items (indicate a per square foot moving allowance in the space provided on the Space Available Proposal (SAP) form).

II.5. **Concessions:** Given current market conditions, the State is very interested in acquiring market concessions for this transaction. Any concessions, especially the timing of such, will be a major factor in assessing proposals received. Concessions may include reduced rent, free rent, moving allowances or any other item you are willing to incorporate into the proposal. Clearly a combination of these items may be included also.

II.6. **Cancellation:** Standard cancellation requiring 90 days written notice. All State leases for real property are required to contain a cancellation provision as established within the framework of the Michigan Constitution. The attached SAP form and sample lease contain this provision.

II.7. **Security Deposit:** The State will not provide a security deposit.

II.8. **Brokerage:** The Miller Group of Saginaw Inc. (Broker) is the assigned Broker for the State with respect to this transaction. A commission is due to The Miller Group of Saginaw Inc. (Broker) at a rate to be negotiated with the Lessor at the end of the project, but will not exceed five percent (5%) and can ONLY be applied to the first five years of any lease's Base Rent. The commission agreement will be solely between The Miller Group of Saginaw Inc. (Broker) and the successful Bidder. Contact information is provided in Section VI.4 and the commission agreement is included as part of this RFP package.

Mandatory Pricing Requirements
This contract has a set commission rate, not to exceed 5%.

All brokers performing services will permit their commission rate to be negotiated with the Lessor, but will not exceed five percent (5%) and can ONLY be applied to the first five years of any lease's Base Rent.

Base Rent is defined as the net rate of the lease and excludes adjustments, utilities, amortized tenant improvements, and any charge that is not rolled into the long term flat annual rate of the lease.

The Brokers portion of the project will be considered complete once a lease is executed by the Lessor and approved by the Michigan Office of the Attorney General. Lessors are not obligated to pay a commission until rent is authorized by the State.

Additional Commission Rate Provisions:
A. Final negotiated compensation to Broker shall be disclosed to the State prior to Lease award.

B. Broker is authorized to divide compensation with other brokers in any manner acceptable to Broker and Lessor.

C. In the event that the State elects not to lease Property during the term hereof or otherwise cancels this agreement, the State is under no obligation to pay a Broker fee or any other compensation.

II.9. **Alternative Terms:** The State may consider proposals with alternative lease terms and conditions if such are determined to be in the best financial interest of the State; however, bidders are encouraged to respond to the specific requirements listed in this RFP, as alternative proposals may or may not be considered. All proposed alterations from the standard form of lease agreement attached to this RFP must be clearly identified. The State must receive sufficient information to accurately assess all proposals. The State reserves the sole and exclusive right to consider alternative proposals, to seek proposal clarification, and to reject any and all proposals.

III. Building Standards and Systems

III.1. **Building and Tenant Improvements:** If you are submitting proposal(s) for either a build to suit or an existing building requiring remodeling work, reference the attached State of Michigan Minimum Design Standards for guidelines. The Lessor will be responsible for providing the Premises in a turnkey condition.

If your proposal is a new build requiring site approval, the final approved plan of the Premises must comply with your response to this RFP, including parking requirements.

Please provide a detailed description of the building and other material descriptions; for example, explain the HVAC system, the type of access and security system and procedures, and the telecommunications services available, barrier free design, etc. that will allow the State to understand the quality and appearance of the building.

III.2. **Construction Taxes, Permits and Fees:** The Lessor is responsible for all taxes, permits, fees, etc., required for any construction and/or remodeling. The Lessor is responsible for all necessary inspections by the architect/engineer during the construction and/or remodeling.

III.3. **Network and Telecommunication Services:** The State of Michigan requires state of the art infrastructure and telecommunication products to support voice, data and video systems. Telecommunication items incorporated in this building project shall adhere to ANSI/EIA/TIA and BICSI Standards. The detailed specification for telecommunications may override the ANSI/EIA/TIA and BICSI standards in some areas due to changes in technology. In addition to the ANSI/EIA/TIA and BICSI Standards, all applicable building standards and codes must be incorporated. Lease spaces shall meet or exceed current industry Standards relating to building spaces, pathways and equipment which will be required from the building owner in order to achieve compliance.

III.4. **Environmental Disclosure:** The Lessor covenants that he/she has undertaken a due diligence inquiry of the Premises. The Premises, and property on which the Premises is located, is free of any toxic, hazardous or injurious substances as defined under Federal and State laws and regulations. The attached sample lease contains environmental provisions that must be adhered to when entering into a lease with the State of Michigan. These provisions, as recited in the lease agreement, will not be altered. Proposers are directed to the attached lease agreement to review all environmental requirements.

IV. Forms and Documents

IV.1. **Enclosed Documents:** The enclosed documents (electronic copies only) are provided to assist you in establishing your rental rate:

- Sample Lease
- State of Michigan Minimum Building Design Standards and Additional Standards, if applicable. These standards are to be used in determining the cost of remodeling and/or construction.
- Floor plans, if applicable
- Janitorial and Recycling Standards
- Legal Documentation and Signature Requirements
- Excerpt from PA 295 of 2008
- ANSI Standards
- Bidder's Acknowledgment

IV.2. **Space Available Proposal Form(s):** To be considered, your proposal shall be made on the enclosed Space Available Proposal form(s) and all blank spaces on the form(s) shall be filled in. Please note: Proposal forms not completely filled in may be rejected.

Your signature shall be in longhand, and no part of the proposal form shall be altered (except for your alternate proposals, if any).

IV.3. **Standard Lease Form:** All leases entered into by the State of Michigan are based on the Standard Lease form pre-approved by the Attorney General's office, which is enclosed with this RFP. Any requested exceptions or alterations to this Standard Lease form must accompany your proposal. However, the Attorney General's office must approve as to legal form any proposed revisions. Exceptions to the Standard Lease form may have an impact on the recommendation. The State of Michigan reserves the right to make further modifications to the Lease document to accurately reflect final business terms.

V. Required Approvals for State Leases

V.1. **Requirements for State Leases:** The proposed Lease shall not be binding or effective on either party until approved as to legal form by the Department of Attorney General; signed and notarized by the Lessor and the Lessee; approved by the State Administrative Board, and signed and notarized by the Department of Management and Budget. If the Lease or any subsequent amendments to it fall within the requirements of 1984 PA 431, as amended, MCL 18.1101 et seq. ("The DMB Act"), the Lease and any subsequent amendments to it shall also require approval of the Joint Capital Outlay Subcommittee of the Legislature. The effective date of the proposed Lease is the date the last State governmental approval is obtained as set forth on the signature page. At any time prior to the last State governmental approval, the State reserves the right to reject the proposal and terminate the Lease approval process.

V.2. **Legal Documentation:** Pursuant to The DMB Act (Public Act 431, as amended) all leases must be approved as to legal form by the Attorney General's office, which includes the submission of documentation necessary to evidence legal authority of Bidder to enter into the lease agreement, including the signatory's authority to bind. For your convenience, a guideline indicating necessary legal documentation is included with this RFP. Failure to provide appropriate legal documentation may result in your proposal being rejected.

VI. Selection Criteria and Submission

VI.1. **Selection Criteria:** The selection of the recommended proposal is based on, but is not limited to, the following criteria:

- A clear and concise proposal, particularly in terms of dates, numbers, dollars, and any other information requested in this RFP. Vague and/or general proposals may be rejected.
- The ability to comply with Barrier Free Design
- The ability to meet any build out specifications and timelines, and special needs of the Lessee
- The overall condition of the building, including infrastructure, HVAC, property, etc. (existing space)
- The overall cost, which is deemed in the best interest of the State
- The type of accessibility (e.g. roads, public transportation, etc.)
- The type of utilities available

VI.2. **Required Documents:** Please return the following documents for our review and consideration. Please note: Failure to provide the following may result in your proposal being rejected.

- Written Summary of Proposal
- Completed Space Available Proposal form(s)
- Proof of ownership of Property
- Proof of Legal authority to enter into the proposed agreement
- Proposed Floor Plan (you must show how the State's requirements, using State standards, will fit in your proposed site)
- Proposed Site Plan
- Project timeline from date of executed agreement
- Proposed Rendering
- Signed Bidder's Acknowledgement
- Signed Commission Agreement

VI.3. **Lease Questions and Answers:** Questions concerning clarifications or standards contained in this RFP are to be submitted by e-mail only (please indicate the appropriate proposal number in the subject line) no later than 5:00 p.m. on June 24, 2015 to dtmb-realestate@michigan.gov

All questions and answers will be posted to the website at www.michigan.gov/dtmb-realestate no later than June 30, 2015. Prospective Bidders should check the website for any updates, questions and answers.

The State or The Miller Group of Saginaw Inc. (Broker Name) will not respond to telephone inquiries or visits by Bidders or their representatives, or respond to questions after the due date.

VI.4. **Proposal Due Date:** Two (2) copies of each proposal, clearly indicating the appropriate proposal number SR 2015-0173, must be received by 5:00 p.m. Eastern Standard Time on July 17, 2015 to:

Robert M. Burns, Director, DTMB Real Estate Division
c/o Maureen Bailey, Property Specialist
General Office Building, Suite 3B
7150 Harris Drive
Dimondale, MI 48821
OR
PO BOX 30026
Lansing, MI 48909

Please be advised that proposals MUST be received by the date and time stated herein or they will not be accepted. There will be NO exceptions.

An electronic version of the proposal is also requested and should be submitted to dtmb-realestate@michigan.gov within 24 hours of the due date defined herein and please indicate the appropriate proposal number SR 2015-0173 in the subject line.

All proposals shall be valid for one-hundred and twenty (120) days from the submission due date, unless mutually agreed to in writing by both parties.

VI.5. **Best and Final Offer (BAFO):** A BAFO may be requested at the sole and exclusive discretion of the DTMB or its agent. A BAFO or other alteration to original proposals submitted after the Proposal Due Date will not be accepted unless requested in writing by the DTMB or its agent.

A BAFO may be requested from one or more proposers during the review and evaluation process. If the evaluation process does not lead to a viable recommendation and there are alterations to the original RFP requirements, the requirements will be presented to all Bidders with a due date for submission.

Bidders will not be provided any information about other proposals, or where a Bidder stands in relation to others, at any time during the evaluation process.

VI.6. **State Acceptance and Authority:** After all proposals have been analyzed and the recommendation is made to and accepted by the Department, DTMB will notify all Bidders accordingly. Any proposals not meeting the minimum requirements of the enclosed sample lease and instructions may be rejected.

It is the State's practice to select the lowest most responsive bid in consideration of all factors set forth in this RFP. The lowest bid does not necessarily mean it will be selected.

The DMB Act (1984 Public Act 431, as amended) specifies that the DTMB is the only Department authorized to enter into lease agreements, subject to obtaining all necessary approvals. No individual, employee or agent of the State of Michigan has authority to bind the State without proper authorization.

In accordance with the above, oral and written promises or representations made regarding a lease agreement, existing or proposed, or transmittal of written documents that have not been approved by the State Administrative Board, shall not be binding on the State. You must receive a fully executed document, signed by an authorized representative of the DTMB, for an agreement to be valid.

Thank you for your interest in doing business with the State of Michigan.

EMERGENCY SERVICE CALL RECORD (ESCR)

Subject: Warehouse Space in Flint for Storage.

Mr. Scherman,

In writing this e-mail, we are setting down the terms we have agreed to with MSP-Homeland Security, and DTMB and yourself for a Rental Agreement to follow tomorrow.

You have agreed to begin to receive eight semi loads of product tomorrow January 13, 2016, and every day after until Saturday, this may continue indefinitely next week. We are not sure at this time how long this will continue.

You have agreed to supply 100,000 square feet of warehouse space @$3.00 per square foot (psf). In addition, you will provide fork trucks and personnel to unload up to eight (8) semi loads a day of water and other materials needed to help relieve the water crisis in Flint.
You have agreed to $1.50 per lift to unload a semi (a lift consists of removing the 1-2 pallets at a time, storing the product for an undetermined amount of time, taking it back to a truck/semi and loading it back on) this cost is to provide the fork lifts and the labor to move these semi loads of product (undetermined at this time) but probably consisting of bottled water, and other donated products for the residence of Flint.

These costs pay for fuel and employees managing the product, you will keep a running total of these costs and will send a comprehensive itemized invoice each month for these services.

There will be no management fee.

Please indicate you have agreed to these terms by return mail.

Jeanette,
This is the reply and commitment from Mr. Scherman. I will work on the Rental Agreement tomorrow, we can do all of that electronically as well.

Maureen Bailey,

I agree to these terms with the following exceptions: See items number in red in the body of your email.

1. We will cover this Saturday but we cannot commit to every Saturday. We can discuss Saturday deliveries on a week to week basis

2. Just to clarify - We will keep a running tally of the number of lifts and the square feet of space and send comprehensive invoice each month.

Mr. Porrett: garysr@bellwarehouse.com

In writing this e-mail, we are setting down the terms we have agreed to with MSP-Homeland Security, and DTMB and yourself for a Rental Agreement to follow.

1- You have agreed to begin to receive up to fifteen (15) semi loads of product today-January 13, 2016, and every day after until Saturday, this may continue indefinitely next week. We are not sure at this time how long this will continue. We are not sure at this time of the number of truckloads per day.

2- You have agreed to supply 80,000 square feet of warehouse space @$.40 per square foot (psf). In addition, you will provide fork trucks and personnel to unload up to fifteen (15) or more semi loads a day of water and other materials needed to help relieve the water crisis in Flint.

3- You have agreed to $2.50 per lift to unload a semi (a lift consists of removing the stacked pallets 1, 2, or 3 high at a time, storing the product for an undetermined amount of time, taking it back to a truck/semi and loading it back on) this cost is to provide the fork lifts and the labor to move these semi loads of product (undetermined at this time) but probably consisting of bottled water, and other donated products for the residence of Flint.

4- These costs will pay for fuel and employees managing the product, you will keep a running total of these costs and will send a comprehensive itemized invoice each month for these services.

5- You will indicate any overtime you are charging the State and the hours, days and times you are charging.

6- You have also indicated you can provide up-to $2.MIL aggregate of Liability Insurance naming the State of Michigan DTMB as an additional insured.

7- You will keep a running tally of the number of lifts and the square feet of space and send comprehensive invoice each month.

8- There will be no management fee.

Please indicate you have agreed to these terms by return mail.

Agreement #11868-2016

RENTAL AGREEMENT

Between

FLINT COMMUNITY SCHOOLS

A Governmental Unit

and the

State Of Michigan

THIS RENTAL AGREEMENT (hereinafter referred to as "Agreement") is entered into by and between **Flint Community Schools**, a **Governmental Unit**, as Landlord, whose address is **923 Kearsley Street, Flint, MI 48503**, and the State of Michigan, by the Department of Technology, Management & Budget, whose address is 7150 Harris Drive, Suite 2B, Dimondale, MI 48821, for the **Department of Technology, Management & Budget, (DTMB) Office of Infrastructure Protection**, as Tenant, and establishes the following terms, conditions, performance obligations, and covenants between the parties:

1. **Premises & Rent** –

   1.1 Landlord hereby rents to Tenant **for up to** approximately **5,000** usable square feet of **warehouse** space, in the building commonly known as **3086 East Court Street, Flint, MI 48503** (the "Premises"). The Tenant shall further have non-exclusive use of the parking areas, entrances, docks and storage of the warehouse Premises in common with the Landlord and/or other tenants of the Premises.

   1.2 The Tenant shall pay to Landlord rent for the square footage used (to be determined on a running basis) at the rate of $3.00 per square foot for up to a rate of **Forty One Dollars** and **67/**100 Dollars (**$41.67**) per day (for the full 5,000 square feet if used) for every day the State stores goods on the premises. **IN** addition the State shall pay for personnel and labor to unload eighteen semi loads of product, at $1.50 per lift (a lift consists of removing 1-2 pallets at a time, storing the product for an undetermined amount of time, taking it back and loading onto a truck/semi). The State also agrees to pay overtime costs for the labor to unload and store product on January 13, 2016 to unload eighteen (18) semi/trucks from 3:00 p.m. until 8:p.m. Overtime consideration, rent consideration installment payments and itemized costs for labor and lifts shall be made during the month for which the installment applies. **It is understood by all parties, there is no management fee to be paid for these services.**

2. **Term** - The term of this Agreement begins on **January 13, 2016 on a per diem basis and** ends **when the last item stored by the State is removed**, subject to the cancellation provisions of this Agreement.

3. **Cancellation** - This Agreement may be cancelled by the Tenant upon **removal of all items**

stored and an inspection of the property is carried out by the DTMB Real Estate Division and keys are returned to the Landlord, notification of five (**5**) business days to the Superintendent of Flint Public School office, Flint Michigan, this may be by way of electronic e-mail delivered to the Landlord to the address as set forth under the "Notices" Section of this Agreement, followed with a telephone call or by overnight mail to such other address as either party may designate in writing for the delivery of notices under this Agreement. This agreement will supersede and cancel all prior agreements.

Upon cancellation or termination of this Agreement, the Tenant shall clean the Premises to "broom-clean condition", and shall remove all Tenant furnishings/product from the Premises. Furnishings/product remaining in or on the Premises after the cancellation or termination effective date shall be considered abandoned property, and the Tenant shall be obligated to pay the Landlord for all reasonable removal costs.

4. **Services and Responsibilities of Landlord - Landlord shall furnish the following at its own expense:**
   - **4.1** Heating, mechanical ventilating, cooling.
   - **4.2** Electric service for lights, and all other electrical equipment. Lighting shall be adequate for a warehouse facility. Replacement of light bulbs and tubes as needed.
   - **4.3** 100% payment for metered public utilities used for heating, cooling, illumination, power and water and/or sewer used in the premises.
   - **4.4** Provide and maintain any equipment required by the Fire Inspector for fire prevention and safety.
   - **4.5** Pest Control.
   - **4.6** Snow removal from driveways
   - **4.7** Removal of trash and refuse from the dumpsters on Premises.

5. **Services and Responsibilities of Tenant - Tenant shall furnish the following at its own expense:**
   - **5.1** None

6. **Repair and Maintenance** -
   - **6.1** The Tenant shall notify the Landlord or his agent of the need for any repairs or replacements, which are not the responsibility of the Tenant to make. Landlord is to provide a list of telephone numbers (ESCR form) to call for maintenance services, including a number for window breakage, if needed.
   - **6.2** The Tenant shall reimburse the Landlord for any repairs to the Premises from damage which exceeds normal wear and tear to be expected from lawful and proper use of the Premises and the sole cause of which was the negligent acts or omissions of Tenant's employees or clients.
   - **6.3** The Tenant shall be responsible for the following repair and maintenance operations: **NONE.**
   - **6.4** Alterations & Improvements – **Deleted, Not Applicable.**

7. **Landlord Obligations** -
   - **7.1** Governmental Compliance - Landlord represents and warrants that the Premises will comply with all applicable governmental laws, rules and regulations during the term of this Agreement including, but not limited to, applicable codes and use permits.
   - **7.2** Fire Inspection Report - Landlord shall provide to Tenant, a written fire inspection report dated within five years of the Effective Date on this Agreement, approving the Premises for occupancy.

7.3 Authority to Bind - Landlord represents and warrants that it has legal ownership and authority to enter into this Agreement, and shall provide a recorded warranty deed and/or other documentation necessary to confirm ownership and authority.

7.4 Insurance - Landlord is required to provide proof of General premises liability insurance for the Premises identified in Paragraph 1, which provides full coverage for the Landlord, the Tenant, and their respective agents and employees and which protects against all claims, demands, actions, suits, or causes of action, and judgments, settlements or recoveries, for bodily injury or property damage arising out of a condition of the Premises. The Landlord agrees to maintain minimum policy limits in the amount of $500,000.00 per occurrence for property damage, and $1,000,000.00 per occurrence for bodily injury, with a $2,000,000.00 aggregate. The Landlord shall provide to the Tenant a certificate of insurance listing the Tenant, its several departments, boards, agencies, commissions, officers, and employees as additional insureds, within thirty (30) calendar days following execution and delivery of this Agreement to the Landlord. The insurance policy shall provide that it may not be modified, cancelled, or allowed to expire without thirty (30) days prior written notice given to the Tenant.

7.5 Rent With-Holding - If the Landlord fails to provide supporting documentation, as required by Paragraphs 7.1, 8.2, 8.3 and 8.4, ten percent (10%) of the monthly rent consideration shall be held by the Tenant, until the required documentation is provided to the Tenant.

8. Public Policy Provisions -

8.1 Non-Discrimination - Landlord shall comply with the Elliott-Larsen Civil Rights Act, 1976 PA 453, as amended, MCL 37.2101 et seq., the Persons with Disabilities Civil Rights Act, 1976 PA 220, as amended, MCL 37.1101 et seq., and all other federal, state and local fair employment practices and equal opportunity laws and covenants that it shall not discriminate against any employee or applicant for employment, to be employed in the performance of this Agreement, with respect to his or her hire, tenure, terms, conditions, or privileges of employment, or any matter directly or indirectly related to employment, because of his or her race, religion, color, national origin, age, sex, height, weight, marital status, or physical or mental disability that is unrelated to the individual's ability to perform the duties of a particular job or position. The Landlord agrees to include in every subcontract entered into for the performance of this real estate contract this covenant not to discriminate in employment. A breach of this covenant is a material breach of this Agreement.

8.2 Utilization of Public Facilities by Physically Limited - Premises shall comply with the barrier free design requirements of 1966 PA 1, as amended, MCL 125.1351 et seq.

8.3 Unfair Labor Practices - This Agreement may be canceled by Tenant if Landlord or any subcontractor, manufacturer or supplier of the Landlord appears in the register compiled by the State of Michigan pursuant to 1980 Public Act 278, as amended, MCL 423.321 et seq. (Employers Engaging in Unfair Labor Practices Act). A breach of this covenant is a material breach of this Agreement.

8.4 Electronic Funds Transfer - Public Act 533 of 2004 requires that payments under this Agreement be processed by electronic funds transfer (EFT). Landlord is required to register to receive payments by EFT at the Contract & Payment Express website (www.mi.gov/cpexpress) or call (888) 734-9749 to receive payments by EFT.

9. Notices - Any notice to Tenant required by this Agreement shall be complete if submitted in writing **either by e-mail followed by a telephone call or** transmitted by personal delivery

(with signed delivery receipt), or certified or registered mail return receipt requested, or by a nationally recognized overnight delivery service. Unless either party notifies the other in writing of a different mailing address, notice to the Landlord and/or Tenant shall be transmitted to:

Landlord	**Tenant**

The notice shall be deemed on either (i) the third business day following the date of mailing, if transmitted by mail or (ii) the date on which the noticed party receives or refuses receipt of the notice, if transmitted by personal delivery, or a nationally recognized overnight delivery service. Business day is defined as any day other than a Saturday, Sunday, legal holiday, or day preceding a legal holiday. A receipt from a U.S. Postal Service, or successor agency, performing such function shall be conclusive evidence of the date of mailing.

10. Miscellaneous Provisions -

10.1 Governing Law - This Agreement shall be governed by and interpreted in accordance with the laws of the State of Michigan.

10.2 Mutual Drafting - This Agreement shall be interpreted and construed as drafted mutually by both parties.

10.3 Entire Agreement - This Agreement, with all Attachments as listed herein, constitutes the entire agreement between the parties with regard to this transaction and may be amended only in writing, signed by each party.

10.4 Severability - Should any provision of this Agreement or any addenda thereto be found to be illegal or otherwise unenforceable by a court of law, such provision shall be severed from the remainder of the Agreement, and such action shall not affect the enforceability of the remaining provisions of the Agreement.

10.5 Waiver - Failure to enforce any term of this Agreement shall not be deemed a waiver of the enforcement of that or any other term of this Agreement.

10.6 Effective Date - The Effective Date of this Agreement is the date signed by the Real Estate Director of the Department of Technology, Management & Budget.

10.7 Binding Effect - This Agreement shall be binding upon and inure to the benefit of the heirs, executors, administrators and assigns of Landlord and Tenant.

10.8 Counterparts - This Agreement may be executed in counterparts, each which shall be deemed an original, and all of which together shall constitute one and

the same agreement. An electronic, scanned or facsimile signature shall be deemed an original.

10.9 Assignment - The Tenant, through its Department of Technology, Management & Budget may assign or reassign any or all of the Premises to any branch, department, board, agency, commission or other instrumentality of State government without the necessity of obtaining consent of the Landlord.

11. Attachments -

Agreement #11868-2016

RENTAL AGREEMENT

Between

FLINT COMMUNITY SCHOOLS

A Governmental Unit

and the

State Of Michigan

THIS RENTAL AGREEMENT (hereinafter referred to as "Agreement") is entered into by and between **Flint Community Schools**, a **Governmental Unit**, as Landlord, whose address is **923 East Kearsley Street, Flint, MI 48503**, and the State of Michigan, by the Department of Technology, Management & Budget, whose address is 7150 Harris Drive, Suite 2B, Dimondale, MI 48821, for the **Department of Technology, Management & Budget, (DTMB) Office of Infrastructure Protection**, as Tenant, and establishes the following terms, conditions, performance obligations, and covenants between the parties:

1. **Premises & Rent** –
   - **1.1** Landlord hereby rents to Tenant **for up to** approximately **5,000** usable square feet of **warehouse** space, in the building commonly known as **3086 East Court Street, Flint, MI 48503** (the "Premises"). The Tenant shall further have non-exclusive use of the parking areas, entrances, docks and storage of the warehouse Premises in common with the Landlord and/or other tenants of the Premises.

   - **1.2** The Tenant shall pay to Landlord rent for the square footage used (to be determined on a running basis) at the rate of $3.00 per square foot for up to a rate of **Forty One Dollars** and **67/**100 Dollars (**$41.67**) per day (for the full 5,000 square feet if used) for every day the State stores goods on the premises. **IN** addition the State shall pay for personnel and labor to unload eighteen semi loads of product, at $1.50 per lift (a lift consists of removing 1-2 pallets at a time, storing the product for an undetermined amount of time, taking it back and loading onto a truck/semi). The State also agrees to pay overtime costs for the labor to unload and store product on January 13, 2016 to unload eighteen (18) semi/trucks from 3:00 p.m. until 8:00 p.m. Overtime consideration, rent consideration installment payments and itemized costs for labor and lifts shall be made during the month for which the installment applies. **It is understood by all parties, there is no management fee to be paid for these services.**

2. **Term** - The term of this Agreement begins on **January 13, 2016 on a per diem basis and e**nds **when the last item stored by the State is removed**, subject to the cancellation provisions of this Agreement.

3. **Cancellation** – This Agreement may be cancelled by the Tenant when the following

conditions have been met:

Cancellation notice delivered to the Landlord and the Superintendent of Flint Community Schools a minimum of five (5) business days prior to the effective cancellation date; removal of all stored items; satisfactory walk-thru inspection performed by DTMB Real Estate Division and the Landlord or the Landlord's representative; all keys and access cards returned to the Landlord.

The cancellation notice shall be delivered to the Landlord and the Superintendent using the addresses, as set forth in the "Notices" section of this Agreement, or to such other address as the parties may designate in writing for the delivery of notices under this Agreement. This Agreement supersedes and cancel all prior agreements.

Upon cancellation or termination of this Agreement, the Tenant shall remove all Tenant goods from the Premises shall clean the Premises to "broom-clean condition". Stored items remaining in or on the Premises after the cancellation or termination effective date shall be considered abandoned property, and the Tenant shall be obligated to pay the Landlord for all reasonable removal costs.

4. **Services and Responsibilities of Landlord - Landlord shall furnish the following at its own expense:**
   - **4.1** Heating, mechanical ventilating, cooling.
   - **4.2** Electric service for lights, and all other electrical equipment. Lighting shall be adequate for a warehouse facility. Replacement of light bulbs and tubes as needed.
   - **4.3** 100% payment for metered public utilities used for heating, cooling, illumination, power and water and/or sewer used in the premises.
   - **4.4** Provide and maintain any equipment required by the Fire Inspector for fire prevention and safety.
   - **4.5** Pest Control.
   - **4.6** Snow removal from driveways
   - **4.7** Removal of trash and refuse from the dumpsters on Premises.

5. **Services and Responsibilities of Tenant - Tenant shall furnish the following at its own expense:**
   - **5.1** None

6. **Repair and Maintenance** -
   - **6.1** The Tenant shall notify the Landlord or his agent of the need for any repairs or replacements, which are not the responsibility of the Tenant to make. Landlord is to provide a list of telephone numbers (ESCR form) to call for maintenance services, including a number for window breakage, if needed.
   - **6.2** The Tenant shall reimburse the Landlord for any repairs to the Premises from damage which exceeds normal wear and tear to be expected from lawful and proper use of the Premises and the sole cause of which was the negligent acts or omissions of Tenant's employees or clients.
   - **6.3** The Tenant shall be responsible for the following repair and maintenance operations: **NONE.**
   - **6.4** Alterations & Improvements – **Deleted, Not Applicable.**

7. **Landlord Obligations** -
   - **7.1** Governmental Compliance - Landlord represents and warrants that the Premises will comply with all applicable governmental laws, rules and regulations during

the term of this Agreement including, but not limited to, applicable codes and use permits.

7.2 Fire Inspection Report - Landlord shall provide to Tenant, a written fire inspection report dated within five years of the Effective Date on this Agreement, approving the Premises for occupancy.

7.3 Authority to Bind - Landlord represents and warrants that it has legal ownership and authority to enter into this Agreement, and shall provide a recorded warranty deed and/or other documentation necessary to confirm ownership and authority.

7.4 Insurance - Landlord is required to provide proof of General premises liability insurance for the Premises identified in Paragraph 1, which provides full coverage for the Landlord, the Tenant, and their respective agents and employees and which protects against all claims, demands, actions, suits, or causes of action, and judgments, settlements or recoveries, for bodily injury or property damage arising out of a condition of the Premises. The Landlord agrees to maintain minimum policy limits in the amount of $500,000.00 per occurrence for property damage, and $1,000,000.00 per occurrence for bodily injury, with a $2,000,000.00 aggregate. The Landlord shall provide to the Tenant a certificate of insurance listing the Tenant, its several departments, boards, agencies, commissions, officers, and employees as additional insureds, within thirty (30) calendar days following execution and delivery of this Agreement to the Landlord. The insurance policy shall provide that it may not be modified, cancelled, or allowed to expire without thirty (30) days prior written notice given to the Tenant.

7.5 Rent With-Holding - If the Landlord fails to provide supporting documentation, as required by Paragraphs 7.1, 8.2, 8.3 and 8.4, ten percent (10%) of the monthly rent consideration shall be held by the Tenant, until the required documentation is provided to the Tenant.

8. Public Policy Provisions -

8.1 Non-Discrimination - Landlord shall comply with the Elliott-Larsen Civil Rights Act, 1976 PA 453, as amended, MCL 37.2101 et seq., the Persons with Disabilities Civil Rights Act, 1976 PA 220, as amended, MCL 37.1101 et seq., and all other federal, state and local fair employment practices and equal opportunity laws and covenants that it shall not discriminate against any employee or applicant for employment, to be employed in the performance of this Agreement, with respect to his or her hire, tenure, terms, conditions, or privileges of employment, or any matter directly or indirectly related to employment, because of his or her race, religion, color, national origin, age, sex, height, weight, marital status, or physical or mental disability that is unrelated to the individual's ability to perform the duties of a particular job or position. The Landlord agrees to include in every subcontract entered into for the performance of this real estate contract this covenant not to discriminate in employment. A breach of this covenant is a material breach of this Agreement.

8.2 Utilization of Public Facilities by Physically Limited - Premises shall comply with the barrier free design requirements of 1966 PA 1, as amended, MCL 125.1351 et seq.

8.3 Unfair Labor Practices - This Agreement may be canceled by Tenant if Landlord or any subcontractor, manufacturer or supplier of the Landlord appears in the register compiled by the State of Michigan pursuant to 1980 Public Act 278, as amended, MCL 423.321 et seq. (Employers Engaging in Unfair Labor Practices Act). A breach of this covenant is a material breach of this Agreement.

8.4 Electronic Funds Transfer - Public Act 533 of 2004 requires that payments under this Agreement be processed by electronic funds transfer (EFT). Landlord is required to register to receive payments by EFT at the Contract & Payment

Express website (www.mi.gov/cpexpress) or call (888) 734-9749 to receive payments by EFT.

9. **Notices** - Any notice to Tenant required by this Agreement shall be complete if submitted in writing transmitted by personal delivery (with signed delivery receipt), or certified or registered mail return receipt requested, or by a nationally recognized overnight delivery service. Unless either party notifies the other in writing of a different mailing address, notice to the Landlord and/or Tenant shall be transmitted to:

Landlord	**Tenant**

The notice shall be deemed on either (i) the third business day following the date of mailing, if transmitted by mail or (ii) the date on which the noticed party receives or refuses receipt of the notice, if transmitted by personal delivery, or a nationally recognized overnight delivery service. Business day is defined as any day other than a Saturday, Sunday, legal holiday, or day preceding a legal holiday. A receipt from a U.S. Postal Service, or successor agency, performing such function shall be conclusive evidence of the date of mailing.

10. **Miscellaneous Provisions** -
    - **10.1** Governing Law - This Agreement shall be governed by and interpreted in accordance with the laws of the State of Michigan.
    - **10.2** Mutual Drafting - This Agreement shall be interpreted and construed as drafted mutually by both parties.
    - **10.3** Entire Agreement - This Agreement, with all Attachments as listed herein, constitutes the entire agreement between the parties with regard to this transaction and may be amended only in writing, signed by each party.
    - **10.4** Severability - Should any provision of this Agreement or any addenda thereto be found to be illegal or otherwise unenforceable by a court of law, such provision shall be severed from the remainder of the Agreement, and such action shall not affect the enforceability of the remaining provisions of the Agreement.
    - **10.5** Waiver - Failure to enforce any term of this Agreement shall not be deemed a waiver of the enforcement of that or any other term of this Agreement.
    - **10.6** Effective Date - The Effective Date of this Agreement is the date signed by the Real Estate Director of the Department of Technology, Management & Budget.

10.7 Binding Effect - This Agreement shall be binding upon and inure to the benefit of the heirs, executors, administrators and assigns of Landlord and Tenant.

10.8 Counterparts - This Agreement may be executed in counterparts, each which shall be deemed an original, and all of which together shall constitute one and the same agreement. An electronic, scanned or facsimile signature shall be deemed an original.

10.9 Assignment - The Tenant, through its Department of Technology, Management & Budget may assign or reassign any or all of the Premises to any branch, department, board, agency, commission or other instrumentality of State government without the necessity of obtaining consent of the Landlord.

11. Attachments -

Good Afternoon Maureen,

My insurance company is in the process of preparing the certificate of insurance. Could you please provide an address for the State of Michigan – DTMB.

Thank you,
Gary Porrett

Cc: Doxie, William (DTMB) <DoxieW@michigan.gov>
Subject: State of Michigan

Mr. Porrett:

In writing this e-mail, we are setting down the terms we have agreed to with MSP-Homeland Security, and DTMB and yourself for a Rental Agreement to follow.

1- You have agreed to begin to receive up to fifteen (15) semi loads of product today-January 13, 2016, and every day after until Saturday, this may continue indefinitely next week. We are not sure at this time how long this will continue. We are not sure at this time of the number of truckloads per day.

2- You have agreed to supply 80,000 square feet of warehouse space @$.40 per square foot (psf). In addition, you will provide fork trucks and personnel to unload up to fifteen (15) or more semi loads a day of water and other materials needed to help relieve the water crisis in Flint.

3- You have agreed to $2.50 per lift to unload a semi (a lift consists of removing the stacked pallets 1, 2, or 3 high at a time, storing the product for an undetermined amount of time, taking it back to a truck/semi and loading it back on) this cost is to provide the fork lifts and the labor to move these semi loads of product (undetermined at this time) but probably consisting of bottled water, and other donated products for the residence of Flint.

4- These costs will pay for fuel and employees managing the product, you will keep a running total of these costs and will send a comprehensive itemized invoice each month for these services.

5- You will indicate any overtime you are charging the State and the hours, days and times you are charging.

6- You have also indicated you can provide up-to $2.MIL aggregate per incident of Liability Insurance naming the State of Michigan DTMB as an additional insured.

7- You will keep a running tally of the number of lifts and the square feet of space and send comprehensive invoice each month.

8- There will be no management fee.

Please indicate you have agreed to these terms by return mail.

In addition we will need proof of ownership, a deed and your operating agreement.

Subject: Sample Storage Space

Neal – Based on our phone conversation, I'm looking for storage/warehouse space for a potentially large amount of water samples over the next few months with the State of Emergency that is happening in Flint right now. Wondering if there are any locations near the Lab that we could utilize for this effort if necessary. At a minimum, the space would need to be secured and temperature controlled, only to prevent freezing. Also looking for pallets that can hold around 1000 Lbs or more. The idea is that we palletize samples here and have them transferred to this storage location on a daily/weekly basis as necessary. There is really no storage space for this kind of capacity here at the State Lab. Initial estimate of space needs based on the number of potential samples would be 1000-1500 ft^2, enough to hold around 100 (3'x4') pallets with additional space to maneuver around to get to specific pallets if necessary.

Sandip – Copying you on this message if you have any ideas that could help.

Thank you!
Kirby

Agreement #11868-2016

RENTAL AGREEMENT

Between

FLINT COMMUNITY SCHOOLS

A Governmental Unit

and the

State Of Michigan

THIS RENTAL AGREEMENT (hereinafter referred to as "Agreement") is entered into by and between **Flint Community Schools**, a **Governmental Unit**, as Landlord, whose address is **923 East Kearsley Street, Flint, MI 48503**, and the State of Michigan, by the Department of Technology, Management & Budget, whose address is 7150 Harris Drive, Suite 2B, Dimondale, MI 48821, for the **Department of Technology, Management & Budget, (DTMB) Office of Infrastructure Protection**, as Tenant, and establishes the following terms, conditions, performance obligations, and covenants between the parties:

1. **Premises & Rent** –
   - **1.1** Landlord hereby rents to Tenant **for up to** approximately **5,000** usable square feet of **warehouse** space, in the building commonly known as **3086 East Court Street, Flint, MI 48503** (the "Premises"). The Tenant shall further have non-exclusive use of the parking areas, entrances, docks and storage of the warehouse Premises in common with the Landlord and/or other tenants of the Premises.

   - **1.2** The Tenant shall pay to Landlord rent for the square footage used (to be determined on a running basis) at the rate of $3.00 per square foot for up to a rate of **Forty One Dollars** and **67/**100 Dollars (**$41.67**) per day (for the full 5,000 square feet if used) for every day the State stores goods on the premises. **IN** addition the State shall pay for personnel and labor to unload eighteen semi loads of product, at $1.50 per lift (a lift consists of removing 1-2 pallets at a time, storing the product for an undetermined amount of time, taking it back and loading onto a truck/semi). The State also agrees to pay overtime costs for the labor to unload and store product on January 13, 2016 to unload eighteen (18) semi/trucks from 3:00 p.m. until 8:00 p.m. Overtime consideration, rent consideration installment payments and itemized costs for labor and lifts shall be made during the month for which the installment applies. **It is understood by all parties, there is no management fee to be paid for these services.**

2. **Term** - The term of this Agreement begins on **January 13, 2016 on a per diem basis and e**nds **January 16, 2016, or when the last item stored by the State is removed**, subject to the cancellation provisions of this Agreement.

3. **Cancellation** – This Agreement may be cancelled by the Tenant when the following

conditions have been met:

Cancellation notice delivered to the Landlord and the Superintendent of Flint Community Schools a minimum of five (5) business days prior to the effective cancellation date; removal of all stored items; satisfactory walk-thru inspection performed by DTMB Real Estate Division and the Landlord or the Landlord's representative; all keys and access cards returned to the Landlord.

The cancellation notice shall be delivered to the Landlord and the Superintendent using the addresses, as set forth in the "Notices" section of this Agreement, or to such other address as the parties may designate in writing for the delivery of notices under this Agreement. This Agreement supersedes and cancel all prior agreements.

Upon cancellation or termination of this Agreement, the Tenant shall remove all Tenant goods from the Premises shall clean the Premises to "broom-clean condition". Stored items remaining in or on the Premises after the cancellation or termination effective date shall be considered abandoned property, and the Tenant shall be obligated to pay the Landlord for all reasonable removal costs.

4. **Services and Responsibilities of Landlord - Landlord shall furnish the following at its own expense:**
   - **4.1** Heating, mechanical ventilating, cooling.
   - **4.2** Electric service for lights, and all other electrical equipment. Lighting shall be adequate for a warehouse facility. Replacement of light bulbs and tubes as needed.
   - **4.3** 100% payment for metered public utilities used for heating, cooling, illumination, power and water and/or sewer used in the premises.
   - **4.4** Provide and maintain any equipment required by the Fire Inspector for fire prevention and safety.
   - **4.5** Pest Control.
   - **4.6** Snow removal from driveways
   - **4.7** Removal of trash and refuse from the dumpsters on Premises.

5. **Services and Responsibilities of Tenant - Tenant shall furnish the following at its own expense:**
   - **5.1** None

6. **Repair and Maintenance** -
   - **6.1** The Tenant shall notify the Landlord or his agent of the need for any repairs or replacements, which are not the responsibility of the Tenant to make. Landlord is to provide a list of telephone numbers (ESCR form) to call for maintenance services, including a number for window breakage, if needed.
   - **6.2** The Tenant shall reimburse the Landlord for any repairs to the Premises from damage which exceeds normal wear and tear to be expected from lawful and proper use of the Premises and the sole cause of which was the negligent acts or omissions of Tenant's employees or clients.
   - **6.3** The Tenant shall be responsible for the following repair and maintenance operations: **NONE.**
   - **6.4** Alterations & Improvements – **Deleted, Not Applicable.**

7. **Landlord Obligations** -
   - **7.1** Governmental Compliance - Landlord represents and warrants that the Premises will comply with all applicable governmental laws, rules and regulations during

the term of this Agreement including, but not limited to, applicable codes and use permits.

7.2 Fire Inspection Report - Landlord shall provide to Tenant, a written fire inspection report dated within five years of the Effective Date on this Agreement, approving the Premises for occupancy.

7.3 Authority to Bind - Landlord represents and warrants that it has legal ownership and authority to enter into this Agreement, and shall provide a recorded warranty deed and/or other documentation necessary to confirm ownership and authority.

7.4 Insurance - Landlord is required to provide proof of General premises liability insurance for the Premises identified in Paragraph 1, which provides full coverage for the Landlord, the Tenant, and their respective agents and employees and which protects against all claims, demands, actions, suits, or causes of action, and judgments, settlements or recoveries, for bodily injury or property damage arising out of a condition of the Premises. The Landlord agrees to maintain minimum policy limits in the amount of $500,000.00 per occurrence for property damage, and $1,000,000.00 per occurrence for bodily injury, with a $2,000,000.00 aggregate. The Landlord shall provide to the Tenant a certificate of insurance listing the Tenant, its several departments, boards, agencies, commissions, officers, and employees as additional insureds, within thirty (30) calendar days following execution and delivery of this Agreement to the Landlord. The insurance policy shall provide that it may not be modified, cancelled, or allowed to expire without thirty (30) days prior written notice given to the Tenant. **It is understood by both parties, that each has provided their own insurance coverage for Liability Insurance.**

7.5 Rent With-Holding - If the Landlord fails to provide supporting documentation, as required by Paragraphs 7.1, 8.2, 8.3 and 8.4, ten percent (10%) of the monthly rent consideration shall be held by the Tenant, until the required documentation is provided to the Tenant.

8. Public Policy Provisions -

8.1 Non-Discrimination - Landlord shall comply with the Elliott-Larsen Civil Rights Act, 1976 PA 453, as amended, MCL 37.2101 et seq., the Persons with Disabilities Civil Rights Act, 1976 PA 220, as amended, MCL 37.1101 et seq., and all other federal, state and local fair employment practices and equal opportunity laws and covenants that it shall not discriminate against any employee or applicant for employment, to be employed in the performance of this Agreement, with respect to his or her hire, tenure, terms, conditions, or privileges of employment, or any matter directly or indirectly related to employment, because of his or her race, religion, color, national origin, age, sex, height, weight, marital status, or physical or mental disability that is unrelated to the individual's ability to perform the duties of a particular job or position. The Landlord agrees to include in every subcontract entered into for the performance of this real estate contract this covenant not to discriminate in employment. A breach of this covenant is a material breach of this Agreement.

8.2 Utilization of Public Facilities by Physically Limited - Premises shall comply with the barrier free design requirements of 1966 PA 1, as amended, MCL 125.1351 et seq.

8.3 Unfair Labor Practices - This Agreement may be canceled by Tenant if Landlord or any subcontractor, manufacturer or supplier of the Landlord appears in the register compiled by the State of Michigan pursuant to 1980 Public Act 278, as amended, MCL 423.321 et seq. (Employers Engaging in Unfair Labor Practices Act). A breach of this covenant is a material breach of this Agreement.

8.4 Electronic Funds Transfer - Public Act 533 of 2004 requires that payments under this Agreement be processed by electronic funds transfer (EFT). Landlord is required to register to receive payments by EFT at the Contract & Payment Express website (www.mi.gov/cpexpress) or call (888) 734-9749 to receive payments by EFT.

9. Notices - Any notice to Tenant required by this Agreement shall be complete if submitted in writing transmitted by personal delivery (with signed delivery receipt), or certified or registered mail return receipt requested, or by a nationally recognized overnight delivery service. Unless either party notifies the other in writing of a different mailing address, notice to the Landlord and/or Tenant shall be transmitted to:

The notice shall be deemed on either (i) the third business day following the date of mailing, if transmitted by mail or (ii) the date on which the noticed party receives or refuses receipt of the notice, if transmitted by personal delivery, or a nationally recognized overnight delivery service. Business day is defined as any day other than a Saturday, Sunday, legal holiday, or day preceding a legal holiday. A receipt from a U.S. Postal Service, or successor agency, performing such function shall be conclusive evidence of the date of mailing.

10. Miscellaneous Provisions -

10.1 Governing Law - This Agreement shall be governed by and interpreted in accordance with the laws of the State of Michigan.

10.2 Mutual Drafting - This Agreement shall be interpreted and construed as drafted mutually by both parties.

10.3 Entire Agreement - This Agreement, with all Attachments as listed herein, constitutes the entire agreement between the parties with regard to this transaction and may be amended only in writing, signed by each party.

10.4 Severability - Should any provision of this Agreement or any addenda thereto be found to be illegal or otherwise unenforceable by a court of law, such provision shall be severed from the remainder of the Agreement, and such action shall not affect the enforceability of the remaining provisions of the Agreement.

10.5 Waiver - Failure to enforce any term of this Agreement shall not be deemed a waiver of the enforcement of that or any other term of this Agreement.

10.6 Effective Date - The Effective Date of this Agreement is the date signed by the Real Estate Director of the Department of Technology, Management & Budget.

10.7 Binding Effect - This Agreement shall be binding upon and inure to the benefit of the heirs, executors, administrators and assigns of Landlord and Tenant.

10.8 Counterparts - This Agreement may be executed in counterparts, each which shall be deemed an original, and all of which together shall constitute one and the same agreement. An electronic, scanned or facsimile signature shall be deemed an original.

10.9 Assignment - The Tenant, through its Department of Technology, Management & Budget may assign or reassign any or all of the Premises to any branch, department, board, agency, commission or other instrumentality of State government without the necessity of obtaining consent of the Landlord.

11. Attachments -

Subject: Sample Storage Space

Neal – Based on our phone conversation, I'm looking for storage/warehouse space for a potentially large amount of water samples over the next few months with the State of Emergency that is happening in Flint right now. Wondering if there are any locations near the Lab that we could utilize for this effort if necessary. At a minimum, the space would need to be secured and temperature controlled, only to prevent freezing. Also looking for pallets that can hold around 1000 Lbs or more. The idea is that we palletize samples here and have them transferred to this storage location on a daily/weekly basis as necessary. There is really no storage space for this kind of capacity here at the State Lab. Initial estimate of space needs based on the number of potential samples would be 1000-1500 ft^2, enough to hold around 100 (3'x4') pallets with additional space to maneuver around to get to specific pallets if necessary.

Sandip – Copying you on this message if you have any ideas that could help.

Thank you!
Kirby

Subject: State of Michigan

Mr. Porrett:

In writing this e-mail, we are setting down the terms we have agreed to with MSP-Homeland Security, and DTMB and yourself for a Rental Agreement to follow.

1- You have agreed to begin to receive up to fifteen (15) semi loads of product today-January 13, 2016, and every day after until Saturday, this may continue indefinitely next week. We are not sure at this time how long this will continue. We are not sure at this time of the number of truckloads per day.

2- You have agreed to supply 80,000 square feet of warehouse space @$.40 per square foot (psf). In addition, you will provide fork trucks and personnel to unload up to fifteen (15) or more semi loads a day of water and other materials needed to help relieve the water crisis in Flint.

3- You have agreed to $2.50 per lift to unload a semi (a lift consists of removing the stacked pallets 1, 2, or 3 high at a time, storing the product for an undetermined amount of time, taking it back to a truck/semi

and loading it back on) this cost is to provide the fork lifts and the labor to move these semi loads of product (undetermined at this time) but probably consisting of bottled water, and other donated products for the residence of Flint.

4- These costs will pay for fuel and employees managing the product, you will keep a running total of these costs and will send a comprehensive itemized invoice each month for these services.

5- You will indicate any overtime you are charging the State and the hours, days and times you are charging.

6- You have also indicated you can provide up-to $2.MIL aggregate per incident of Liability Insurance naming the State of Michigan DTMB as an additional insured.

7- You will keep a running tally of the number of lifts and the square feet of space and send comprehensive invoice each month.

8- There will be no management fee.

Please indicate you have agreed to these terms by return mail.

In addition we will need proof of ownership, a deed and your operating agreement.

SUBJECT: State of Michigan, Agreement #11867-2016 - Flint, MI

Dear Mr. Porrett:

We are enclosing an original Rental Agreement for your review and approval. Before returning the original it *must:*

(a) be signed and dated by the Landlord where indicated
(b) have the Landlord's name printed below their signature

A signature checklist is enclosed to assist you

The Rental Agreement also requires that the items checked below be supplied to the State. These must be received before rental payments can be authorized:

☒ Written and Approved Fire Inspection Report
☒ A current Certificate of Insurance, which

- specifies the beginning and ending dates of the insurance policy
- names the State as an additional insured
- has minimum policy limits that meet Agreement requirements
- identifies the location of the property
- includes the Agreement number on the certificate

☒ Public Act 533 of 2004 requires that payments under this Agreement be processed by electronic funds transfer (EFT). Lessor is required to register at the Contract & Payment Express website http://www.cpexpress.state.mi.us or call (888) 734-9749 to receive payments by EFT

The above documents should be returned to the address on this letter. If you have any questions please feel free to contact me at 517-284-7929 or baileym1@michigan.gov.

Your prompt attention to these matters will aid us in expediting this transaction.

Sincerely,

Maureen S. Bailey
Specialist, Real Estate Division

SIGNATURE CHECKLIST

NOTE: This is a legal document and in order for us to process this lease, **the signature page must be completed in detail.**

( ) **Compare the "Lessor"** on the first page with the signature page making sure they are exactly the same and as you had intended to hold the lease.

( ) **People signing are authorized** to sign on behalf of the Lessor, i.e. for Partnerships or Corporations, or are the parties to the Lease, i.e. husband and wife.

( ) **Lessor signature is exactly as it is typed or printed below the signature block.** If the area is blank, please print the signer's name as signed. **Signature must be dated.**

( ) If applicable, have each **signature witnessed twice and the witnesses print their name below the line as they signed.**

( ) When there is a **notary block, have the signatures notarized,** making sure the names appear exactly as signed and as printed below the signature. **Make sure the date of the notary is the same as the signature(s).**

( ) **Have two people** check the lease to make sure that all signatures and notary public are filled out correctly and exactly the same.

If there are **any discrepancies,** we will be **forced to delay the process** of the lease while they are corrected.

Thank you for your assistance and cooperation in this manner.

Agreement #11867 – 2016

Draft #1 RENTAL AGREEMENT

Between

Bell Warehousing & Manufacturing Services, Inc.

A Domestic Profit Corporation

and the

State Of Michigan

THIS RENTAL AGREEMENT (hereinafter referred to as "Agreement") is entered into by and between **Bell Warehousing & Manufacturing Services, Inc.**, a **Domestic Profit Corporation**, as Landlord, whose address is **5510 Clio Road, Flint, Michigan 48504**, and the State of Michigan, by the Department of Technology, Management & Budget, whose address is 7150 Harris Drive, Suite 2B, Dimondale, MI 48821, for the **Department of Technology, Management & Budget, (DTMB) Office of Infrastructure Protection**, as Tenant, and establishes the following terms, conditions, performance obligations, and covenants between the parties:

1. **Premises & Rent** –

   1.1 Landlord hereby rents to Tenant up to approximately **80,000** usable square feet of warehouse space, as further described in Attachment "A" to this Agreement, in the building commonly known as **5510 Clio Road, Flint, MI 48504** (the "Premises"). The Tenant shall further have non-exclusive use of the parking areas, docks, and entrances, hallways, and the restroom facilities of the warehouse Premises in common with the Landlord and/or other tenants of the Premises.

   1.2 Tenant shall pay to Landlord $.40 cents per square foot on a running total beginning on January 14, 2016, for up-to 80,000 square feet. Rent consideration installment payments shall be made during the month for which the installment applies.

   1.3 **IN** addition the Landlord will provide fork trucks, fuel, personnel and labor to unload semi loads of pallets consisting of water and other materials (product), @ $2.50 per lift (a lift consists of removing 1-3 pallets, of storing the product for an undetermined amount of time, taking it back and loading onto a truck/semi).

   1.4 The State also agrees to pay overtime costs for labor to unload semi/trucks and store pallets after 5:00 p.m. weekdays and Saturdays if deemed necessary and substantiated by RED CROSS employees. The Landlord will indicate any overtime charged to the State, the hours, days and times of charges, as substantiated by RED CROSS

1.5 **The Landlord shall supply the following information in an invoice to the State of Michigan, DTMB every month:**
(i) a running tally of the number of square feet of space used and (ii) overtime consideration, (iii) rent consideration installment payments and (iv) labor and lifts of pallets

1.6 All items shall be itemized and submitted during the month for which the installment applies.

1.7 **It is understood by all parties, there is no management fee to be paid for these services.**

2. **Term** - The term of this Agreement begins on **January 14, 2016** and ends on **January 13, 2017**, subject to the cancellation provisions of this Agreement.

3. **Holding Over** - In the event Tenant remains in possession of the Premises after the expiration or termination of the Agreement, it shall be deemed to be occupying the Premises as a Tenant from month-to-month, subject to all conditions, provisions and obligations of this Agreement.

4. **Cancellation** - This Agreement may be cancelled by the Tenant upon thirty (30) days written notice to the Landlord delivered to the address as set forth under the "Notices" Section of this Agreement, or to such other address as either party may designate in writing for the delivery of notices under this Agreement. This agreement will supersede and cancel all prior agreements.

   A satisfactory walk-thru inspection performed by DTMB Real Estate Division and the Landlord or the Landlord's representative; all keys and access cards returned to the Landlord;

5. **Services and Responsibilities of Landlord - Landlord shall furnish the following at its own expense:**
   - 5.1 Heating, mechanical ventilating, cooling.
   - 5.2 Electric service for lights, and all other electrical equipment. Lighting shall be adequate for a warehouse facility. Replacement of light bulbs and tubes as needed.
   - 5.3 100% payment for metered public utilities used for heating, cooling, illumination, power and water and/or sewer used in the premises.
   - 5.4 Provide and maintain any equipment required by the Fire Inspector for fire prevention and safety.
   - 5.5 Pest Control.
   - 5.6 Snow removal from driveways, steps, porches, walkways, exterior grounds maintenance, including grass and weed cutting, clippings removal, leaf raking, litter removal, sidewalk surface and parking lot surface maintenance.
   - 5.7 Removal of trash and refuse from the dumpsters on Premises.

6. **Services and Responsibilities of Tenant - Tenant shall furnish the following at its own expense:**
   - 6.1 None

7. **Repair and Maintenance** -

7.1 The Tenant shall notify the Landlord or his agent of the need for any repairs or replacements, which are not the responsibility of the Tenant to make. Landlord is to provide a list of telephone numbers (ESCR form) to call for maintenance services, including a number for window breakage, if needed.

7.2 The Tenant shall reimburse the Landlord for any repairs to the Premises from damage which exceeds normal wear and tear to be expected from lawful and proper use of the Premises and the sole cause of which was the negligent acts or omissions of Tenant's employees or clients.

7.3 The Tenant shall be responsible for the following repair and maintenance operations: **NONE.**

7.4 Alterations & Improvements – **Deleted, Not Applicable.**

8. **Landlord Obligations** -

8.1 Governmental Compliance - Landlord represents and warrants that the Premises will comply with all applicable governmental laws, rules and regulations during the term of this Agreement including, but not limited to, applicable codes and use permits.

8.2 Fire Inspection Report - Landlord shall provide to Tenant, a written fire inspection report dated within five years of the Effective Date on this Agreement, approving the Premises for occupancy.

8.3 Authority to Bind - Landlord represents and warrants that it has legal ownership and authority to enter into this Agreement, and shall provide a recorded warranty deed and/or other documentation necessary to confirm ownership and authority.

8.4 Insurance - Landlord is required to provide proof of General premises liability insurance for the Premises identified in Paragraph 1, which provides full coverage for the Landlord, the Tenant, and their respective agents and employees and which protects against all claims, demands, actions, suits, or causes of action, and judgments, settlements or recoveries, for bodily injury or property damage arising out of a condition of the Premises. The Landlord agrees to maintain minimum policy limits in the amount of $500,000.00 per occurrence for property damage, and $1,000,000.00 per occurrence for bodily injury, with a $2,000,000.00 aggregate. The Landlord shall provide to the Tenant a certificate of insurance listing the Tenant, its several departments, boards, agencies, commissions, officers, and employees as additional insureds, within thirty (30) calendar days following execution and delivery of this Agreement to the Landlord. The insurance policy shall provide that it may not be modified, cancelled, or allowed to expire without thirty (30) days prior written notice given to the Tenant.

8.5 Rent With-Holding - If the Landlord fails to provide supporting documentation, as required by Paragraphs 7.1, 8.2, 8.3 and 8.4, ten percent (10%) of the monthly rent consideration shall be held by the Tenant, until the required documentation is provided to the Tenant.

8.6 First Right of Refusal - The Landlord shall not rent or otherwise occupy any adjoining space which is or becomes vacant on the Premises known as 5510 Clio Road, Flint, MI 48504 during the term of this Agreement, or any extensions thereof, without first offering for a period of ten (10) days, the space to the Tenant at the Tenant's current rental rate, and under the same terms and conditions found in this Agreement.

9. **Public Policy Provisions** -

9.1 Non-Discrimination - Landlord shall comply with the Elliott-Larsen Civil Rights Act, 1976 PA 453, as amended, MCL 37.2101 et seq., the Persons with Disabilities Civil Rights Act, 1976 PA 220, as amended, MCL 37.1101 et seq.,

and all other federal, state and local fair employment practices and equal opportunity laws and covenants that it shall not discriminate against any employee or applicant for employment, to be employed in the performance of this Agreement, with respect to his or her hire, tenure, terms, conditions, or privileges of employment, or any matter directly or indirectly related to employment, because of his or her race, religion, color, national origin, age, sex, height, weight, marital status, or physical or mental disability that is unrelated to the individual's ability to perform the duties of a particular job or position. The Landlord agrees to include in every subcontract entered into for the performance of this real estate contract this covenant not to discriminate in employment. A breach of this covenant is a material breach of this Agreement.

9.2 Utilization of Public Facilities by Physically Limited - Premises shall comply with the barrier free design requirements of 1966 PA 1, as amended, MCL 125.1351 et seq.

9.3 Unfair Labor Practices - This Agreement may be canceled by Tenant if Landlord or any subcontractor, manufacturer or supplier of the Landlord appears in the register compiled by the State of Michigan pursuant to 1980 Public Act 278, as amended, MCL 423.321 et seq. (Employers Engaging in Unfair Labor Practices Act). A breach of this covenant is a material breach of this Agreement.

9.4 Electronic Funds Transfer - Public Act 533 of 2004 requires that payments under this Agreement be processed by electronic funds transfer (EFT). Landlord is required to register to receive payments by EFT at the Contract & Payment Express website (www.mi.gov/cpexpress) or call (888) 734-9749 to receive payments by EFT.

10. **Notices** - Any notice to Tenant required by this Agreement shall be complete if submitted in writing and transmitted by personal delivery (with signed delivery receipt), or certified or registered mail return receipt requested, or by a nationally recognized overnight delivery service. Unless either party notifies the other in writing of a different mailing address, notice to the Landlord and/or Tenant shall be transmitted to:

Landlord	**Tenant**

The notice shall be deemed on either (i) the third business day following the date of mailing, if transmitted by mail or (ii) the date on which the noticed party receives or refuses receipt of the

notice, if transmitted by personal delivery, or a nationally recognized overnight delivery service. Business day is defined as any day other than a Saturday, Sunday, legal holiday, or day preceding a legal holiday. A receipt from a U.S. Postal Service, or successor agency, performing such function shall be conclusive evidence of the date of mailing.

11. Miscellaneous Provisions -

11.1 Governing Law - This Agreement shall be governed by and interpreted in accordance with the laws of the State of Michigan.

11.2 Mutual Drafting - This Agreement shall be interpreted and construed as drafted mutually by both parties.

11.3 Entire Agreement - This Agreement, with all Attachments as listed herein, constitutes the entire agreement between the parties with regard to this transaction and may be amended only in writing, signed by each party.

11.4 Severability - Should any provision of this Agreement or any addenda thereto be found to be illegal or otherwise unenforceable by a court of law, such provision shall be severed from the remainder of the Agreement, and such action shall not affect the enforceability of the remaining provisions of the Agreement.

11.5 Waiver - Failure to enforce any term of this Agreement shall not be deemed a waiver of the enforcement of that or any other term of this Agreement.

11.6 Effective Date - The Effective Date of this Agreement is the date signed by the Real Estate Director of the Department of Technology, Management & Budget.

11.7 Binding Effect - This Agreement shall be binding upon and inure to the benefit of the heirs, executors, administrators and assigns of Landlord and Tenant.

11.8 Counterparts - This Agreement may be executed in counterparts, each which shall be deemed an original, and all of which together shall constitute one and the same agreement. An electronic, scanned or facsimile signature shall be deemed an original.

11.9 Assignment - The Tenant, through its Department of Technology, Management & Budget may assign or reassign any or all of the Premises to any branch, department, board, agency, commission or other instrumentality of State government without the necessity of obtaining consent of the Landlord.

and the

State Of Michigan

THIS RENTAL AGREEMENT (hereinafter referred to as "Agreement") is entered into by and between **Bell Warehousing & Manufacturing Services, Inc.**, a **Domestic Profit Corporation**, as Landlord, whose address is **5510 Clio Road, Flint, Michigan 48504**, and the State of Michigan, by the Department of Technology, Management & Budget, whose address is 7150 Harris Drive, Suite 2B, Dimondale, MI 48821, for the **Department of Technology, Management & Budget, (DTMB) Office of Infrastructure Protection**, as Tenant, and establishes the following terms, conditions, performance obligations, and covenants between the parties:

1. **Premises & Rent** –

1.1 Landlord hereby rents to Tenant up to approximately **80,000** usable square feet of warehouse space, as further described in Attachment "A" to this Agreement, in the building commonly known as **5510 Clio Road, Flint, MI 48504** (the "Premises"). The Tenant shall further have non-exclusive use of the parking areas, docks, and entrances, hallways, and the restroom facilities of the warehouse Premises in common with the Landlord and/or other tenants of the Premises.

1.2 Tenant shall pay to Landlord $4.00 per square foot annually beginning on January 14, 2016, for up to 80,000 square feet. Rent consideration installment payments shall be made during the month for which the installment applies.

1.3 In addition the Landlord will provide four fork trucks, fuel, and four personnel and labor to unload semi loads of pallets consisting of water and other materials (product), @ $75.00 per hour per fork lift and driver (all inclusive) for an 8 hour shift starting at 7:00 a.m. until 3:30 p.m. and overtime shall be paid @$90.00 per hour for the next four (4) hours for a total of twelve (12) hours a day and up to seven days a week that shall not exceed four (4) employees plus the supervisor. This work schedule shall be approved and substantiated by Jeannette Doll, or her counterpart from Department of Technology, Management & Budget, Office of Infrastructure Protection (DTMB, OIP), for an undetermined amount of time.

1.4 The State also agrees to pay for the Landlord to provide a Supervisor for his staff to coordinate the trucks and people from all agencies as deemed necessary by Jeanette Doll, DTMB/OIP, for not more than twelve (12) hours per day at a cost of $45.00 per hour with overtime billed at $67.50 per hour for four hours. The Landlord will indicate any overtime charged to the State, the hours, days and times of charges, as substantiated by DTMB/OIP.

1.5 **The Landlord shall supply the following information in an invoice to the State of Michigan, DTMB every month:**
(i) a running tally of the number of square feet of space used and (ii) overtime consideration, (iii) rent consideration installment payments and (iv) labor and overtime indicated in paragraphs 1.3 and 1.4 of this document. (v) all utility bills for heat and electric service to the Leased premise (vi) a one-time itemized charge listing the hours and equipment and personnel used to empty two offsite warehouses on January 14, 2016.

1.6 **All items shall be itemized and submitted during the month for which the installment applies and may be on a per diem basis (if necessary).**

1.7 **It is understood by all parties, there is no management fee to be paid for these services.**

2. **Term** - The term of this Agreement begins on **January 14, 2016** and ends on **January 13, 2017**, subject to the cancellation provisions of this Agreement.

3. **Holding Over** - In the event Tenant remains in possession of the Premises after the expiration or termination of the Agreement, it shall be deemed to be occupying the Premises as a Tenant from month-to-month, subject to all conditions, provisions and obligations of this Agreement.

4. **Cancellation** - This Agreement may be cancelled by the Tenant upon thirty (30) days written notice to the Landlord delivered to the address as set forth under the "Notices" Section of this Agreement, or to such other address as either party may designate in writing for the delivery of notices under this Agreement. This agreement will supersede and cancel all prior agreements.

   Upon cancellation, a satisfactory walk-thru inspection performed by DTMB Real Estate Division and the Landlord or the Landlord's representative; all keys and access cards returned to the Landlord.

5. **Services and Responsibilities of Landlord - Landlord shall furnish the following at its own expense:**
   - 5.1 Heating, mechanical ventilating, cooling.
   - 5.2 Electric service for lights, and all other electrical equipment. Lighting shall be adequate for a warehouse facility. Replacement of light bulbs and tubes as needed.
   - 5.3 100% payment for water and/or sewer used in the premises
   - 5.4 Provide and maintain any equipment required by the Fire Inspector for fire prevention and safety.
   - 5.5 Pest Control.
   - 5.6 Snow removal from driveways, steps, porches, walkways, exterior grounds maintenance, including grass and weed cutting, clippings removal, leaf raking,

litter removal, sidewalk surface and parking lot surface maintenance.

5.7 Removal of trash and refuse from the dumpsters on Premises.

6. Services and Responsibilities of Tenant - Tenant shall furnish the following at its own expense:

6.1- 100% payment for metered public utilities used for heating, cooling, illumination.

7. Repair and Maintenance -

The Tenant shall notify the Landlord or his agent of the need for any repairs or replacements, which are not the responsibility of the Tenant to make. Landlord is to provide a list of telephone numbers (ESCR form) to call for maintenance services, including a number for window breakage, if needed.

7.1 The Tenant shall reimburse the Landlord for any repairs to the Premises from damage which exceeds normal wear and tear to be expected from lawful and proper use of the Premises and the sole cause of which was the negligent acts or omissions of Tenant's employees or clients.

7.2 The Tenant shall be responsible for the following repair and maintenance operations: **NONE.**

7.3 Alterations & Improvements – **Deleted, Not Applicable.**

8. Landlord Obligations -

8.1 Governmental Compliance - Landlord represents and warrants that the Premises will comply with all applicable governmental laws, rules and regulations during the term of this Agreement including, but not limited to, applicable codes and use permits.

8.2 Fire Inspection Report - Landlord shall provide to Tenant, a written fire inspection report dated within five years of the Effective Date on this Agreement, approving the Premises for occupancy.

8.3 Authority to Bind - Landlord represents and warrants that it has legal ownership and authority to enter into this Agreement, and shall provide a recorded warranty deed and/or other documentation necessary to confirm ownership and authority.

8.4 Insurance - Landlord is required to provide proof of General premises liability insurance for the Premises identified in Paragraph 1, which provides full coverage for the Landlord, the Tenant, and their respective agents and employees and which protects against all claims, demands, actions, suits, or causes of action, and judgments, settlements or recoveries, for bodily injury or property damage arising out of a condition of the Premises. The Landlord agrees to maintain minimum policy limits in the amount of $500,000.00 per occurrence for property damage, and $1,000,000.00 per occurrence for bodily injury, with a $2,000,000.00 aggregate. The Landlord shall provide to the Tenant a certificate of insurance listing the Tenant, its several departments, boards, agencies, commissions, officers, and employees as additional insureds, within thirty (30) calendar days following execution and delivery of this Agreement to the Landlord. The insurance policy shall provide that it may not be modified, cancelled, or allowed to expire without thirty (30) days prior written notice given to the Tenant.

8.5 Rent With-Holding - If the Landlord fails to provide supporting documentation, as required by Paragraphs 7.1, 8.2, 8.3 and 8.4, ten percent (10%) of the monthly rent consideration shall be held by the Tenant, until the required documentation is provided to the Tenant.

8.6 First Right of Refusal - The Landlord shall not rent or otherwise occupy any adjoining space which is or becomes vacant on the Premises known as 5510 Clio Road, Flint, MI 48504 during the term of this Agreement, or any extensions

thereof, without first offering for a period of ten (10) days, the space to the Tenant at the Tenant's current rental rate, and under the same terms and conditions found in this Agreement.

9. Public Policy Provisions -

9.1 Non-Discrimination - Landlord shall comply with the Elliott-Larsen Civil Rights Act, 1976 PA 453, as amended, MCL 37.2101 et seq., the Persons with Disabilities Civil Rights Act, 1976 PA 220, as amended, MCL 37.1101 et seq., and all other federal, state and local fair employment practices and equal opportunity laws and covenants that it shall not discriminate against any employee or applicant for employment, to be employed in the performance of this Agreement, with respect to his or her hire, tenure, terms, conditions, or privileges of employment, or any matter directly or indirectly related to employment, because of his or her race, religion, color, national origin, age, sex, height, weight, marital status, or physical or mental disability that is unrelated to the individual's ability to perform the duties of a particular job or position. The Landlord agrees to include in every subcontract entered into for the performance of this real estate contract this covenant not to discriminate in employment. A breach of this covenant is a material breach of this Agreement.

9.2 Utilization of Public Facilities by Physically Limited - Premises shall comply with the barrier free design requirements of 1966 PA 1, as amended, MCL 125.1351 et seq.

9.3 Unfair Labor Practices - This Agreement may be canceled by Tenant if Landlord or any subcontractor, manufacturer or supplier of the Landlord appears in the register compiled by the State of Michigan pursuant to 1980 Public Act 278, as amended, MCL 423.321 et seq. (Employers Engaging in Unfair Labor Practices Act). A breach of this covenant is a material breach of this Agreement.

9.4 Electronic Funds Transfer - Public Act 533 of 2004 requires that payments under this Agreement be processed by electronic funds transfer (EFT). Landlord is required to register to receive payments by EFT at the Contract & Payment Express website (www.mi.gov/cpexpress) or call (888) 734-9749 to receive payments by EFT.

10. Notices - Any notice to Tenant required by this Agreement shall be complete if submitted in writing and transmitted by personal delivery (with signed delivery receipt), or certified or registered mail return receipt requested, or by a nationally recognized overnight delivery service. Unless either party notifies the other in writing of a different mailing address, notice to the Landlord and/or Tenant shall be transmitted to:

The notice shall be deemed on either (i) the third business day following the date of mailing, if transmitted by mail or (ii) the date on which the noticed party receives or refuses receipt of the notice, if transmitted by personal delivery, or a nationally recognized overnight delivery service. Business day is defined as any day other than a Saturday, Sunday, legal holiday, or day preceding a legal holiday. A receipt from a U.S. Postal Service, or successor agency, performing such function shall be conclusive evidence of the date of mailing.

11. Miscellaneous Provisions -

11.1 Governing Law - This Agreement shall be governed by and interpreted in accordance with the laws of the State of Michigan.

11.2 Mutual Drafting - This Agreement shall be interpreted and construed as drafted mutually by both parties.

11.3 Entire Agreement - This Agreement, with all Attachments as listed herein, constitutes the entire agreement between the parties with regard to this transaction and may be amended only in writing, signed by each party.

11.4 Severability - Should any provision of this Agreement or any addenda thereto be found to be illegal or otherwise unenforceable by a court of law, such provision shall be severed from the remainder of the Agreement, and such action shall not affect the enforceability of the remaining provisions of the Agreement.

11.5 Waiver - Failure to enforce any term of this Agreement shall not be deemed a waiver of the enforcement of that or any other term of this Agreement.

11.6 Effective Date - The Effective Date of this Agreement is the date signed by the Real Estate Director of the Department of Technology, Management & Budget.

11.7 Binding Effect - This Agreement shall be binding upon and inure to the benefit of the heirs, executors, administrators and assigns of Landlord and Tenant.

11.8 Counterparts - This Agreement may be executed in counterparts, each which shall be deemed an original, and all of which together shall constitute one and the same agreement. An electronic, scanned or facsimile signature shall be deemed an original.

11.9 Assignment - The Tenant, through its Department of Technology, Management & Budget may assign or reassign any or all of the Premises to any branch, department, board, agency, commission or other instrumentality of State government without the necessity of obtaining consent of the Landlord.

Agreement #11867 – 2016

RENTAL AGREEMENT

Between

Bell Warehousing & Manufacturing Services, Inc.

A Domestic Profit Corporation

and the

State Of Michigan

THIS RENTAL AGREEMENT (hereinafter referred to as "Agreement") is entered into by and between **Bell Warehousing & Manufacturing Services, Inc.**, a **Domestic Profit Corporation**, as Landlord, whose address is **5510 Clio Road, Flint, Michigan 48504**, and the State of Michigan, by the Department of Technology, Management & Budget, whose address is 7150 Harris Drive, Suite 2B, Dimondale, MI 48821, for the **Department of Technology, Management & Budget, (DTMB) Office of Infrastructure Protection**, as Tenant, and establishes the following terms, conditions, performance obligations, and covenants between the parties:

1. **Premises & Rent** –

1.1 Landlord hereby rents to Tenant up to approximately **80,000** usable square feet of warehouse space, as further described in Attachment "A" to this Agreement, in the building commonly known as **4315 Clio Road, Flint, MI 48504** (the "Premises"). The Tenant shall further have non-exclusive use of the parking areas, docks, and entrances, hallways, and the restroom facilities of the warehouse Premises in common with the Landlord and/or other tenants of the Premises.

1.2 Tenant shall pay to Landlord $4.00 per square foot annually beginning on January 14, 2016, for up to 80,000 square feet. Rent consideration installment payments shall be made during the month for which the installment applies.

1.3 In addition the Landlord will provide four fork trucks, fuel, and four personnel and labor to unload semi loads of pallets consisting of water and other materials (product), @ $75.00 per hour per fork lift and driver (all inclusive) for an 8 hour shift starting at 7:00 a.m. until 3:30 p.m. and overtime shall be paid @$90.00 per hour for the next four (4) hours for a total of twelve (12) hours a day and up to seven days a week that shall not exceed four (4) employees plus the supervisor. This work schedule shall be approved and substantiated by Jeannette Doll, or her counterpart from Department of Technology, Management & Budget, Office of Infrastructure Protection (DTMB, OIP), for an undetermined amount of time.

1.4 The State also agrees to pay for the Landlord to provide a Supervisor for his staff to coordinate the trucks and people from all agencies as deemed necessary by Jeanette Doll, DTMB/OIP, for not more than twelve (12) hours per day at a cost of $45.00 per hour with overtime billed at $67.50 per hour for four hours. The Landlord will indicate any overtime charged to the State, the hours, days and times of charges, as substantiated by DTMB/OIP.

1.5 The Landlord shall supply the following information in an invoice to the State of Michigan, DTMB every month:
(i) a running tally of the number of square feet of space used and (ii) overtime consideration, (iii) rent consideration installment payments and (iv) labor and overtime indicated in paragraphs 1.3 and 1.4 of this document. (v) all utility bills for heat and electric service to the Leased premise (vi) a one-time itemized charge listing the hours and equipment and personnel used to empty two offsite warehouses on January 14, 2016.

1.6 All items shall be itemized and submitted during the month for which the installment applies and may be on a per diem basis (if necessary).

1.7 It is understood by all parties, there is no management fee to be paid for these services.

2. **Term** - The term of this Agreement begins on **January 14, 2016** and ends on **January 13, 2017**, subject to the cancellation provisions of this Agreement.

3. **Holding Over** - In the event Tenant remains in possession of the Premises after the expiration or termination of the Agreement, it shall be deemed to be occupying the Premises as a Tenant from month-to-month, subject to all conditions, provisions and obligations of this Agreement.

4. **Cancellation** - This Agreement may be cancelled by the Tenant upon thirty (30) days written notice to the Landlord delivered to the address as set forth under the "Notices" Section of this Agreement, or to such other address as either party may designate in writing for the delivery of notices under this Agreement. This agreement will supersede and cancel all prior agreements.

   Upon cancellation, a satisfactory walk-thru inspection performed by DTMB Real Estate Division and the Landlord or the Landlord's representative; all keys and access cards returned to the Landlord.

5. **Services and Responsibilities of Landlord - Landlord shall furnish the following at its own expense:**
   - **5.1** Heating, mechanical ventilating, cooling.
   - **5.2** Electric service for lights, and all other electrical equipment. Lighting shall be adequate for a warehouse facility. Replacement of light bulbs and tubes as needed.
   - **5.3** 100% payment for water and/or sewer used in the premises
   - **5.4** Provide and maintain any equipment required by the Fire Inspector for fire prevention and safety.
   - **5.5** Pest Control.
   - **5.6** Snow removal from driveways, steps, porches, walkways, exterior grounds maintenance, including grass and weed cutting, clippings removal, leaf raking,

litter removal, sidewalk surface and parking lot surface maintenance.

5.7 Removal of trash and refuse from the dumpsters on Premises.

6. Services and Responsibilities of Tenant - Tenant shall furnish the following at its own expense:

6.1- 100% payment for metered public utilities used for heating, cooling, illumination.

7. Repair and Maintenance -

The Tenant shall notify the Landlord or his agent of the need for any repairs or replacements, which are not the responsibility of the Tenant to make. Landlord is to provide a list of telephone numbers (ESCR form) to call for maintenance services, including a number for window breakage, if needed.

7.1 The Tenant shall reimburse the Landlord for any repairs to the Premises from damage which exceeds normal wear and tear to be expected from lawful and proper use of the Premises and the sole cause of which was the negligent acts or omissions of Tenant's employees or clients.

7.2 The Tenant shall be responsible for the following repair and maintenance operations: **NONE.**

7.3 Alterations & Improvements – **Deleted, Not Applicable.**

8. Landlord Obligations -

8.1 Governmental Compliance - Landlord represents and warrants that the Premises will comply with all applicable governmental laws, rules and regulations during the term of this Agreement including, but not limited to, applicable codes and use permits.

8.2 Fire Inspection Report - Landlord shall provide to Tenant, a written fire inspection report dated within five years of the Effective Date on this Agreement, approving the Premises for occupancy.

8.3 Authority to Bind - Landlord represents and warrants that it has legal ownership and authority to enter into this Agreement, and shall provide a recorded warranty deed and/or other documentation necessary to confirm ownership and authority.

8.4 Insurance - Landlord is required to provide proof of General premises liability insurance for the Premises identified in Paragraph 1, which provides full coverage for the Landlord, the Tenant, and their respective agents and employees and which protects against all claims, demands, actions, suits, or causes of action, and judgments, settlements or recoveries, for bodily injury or property damage arising out of a condition of the Premises. The Landlord agrees to maintain minimum policy limits in the amount of $500,000.00 per occurrence for property damage, and $1,000,000.00 per occurrence for bodily injury, with a $2,000,000.00 aggregate. The Landlord shall provide to the Tenant a certificate of insurance listing the Tenant, its several departments, boards, agencies, commissions, officers, and employees as additional insureds, within thirty (30) calendar days following execution and delivery of this Agreement to the Landlord. The insurance policy shall provide that it may not be modified, cancelled, or allowed to expire without thirty (30) days prior written notice given to the Tenant.

8.5 Rent With-Holding - If the Landlord fails to provide supporting documentation, as required by Paragraphs 7.1, 8.2, 8.3 and 8.4, ten percent (10%) of the monthly rent consideration shall be held by the Tenant, until the required documentation is provided to the Tenant.

8.6 First Right of Refusal - The Landlord shall not rent or otherwise occupy any adjoining space which is or becomes vacant on the Premises known as 5510 Clio Road, Flint, MI 48504 during the term of this Agreement, or any extensions thereof, without first offering for a period of ten (10) days, the space to the

Tenant at the Tenant's current rental rate, and under the same terms and conditions found in this Agreement.

9. Public Policy Provisions -

9.1 Non-Discrimination - Landlord shall comply with the Elliott-Larsen Civil Rights Act, 1976 PA 453, as amended, MCL 37.2101 et seq., the Persons with Disabilities Civil Rights Act, 1976 PA 220, as amended, MCL 37.1101 et seq., and all other federal, state and local fair employment practices and equal opportunity laws and covenants that it shall not discriminate against any employee or applicant for employment, to be employed in the performance of this Agreement, with respect to his or her hire, tenure, terms, conditions, or privileges of employment, or any matter directly or indirectly related to employment, because of his or her race, religion, color, national origin, age, sex, height, weight, marital status, or physical or mental disability that is unrelated to the individual's ability to perform the duties of a particular job or position. The Landlord agrees to include in every subcontract entered into for the performance of this real estate contract this covenant not to discriminate in employment. A breach of this covenant is a material breach of this Agreement.

9.2 Utilization of Public Facilities by Physically Limited - Premises shall comply with the barrier free design requirements of 1966 PA 1, as amended, MCL 125.1351 et seq.

Importance: High

Maureen,

In an effort to assist the people of flint during the water crisis, UIA would like to establish a mini-problem resolution office in Flint. I checked with Troy Spitzley, and he indicated that there is not space at the Flint State Office Building. Can you please reach out to the other agencies with space in flint or give me a list of space so that I can make contact? Obviously, this is on the fast track. Any help/ideas would be appreciated. We are looking for a single office or cubicle.

Thanks much!
Teri

Hi Will,

Carol has brought to my attention that there may be some concerns with the adjacent lease space at the Lab. She was also wondering if anyone has reached out to the DMVA across the road for possible storage space? Could you please advise to her concerns at your earliest convenience? Thanks in advance for your help with this Will and have a great day!!

Subject: Sample Storage Space

Neal – Based on our phone conversation, I'm looking for storage/warehouse space for a potentially large amount of water samples over the next few months with the State of Emergency that is happening in Flint right now. Wondering if there are any locations near the Lab that we could utilize for this effort if necessary. At a minimum, the space would need to be secured and temperature controlled, only to prevent freezing. Also looking for pallets that can hold around 1000 Lbs or more. The idea is that we palletize samples here and have them transferred to this storage location on a daily/weekly basis as necessary. There is really no storage space for this kind of capacity here at the State Lab. Initial estimate of space needs based on the number of potential samples would be 1000-1500 ft^2, enough to hold around 100 (3'x4') pallets with additional space to maneuver around to get to specific pallets if necessary.

Sandip – Copying you on this message if you have any ideas that could help.

Thank you!
Kirby

Subject: RE: Sample Storage Space

Mary Kay,
I understand they don't want the office space, we can do an RFP to find space if you like.
I will let the Landlord know that DEQ is not interested so that we don't hold him up any longer…that's where we will get into legal trouble.
I have a call into the airport, waiting for them to call back. I asked Keith Pasch about DTMB warehouse space, he knows of nothing, still checking.
Perhaps Keith Hawes knows of something…

Subject: Sample Storage Space

Neal – Based on our phone conversation, I'm looking for storage/warehouse space for a potentially large amount of water samples over the next few months with the State of Emergency that is happening in Flint right now. Wondering if there are any locations near the Lab that we could utilize for this effort if necessary. At a minimum, the space would need to be secured and temperature controlled, only to prevent freezing. Also looking for pallets that can hold around 1000 Lbs or more. The idea is that we palletize samples here and have them transferred to this storage location on a daily/weekly basis as necessary. There is really no storage space for this kind of capacity here at the State Lab. Initial estimate of space needs based on the number of potential samples would be 1000-1500 ft^2, enough to hold around 100 (3'x4') pallets with additional space to maneuver around to get to specific pallets if necessary.

Sandip – Copying you on this message if you have any ideas that could help.

Thank you!
Kirby

Mary Kay,
There may be space available at building 100, not sure of the security needs there. Bob Burns suggested you go look at the space and see if it meets your needs as far as space and security.
Please let me know.
Maureen

Jeanette,
The Lessor for the Kroger store said he will pay the water bill for the complex, will take $3.00 psf. Bernice figures the utility bill will be more like $1.-2. Per square foot.
Just to let you know. He also has a medical facility in the same complex built by Hurley Medical, they moved out, but this would be a great place for a clinic to test children, DHHS is next door. Good square foot rate for 8,000 sq.ft. for a 12 room facility in very good shape.

Subject: RE: Flint

Kurt,
On the corner of Clio and Pierson Road in the strip mall near your office there is a little over 8,000 square feet of medical offices (12 rooms) for a clinic if you think you want one close by your office. Hurley Medical Center built it out in 2008 and has since moved. The Landlord will give a really good square foot rate if you think someone may want to occupy it for the Flint lead testing site, or for any reason for that matter.
Thanks,
Maureen

Maureen,

Is there still a possibility for us to expand at the Bristol Road site? I already have child welfare staff there and I'd hate to consider a 3rd location for them. Just checking my options.

Thanks
Kurt

Kurt,
On the corner of Clio and Pierson Road in the strip mall near your office there is a little over 8,000 square feet of medical offices (12 rooms) for a clinic if you think you want one close by your office. Hurley Medical Center built it out in 2008 and has since moved. The Landlord will give a really good square foot rate if you think someone may want to occupy it for the Flint lead testing site, or for any reason for that matter.
Thanks,
Maureen

Good morning Maureen,

You had left me a voice mail yesterday regarding some space that may be available at Hurley Medical – I think that is what you said. Well, I accidently deleted the voicemail, can you send me the information again please?

Tx

Laurie,

Space is located at G-1388 Bristol Road, Suite 106, Flint.
There are 11,000 square feet total, DHHS already occupies 4,354 square feet (child welfare).
There are 6,646 square feet available to move into on very short notice.
Please let me know if you want to go to Flint today or on Monday to visit the site.

Maureen Bailey

Jeanette,
The Lessor for the Kroger store said he will pay the water bill for the complex, will take $3.00 psf. Bernice figures the utility bill will be more like $1.-2. Per square foot.
Just to let you know. He also has a medical facility in the same complex built by Hurley Medical, they moved out, but this would be a great place for a clinic to test children, DHHS is next door. Good square foot rate for 8,000 sq.ft. for a 12 room facility in very good shape.

Agreement #11872 - 2016

RENTAL AGREEMENT

Between

HALLWOOD PLAZA, INC.

A Michigan Corporation

and the

State Of Michigan

THIS RENTAL AGREEMENT (hereinafter referred to as "Agreement") is entered into by and between **Hallwood Plaza, Inc.**, a **Michigan Corporation**, as Landlord, whose address is **4908 Mac Street, Midland, Michigan, 48640**, and the State of Michigan, by and for the Department of Technology, Management & Budget, whose address is 7150 Harris Drive, Suite 2B, Dimondale, MI 48821, as Tenant, and establishes the following terms, conditions, performance obligations, and covenants between the parties:

1. **Premises & Rent** –
   - **1.1** Landlord hereby rents to Tenant approximately **74,000** usable square feet of retail, warehouse and office space, as further described in Attachment "A" to this Agreement, in the building commonly known as **2629 Pierson Road**, **Flint**, MI **48504** (the "Premises"). The Tenant shall further have non-exclusive use of the parking areas, entrances, hallways, and the restroom facilities of the Premises in common with the Landlord and/or other tenants of the Premises.

   - **1.2** Tenant shall pay to Landlord rent at the rate of Thirteen Thousand Eight Hundred Seventy Five Dollars ($13,875.00) per month. Rent consideration installment payments shall be made during the month for which the installment applies.

2. **Term** - The term of this Agreement begins on **February 3, 2016** and ends on **January 31, 2017**, subject to the cancellation provisions of this Agreement.

3. **Holding Over** - In the event Tenant remains in possession of the Premises after the expiration or termination of the Agreement, it shall be deemed to be occupying the Premises as a Tenant from month-to-month, subject to all conditions, provisions and obligations of this Agreement, and the rent shall remain the same as the monthly rent owing at the end of the Agreement.

4. **Cancellation** - This Agreement may be cancelled by the Tenant upon thirty (30) days written notice to the Landlord delivered to the address as set forth under the "Notices" Section of this Agreement, or to such other address as either party may designate in writing for the delivery of notices under this Agreement. This agreement will supersede and cancel all prior agreements.

Upon cancellation or termination of this Agreement, the Tenant shall clean the Premises to "broom-clean condition", and shall remove all Tenant furnishings from the Premises. Furnishings remaining in or on the Premises after the cancellation or termination effective date shall be considered abandoned property, and the Tenant shall be obligated to pay the Landlord for all reasonable removal costs.

5. **Services and Responsibilities of Landlord - Landlord shall furnish the following at its own expense:**
   - **5.1** Heating, mechanical ventilating, cooling, and humidification system capable of providing a temperature range of 68°F to 78°F, measured at 30" above the finished floor, and 12" inside any exterior wall, and a humidification range of 30% to 50%, at all times occupied.
   - **5.2** Electric service for lights, office machines, and all other electrical equipment. Lighting to be a minimum of 50-foot candles, maintained at desk level. Replacement of light bulbs and tubes as needed.
   - **5.3** Provide and maintain any equipment required by the Fire Inspector for fire prevention and safety.
   - **5.4** Pest Control.
   - **5.5** Snow removal from driveways, steps, porches, walkways, exterior grounds maintenance, including grass and weed cutting, clippings removal, leaf raking, litter removal, sidewalk surface and parking lot surface maintenance.
   - **5.6** Total Access to the facility (Kroger store) including 2nd floor conference rooms and offices
   - **5.8** **Shelving units, produce department, ice freezers, coolers, two motorized pallet jacks/fork lifts, coolers and ice makers, deli equipment, signage and all other amenities or equipment on site**
   - **5.9** Commercial grade, heavy duty locking hardware. Prior to Tenant possession, all doors providing access to the Premises shall be rekeyed and two (2) keys per lock combination shall be provided to the Tenant.

6. **Services and Responsibilities of Tenant - Tenant shall furnish the following at its own expense:**
   - **6.1** 100% payment for metered public utilities used for heating, cooling, illumination, power and water and/or sewer used in the premises.
   - **6.2** Janitorial supplies, equipment, personnel, and supervision to provide cleaning services.
   - **6.3** Security and Telecommunication
   - **6.4** Dumpsters or compacters, and removal of trash and refuse from the dumpsters/compacters on Premises.

7. **Repair and Maintenance** -
   - **7.1** The Tenant shall notify the Landlord or his agent of the need for any repairs or replacements, which are not the responsibility of the Tenant to make. Landlord is to provide a list of telephone numbers (ESCR form) to call for maintenance services, including a number for window breakage, if needed.
   - **7.2** The Tenant shall reimburse the Landlord for any repairs to the Premises from damage which exceeds normal wear and tear to be expected from lawful and proper use of the Premises and the sole cause of which was the negligent acts or omissions of Tenant's employees or clients.
   - **7.3** The Tenant shall be responsible for the following repair and maintenance operations: **NONE.**

7.4 **Alterations & Improvements prior to occupancy**

- **Clean the premises and make necessary arrangements for repairing or replacing lights, activating electricity, heating and cooling as necessary**
- **Repair of the roof leak at the entrance**
- **Replace all missing ceiling tile**
- **Pay all outstanding heat, electricity, water and sewer bills**
- **Remove shelving at the request of the Tenant representative.**

8. Landlord Obligations -

8.1 Governmental Compliance - Landlord represents and warrants that the Premises will comply with all applicable governmental laws, rules and regulations during the term of this Agreement including, but not limited to, applicable codes and use permits.

8.2 Fire Inspection Report - Landlord shall provide to Tenant, a written fire inspection report dated within five years of the Effective Date on this Agreement, approving the Premises for occupancy.

8.3 Authority to Bind - Landlord represents and warrants that it has legal ownership and authority to enter into this Agreement, and shall provide a recorded warranty deed and/or other documentation necessary to confirm ownership and authority.

8.4 Insurance - Landlord is required to provide proof of General premises liability insurance for the Premises identified in Paragraph 1, which provides full coverage for the Landlord, the Tenant, and their respective agents and employees and which protects against all claims, demands, actions, suits, or causes of action, and judgments, settlements or recoveries, for bodily injury or property damage arising out of a condition of the Premises. The Landlord agrees to maintain minimum policy limits in the amount of $500,000.00 per occurrence for property damage, and $1,000,000.00 per occurrence for bodily injury, with a $2,000,000.00 aggregate. The Landlord shall provide to the Tenant a certificate of insurance listing the Tenant, its several departments, boards, agencies, commissions, officers, and employees as additional insureds, within thirty (30) calendar days following execution and delivery of this Agreement to the Landlord. The insurance policy shall provide that it may not be modified, cancelled, or allowed to expire without thirty (30) days prior written notice given to the Tenant.

8.5 Rent With-Holding - If the Landlord fails to provide supporting documentation, as required by Paragraphs 7.1, 8.2, 8.3 and 8.4, ten percent (10%) of the monthly rent consideration shall be held by the Tenant, until the required documentation is provided to the Tenant.

8.6 First Right of Refusal – **Deleted, Not Applicable**

9. Public Policy Provisions -

9.1 Non-Discrimination - Landlord shall comply with the Elliott-Larsen Civil Rights Act, 1976 PA 453, as amended, MCL 37.2101 et seq., the Persons with Disabilities Civil Rights Act, 1976 PA 220, as amended, MCL 37.1101 et seq., and all other federal, state and local fair employment practices and equal opportunity laws and covenants that it shall not discriminate against any employee or applicant for employment, to be employed in the performance of this Agreement, with respect to his or her hire, tenure, terms, conditions, or privileges of employment, or any matter directly or indirectly related to employment, because of his or her race, religion, color, national origin, age, sex, height, weight, marital status, or physical or mental disability that is unrelated to the individual's ability to perform the duties of a particular job or position. The Landlord agrees to include in every subcontract entered into for the performance

of this real estate contract this covenant not to discriminate in employment. A breach of this covenant is a material breach of this Agreement.

9.2 Utilization of Public Facilities by Physically Limited - Premises shall comply with the barrier free design requirements of 1966 PA 1, as amended, MCL 125.1351 et seq.

9.3 Unfair Labor Practices - This Agreement may be canceled by Tenant if Landlord or any subcontractor, manufacturer or supplier of the Landlord appears in the register compiled by the State of Michigan pursuant to 1980 Public Act 278, as amended, MCL 423.321 et seq. (Employers Engaging in Unfair Labor Practices Act). A breach of this covenant is a material breach of this Agreement.

9.4 Electronic Funds Transfer - Public Act 533 of 2004 requires that payments under this Agreement be processed by electronic funds transfer (EFT). Landlord is required to register to receive payments by EFT at the Contract & Payment Express website (www.mi.gov/cpexpress) or call (888) 734-9749 to receive payments by EFT.

10. Notices - Any notice to Tenant required by this Agreement shall be complete if submitted in writing and transmitted by personal delivery (with signed delivery receipt), or certified or registered mail return receipt requested, or by a nationally recognized overnight delivery service. Unless either party notifies the other in writing of a different mailing address, notice to the Landlord and/or Tenant shall be transmitted to:

Landlord	**Tenant**
Hallwood Plaza, Inc.	Director, Real Estate Division

The notice shall be deemed on either (i) the third business day following the date of mailing, if transmitted by mail or (ii) the date on which the noticed party receives or refuses receipt of the notice, if transmitted by personal delivery, or a nationally recognized overnight delivery service. Business day is defined as any day other than a Saturday, Sunday, legal holiday, or day preceding a legal holiday. A receipt from a U.S. Postal Service, or successor agency, performing such function shall be conclusive evidence of the date of mailing.

11. Miscellaneous Provisions -

11.1 Governing Law - This Agreement shall be governed by and interpreted in accordance with the laws of the State of Michigan.

11.2 Mutual Drafting - This Agreement shall be interpreted and construed as drafted mutually by both parties.

11.3 Entire Agreement - This Agreement, with all Attachments as listed herein, constitutes the entire agreement between the parties with regard to this transaction and may be amended only in writing, signed by each party.

11.4 Severability - Should any provision of this Agreement or any addenda thereto be found to be illegal or otherwise unenforceable by a court of law, such provision shall be severed from the remainder of the Agreement, and such action shall not affect the enforceability of the remaining provisions of the Agreement.

11.5 Waiver - Failure to enforce any term of this Agreement shall not be deemed a waiver of the enforcement of that or any other term of this Agreement.

11.6 Effective Date - The Effective Date of this Agreement is the date signed by the Real Estate Director of the Department of Technology, Management & Budget.

11.7 Binding Effect - This Agreement shall be binding upon and inure to the benefit of the heirs, executors, administrators and assigns of Landlord and Tenant.

11.8 Counterparts - This Agreement may be executed in counterparts, each which shall be deemed an original, and all of which together shall constitute one and the same agreement. An electronic, scanned or facsimile signature shall be deemed an original.

11.9 Assignment - The Tenant, through its Department of Technology, Management & Budget may assign or reassign any or all of the Premises to any branch, department, board, agency, commission or other instrumentality of State government without the necessity of obtaining consent of the Landlord.

12. Attachments -

Agreement #11872 - 2016

RENTAL AGREEMENT

Between

HALLWOOD PLAZA, INC.

A Michigan Corporation

and the

State Of Michigan

THIS RENTAL AGREEMENT (hereinafter referred to as "Agreement") is entered into by and between **Hallwood Plaza, Inc.**, a **Michigan Corporation**, as Landlord, whose address is **4908 Mac Street, Midland, Michigan, 48640**, and the State of Michigan, by and for the Department of Technology, Management & Budget, whose address is 7150 Harris Drive, Suite 2B, Dimondale, MI 48821, as Tenant, and establishes the following terms, conditions, performance obligations, and covenants between the parties:

1. **Premises & Rent** –
   - **1.1** Landlord hereby rents to Tenant approximately **74,000** usable square feet of retail, warehouse and office space, as further described in Attachment "A" to this Agreement, in the building commonly known as **2629 Pierson Road**, **Flint**, MI **48504** (the "Premises"). The Tenant shall further have non-exclusive use of the parking areas, entrances, hallways, and the restroom facilities of the Premises in common with the Landlord and/or other tenants of the Premises.

   - **1.2** Tenant shall pay to Landlord rent at the rate of Thirteen Thousand Eight Hundred Seventy Five Dollars ($13,875.00) per month. Rent consideration installment payments shall be made during the month for which the installment applies.

2. **Term** - The term of this Agreement begins on **February 3, 2016** and ends on **January 31, 2017**, subject to the cancellation provisions of this Agreement.

3. **Holding Over** - In the event Tenant remains in possession of the Premises after the expiration or termination of the Agreement, it shall be deemed to be occupying the Premises as a Tenant from month-to-month, subject to all conditions, provisions and obligations of this Agreement, and the rent shall remain the same as the monthly rent owing at the end of the Agreement.

4. **Cancellation** - This Agreement may be cancelled by the Tenant upon thirty (30) days written notice to the Landlord delivered to the address as set forth under the "Notices" Section of this Agreement, or to such other address as either party may designate in writing for the delivery of notices under this Agreement. This agreement will supersede and cancel all prior agreements.

Upon cancellation or termination of this Agreement, the Tenant shall clean the Premises to "broom-clean condition", and shall remove all Tenant furnishings from the Premises. Furnishings remaining in or on the Premises after the cancellation or termination effective date shall be considered abandoned property, and the Tenant shall be obligated to pay the Landlord for all reasonable removal costs.

5. **Services and Responsibilities of Landlord - Landlord shall furnish the following at its own expense:**
   - **5.1** Heating, mechanical ventilating, cooling, and humidification system capable of providing a temperature range of 68°F to 78°F, measured at 30" above the finished floor, and 12" inside any exterior wall, and a humidification range of 30% to 50%, at all times occupied.
   - **5.2** Electric service for lights, office machines, and all other electrical equipment. Lighting to be a minimum of 50-foot candles, maintained at desk level. Replacement of light bulbs and tubes as needed.
   - **5.3** Provide and maintain any equipment required by the Fire Inspector for fire prevention and safety.
   - **5.4** Pest Control.
   - **5.5** Snow removal from driveways, steps, porches, walkways, exterior grounds maintenance, including grass and weed cutting, clippings removal, leaf raking, litter removal, sidewalk surface and parking lot surface maintenance.
   - **5.6** Total Access to the facility (Kroger store) including 2nd floor conference rooms and offices
   - **5.8** **Shelving units, produce department, ice freezers, coolers, two motorized pallet jacks/fork lifts, coolers and ice makers, deli equipment, signage and all other amenities or equipment on site**
   - **5.9** Commercial grade, heavy duty locking hardware. Prior to Tenant possession, all doors providing access to the Premises shall be rekeyed and two (2) keys per lock combination shall be provided to the Tenant.

6. **Services and Responsibilities of Tenant - Tenant shall furnish the following at its own expense:**
   - **6.1** 100% payment for metered public utilities used for heating, cooling, illumination, power and water and/or sewer used in the premises.
   - **6.2** Janitorial supplies, equipment, personnel, and supervision to provide cleaning services.
   - **6.3** Security and Telecommunication
   - **6.4** Dumpsters or compacters, and removal of trash and refuse from the dumpsters/compacters on Premises.

7. **Repair and Maintenance** -
   - **7.1** The Tenant shall notify the Landlord or his agent of the need for any repairs or replacements, which are not the responsibility of the Tenant to make. Landlord is to provide a list of telephone numbers (ESCR form) to call for maintenance services, including a number for window breakage, if needed.
   - **7.2** The Tenant shall reimburse the Landlord for any repairs to the Premises from damage which exceeds normal wear and tear to be expected from lawful and proper use of the Premises and the sole cause of which was the negligent acts or omissions of Tenant's employees or clients.
   - **7.3** The Tenant shall be responsible for the following repair and maintenance operations: **NONE.**

7.4 **Alterations & Improvements prior to occupancy**

- **Clean the premises and make necessary arrangements for repairing or replacing lights, activating electricity, heating and cooling as necessary**
- **Repair of the roof leak at the entrance**
- **Replace all missing ceiling tile**
- **Pay all outstanding heat, electricity, water and sewer bills**
- **Remove shelving at the request of the Tenant representative.**

8. Landlord Obligations -

8.1 Governmental Compliance - Landlord represents and warrants that the Premises will comply with all applicable governmental laws, rules and regulations during the term of this Agreement including, but not limited to, applicable codes and use permits.

8.2 Fire Inspection Report - Landlord shall provide to Tenant, a written fire inspection report dated within five years of the Effective Date on this Agreement, approving the Premises for occupancy.

8.3 Authority to Bind - Landlord represents and warrants that it has legal ownership and authority to enter into this Agreement, and shall provide a recorded warranty deed and/or other documentation necessary to confirm ownership and authority.

8.4 Insurance - Landlord is required to provide proof of General premises liability insurance for the Premises identified in Paragraph 1, which provides full coverage for the Landlord, the Tenant, and their respective agents and employees and which protects against all claims, demands, actions, suits, or causes of action, and judgments, settlements or recoveries, for bodily injury or property damage arising out of a condition of the Premises. The Landlord agrees to maintain minimum policy limits in the amount of $500,000.00 per occurrence for property damage, and $1,000,000.00 per occurrence for bodily injury, with a $2,000,000.00 aggregate. The Landlord shall provide to the Tenant a certificate of insurance listing the Tenant, its several departments, boards, agencies, commissions, officers, and employees as additional insureds, within thirty (30) calendar days following execution and delivery of this Agreement to the Landlord. The insurance policy shall provide that it may not be modified, cancelled, or allowed to expire without thirty (30) days prior written notice given to the Tenant.

8.5 Rent With-Holding - If the Landlord fails to provide supporting documentation, as required by Paragraphs 7.1, 8.2, 8.3 and 8.4, ten percent (10%) of the monthly rent consideration shall be held by the Tenant, until the required documentation is provided to the Tenant.

8.6 First Right of Refusal – **Deleted, Not Applicable**

9. Public Policy Provisions -

9.1 Non-Discrimination - Landlord shall comply with the Elliott-Larsen Civil Rights Act, 1976 PA 453, as amended, MCL 37.2101 et seq., the Persons with Disabilities Civil Rights Act, 1976 PA 220, as amended, MCL 37.1101 et seq., and all other federal, state and local fair employment practices and equal opportunity laws and covenants that it shall not discriminate against any employee or applicant for employment, to be employed in the performance of this Agreement, with respect to his or her hire, tenure, terms, conditions, or privileges of employment, or any matter directly or indirectly related to employment, because of his or her race, religion, color, national origin, age, sex, height, weight, marital status, or physical or mental disability that is unrelated to the individual's ability to perform the duties of a particular job or position. The Landlord agrees to include in every subcontract entered into for the performance

of this real estate contract this covenant not to discriminate in employment. A breach of this covenant is a material breach of this Agreement.

9.2 Utilization of Public Facilities by Physically Limited - Premises shall comply with the barrier free design requirements of 1966 PA 1, as amended, MCL 125.1351 et seq.

9.3 Unfair Labor Practices - This Agreement may be canceled by Tenant if Landlord or any subcontractor, manufacturer or supplier of the Landlord appears in the register compiled by the State of Michigan pursuant to 1980 Public Act 278, as amended, MCL 423.321 et seq. (Employers Engaging in Unfair Labor Practices Act). A breach of this covenant is a material breach of this Agreement.

9.4 Electronic Funds Transfer - Public Act 533 of 2004 requires that payments under this Agreement be processed by electronic funds transfer (EFT). Landlord is required to register to receive payments by EFT at the Contract & Payment Express website (www.mi.gov/cpexpress) or call (888) 734-9749 to receive payments by EFT.

10. Notices - Any notice to Tenant required by this Agreement shall be complete if submitted in writing and transmitted by personal delivery (with signed delivery receipt), or certified or registered mail return receipt requested, or by a nationally recognized overnight delivery service. Unless either party notifies the other in writing of a different mailing address, notice to the Landlord and/or Tenant shall be transmitted to:

Landlord	**Tenant**
Hallwood Plaza, Inc.	Director, Real Estate Division

The notice shall be deemed on either (i) the third business day following the date of mailing, if transmitted by mail or (ii) the date on which the noticed party receives or refuses receipt of the notice, if transmitted by personal delivery, or a nationally recognized overnight delivery service. Business day is defined as any day other than a Saturday, Sunday, legal holiday, or day preceding a legal holiday. A receipt from a U.S. Postal Service, or successor agency, performing such function shall be conclusive evidence of the date of mailing.

11. Miscellaneous Provisions -

11.1 Governing Law - This Agreement shall be governed by and interpreted in accordance with the laws of the State of Michigan.

11.2 Mutual Drafting - This Agreement shall be interpreted and construed as drafted mutually by both parties.

11.3 Entire Agreement - This Agreement, with all Attachments as listed herein, constitutes the entire agreement between the parties with regard to this transaction and may be amended only in writing, signed by each party.

11.4 Severability - Should any provision of this Agreement or any addenda thereto be found to be illegal or otherwise unenforceable by a court of law, such provision shall be severed from the remainder of the Agreement, and such action shall not affect the enforceability of the remaining provisions of the Agreement.

11.5 Waiver - Failure to enforce any term of this Agreement shall not be deemed a waiver of the enforcement of that or any other term of this Agreement.

11.6 Effective Date - The Effective Date of this Agreement is the date signed by the Real Estate Director of the Department of Technology, Management & Budget.

11.7 Binding Effect - This Agreement shall be binding upon and inure to the benefit of the heirs, executors, administrators and assigns of Landlord and Tenant.

11.8 Counterparts - This Agreement may be executed in counterparts, each which shall be deemed an original, and all of which together shall constitute one and the same agreement. An electronic, scanned or facsimile signature shall be deemed an original.

11.9 Assignment - The Tenant, through its Department of Technology, Management & Budget may assign or reassign any or all of the Premises to any branch, department, board, agency, commission or other instrumentality of State government without the necessity of obtaining consent of the Landlord.

Agreement #11872 - 2016

RENTAL AGREEMENT

Between

HALLWOOD PLAZA, INC.

A Michigan Corporation

and the

State Of Michigan

THIS RENTAL AGREEMENT (hereinafter referred to as "Agreement") is entered into by and between **Hallwood Plaza, Inc.**, a **Michigan Corporation**, as Landlord, whose address is **4908 Mac Street, Midland, Michigan, 48640**, and the State of Michigan, by and for the Department of Technology, Management & Budget, whose address is 7150 Harris Drive, Suite 2B, Dimondale, MI 48821, as Tenant, and establishes the following terms, conditions, performance obligations, and covenants between the parties:

1. **Premises & Rent** –
   - **1.1** Landlord hereby rents to Tenant approximately **74,000** usable square feet of retail, warehouse and office space, as further described in Attachment "A" to this Agreement, in the building commonly known as **2629 Pierson Road**, **Flint**, MI **48504** (the "Premises"). The Tenant shall further have non-exclusive use of the parking areas, entrances, hallways, and the restroom facilities of the Premises in common with the Landlord and/or other tenants of the Premises.

   - **1.2** Tenant shall pay to Landlord rent at the rate of Thirteen Thousand Eight Hundred Seventy Five Dollars ($13,875.00) per month. Rent consideration installment payments shall be made during the month for which the installment applies.

2. **Term** - The term of this Agreement begins on **February 3, 2016** and ends on **January 31, 2017**, subject to the cancellation provisions of this Agreement.

3. **Holding Over** - In the event Tenant remains in possession of the Premises after the expiration or termination of the Agreement, it shall be deemed to be occupying the Premises as a Tenant from month-to-month, subject to all conditions, provisions and obligations of this Agreement, and the rent shall remain the same as the monthly rent owing at the end of the Agreement.

4. **Cancellation** - This Agreement may be cancelled by the Tenant upon thirty (30) days written notice to the Landlord delivered to the address as set forth under the "Notices" Section of this Agreement, or to such other address as either party may designate in writing for the delivery of notices under this Agreement. This agreement will supersede and cancel all prior agreements.

Upon cancellation or termination of this Agreement, the Tenant shall clean the Premises to "broom-clean condition", and shall remove all Tenant furnishings from the Premises. Furnishings remaining in or on the Premises after the cancellation or termination effective date shall be considered abandoned property, and the Tenant shall be obligated to pay the Landlord for all reasonable removal costs.

5. **Services and Responsibilities of Landlord - Landlord shall furnish the following at its own expense:**
   - **5.1** Heating, mechanical ventilating, cooling, and humidification system capable of providing a temperature range of 68°F to 78°F, measured at 30" above the finished floor, and 12" inside any exterior wall, and a humidification range of 30% to 50%, at all times occupied.
   - **5.2** Electric service for lights, office machines, and all other electrical equipment. Lighting to be a minimum of 50-foot candles, maintained at desk level. Replacement of light bulbs and tubes as needed.
   - **5.3** Provide and maintain any equipment required by the Fire Inspector for fire prevention and safety.
   - **5.4** Pest Control.
   - **5.5** Snow removal from driveways, steps, porches, walkways, exterior grounds maintenance, including grass and weed cutting, clippings removal, leaf raking, litter removal, sidewalk surface and parking lot surface maintenance.
   - **5.6** Total Access to the facility (Kroger store) including 2nd floor conference rooms and offices
   - **5.8** **Shelving units, produce department, ice freezers, coolers, two motorized pallet jacks/fork lifts, coolers and ice makers, deli equipment, signage and all other amenities or equipment on site**
   - **5.9** Commercial grade, heavy duty locking hardware. Prior to Tenant possession, all doors providing access to the Premises shall be rekeyed and two (2) keys per lock combination shall be provided to the Tenant.

6. **Services and Responsibilities of Tenant - Tenant shall furnish the following at its own expense:**
   - **6.1** 100% payment for metered public utilities used for heating, cooling, illumination, power and water and/or sewer used in the premises.
   - **6.2** Janitorial supplies, equipment, personnel, and supervision to provide cleaning services.
   - **6.3** Security and Telecommunication
   - **6.4** Dumpsters or compacters, and removal of trash and refuse from the dumpsters/compacters on Premises.

7. **Repair and Maintenance** -
   - **7.1** The Tenant shall notify the Landlord or his agent of the need for any repairs or replacements, which are not the responsibility of the Tenant to make. Landlord is to provide a list of telephone numbers (ESCR form) to call for maintenance services, including a number for window breakage, if needed.
   - **7.2** The Tenant shall reimburse the Landlord for any repairs to the Premises from damage which exceeds normal wear and tear to be expected from lawful and proper use of the Premises and the sole cause of which was the negligent acts or omissions of Tenant's employees or clients.
   - **7.3** The Tenant shall be responsible for the following repair and maintenance operations**: Repairs and Maintenance. Landlord allows the Tenant the use of the equipment, fixtures and refrigeration system whereby Tenant shall**

pay the charge to activate the refrigeration system and utilities to operate it. Repairs to this system due to wear and tear shall be by the Landlord. Tenant agrees to return all equipment in the same condition it was given to Tenant, less normal wear and tear.

7.4 **Alterations & Improvements prior to occupancy**

- **Clean the premises and make necessary arrangements for repairing or replacing lights, activating electricity, heating and cooling as necessary**
- **Repair of the roof leak at the entrance**
- **Replace all missing ceiling tile**
- **Pay all outstanding heat, electricity, water and sewer bills**
- **Remove shelving at the request of the Tenant representative**
- **Two motorized pallet jacks/fork lifts to be operational**

8. Landlord Obligations -

8.1 Governmental Compliance - Landlord represents and warrants that the Premises will comply with all applicable governmental laws, rules and regulations during the term of this Agreement including, but not limited to, applicable codes and use permits.

8.2 Fire Inspection Report - Landlord shall provide to Tenant, a written fire inspection report dated within five years of the Effective Date on this Agreement, approving the Premises for occupancy.

8.3 Authority to Bind - Landlord represents and warrants that it has legal ownership and authority to enter into this Agreement, and shall provide a recorded warranty deed and/or other documentation necessary to confirm ownership and authority.

8.4 Insurance - Landlord is required to provide proof of General premises liability insurance for the Premises identified in Paragraph 1, which provides full coverage for the Landlord, the Tenant, and their respective agents and employees and which protects against all claims, demands, actions, suits, or causes of action, and judgments, settlements or recoveries, for bodily injury or property damage arising out of a condition of the Premises. The Landlord agrees to maintain minimum policy limits in the amount of $500,000.00 per occurrence for property damage, and $1,000,000.00 per occurrence for bodily injury, with a $2,000,000.00 aggregate. The Landlord shall provide to the Tenant a certificate of insurance listing the Tenant, its several departments, boards, agencies, commissions, officers, and employees as additional insureds, within thirty (30) calendar days following execution and delivery of this Agreement to the Landlord. The insurance policy shall provide that it may not be modified, cancelled, or allowed to expire without thirty (30) days prior written notice given to the Tenant.

8.5 Rent With-Holding - If the Landlord fails to provide supporting documentation, as required by Paragraphs 7.1, 8.2, 8.3 and 8.4, ten percent (10%) of the monthly rent consideration shall be held by the Tenant, until the required documentation is provided to the Tenant.

8.6 First Right of Refusal – **Deleted, Not Applicable**

9. Public Policy Provisions -

9.1 Non-Discrimination - Landlord shall comply with the Elliott-Larsen Civil Rights Act, 1976 PA 453, as amended, MCL 37.2101 et seq., the Persons with Disabilities Civil Rights Act, 1976 PA 220, as amended, MCL 37.1101 et seq., and all other federal, state and local fair employment practices and equal opportunity laws and covenants that it shall not discriminate against any employee or applicant for employment, to be employed in the performance of this Agreement, with respect to his or her hire, tenure, terms, conditions, or privileges

of employment, or any matter directly or indirectly related to employment, because of his or her race, religion, color, national origin, age, sex, height, weight, marital status, or physical or mental disability that is unrelated to the individual's ability to perform the duties of a particular job or position. The Landlord agrees to include in every subcontract entered into for the performance of this real estate contract this covenant not to discriminate in employment. A breach of this covenant is a material breach of this Agreement.

9.2 Utilization of Public Facilities by Physically Limited - Premises shall comply with the barrier free design requirements of 1966 PA 1, as amended, MCL 125.1351 et seq.

9.3 Unfair Labor Practices - This Agreement may be canceled by Tenant if Landlord or any subcontractor, manufacturer or supplier of the Landlord appears in the register compiled by the State of Michigan pursuant to 1980 Public Act 278, as amended, MCL 423.321 et seq. (Employers Engaging in Unfair Labor Practices Act). A breach of this covenant is a material breach of this Agreement.

9.4 Electronic Funds Transfer - Public Act 533 of 2004 requires that payments under this Agreement be processed by electronic funds transfer (EFT). Landlord is required to register to receive payments by EFT at the Contract & Payment Express website (www.mi.gov/cpexpress) or call (888) 734-9749 to receive payments by EFT.

10. Notices - Any notice to Tenant required by this Agreement shall be complete if submitted in writing and transmitted by personal delivery (with signed delivery receipt), or certified or registered mail return receipt requested, or by a nationally recognized overnight delivery service. Unless either party notifies the other in writing of a different mailing address, notice to the Landlord and/or Tenant shall be transmitted to:

Landlord	**Tenant**
Hallwood Plaza, Inc.	Director, Real Estate Division
Attn: Ramsey Sadek	Department of Technology, Management & Budget
4908 Mac Street	
Midland, Michigan 48640	*For private carrier delivery:*

The notice shall be deemed on either (i) the third business day following the date of mailing, if transmitted by mail or (ii) the date on which the noticed party receives or refuses receipt of the notice, if transmitted by personal delivery, or a nationally recognized overnight delivery service. Business day is defined as any day other than a Saturday, Sunday, legal holiday, or day preceding a legal holiday. A receipt from a U.S. Postal Service, or successor agency, performing such function shall be conclusive evidence of the date of mailing.

11. Miscellaneous Provisions -

11.1 Governing Law - This Agreement shall be governed by and interpreted in accordance with the laws of the State of Michigan.

11.2 Mutual Drafting - This Agreement shall be interpreted and construed as drafted mutually by both parties.

11.3 Entire Agreement - This Agreement, with all Attachments as listed herein, constitutes the entire agreement between the parties with regard to this transaction and may be amended only in writing, signed by each party.

11.4 Severability - Should any provision of this Agreement or any addenda thereto be found to be illegal or otherwise unenforceable by a court of law, such provision shall be severed from the remainder of the Agreement, and such action shall not affect the enforceability of the remaining provisions of the Agreement.

11.5 Waiver - Failure to enforce any term of this Agreement shall not be deemed a waiver of the enforcement of that or any other term of this Agreement.

11.6 Effective Date - The Effective Date of this Agreement is the date signed by the Real Estate Director of the Department of Technology, Management & Budget.

11.7 Binding Effect - This Agreement shall be binding upon and inure to the benefit of the heirs, executors, administrators and assigns of Landlord and Tenant.

11.8 Counterparts - This Agreement may be executed in counterparts, each which shall be deemed an original, and all of which together shall constitute one and the same agreement. An electronic, scanned or facsimile signature shall be deemed an original.

11.9 Assignment - The Tenant, through its Department of Technology, Management & Budget may assign or reassign any or all of the Premises to any branch, department, board, agency, commission or other instrumentality of State government without the necessity of obtaining consent of the Landlord.

Form Updated: 04-02-2015

DTMB Executive Team
Monthly Management Report
January - 2016

- **Best practices to share with DTMB Leadership:**

Customer service continues to be very important, anything we can do to meet their needs in a timely fashion is expected and appreciated.

- **Projects Completed:**

LARA-#10853-7707 Rickle Road, Lansing-Renewal Lease
MSP-#11822—706 Corunna Avenue, Corunna-New Lease
MSF-#11830-711 N. Saginaw Street, Flint-Rental Agreement
MSF-#10884-711 N. Saginaw Street, Flint-Rental Agreement
DEQ-#11870-3306 N. MLK, Lansing-Rental Agreement
DHHS-#7158-Assignment of Lease between TED/DHHS

- **Projects Passing Milestones:**

The Flint water crisis has resulted in daily phone calls and negotiations with landlords to find retail and warehouse space to store water coming in on semi-trucks from all over the US. Sometimes there are 20-35 semi's a day just showing up with no warning. Some water comes in on pallets, or in many different ways, which causes them to be sent to another site, off-loaded, packed unto pallets and sent back to the warehouse where it is then stacked, counted and sent for distribution.
A former Kroger store has been leased for a distribution site where the public can come in and pick up water, filters and filter containers etc.
The rental agreements are in place, trucks are unloaded daily and the distribution center is being moved into.
Though this is a very unfortunate situation, it is heartwarming to see the cooperation between the US government departments, state government, agencies, Red Cross and volunteers from the general public and individuals throughout the nation working together to bring some solos to the people of Flint.

- **Other Accomplishment and Activities**:

Lease savings for Rickle Road from $29.09 per square foot (psf) to $24.00 psf and adjustments eliminated. There is $57,934.38 savings per year for 10 years in rent only.

Bell Warehousing & Manufacturing Services, Inc.
Attn: Gary Porrett Sr.
5510 Clio Road
Flint, MI 48504

SUBJECT: State of Michigan, Agreement #11867-2016 - Flint, MI

Dear Mr. Porrett:

Enclosed is a copy of the above-mentioned Rental Agreement approved and signed on behalf of the Director for the Department of Technology, Management & Budget. The Real Estate Division will retain the original and forward a copy to the Department of Technology, Management & Budget.

The following documentation is required by the terms of the Rental Agreement to authorize rent and should be mailed to the address on this letter.

☒ A copy of an approved fire inspection report (contact your local fire authority to obtain this report)

☒ A copy of the enclosed Emergency Service Call Record form providing all requested information

☒ A current Certificate of Insurance, which

- specifies the beginning and ending dates of the insurance policy
- names the State as an additional insured
- has minimum policy limits that meet the Rental Agreement requirements
- identifies the location of the property
- includes the Rental Agreement number on the certificate

☒ Public Act 533 of 2004 requires that payments under this Agreement be processed by electronic funds transfer (EFT). Lessor is required to register at the Contract & Payment Express website http://www.cpexpress.state.mi.us or call (888) 734-9749 to receive payments by EFT

☒ A floor plan of the space occupied in your building.

If you have any questions, please feel free to contact me at 517-284-7929 or baileym1@michigan.gov.

Thank you for your cooperation in this matter.

Sincerely,

Maureen S. Bailey
Specialist, Real Estate Division

STATE OF MICHIGAN

RICK SNYDER
GOVERNOR

DEPARTMENT OF TECHNOLOGY, MANAGEMENT & BUDGET
LANSING

DAVID B. BEHEN
DIRECTOR

Dear Lessor:

The purpose of this letter is to advise you of the laws and procedures related to real estate leasing for the Executive Branch, State of Michigan.

No employee of the State of Michigan has authority to make oral or written promises regarding a lease agreement or changes to an existing lease agreement without the approval of the State Administrative Board. Oral discussions or representations made by any employee of the State cannot be construed as a promise or as a verbal contract of any type.

The Department of Management and Budget Act (Public Act 431 of 1984) and Executive Order 2002-20 specifies that the Department of Technology, Management & Budget (DTMB) is the only Department authorized to enter into lease agreements, only after obtaining all necessary approvals. Conversations and discussions with representatives from a department or agency other than DTMB are prohibited. Department or agency personnel may only engage in conversations with the Lessor to report maintenance problems within a leased facility. Lessors who are contacted for non-maintenance issues should direct the department or agency personnel to contact the DTMB Real Estate Division.

Discussions on lease matters should only be conducted with DTMB. Discussions directly with personnel from other departments or agencies should not occur.

In dealing with the Department of Technology, Management & Budget on real estate matters, verbal discussions or negotiations, or transmittal of draft documents, should not be construed as promises or contracts of any type due to the requirement for approvals to complete the transaction. You must receive a fully executed document, signed by an authorized representative of the DTMB for an agreement to be valid.

Thank you for your cooperation. Feel free to contact me at 517-335-6877 if you have any questions.

Sincerely,

Robert M. Burns
Director, Real Estate Division

Agreement #11867 – 2016

RENTAL AGREEMENT

Between

Bell Warehousing & Manufacturing Services, Inc.

A Domestic Profit Corporation

and the

State Of Michigan

THIS RENTAL AGREEMENT (hereinafter referred to as "Agreement") is entered into by and between **Bell Warehousing & Manufacturing Services, Inc., a Domestic Profit Corporation**, as Landlord, whose address is **6510 Clio Road, Flint, Michigan 48504**, and the State of Michigan, by the Department of Technology, Management & Budget, whose address is 7150 Harris Drive, Suite 2B, Dimondale, MI 48821, for the **Department of Technology, Management & Budget, (DTMB) Office of Infrastructure Protection**, as Tenant, and establishes the following terms, conditions, performance obligations, and covenants between the parties:

1. Premises & Rent –

1.1 Landlord hereby rents to Tenant up to approximately **80,000** usable square feet of warehouse space, as further described in Attachment "A" to this Agreement, in the building commonly known as **4315 Clio Road, Flint, MI 48504** (the "Premises"). The Tenant shall further have non-exclusive use of the parking areas, docks, and entrances, hallways, and the restroom facilities of the warehouse Premises in common with the Landlord and/or other tenants of the Premises.

1.2 Tenant shall pay to Landlord $4.00 per square foot annually beginning on January 14, 2016, for up to 80,000 square feet. Rent consideration installment payments shall be made during the month for which the installment applies.

1.3 In addition the Landlord will provide four fork trucks, fuel, and four personnel and labor to unload semi loads of pallets consisting of water and other materials (product), @ $75.00 per hour per fork lift and driver (all inclusive) for an 8 hour shift starting at 7:00 a.m. until 3:30 p.m. and overtime shall be paid @$90.00 per hour for the next four (4) hours for a total of twelve (12) hours a day and up to seven days a week that shall not exceed four (4) employees plus the supervisor. This work schedule shall be approved and substantiated by Jeannette Doll, or her counterpart from Department of Technology, Management & Budget, Office of Infrastructure Protection (DTMB, OIP), for an undetermined amount of time.

EXECUTION DTMB COPY

1.4 The State also agrees to pay for the Landlord to provide a Supervisor for his staff to coordinate the trucks and people from all agencies as deemed necessary by Jeanette Doll, DTMB/OIP, for not more than twelve (12) hours per day at a cost of $45.00 per hour with overtime billed at $67.50 per hour for four hours. The Landlord will indicate any overtime charged to the State, the hours, days and times of charges, as substantiated by DTMB/OIP.

1.5 **The Landlord shall supply the following information in an invoice to the State of Michigan, DTMB every month: (i) a running tally of the number of square feet of space used and (ii) overtime consideration, (iii) rent consideration installment payments and (iv) labor and overtime indicated in paragraphs 1.3 and 1.4 of this document. (v) all utility bills for heat and electric service to the Leased premise (vi) a one-time itemized charge listing the hours and equipment and personnel used to empty two offsite warehouses on January 14, 2016.**

1.6 **All items shall be itemized and submitted during the month for which the installment applies and may be on a per diem basis (if necessary).**

1.7 **It is understood by all parties, there is no management fee to be paid for these services.**

2. Term - The term of this Agreement begins on **January 14, 2016** and ends on **January 13, 2017**, subject to the cancellation provisions of this Agreement.

3. Holding Over - In the event Tenant remains in possession of the Premises after the expiration or termination of the Agreement, it shall be deemed to be occupying the Premises as a Tenant from month-to-month, subject to all conditions, provisions and obligations of this Agreement.

4. Cancellation - This Agreement may be cancelled by the Tenant upon thirty (30) days written notice to the Landlord delivered to the address as set forth under the "Notices" Section of this Agreement, or to such other address as either party may designate in writing for the delivery of notices under this Agreement. This agreement will supersede and cancel all prior agreements.

   Upon cancellation, a satisfactory walk-thru inspection performed by DTMB Real Estate Division and the Landlord or the Landlord's representative; all keys and access cards returned to the Landlord.

5. **Services and Responsibilities of Landlord - Landlord shall furnish the following at its own expense:**
   - 5.1 Heating, mechanical ventilating, cooling.
   - 5.2 Electric service for lights, and all other electrical equipment. Lighting shall be adequate for a warehouse facility. Replacement of light bulbs and tubes as needed.
   - 5.3 100% payment for water and/or sewer used in the premises
   - 5.4 Provide and maintain any equipment required by the Fire Inspector for fire prevention and safety.
   - 5.5 Pest Control.
   - 5.6 Snow removal from driveways, steps, porches, walkways, exterior grounds maintenance, including grass and weed cutting, clippings removal, leaf raking,

EXECUTED DTMB

litter removal, sidewalk surface and parking lot surface maintenance.

8.7 Removal of trash and refuse from the dumpsters on Premises.

6. Services and Responsibilities of Tenant - **Tenant shall furnish the following at its own expense:**

6.1- 100% payment for metered public utilities used for heating, cooling, illumination.

7. Repair and Maintenance -

The Tenant shall notify the Landlord or his agent of the need for any repairs or replacements, which are not the responsibility of the Tenant to make. Landlord is to provide a list of telephone numbers (ESCR form) to call for maintenance services, including a number for window breakage, if needed.

7.1 The Tenant shall reimburse the Landlord for any repairs to the Premises from damage which exceeds normal wear and tear to be expected from lawful and proper use of the Premises and the sole cause of which was the negligent acts or omissions of Tenant's employees or clients.

7.2 The Tenant shall be responsible for the following repair and maintenance operations: **NONE.**

7.3 Alterations & Improvements – **Deleted, Not Applicable.**

8. Landlord Obligations -

8.1 Governmental Compliance - Landlord represents and warrants that the Premises will comply with all applicable governmental laws, rules and regulations during the term of this Agreement including, but not limited to, applicable codes and use permits.

8.2 Fire Inspection Report - Landlord shall provide to Tenant, a written fire inspection report dated within five years of the Effective Date on this Agreement, approving the Premises for occupancy.

8.3 Authority to Bind - Landlord represents and warrants that it has legal ownership and authority to enter into this Agreement, and shall provide a recorded warranty deed and/or other documentation necessary to confirm ownership and authority.

8.4 Insurance - Landlord is required to provide proof of General premises liability insurance for the Premises identified in Paragraph 1, which provides full coverage for the Landlord, the Tenant, and their respective agents and employees and which protects against all claims, demands, actions, suits, or causes of action, and judgments, settlements or recoveries, for bodily injury or property damage arising out of a condition of the Premises. The Landlord agrees to maintain minimum policy limits in the amount of $500,000.00 per occurrence for property damage, and $1,000,000.00 per occurrence for bodily injury, with a $2,000,000.00 aggregate. The Landlord shall provide to the Tenant a certificate of insurance listing the Tenant, its several departments, boards, agencies, commissions, officers, and employees as additional insureds, within thirty (30) calendar days following execution and delivery of this Agreement to the Landlord. The insurance policy shall provide that it may not be modified, cancelled, or allowed to expire without thirty (30) days prior written notice given to the Tenant.

8.5 Rent With-Holding - If the Landlord fails to provide supporting documentation, as required by Paragraphs 7.1, 8.2, 8.3 and 8.4, ten percent (10%) of the monthly rent consideration shall be held by the Tenant, until the required documentation is provided to the Tenant.

8.6 First Right of Refusal - The Landlord shall not rent or otherwise occupy any adjoining space which is or becomes vacant on the Premises known as 5510 Clio Road, Flint, MI 48504 during the term of this Agreement, or any extensions

thereof, without first offering for a period of ten (10) days, the space to the Tenant at the Tenant's current rental rate, and under the same terms and conditions found in this Agreement.

EXECUTION OTMB COPY

9. **Public Policy Provisions** -

9.1 Non-Discrimination - Landlord shall comply with the Elliott-Larsen Civil Rights Act, 1976 PA 453, as amended, MCL 37.2101 et seq., the Persons with Disabilities Civil Rights Act, 1976 PA 220, as amended, MCL 37.1101 et seq., and all other federal, state and local fair employment practices and equal opportunity laws and covenants that it shall not discriminate against any employee or applicant for employment, to be employed in the performance of this Agreement, with respect to his or her hire, tenure, terms, conditions, or privileges of employment, or any matter directly or indirectly related to employment, because of his or her race, religion, color, national origin, age, sex, height, weight, marital status, or physical or mental disability that is unrelated to the individual's ability to perform the duties of a particular job or position. The Landlord agrees to include in every subcontract entered into for the performance of this real estate contract this covenant not to discriminate in employment. A breach of this covenant is a material breach of this Agreement.

9.2 Utilization of Public Facilities by Physically Limited - Premises shall comply with the barrier free design requirements of 1966 PA 1, as amended, MCL 125.1351 et seq.

9.3 Unfair Labor Practices - This Agreement may be canceled by Tenant if Landlord or any subcontractor, manufacturer or supplier of the Landlord appears in the register compiled by the State of Michigan pursuant to 1980 Public Act 278, as amended, MCL 423.321 et seq. (Employers Engaging in Unfair Labor Practices Act). A breach of this covenant is a material breach of this Agreement.

9.4 Electronic Funds Transfer - Public Act 533 of 2004 requires that payments under this Agreement be processed by electronic funds transfer (EFT). Landlord is required to register to receive payments by EFT at the Contract & Payment Express website (www.mi.gov/cpexpress) or call (888) 734-9749 to receive payments by EFT.

10. **Notices** - Any notice to Tenant required by this Agreement shall be complete if submitted in writing and transmitted by personal delivery (with signed delivery receipt), or certified or registered mail return receipt requested, or by a nationally recognized overnight delivery service. Unless either party notifies the other in writing of a different mailing address, notice to the Landlord and/or Tenant shall be transmitted to:

Landlord	Tenant
Bell Warehousing & Manufacturing Services, Inc.	Director, Real Estate Division

The notice shall be deemed on either (i) the third business day following the date of mailing, if transmitted by mail or (ii) the date on which the noticed party receives or refuses receipt of the notice, if transmitted by personal delivery, or a nationally recognized overnight delivery service. Business day is defined as any day other than a Saturday, Sunday, legal holiday, or day preceding a legal holiday. A receipt from a U.S. Postal Service, or successor agency, performing such function shall be conclusive evidence of the date of mailing.

11. **Miscellaneous Provisions** -

11.1 Governing Law - This Agreement shall be governed by and interpreted in accordance with the laws of the State of Michigan.

11.2 Mutual Drafting - This Agreement shall be interpreted and construed as drafted mutually by both parties.

11.3 Entire Agreement - This Agreement, with all Attachments as listed herein, constitutes the entire agreement between the parties with regard to this transaction and may be amended only in writing, signed by each party.

11.4 Severability - Should any provision of this Agreement or any addenda thereto be found to be illegal or otherwise unenforceable by a court of law, such provision shall be severed from the remainder of the Agreement, and such action shall not affect the enforceability of the remaining provisions of the Agreement.

11.5 Waiver - Failure to enforce any term of this Agreement shall not be deemed a waiver of the enforcement of that or any other term of this Agreement.

11.6 Effective Date - The Effective Date of this Agreement is the date signed by the Real Estate Director of the Department of Technology, Management & Budget.

11.7 Binding Effect - This Agreement shall be binding upon and inure to the benefit of the heirs, executors, administrators and assigns of Landlord and Tenant.

11.8 Counterparts - This Agreement may be executed in counterparts, each which shall be deemed an original, and all of which together shall constitute one and the same agreement. An electronic, scanned or facsimile signature shall be deemed an original.

11.9 Assignment - The Tenant, through its Department of Technology, Management & Budget may assign or reassign any or all of the Premises to any branch, department, board, agency, commission or other instrumentality of State government without the necessity of obtaining consent of the Landlord.

12. **Attachments** -

SUBJECT: State of Michigan, Agreement #11867-2016 - Flint, MI

Dear Mr. Porrett:

Enclosed is a copy of the above-mentioned Rental Agreement approved and signed on behalf of the Director for the Department of Technology, Management & Budget. The Real Estate Division will retain the original and forward a copy to the Department of Technology, Management & Budget.

The following documentation is required by the terms of the Rental Agreement to authorize rent and should be mailed to the address on this letter.

☒ A copy of an approved fire inspection report (contact your local fire authority to obtain this report)

☒ A copy of the enclosed Emergency Service Call Record form providing all requested information

☒ A current Certificate of Insurance, which

- specifies the beginning and ending dates of the insurance policy
- names the State as an additional insured
- has minimum policy limits that meet the Rental Agreement requirements
- identifies the location of the property
- includes the Rental Agreement number on the certificate

☒ Public Act 533 of 2004 requires that payments under this Agreement be processed by electronic funds transfer (EFT). Lessor is required to register at the Contract & Payment Express website http://www.cpexpress.state.mi.us or call (888) 734-9749 to receive payments by EFT

☒ A floor plan of the space occupied in your building.

If you have any questions, please feel free to contact me at 517-284-7929 or baileym1@michigan.gov.

Thank you for your cooperation in this matter.

Sincerely,

Maureen S. Bailey
Specialist, Real Estate Division

STATE OF MICHIGAN

RICK SNYDER
GOVERNOR

DEPARTMENT OF TECHNOLOGY, MANAGEMENT & BUDGET
LANSING

DAVID B. BEHEN
DIRECTOR

Dear Lessor:

The purpose of this letter is to advise you of the laws and procedures related to real estate leasing for the Executive Branch, State of Michigan.

No employee of the State of Michigan has authority to make oral or written promises regarding a lease agreement or changes to an existing lease agreement without the approval of the State Administrative Board. Oral discussions or representations made by any employee of the State cannot be construed as a promise or as a verbal contract of any type.

The Department of Management and Budget Act (Public Act 431 of 1984) and Executive Order 2002-20 specifies that the Department of Technology, Management & Budget (DTMB) is the only Department authorized to enter into lease agreements, only after obtaining all necessary approvals. Conversations and discussions with representatives from a department or agency other than DTMB are prohibited. Department or agency personnel may only engage in conversations with the Lessor to report maintenance problems within a leased facility. Lessors who are contacted for non-maintenance issues should direct the department or agency personnel to contact the DTMB Real Estate Division.

Discussions on lease matters should only be conducted with DTMB. Discussions directly with personnel from other departments or agencies should not occur.

In dealing with the Department of Technology, Management & Budget on real estate matters, verbal discussions or negotiations, or transmittal of draft documents, should not be construed as promises or contracts of any type due to the requirement for approvals to complete the transaction. You must receive a fully executed document, signed by an authorized representative of the DTMB for an agreement to be valid.

Thank you for your cooperation. Feel free to contact me at 517-335-6877 if you have any questions.

Sincerely,

Robert M. Burns
Director, Real Estate Division

Agreement #11867 – 2016

RENTAL AGREEMENT

Between

Bell Warehousing & Manufacturing Services, Inc.

A Domestic Profit Corporation

and the

State Of Michigan

THIS RENTAL AGREEMENT (hereinafter referred to as "Agreement") is entered into by and between **Bell Warehousing & Manufacturing Services, Inc., a Domestic Profit Corporation**, as Landlord, whose address is **6510 Clio Road, Flint, Michigan 48504**, and the State of Michigan, by the Department of Technology, Management & Budget, whose address is 7150 Harris Drive, Suite 2B, Dimondale, MI 48821, for the **Department of Technology, Management & Budget, (DTMB) Office of Infrastructure Protection**, as Tenant, and establishes the following terms, conditions, performance obligations, and covenants between the parties:

1. Premises & Rent –

1.1 Landlord hereby rents to Tenant up to approximately **80,000** usable square feet of warehouse space, as further described in Attachment "A" to this Agreement, in the building commonly known as **4315 Clio Road, Flint, MI 48504** (the "Premises"). The Tenant shall further have non-exclusive use of the parking areas, docks, and entrances, hallways, and the restroom facilities of the warehouse Premises in common with the Landlord and/or other tenants of the Premises.

1.2 Tenant shall pay to Landlord $4.00 per square foot annually beginning on January 14, 2016, for up to 80,000 square feet. Rent consideration installment payments shall be made during the month for which the installment applies.

1.3 In addition the Landlord will provide four fork trucks, fuel, and four personnel and labor to unload semi loads of pallets consisting of water and other materials (product), @ $75.00 per hour per fork lift and driver (all inclusive) for an 8 hour shift starting at 7:00 a.m. until 3:30 p.m. and overtime shall be paid @$90.00 per hour for the next four (4) hours for a total of twelve (12) hours a day and up to seven days a week that shall not exceed four (4) employees plus the supervisor. This work schedule shall be approved and substantiated by Jeannette Doll, or her counterpart from Department of Technology, Management & Budget, Office of Infrastructure Protection (DTMB, OIP), for an undetermined amount of time.

EXECUTION DTMB COPY

1.4 The State also agrees to pay for the Landlord to provide a Supervisor for his staff to coordinate the trucks and people from all agencies as deemed necessary by Jeanette Doll, DTMB/OIP, for not more than twelve (12) hours per day at a cost of $45.00 per hour with overtime billed at $67.50 per hour for four hours. The Landlord will indicate any overtime charged to the State, the hours, days and times of charges, as substantiated by DTMB/OIP.

1.5 **The Landlord shall supply the following information in an invoice to the State of Michigan, DTMB every month: (i) a running tally of the number of square feet of space used and (ii) overtime consideration, (iii) rent consideration installment payments and (iv) labor and overtime indicated in paragraphs 1.3 and 1.4 of this document. (v) all utility bills for heat and electric service to the Leased premise (vi) a one-time itemized charge listing the hours and equipment and personnel used to empty two offsite warehouses on January 14, 2016.**

1.6 **All items shall be itemized and submitted during the month for which the installment applies and may be on a per diem basis (if necessary).**

1.7 **It is understood by all parties, there is no management fee to be paid for these services.**

2. Term - The term of this Agreement begins on **January 14, 2016** and ends on **January 13, 2017**, subject to the cancellation provisions of this Agreement.

3. Holding Over - In the event Tenant remains in possession of the Premises after the expiration or termination of the Agreement, it shall be deemed to be occupying the Premises as a Tenant from month-to-month, subject to all conditions, provisions and obligations of this Agreement.

4. Cancellation - This Agreement may be cancelled by the Tenant upon thirty (30) days written notice to the Landlord delivered to the address as set forth under the "Notices" Section of this Agreement, or to such other address as either party may designate in writing for the delivery of notices under this Agreement. This agreement will supersede and cancel all prior agreements.

   Upon cancellation, a satisfactory walk-thru inspection performed by DTMB Real Estate Division and the Landlord or the Landlord's representative; all keys and access cards returned to the Landlord.

5. **Services and Responsibilities of Landlord - Landlord shall furnish the following at its own expense:**
   - 5.1 Heating, mechanical ventilating, cooling.
   - 5.2 Electric service for lights, and all other electrical equipment. Lighting shall be adequate for a warehouse facility. Replacement of light bulbs and tubes as needed.
   - 5.3 100% payment for water and/or sewer used in the premises
   - 5.4 Provide and maintain any equipment required by the Fire Inspector for fire prevention and safety.
   - 5.5 Pest Control.
   - 5.6 Snow removal from driveways, steps, porches, walkways, exterior grounds maintenance, including grass and weed cutting, clippings removal, leaf raking,

EXECUTED DTMB

litter removal, sidewalk surface and parking lot surface maintenance.

8.7 Removal of trash and refuse from the dumpsters on Premises.

6. Services and Responsibilities of Tenant - **Tenant shall furnish the following at its own expense:**

6.1- 100% payment for metered public utilities used for heating, cooling, illumination.

7. Repair and Maintenance -

The Tenant shall notify the Landlord or his agent of the need for any repairs or replacements, which are not the responsibility of the Tenant to make. Landlord is to provide a list of telephone numbers (ESCR form) to call for maintenance services, including a number for window breakage, if needed.

7.1 The Tenant shall reimburse the Landlord for any repairs to the Premises from damage which exceeds normal wear and tear to be expected from lawful and proper use of the Premises and the sole cause of which was the negligent acts or omissions of Tenant's employees or clients.

7.2 The Tenant shall be responsible for the following repair and maintenance operations: **NONE.**

7.3 Alterations & Improvements – **Deleted, Not Applicable.**

8. Landlord Obligations -

8.1 Governmental Compliance - Landlord represents and warrants that the Premises will comply with all applicable governmental laws, rules and regulations during the term of this Agreement including, but not limited to, applicable codes and use permits.

8.2 Fire Inspection Report - Landlord shall provide to Tenant, a written fire inspection report dated within five years of the Effective Date on this Agreement, approving the Premises for occupancy.

8.3 Authority to Bind - Landlord represents and warrants that it has legal ownership and authority to enter into this Agreement, and shall provide a recorded warranty deed and/or other documentation necessary to confirm ownership and authority.

8.4 Insurance - Landlord is required to provide proof of General premises liability insurance for the Premises identified in Paragraph 1, which provides full coverage for the Landlord, the Tenant, and their respective agents and employees and which protects against all claims, demands, actions, suits, or causes of action, and judgments, settlements or recoveries, for bodily injury or property damage arising out of a condition of the Premises. The Landlord agrees to maintain minimum policy limits in the amount of $500,000.00 per occurrence for property damage, and $1,000,000.00 per occurrence for bodily injury, with a $2,000,000.00 aggregate. The Landlord shall provide to the Tenant a certificate of insurance listing the Tenant, its several departments, boards, agencies, commissions, officers, and employees as additional insureds, within thirty (30) calendar days following execution and delivery of this Agreement to the Landlord. The insurance policy shall provide that it may not be modified, cancelled, or allowed to expire without thirty (30) days prior written notice given to the Tenant.

8.5 Rent With-Holding - If the Landlord fails to provide supporting documentation, as required by Paragraphs 7.1, 8.2, 8.3 and 8.4, ten percent (10%) of the monthly rent consideration shall be held by the Tenant, until the required documentation is provided to the Tenant.

8.6 First Right of Refusal - The Landlord shall not rent or otherwise occupy any adjoining space which is or becomes vacant on the Premises known as 5510 Clio Road, Flint, MI 48504 during the term of this Agreement, or any extensions

thereof, without first offering for a period of ten (10) days, the space to the Tenant at the Tenant's current rental rate, and under the same terms and conditions found in this Agreement.

EXECUTION OTMB COPY

9. **Public Policy Provisions** -

9.1 Non-Discrimination - Landlord shall comply with the Elliott-Larsen Civil Rights Act, 1976 PA 453, as amended, MCL 37.2101 et seq., the Persons with Disabilities Civil Rights Act, 1976 PA 220, as amended, MCL 37.1101 et seq., and all other federal, state and local fair employment practices and equal opportunity laws and covenants that it shall not discriminate against any employee or applicant for employment, to be employed in the performance of this Agreement, with respect to his or her hire, tenure, terms, conditions, or privileges of employment, or any matter directly or indirectly related to employment, because of his or her race, religion, color, national origin, age, sex, height, weight, marital status, or physical or mental disability that is unrelated to the individual's ability to perform the duties of a particular job or position. The Landlord agrees to include in every subcontract entered into for the performance of this real estate contract this covenant not to discriminate in employment. A breach of this covenant is a material breach of this Agreement.

9.2 Utilization of Public Facilities by Physically Limited - Premises shall comply with the barrier free design requirements of 1966 PA 1, as amended, MCL 125.1351 et seq.

9.3 Unfair Labor Practices - This Agreement may be canceled by Tenant if Landlord or any subcontractor, manufacturer or supplier of the Landlord appears in the register compiled by the State of Michigan pursuant to 1980 Public Act 278, as amended, MCL 423.321 et seq. (Employers Engaging in Unfair Labor Practices Act). A breach of this covenant is a material breach of this Agreement.

9.4 Electronic Funds Transfer - Public Act 533 of 2004 requires that payments under this Agreement be processed by electronic funds transfer (EFT). Landlord is required to register to receive payments by EFT at the Contract & Payment Express website (www.mi.gov/cpexpress) or call (888) 734-9749 to receive payments by EFT.

10. **Notices** - Any notice to Tenant required by this Agreement shall be complete if submitted in writing and transmitted by personal delivery (with signed delivery receipt), or certified or registered mail return receipt requested, or by a nationally recognized overnight delivery service. Unless either party notifies the other in writing of a different mailing address, notice to the Landlord and/or Tenant shall be transmitted to:

The notice shall be deemed on either (i) the third business day following the date of mailing, if transmitted by mail or (ii) the date on which the noticed party receives or refuses receipt of the notice, if transmitted by personal delivery, or a nationally recognized overnight delivery service. Business day is defined as any day other than a Saturday, Sunday, legal holiday, or day preceding a legal holiday. A receipt from a U.S. Postal Service, or successor agency, performing such function shall be conclusive evidence of the date of mailing.

11. **Miscellaneous Provisions** -

11.1 Governing Law - This Agreement shall be governed by and interpreted in accordance with the laws of the State of Michigan.

11.2 Mutual Drafting - This Agreement shall be interpreted and construed as drafted mutually by both parties.

11.3 Entire Agreement - This Agreement, with all Attachments as listed herein, constitutes the entire agreement between the parties with regard to this transaction and may be amended only in writing, signed by each party.

11.4 Severability - Should any provision of this Agreement or any addenda thereto be found to be illegal or otherwise unenforceable by a court of law, such provision shall be severed from the remainder of the Agreement, and such action shall not affect the enforceability of the remaining provisions of the Agreement.

11.5 Waiver - Failure to enforce any term of this Agreement shall not be deemed a waiver of the enforcement of that or any other term of this Agreement.

11.6 Effective Date - The Effective Date of this Agreement is the date signed by the Real Estate Director of the Department of Technology, Management & Budget.

11.7 Binding Effect - This Agreement shall be binding upon and inure to the benefit of the heirs, executors, administrators and assigns of Landlord and Tenant.

11.8 Counterparts - This Agreement may be executed in counterparts, each which shall be deemed an original, and all of which together shall constitute one and the same agreement. An electronic, scanned or facsimile signature shall be deemed an original.

11.9 Assignment - The Tenant, through its Department of Technology, Management & Budget may assign or reassign any or all of the Premises to any branch, department, board, agency, commission or other instrumentality of State government without the necessity of obtaining consent of the Landlord.

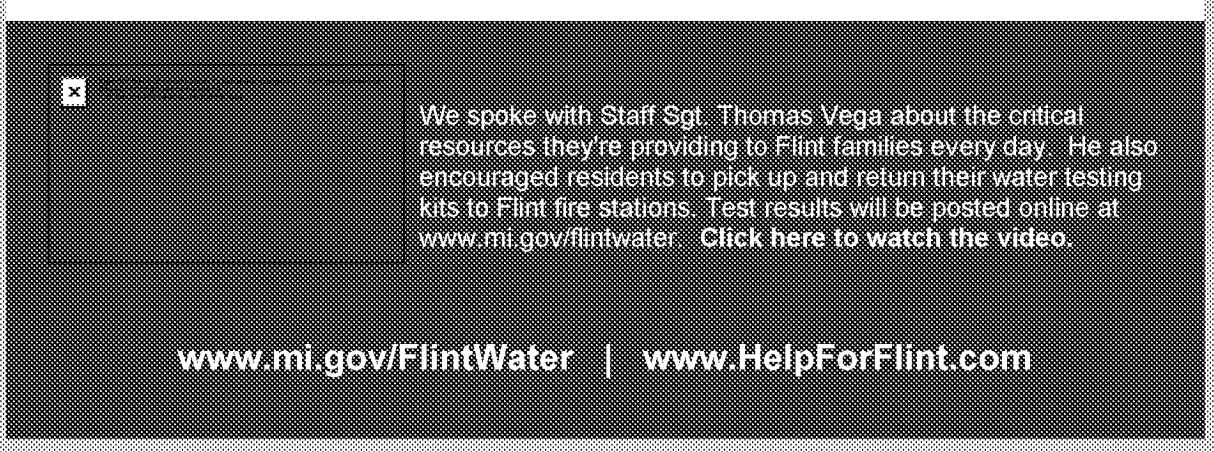
Subject: "Flint residents should not have to pay for water they cannot drink"

Budget recommendation will include $30 million request for Flint water bill repayments

When Governor Rick Snyder presents his budget recommendation next Wednesday, Feb. 10, he will include a $30 million request for the residents of Flint to keep their water service on and eliminate the need to pay for water they cannot completely trust to drink.



Under the governor's ask, the funding would enable the city of Flint to apply credits for customers on future bills. Estimates show water is roughly 47 percent of billing and sewer costs are around 53 percent. The credit would be applied to consumption usage (roughly

65 percent) of a resident's water portion of the bill, such as for bathing, drinking, cooking, and washing your hands. Residents still would be responsible for paying the sewer portion of their water bills.

Professor Marc Edwards of Virginia Tech said, "This essentially refunds all the money associated with consumption or consumer use. I think it's an amazing gesture of common sense and good will and it corrects an injustice. I don't think there's a precedent for this. I feel so encouraged by the direction this is going."

Click here to learn more about the budget request.

VIDEO: What Governor Snyder's FY17 budget means for Michigan

Gov. Rick Snyder's FY 2017 budget calls for critical investments for the Flint water crisis, statewide infrastructure and the Detroit Public Schools. The governor's recommendation also addresses the skyrocketing costs of specialty medications that Michigan residents depend on for better health outcomes.

This budget also stays committed to the Governor's core statewide priorities of education, talent and economic development, health and human services, and public safety.

The proposed FY 2017 budget makes key investments to strengthen the state for all of

Michigan's families. Click here to learn more about the top 6 takeaways from the Governor's FY 2017 state budget.

Subject: VIDEO: Volunteering in Flint

VIDEO: How volunteers are helping Flint

Volunteers at the Food Bank of Eastern Michigan are working hard to collect donations in order to help the families of Flint. Last Thursday, Governor Snyder visited with the many dedicated volunteers and helped sort cans of food.

Good nutrition is critically important for Flint's children. Foods that are high in calcium, vitamin C, and iron can help limit the effects of lead exposure. To donate or volunteer at the Food Bank of Eastern Michigan, visit www.fbem.org.

From: DTMB Director and CIO David Behen <dtmb@govsubscriptions.michigan.gov>
Sent: Wednesday, February 17, 2016 10:10 AM
To: Banks, William (DTMB)
Subject: The Gov. Snyder's Budget Proposal

Good morning everyone. I hope everyone had a great holiday weekend.

I had the good fortune to travel to Marquette on Monday with Chad Laidlaw, DTMB's policy and planning analyst, to meet with city, business and university leaders and to address the Economic Club of Marquette. I told them about the many things DTMB does, placing special emphasis on our work in mobility and cybersecurity. Marquette is really developing and making its mark as an innovative and entrepreneurial community.

Now work.

The executive budget Gov. Snyder presented last week outlined his investment plan for Michigan. Yes, the proposal for fiscal year 2017-18 outlined a strategy to address the critical challenges of addressing the Flint water crisis and turning around Detroit's Public Schools, but the $54.9 billion plan also includes investment in four key areas:

- **Education.** The budget increases investment to K-12 schools, community colleges and the state's public universities. Additional funds are proposed to expand career, technical, science, technology, engineering and math programs.
- **Protecting the Public.** The governor's plan expands the Secure Cities program, which has reduced violent crime in four major Michigan cities. Funds also would support an additional trooper recruit school and an academy to train corrections officers, among other initiatives.
- **Putting People First.** The governor recommends continued expansion of the Healthy Kids Dental Program and funding efforts to ensure residents have access to affordable health care. His proposal boosts funds to help cover new higher cost specialty medications to treat conditions such as hepatitis C and cystic fibrosis, among others.
- **Investing in Infrastructure.** The proposal allocates $1.2 billion to maintain and repair Michigan roads, bridges and other critical infrastructure.

The budget proposal also includes FY 2017-18 funding recommendations for DTMB. Gov. Snyder recommends ongoing funding of $1.3 billion for department operations and a one-time allocation of $32.4 million.

A few highlights include:

- $502 million for information technology support for all state agencies and $132.8 million for 14 high-priority IT projects in seven agencies. He recommends increasing the Information Technology Investment Fund by $7 million, from $65 million to $72 million. This fund supports several major multiyear IT projects and upgrades, including the replacement of outdated legacy systems.
- An additional $5 million to support cybersecurity improvements to safeguard citizens' personal information and protect critical infrastructure and government services.
- IT support of $6.5 million to modernize the Office of Retirement Services' systems and enhance customer service for more than 530,000 current and future retirees.

You can see the full executive budget recommendations, which are posted on the Budget Office website. Details of DTMB's proposed budget begin on page B-75.

We can expect to see many changes before the budgets are signed and become effective Oct. 1. The executive budget will be used by the House and Senate Appropriations Committees as they work on their own budgets and hold committee hearings on the proposals. I'll keep you posted as the process moves ahead.

As always, I welcome your notes, whether about the budget process or any other topic. Please send them to me at behend@michigan.gov.

Thank you again for all the good work you do. I hope you have a great week ahead.

David

2012 Air Quality Report

Introduction

The federal Clean Air Act (CAA) requires the U.S. Environmental Protection Agency (EPA) to establish National Ambient Air Quality Standards (NAAQS) for six criteria pollutants considered harmful to the public and the environment. These standards define the maximum permissible concentration of criteria pollutants in the air (see **Table 1.1**).

The six criteria pollutants are monitored by the Michigan Department of Environmental Quality (DEQ), Air Quality Division (AQD). These criteria pollutants are:

- Carbon monoxide (CO),
- Lead (Pb),
- Nitrogen dioxide (NO_2),
- Ozone (O_3),
- Particulate matter smaller than 10 and 2.5 microns in diameter (PM_{10} and $PM_{2.5}$, respectively), and
- Sulfur dioxide (SO_2).

Chapters 2 through **7** provide information on each of the six criteria pollutants and include:

- Michigan's monitoring requirements for 2012,
- Attainment/nonattainment status,
- Monitoring site locations (tables show all the monitors active in 2012), and
- Air quality trends from 2007-2012 broken down by location.[1]

The actual 2012 data for each criteria pollutant is available in **Appendix A.**

The AQD also monitors air toxics. Air toxics are other hazardous air pollutants that can affect human health and the environment.[2] This data can be found in **Appendix B.**

The purpose of this report is to provide a snapshot of Michigan's 2012 air quality data, air quality trends, overview of the monitoring network (available in much greater detail in the 2013 Network Review)[3], air toxics monitoring program, and other AQD programs, such as MIair and Emissions Inventory[4].

[1] The air quality trends are based on actual statewide monitored readings, which are also listed in the EPA's Air Quality Subsystem Quick Look Report Data at http://www.epa.gov/air/airtrends/

[2] A fact sheet and a Citizen's guide to participation is available on the DEQ's website at http://www.michigan.gov/documents/deq/deq-ess-caap-citizensguidetomiairpollutioncontrol_195548_7.pdf and at http://www.michigan.gov/documents/deq/deq-ead-guide-aqdguide_273529_7.pdf.

[3] Available on online at http://www.michigan.gov/deq/0,4561,7-135-3310_4195---,00.html

[4] Online information about criteria pollutants and air toxics, along with this and previous annual air quality reports, are available via the AQD's website at http://www.michigan.gov/deq/0,4561,7-135-3310_4195---,00.html

Chapter 1: Background Information

This chapter provides a summary of the development of the NAAQS and how compliance with these standards is determined. Also included is an overview of Michigan's air sampling network, a description of the metropolitan statistical areas (MSAs) and their uses, and the variety of monitoring techniques and requirements used to ensure quality data is obtained.

NAAQS

Under Section 109 of the CAA, the EPA establishes a primary and secondary NAAQS for each pollutant for which air quality criteria have been issued. The primary standard is designed to protect the public health with an adequate margin of safety, including the health of the most susceptible individuals in a population, such as children, the elderly, and those with chronic respiratory ailments. Factors in selecting the margin of safety for the primary standard include the nature and severity of the health effects involved and the size of the sensitive population at risk. Secondary standards are chosen to protect public welfare (personal comfort and well-being) and the environment by limiting economic damage, visibility and climatic factors, as well as the harmful effects on soil, water, crops, vegetation, wildlife, and buildings.

In addition, the NAAQS have various averaging times to address health impacts. Short averaging times reflect the potential for acute (immediate) effects, whereas long-term averaging times are designed to protect against chronic effects.

NAAQS have been established for CO, Pb, SO_2, NO_2, O_3, and PM. **Table 1.1** lists the primary and secondary NAAQS, averaging time, and concentration level for each criteria pollutant in effect in 2012. The concentrations are listed as parts per million (ppm), micrograms per cubic meter ($\mu g/m^3$), and/or milligrams per cubic meter (mg/m^3).

Table 1.1: NAAQS in Effect during 2012 for Criteria Pollutants

Pollutant	Primary (health-related)		Secondary (welfare-related)	
	Level	Averaging Time	Level	Averaging Time
Carbon Monoxide (CO)	9 ppm (10 mg/m^3)	2nd highest 8-hour	None	
	35 ppm (40 mg/m^3)	2nd highest 1-hour		
Lead (Pb)	0.15 $\mu g/m^3$	Maximum rolling 3-month average	Same as Primary	
Nitrogen Dioxide (NO_2)	0.053 ppm (100 $\mu g/m^3$)	Annual arithmetic mean	Same as Primary	
	0.100 ppm	98th percentile 1-hr averaged over 3-years		
Particulate Matter (PM_{10})	150 $\mu g/m^3$	24-hour	Same as Primary	
Particulate Matter ($PM_{2.5}$)	12.0 $\mu g/m^3$	Annual arithmetic mean	15.0 $\mu g/m^3$	Annual mean
	35 $\mu g/m^3$	98th percentile 24-hour averaged over 3 years	Same as Primary	
Ozone (O_3)	0.075 ppm	4th highest 8-hour daily max. averaged over 3 years	Same as Primary	
Sulfur Dioxide (SO_2)	0.075 ppm	99th percentile of 1-hour averaged over 3 years	0.5 ppm	3 hours

To demonstrate compliance with the NAAQS, the EPA has defined specific criteria for each pollutant, which are summarized in **Table 1.2.**

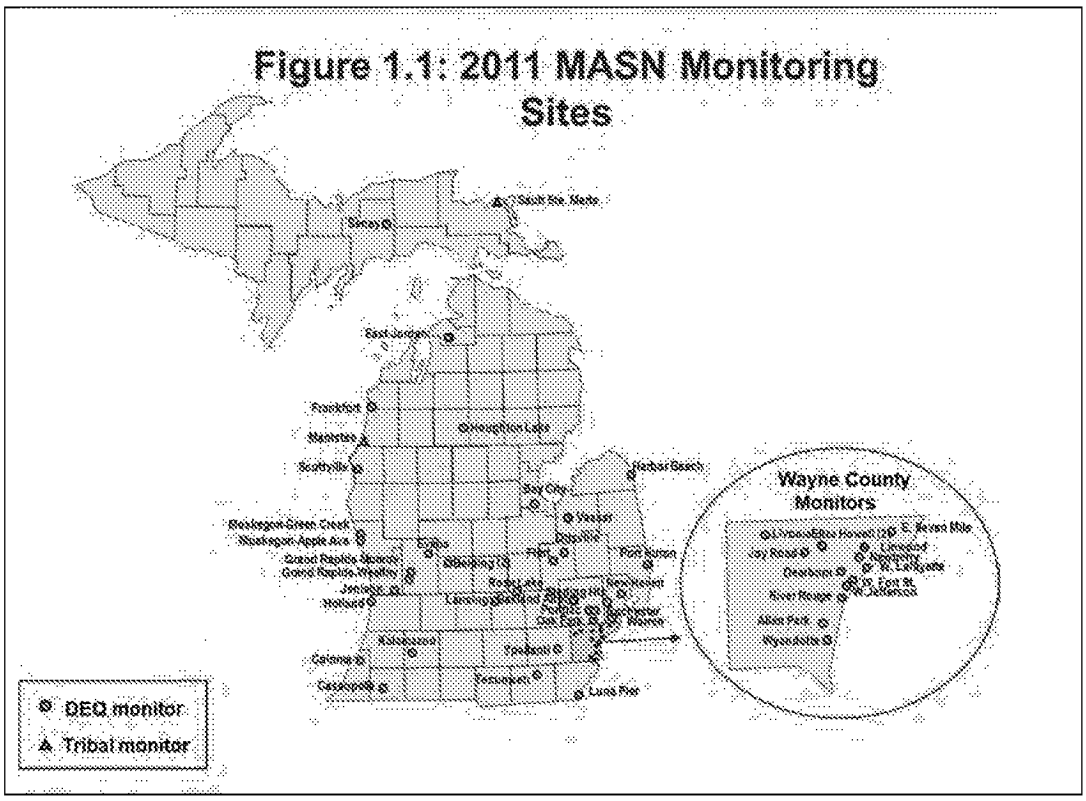
Table 1.2: Criteria for the Determination of Compliance with the NAAQS

POLLUTANT	CRITERIA FOR COMPLIANCE
CO	Compliance with the CO standard is met when the 35 ppm 1-hour average standard and/or the 9 ppm 8-hour average standard is not exceeded more than once per year.
Pb	Compliance with the Pb standard is met when daily values collected for 3 consecutive months are averaged and do not exceed the 0.15 µg/m^3 standard.
NO_2	Compliance is met when the annual arithmetic mean concentration does not exceed the 0.053 ppm standard and the 98th percentile averaged over 3-years of the 1 hour concentration does not exceed 100 ppb.
O_3	The 8-hour O_3 primary and secondary standards are met when the 3-year average of the 4th highest daily maximum 8-hr average concentration is less than or equal to 0.075 ppm.
PM	**PM_{10}:** The 24-hour PM_{10} primary and secondary standards are met when 150 µg/m^3 is not exceeded more than once per year on average over 3 years.
	$PM_{2.5}$: The $PM_{2.5}$ annual and secondary standards are met when the annual arithmetic mean concentration is less than or equal to 12 µg/m^3. The 24-hour $PM_{2.5}$ primary and secondary standards are met when the 3-year average of the 98th percentile 24-hour concentration is less than or equal to 35 µg/m^3.
SO_2	To determine compliance, the 1-hour concentration averaged over a three year period does not exceed 0.075 ppm, and the 3-hour average concentration shall not exceed 0.5 ppm more than once per calendar year.

As part of the EPA's grant to the DEQ, the AQD provides an annual review of monitoring data collected from the previous year and recommends any network changes. These recommendations are based on each monitor's exceedance history, changes in population distribution, and modifications to federal monitoring under the CAA. Under the amended air monitoring regulations that began in 2007, states are required to solicit public comment on their future air monitoring network design prior to submitting the annual review to the EPA.

Michigan Air Sampling Network

The Michigan Air Sampling Network (MASN) is operated by the DEQ's AQD, along with other governmental agencies. For instance, the O_3 and $PM_{2.5}$ monitors in Manistee County and Chippewa County are handled by the Little River Band of Ottawa Indians and the Inter-tribal Council of Michigan, respectively. **Figure 1.1** shows the 2012 MASN monitoring sites. **Figures 1.2** and **1.3** are pictures of two monitoring stations in Port Huron and Sterling State Park, Monroe, respectively. The Sterling State Park site started operation in January of 2013.



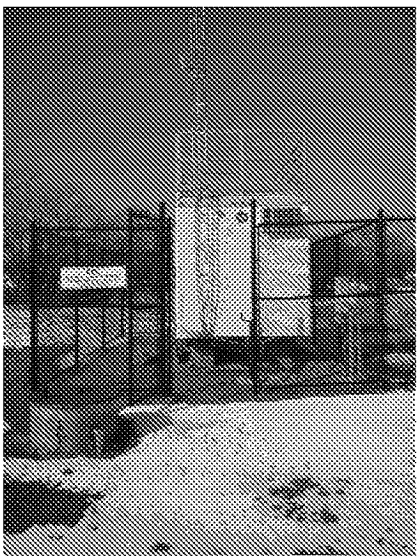


Figure 1.2: Port Huron monitoring site

Figure 1.3: Sterling State Park, Monroe monitoring site

The MASN consists of federal reference method (FRM) monitors that enable continuous monitoring for the gaseous pollutants (O_3, CO, NO_2, and SO_2), PM monitors that measure particulate concentrations over a 24-hour period, and high volume samplers for Pb. In addition, continuous $PM_{2.5}$ and PM_{10} monitors are used to provide real-time hourly data, and $PM_{2.5}$ chemical speciation monitors determine the chemical composition of $PM_{2.5}$ and help characterize background levels. The MASN data is also used to provide timely reporting to the DEQ's air quality reporting web page (discussed in **Chapter 9**). The types of monitoring conducted in 2012 and the MASN locations are shown in **Table 1.3.**

Table 1.3 Types of Monitoring Conducted in 2012 and MASN Location

In 2006, the EPA amended its air monitoring requirements to include more co-located monitors. The amended air monitoring requirements also added National Core (NCore) sites that are multi-pollutant in nature, and are enhancing the understanding of how the various forms of air pollution are related and how it is transported. Michigan has two NCore sites, Allen Park and Grand Rapids – Monroe Street. Information on the effects of the 2006 amended monitoring requirements is discussed by criteria pollutant in **Chapters 2** through **7**.

Quality Assurance

The AQD's Air Monitoring Unit (AMU) ensures that all data collected and reported is of high quality and meets federal requirements. The AMU has a quality system in place that includes a Quality Assurance Project Plan (QAPP), standard operating procedures, standardized forms and documentation policies, and a robust audit and assessment program.

The monitoring network adheres to the requirements in Title 40 of the Code of Federal Regulations, Parts 50, 53, and 58. This ensures that the monitors are correctly sited, operated in accordance to the federal reference methods, and adhere to the quality assurance requirements.

Quality assurance checks are conducted by site operators at the frequencies required in the regulations and unit procedures. Independent audits are conducted by the AMU's Quality Assurance (QA) Team, which has a separate reporting line of supervision. The quality assurance checks and audits are reported to the EPA each quarter.

External audits are conducted annually by the EPA. The EPA conducts Performance Evaluation Program (PEP) audits for $PM_{2.5}$ samplers and the National Performance Audit Program (NPAP) checks for the gaseous monitors. The EPA also conducts program-wide Technical Systems Audits every three to five years to evaluate overall program operations, and assess adequacy of documentation and records retention. External audits are also conducted on the laboratory operations for certain analytical techniques using performance evaluation samples.

Long-Term Trends

Congress passed the Clean Air Act in 1970; however, Michigan has had a long-standing history of environmental awareness well before the Act was established. In 1887, Detroit was the first city in Michigan to adopt an air quality ordinance, which declared that the dense smoke from burning coal was a public nuisance.

The EPA is required to review the criteria pollutant standards every five years. Over time, based upon toxicological data, the standards (NAAQS) have been tightened to better protect public health. Areas that meet the national ambient air quality standard are considered to be in "attainment." Locations where air pollution levels persistently exceed ambient air quality standards may be designated as nonattainment. That is why some areas in the state may be designated to nonattainment from attainment even though monitoring shows that air quality continues to improve.

Figures 1.4 through **1.7** show how the levels and the standards for these pollutants have changed over the last 35 plus years.

Figure 1.4 shows the ozone levels at the Detroit East Seven Mile Road site. This graph shows how the standard changed from a 1-hour average of 0.120 ppm to an 8-hour average of 0.08 ppm in 1997. The standard was further lowered to 0.075 ppm in 2008.

Figure 1.4: Historical Ozone at DEQ's Detroit East 7 Mile Site

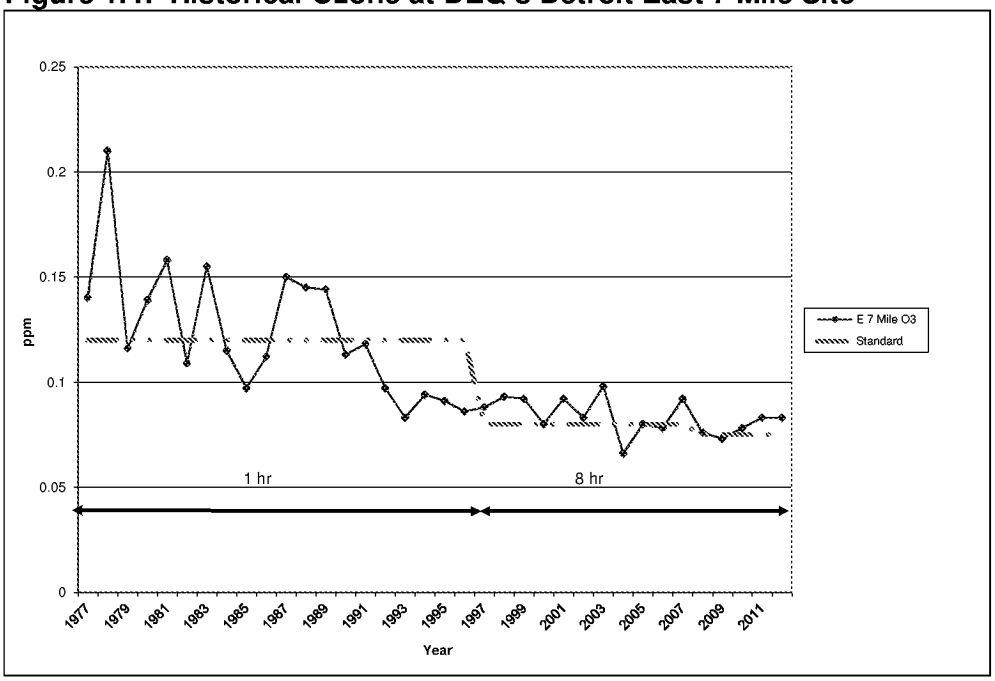

Figure 1.5 shows the SO_2 trend relative to the old annual standard for W. Fort Street in Detroit. In 2010, the EPA changed the standard from an annual average to 99th percentile of a 1-hour standard in which the SO_2 concentration cannot exceed 0.075 ppm averaged over 3 years. This resulted in nonattainment status for a portion of Wayne County (see **Chapter 4** for additional details and trends of the new standard). Even though the area is in nonattainment for 1-hour SO_2 standard, the levels of SO_2 have decreased significantly over the years.

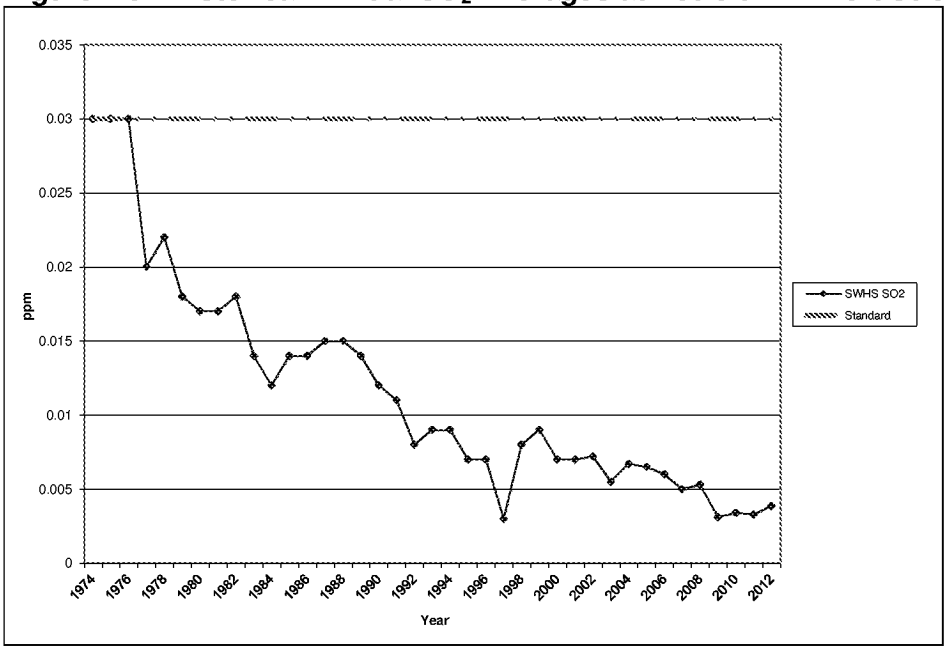
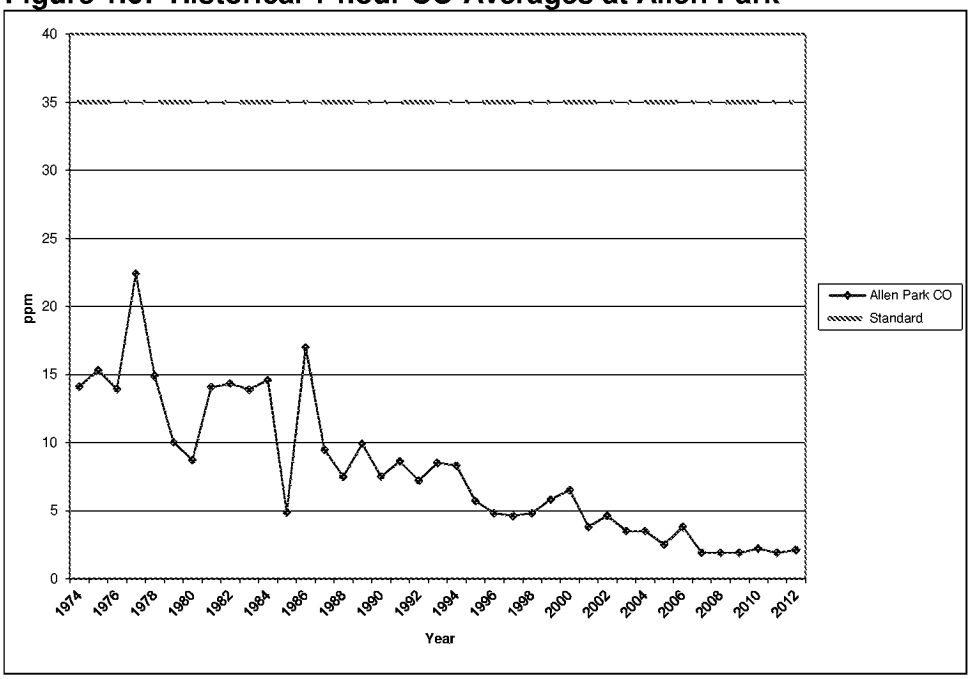
Figure 1.5: Historical Annual SO_2 Averages at Detroit – W. Fort Street (SWHS)





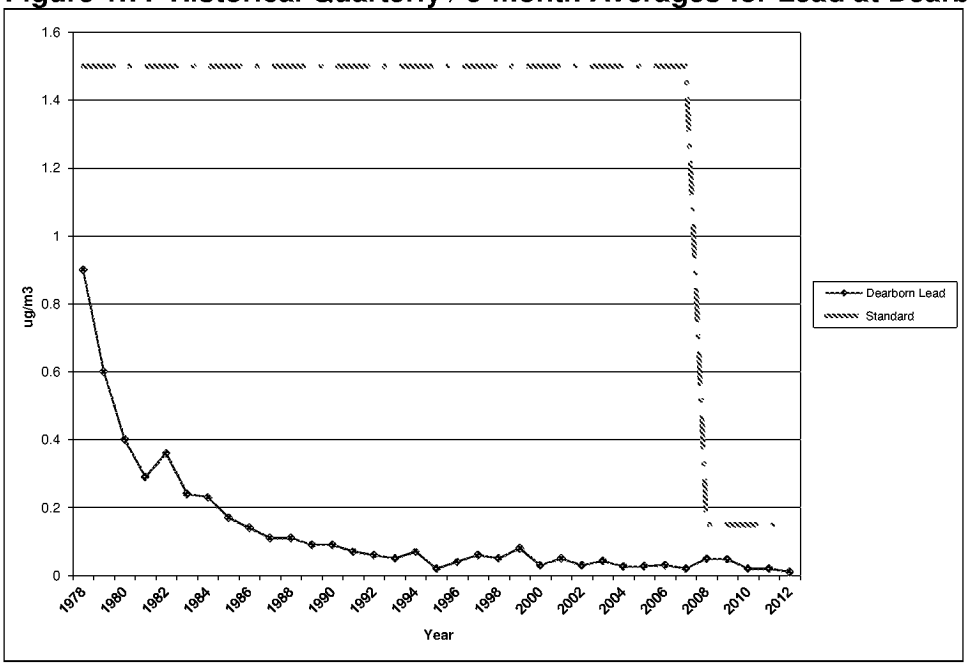


Figure 1.6: Historical 1-hour CO Averages at Allen Park

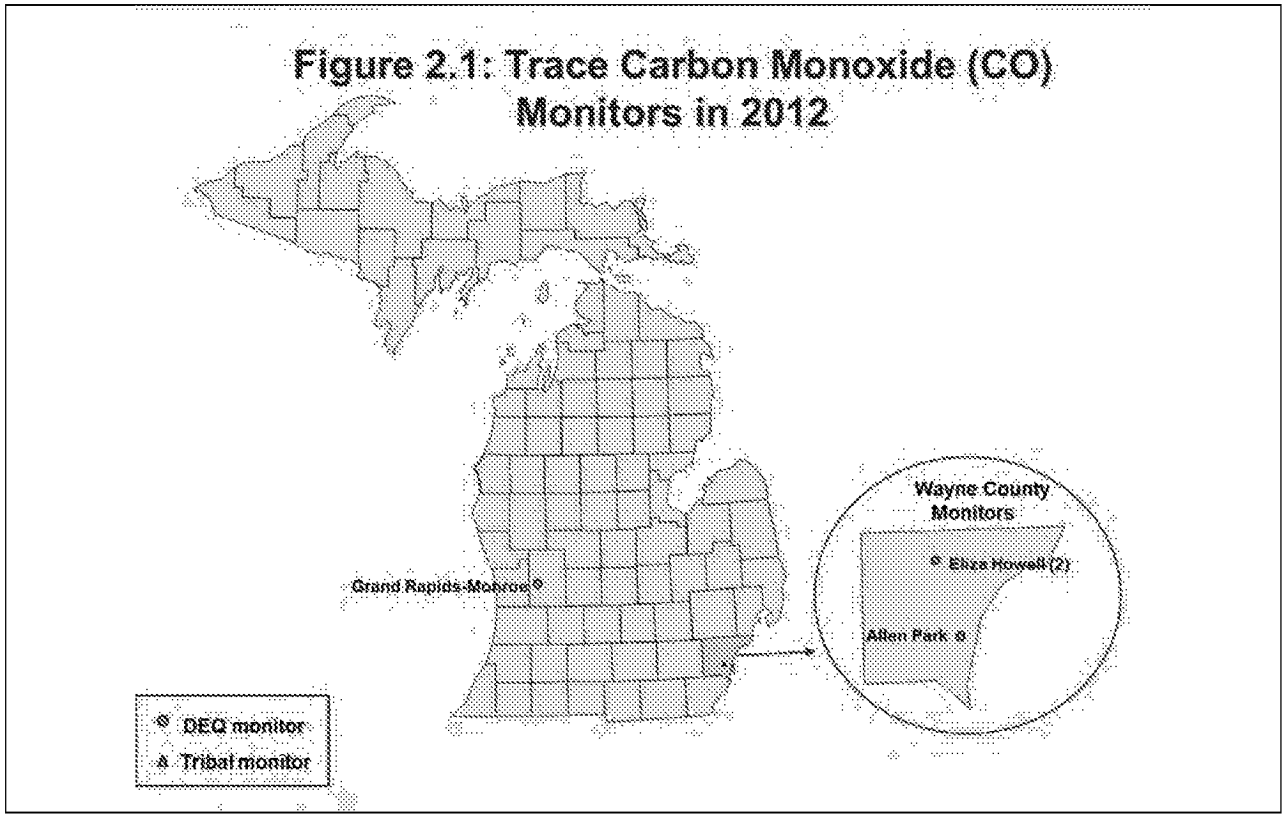
The historical trend for lead is shown in **Figure 1.7**. It is of interest because lead is harmful to the neurological development of children. This largest decrease in lead in the air is due to the removal of lead in gasoline. By 1975, most newly manufactured vehicles no longer required leaded gasoline and in 1996, the EPA banned the sale of leaded fuel for use in on-road vehicles. As a result, there was a dramatic decrease in ambient lead levels. The graph also shows the decrease in the lead standard that occurred in 2008.

Figure 1.7: Historical Quarterly / 3-month Averages for Lead at Dearborn

Chapter 2: Carbon Monoxide (CO)



Carbon monoxide is a colorless, odorless and poisonous gas formed during incomplete burning of fuel. Levels peak during colder months primarily due to cold temperatures that affect combustion efficiency of engines. It has a standard of 9 ppm for the second highest 8-hour average and 35 ppm for the second highest 1-hour average. Its sources and effects are as follows:

Sources: Outdoor exposure sources are automobile exhaust, industrial processes (metal processing and chemical production), non-vehicle fuel combustion, and natural sources, such as forest fires. Indoor exposure sources are wood stoves, gas ranges with continuous pilot flame ignition, unvented gas or kerosene heaters, and cigarette smoke.

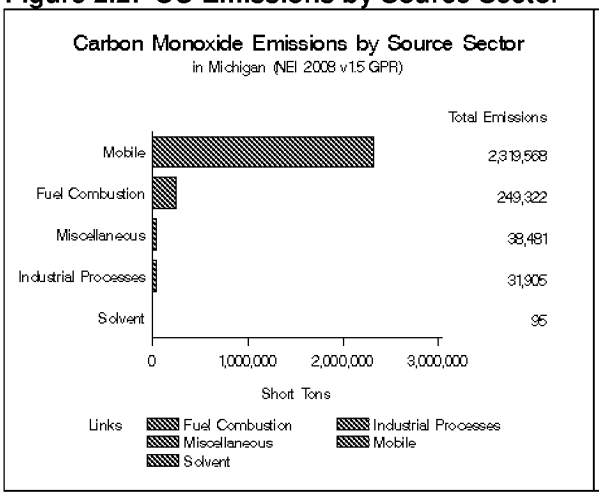
Effects: CO enters the bloodstream through the lungs, where it displaces oxygen delivered to the organs and tissues. Elevated levels can cause visual impairment, interfere with mental acuity by reducing learning ability and manual dexterity, and can decrease work performance in the completion of complex tasks. CO also alters atmospheric photochemistry that contributes to the formation of ground-level O_3, which can trigger serious respiratory problems.

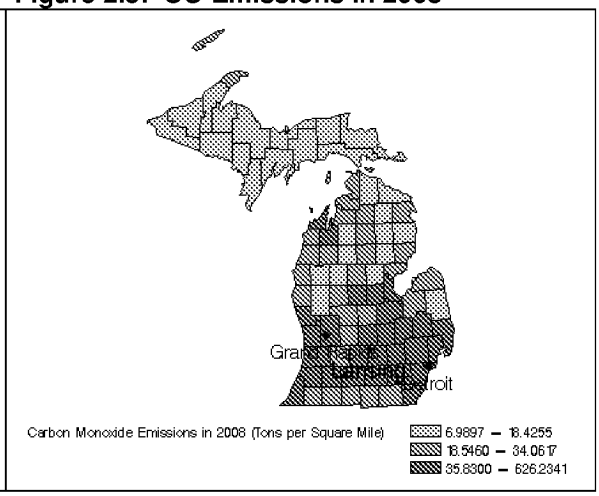
Population most at risk: Those who suffer from cardiovascular (heart and respiratory) disease are most at risk for exposure to elevated levels of CO. People with angina and peripheral vascular disease are especially at risk, as their circulatory systems are already compromised and less efficient at carrying oxygen; however, elevated CO levels can also affect healthy people.

Figure 2.1 shows the two locations in Grand Rapids and Allen Park where trace CO is being monitored as part of the NCore Network and in Detroit at Eliza Howell Park, which is the near-roadway site operated by the DEQ.

Figures 2.2 and **2.3** show CO emission sources and CO emissions by county (courtesy of the EPA's State and County Emission Summaries).

Figure 2.2: CO Emissions by Source Sector





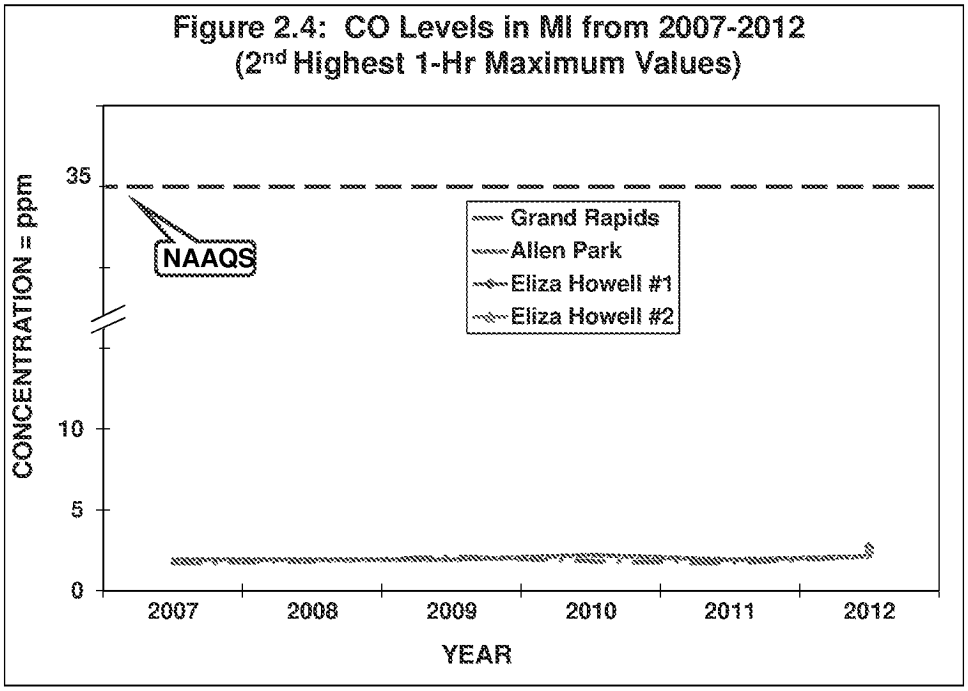


Figure 2.3: CO Emissions in 2008

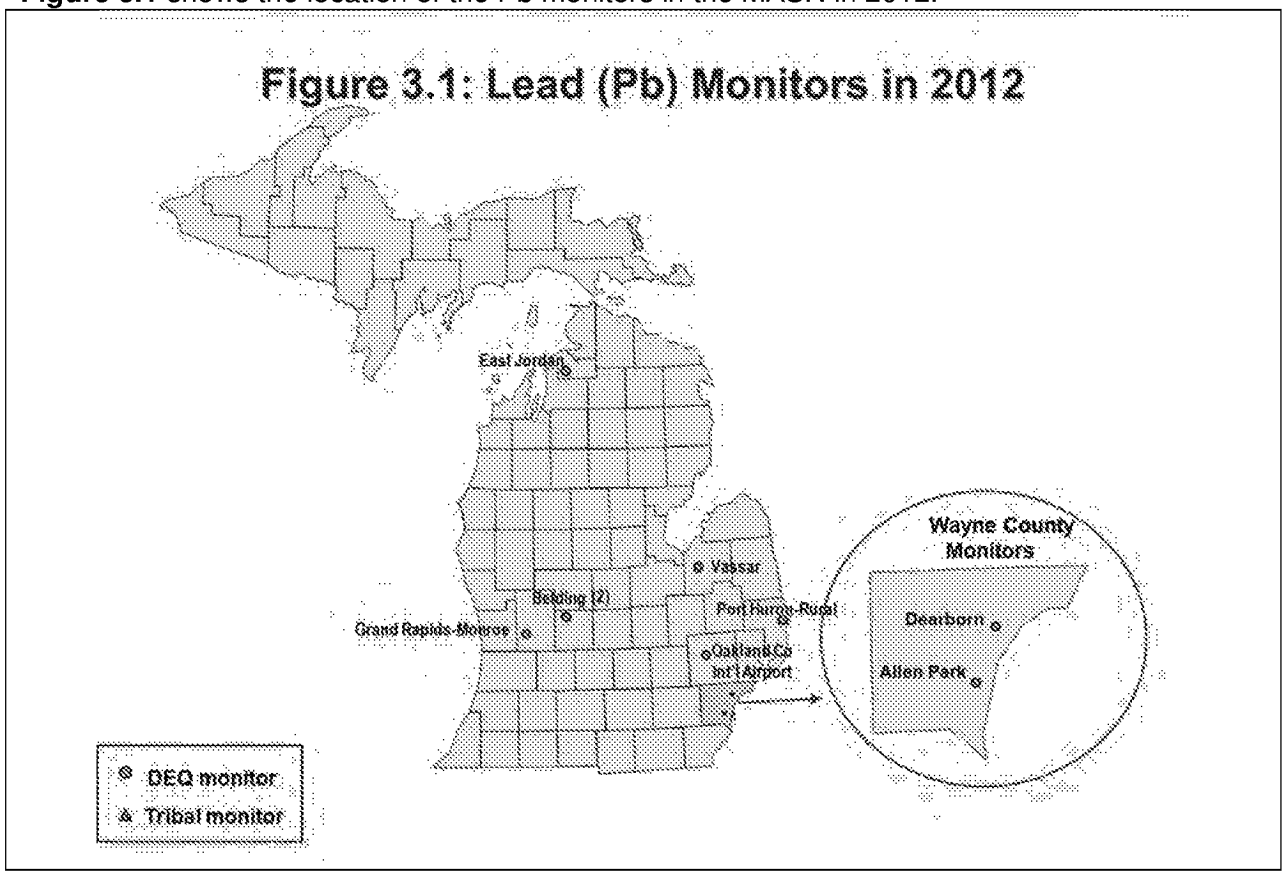
Near-roadway Monitoring: On August 31, 2011, the EPA approved design changes to the CO ambient monitoring network. It is referred to as near-roadway monitoring and is focused on highly trafficked urban roads in Core-based Statistical Areas (CBSAs) with more than one million people. Final implementation is expected by January 2014; however, the DEQ took over two of the EPA's pre-existing, near-roadway sites in Detroit at Eliza Howell Park in June 2011.

Figure 2.4 provides the maximum second highest 1-hour CO level trends for Michigan from 2007-2012, which demonstrates that there have not been any exceedances of the 1-hour CO NAAQS.

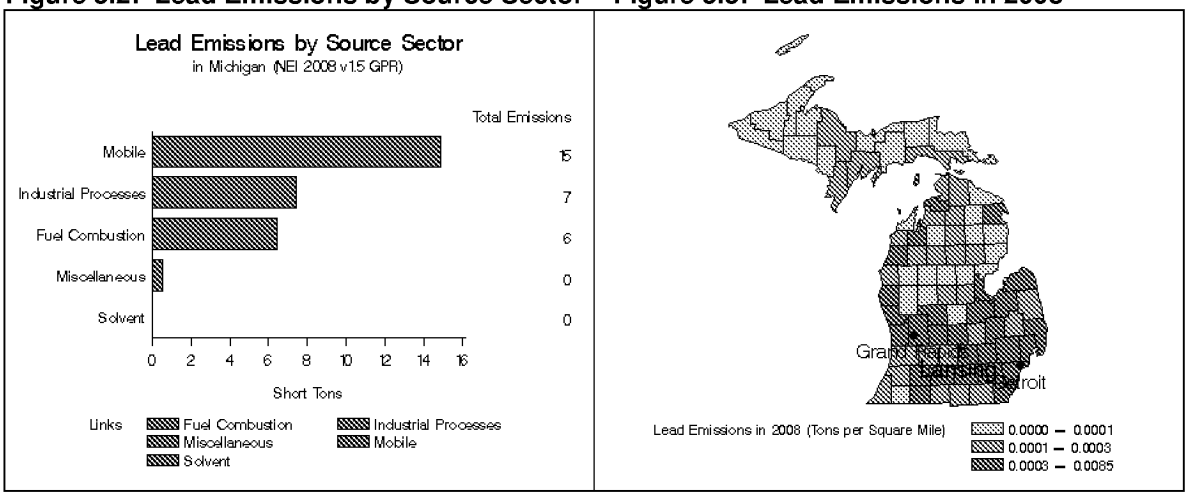
Chapter 3: Lead (Pb)



Lead is a highly toxic metal found in coal, oil, and other fuels. It is also found in older paints, municipal solid waste and sewage sludge and may be released to the atmosphere during their combustion. On November 12, 2008, the EPA modified the Pb NAAQS to a 3-month rolling average of 0.15 µg/m^3. Its sources and effects are as follows:

Sources: With the phase-out of leaded gas in the 1970s, the major sources of Pb emissions are industrial and combustion sources. The highest air concentrations of Pb are found near smelters and battery manufacturers (Pb acid batteries, Pb oxide/pigments). Other industrial sources include Pb glass, Portland cement, and solder production.

Effects: Exposure occurs through the inhalation or ingestion of Pb in food, water, soil, or dust particles. Pb primarily accumulates in the body's blood, bones, and soft tissues, and adversely affects the kidneys, liver, nervous system, and other organs.



Population most at risk: Fetuses and children are most at risk as low levels of Pb may cause central nervous system damage. Excessive Pb exposure during the early years of life is associated with lower IQ scores and neurological impairment (seizures, mental retardation, and behavioral disorders). Even at low doses, Pb exposure is associated with changes in fundamental enzymatic, metabolic, and homeostatic mechanisms in the body, and Pb may be a factor in high blood pressure and subsequent heart disease.

Figure 3.1 shows the location of the Pb monitors in the MASN in 2012.

Figures 3.2 and **3.3** show Pb emission sources and Pb emissions by county (courtesy of the EPA's State and County Emission Summaries).

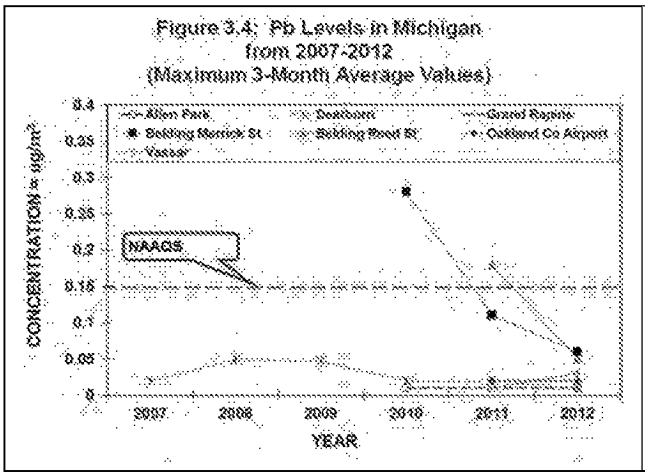


Figure 3.2: Lead Emissions by Source Sector **Figure 3.3: Lead Emissions in 2008**

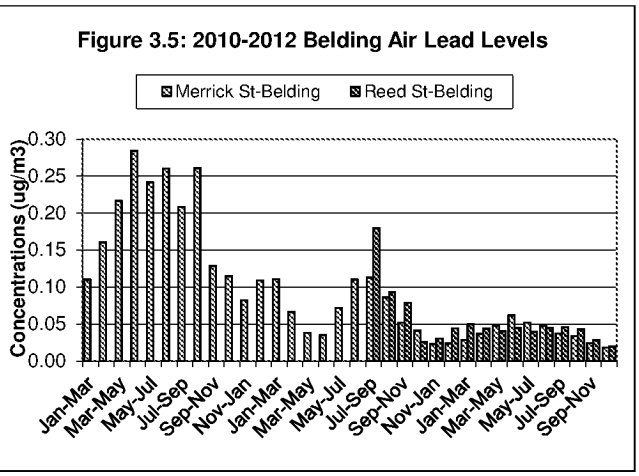


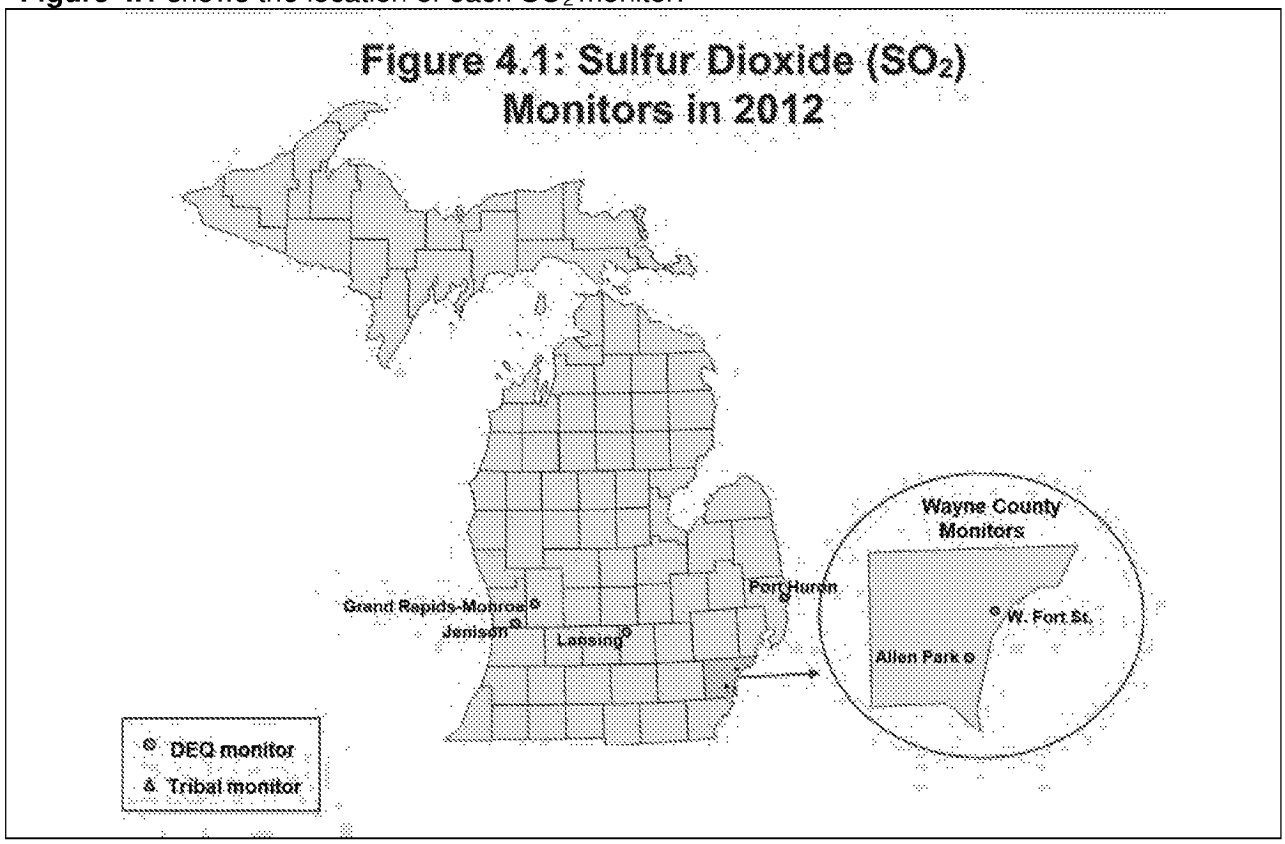
On November 12, 2008, the EPA modified the Pb NAAQS by reducing the level of the standard from a maximum quarterly average of 1.5 µg/m^3 to a 3-month rolling average of 0.15 µg/m^3. The monitoring network design was modified to consist of source-oriented monitors and population-oriented monitors. For details of the new Pb network that has been in progress since 2010, see Michigan's 2013 Annual Ambient Air Monitoring Network Review.

Figure 3.4 shows the maximum quarterly Pb level values for the years 2005 to 2009. Then starting in 2010, it shows the maximum 3-month rolling average.

As part of the new standard, the DEQ was required to monitor near stationary lead sources emitting more than 1 ton per year. One of these sources is located in Belding. Monitoring in Belding began in January 2010. As a result of this effort, the DEQ recorded a violation of the new health standard in 2010 and 2011, as shown in **Figure 3.5.** Four other point-source lead monitoring sites were sampling in East Jordan (November 2011 – November 2012), Vassar started October 2011), Oakland International Airport (July 2011 - August 2012) and Rural St, Port Huron (November 2012). The MDEQ was required to collect only 12 months of data at East Jordan and the Oakland International Airport sites. Values for the first three sites have been well below the NAAQS.

All other Pb sites in Michigan are well below the standard. The Dearborn site is part of the National Air Toxics Trend Sites (NATTS) program and monitors Pb and other trace metals, both as total suspended particulate (TSP) and PM_{10}. Pb measurements as $PM_{2.5}$ are made throughout the $PM_{2.5}$ speciation network.

Chapter 4: Sulfur Dioxide (SO_2)



Sulfur dioxide is a gas formed by the burning of sulfur-containing material. Odorless at typical ambient concentrations, SO_2 can react with other atmospheric chemicals to form sulfuric acid. When sulfur-bearing fuel is burned, the sulfur is oxidized to form SO_2, which then reacts with other pollutants to form aerosols. In liquid form, it is found in clouds, fog, rain, aerosol particles, and in surface films on these particles. It is a major precursor to $PM_{2.5}$. In June 2010, the EPA changed the primary SO_2 standard to a 99th percentile of 1-hour concentrations not to exceed 0.075 ppm, averaged over a 3-year period. The secondary standard has not changed and is a 3-hour average of 0.5 ppm. Its sources and effects are as follows:

Sources: Coal-burning power plants are the largest source of SO_2 emissions. It is also emitted from smelters, petroleum refineries, pulp and paper mills, transportation sources, and steel mills. Other sources include residential, commercial and industrial space heating. SO_2 and PM are often emitted together.

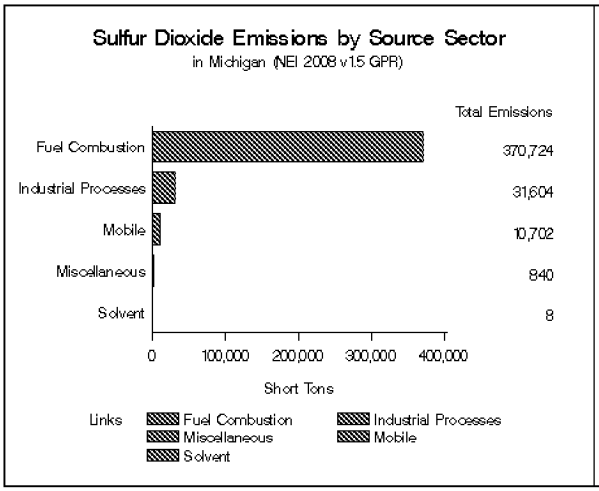
Effects: Exposure to elevated levels aggravates existing cardiovascular and pulmonary disease. SO_2 and PM together may cause respiratory illness, alteration of the body's defense and clearance mechanisms, and aggravation of existing cardiovascular disease. SO_2 and NO_X together are the major precursors to acid rain; are associated with the acidification of soils, lakes, and streams; and accelerated corrosion of buildings and monuments.

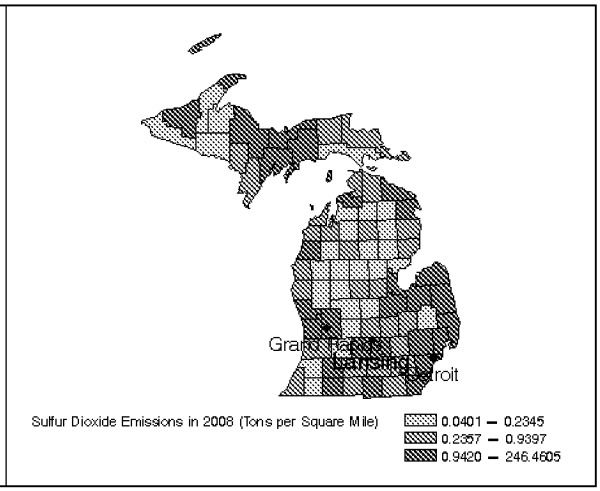
Population most at risk: Asthmatics, children, and the elderly are especially sensitive to SO_2 exposure. Asthmatics receiving short-term exposures during moderate exertion may experience reduced lung function and symptoms, such as wheezing, chest tightness, or shortness of breath. Depending upon the concentration, SO_2 may also cause symptoms in people who do not have asthma.

Figure 4.1 shows the location of each SO_2 monitor.

Figures 4.2 and **4.3** show SO_2 emission sources and SO_2 emissions by county (courtesy of the EPA's State and County Emission Summaries).

Figure 4.2: SO_2 Emissions by Source Sector





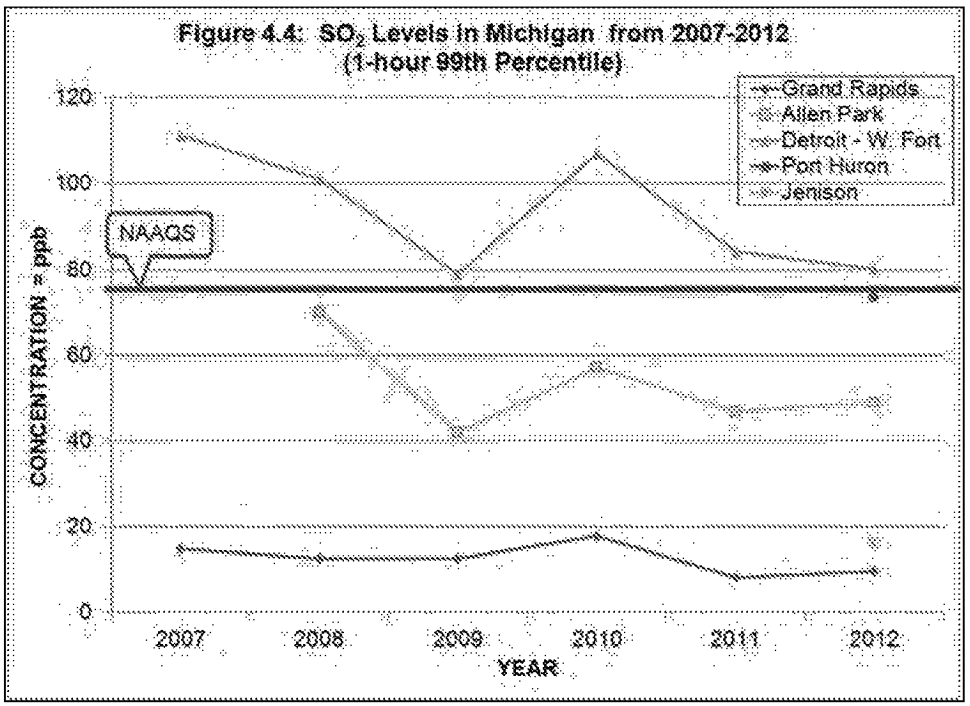


Figure 4.3: SO_2 Emissions in 2008

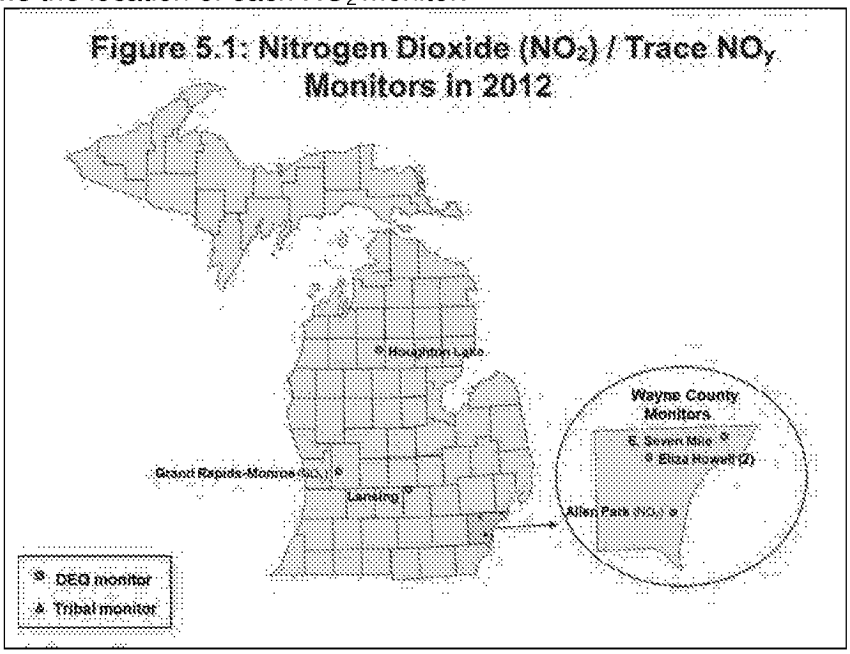
Michigan had been in attainment for SO_2 since 1982 with levels consistently well below the annual SO_2 NAAQS. However, the SO_2 monitor at W. Fort Street (Southwestern High School [SWHS]) in Detroit currently does not meet the new 1-hour NAAQS (see appendix A). For the NCore network, trace SO_2 is monitored at the Grand Rapids and Allen Park NCore sites. For trend purposes, W. Fort Street is graphed together with Allen Park and Grand Rapids SO_2 data. Jenison and Port Huron were also added to the SO_2 network in December 2011 as shown in **Figure 4.4.**

Chapter 5: Nitrogen Dioxide (NO_2)



Nitrogen Dioxide is a reddish-brown, highly reactive gas formed through oxidation of nitric oxide (NO). Upon dilution, it becomes yellow or invisible. High concentrations produce a pungent odor and lower levels have an odor similar to bleach. NO_X is the term used to describe the sum of NO, NO_2, and other nitrogen oxides. NO_X can lead to the formation of O_3 and NO_2, and can react with other substances in the atmosphere to form acidic products that are deposited in rain (acid rain), fog, snow, or as PM. Since 1971, the primary and secondary standard for NO_2 was an annual mean of 0.053 ppm. On January 22, 2010, the EPA added a 1-hour NO_2 standard of 100 ppb, taking the form of the 98th percentile averaged over three years. The sources and effects of NO_2 are as follows:

Sources: NO_X compounds and their transformation products occur both naturally and as a result of human activities. Natural sources of NO_X are lightning, biological and abiological processes in soil, and stratospheric intrusion. Ammonia and other nitrogen compounds produced naturally are important in the cycling of nitrogen through the ecosystem. The major sources of man-made (anthropogenic) NO_X emissions come from high-temperature combustion processes (such as those occurring in automobiles and power plants). Home heaters and gas stoves produce substantial amounts of NO_2 in indoor settings.

Effects: Exposure to NO_2 occurs through the respiratory system, irritating the lungs. Short-term NO_2 exposures (i.e., less than three hours) can produce coughing and changes in airway responsiveness and pulmonary function. Evidence suggests that long-term exposures to NO_2 may lead to increased susceptibility to respiratory infection and may cause structural alterations in the lungs. Exercise increases the ventilation rate and hence exposure to NO_2. Nitrate particles and NO_2 can block the transmission of light, thus causing visibility impairment. Deposition of nitrogen can lead to fertilization, eutrophication, or acidification of terrestrial, wetland, and aquatic systems.

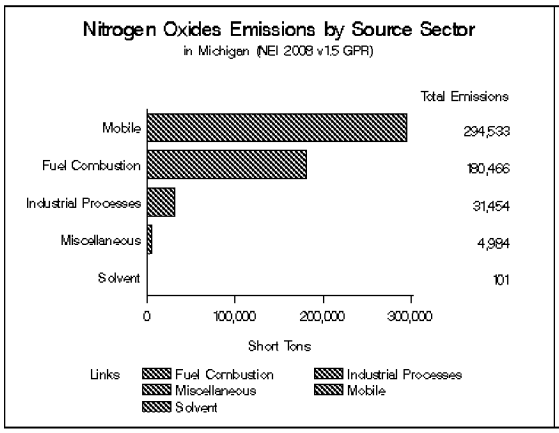
Population most at risk: Individuals with pre-existing respiratory illnesses and asthmatics are more sensitive to the effects of NO_2 than the general population. Short-term NO_2 exposure can increase respiratory illnesses in children.

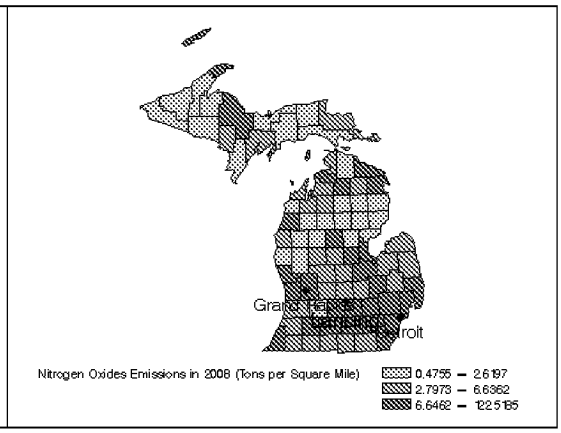
Figure 5.1 shows the location of each NO_2 monitor.

The East 7 Mile monitor in Detroit is a downwind urban scale site that measures NO_2. The Grand Rapids and Allen Park sites monitor trace NO_Y, which began in early January 2008 as part of the NCore program (however, only NO_2 monitors can be used for attainment/nonattainment purposes). In addition, in 2010, the AQD added NO_2 monitors at Lansing and Houghton Lake to provide background information for modeling applications.

Due to the January 22, 2010, near-roadway monitoring regulations, the EPA deployed two NO_2 sites at Eliza Howell in September 2010. The monitoring of these two sites was taken over by the DEQ in October 2011. Please see the 2013 Annual Network Review document for more details. **Figures 5.2** and **5.3** show NO_2 emission sources and NO_2 emissions by county (courtesy of the EPA's State and County Emission Summaries).

Figure 5.2: NO_2 Emissions by Source Sector





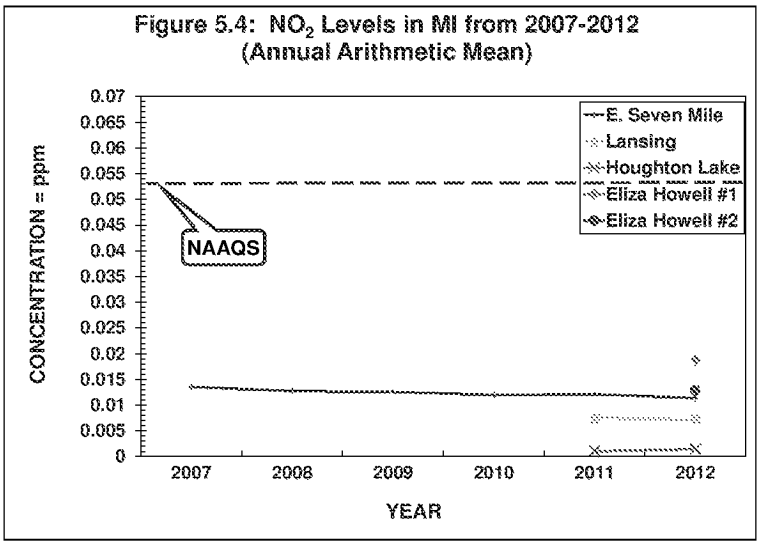


Figure 5.3: NO_2 Emissions in 2008

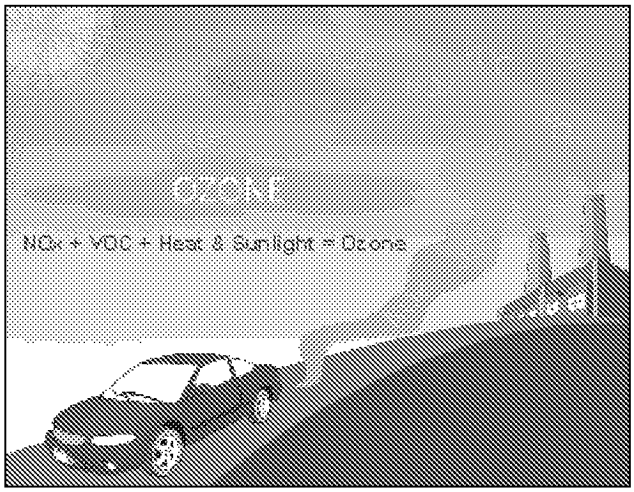
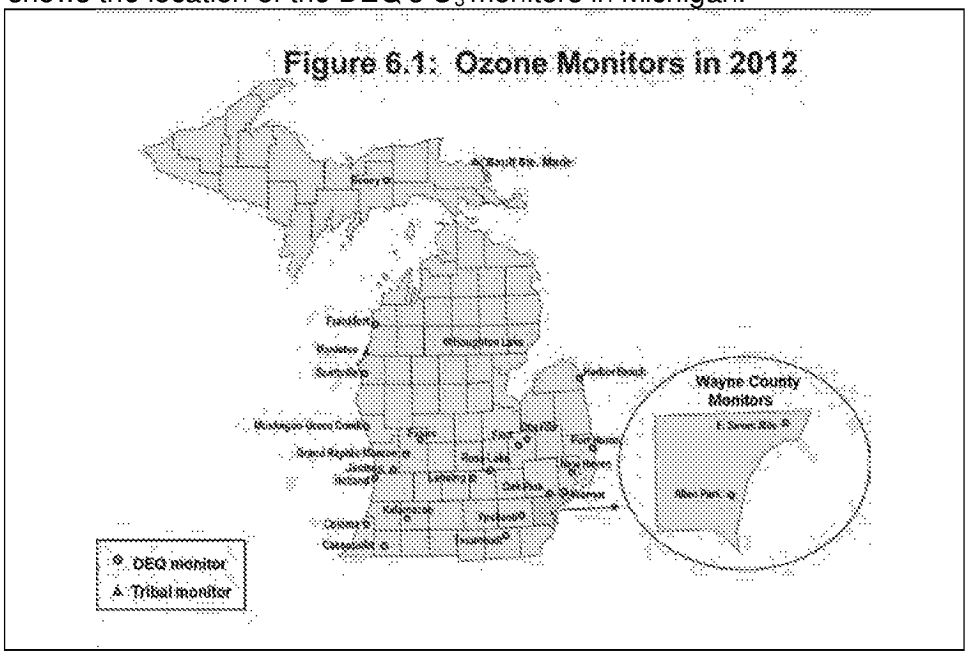


Michigan ambient NO_2 levels have always been well below the NAAQS. Since March 3, 1978, all areas in Michigan have been in attainment for the annual NO_2 NAAQS. As shown in **Figure 5.4**, all monitoring sites have had an annual NO_2 concentration at less than half of the 0.053 ppm NAAQS. As such, the DEQ requested a designation of unclassifiable/attainment for the entire state. Unclassifiable/attainment means that there are no air quality measurements that would justify classifying these attainment areas as either serious or moderate attainment areas.

Even though there are no nonattainment areas for NO_2 in Michigan and monitoring for attainment purposes is not required, monitors continue to operate to support photochemical model validation work.

Chapter 6: Ozone (O_3)

Ground-level O_3 is created by reactions involving nitrogen oxides (NO_X) and volatile organic compounds (VOCs), or hydrocarbons, in the presence of sunlight as the illustration to the right depicts (image courtesy of the EPA). These reactions usually occur during the hot summer months as ultraviolet radiation from the sun initiates a sequence of photo-chemical reactions. O_3 is also a key ingredient of urban smog. In Earth's lower atmosphere (also known as the troposphere), ozone is an air pollutant. Ground level ozone can also be transported hundreds of miles under certain meteorological conditions. Ozone levels are often higher in rural areas than in cities due to transport to regions downwind from the actual emissions of NO_X and VOCs. Shoreline monitors along Lake Michigan often measure high ozone concentrations due to transport from upwind states. The ozone NAAQS was revised by the EPA and became effective on May 27, 2008. The new standard is a 3-year average of the 4th highest daily maximum 8-hour average concentration within an area that must not exceed 0.075 ppm. The sources and effects of ozone follow:



Sources: Major sources of NO_X and VOCs are engine exhaust, emissions from industrial facilities, combustion from power plants, gasoline vapors, chemical solvents, and biogenic emissions from natural sources. Ground-level O_3 can also be transported hundreds of miles under certain wind regimes. As a result, the long-range transport of air pollutants impacts the air quality of regions downwind from the actual area of formation.

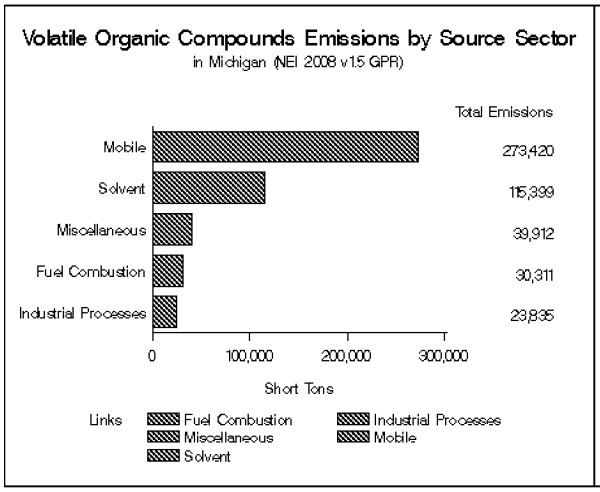
Effects: Elevated O_3 exposure can irritate a person's airways, reduce lung function, aggravate asthma and chronic lung diseases like emphysema and bronchitis, and inflame and damage the cells lining the lungs. Other effects include increased respiratory related hospital admissions with symptoms such as chest pain, shortness of breath, throat irritation, and cough. O_3 may also reduce the immune system's ability to fight off bacterial infections in the respiratory system, and long-term, repeated exposure may cause permanent lung damage. O_3 also impacts vegetation and the forest ecosystem, including agricultural crop and forest yield reductions, diminished resistance to pest and pathogens, and reduced survivability of tree seedlings.

Population most at risk: Individuals most susceptible to the effects of O_3 exposure include those with a pre-existing or chronic respiratory disease, children who are active outdoors, and adults who actively exercise or work outdoors.

Figure 6.1 shows the location of the DEQ's O_3 monitors in Michigan.

Figures 6.2 and **6.3** show VOC emission sources and VOC emissions by county (courtesy of the EPA's State and County Emission Summaries).

Figure 6.2: VOC Emissions by Source Sector



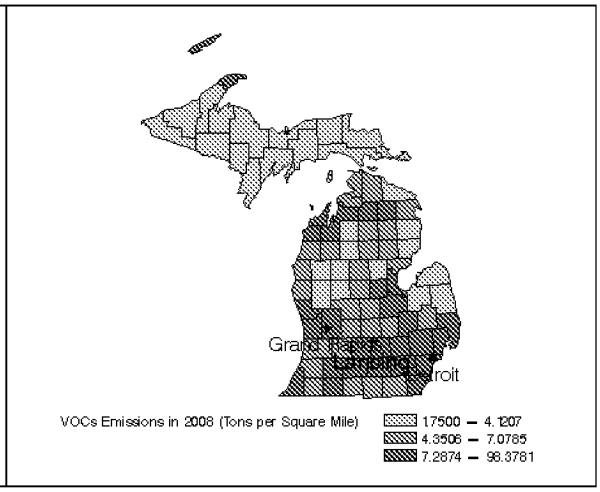


Figure 6.3: VOC Emissions in 2008

The primary 8-hour ozone NAAQS was revised by the EPA on March 12, 2008 to 0.075 ppm and became effective on May 27, 2008. To attain the 2008 standard, the 3-year average of the 4th highest daily maximum 8-hour average concentration within an area must not exceed 0.075 ppm. The secondary 8-hour ozone was also revised, making it identical to the primary standard.

According to the EPA's April 30, 2012 letter, no areas in Michigan violated the 2008 standards or contributed to a violation of the ozone standards. Thus as a result, all of Michigan was designated as unclassifiable/attainment. Although Michigan is designated unclassifiable/ attainment based on 2008-2010 ozone data, many monitors throughout the state are now violating the 0.075 ppm ozone standard (see **Table 6.1** and **Figure 6.4**)

The O_3 monitoring season in Michigan is from April 1 through September 30, during which time

O_3 monitoring data is available for the public via the AQD's web site (discussed in **Chapter 9**). This data helps in attainment designation applications, to assess urban air quality, and population exposure.

Table 1.3 in **Chapter 1** shows all 27 O_3 air quality monitors active in Michigan at the beginning of 2012. It is important to note that under the 2006 amended air monitoring regulations, MSA boundaries have been modified and population totals tied to measurements of ambient air quality have increased. Basically, the amended regulations state that any monitors with a design value, using the most recent three years of data greater than or equal to 85% of the O_3 NAAQS, have a higher probability of violating the standard. Therefore, more monitors could be required in these MSAs.[5]

Table 6.1: Three-year Average of the 4th Highest 8-hour Ozone Values from 2008-2010, 2009-2011, and 2010-2012 (concentrations in ppm).

Days: Number of days during month when the daily high temperature falls within the specified temperature range.
Os Days: Number of days, during specified temperature range, when two or more area monitors exceeded 75 ppb.

There were no days in April, four days in May, seven days in June, eleven days in July, seven days in August, and no days in September when ozone exceeded 0.075 ppm at two or more monitors in west Michigan. The respective temperatures for those days were between 70^{0}F to ≥ 94^{0}F. There were no days in April, three days in May, four days in June, four days in July, seven days in August, and no days in September when ozone exceeded 0.075 ppm at two or more monitors in southeast Michigan. The respective temperatures for those days were between 80^{0}F to ≥ 94^{0}F. **Table 6.4** gives a breakdown of those days and the specific monitors that went over the standard in the western, central/upper, and eastern portions of the state.

			TOTAL	328

May 19 and June 9, 2012, had the most number of monitor readings that exceeded the level of the standard; with 25 and 23 sites, respectively. Two Eastern Michigan monitor sites, New Haven and East 7 Mile, exceeded the level of the standard most often, on 17 and 16 occasions, respectively. Sites with the most exceedances in the western region of Michigan were Holland and Muskegon, with 26 and 23 each. The central/upper Michigan site with the most exceedances was Seney, with 12.

Figure 6.4: O_3 Levels in Detroit-Warren-Flint CSA from 2007-2012, (4th Highest 8-Hour O_3 Values)

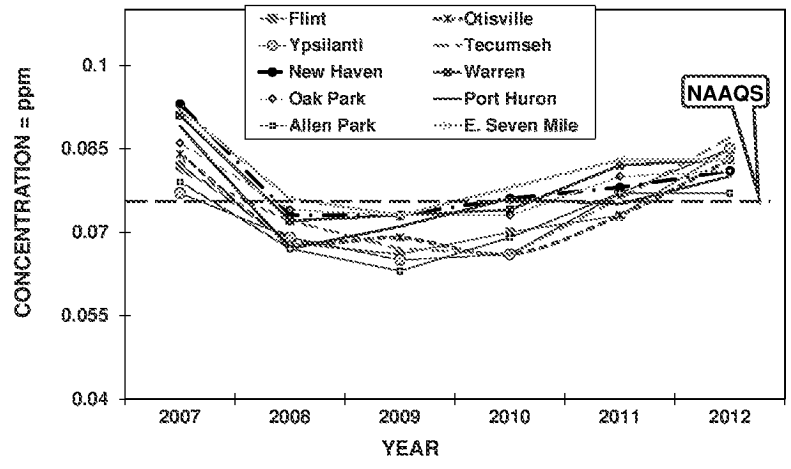

Figure 6.4 shows the 4th highest 8-hour O_3 values for southeast Michigan monitoring sites from 2007-2012. All ten sites during the 2012 monitoring season exceeded 0.075 ppm at least once. Except for Allen Park and Otisville, the other eight sites all violated the 3-year standard.

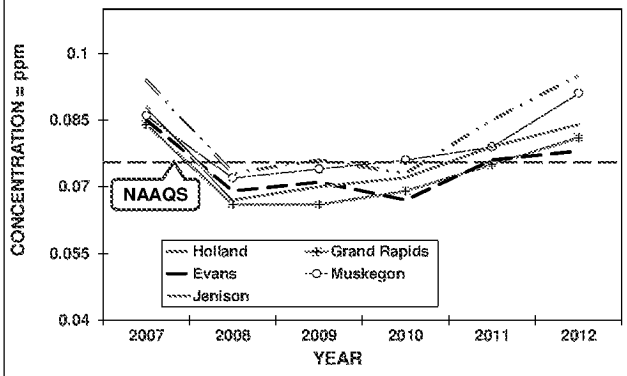

Figure 6.6: O_3 Levels in the Kalamazoo-Portage MSA, Lansing-E. Lansing-Owosso CSA, Niles-Benton Harbor MSA, & South Bend-Mishawaka (IN-MI) MSAs from 2007-2012 (4th Highest 8-Hour O_3 Values)

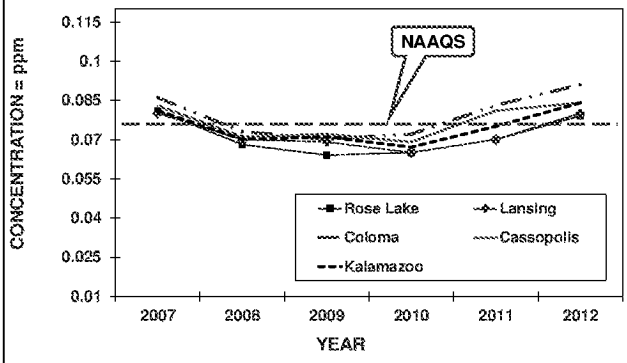

Figure 6.7: O_3 Levels in MI's Northern Lower and Upper Peninsula Areas from 2007-2012 (4th Highest 8-Hour O_3 Values)

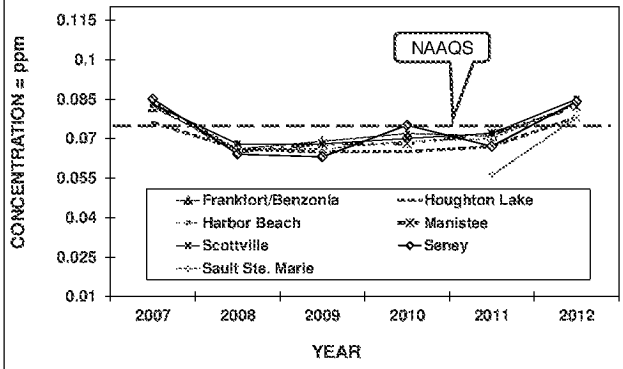

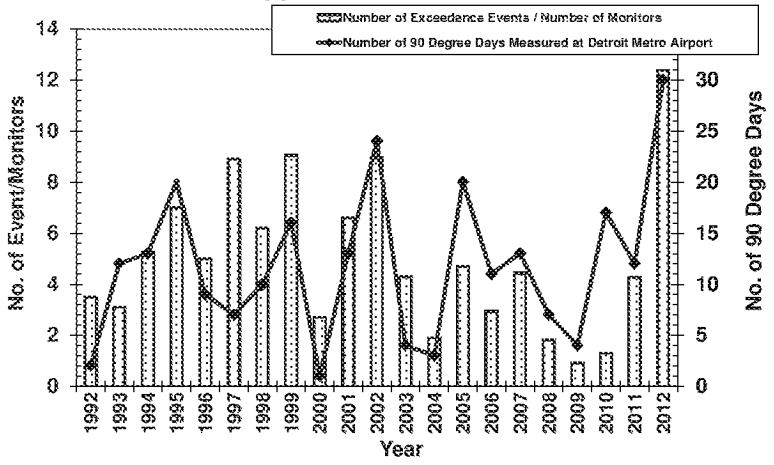

Figure 6.5 shows the 4th highest 8-hour O_3 values for Grand Rapids-Muskegon-Holland CSA. Five sites reached the 0.075 ppm standard during 2012 monitoring season, while just Grand Rapids, Muskegon and Holland violated the 3-year standard

Figure 6.6 shows 4th highest 8-hour O_3 values for Kalamazoo-Portage MSA. All five sites reached the 0.075 ppm standard and also violated the 3-year standard.

Figure 6.7 shows 4th highest 8-hour O_3 values for Northern Lower Michigan and Upper Peninsula areas. All seven sites reached the 0.075 ppm standard, but only Frankfort and Scottville violated the 3-year standard.

Figure 6.8 shows 8-hour O_3 readings ≥ 0.075 ppm with the number of 90°F days (≥ 90°F) measured at the Detroit Metropolitan Airport. The total number of southeastern Michigan-area 8-hour readings above 0.075 ppm was divided by the number of monitors that were in operation each year to provide a relative indication of the frequency of elevated 8-hour O_3 values.

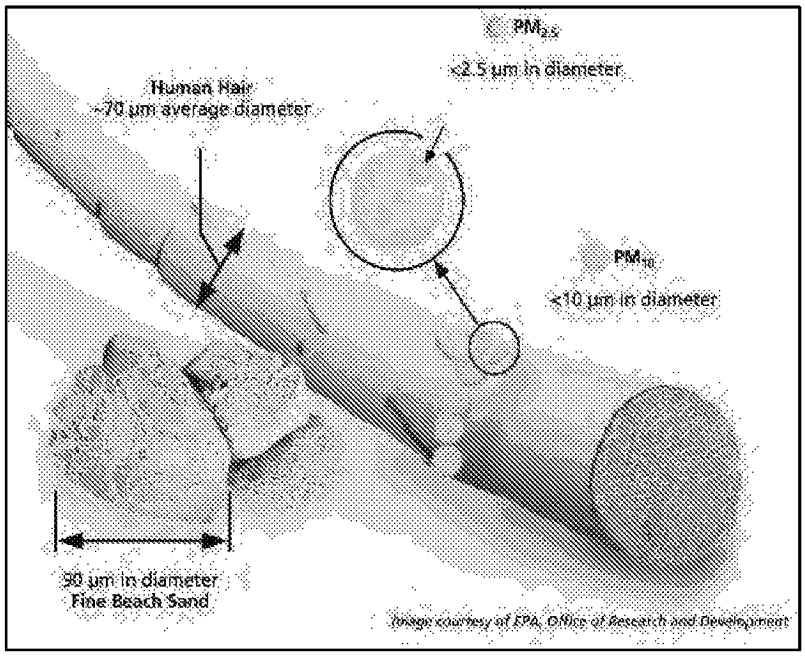

Figure 6.8: 8-Hour O_3 Level Events Exceeding the 0.075 ppm NAAQS from 1992-2012

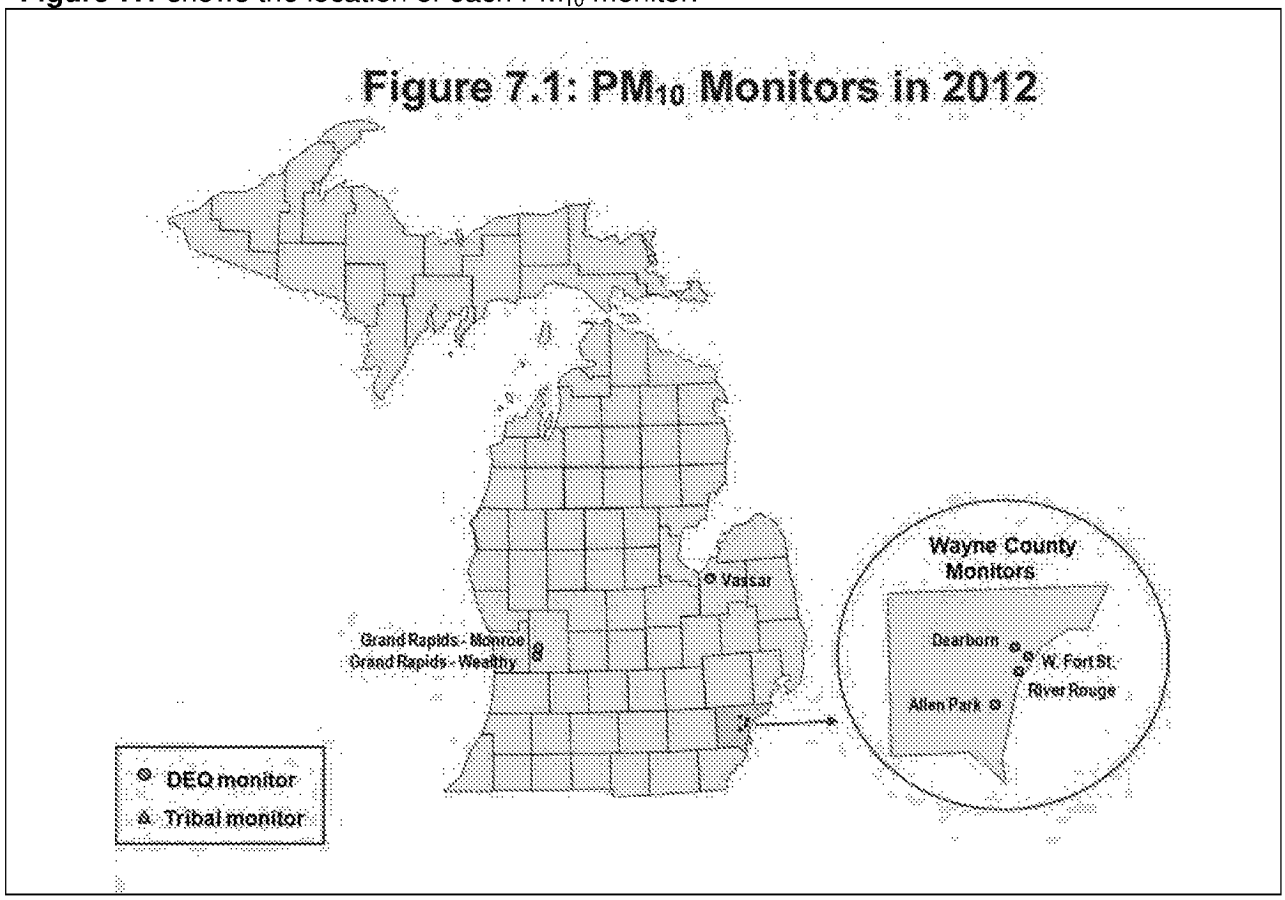
This comparison shows the influence of temperature with respect to elevated O_3 levels. Over the past 20 years, a typical summer would have an average of 11 days with the maximum daily temperature exceeding 90°F. Over the time period from 1992 through 2012, the highest number of 90°F days occurred in 2012(30 days), while the lowest number occurred in 2000 (one day).

Chapter 7: Particulate Matter (PM_{10}, $PM_{2.5}$, $PM_{2.5}$ Chemical Speciation and TSP)

Particulate matter is a general term used for a mixture of solid particles and liquid droplets found in the air, which is further categorized according to size. Large particles with diameters of less than 50 micrometers (µm) are classified as total suspended particulates (TSP). PM_{10} consists of "coarse particles" less than 10 µm in diameter (about one-seventh the diameter of a human hair) and $PM_{2.5}$ are much smaller "fine particles" equal to or less than 2.5 µm in diameter. PM_{10} has a 24-hour average standard of 150 µg/m^3. $PM_{2.5}$ has an annual average standard of 15 µg/m^3, and a 98th percentile 24-hour average of 35 µg/m^3 over three years. Its sources and effects are as follows:

Sources: PM can be emitted directly (primary) or may form in the atmosphere (secondary). Most man-made particulate emissions are classified as TSP. PM_{10} consists of primary particles that can originate from power plants, various manufacturing processes, wood stoves and fireplaces, agriculture and forestry practices, fugitive dust sources (road dust and windblown soil), and forest fires. $PM_{2.5}$ can come directly from primary particle emissions or through secondary reactions that include VOCs, SO_2, and NO_X emissions originating from power plants, motor vehicles (especially diesel trucks and buses), industrial facilities, and other types of combustion sources.

Effects: Exposure to PM affects breathing and the cellular defenses of the lungs, aggravates existing respiratory and cardiovascular ailments, and has been linked with heart and lung disease. Particle size is the major factor that determines which particles will enter the lungs and how deeply the particles will penetrate. PM is the major cause of reduced visibility in many parts of the U.S. $PM_{2.5}$ is considered a primary visibility-reducing component of urban and regional haze. Airborne particles impact vegetation ecosystems and damage paints, building materials and surfaces. Deposition of acid aerosols and salts increases corrosion of metals and impacts plant tissue.



Population most at risk: $PM_{2.5}$ has been linked to the most serious health effects. People with heart or lung disease, the elderly, and children are at highest risk from exposure to PM.

PM_{10}

Since October 4, 1996, all areas in Michigan have been in attainment with the PM_{10} NAAQS. Due to the recent focus upon $PM_{2.5}$ and because of the relatively low concentrations of PM_{10} measured in recent years, Michigan's PM_{10} network has been reduced to a minimum level. **Table 1-3** identifies the locations of PM_{10} monitoring stations that were operating in Michigan

during 2012. These monitors are located in the state's largest populated urban areas: four in the Detroit area, two in Grand Rapids and one added in September 2012 in the Saginaw Bay area in Vassar. To better characterize the nature of particulate matter in Michigan, many of the existing PM_{10} monitors are co-located with $PM_{2.5}$ monitors in population-oriented areas.

Figure 7.1 shows the location of each PM_{10} monitor.

Figures 7.2 and **7.3** show PM_{10} emission sources and PM_{10} emissions by county (courtesy of the EPA's State and County Emission Summaries).

Figure 7.2: PM_{10} Emissions by Source Sector

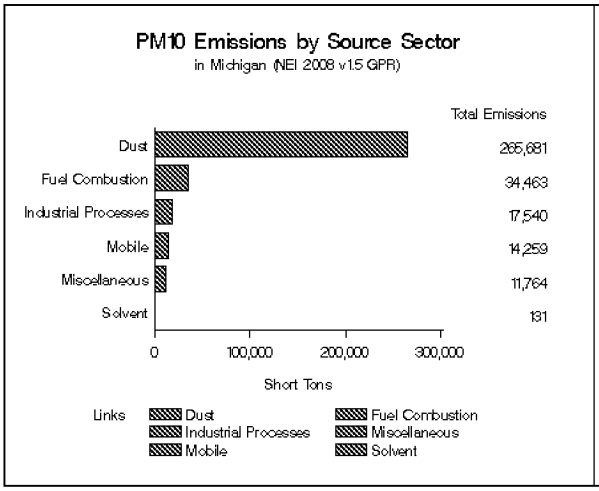


Figure 7.3: PM_{10} Emissions in 2008

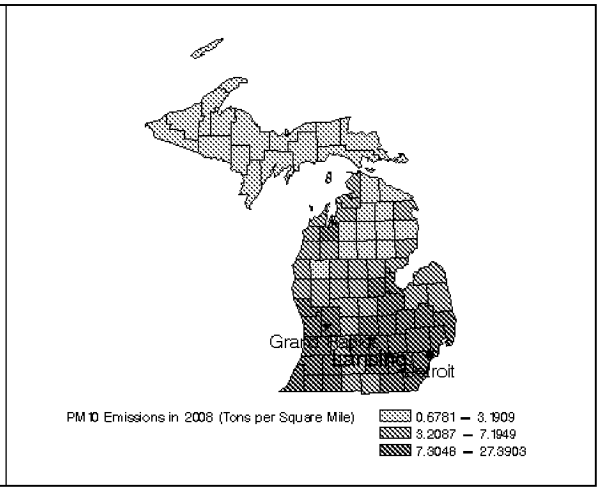

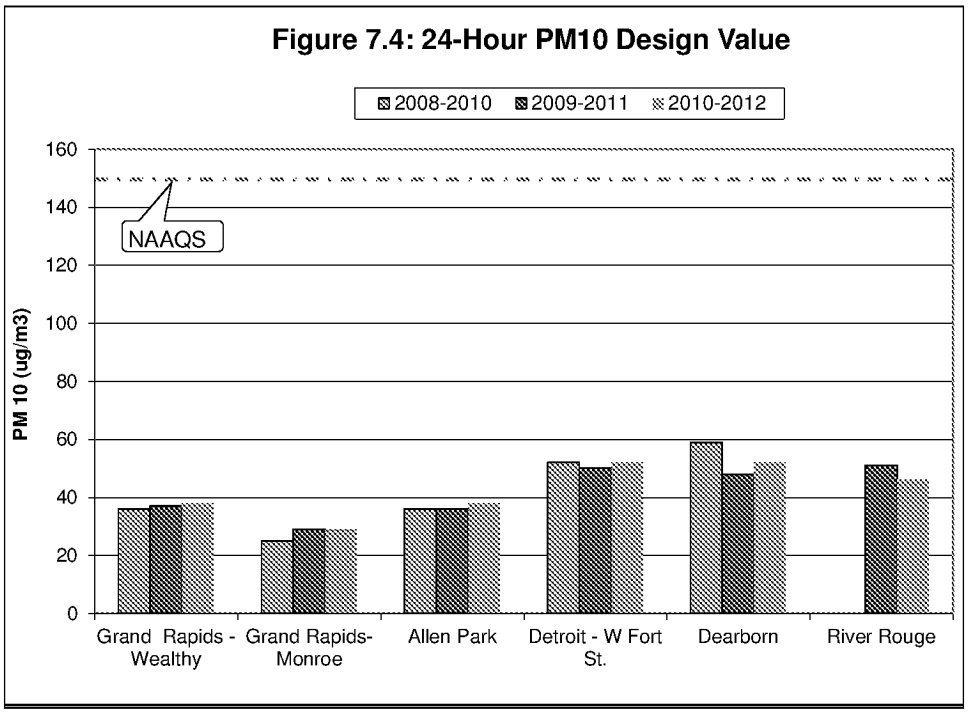

Figure 7.4 shows the PM_{10} levels in Michigan compared to the 24-hour average of 150 µg/m^3. This standard must not be exceeded on average more than once per year over a 3-year period. The design value is the 4th highest value over a 3-year period. The PM_{10} levels at all sites in Michigan are well below the national standard.

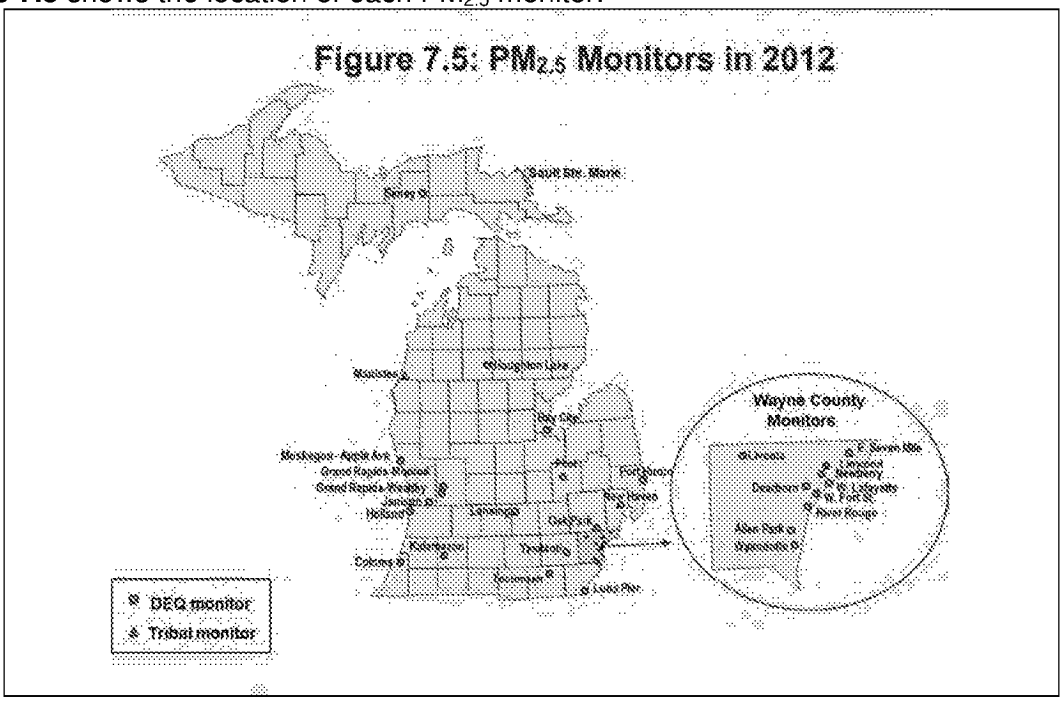
$PM_{2.5}$

All Michigan counties from 2007-2010 met the now old annual $PM_{2.5}$ standard of 15 µg/m^3 and the 24-hour $PM_{2.5}$ standard of 35 µg/m^3. The EPA would have designated Michigan in attainment if, on December 14, 2012, the annual primary standard had not changed to 12 µg/m^3 while the annual secondary standard remained at 15 µg/m^3. The primary and secondary 24-hour remained as 35 µg/m^3.



The $PM_{2.5}$ particulate network consists of the following components, which together provide a picture of the nature of PM within the state:

$PM_{2.5}$ FRM monitoring: The concentrations of $PM_{2.5}$ measured over a 24-hour time period are determined using the gravimetric FRM. Only data generated by the FRM monitors are used for comparisons to the NAAQS in Michigan. The sites are located in urban, commercial, and residential areas where people are exposed to $PM_{2.5}$.

Continuous $PM_{2.5}$ monitoring (Tapered Element Oscillating Microbalance [TEOM]): Continuous monitoring is beneficial as it provides real-time hourly data that supplements the $PM_{2.5}$ data collected by FRM monitors. This data forms the basis of the information reported on AirNow and MIair.

Chemical Speciation monitoring: Speciated monitoring provides a better understanding of the chemical composition of $PM_{2.5}$ material and better characterizes background levels.

Figure 7.5 shows the location of each $PM_{2.5}$ monitor.

$PM_{2.5}$ FRM Monitoring Network: $PM_{2.5}$ FRM monitors are deployed to characterize background or regional $PM_{2.5}$ transport collectively from upwind sources. Two of the monitoring sites in Detroit, W. Lafayette and Newberry, measure PM levels in an area that is heavily impacted by mobile source emissions. In addition, five $PM_{2.5}$ FRM monitoring sites are co-located with PM_{10} monitors to allow for $PM_{2.5}$ and PM_{10} comparisons[6]. Co-located PM_{10} and $PM_{2.5}$ sites include Grand Rapids (Monroe and Wealthy), Dearborn, Allen Park, and Detroit's W. Fort Street (SWHS) station.

Continuous $PM_{2.5}$ Network: Short-term measurements of $PM_{2.5}$ or PM_{10} are updated on an hourly basis using TEOM instruments. At least one continuous TEOM is required at a core monitoring $PM_{2.5}$ site in a metropolitan area with a population greater than one million. Both Detroit (Allen Park) and Grand Rapids (Monroe) meet this requirement[7]. Under the revised 2006 air monitoring regulations, 50 percent of the FRM monitoring sites are now required to have a continuous $PM_{2.5}$ monitor. For Michigan, there are 26 FRM monitoring sites, 13 of which also have TEOMS. The DEQ initially operated all TEOM units with an inlet temperature of 50ºC, but this high inlet temperature was volatilizing nitrate levels during the winter months. Therefore, the DEQ began operating TEOMs with a 30°C inlet temperature October through March and a 50°C inlet temperature between April and September.

$PM_{2.5}$ Chemical Speciation Monitoring Network: Single event Met-One speciation air sampling system (SASS) monitors are used throughout Michigan's speciation network and are placed in population-oriented stations in both urban and rural locations. $PM_{2.5}$ chemical speciation samples are collected on two types of filters – Teflon and nylon – over a 24-hour period. Each filter is analyzed by a different method to determine various components of $PM_{2.5}$. In 2008, the EPA changed the protocol for the SASS monitors by removing the quartz carbon

[6] Requirements for $PM_{2.5}$ FRM sites are obtained from the Revised Requirements for Designation of Reference and Equivalent Methods for $PM_{2.5}$ and Ambient Air Quality Surveillance for PM [62 FR 38763]; Guidance for Using Continuous Monitors in $PM_{2.5}$ Monitoring Networks [EPA-454/R-98-012, May 1998]; and Appendix N to Part 50 -Interpretation of the National Ambient Air Quality Standards for PM [40 CFR Part 50, July 1, 1998].

[7] Under the Guidance for Using Continuous Monitors in $PM_{2.5}$ Monitoring Networks [EPA-454/R-98-012, May 1998].

channel and replacing it with an URG 3000 N sampler. The Dearborn and the Ypsilanti sites were changed over in 2008. The remaining sites were changed over in 2009. There are eight SASS monitors operating in Michigan; see **Table 1.3.**

The primary objectives of the chemical speciation monitoring sites are to provide data that will be used to determine the sources of poor air quality and to support the development of attainment strategies. Historical speciation data for Michigan indicates that $PM_{2.5}$ is made up of 30 percent nitrate compounds, 30 percent sulfate compounds, 30 percent organic carbon[8], and 10 percent unidentified or trace elements.

Continuous $PM_{2.5}$ Speciation Monitoring (EC/OC and Aethalometer) Network: To determine diurnal changes in $PM_{2.5}$ composition, the DEQ operated two aethalometers and three elemental carbon/organic carbon (EC/OC) monitors in 2012.

- Aethalometers measure carbon black, a combustion by-product typical of transportation sources, by concentrating particulate on a filter tape and measuring changes in optical transmissivity and absorption. In 2012, the DEQ's aethalometers were located at Allen Park and Dearborn.
- The EC/OC instruments measure elemental carbon, using pyroloysis coupled with a nondispersive infrared detector to separate the elemental and organic carbon fractions. These instruments are located at Dearborn, Detroit-Newberry, and Tecumseh.

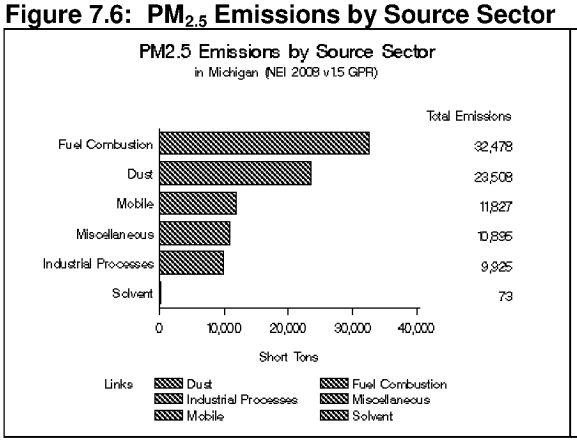
$PM_{10-2.5}$

The 2006 amended air monitoring regulations specified that measurements of PM_{10}-$PM_{2.5}$ need to be added to the NCore sites[9]. The DEQ began PM_{10}-$PM_{2.5}$ monitoring in 2010 at Allen Park and Grand Rapids – Monroe Street.

Table 1.3 in chapter 1 shows all of Michigan's 26 $PM_{2.5}$ FRM monitoring stations operating in 2012 and denotes which sites also have TEOM and/or SASS monitors in operation.

Figures 7.6 and **7.7** show $PM_{2.5}$ emission sources and $PM_{2.5}$ emissions by county (from the EPA's State and County Emission Summaries).

Figure 7.6: $PM_{2.5}$ Emissions by Source Sector



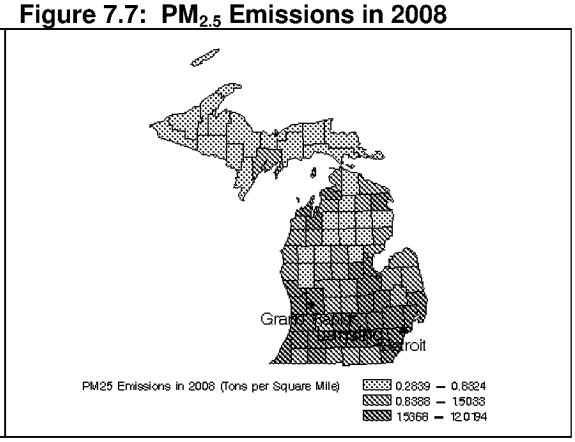


Figure 7.7: $PM_{2.5}$ Emissions in 2008

[8] To better understand the chemical composition of the organic carbon fraction, a number of studies have been conducted in southeast Michigan to further investigate organic carbon. Information can be found in the Michigan 2012 Ambient Air Monitoring Network Review, available at http://www.michigan.gov/documents/deq/deq-aqd-ace-2012-Air-Mon-Network-Review_357137_7.pdf

[9] Current information on both proposals can be found at http://www.epa.gov/air/particles/actions.html.

Table 7.1 provides the 2010-2012 annual mean $PM_{2.5}$ concentrations by individual monitoring stations[10]. Stations labeled #2 provide a precision estimate of the overall measurement and operate on a one in six sampling schedule. All other monitors sampled on a one-in-three-day schedule, except for Allen Park #1, which samples daily. The Allen Park #2 was moved to Dearborn #2 in January 2010.

Table 7.1: Three-Year Average of the Annual Mean PM2.5 Concentrations

Areas	County	Monitoring Sites	2010	2011	2012	2010-2012 Mean

*moved to Dearborn

[11] The 98th percentile value was obtained from the EPA AQS. For the purpose of comparing calculated values, the 3-year 24-hour average is rounded to the nearest 1 µg/m^3.

Figures 7.8 through **7.11** illustrate the current annual mean $PM_{2.5}$ trend for each monitoring site in Michigan for the years monitoring was conducted. For clarity, the monitoring sites within the Detroit-Warren-Flint CSA, which are currently designated as nonattainment for the $PM_{2.5}$ NAAQS, have been broken down into two graphs.

Figure 7.8 shows those sites in Wayne County, and **Figure 7.9** shows the remaining counties within the CSA.

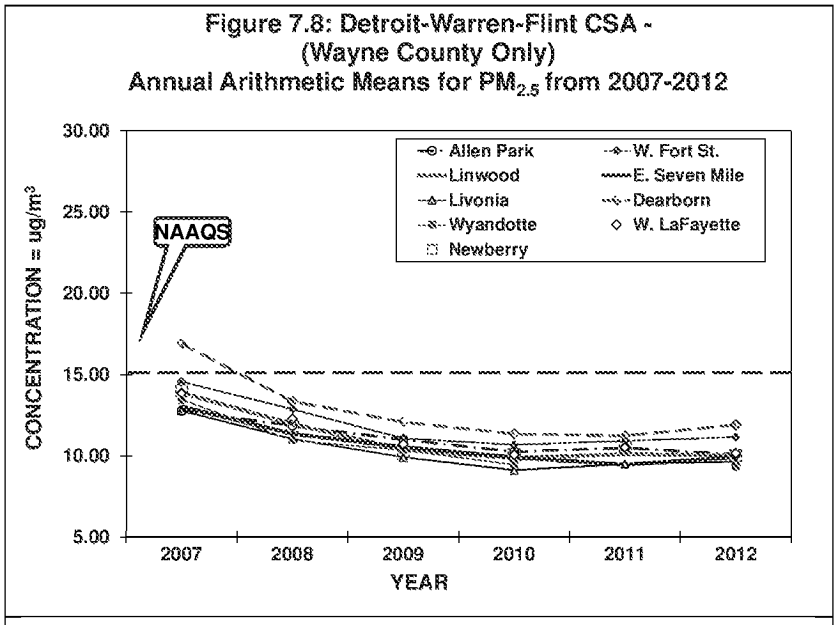

Figure 7.8 shows that 2012 levels in Wayne County remained below the standard. Historically, Dearborn has had the highest readings in the state.

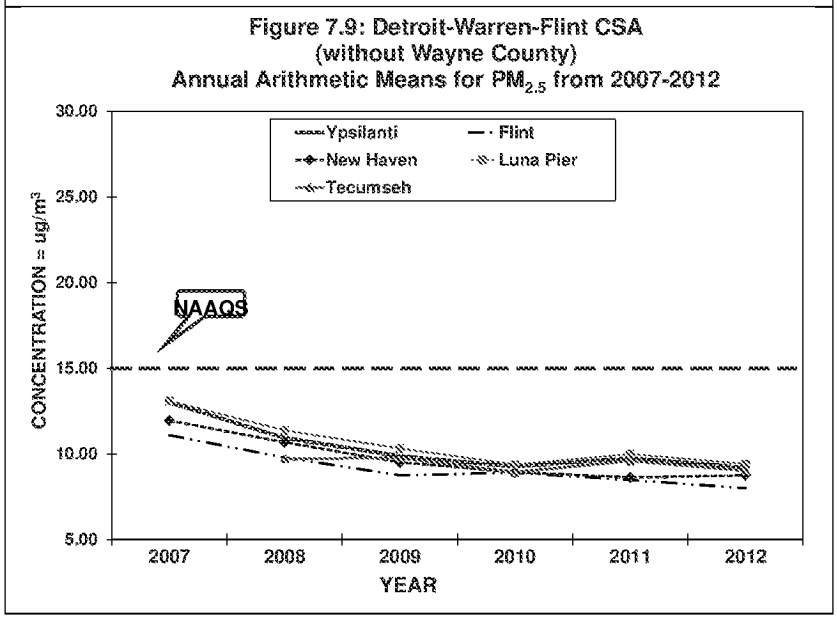

Figure 7.9 contains the remainder of those sites in the Detroit-Warren-Flint CSA that are outside of Wayne County. These sites also show readings in 2012 to be below the $PM_{2.5}$ NAAQS.

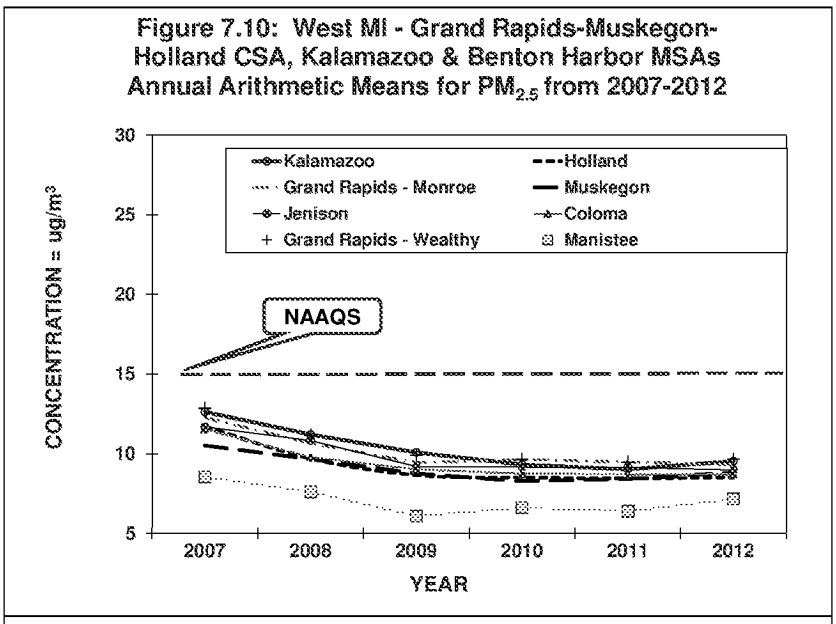

Figure 7.10 combines the $PM_{2.5}$ monitoring sites located in West Michigan-Grand Rapids-Muskegon-Holland CSA, Kalamazoo and Benton Harbor MSAs. All sites have been below the annual $PM_{2.5}$ NAAQS since 2004.

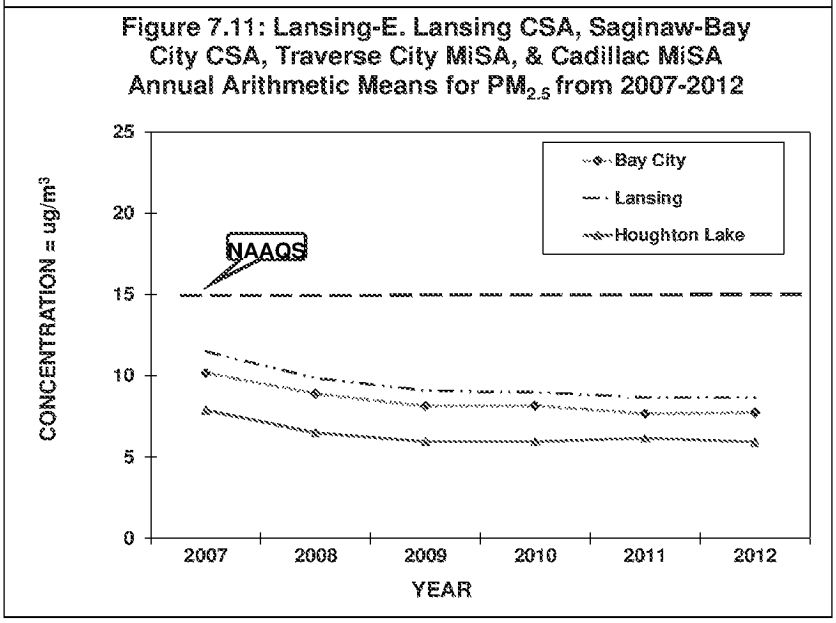

Figure 7.11 displays the remaining monitoring sites in the Lower Peninsula. All of these sites have 2012 levels well below the standard.

Chapter 8: Toxic Air Pollutants

In addition to the six criteria pollutants discussed in the previous chapters, the AQD monitors for a wide variety of substances classified as toxic air pollutants, and/or Hazardous Air Pollutants (HAPs). Under the Clean Air Act (CAA), the EPA specifically addresses a group of 188 HAPs. Under Michigan's air regulations, Toxic Air Contaminants (TACs) are defined as all non-criteria pollutants that may be *"…harmful to public health or the environment when present in the outdoor atmosphere in sufficient quantities and duration."* The definition of TACs lists 41 substances that are not TACs, indicating that all others are TACs.

Sources: Air toxics come from a variety of mobile, stationary, indoor, and outdoor natural sources. Mobile sources include motor vehicles, stationary sources include industrial factories and power plants, indoor sources include household cleaners, and natural sources include forest fires and eruptions from volcanoes.

Effects: Once air toxics enter the body, there is a wide range of potential health effects. They include the aggravation of asthma; irritation to the eyes, nose, and throat; carcinogenicity; developmental toxicity (birth defects); nervous system effects and various other effects on internal organs. Some effects appear after a shorter period of exposure, while others may appear after long-term exposure or after a long period of time has passed since the exposure ended. Most toxic effects are not unique to one substance, and some effects may be of concern only after the substance has deposited to the ground or to a water body (e.g., mercury, dioxin), followed by exposure through an oral pathway such as the eating of fish or produce. This further complicates the assessment of air toxics concerns due to the broad range of susceptibility that various people may have.

Population most at risk: People with asthma, children, and the elderly**.**

Air Toxics can be categorized as:

- *Metals:* Examples include aluminum, arsenic, beryllium, barium, cadmium, chromium, cobalt, copper, iron, mercury, manganese, molybdenum, nickel, lead, vanadium, and zinc.
- *Organic Substances*: Further divided into sub-categories that include -
    - VOCs, include benzene (found in gasoline), perchlorethylene (emitted from some dry cleaning facilities), and methylene chloride (a solvent and paint stripper used by industry);
    - carbonyl compounds (aldehydes and ketones);
    - semi-volatile compounds (SVOCs);
    - polycyclic aromatic hydrocarbons (PAHs)/polynuclear aromatic hydrocarbons (PNAs);
    - pesticides and;
    - polychlorinated biphenyls (PCBs).
- *Other substances*: Asbestos, dioxin, and radionuclides such as radon.

Because air toxics are such a large and diverse group of substances, regulatory agencies sometimes further refine these classifications to address specific concerns.

For example:

- Some initiatives have targeted those substances that are *persistent, bioaccumulative* and *toxic* (PBT), such as mercury, which accumulates in body tissues.
- The EPA has developed an Integrated *Urban Air Toxics Strategy* with a focus on 33 substances (the Urban HAPs List).[12]

The evaluation of air toxics levels is difficult due to several factors.

- There are no health-protective NAAQS. Instead, air quality assessments utilize various short- and long-term screening levels and health benchmark levels estimated to be safe considering the critical effects of concern for specific substances.
- There is incomplete toxicity information for many substances. For some air toxics, the analytical detection limits are too high to consistently measure the amount present, and in some cases, the risk assessment-based "safe" levels are below the detection limits.
- Data gaps are present regarding the potential for interactive toxic effects for co-exposure to multiple substances present in emissions and in ambient air. Air toxics also pose a challenge due to monitoring and analytical methods that are either unavailable for some compounds or cost-prohibitive for others (e.g., dioxins).

These factors make it difficult to accurately assess the potential health concerns of all air toxics. Nevertheless, it is feasible and important to characterize the potential health hazards and risks associated with many air toxics.

Table 8.1 shows the monitoring stations and what air toxic was monitored at each station in 2012. This table can also be found in **Appendix B** with the Air Toxics Monitoring Summary.

Table 8.1: 2012 Toxics Sampling Sites

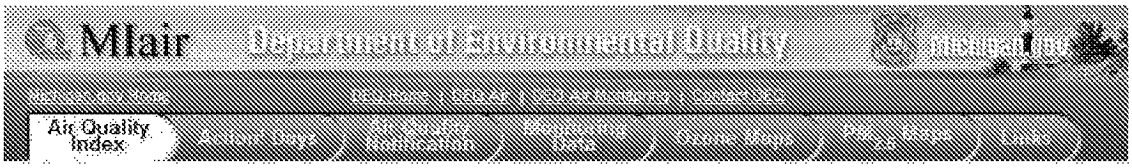
[12] EPA's Air Toxics Website – Urban Strategy is located at http://www.epa.gov/ttn/atw/urban/urbanpg.html.

National Monitoring Efforts and Data Analysis



The EPA administers national programs that identify air toxics levels, detect trends, and prioritize air toxics research. The DEQ participates in these programs. In addition, the AQD operates a site in Dearborn that is part of EPA's National Air Toxics Trend Stations (NATTS). The purpose of the NATTS network is to detect trends in high-risk air toxics such as benzene, formaldehyde, chromium, and 1,3-butadiene and to measure the progress of air toxics regulatory programs at the national level. Currently, the NATTS network contains 27 stations, 20 urban and seven rural (see **Figure 8.1**). The EPA requires that the NATTS sites measure VOCs, carbonyls, PAHs, hexavalent chromium, and trace metals on a once every six day sampling schedule. The Dearborn measures trace metals as TSP, $PM_{10,}$ and $PM_{2.5}$.

Figure 8.1: National Air Toxics Trends Sites.

Chapter 9: MIair – Air Quality Information in Real-Time

MIair is the internet tool that provides real-time air quality information via the DEQ's webpage. The www.deqmiair.org hotlink opens to the current Air Quality Index (AQI) map and displays air quality forecasts for "today" and "tomorrow." **MIair** also hosts Enviroflash, the automated air quality notification system.

Air Quality Index

The Air Quality Index (AQI) is a simple tool developed to communicate current air quality information to the public. The current day's color-coded AQI values, ranging from Good to Hazardous (**Table 9.1**), are displayed in a forecast table and as dots on a Michigan map.

As can be seen from the annual summaries in **Appendix C**, air quality in Michigan generally falls in the Good or Moderate range. An area will occasionally fall into the Unhealthy for Sensitive Groups range, but rarely reaches Unhealthy levels.

MIair also has an 'Actions to Protect Health' link: http://www.deqmiair.org/assets/AQIActionsToProtectHealth_2011.pdf which helps as an activity recommendations guide during the above good to hazardous AQI levels.

Air Quality Forecasts

Air Quality Division meteorologists provide air pollution forecasts to alert the public when air pollution levels may become elevated. *Action!* Days are declared when levels are expected to reach or exceed the Unhealthy for Sensitive Groups AQI health indicator. On *Action!* Days, businesses, industry, government and the public are encouraged to reduce air pollution levels by limiting vehicle use, refueling only after 6 PM, carpooling, walking, biking or taking public transit, deferring the use of gasoline-powered lawn and recreation equipment, limiting the use of volatile chemicals and curtailing all burning. More information on voluntary air pollution control measures can be found under the *Action!* Days tab on **MIair**.

Air Quality Notification

EnviroFlash is a free service that provides automated air quality (AQI) and ultraviolet (UV) forecasts to subscribers. Those enrolled receive e-mail or mobile phone text messages when the health level they select is predicted to occur. AIRNow iPhone and Android applications deliver ozone and fine particle air quality forecasts plus detailed real-time information that can be used to better protect health when planning daily activities. To receive notices and learn more about this program, select the 'Air Quality Notification' tab in **MIair** when logged onto www.michigan.gov/air. Michigan's EnviroFlash network has the potential to reach up to 98% of the state's population.

AIRNow

The DEQ supplies Michigan air monitoring data to AIRNow, the EPA's nation-wide air quality mapping system. Information about AIRNow is available at www.epa.gov/airnow or you can select the AIRNow hot link at the bottom of each **MIair** webpage.

Table 9.1: AQI Colors and Health Statements

AQI COLOR, CATEGORY & VALUE	PARTICULATE MATTER ($\mu g/m^3$) 24-Hour	OZONE (ppm) 8-Hour / 1-Hour	CARBON MONOXIDE (ppm) 8-hour	SULFUR DIOXIDE (ppm) 24-hour	NITROGEN DIOXIDE (ppm) 1-hour
GREEN: Good 1-50	None	None	None	None	None
YELLOW Moderate 51-100	Unusually sensitive people should consider reducing prolonged or heavy exertion.	Unusually sensitive people should consider reducing prolonged or heavy exertion.	None	None	None
ORANGE Unhealthy for Sensitive Groups 101-150	People with heart or lung disease, older adults, and children should reduce prolonged or heavy exertion.	Active children and adults, and people with lung disease such as asthma, should reduce prolonged or heavy outdoor exertion.	People with cardiovascular disease, such as angina, should limit heavy exertion and avoid sources of CO, such as heavy traffic.	People with asthma should consider limiting outdoor exertion.	None
RED Unhealthy 151-200	People with heart or lung disease, older adults, and children should avoid prolonged or heavy exertion. Everyone else should limit prolonged exertion.	Active children and adults, and people with lung disease such as asthma, should avoid prolonged or heavy exertion. Everyone else, especially children, should reduce prolonged outdoor exertion.	People with cardiovascular disease, such as angina, should limit moderate exertion and avoid sources of CO, such as heavy traffic.	Children, asthmatics, and people with heart or lung disease should limit outdoor exertion.	None
PURPLE Very Unhealthy 201-300	People with heart or lung disease, older adults, and children should avoid all physical activity outdoors. Everyone else should avoid prolonged or heavy exertion.	Active children and adults, and people with respiratory disease such as asthma, should avoid all outdoor exertion. Everyone else, especially children, should limit outdoor exertion.	People with cardiovascular disease, such as angina, should avoid exertion and sources of CO, such as heavy traffic.	Children, asthmatics, and people with heart or lung disease should avoid outdoor exertion. Everyone else should limit outdoor exertion.	Children and people with respiratory disease, such as asthma, should limit heavy outdoor exertion.
MAROON Hazardous 301-500	Everyone should avoid any outdoor exertion; people with heart or lung disease, older adults, and children should remain indoors.	Everyone should avoid all outdoor exertion.	People with cardiovascular disease, such as angina, should avoid exertion and sources of CO, such as heavy traffic. Everyone else should limit heavy exertion.	Children, asthmatics, and people with heart or lung disease should remain indoors. Everyone else should avoid outdoor exertion.	Children and people with respiratory disease, such as asthma, should limit moderate or heavy outdoor exertion.

Chapter 10: Meteorological Information

The following **Figures 10.1** through **10.3** (average daily temperatures) and **Figures 10.4** through **10.6** (total monthly precipitation amounts) show total amounts as compared to their climatic norms for sites in the Northern, Southern Lower and Upper Peninsula. These figures were constructed by averaging data from several National Weather Service stations and therefore are not meant to be representative of any one single location in Michigan. Instead, they are intended to depict the regional trends that occurred during the year 2012.

Figure 10.1: Southern Lower Peninsula Observed Average Daily Temperatures vs. Normal Average Daily Temperatures

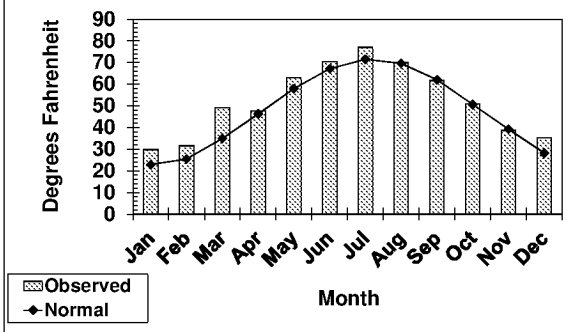


Figure 10.2: Northern Lower Peninsula Observed Average Daily Temperatures vs. Normal Average Daily Temperatures

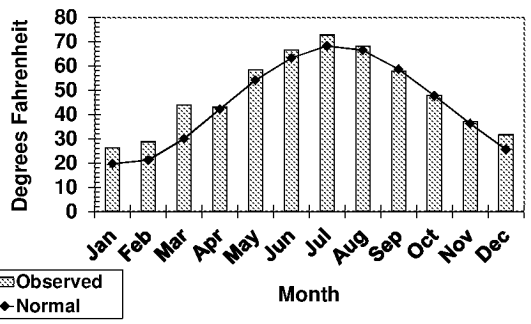

Figure 10.3: Upper Peninsula Observed Average Daily Temperatures vs. Normal Average Daily Temperatures

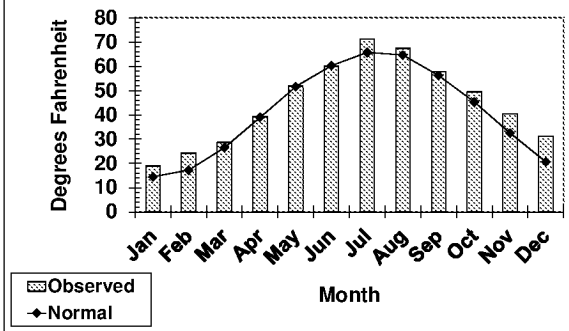

Figure 10.4: Southern Lower Peninsula Observed Monthly Precipitation vs. Normal Monthly Precipitation

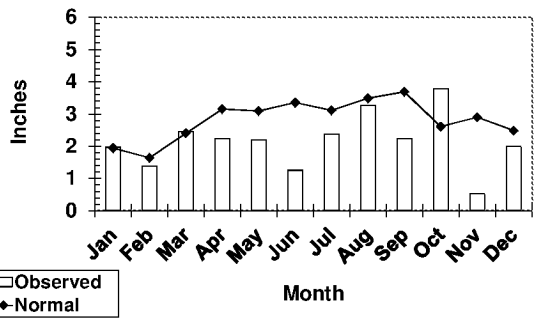

Figure 10.5: Northern Lower Peninsula Observed Monthly Precipitation vs. Normal Monthly Precipitation

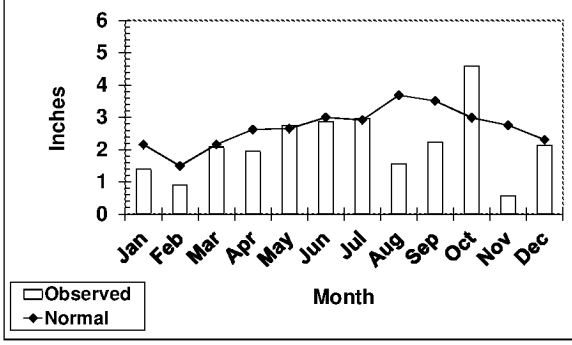

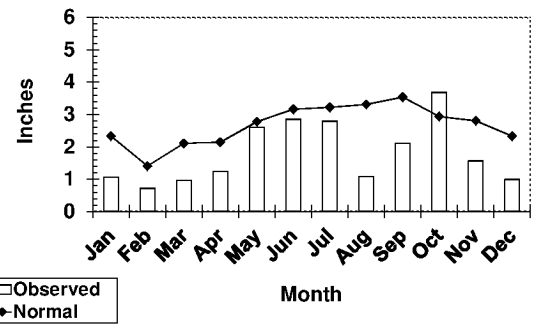

Figure 10.6: Upper Peninsula Observed Monthly Precipitation vs. Normal Monthly Precipitation

The weather plays a significant role in air quality, and can either help increase or decrease the amount of pollution in the air. *Action!* Days are declared when levels are expected to reach or exceed the Unhealthy for Sensitive Groups AQI health indicator; specifically, when meteorological conditions are conducive for the formation of elevated ground-level O_3 or $PM_{2.5}$ concentrations.

Table 10.1 Shows that there were 25 *Action!* Days declared during the summer of 2012.

Table 10.1: *Action!* Days declared during the summer of 2012

Location	Year	Number	Dates
Ann Arbor	2012	21	5/24, 5/27, 6/10, 6/15, 6/16, 6/20, 6/28, 6/29, 7/2, 7/3, 7/4, 7/5, 7/6, 7/7, 7/13, 7/16, 8/4, 8/24, 8/25, 8/26, 8/31
Benton Harbor	2012	21	5/24, 5/27, 6/9, 6/10, 6/16, 6/28, 6/29, 7/2, 7/3, 7/4, 7/5, 7/6, 7/7, 7/13, 7/15, 7/16, 7/17, 8/4, 8/24, 8/25, 8/31
Detroit	2012	21	5/24, 5/27, 6/10, 6/15, 6/16, 6/20, 6/28, 6/29, 7/2, 7/3, 7/4, 7/5, 7/6, 7/7, 7/13, 7/16, 8/4, 8/24, 8/25, 8/26, 8/31
Flint	2012	9	6/10, 6/15, 6/16, 6/28, 7/13, 8/4, 8/24, 8/25, 8/26
Grand Rapids	2012	25	5/24, 5/27, 6/9, 6/10, 6/15, 6/16, 6/19, 6/20, 6/28, 6/29, 7/2, 7/3, 7/4, 7/5, 7/6, 7/7, 7/13, 7/15, 7/16, 7/17, 8/4, 8/24, 8/25, 8/30, 8/31
Kalamazoo	2012	2	6/28, 8/31
Lansing	2012	1	6/28
Ludington	2012	18	5/24, 5/27, 6/9, 6/10, 6/15, 6/16, 6/20, 6/28, 7/2, 7/3, 7/4, 7/5, 7/6, 7/13, 7/16, 8/24, 8/25, 8/30

In **Figure 10.7**, one can see that Michigan had a warm front passing over the Lower Peninsula, with an occluded front to the north in the Upper Peninsula and Canada. Temperatures that day were record highs in the lower 90s with 40-60 percent humidity. Winds north of the front were calm, with very moderate southwesterly winds and scattered cloud cover south of the front. The weather conditions in the morning in southeast Michigan were equally hot and humid, with temperatures in the upper 80s, broken cloud coverage, and moderate southerly winds in the Lower Peninsula and easterly winds in the Upper Peninsula.

Figure 10.7: Surface Map of Weather Conditions on June 28, 2012

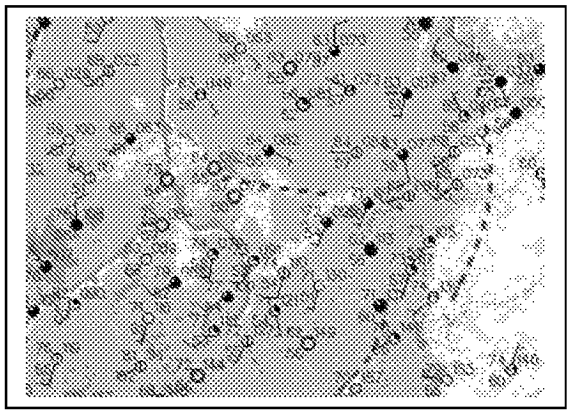

Figure 10.7 shows a surface map (courtesy of Unisys Weather: http://weather.unisys.com/) of the weather conditions on the evening of June 28, 2012.

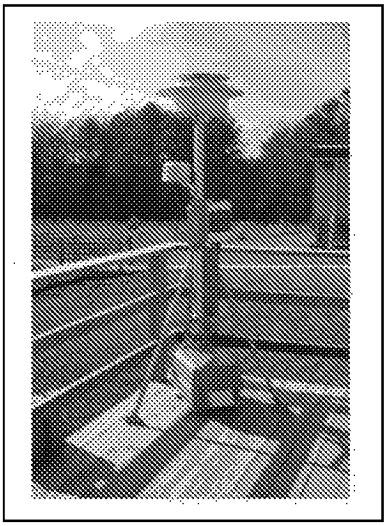

APPENDIX A: CRITERIA POLLUTANT SUMMARY FOR 2012

Appendix A utilizes EPA's 2012 AQS Quick Look Report Data to present a summary of ambient air quality data collected for the criteria pollutants at monitoring locations throughout Michigan. Concentrations of non-gaseous pollutants are generally given in $\mu g/m^3$ and in ppm for gaseous pollutants. The following define some of the terms listed in the **Appendix A** reports.

Site I.D.: The AQS site ID is the EPA's code number for these sites and has replaced the MASN number.

POC: The Parameter Occurrence Code or POC is used to assist in distinguishing different uses of monitors, i.e. under Pb, NO_2, and SO_2, POC #1-5 are used to help differentiate between individual monitors. For PM, the POC numbers are used more for the type of monitoring, such as:

- 1 - federal reference method (FRM);
- 2 - co-located FRM;
- 3 - TEOM hourly PM_{10} and $PM_{2.5}$ measurements; and
- 5 - $PM_{2.5}$ speciation monitors (shown at right is a Met One SASS - spiral aerosol speciation sampler).

OBS: For Pb, TSP, $PM_{2.5}$, and PM_{10}, the # OBS (number of observations) refers to the number of valid 24-hour values gathered.

For continuous monitors (CO, NO_2, O_3, $PM_{2.5}$ TEOM, and SO_2,), # OBS refers to the total valid hourly averages obtained from the analyzer.

Values: The value is listed for each criteria pollutant per its NAAQS (primary and secondary). The number of excursions per site for the primary and secondary standards utilize running averages for continuous monitors, except for O_3, and does not include averages considered invalid due to limited sampling times. For example, a particulate-mean based only on six months could not be considered as violating the annual standard. As noted, each site is allowed one short-term standard excursion before a violation is determined.

>: The "greater than" symbol (>) heads the column reporting values or observations above the corresponding primary or secondary standards.

Appendix B: 2012 Air Toxics Monitoring Summary for Metals, VOCs, Carbonyl Compounds, PAHs, Hexavalent Chromium & Speciated $PM_{2.5}$

Appendix B provides summary statistics of ambient air concentrations of various substances monitored in Michigan during 2012. At each monitoring site, air samples were taken over a 24-hour period (midnight to midnight). These air samples represent the average air concentration during that 24-hour period. The frequency of air samples collected is typically done once every 6 or 12 days. Sometimes the sampled air concentration is lower than the laboratory's analytical method detection level (MDL). When the concentration is lower than the MDL, two options are used to estimate the air concentration. The calculation of the minimum average ("Average (ND=0)") uses 0.0 µg/m³ for a value less than the MDL. In the calculation of the maximum average ("Average (ND=MDL/2)") the MDL divided by 2 (i.e., ½ the MDL) is substituted for air concentrations less than the MDL.

Table B shows the monitoring stations and what types of air toxics were monitored at each station in 2011. The following terms and acronyms are used in **Appendix B-1** and **B-2** data tables:

- Num Obs: Number of Observations (number of daily air samples taken during the year)
- Obs>MDL: Number of daily samples above the MDL
- Average (ND=0): average air concentration in 2012, assuming daily samples below MDL were equal to 0.0 µg/m³.
- Average (ND=MDL/2): average air concentration in 2012, assuming daily samples below MDL were equal to one half MDL.
- MDL: Analytical MDL in units of µg/m³
- Max1: Highest daily air concentration during 2012
- Max2: Second highest daily air concentration during 2012
- Max3: Third highest daily air concentration during 2012
- µg/m³: Micrograms per cubic meter (1,000,000 µg = 1 g)

Table B: Monitoring Stations and Types of Air Samples Collected

Appendix C: 2012 AQI Pie Charts

Appendix C contains pie charts that were created to show the AQI values for each of Michigan's 2012 monitoring sites and includes the total number of days measurements were taken, along with the pollutant distribution of the AQI values for those measurements. It is important to note that not all pollutants are measured at each site. In fact, some sites only obtain AQI measurements for that portion of the year corresponding to the O3 season; therefore, the number of days for each site may not be equivalent to 365. **Figures C.1** through **C.4** are grouped by CSA. **Figures C.5** and **C.6** show the remaining sites (not part of a CSA) located in Michigan's Upper and Lower Peninsulas.

4/2012

THE REINVENTION OF **MICHIGAN CONTINUES.**
2015 STATE OF THE STATE ADDRESS

In 2014, we continued our focus on creating more and better jobs for Michiganders while solving our state's toughest problems. More than 300,000 private sector jobs have been created since December 2010, over half a million Michiganders now have health care under the Healthy Michigan plan, and Detroit is on the threshold of a brighter future. Together, we achieved great results, but our work is not yet done.

MAKING MICHIGAN #1 IN SKILLED TRADES

- **The Community College Skilled Trades Equipment Program** will make $50 million available to community colleges for the purchase of training equipment for in-demand occupations, and the **Skilled Trades Training Fund** helps Michigan companies find the talent they need by training Michiganders for skilled trades.
- **Expanded career apprenticeships** with the MAT2 apprenticeship program in high-tech fields, more than doubling the number of students and participating companies.
- **FIRST Robotics** continues to grow, and Michigan is now first in the nation with 349 high school teams -- more than any other state.

HELPING MICHIGAN BUSINESSES GROW

- **Eliminated the Personal Property Tax,** removing a disincentive for businesses to expand.
- **Pure Michigan Business Connect** continues to connect Michigan businesses with each other so they can grow. The program has facilitated $2 billion in contracts since it started in 2011.

IMPROVING EDUCATION

- **Expanded Preschool Education** for low-income children with $65 million in additional funding in FY2015, helping to make Michigan a no-wait state for preschool.
- **Pathways to Potential** provides better service to Michiganders by bringing caseworkers to 219 schools in 22 counties. The program has reduced chronic absenteeism by 33% for 2013-2014 school year in Pathways schools.

HELPING MICHIGANDERS

- **Healthy Michigan** was launched in April 2014, and more than 500,000 low-income, working Michiganders are enrolled. Within first nine months we have seen almost 350,000 primary and preventive care visits, over 26,000 mammograms and over 12,000 colonoscopies.

THE REINVENTION OF **MICHIGAN CONTINUES.**
2015 STATE OF THE STATE ADDRESS

HIGHLIGHTS FROM 2014 (continued)

- **Helping People with Disabilities:** Issued an executive directive eliminating hurdles faced by people with disabilities as they seek a career in public service and called for increased training for all state employees to raise awareness of disability etiquette and best practices.
- **Jobs for Veterans:** Partnered with Hiring Our Heroes program to help active-duty members find jobs after leaving the military; added $4.7 million for a tuition assistance program for Air and Army National Guard personnel; launched a 24/7, 365-day hotline (1-800-MICH-VET) to provide veterans and their families access to benefits they deserve.
- **Serving Older Michiganders** by increasing funding to make Michigan a "no-wait" state for in-home services and to combat elder abuse.

IMPROVING PUBLIC SAFETY

- **Secure Cities Partnership** has reduced violent crime from 2011 to 2014 by 20.2% in Detroit, 28.1% in Flint, 28.3% in Pontiac and 26.7% in Saginaw.
- **Investing in Public Safety** to train more troopers and to update the state's public safety communications system, bringing Michigan's trooper strength from 957 in 2011 to 1,184 in 2015.

CONSERVING OUR ENVIRONMENT

- **Expanded Recycling** with a statewide initiative to double Michigan's recycling rate within two years, and we're on a path to success.

PREPAREDNESS AND DISASTER RESPONSE

- We've seen good government at its best in the preparedness and response to several disaster situations throughout our state that impacted the lives of thousands. Whether it was the flooding in Southeast or Mid-Michigan, addressing a propane shortage in the Upper Peninsula, or even preparing for the threat of Ebola, we saw cooperation and coordination from all levels of government that shows we are prepared to respond to unforeseen threats to our people.

FINANCIAL RESPONSIBILITY

- **Balanced Budget:** We've had four years of balanced budgets, all of which were completed in June, giving school districts, local governments and other recipients of state funding the info they need to plan their budgets.

RESTORING OUR CITIES

- **Detroit:** Detroit's bankruptcy was completed, securing pensions, putting the city on a sound fiscal path, allowing for a reinvestment into city services, safeguarding the Detroit Institute of Arts, and improving the quality of life for the city's 700,000 residents.
- **Other Cities:** The financial emergencies in Benton Harbor and Allen Park were resolved last year, and we are on a path to transition out of financial emergency in Flint. Progress is being made in restoring fiscal health to the public sector, and we should be proud that we're tackling the tough challenges at all levels.

Subject: Volunteer Opportunity in Flint

The State Emergency Operations Center (SEOC) is coordinating a response to the ongoing health and safety issues in the city of Flint's drinking water. Teams from the Michigan State Police, Genesee County Sheriff's Department, Michigan Department of Health and Human Services, and volunteer organizations have been delivering bottled water, water filters, replacement cartridges and water testing kits at homes in the city of Flint since Tuesday.

To help with this critical work, the SEOC is looking for volunteers to expand this effort and continue this distribution during the upcoming holiday weekend. Teams are being assembled for shifts on Saturday, January 16; Sunday, January 17; and Monday, January 18, 2016. If you are interested in volunteering your time for this critical work, please complete the information in one of the attached surveys (depending on which day you are volunteering).

To volunteer on Saturday, January 16, https://www.surveymonkey.com/r/28NVJBL

To volunteer on Sunday, January 17, https://www.surveymonkey.com/r/26NMJKK

To volunteer on Monday, January 18, https://www.surveymonkey.com/r/26P7P5G

Volunteers will begin their assignment at the Local Emergency Operations Center located in the Genesee County Administration Building located at 1101 Beach St, Flint at 9 a.m. and end by 4 p.m. Parking is available at the corner of Beach Street and 8th Street. Lunch will be provided. This is strictly a volunteer effort, as all three days will be unpaid. Volunteers are responsible for their own transportation; mileage reimbursement for personal vehicles is not authorized. Volunteers should dress for working outdoors and wear foot attire appropriate for walking.

This opportunity is for state employees and their immediate family members 16 years of age or older only, others looking to assist should volunteer through the American Red Cross in Flint. The volunteer coordination center for the Red Cross is located at 1401 S. Grand Traverse, Flint, MI. They are open from 9 a.m. to 7 p.m.

For more information on the state's response efforts, visit www.michigan.gov/flintwater.

Return sample and form to either Flint City Hall or the Flint Water Plant.

Samples must be received in the laboratory within 14 days of collection.

DRINKING WATER LEAD AND COPPER SAMPLING INSTRUCTIONS

Thank you for helping to monitor for lead and copper in your drinking water.

It is important that you follow these instructions so we obtain an accurate measurement of the lead and copper in your drinking water.

Do not open the bottle until instructed in step 3. Do not touch the inside of cap or bottle.

1. **The water in the house must not have been used for a minimum of six (6) hours prior to sampling.** The best times to sample are early morning or after returning from work. **Do not flush the sample tap before sample collection.**

2. **Select a cold water faucet** in the **KITCHEN** or **BATHROOM** that is commonly used for drinking and has been used within the last 24 hours. **No other faucets are acceptable for collection.** If the faucet is connected to a faucet mount filter, water softener, iron filter or reverse osmosis system, etc. the treatment device must be removed or bypassed.

When was the faucet last used before sampling? Date _____ TIME _____ AM/PM

Is there a faucet-mount filter? ☐ YES ☐ NO If YES, was it bypassed? ☐ YES ☐ NO

Is this faucet connected to a home treatment device such as a water softener, a reverse osmosis unit, an iron removal device OR is any kind of additive used in the home? ☐ YES ☐ NO

If YES, please describe: _____

If YES, was it bypassed? ☐ YES ☐ NO

3. Open sample bottle and place below the faucet and gently open the **COLD** water tap. If you have a single handle faucet, turn it fully to the **COLD** side. Fill the sample bottle to within an inch of the top with the "first draw" of **COLD** water.

4. Tightly cap the sample bottle

If any plumbing repairs or replacement has been done in the home since the previous sampling event, please note this information here:

If YES, please describe: _____

5. Fill out the collection information on the front, answer the questions below and sign the form.

6. Attach this form to the bottle and return it to either **Flint City Hall or the Flint Water Plant**.

7. Thank you again for your help. We will send you your individual results within 30 days of receiving them from the laboratory. A summary of information on this year's lead and copper monitoring will be printed in the annual water quality report that will be made available by July 1 of this year. Contact your water supply if you have questions.

If you have any questions contact:

City of Flint Water Plant 4500 N. Dort Hwy. Phone: 810-787-6537 ext. 3501

I have read the Drinking Water Lead and Copper Sampling Instructions and have taken a tap sample in accordance with these directions.

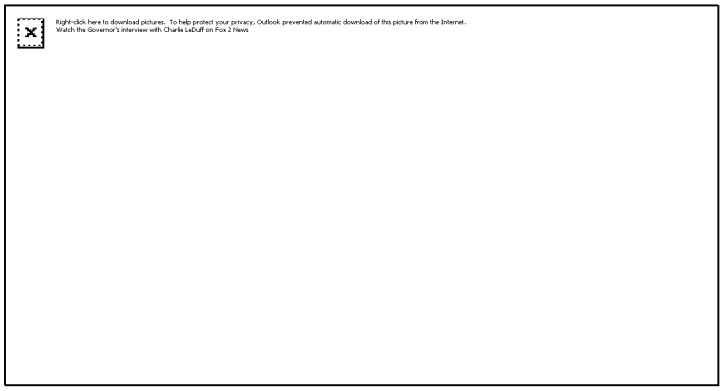
How we are fixing the Flint water crsis

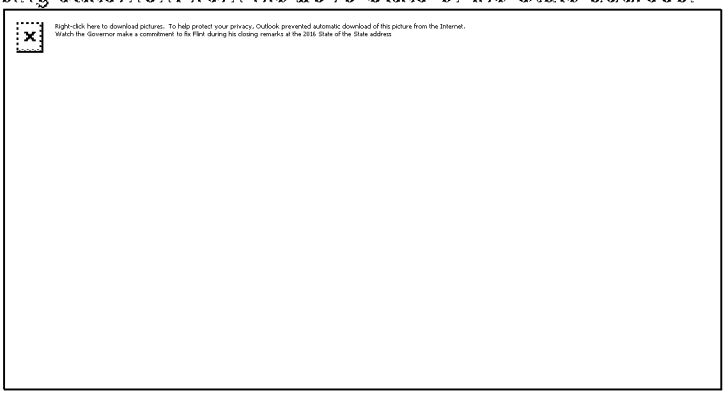
Governor Rick Snyder has committed to spending the rest of his time as Governor to fixing the Flint water crisis. Over the last few days, he has sat down to explain what happened and how we're fixing the Flint water crisis. Watch the interviews below and be sure to read the Governor's Op-Ed in the USA Today.

Governor Snyder on Morning Joe



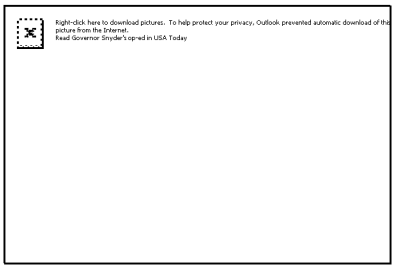
"What is so frustrating and what makes you so angry is you have a handful of experts who were career civil servants that made terrible decisions, in my view. We have to live with the consequences, and they worked for me, so I accept that responsibility. We are going to fix this problem." Watch Governor Snyder address how we are fixing the Flint water crisis on Morning Joe.

Governor Snyder with Charlie LeDuff on Fox 2 Detroit



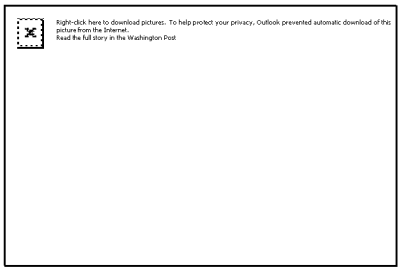
"I feel awful about this. These are people. They've been harmed. You can't feel good about that. The people of Flint have been harmed and a major influence of that harm came from people who worked for me, and I feel responsible for that. But I am committed

to solving the problem and addressing the damage as much as possible for the rest of the time I'm Governor." Watch Governor Snyder address the Flint water crisis with Charlie LeDuff on Fox 2 News.



Governor Snyder's 2016 State of the State

"Michiganders don't quit, we don't give up, instead we will work with even more passion and commitment to truly improve our state. For everyone who's chosen to make Michigan their home, this is more than a promise, this is my commitment." Watch Governor Snyder's full closing statement from his 2016 State of the State address.



Governor in USA Today: "I will fix this, and I mean it."

"Residents in one of Michigan's proud cities cannot drink their water. That's unacceptable. The crisis in Flint arose from missteps at all levels of government — local, state and federal. But as governor, I take responsibility for what these families are going through, and I'm holding people in my administration accountable for their failures." Click here to read the Governor's full op-ed.

Washington Post: "Michigan Gov. Rick Snyder is in a tough spot, but he's his own best spokesman"

Snyder has born the brunt of criticism in the local health crisis that has turned into a national scandal. But unlike many other politicians facing crises of leadership, Snyder may also be his own best counter-programming. Click here to read the full story in the Washington Post.

Dear State Employees,

Gov. Rick Snyder and I want to thank everyone who donated their time during the holiday weekend to deliver bottled water, water filters, replacement cartridges and water testing kits to families in the city of Flint. We are working hard to ensure all residents are provided with the safe water resources they need, and each donation and hour of your time volunteered goes a long way.

For employees who would like to help the residents of Flint, there are several opportunities to do so. Please visit www.helpforflint.com to learn how you can help.

For additional information and updates, visit www.michigan.gov/flintwater.

Again, thank you for all your support.

Sincerely, Mike Zimmer
Office of Good Government Director

THANK YOU!

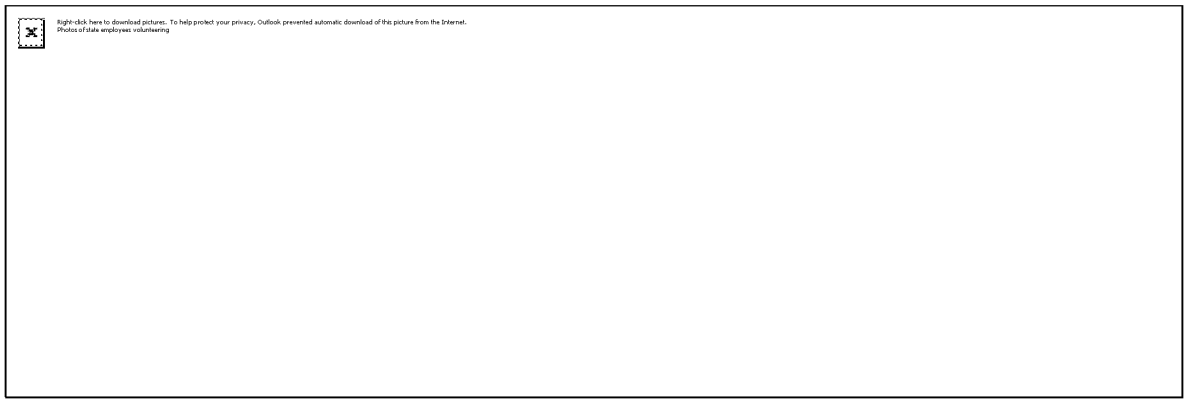
Fellow employees,

Each day, more than 46,000 state of Michigan employees come to work with the confidence and commitment to make Michigan a better place to live, work and play. I appreciate the way you care about the citizens we serve, and how it is reflected in the work that you do.

As you have heard from me and the media, our reputation and trust can be severely impacted when people do not make good decisions, or use good judgment in solving problems. That principle is universal, but never more so than when public health is at stake. What happened in Flint can never be allowed to happen again anywhere in our state.

I know that you want to work in a place where employee input is valued, efforts are recognized, and teams are always striving for continuous improvement. That's why we introduced employee surveys, Bureaucracy Busters and other reinvention initiatives. We want and deserve a culture of innovation, continuous improvement and employee engagement at every level. We can never take for granted how important the people are who depend on us to do our jobs, and I am asking you not to let the situation in Flint negatively impact your motivation to excel every day.

Many of you have taken an interest in helping the citizens of Flint on your own time, and I'd like to take this opportunity to recognize and thank those who have volunteered over the last couple of weekends. You have worked tirelessly to deliver cases of bottled water, water filters, replacement cartridges and water testing kits to the families in need. I appreciate you donating your time to help our fellow Michiganders. To date, more than 37,000 homes have been visited by one of our water resource teams.



For employees who would like to further help the people of Flint, please visit www.HelpForFlint.com to learn how you can do so. For additional information and to sign up for daily updates, please visit www.mi.gov/FlintWater. I am committed to ensuring that all residents have access to safe and clean water.

Again, I'd like to express my gratitude for the work you do every day to continuously improve our state and earn the trust of those you serve. You make a real difference.

Thanks,

Governor Rick Snyder

DRINKING WATER LEAD AND COPPER SAMPLING INSTRUCTIONS

Thank you for helping to monitor for lead and copper in your drinking water.

It is important that you follow these instructions so we obtain an accurate measurement of the lead and copper in your drinking water.

Do not open the bottle until instructed in step 3. Do not touch the inside of cap or bottle.

1. **The water in the house must not have been used for a minimum of six (6) hours prior to sampling.** The best times to sample are early morning or after returning from work. **Do not flush the sample tap before sample collection.**

2. **Select a cold water faucet** in the **KITCHEN** or **BATHROOM** that is commonly used for drinking and has been used within the last 24 hours. **No other faucets are acceptable for collection.** If the faucet is connected to a faucet mount filter, water softener, iron filter or reverse osmosis system, etc. the treatment device must be removed or bypassed.

When was the faucet last used before sampling? Date _____ TIME _____ AM/PM

Is there a faucet-mount filter? ☐ YES ☐ NO If YES, was it bypassed? ☐ YES ☐ NO

Is this faucet connected to a home treatment device such as a water softener, a reverse osmosis unit, an iron removal device OR is any kind of additive used in the home? ☐ YES ☐ NO

If YES, please describe: _____

If YES, was it bypassed? ☐ YES ☐ NO

3. Open sample bottle and place below the faucet and gently open the **COLD** water tap. If you have a single handle faucet, turn it fully to the **COLD** side. Fill the sample bottle to within an inch of the top with the "first draw" of **COLD** water.

4. Tightly cap the sample bottle

If any plumbing repairs or replacement has been done in the home since the previous sampling event, please note this information here:

If YES, please describe: _____

5. Fill out the collection information on the front, answer the questions below and sign the form.

6. Attach this form to the bottle and return it to either **Flint City Hall or the Flint Water Plant**.

7. Thank you again for your help. We will send you your individual results within 30 days of receiving them from the laboratory. A summary of information on this year's lead and copper monitoring will be printed in the annual water quality report that will be made available by July 1 of this year. Contact your water supply if you have questions.

If you have any questions contact:

City of Flint Water Plant 4500 N. Dort Hwy. Phone: 810-787-6537 ext. 3501

I have read the Drinking Water Lead and Copper Sampling Instructions and have taken a tap sample in accordance with these directions.

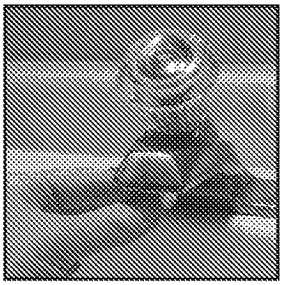
Keeping Your Home Lead-Safe
Clean Your Aerators

MDHHS Michigan Department of Health & Human Services

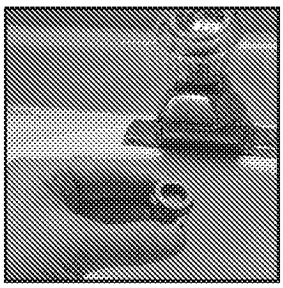
What can you do to keep your home lead-safe?



- Homes built before 1987 are more likely to have lead service lines and pipes. Some faucets and certain kinds of solder could also have lead in them, even those installed recently.
- The lead found in tap water in homes around Michigan is likely from these older pipes, solder, and faucets. You can have your water tested to see if it has lead in it.
- Replacing old pipes, service lines, and faucets is the best way to limit the lead in your tap water. New pipes, solder, and faucets should meet EPA lead-free standards.
- If you can't replace your pipes and faucets, please use an NSF-approved filter for all water that you drink or cook with. You can get a filter that attaches to your sink faucet or you can use a pitcher with a filter inside it. If you live in Flint, call 211 to find out where you can get a free faucet filter, replacement filter cartridges, or a water filter pitcher.

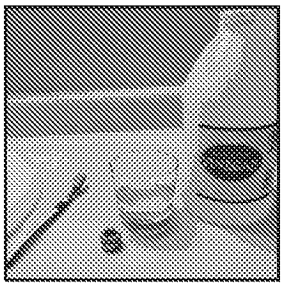
For bathrooms or other places where you don't have a filter:

When pipes are old, they break apart more easily. Sometimes pipes break completely; sometimes they just get new cracks. This can cause bits of lead pipe to end up in our home's water. There are screens - called aerators - on our faucets that sometimes stop the larger pieces from coming out. Aerators do help us save water - so it's good to have them - but cleaning them once in awhile is a way to limit the lead that could end up in your water.



Follow the steps below to learn how to clean your aerators:

1.

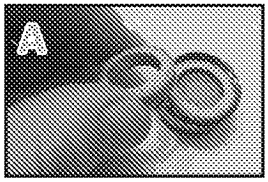


- The little round thing on the bottom of your faucet is the aerator (pronounced: *air-raytor*).
- Unscrew the aerator from the bottom of the faucet.
- You should be able to unscrew it with your fingers, but you might need a wrench if it's really stuck.

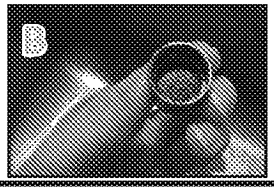
2.

- Your aerator might not look exactly the same as this, but it's OK.
- Now that you have it off, let's get started!

3.

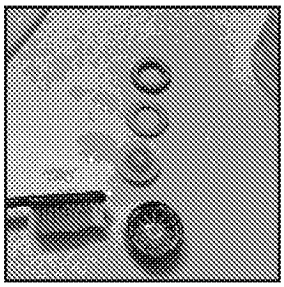


- While you really only need to use water to rinse off your aerator parts, if you have these things around, they might make it easier:
  - An old toothbrush
  - A glass of vinegar



4.

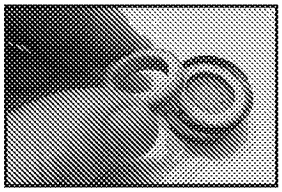
- Soaking the aerator in vinegar will help loosen up some of the grime. You can leave it in as long as you want, but even just 5 minutes will help.
- The toothbrush makes it easy to scrub out the inside. Just don't use that toothbrush for brushing your teeth again!



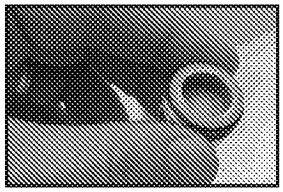
5.

- If your aerator looks like Photo A, it has a flow control piece in it. You'll have to take it apart:
  - Pull out the pieces carefully.
  - Note the order that the pieces come out. Take a picture or write down some notes. You'll have to put them back in at the end in the same way!
- If it looks like Photo B, then you're good to go to Step 6.

6.

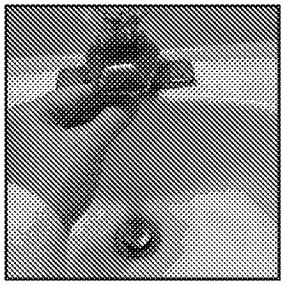


- You might not have all of these pieces. They might not be this color. Every aerator is a little different. Just clean what you have.
- Scrub all of the pieces. Make sure you really get down inside the metal piece, removing any bits of grime or metal flakes you can see.



7.

- Rinse everything very well.
- Run the water through the aerator screen - holding it right side up and upside down.



8.

- Once it's clean,
  - If your aerator looks like Photo A up above, put it back together.
  - If it looks like Photo B, you're all set.

9.

- Put your aerator back on your faucet.
- Repeat these steps every couple of weeks. This will make sure pieces of lead and other metal from any pipes aren't getting stuck in your faucet and possibly putting lead into your water.

CRISIS EMERGENCY RISK COMMUNICATION

The Six Principles of CERC

Be First: If the information is yours to provide by organizational authority—do so as soon as possible. If you can't—then explain why you can't (e.g., it's classified)--or the process you are using to get needed information to those involved.

Be Right: Give facts in increments. Tell people what you know when you know it, tell them what you don't know, and tell them *if* you will know relevant information later.

Be Credible: Tell the truth. Do not withhold to avoid embarrassment or the possible "panic" that seldom happens. Uncertainty is worse than not knowing—rumors are more damaging than hard truths.

Express Empathy: Acknowledge in words what people are feeling—it builds trust. "We understand this is worrisome."

Promote Action: Give people things to do. It calms anxiety and helps restore order.

Show Respect: Treat people the way you want to be treated—the way you want your loved ones treated—always—even when hard decisions must be communicated.

For more information or to request CERC materials, please contact CDC's Barbara Reynolds, Ph.D. at CERCrequest@cdc.gov

CRISIS EMERGENCY RISK COMMUNICATION

CDC CERC: 10 Communication Dos and Don'ts for the Crisis Leader

1. ***Do express empathy***. Empathy, the ability to take another's perspective, allows the leader to take an active role in supporting, consoling, and persuading others to the benefit of everyone involved in the disaster recovery. While many leaders may believe that societal norms forbid them from expressing empathy, in fact, leadership research suggests that relating to others is a key to moving others toward prosocial behaviors even if the actions involve sacrifice.

2. **Do model prosocial behavior**. People learn through observation. Modeling good behavior is an important way to cultivate personal and collective efficacy. When under threat, people with high self-efficacy perform difficult activities despite feeling anxious. Model the behavior one seeks from others.

3. **Do raise self-efficacy beliefs**. Self-efficacy increases survival after a disaster and leaders can influence individual and group efficacy. Expressing faith in the competence of followers can raise their self-efficacy as can directing them to take actions that the leader is certain followers can accomplish such as "make a list of the medications you and your family are taking." Mastering simple steps increases the effort and length of time people put forth toward more difficult tasks.

4. **Do value honesty and openness**. Without credibility a leader cannot lead. People will look for fairness and restraint in the use of power. Today, information technology makes withholding information dangerous and futile, and leaders will risk the trust others have in them.

5. **Do collaborate**. Organizations will face crises, but they do not have to face them alone. With effective planning and networking, a leader will have the necessary responses outlined and the relationship networks needed to carry them out.

6. **Do understand media's role**. People seek information from multiple sources and information does not have to come from interpersonal sources to be deemed valid. The media influence people directly. The value of information sources depends on their reliability in providing

information useful to the person. Recognize that the media's perspective "what does this mean to me?" is useful in crafting relevant messages during a crisis.

7. ***Do not lie***. Trust is hard won and easily lost. A lie puts the leader, the leader's organization, and the well-being of followers at risk. Followers may reject valid counsel if the source is caught lying. Withholding can be seen as deceptive.

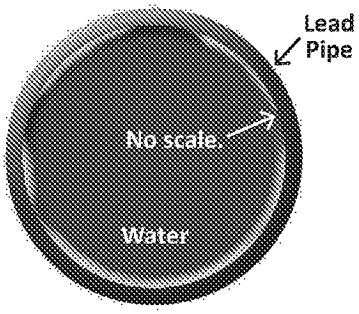
8. ***Do not procrastinate***. Crises demand action. Leaders must adapt, make rapid decisions, and provide useful information quickly to followers. Lack of news will turn into speculation.

9. ***Do not be invisible***. In a crisis, the leader should be accessible and should appear to share the risk. Do not wait for information to be final to begin to speak; instead, remind the public that the situation is fluid. A leader's presence can be reassuring to followers.

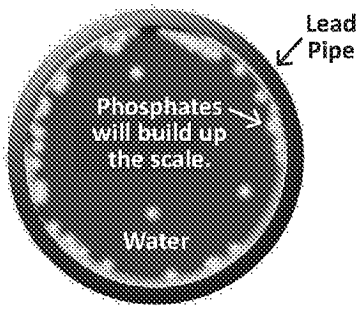
10. ***Do not be paternalistic***. Empower followers and express confidence in them. Be careful not to imply that "father knows best" and that the facts are too difficult for them to understand. When a decision is made, explain the basis for that decision. Give people choices if possible.

For more information on CERC leadership or to order free CERC materials, please contact CDC's Barbara Reynolds, Ph.D., at bsr0@cdc.gov (9/13)

Adding Phosphate to Flint Water



Genesee County Health Department



MDHHS Michigan Department of Health & Human Services

Why is there lead in some homes' water?

- Lead pipes, solder, and faucets used to be common. We now know that lead can harm our health.
- Homes built before 1987 are more likely to have lead service lines and pipes. Some faucets and certain kinds of solder could also have lead in them, even those installed recently.
- The lead found in tap water in homes around Michigan is likely from these older pipes, solder, and faucets.
- Replacing old pipes, service lines, and faucets is the only sure way to limit the lead in your tap water.
- New pipes, solder, and faucets should meet EPA lead-free standards.

Why are we putting phosphate in the water?

- Over the years, minerals in our water have built up inside our water pipes.
- This mineral build-up is called scale.
- This scale helps to keep a lot of lead from the pipes out of our water.
- If something happens to the scale and the water can touch the pipes, lead can get into the water.
- Adding phosphate to the water helps build and maintain scale by collecting on the sides of the pipes and sticking to the metal.

Learn About Phosphate

- **Phosphorus is a natural mineral that your body needs. It works with calcium to keep your bones strong and healthy.**
- **Phosphate is a type of salt that has phosphorus in it.**
- **Although there already is phosphate in the Detroit drinking water, extra phosphate is being added to the water in the City of Flint to help put more scale in the pipes.**
- **The City of Flint, MDEQ, and the EPA worked together to find how much more phosphate is needed in the water going to Flint homes.**
- **Most people likely already eat and drink more phosphate in everyday food than the very small amount that will be found in the tap water.**
- **Continue to use water filters that remove lead until the Genesee County Health Department's Public Health Emergency Declaration is removed.**

What is Phosphoric Acid?

Although there is already some phosphate in the water we get from Detroit, Flint plans to add more to help build up and maintain the scale faster. To get the phosphate needed for this to work, the City of Flint Water Plant will be adding something called *phosphoric acid* to the city's water. Phosphoric acid is a common food ingredient in things like cola or juice.

The phosphoric acid will quickly dissolve in the water and break down into two parts - hydrogen and phosphate. Hydrogen will become a part of the water and the leftover phosphate will settle out and stick to the walls of the pipes - building up scale like in the picture above.

If you have questions about the phosphate being added to City of Flint water, please call the City of Flint Water Plant at 810-787-6537.

If you have questions about phosphate and your health, please call MDHHS at 1-800-648-6942.

Subject: Palm Cards

Hi Mark –

DTMB just received another request to have 25,000 Palm Cards printed in English-same paper/size/color as requested previously. Delivered to the Bell Warehouse at 4315 N. Clio Road, Flint 48504, attention Bonnie S.

Do you have the updated version of the palm card with the change from water resource centers to water resource sites? If not I'll get it from Trevor.

Jeanette

Agregado de Fosfato al Agua de Flint

¿Por qué hay plomo en el agua de algunos hogares?

- Las tuberías, soldaduras y grifos de plomo solían ser de uso común. Ahora sabemos que el plomo puede dañar nuestra salud.
- Es muy probable que en las casas construidas antes del año 1987 haya tuberías de desagüe y tuberías de suministro de plomo. Algunos grifos y ciertos tipos de soldaduras también podrían tener plomo, incluso aquellos instalados recientemente.
- Es probable que el plomo encontrado en el agua de los grifos de los hogares de Michigan provenga de tuberías antiguas, soldaduras y grifos.
- El reemplazo de tuberías de suministro antiguas, tuberías de desagüe y grifos es la única forma segura de limitar el plomo en el grifo de agua.
- Las tuberías, soldaduras y grifos nuevos deben cumplir con los estándares de producto libre de plomo de EPA.

¿Por qué estamos colocando fosfato en el agua?

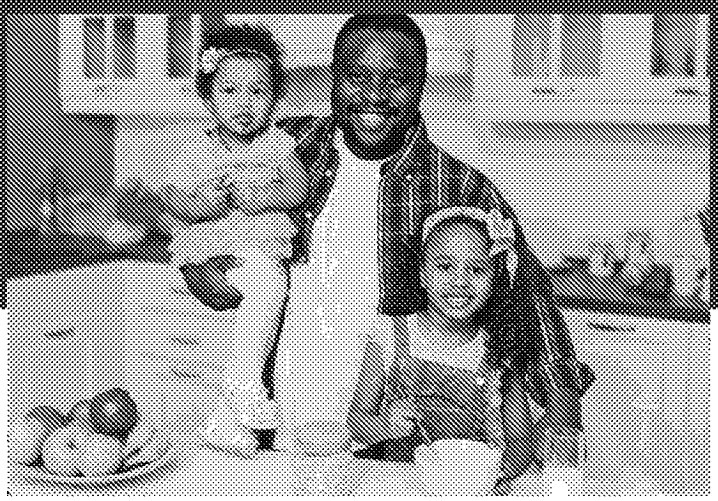
- Durante años, los minerales de nuestra agua se acumularon dentro de nuestras tuberías de agua.
- Esta acumulación de minerales se llama sarro.
- Este sarro ayuda a mantener una gran cantidad de plomo, en las tuberías, fuera del agua.
- Si algo le sucede al sarro y el agua puede tocar las tuberías, el plomo se puede introducir en el agua.
- Agregar fosfato al agua ayuda a formar y mantener sarro, recolectándose en los costados de las tuberías y adhiriéndose al metal.

Pisto sobre el Fosfato

- **El fósforo es un mineral natural que el cuerpo necesita. Funciona con calcio para mantener los huesos fuertes y sanos.**
- **El fosfato es un tipo de sal que contiene fósforo.**
- **Aunque el agua potable de Detroit ya cuenta con fosfato, se está agregando una cantidad adicional al agua de la Ciudad de Flint para ayudar a agregar sarro en las tuberías.**
- **La Ciudad de Flint, MDEQ, y EPA trabajaron juntos para averiguar cuánto fosfato adicional es necesario en el agua que llega a los hogares de Flint.**
- **La mayoría de las personas probablemente ya comen y beben más fosfato en sus comidas diarias que la pequeña cantidad que se encontrará en el agua del grifo.**
- **Continúe usando filtros de agua que eliminen el plomo, hasta que se retire la Declaración de Emergencia de Salud Pública del Genesee County Health Department.**

¿Qué es el ácido fosfórico?

Aunque el agua que viene de Detroit ya posee una cantidad de fosfato, las plantas de Flint agregarán más para ayudar a acumular y mantener el sarro con mayor rapidez. Para obtener el fosfato necesario para que esto funcione, la Planta Potabilizadora de Agua de la Ciudad de Flint agregará algo llamado ácido fosfórico en el agua de la ciudad. El ácido fosfórico es un ingrediente alimenticio común en productos como cola o jugo.



El ácido fosfórico se disolverá rápidamente en el agua y se dividirá en dos partes, hidrógeno y fosfato. El hidrógeno se convertirá en parte del agua y el fosfato restante se asentará y adherirá a las paredes de las tuberías – acumulando sarro como en la imagen anterior.

Ante cualquier duda sobre el fosfato agregado en la Ciudad de Flint, comuníquese a la City of Flint Water Plant (Planta Potabilizadora de Agua de la Ciudad de Flint) al 810-787-6537.

Ante cualquier duda sobre el fosfato y su salud, comuníquese con el MDHHS al 1-800-648-6942.

v. 12/10/2015

LUCHA CONTRA EL PLOMO CON NUTRICIÓN

¡Las comidas que preparan y sirven nuestras familias pueden ayudar sobre los efectos de la exposición al plomo de nuestros hijos! Tres pasos que puede seguir en la selección y preparación de los alimentos puede hacer la diferencia:

1. En la preparación de alimentos, asegúrese de lavar y cocinar con agua filtrada.
2. Sirva a sus niños aperitivos pequeños y saludables entre comidas.
3. Sirva alimentos altos en algunos nutrientes muy importantes: **¡hierro, calcio y vitamina** C!

HECHOS DEL PLOMO

El plomo no es bueno para la salud de ninguna persona y es especialmente malo para los niños pequeños. Mantenga a su familia resguardada evitando el contacto el plomo. Si usted vive en la ciudad de Flint, o recibe agua del sistema de la ciudad, asegúrese de usar un filtro certificado por NSF- para beber, cocinar y preparar la fórmula para el bebé. Asegúrese de cambiar el cartucho del filtro en la fecha indicada en el envase. Recuerde que usted y sus hijos también pueden estar expuestos al plomo de antiguas pinturas, polvo, suciedad, cerámica, maquillaje, juguetes y algunos remedios caseros.

Si usted tiene alguna preocupación sobre el plomo o la dieta de su hijo, hable con su médico.

ALIMENTOS QUE LUCHAN CONTRA EL PLOMO

CALCIO

¡El calcio mantiene los huesos fuertes y al plomo afuera! Los alimentos ricos en calcio incluyen:

- Leche y productos lácteos, como el queso y el yogurt
- Vegetales de hojas verdes, como la espinaca, col y berza
- El jugo de naranja enriquecido con calcio
- Tofu
- Salmón y sardinas (ambos con sus huesos)

HIERRO

El hierro protege que demasiado plomo entre en el cuerpo. Los alimentos ricos en hierro incluyen:

- Carnes rojas y magras, pescado (atún y salmón) y pollo
- Verdura de hojas verdes como espinaca, col y berza
- Cereal fortificado con hierro, pan y pasta
- Frutos secos, como las pasas y ciruelas pasas
- Frijoles

VITAMINA C

La vitamina C trabaja con el hierro para evitar que demasiado plomo entre en tu cuerpo. Buenas fuentes de vitamina C incluyen:

- Frutas cítricas, como naranjas y pomelos y sus jugos
- Tomates y jugo de tomate
- Pimientos
- Otras frutas como kiwi, fresas y melones

MSU es una acción positiva, de igualdad de oportunidades de empleo, comprometida con el logro de la excelencia por medio de la fuerza de trabajo diversa y cultura inclusiva que anima a todas las personas a alcanzar su máximo potencial. Los programas de extensión y los materiales de la Universidad del Estado de Michigan están abiertos a todos sin distinción de raza, color, nacionalidad de origen, sexo, identidad de género, religión, edad, peso, altura, capacidades diferentes, creencias políticas, orientación sexual, estado civil, situación familiar o estado de veterano. Publicado en promoción del trabajo Extensión de MSU, actas del 8 de mayo y 30 de junio de 1914, en cooperación con el Departamento de Agricultura de EE. UU. Jeffrey W. Dwyer, Director Interino, Extensión de MSU, East Lansing, MI 48824. Esta información es solo con fines educativos. 1P-3M-01:2016-OM-RM/MR WCAG 2.0

DONDE OBTENER AYUDA

Asistencia Alimentaria en el Condado de Genesee

Programa de Alimentación Básica

Este programa de alimentación suplementaria está diseñado para ayudar a personas de bajos ingresos, embarazadas o lactantes, madres jóvenes hasta un año después del nacimiento del bebé, niños de hasta 6 años y personas de 60 años y más. Se proveen alimentos una vez al mes. Llame al 810-789-3746 u 810-789-4409 para más detalles.

Doble Crédito para Compra de más Alimentos (DUFB)

El Programa DUFB corresponde a beneficios SNAP con la compra de frutas y vegetales cultivados en Michigan. Por ejemplo, si compra por un valor de $10 en productos de Michigan, ¡obtendrá un extra $10 para comprar más frutas y verduras! Puede utilizar este programa en:

- Flint Farmer's Market, 300 East 1st Street, Flint, teléfono 810-232-1399, abierto todo el año
- Landmark Food Center (dos locales) 206 West Pierson Road, Flint, tel. 810-789-7311, o 4644 Fenton Road, Flint, tel. 810-238-2972, llame para saber fecha y horario de las dos ubicaciones.

Programa Asistencia de Emergencia Alimentaria (TEFAP)

TEFAP ofrece alimentos saludables a las familias e individuos calificados 1 vez cada 4 meses. Llame a GCCARD al 810-789-3746 o 810-789-4409 para más detalles.

Bank Food of Eastern Michigan

The Food Bank of Eastern Michigan ofrece muchos programas de asistencia. Llame al 810-239-4441 para más detalles.

Programa de Asistencia de Nutrición Suplementaria (SNAP)

El programa SNAP (antes llamado estampillas de comida) ofrece dinero a los residentes de bajos ingresos para la compra de comida, incluyendo:

- Frutas y vegetales
- Pan y cereales
- Productos lácteos, carne, pescado y aves de corral

También permite comprar semillas y plantas productoras de alimentos con los beneficios del SNAP para hacer crecer su propia comida. Solicite a SNAP en www.mibridges.michigan.gov o llame al Departamento de Salud y Servicios Humanos del Condado de Genesee (DHHS) al 810-760-2200.

WIC (Mujeres, Infantes & Niños)

El Programa WIC provee comida extra para embarazadas o madres lactantes de bajos ingresos, bebés y niños de hasta 5 años que estén en riesgo nutricional. Los alimentos provistos por medio del WIC incluyen:

- Preparados para lactantes y cereales fortificados con hierro
- Frutas y vegetales ricos en hierro, calcio y vitamina C
- Pan integral y cereales
- Huevos, leche, queso y yogurt

Pa solicitar el WIC, llame al 800-262-4784 (llamada gratis) o al 810-237-4537.

WIC-Proyectos Productos Frescos

Si recibe beneficios del WIC, ¡usted es elegible para recibir el Proyecto Productos Frescos y verduras! Este programa se ejecuta del 1º de junio al 31 de octubre, de cada año. Para más información contacte al WIC del Condado de Genesee al 810-237-4537 o Extensión MSU al 810-244-8500.

Recursos Adicionales del Condado de Genesee

211

- Servicio que conecta a los residentes del Condado de Genesee con los recursos de la comunidad, especialmente en alimentación, transporte, educación y cuidados de la salud
- Conexión de los residentes con fuentes de filtros de agua y el reemplazo de los cartuchos
- Localmente financiado por el United Way del Condado de Genesee.
- Teléfono 211
- Página Web: www.211.org

Departamento de Agua de Flint

- Ofrece de agua gratis o a bajo costo
- Teléfono: 810-787-6537

Departamento de Recursos de Acción Comunitaria del Condado de Genesee (GCCARD)

- Ofrece filtros gratis de agua
- Teléfono: 810-789-3746 o 810-789-4409

Extensión Universidad del Estado de Michigan

- Ofrece clases gratuitas de educación nutricional
- Análisis de suelo para el plomo
- Teléfono: 810-244-8500

TOMANDO MEDIDAS
AGUA DE FLINT

USE AGUA DEL GRIFO FILTRADA

- Para beber y cocinar
- Para lavar frutas y verduras
- Para cepillarse los dientes
- Para las cubas de agua de las mascotas

USE AGUA DEL GRIFO SIN FILTRAR

- Para limpiar
- Para bañarse

PRUEBA DE NIVEL DE PLOMO EN SANGRE

Todos los niños de Flint menores de seis años deben hacerse el examen de nivel de plomo en sangre. Contáctese con su médico de cabecera o llame al 2-1-1.

NUTRICIÓN

¿Sabía que algunos alimentos ayudan a que el plomo no se almacene en el cuerpo de los niños? Consuma alimentos ricos en calcio, vitamina C y hierro.

PRUEBA DE AGUA GRATUITA

Los residentes de Flint que tengan dudas acerca del agua pueden obtener equipos gratuitos de pruebas de agua en los sitios de recursos hídricos.

USE FILTROS DE AGUA Y CARTUCHOS FILTRANTES

Los filtros de agua pueden reducir el nivel de plomo y de otros contaminantes en un 99 por ciento si se instalan correctamente. Los sitios de recursos hídricos ofrecen filtros de agua gratuitos.

PARA AYUDA INMEDIATA

LLAME AL 2-1-1

Muestreos y pruebas de seguimiento

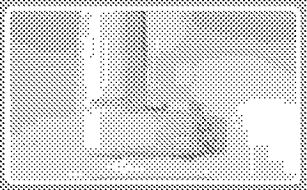
Los hogares seleccionados como puntos de muestreo serán visitados por un miembro del equipo de muestreo, un plomero certificado y personal adicional. El miembro del equipo de muestreo explicará el motivo de la visita y los pasos subsiguientes. El plomero hará una evaluación básica de las cañerías de la casa. El miembro del equipo de muestreo mostrará a los residentes cómo limpiar sus aireadores y cómo hacer otras pruebas de agua en forma particular.

Los resultados de las pruebas de laboratorio se publican diariamente en internet en: www.michigan.gov/flintwater.

Los resultados de las pruebas se enviarán a los residentes por el correo postal de Estados Unidos.

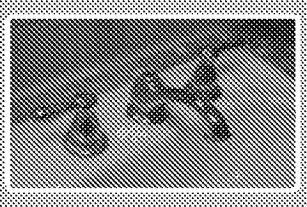
Si los resultados de las pruebas de su casa son mayores a 150 partes por mil millones (ppb), se le hará una visita dentro de las 48 horas siguientes.

Dentro de 48 horas después de cualquier prueba que muestre más de 150 ppb, se realizará una visita. Esta visita de cuidado de la salud en el hogar incluye:



1) Información sobre bienestar y salud
2) Derivación para un análisis de sangre
3) Evaluación de las necesidades de transporte para concurrir a las citas.
4) Provisión adicional de agua embotellada, filtros de agua y equipos de muestreo.

Si los resultados de las pruebas de su casa son mayores a 100 ppb, pero menores a 150 ppb, se le hará una visita dentro del lapso de siete días.



Puede ver videos instructivos sobre la sustitución de filtros y las pruebas de agua en www.michigan.gov/flintwater en la pestaña Centro de Medios.

Algunas medidas que puede tomar:

Instale un filtro certificado por la NSF y repóngalo de acuerdo a las pautas del fabricante. Puede obtener los filtros en forma gratuita.

Reemplace los grifos antiguos y los elementos que contengan componentes de plomo.

Limpie los aireadores en forma periódica para eliminar las partículas contaminantes.

Envíe muestras del agua de su hogar para que sean analizadas.

¡Hervir el agua NO elimina el plomo!

CÓMO RECICLAR BOTELLAS DE AGUA Y FILTROS DE AGUA EN FLINT

Instrucciones para el Retiro en el Borde de la Acera

Republic Services brinda reciclado en el borde de la acera dos veces por semana sin costos adicionales a residentes que ya cuentan con servicios semanales de recolección de la basura.

1)**Para obtener un cesto de reciclado azul, llame al 1-800-438-0966** (Lun. a Vie., 8a.m.-5p.m., o Sáb., 8a.m.-12p.m.) para solicitar la entrega de un cesto en su casa.

2)Hasta que reciba su cesto, Republic Services permite que las botellas sean colocadas en bolsas de plástico transparentes. No coloque la basura en la misma bolsa que las botellas.

3)Hasta que reciba su cesto, coloque las bolsas transparentes en el borde de la acera el día de retiro de los residuos, a unos pocos pies de su basura. Una vez que reciba su cesto, sáquelo el día del reciclaje.

4)Usted también puede dejar sus bolsas en cualquier de los puntos destinados a esto de la ciudad.

¿Qué debo hacer con el cartucho usado de mi filtro de agua?

1) Cuando deba cambiar su filtro de PUR o Brita, lleve el cartucho usado a un lugar de distribución.

2) Coloque el cartucho usado en la caja provista en el lugar.

3) Llévese un cartucho de reemplazo.

TODAS LAS BOTELLAS QUE DEJE DEBERÁN ESTAR EN BOLSAS DE PLÁSTICO TRANSPARENTES

No se aceptan bolsas de colores ni de tiendas

Mantenga a sus mascota libres de contaminacion de plomo

La toxicidad del plomo es una condición potencial que nececita atención de un veterinario.

Síntomas:

- Vómitos
- Convulsiones
- Diarrea
- Cansancio
- Falta de apetito
- Dolor abdominal
- Insomnio
- Debilidad
- Ceguera
- Vocalizació
- Ansiedad extrema
- Cambios de temperamento

Síntomas pueden desarrollarse con el tiempo.

Causas:

Los animales pueden ser contaminados con plomo en diferente maneras:

- Al tomar agua contaminada
- El uso inapropiado del tazon de alimento con ceramica desmaltada
- Comer o lamber pintura
- Comiendo plomo como balas, plomo de pesca, y bolas de jugar golf

Diagnóstico y tratamiento:

La toxicidad del plomo puede ser una condición seria.

Si sospecha que su mascota ha sido expuesto a contaminacion de plomo, comuniquese con un veterinario para hablar de un examen y tratamiento.

Consejos de seguridad para tratar la agua contaminada de su mascota:

- Dar a su mascota agua embotellada o filtrada para beber
- Use agua embotellada o filtrada al preparar la comida de su mascota
- Mantenga la tapa del sanitario cerrada
- No dejen que su mascota tome agua del sanitario o agua que no ha sido filtrada

Efectos adversos son reportados a la offecina del Veterinario del Estado. Cualquier veterinario que sospecha o ha confirmado un caso de toxicidad, debe reportar el caso ante el Departamento de Agricultura y Desarrollo Rural de Michigan llamando 1-800-292-3939.

FLINT WATER RESPONSE TEAM

www.michigan.gov/flintwater

PLOMO EN EL AGUA DE FLINT

INFORMACION GENERAL

- La cantidad de plomo que se encuentra en el agua potable en los hogares de Flint podría afectar la salud de los niños.
  - o Inclusa pequeñas cantidades de plomo pueden dañar la salud de los niños, ya que todavía están creciendo.
  - o Los adultos tienen menos probabilidades de ser perjudicados por los niveles encontrados en el agua.
- Filtre el agua potable utilizando un filtro aprobado por la National Sanitation Foundation (NSF).
  - o Usted puede recibir un filtro aprobado por NSF gratis, si utiliza agua de la Ciudad de Flint.
  - o Llame al 2-1-1 para averiguar adónde puede retirar un filtro de agua gratuito.
- Algunos filtros pueden eliminar hasta el 99% del plomo en el agua cuando se utilizan correctamente. Para asegurarse de que su filtro está eliminando la mayor cantidad de plomo posible, siga cuidadosamente las instrucciones enviadas con éste.
  - o Deje correr agua fría a través del filtro solamente.
  - o Cambie el cartucho del filtro tan a menudo como lo indiquen las instrucciones.
- Incluso después de los cambios en el sistema de agua, puede tomar un tiempo antes de que los niveles de plomo en el agua se reduzcan.
- El plomo es difícil de evitar por completo. Se puede encontrar en las tuberías de agua y grifos de agua de bronce, pintura vieja, en la tierra, en algunos lugares de trabajo, y en el metal usado en algunos pasatiempos.

Hay una serie de pasos que puede tomar para que usted y su familia estén saludables. Utilice los siguentes consejos para aprender más sobre cómo mantenerse saludable:

PLOMO EN EL AGUA

Aunque el agua a veces puede ser de un color diferente, esto no es causado por el plomo. Es importante recordar:

- Usted no puede ver, eler o saborear plomo en el agua.
- El plomo no cambiará el color del agua.
- La única manera de saber cuáles son los niveles de plomo en su hogar es haciendo examinar el agua.

PLOMO EN LA SANGRE

- Si sus hijos viven en Flint o van a la escuela o a una guardería en la ciudad de Flint, sus niveles de plomo en la sangra deben ser examinados.
- Debe comunicarse con su médico para realizarse un examen.
- El examen está disponible de forma gratuita en el Departamento de Salud del Condado de Genesee. Llame al 2-1-1 si necesita ayuda para llegar allí.
- Si está embarazada o amamantando, y ha dado negativo en los niveles altos de plomo en la sangre, es seguro amamantar.
- Si está embarazada o amamantando y ha dado positive en los niveles altos de plomo en la sangre, hable con su médico acerca de la seguridad de la lactancia materna.

CONSEJOS PARA MANTENER SU HOGAR PROTEGIDO DEL PLOMO

FILTROS DE AGUA

- Haga examinar el agua de su casa. Es gratis. Llame al 2-1-1.
- Utilice un filtro de agua. Llame al 2-1-1 para solicitar un filtro gratuito.
- Si usted no tiene un filtro de agua, utilice agua embotellada para beber y para mezclar fórmula.
- Use agua fría y filtrada para cocinar.
- Lave frutas y verduras con agua filtrada.
- Si tiene que usar agua sin filtrar, deje correr el agua durante cinco minutos antes de usarla. Para ahorrar tiempo y agua en el futuro, es una buena idea llenar tantos envases como sea posible, una vez que haya dejado correr el agua durante cinco minutos.
- Drene y purgue los tanques de su calentador de agua regularmente, para eliminar cualquier plomo que haya quedado acumulado. Siga las instrucciones de fabricante para el mantenimiento o póngase en contacto con un profesional autorizado para obtener ayuda.

LIMPIEZA

- Lave platos, botellas y juguetes con agua no filtrada y jabón y deje que se sequen antes de su uso.
- Es seguro usar el agua del grifo sin filtrar para limpiar pisos y mesadas.
- Es seguro lavar la ropa en la lavadora y secadora.
- Utilice un tapete en la puerta. Quítese los zapatos cuando esté dentro.
- Aspirar alfombras puede levantar más polvo de plomo sobre la superficie. Utilice una barredora no motorizada para limpiar alfombras.
- Limpie alféizares y áreas de juego a menudo con toallas de papel y agua con jabón.

CONSEJOS PARA MANTENER SU HOGAR PROTEGIDO DEL PLOMO

EN EL BAÑO

- Utilizar agua filtrada para cepillar los dientes de sus hijos.
- Los adultos pueden usar el agua del grifo sin filtrar para lavarse los dientes.
- Se puede utilizar agua del grifo sin filtrar para bañarse, pero no deje que los niños beban el agua cuando jueguen en la bañera.
- Estudios realizados por los Centros de Control y Prevención de Enfermedades muestran que los padres pueden seguir bañando a sus hijos en la bañera, pero la hora del baño se debe utilizar para el baño solamente, en lugar de permitir que los niños jueguen en el agua durante mucho tiempo.
- El plomo no causa erupciones u otros problemas de la piel. Sin embargo, si los niveles de cloro u otros productos de limpieza son altos en el agua, puede causar picazón en la piel o piel seca (similar a lo que puede suceder cuando usted nada en una piscina).

CUIDADO DE MASCOTAS

- Utilice agua filtrada del grifo para que su mascota beba en su tazón.
- Usted puede utilizar el agua del grifo sin filtrar para bañar a sus mascotas.
- Si usted nota que su mascota actúa de manera diferente de la normal, consulte a su veterinario.

DIETA SALUDABLE

- Coma alimentos ricos en hierro, calcio y vitamina C.
- Lávese las manos con jabón y agua tibia antes de comer.
- Si necesita alimentos frescos y saludables, llame a la oficina de WIC al 810-237-4537, o para la asistencia alimentaria "SNAP" aplique en www.michigan.gov/mibridges o visite su oficina local del Departamento de Salud y Servicios Humanos de Michigan.

BUENAS FUENTES DE HIERRO INCLUYEN:

- Carnes rojas desgrasadas, pescado y pollo
- Cereales con hierro añadido
- Frutas secas (pasas, ciruelas pasas)

BUENAS FUENTES DE CALCIO INCLUYEN:

- Leche
- Yogur
- Queso
- Verduras de hojas verdes (espinaca, col rizada, berza)

BUENAS FUENTES DE VITAMINA C INCLUYEN:

- Naranjas, jugo de naranja
- Toronja, jugo de toronja
- Tomates, jugo de tomate
- Pimientos verdes

INFORMACION DEL PLOMO

El equipo de respuesta de Flint esta enfocado en la crisis de plomo en la agua. Además del agua, cientificos, durante mucho tiempo, han estado preocupados por todas las fuentes de plomo, incluyendo la pintura con

PINTURA CON PLOMO

- Las casas construidas antes de 1978 probablemente tienen pintura con plomo, tanto dentro como fuera.
- La pintura vieja es la forma más común en que los niños son expuestos al plomo.

TIERRA

- Si usted vive en la ciudad, puede haber plomo en la tierra afuera de su casa.
- Antes de 1996, el gas y los gases de escape de los automóviles contenian plomo. Más plomo se encontrará en la tierra de áreas con tránsito intenso.

POLVO

- El polvo en su casa puede tener pequeñas cantidades de plomo de la pintura y suciedad.

AFICIONES Y EMPLEOS

- Las soldaduras, plomadas de pesca, balas y materiales que enmarcan los vitrales son algunos elementos que pueden contener plomo. Usted podría también llevar polvo con plomo a casa de su sitio de trabajo.

¿TIENE PREGUNTAS?

- Para más información sobre cómo protegerse usted y su familia del plomo, visit www.michigan.gov/flintwater.
- Para saber dónde puede obtener un filtro de agua gratuito, llame al 2-1-1.
- Para una examinación de su agua gratis, llame al 2-1-1.
- Para más información sobre el plomo en su casa y lo que puede hacer, llame al Departamento de Salud y Servicios Humanos de Michigan al 1-800-648-6942.
- Para obtener información sobre cómo puede ayudar, visite www.helpforflint.com.

JAMIE CLOVER ADAMS
DIRECTOR

14 de enero de 2016

Atención: Establecimientos de comidas que utilizan el suministro de agua de la Ciudad de Flint

Estimado Operador del Establecimiento de Comidas:

El 5 de octubre de 2015 le fue enviado un documento recomendando acciones a seguir para evitar el riesgo de servir a sus clientes agua contaminada con plomo. Efectivizado inmediatamente, las recomendaciones se convirtieron en un requisito legal, y esta medida ejecutiva de licencias para establecimientos de comidas podrá ser aplicada si se encuentra que no se cumplió, hasta que la declaración de emergencia de salud pública sea anulada.

Lea la ficha de requisitos actualizada que se encuentra adjunta. Es posible que su establecimiento deba tomar medidas inmediatas para cumplir con este requisito.

Su establecimiento cuenta con tres opciones:

1. Demostrar que su establecimiento no está usando el suministro de agua de la Ciudad de Flint para beber, procesar o cocinar.
2. Demostrar que su agua fue examinada y es de uso seguro. Puede solicitar un examen gratuito a un oficial de regulación. Para programar una recolección y análisis gratuito del nivel de plomo en el agua de su establecimiento, comuníquese al 1-800-292-3939, de lunes a viernes, e informe que posee un "establecimiento de comidas en Flint que solicita un examen del agua". Prepárese para brindar un tiempo para las muestras luego de que todo el sistema de agua no haya sido usado durante por lo menos 6 horas. Las citas para las muestras están disponibles entre las 5 AM y las 4 PM. Las oficinas estatales estarán cerradas el 18 de enero de 2016.
3. Instale filtros de agua según sea necesario, y deje correr agua diariamente en aquellos grifos sin filtros y equipos de plomería pesada. (El uso discontinuo, dejar correr el agua, etc. aún será necesario hasta que se obtenga una prueba segura del agua).

Los inspectores del Michigan Department of Agriculture and Rural Development le están brindando asistencia al Genesee County Health Department para la conducción de muestras e inspecciones, de modo que es posible que usted deba trabajar con otra persona en lugar de su inspector de seguridad alimentaria habitual. Los inspectores también realizarán visitas a establecimientos en las próximas semanas, para brindar asistencia y verificar el cumplimiento de las medidas.

Para acceder a información adicional, comuníquese al 1-800-292-3939, o para acceder a la información más reciente sobre las respuestas en relación al agua de Flint, visite www.michigan.gov/flintwater. Esperamos poder ayudarle de cualquier forma posible.

Atentamente,

Kevin Besey, Director
Food and Dairy Division
(División de Alimentos y Lácteos)
Michigan Department of Agriculture and Rural Development

27 de octubre de 2015

Estimado Padre,

Como ayuda para asegurar que los niños de Flint estén protegidos de la exposición al plomo, El Genesee County Health Department y el Michigan Department of Health and Human Services le brindan respuestas a las siguientes preguntas:

- ¿De dónde viene el plomo?
- ¿Qué puedo hacer para proteger a mi familia?
- ¿Debo hacer que mi hijo sea examinado?
- ¿Adónde puedo encontrar más información sobre el plomo?

¿De dónde viene el plomo?

Fueron encontrados niveles elevados de plomo en el agua potable de tuberías de plomo en la Ciudad de Flint. Los niños también pueden estar expuestos al plomo de pintura vieja, tierra, cerámica, cosméticos y juguetes y algunos remedios caseros. Los trabajos y pasatiempos de los adultos tales como reparación del auto, vitrales, fabricación de joyas y manejo de municiones también pueden poner a los niños en riesgo, si tocan prendas o juegan en áreas donde hay plomo. El plomo presenta un riesgo grave para la salud, especialmente en los niños pequeños quienes se envenenan al comer, beber o respirar plomo.

¿Se le debe hacer a mi hijo un examen de plomo en la sangre? Los niños que viven en la Ciudad de Flint, que viven en un hogar donde se usa agua de la Ciudad de Flint, o que asisten a la escuela, reciben cuidado de niños o con frecuencia pasan tiempo con un cuidador en la Ciudad de Flint deberán acceder a un examen de envenenamiento con plomo.
Esto se deberá realizar lo antes posible.

¿Adónde debo ir para que se le haga un examen de plomo en la sangre a mi hijo?

El mejor lugar para realizar el examen de plomo en la sangre a su hijo es el consultorio de su médico. Los exámenes son cubiertos por la mayoría de los planes de salud. Su médico hará con usted el seguimiento de los exámenes médicos y le brindará información sobre qué hacer a continuación. Su hijo también puede acceder a un examen de plomo gratuito en el Genesee County Health Department. Si necesita transporte, comuníquese al 2-1-1 para solicitar ayuda.

Entendiendo el resultado del examen de plomo de su hijo.

Un nivel de plomo debajo de 5 significa que hay poco plomo en la sangre de su hijo. Use los siguientes consejos para ayudar a que su hijo se mantenga seguro. Su medico podrá sugerir un nuevo examen para su hijo dentro de los siguientes 12 meses, para asegurar que el nivel no haya subido.

Un nivel de plomo de 5 a 44 significa que su hijo tuvo cierta exposición al plomo. Trabaje con su medico y con el departamento de salud local para acceder a mayor orientación sobre cómo limitar su exposición al plomo. Su médico podrá volver a examinar a su hijo entre 1 y 3 meses después, para asegurar que el nivel no haya subido.

Los niños con niveles de plomo muy altos **(más de 44)** podrán requerir un tratamiento en el hospital.

¿Qué puedo hacer para mantener segura a mi familia?

Se deberán seguir estos pasos de inmediato para protegerse usted y a su hijo.

Cómo proteger a su familia del plomo en el agua:

- Solicite un examen de plomo en su agua. Es gratuito. Para más información, comuníquese al (810) 787-6537.
- Use un filtro de agua en su hogar. Llame al 2-1-1 para acceder a información sobre filtros de agua gratuitos Certificados por NSF.
- Sólo deje correr agua fría a través del filtro.
- Si no cuenta con un filtro de agua, consuma agua de botella o fórmula mezclada.
- Use agua filtrada o agua en botella para beber (incluyendo la preparación de café, mezclas de bebidas, jugo y formula de bebé), y la cocina (incluso aunque hierva el agua, el plomo permanecerá en el agua y la comida).
- Usted puede usar agua del grifo no filtrada para lavarse las manos y lavar los platos.
- Si deberá usar agua no filtrada para beber o cocinar, deje correr agua por el grifo durante cinco minutos antes de usar la misma.

Limpieza segura:

Una limpieza segura es importante. Mantener su casa limpia y segura de riesgos de plomo le ayudará a proteger a su familia.

- Es posible que las edificaciones construidas antes de 1978 posean pintura con plomo. Use toallas de papel húmedas para limpiar pedazos de pintura y polvo en estas edificaciones antiguas. Asegúrese de limpiar alrededor de las ventanas, áreas de juegos y pisos.
- Lávese las manos y lave los juguetes de forma frecuente con agua y jabón.
- Puede usar agua del grifo no filtrada para limpiar mesadas, fregar pisos y lavar ropa.

Buena nutrición:

Algunas comidas le ayudarán a evitar que el plomo se acumule en el cuerpo de un niño. Éstas son comidas con gran cantidad de calcio, hierro y vitamina C. Estas comidas incluyen:

Comidas Ricas en Calcio	**Comidas Ricas en Hierro**	**Comidas con Vitamina C**
➢ Leche	➢ Habas	➢ Naranjas
➢ Queso	➢ Carnes magras como pescado y pollo	➢ Jugo de naranja
➢ Yogurt	➢ Cereales integrales	➢ Pomelos
➢ Tofu	➢ Mantequilla de maní	➢ Tomates
➢ Espinaca		➢ Pimienta verde

Siempre lave la fruta con agua filtrada. Si está preocupado por la dieta de su hijo, hable con su médico, quien le podrá recomendar un multivitamínico diario.

WIC y SNAP brindan asistencia a los padres y niños que necesitan comidas frescas y saludables. Para más información, comuníquese a la **oficina del WIC del Condado de Genesee al (810) 237-4537**. SNAP también ofrece un programa de Double Bucks para adquirir incluso comidas más saludables sin costo adicional.

¿Adónde puedo encontrar más información sobre el plomo?

- Genesee County Health Department Lead Program
  (810) 257-3833
  www.gchd.us

- Michigan Department of Health and Human Services
  Childhood Lead Poisoning Prevention Program
  (Programa de Prevención del Envenenamiento Infantil con Plomo)

  www.michigan.gov/lead

- United States Environmental Protection Agency
  www.epa.gov/lead

- U.S. Centers for Disease Control and Prevention (CDC) Sitio web
  www.cdc.gov/nceh/lead

Estas recomendaciones tendrán efecto hasta que el Genesee County Health Department levante las restricciones sobre el uso del agua.

Atentamente,

Eden V. Wells, MD, MPH, FACPM
Director Médico Ejecutivo
Michigan Department of Health and Human Services

Gary K. Johnson, MD, MPH
Director Médico
Genesee County Health Department

30 de octubre de 2015

Estimado Proveedor:

Como posiblemente ya sepa por los informes de noticias recientes, altos niveles de plomo fueron encontrados en tuberías de plomo dentro del sistema de agua de la Ciudad de Flint.

Para ayudar a proteger a los niños de Flint del nivel de plomo actual en la exposición al agua, el Genesee County Health Department y el Michigan Department of Health and Human Services se están comunicando con usted para brindarle orientación y apoyo a sus familias.

Los niños pueden estar expuestos al plomo del agua potable que circula a través de las tuberías de plomo, plomo de pintura vieja, tierra, cerámica, cosméticos y juguetes y algunos remedios caseros. Los trabajos y pasatiempos de los adultos tales como reparación del auto, vitrales, fabricación de joyas y manejo de municiones también pueden poner a los niños en riesgo, si tocan prendas o juegan en áreas donde hay plomo.

Como proveedor principal de cuidado, usted cumple un rol crítico de ayuda para asegurar que sus hijos y familias expuestas al plomo reciban el cuidado y las garantías necesarias para manejar los posibles impactos sobre la salud por envenenamiento con plomo.

Identificación. Los niños que sufren envenenamiento con plomo con frecuencia no presentan síntomas externos. Sin embargo, síntomas clínicos tempranos pueden incluir anemia, anorexia, dolor abdominal y constipación. El plomo es una neurotoxina y la exposición a éste puede provocar conductas violentas y agresivas, llevar a desórdenes en el aprendizaje, causar Trastorno con Déficit de Atención por Hiperactividad (ADHD, según sus siglas en inglés) y se sabe que reduce el coeficiente intelectual entre 5 y 8 puntos con niveles tan bajos con 10 ug/dL. El plomo es metabolizado a través del sistema gastrointestinal de forma similar al hierro y el calcio, con un promedio de absorción que depende del tipo y peso del niño. La vida media del plomo en la sangre es corta (aproximadamente 1 mes), pero la vida media en el hueso se puede extender por décadas.

Debido a múltiples factores de riesgo que enfrentan muchos residentes de la Ciudad de Flint (incluyendo problemas en casas antiguas y la calidad del agua), recomendamos que todos los niños menores de 6 años que viven en la Ciudad de Flint, o en hogares que usen agua de Flint, que asisten a la escuela o reciben cuidado de niños de Flint, o que pasen tiempo con un cuidador en la Ciudad de Flint, accedan a un examen de plomo en la sangre. El examen de plomo en la sangre debe ser realizado a través del médico de cabecera, para asegurar un seguimiento adecuado al corto o largo plazo. ***Se deberá alentar a las familias para que sus hijos sean examinados de inmediato, ya sea en los consultorios médicos o en el Genesee County Health Department.***

Manejo de los Niveles de Plomo en la Sangre. Se brinda la siguiente guía para el manejo de los niveles de plomo en la sangre de los niños:

- **BLL < 5 ug/dL**
  - Un nivel de plomo inferior a 5 mcg/dL no es típicamente una causa de preocupación.
  - Brinde educación y orientación anticipatoria para asegurar que los niveles de plomo no se eleven.
  - Considere un nuevo examen en 12 meses en base a los factores de riesgo y preocupaciones.
- **BLL >5 ug/dL**

- **Los niños con resultados capilares de 5 ug/dL y superiores deberán acceder a una extracción de sangre venosa confirmatoria.**
- Las familias deberán recibir una guía anticipatoria, consejos sobre nutrición, instrucciones sobre técnicas de limpieza segura y seguimiento de cuidado adecuado por parte de su proveedor principal.
- Los servicios en el hogar que incluyen manejos de casos e investigaciones medioambientales están disponibles para todos los niños con niveles de plomo superiores a 5 ug/dL. Derive a los pacientes al Genesee County Health Department para el acceso a este servicio.
- Los niños con resultados confirmados de exámenes venosos superiores a 5ug/dL dentro de los últimos 18 meses deberán volver a ser examinados en base a la política de Medicaid y las pautas de AAP. (Consulte la "Guía Rápida del Proveedor" adjunta). Si un niño no fue examinado nuevamente dentro de estos límites de tiempo, se recomienda un nuevo examen tan pronto como sea posible.

- **BLL > 44 ug/dL.**
  - **Los niños con resultados capilares de 5 ug/dL y superiores deberán acceder a una extracción de sangre venosa confirmatoria.**
  - Los niveles de plomo superiores a 44 ug/dL podrán requerir hospitalización. Para mayor orientación, consulte a un experto del Children's Hospital of Michigan en Detroit.
  - Las familias deberán recibir una guía anticipatoria, consejos sobre nutrición, instrucciones sobre técnicas de limpieza segura y seguimiento de cuidado adecuado por parte de su proveedor principal.
  - Los servicios en el hogar que incluyen manejos de casos e investigaciones medioambientales están disponibles para todos los niños con niveles de plomo superiores a 5 ug/dL. Derive a los pacientes al Genesee County Health Department para el acceso a este servicio.
  - Los niños con resultados confirmados de exámenes venosos superiores a 5ug/dL dentro de los últimos 18 meses deberán volver a ser examinados en base a la política de Medicaid y las pautas de AAP. (Consulte la "Guía Rápida del Proveedor" adjunta). Si un niño no fue examinado nuevamente dentro de estos límites de tiempo, se recomienda un nuevo examen tan pronto como sea posible.

Recordatorio: Todos los niños de 1 y 2 años con cobertura de Medicaid deberán ser examinados.

Cuidado de seguimiento. Como proveedores, hay pasos que ustedes pueden seguir para ayudar a sus familias:

1. Continúe informando y educando a las familias en relación a los riesgos del plomo y los pasos preventivos que pueden seguir para minimizar los riesgos.
2. Aliente a las familias a usar agua filtrada para beber, mezclar fórmula y lavar los platos. Las familias pueden comunicarse al 2-1-1 para acceder a información sobre filtros de agua Certificados por NSF gratuitos.
3. Una nutrición saludable es crítica para los niños expuestos al plomo. Asegúrese de que sus pacientes estén consumiendo dietas balanceadas altas en hierro, calcio y vitamina C. Ante cualquier preocupación sobre la nutrición, considere la recomendación de un multivitamínico con hierro. WIC y SNAP brindan asistencia a los padres y niños que necesitan comidas frescas y saludables. Para más información, comuníquese a la oficina del WIC del Condado de Genesee al (810) 237-4537. Además, SNAP ofrece un programa de Double Bucks que pueden brindar comidas saludables a un menor precio.
4. La alimentación de pecho representa una alta protección y es recomendada. Sin embargo, si el nivel de plomo en la sangre de la madre supera los 40 ug/dL o su nivel es superior a 20 ug/dL y el bebé tiene un nivel superior a 5 ug/dL, no se recomienda la alimentación de pecho.
5. Debido a que el plomo es una neurotoxina, los niños con envenenamiento de plomo necesitan un seguimiento longitudinal y podrán requerir servicios de intervención para el desarrollo y salud mental. Continúe monitoreando el desarrollo de sus pacientes en cada visita.

6. Considere servicios de cuidado y apoyo adicionales que beneficiarán a sus pacientes, tales como programas de visita al hogar para la niñez temprana, Early Head Start y Head Start. Llame al 2-1-1 para más información.

Recursos locales. Varios recursos locales están disponibles para usted y sus pacientes:

- Examen de sangre. Se alienta a los pacientes a comunicarse con su proveedor principal para un examen. El Genesee County Health Department también administra exámenes de plomo. Los pacientes que necesiten transporte se deberán comunicar al 2-1-1 para solicitar ayuda.
- Examen del agua. El examen del agua es gratuito a través de la Planta de Evaluación del Agua de la Ciudad de Flint. Para más información, los pacientes se pueden comunicar al (810) -787-6537.
- WIC y SNAP brindan asistencia a los padres y niños que necesitan comidas frescas y saludables. Para más información, comuníquese a la oficina del WIC del Condado de Genesee al (810) 237-4537.
- Desarrollo infantil. Ante cualquier duda sobre el crecimiento, desarrollo o aprendizaje del niño, comuníquese al 2-1-1 para consultar sobre el Home Visiting Program (Programa de Visitas al Hogar) en su área.

Gary K. Johnson, MD, MPH
Director Médico

Genesee County Health Department

Intoxicación por PLOMO

Madres Embarazadas

El envenenamiento por plomo es causado por respirar o ingerir plomo. El plomo puede transferirse de la madre embarazada al bebé.

Demasiado plomo en su cuerpo puede:

- Crear riesgo de aborto
- Hacer que su bebé nazca demasiado pronto o demasiado pequeño
- Dañar el cerebro, los riñones y el sistema nervioso de su bebé
- Causar que su bebé tenga problemas de aprendizaje o comportamiento

1. Lo que usted puede hacer:

Hacer una prueba de agua para plomo.

- El plomo en el agua no tiene color, olor ni sabor.
- La única manera de saber el nivel de plomo de su hogar es que hagan una prueba de su agua en un laboratorio.

2. Filtre el agua del grifo.

Filtre su agua potable usando un filtro aprobado por la NSF. Los filtros pueden eliminar hasta el 99% del plomo en el agua cuando se usan correctamente. Para asegurarse de que su filtro elimina todo el plomo posible, siga cuidadosamente las instrucciones que vienen con él.

- Cambie el cartucho del filtro tan a menudo como sea necesario.
- Use solamente agua fría con el filtro.
- Use agua filtrada para beber, cocinar, cepillar los dientes de sus hijos y lavar fruta y verdura.

Consejo: Tiene disponibles gratis agua embotellada, filtros aprobados por la NSF y kits de prueba de agua en los lugares de recursos de agua en Flint.
Llame a United Way 2-1-1 por un lugar cerca de usted.

3 Sepa cuándo usar agua sin filtrar.

- Es seguro lavar platos, botellas, chupones y juguetes con agua sin filtrar y jabón, siempre que los seque completamente antes de usarlos.
- Se puede usar agua sin filtrar para ducharse y bañarse, pero ponga cuidado en que no entre agua en la boca de los niños y no deje que beban el agua de la tina.

4 Coma alimentos con calcio, hierro y vitamina C.

Estos alimentos pueden ayudar a protegerla a usted y a su bebé.

- El calcio está en la leche, el yogur, el queso y las verduras de hoja verde como la espinaca.
- El hierro está en la carne roja, los frijoles, los cereales y las espinacas.
- La vitamina C está en las naranjas, los pimientos verdes y rojos, el brócoli, los tomates y los jugos.

5 Hable con su doctor.

- Puede conseguir un análisis de plomo en sangre. Hable con su doctor o departamento de salud local para conseguir información.

Para más información sobre protegerse a usted y a su familia contra el plomo, visite www.michigan.gov/flintwater.

Para más información sobre el plomo en su hogar y lo que usted puede hacer, llame al Departamento de Salud y Servicios Humanos de Michigan al 1-888-322-4453 o visite www.michigan.gov/lead.

Los residentes de Flint pueden llamar al Departamento de Agua de Flint para conseguir una prueba de agua gratuita, 810-787-6537, o agarrar una en un lugar de recursos de agua.

Importance: High

Please note the attached document has been updated. Please discard the previous version. A paper copy will be provided to you at the meeting.

All DTMB
Custodians of Co...

-----Original Appointment-----
From: Longanbach, Janelle (DTMB) **On Behalf Of** DTMB-Directors-Office
Sent: Wednesday, February 17, 2016 1:21 PM
Subject: Mandatory Meeting - DTMB Custodians of Correspondence Related to Flint
When: Thursday, February 18, 2016 2:00 PM-3:00 PM (UTC-05:00) Eastern Time (US & Canada).
Where: Ottawa Builidng - Upper Level – Conference Room 4 OR Call-in: 866-390-1828 access code: 1842654

Please note this meeting can be attended in person or via conference call-in. Location and Dial in information are provided below.

<< File: All DTMB Custodians of Correspondence Related to Flint.pdf >>
***This attachment was updated 2/18/16**

*See agenda below

Requested By:
DTMB Executive Staff

Location:
Ottawa Building
Upper Level – Conference Room 4
611 W. Ottawa Street
Lansing, MI 48933

Call-in: 866-390-1828
Access code: 1842654

Security:
Please have your State Employee ID showing at all times.

Parking:

Metered parking is available along Ottawa and Pine street.

Briefing:

In recent months, the State of Michigan has received a number of requests to produce documents related to the water emergency in Flint. You have been identified as a potential custodian of relevant/responsive correspondence and/or documents related to these requests. As a custodian, you are required to produce, by a certain date, any documents containing certain search terms. In this meeting we will review instructions for the process of identifying, compiling, scanning, and copying the necessary information.

Agenda

1) Kickoff – Brom Stibitz, Chief Deputy Director
2) Why you are here – Jean Ingersoll, Interim Chief of Staff
3) What you need to do (February 22, 2016 deadline) – Jean
4) What will be done for you – Jean
5) What's next – Jean
6) Public Information Reminder – Caleb Buhs, Public Information Officer
7) Questions and Answers - Group

STATE OF MICHIGAN

RICK SNYDER
GOVERNOR

DEPARTMENT OF TECHNOLOGY, MANAGEMENT & BUDGET
LANSING

DAVID B. BEHEN
DIRECTOR

February 18, 2016

TO: All DTMB Custodians of Correspondence Related to Flint

FROM: Jean Ingersoll, Interim Chief of Staff to David B. Behen, Director and CIO

SUBJECT: Flint Document Production – Search Terms and Guidance

In recent months, the State of Michigan has received a number of requests to produce documents related to the water emergency in Flint. You have been identified as a potential custodian of relevant/responsive correspondence and/or documents related to these requests. **As a custodian, you are required to produce any documents containing the search terms listed below, no later than Monday, February 22, 2016.** This memorandum contains detailed instructions for the process of identifying, compiling, scanning, and copying the necessary information.

Microsoft 365 – Outlook (*includes emails, calendar items) and OneDrive*

DTMB staff will centrally coordinate the Microsoft 365 search for all of DTMB's custodians. Therefore, DTMB's custodians *do not need to independently search any of their Microsoft 365 applications* for the search terms listed below.

Network Drives

Similar to the approach outlined above, DTMB staff will centrally coordinate the network drive search effort for all DTMB custodians. Custodians do *not* need to independently conduct a network drive search for the search terms below.

Non-Network Drives – *includes hard drives, desktop, and thumb/flash drives*

For all non-network drive types, ***each custodian will need to search every search term listed below in every non-network format, and move all relevant/related documents in to a network drive for collection. In order to move items to the network, you must be connected to the network.***

Start by conducting the search of all non-network drives, filling out the attached search term checklist as you go. If you need guidance as to how to perform this search, a step-by-step guide is included below in Appendix 1.

All relevant/responsive items that are produced as a result of your search need to be moved to a network drive. You can move your relevant/related documents to a network drive in whatever format the document is currently in. After the February 22, 2016, deadline, DTMB staff will access the network drives to collect the files.

Paper Files

Review all applicable paper files. Scan any relevant/related documents, and save them to a network drive, as described above. If this is not possible, you may provide hard copies of documents to Jean Ingersoll in the Director's Office. These documents must be received in the Director's Office by February 22, 2016, and will not be returned to you.

Home Computer

Any relevant e-mails or other documents on a personal computer also are subject to this request. Please check your personal computer for any e-mails or other documents relating to this search. If you discover any relevant/related documents, please include the phrase "personal computer" in the file name, and save them to the aforementioned network drive.

Conclusion

Thank you for your cooperation in complying with this request. Should you have any questions, please contact Jean Ingersoll at 1-8844.

- Attachment 1 – Search Guidance

Search Term Checklist

In recent months, the State of Michigan has received a number of requests to produce documents related to the water emergency in Flint. You have been identified as a potential custodian of relevant/responsive correspondence and/or documents related to these requests. As a custodian, you are required to search and copy all items that you identify to a DTMB network drive, as described above.

Please complete your search no later than close of business on Monday, February 22, 2016. Relevant/related items from the past 10 years should be included.

You should search for *each term exactly as it is shown below, and include quotation marks around each separate word.* For example, "Legionnaire", "Legionella", or "Flint" would all go into search fields. After you complete a search term, check the box beside the term.

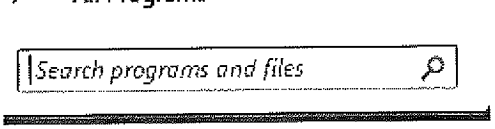
Search Terms:

- ☐ "Legionnaire"
- ☐ "Legionella"
- ☐ "boil water order" & "Flint"
- ☐ "coli" & "Flint"
- ☐ "bacteria" & "Flint"
- ☐ "microb" & "Flint"
- ☐ "TTHM" & "Flint"
- ☐ "Lead" & "Flint"
- ☐ "emergency" & "Flint"
- ☐ "Karegnondi"
- ☐ "Genesee County Health Department"
- ☐ "Flint" & "utilities"
- ☐ "Lead and Copper Rule"
- ☐ "Detroit Water and Sewerage Department" & "Flint"
- ☐ "DWSD" & "Flint"
- ☐ "Flint River"
- ☐ "Pb" & "water"
- ☐ "KWA"
- ☐ "Flint" & "water"

Search conducted on the email account of: _____

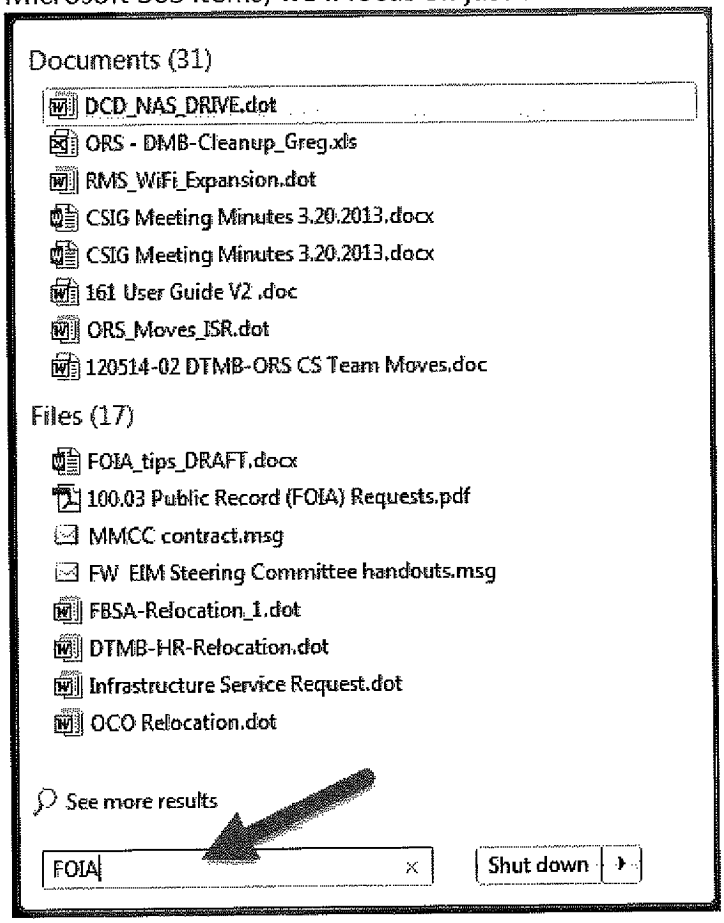
By (your name): _____

Date completed: _____



Please return this completed Checklist to DTMB Director's Office staff by Monday, February 22, 2016, at DTMB@michigan.gov, or Directors Office, Cass Building, Second Floor

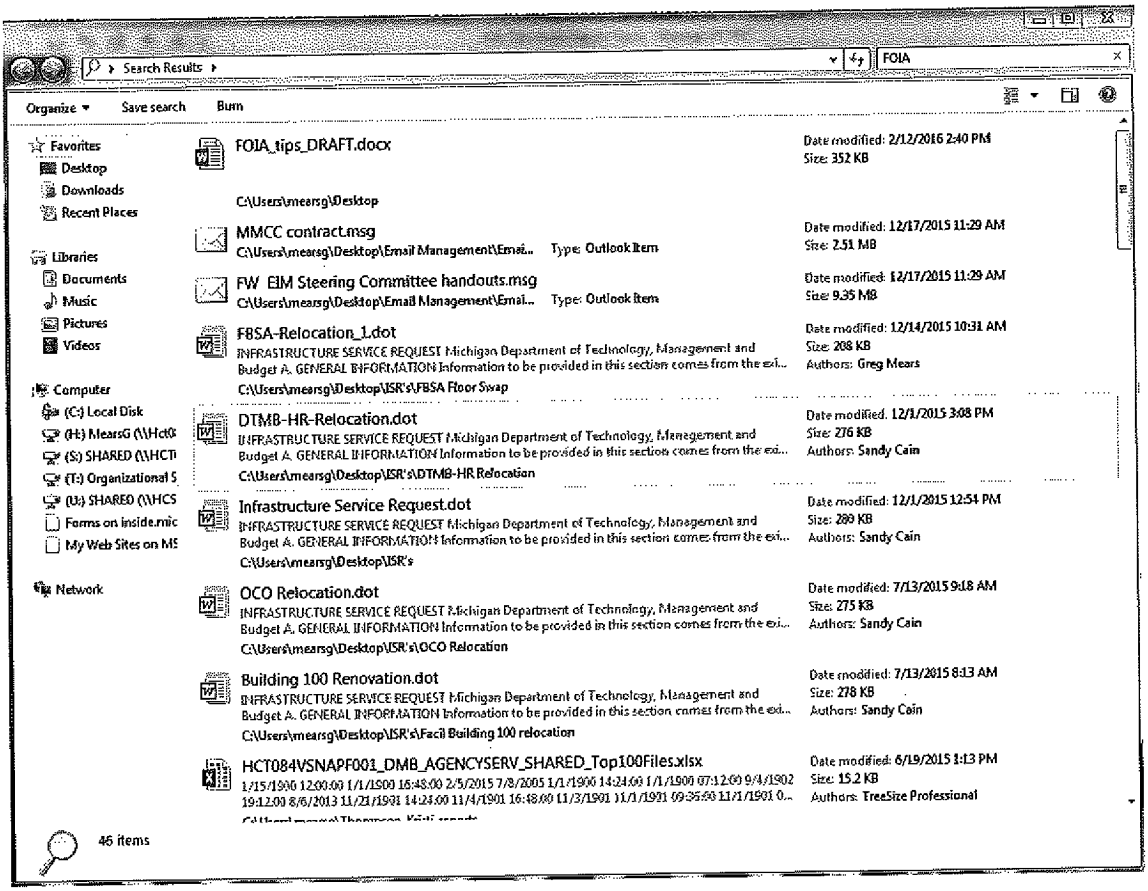
APPENDIX 1 – Search Guidance



Regardless of what version of Windows you're using, each of them has a search feature built in called "Windows Explorer," you see it every time you open up a folder on a network drive, or on your own computer.

Using the search function in windows 7

Since the majority of DTMB is on Windows 7, the examples below are on that operating system. If you click on windows Start button, you'll see the search box right next to it



This example searches for the word FOIA. As you can see, the search yielded numerous documents including emails. Since DTMB is centrally collecting relevant emails and other Microsoft 365 items, we'll focus on just the documents.

You need to open each document to make sure that it's relevant. In this instance, the search brought up a DTMB Move form, but only because it has the word FOIA in the form.
You'll notice that the words "See more results" appears at the bottom of the list. This means that the search turned up a lot more documents than what can easily be displayed. You must

click on the link to open Windows Explorer and reveal a comprehensive list, along with their locations.

As you can see from this example the search found 46 items. We can now select them all using the "Ctrl-A method", and copy them to a network drive.

DRINKING WATER LEAD AND COPPER SAMPLING INSTRUCTIONS FOR SENTINEL SITE SAMPLING ONLY

Thank you for helping to monitor for lead and copper in your drinking water.

It is important that you follow these instructions so we obtain an accurate measurement of the lead and copper in your drinking water.

Do not open the bottle until instructed in step 3. Do not touch the inside of cap or bottle.

1. **The water in the house must not have been used for a minimum of six (6) hours prior to sampling.** The best times to sample are early morning or after returning from work. **Do not flush the sample tap before sample collection.**

2. **Select a cold water faucet** in the **KITCHEN** or **BATHROOM** that is commonly used for drinking and has been used within the last 24 hours. **No other faucets are acceptable for collection.**

When was the faucet last used before sampling? Date _____ TIME _____ AM/PM

Is there a faucet-mount filter? ☐ YES ☐ NO If YES, was it bypassed? ☐ YES ☐ NO

Is this faucet connected to a home treatment device such as a water softener, a reverse osmosis unit, an iron removal device OR is any kind of additive used in the home? ☐ YES ☐ NO

If YES, please describe: _____

If YES, was it bypassed? ☐ YES ☐ NO

3. Open sample bottle and place below the faucet and gently open the **COLD** water tap. If you have a single handle faucet, turn it fully to the **COLD** side. Fill the sample bottle to within an inch of the top with the "first draw" of **COLD** water.

4. Tightly cap the sample bottle

If any plumbing repairs or replacement has been done in the home since the previous sampling event, please note this information here:

If YES, please describe: _____

5. Fill out the collection information on the front, answer the questions below and sign the form.

6. Attach this form to the bottle and leave outside your front door for pickup.

7. Thank you again for your help. We will send you your individual results within 30 days of receiving them from the laboratory.

If you have any questions contact:

DEQ's Environmental Assistance Center Phone: 1-800-662-9278

I have read the Drinking Water Lead and Copper Sampling Instructions and have taken a tap sample in accordance with these directions.

Subject: Flint Volunteer Efforts

Dear State Employees,

Gov. Rick Snyder and I want to thank everyone who donated their time during the holiday weekend to deliver bottled water, water filters, replacement cartridges and water testing kits to families in the city of Flint. We are working hard to ensure all residents are provided with the safe water resources they need, and each donation and hour of your time volunteered goes a long way.

For employees who would like to help the residents of Flint, there are several opportunities to do so. Please visit www.helpforflint.com to learn how you can help.

For additional information and updates, visit www.michigan.gov/flintwater.

Again, thank you for all your support.

Sincerely, Mike Zimmer
Office of Good Government Director
Dept. of Licensing and Regulatory Affairs Director

Subject: Contributing time, muscle and money

During this month's Martin Luther King Jr. holiday weekend, some state employees turned their "day off" into a "day on" in Flint. There, they delivered bottled water, water filters, replacement cartridges and water testing kits to families. The volunteers joined other Michiganders, turning Dr. King's birthday observance into a day of service.

Mike Zimmer, director of the Office of Good Government and the Department of Licensing and Regulatory Affairs, has shared a link – www.helpforflint.com – that offers other opportunities to contribute time, muscle and money to bring clean drinking water to the community.Here in DTMB, some of our employees didn't wait for an invitation to lend a hand. Office of Retirement Services staff contributed funds that were used to buy 31 cases and 23 gallons of water, which a local organization transported to Flint.

Autumn Hubbard, Ambrea Mack and Sarah Esquivel, who are in the photo at the left, nearly emptied the shelves at their local grocery store. Thanks for your efforts.

everyone.

Now work.

Last week, I signed a new policy that formalizes the annual employee review process and sets expectations for employees and managers. Administrative Policy 200.37 establishes consistent standards for implementing performance plans and reviews. Some of the standards are practices we have followed for years. Others are new. Some of particular note include:

- The mandatory use of HRMN
- A standard Feb. 1-Jan. 31 rating period for all employees
- An Individual Development Plan that specifies training or development programs for each employee
- Competencies and objectives that align to DTMB goals or scorecard metrics
- Consequences for managers and supervisors who do not complete the review process as required

A fundamental role of each DTMB manager or supervisor is to provide employees with direction and feedback on their performance. Employees also are expected to take an active role in pursuing professional development opportunities and achieving their competencies and objectives. I encourage you to review the new policy and talk with your manager or supervisor if you have questions. Of course, I welcome your questions and input as well. Please send your comments and ideas to me at behend@michigan.gov.

I know these have been busy weeks for many of you as you take on additional responsibilities and work hard to provide resources and services for our customers and citizens across the state. Please know that your hard work has not gone unnoticed. Thank you for everything you do, every day.

Have a great week,

David

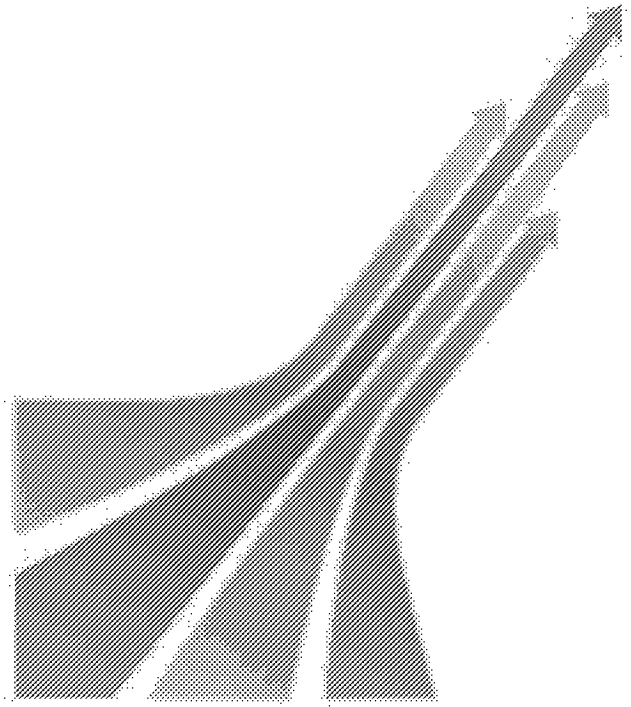
Help and Support Services

Michigan 2-1-1™
Get Connected. Get Answers.

Call United Way 2-1-1 if you have questions, to submit donations, or to volunteer your services.

Disaster Distress Helpline



Flint residents who need crisis counseling can call the Disaster Distress Helpline at 800-985-5990 or text "TalkWithUs" to 66746. The helpline can provide immediate confidential counseling to anyone who needs assistance. This resource is provided 24 hours a day, seven days a week. Spanish Speakers may call 800-985-5990 and press "2" or text "Hablanos" to 66746.

Genesee Health System Stress Counseling

To speak with a mental health professional from Genesee Health System, call 810-257-3705.

TAKING ACTION ON FLINT WATER

www.mi.gov/FlintWater

Michigan 2-1-1™
Get Connected. Get Answers.

Call United Way 2-1-1 if you have questions, to submit donations, or to volunteer your services.

TAKING ACTION ON FLINT WATER

USE FILTERED TAP WATER

- Drinking, cooking
- Washing fruits and vegetables
- Brushing teeth
- Pet water bowls

USE UNFILTERED TAP WATER

- Cleaning
- Bathing

BLOOD LEAD LEVEL TESTING

All Flint children less than six years of age should have their blood lead levels tested. Contact your primary care provider or call 2-1-1.

NUTRITION

Did you know that some foods will help keep lead from being stored in a child's body? Consume foods with a lot of calcium, vitamin C and iron.

FREE WATER TESTING

Flint residents who are concerned about their water can obtain free water testing kits at the water resource sites.

USE WATER FILTERS & CARTRIDGES

Water filters can reduce lead and other contaminants by 99% when installed correctly. Free water filters are available at the water resources sites.

FOR IMMEDIATE ASSISTANCE

DIAL 2-1-1

Follow Up Sampling and Testing

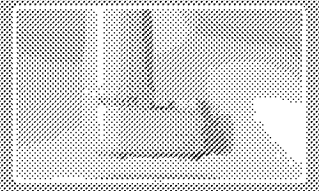
All homes set for sentinel site testing will be visited by a sample team member, a licensed plumber, and additional staff. The sample team member will explain what the visit is for and what the next steps will be. The licensed plumber will complete a basic in-home plumbing evaluation. The sample team member will show residents how to clean their aerators and how to complete additional personal water tests.

All lab test results are posted publicly online daily at: www.michigan.gov/flintwater.

All test results will be mailed to residents by U.S. mail.

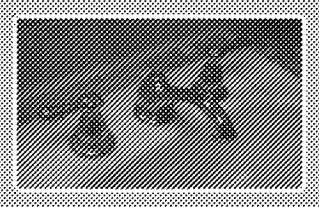
If your home test results are greater than 150 parts per billion (ppb), you will be visited within 48 hours.

Within 48 hours, of any test results showing greater than 150 ppb, a home health visit will be conducted. Home visits include:



1) Health and wellness information.
2) Off-site blood test referral.
3) Assesses transportation need for getting appointments.
4) Provides additional bottled water, filters and sample kits.

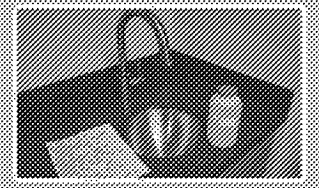
If your home test results are greater than 100 ppb but less than 150 ppb, you will be visited within 7 days.



Instructional videos on water filter replacement and water testing can be found at www.michigan.gov/flintwater under the Media Center tab.

Here are some actions you can take:

Install an NSF certified filter and replace in accordance within manufacturer guidelines. These filters may be obtained free of charge.



Replace aging faucets and fixtures that contain lead components.

Regularly clean aerators to remove particle matter.

Send self water samples for testing.

Boiling your water will NOT remove lead!

Subject: What this year's budget means for Michigan...

VIDEO: What Governor Snyder's FY17 budget means for Michigan

Gov. Rick Snyder's FY 2017 budget calls for critical investments for the Flint water crisis, statewide infrastructure and the Detroit Public Schools. The governor's recommendation also addresses the skyrocketing costs of specialty medications that Michigan residents depend on for better health outcomes.

This budget also stays committed to the Governor's core statewide priorities of education, talent and economic development, health and human services, and public safety.

The proposed FY 2017 budget makes key investments to strengthen the state for all of

Michigan's families. Click here to learn more about the top 6 takeaways from the Governor's FY 2017 state budget.

Click a tweet to tweet it out:

The #MIBudget @OneToughNerd proposed yesterday makes key investments to strengthen Michigan for all families --> www.mi.gov/MIBudget

--> @OneToughNerd's #MIBudget includes $72 million a year for Detroit Public Schools. It is time to act now -- > www.mi.gov/MIBudget

--> @onetoughnerd's significant investment in #Flint families is the right thing to do. #FlintFWD #MIBudget www.mi.gov/MIBudget

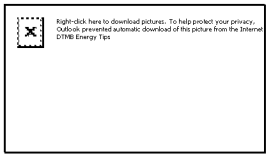
Flint Water Advisory

Date/Time:

Effective Wednesday, January 7, 2015



Details:

The City of Flint recently sent out the attached notice regarding violations to the drinking water standards. While the City of Flint states that corrective actions are not necessary, DTMB is in the process of providing a water cooler on each occupied floor, positioned near the water fountain, so you can choose which water to drink. The coolers will arrive today and will be provided as long as the public water does not meet treatment requirements.

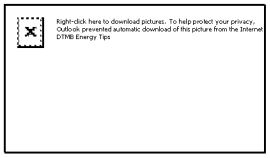
Flint Alternate Water Resource

Date/Time:

Monday, October 5, 2015 at 6:00 a.m. until further notice



Details:

Beginning Monday, October 5, 2015, water coolers will be available in common areas on floors 1-6 of the Flint State Office Building. Although the drinking water has been tested and falls within all DEQ and EPA regulation standards, alternate water sources will be offered to accommodate all tenants due to recent concerns regarding the water supply. Water testing will continue and the alternate water source will be available until all quality concerns are addressed.

Thank you for you cooperation.

Subject: Volunteer Opportunity in Flint

The State Emergency Operations Center (SEOC) is coordinating a response to the ongoing health and safety issues in the city of Flint's drinking water. Teams from the Michigan State Police, Genesee County Sheriff's Department, Michigan Department of Health and Human Services, and volunteer organizations have been delivering bottled water, water filters, replacement cartridges and water testing kits at homes in the city of Flint since Tuesday.

To help with this critical work, the SEOC is looking for volunteers to expand this effort and continue this distribution during the upcoming holiday weekend. Teams are being assembled for shifts on Saturday, January 16; Sunday, January 17; and Monday, January 18, 2016. If you are interested in volunteering your time for this critical work, please complete the information in one of the attached surveys (depending on which day you are volunteering).

To volunteer on Saturday, January 16, https://www.surveymonkey.com/r/28NVJBL

To volunteer on Sunday, January 17, https://www.surveymonkey.com/r/26NMJKK

To volunteer on Monday, January 18, https://www.surveymonkey.com/r/26P7P5G

Volunteers will begin their assignment at the Local Emergency Operations Center located in the Genesee County Administration Building located at 1101 Beach St, Flint at 9 a.m. and end by 4 p.m. Parking is available at the corner of Beach Street and 8th Street. Lunch will be provided. This is strictly a volunteer effort, as all three days will be unpaid. Volunteers are responsible for their own transportation; mileage reimbursement for personal vehicles is not authorized. Volunteers should dress for working outdoors and wear foot attire appropriate for walking.

This opportunity is for state employees and their immediate family members 16 years of age or older only, others looking to assist should volunteer through the American Red Cross in Flint. The volunteer coordination center for the Red Cross is located at 1401 S. Grand Traverse, Flint, MI. They are open from 9 a.m. to 7 p.m.

For more information on the state's response efforts, visit www.michigan.gov/flintwater.

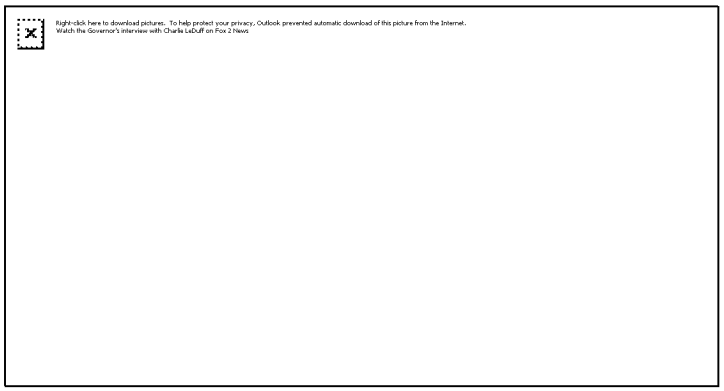
How we are fixing the Flint water crsis

Governor Rick Snyder has committed to spending the rest of his time as Governor to fixing the Flint water crisis. Over the last few days, he has sat down to explain what happened and how we're fixing the Flint water crisis. Watch the interviews below and be sure to read the Governor's Op-Ed in the USA Today.

Governor Snyder on Morning Joe

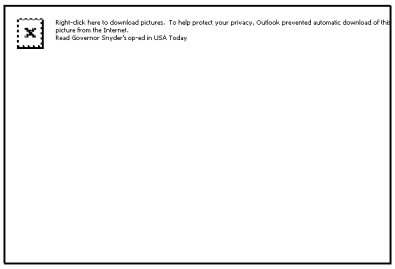


"What is so frustrating and what makes you so angry is you have a handful of experts who were career civil servants that made terrible decisions, in my view. We have to live with the consequences, and they worked for me, so I accept that responsibility. We are going to fix this problem." Watch Governor Snyder address how we are fixing the Flint water crisis on Morning Joe.

Governor Snyder with Charlie LeDuff on Fox 2 Detroit

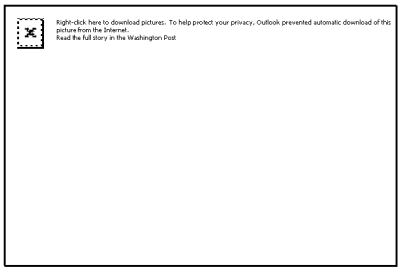
"I feel awful about this. These are people. They've been harmed. You can't feel good about that. The people of Flint have been harmed and a major influence of that harm

came from people who worked for me, and I feel responsible for that. But I am committed to solving the problem and addressing the damage as much as possible for the rest of the time I'm Governor." Watch Governor Snyder address the Flint water crisis with Charlie LeDuff on Fox 2 News.



Governor Snyder's 2016 State of the State

"Michiganders don't quit, we don't give up, instead we will work with even more passion and commitment to truly improve our state. For everyone who's chosen to make Michigan their home, this is more than a promise, this is my commitment." Watch Governor Snyder's full closing statement from his 2016 State of the State address.



Governor in USA Today: "I will fix this, and I mean it."

"Residents in one of Michigan's proud cities cannot drink their water. That's unacceptable. The crisis in Flint arose from missteps at all levels of government — local, state and federal. But as governor, I take responsibility for what these families are going through, and I'm holding people in my administration accountable for their failures." Click here to read the Governor's full op-ed.

Washington Post: "Michigan Gov. Rick Snyder is in a tough spot, but he's his own best spokesman"

Snyder has born the brunt of criticism in the local health crisis that has turned into a national scandal. But unlike many other politicians facing crises of leadership, Snyder may also be his own best counter-programming. Click here to read the full story in the Washington Post.

Subject: Flint Volunteer Efforts

Dear State Employees,

Gov. Rick Snyder and I want to thank everyone who donated their time during the holiday weekend to deliver bottled water, water filters, replacement cartridges and water testing kits to families in the city of Flint. We are working hard to ensure all residents are provided with the safe water resources they need, and each donation and hour of your time volunteered goes a long way.

For employees who would like to help the residents of Flint, there are several opportunities to do so. Please visit www.helpforflint.com to learn how you can help.

For additional information and updates, visit www.michigan.gov/flintwater.

Again, thank you for all your support.

Sincerely, Mike Zimmer
Office of Good Government Director
Dept. of Licensing and Regulatory Affairs Director

Subject: Contributing time, muscle and money

During this month's Martin Luther King Jr. holiday weekend, some state employees turned their "day off" into a "day on" in Flint. There, they delivered bottled water, water filters, replacement cartridges and water testing kits to families. The volunteers joined other Michiganders, turning Dr. King's birthday observance into a day of service.

Mike Zimmer, director of the Office of Good Government and the Department of Licensing and Regulatory Affairs, has shared a link – www.helpforflint.com – that offers other opportunities to contribute time, muscle and money to bring clean drinking water to the community.Here in DTMB, some of our employees didn't wait for an invitation to lend a hand. Office of Retirement Services staff contributed funds that were used to buy 31 cases and 23 gallons of water, which a local organization transported to Flint.

Autumn Hubbard, Ambrea Mack and Sarah Esquivel, who are in the photo at the left, nearly emptied the shelves at their local grocery store. Thanks for your efforts.

everyone.

Now work.

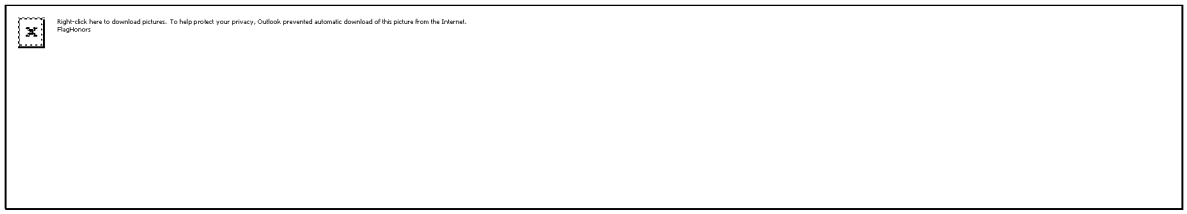
Last week, I signed a new policy that formalizes the annual employee review process and sets expectations for employees and managers. Administrative Policy 200.37 establishes consistent standards for implementing performance plans and reviews. Some of the standards are practices we have followed for years. Others are new. Some of particular note include:

- The mandatory use of HRMN
- A standard Feb. 1-Jan. 31 rating period for all employees
- An Individual Development Plan that specifies training or development programs for each employee
- Competencies and objectives that align to DTMB goals or scorecard metrics
- Consequences for managers and supervisors who do not complete the review process as required

A fundamental role of each DTMB manager or supervisor is to provide employees with direction and feedback on their performance. Employees also are expected to take an active role in pursuing professional development opportunities and achieving their competencies and objectives. I encourage you to review the new policy and talk with your manager or supervisor if you have questions. Of course, I welcome your questions and input as well. Please send your comments and ideas to me at behend@michigan.gov.

I know these have been busy weeks for many of you as you take on additional responsibilities and work hard to provide resources and services for our customers and citizens across the state. Please know that your hard work has not gone unnoticed. Thank you for everything you do, every day.

Have a great week,



David

THANK YOU!

Fellow employees,

Each day, more than 46,000 state of Michigan employees come to work with the confidence and commitment to make Michigan a better place to live, work and play. I appreciate the way you care about the citizens we serve, and how it is reflected in the work that you do.

As you have heard from me and the media, our reputation and trust can be severely impacted when people do not make good decisions, or use good judgment in solving problems. That principle is universal, but never more so than when public health is at stake. What happened in Flint can never be allowed to happen again anywhere in our state.

I know that you want to work in a place where employee input is valued, efforts are recognized, and teams are always striving for continuous improvement. That's why we introduced employee surveys, Bureaucracy Busters and other reinvention initiatives. We want and deserve a culture of innovation, continuous improvement and employee engagement at every level. We can never take for granted how important the people are who depend on us to do our jobs, and I am asking you not to let the situation in Flint negatively impact your motivation to excel every day.

Many of you have taken an interest in helping the citizens of Flint on your own time, and I'd like to take this opportunity to recognize and thank those who have volunteered over the last couple of weekends. You have worked tirelessly to deliver cases of bottled water, water filters, replacement cartridges and water testing kits to the families in need. I appreciate you donating your time to help our fellow Michiganders. To date, more than 37,000 homes have been visited by one of our water resource teams.

For employees who would like to further help the people of Flint, please visit www.HelpForFlint.com to learn how you can do so. For additional information and to sign up for daily updates, please visit www.mi.gov/FlintWater. I am committed to ensuring that all residents have access to safe and clean water.

Again, I'd like to express my gratitude for the work you do every day to continuously improve our state and earn the trust of those you serve. You make a real difference.

Thanks,

Governor Rick Snyder

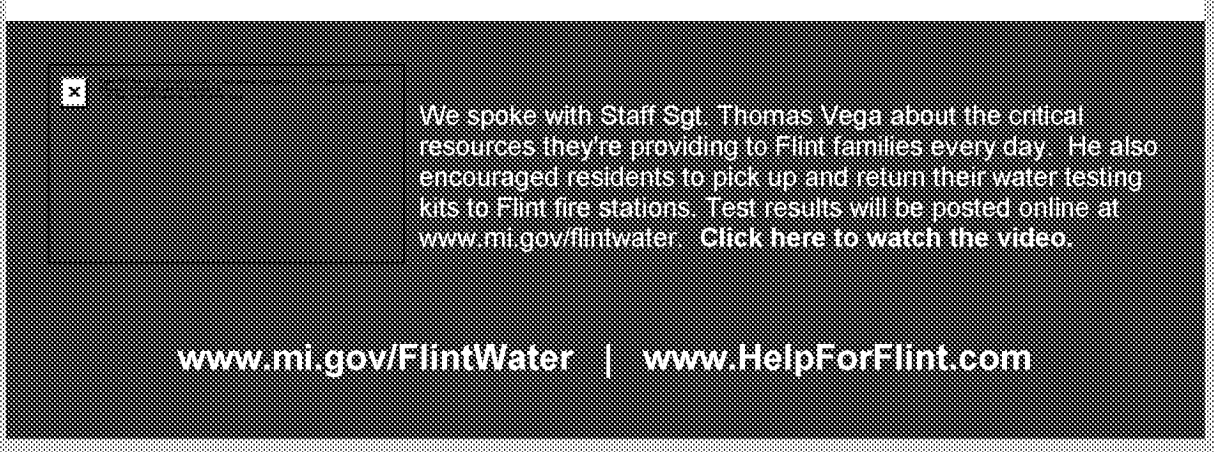
Subject: "Flint residents should not have to pay for water they cannot drink"

Budget recommendation will include $30 million request for Flint water bill repayments

When Governor Rick Snyder presents his budget recommendation next Wednesday, Feb. 10, he will include a $30 million request for the residents of Flint to keep their water service on and eliminate the need to pay for water they cannot completely trust to drink.



Under the governor's ask, the funding would enable the city of Flint to apply credits for customers on future bills. Estimates show water is roughly 47 percent of billing and sewer costs are around 53 percent. The credit would be applied to consumption usage (roughly

65 percent) of a resident's water portion of the bill, such as for bathing, drinking, cooking, and washing your hands. Residents still would be responsible for paying the sewer portion of their water bills.

Professor Marc Edwards of Virginia Tech said, "This essentially refunds all the money associated with consumption or consumer use. I think it's an amazing gesture of common sense and good will and it corrects an injustice. I don't think there's a precedent for this. I feel so encouraged by the direction this is going."

Click here to learn more about the budget request.

VIDEO: How volunteers are helping Flint

Volunteers at the Food Bank of Eastern Michigan are working hard to collect donations in order to help the families of Flint. Last Thursday, Governor Snyder visited with the many dedicated volunteers and helped sort cans of food.

Good nutrition is critically important for Flint's children. Foods that are high in calcium, vitamin C, and iron can help limit the effects of lead exposure. To donate or volunteer at the Food Bank of Eastern Michigan, visit www.fbem.org.

Click here to watch the video and learn more about how the Food Bank of Eastern Michigan is helping Flint's families.

Subject: The Gov. Snyder's Budget Proposal

Good morning everyone. I hope everyone had a great holiday weekend.

I had the good fortune to travel to Marquette on Monday with Chad Laidlaw, DTMB's policy and planning analyst, to meet with city, business and university leaders and to address the Economic Club of Marquette. I told them about the many things DTMB does, placing special emphasis on our work in mobility and cybersecurity. Marquette is really developing and making its mark as an innovative and entrepreneurial community.

Now work.

The executive budget Gov. Snyder presented last week outlined his investment plan for Michigan. Yes, the proposal for fiscal year 2017-18 outlined a strategy to address the critical challenges of addressing the Flint water crisis and turning around Detroit's Public Schools, but the $54.9 billion plan also includes investment in four key areas:

- **Education.** The budget increases investment to K-12 schools, community colleges and the state's public universities. Additional funds are proposed to expand career, technical, science, technology, engineering and math programs.
- **Protecting the Public.** The governor's plan expands the Secure Cities program, which has reduced violent crime in four major Michigan cities. Funds also would support an additional trooper recruit school and an academy to train corrections officers, among other initiatives.
- **Putting People First.** The governor recommends continued expansion of the Healthy Kids Dental Program and funding efforts to ensure residents have access to affordable health care. His proposal boosts funds to help cover new higher cost specialty medications to treat conditions such as hepatitis C and cystic fibrosis, among others.
- **Investing in Infrastructure.** The proposal allocates $1.2 billion to maintain and repair Michigan roads, bridges and other critical infrastructure.

The budget proposal also includes FY 2017-18 funding recommendations for DTMB. Gov. Snyder recommends ongoing funding of $1.3 billion for department operations and a one-time allocation of $32.4 million.

A few highlights include:

- $502 million for information technology support for all state agencies and $132.8 million for 14 high-priority IT projects in seven agencies. He recommends increasing the Information Technology Investment Fund by $7 million, from $65 million to $72 million. This fund supports several major multiyear IT projects and upgrades, including the replacement of outdated legacy systems.
- An additional $5 million to support cybersecurity improvements to safeguard citizens' personal information and protect critical infrastructure and government services.
- IT support of $6.5 million to modernize the Office of Retirement Services' systems and enhance customer service for more than 530,000 current and future retirees.

You can see the full executive budget recommendations, which are posted on the Budget Office website. Details of DTMB's proposed budget begin on page B-75.

We can expect to see many changes before the budgets are signed and become effective Oct. 1. The executive budget will be used by the House and Senate Appropriations Committees as they work on their own budgets and hold committee hearings on the proposals. I'll keep you posted as the process moves ahead.

As always, I welcome your notes, whether about the budget process or any other topic. Please send them to me at behend@michigan.gov.

Thank you again for all the good work you do. I hope you have a great week ahead.

David

Subject: NEWS UPDATE--Wyant Resigns In Wake Of Flint Water Crisis

Tuesday, December 29, 2015, 02:53 PM

Wyant Resigns In Wake Of Flint Water Crisis

Department of Environmental Quality Director Dan Wyant has resigned in response to the water crisis that erupted three months ago in Flint.

"MDEQ Director Dan Wyant has offered his resignation, and I've determined that it's appropriate to accept it. I'm also making other personnel changes at MDEQ to address problems cited by the task force," Governor Rick Snyder said in a statement.

"But changes in leadership and staff are not enough. I understand there can be disagreements within the scientific community. That is why I have directed both the departments of Environmental Quality and Health and Human Services to invite every external scientist who has worked on this issue to be our partners in helping us improve Flint water," Mr. Snyder said. "Let's share research on water and blood lead level testing so we can arrive at accurate and mutually supported conclusions. Together, we should work to affirm that we're using the very best testing protocols to ensure Flint residents have safe drinking water and that we're taking steps to protect their health over the short and long term."

The DEQ has come under major criticism for how it handled testing for lead in Flint drinking water after the city switched to the Flint River as its water source. The water was not properly treated for corrosion, causing lead to leach from service lines into the drinking water.

“I want the Flint community to know how very sorry I am that this has happened. And I want all Michigan citizens to know that we will learn from this experience, because Flint is not the only city that has an aging infrastructure,” Mr. Snyder said. “I know many Flint citizens are angry and want more than an apology. That’s why I’m taking the actions today to ensure a culture of openness and trust. We’ve already allocated $10 million to test the water, distribute water filters, and help in other ways. Last week, I called Flint Mayor Karen Weaver, and we’re going to meet soon to discuss other ways the state can offer assistance.”

Gongwer News Service will have more on this story in today’s Michigan Report.

Subject: Volunteer Opportunity in Flint

The State Emergency Operations Center (SEOC) is coordinating a response to the ongoing health and safety issues in the city of Flint's drinking water. Teams from the Michigan State Police, Genesee County Sheriff's Department, Michigan Department of Health and Human Services, and volunteer organizations have been delivering bottled water, water filters, replacement cartridges and water testing kits at homes in the city of Flint since Tuesday.

To help with this critical work, the SEOC is looking for volunteers to expand this effort and continue this distribution during the upcoming holiday weekend. Teams are being assembled for shifts on Saturday, January 16; Sunday, January 17; and Monday, January 18, 2016. If you are interested in volunteering your time for this critical work, please complete the information in one of the attached surveys (depending on which day you are volunteering).

To volunteer on Saturday, January 16, https://www.surveymonkey.com/r/28NVJBL

To volunteer on Sunday, January 17, https://www.surveymonkey.com/r/26NMJKK

To volunteer on Monday, January 18, https://www.surveymonkey.com/r/26P7P5G

Volunteers will begin their assignment at the Local Emergency Operations Center located in the Genesee County Administration Building located at 1101 Beach St, Flint at 9 a.m. and end by 4 p.m. Parking is available at the corner of Beach Street and 8th Street. Lunch will be provided. This is strictly a volunteer effort, as all three days will be unpaid. Volunteers are responsible for their own transportation; mileage reimbursement for personal vehicles is not authorized. Volunteers should dress for working outdoors and wear foot attire appropriate for walking.

This opportunity is for state employees and their immediate family members 16 years of age or older only, others looking to assist should volunteer through the American Red Cross in Flint. The volunteer coordination center for the Red Cross is located at 1401 S. Grand Traverse, Flint, MI. They are open from 9 a.m. to 7 p.m.

For more information on the state's response efforts, visit www.michigan.gov/flintwater.

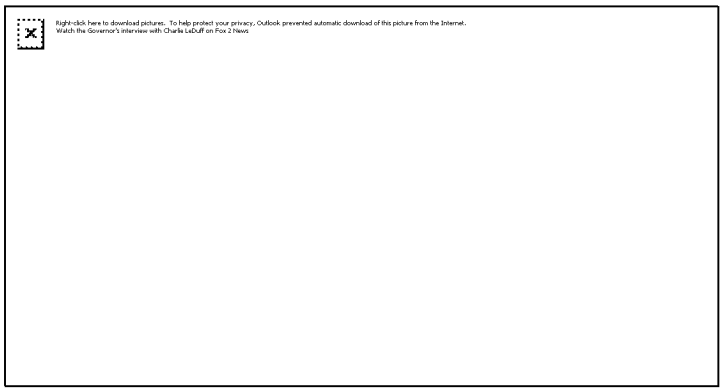
How we are fixing the Flint water crsis

Governor Rick Snyder has committed to spending the rest of his time as Governor to fixing the Flint water crisis. Over the last few days, he has sat down to explain what happened and how we're fixing the Flint water crisis. Watch the interviews below and be sure to read the Governor's Op-Ed in the USA Today.

Governor Snyder on Morning Joe

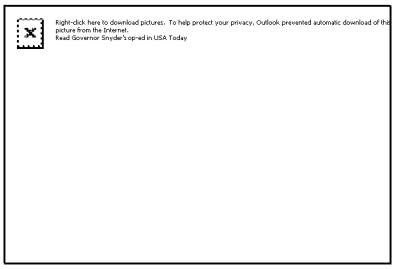


"What is so frustrating and what makes you so angry is you have a handful of experts who were career civil servants that made terrible decisions, in my view. We have to live with the consequences, and they worked for me, so I accept that responsibility. We are going to fix this problem." Watch Governor Snyder address how we are fixing the Flint water crisis on Morning Joe.

Governor Snyder with Charlie LeDuff on Fox 2 Detroit

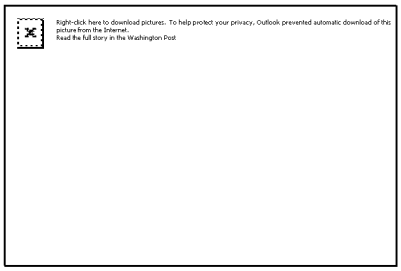
"I feel awful about this. These are people. They've been harmed. You can't feel good about that. The people of Flint have been harmed and a major influence of that harm

came from people who worked for me, and I feel responsible for that. But I am committed to solving the problem and addressing the damage as much as possible for the rest of the time I'm Governor." Watch Governor Snyder address the Flint water crisis with Charlie LeDuff on Fox 2 News.



Governor Snyder's 2016 State of the State

"Michiganders don't quit, we don't give up, instead we will work with even more passion and commitment to truly improve our state. For everyone who's chosen to make Michigan their home, this is more than a promise, this is my commitment." Watch Governor Snyder's full closing statement from his 2016 State of the State address.



Governor in USA Today: "I will fix this, and I mean it."

"Residents in one of Michigan's proud cities cannot drink their water. That's unacceptable. The crisis in Flint arose from missteps at all levels of government — local, state and federal. But as governor, I take responsibility for what these families are going through, and I'm holding people in my administration accountable for their failures." Click here to read the Governor's full op-ed.

Washington Post: "Michigan Gov. Rick Snyder is in a tough spot, but he's his own best spokesman"

Snyder has born the brunt of criticism in the local health crisis that has turned into a national scandal. But unlike many other politicians facing crises of leadership, Snyder may also be his own best counter-programming. Click here to read the full story in the Washington Post.

Subject: Flint Volunteer Efforts

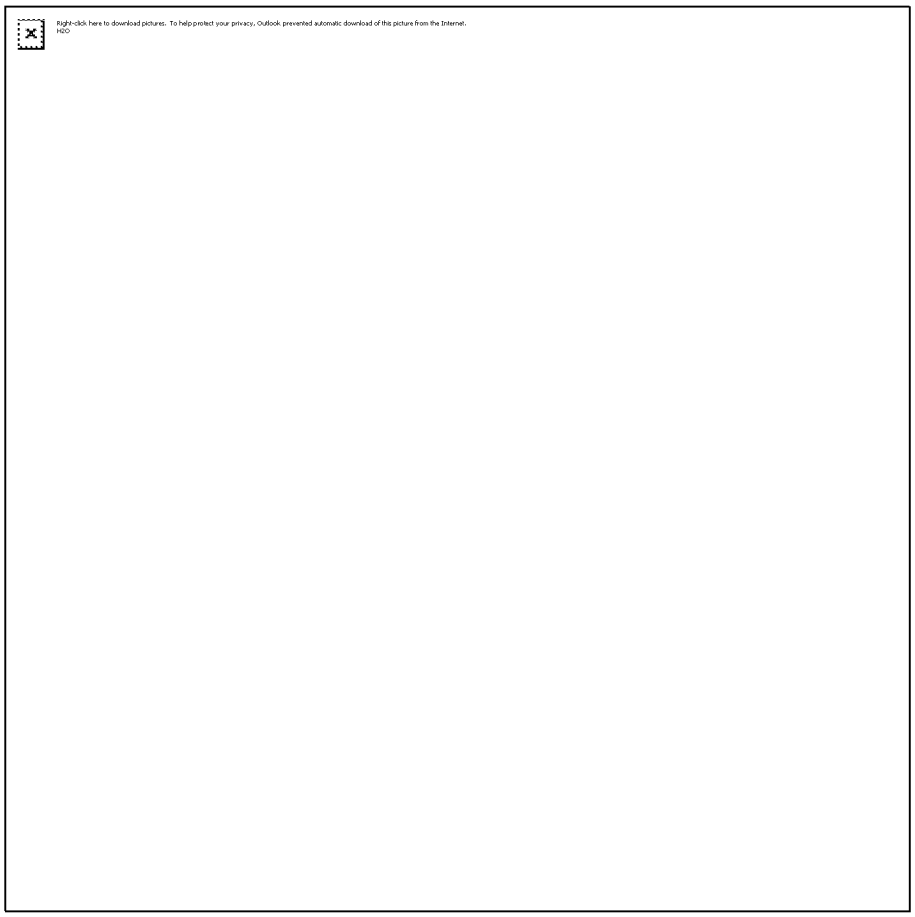
Dear State Employees,

Gov. Rick Snyder and I want to thank everyone who donated their time during the holiday weekend to deliver bottled water, water filters, replacement cartridges and water testing kits to families in the city of Flint. We are working hard to ensure all residents are provided with the safe water resources they need, and each donation and hour of your time volunteered goes a long way.

For employees who would like to help the residents of Flint, there are several opportunities to do so. Please visit www.helpforflint.com to learn how you can help.

For additional information and updates, visit www.michigan.gov/flintwater.

Again, thank you for all your support.



Sincerely, Mike Zimmer
Office of Good Government Director
Dept. of Licensing and Regulatory Affairs Director

Subject: Contributing time, muscle and money

During this month's Martin Luther King Jr. holiday weekend, some state employees turned their "day off" into a "day on" in Flint. There, they delivered bottled water, water filters, replacement cartridges and water testing kits to families. The volunteers joined other Michiganders, turning Dr. King's birthday observance into a day of service.

Mike Zimmer, director of the Office of Good Government and the Department of Licensing and Regulatory Affairs, has shared a link – www.helpforflint.com – that offers other opportunities to contribute time, muscle and money to bring clean drinking water to the community.Here in DTMB, some of our employees didn't wait for an invitation to lend a hand. Office of Retirement Services staff contributed funds that were used to buy 31 cases and 23 gallons of water, which a local organization transported to Flint.

Autumn Hubbard, Ambrea Mack and Sarah Esquivel, who are in the photo at the left, nearly emptied the shelves at their local grocery store. Thanks for your efforts.

everyone.

Now work.

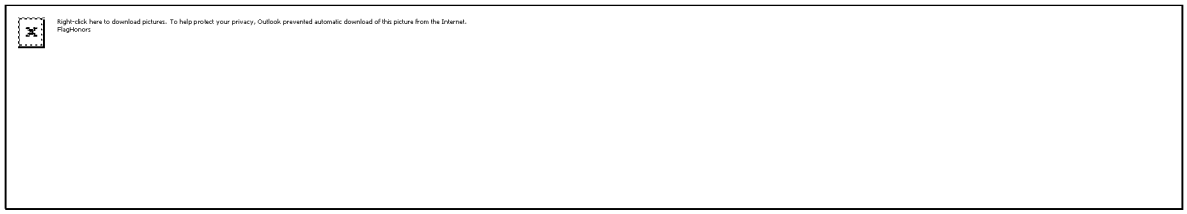
Last week, I signed a new policy that formalizes the annual employee review process and sets expectations for employees and managers. Administrative Policy 200.37 establishes consistent standards for implementing performance plans and reviews. Some of the standards are practices we have followed for years. Others are new. Some of particular note include:

- The mandatory use of HRMN
- A standard Feb. 1-Jan. 31 rating period for all employees
- An Individual Development Plan that specifies training or development programs for each employee
- Competencies and objectives that align to DTMB goals or scorecard metrics
- Consequences for managers and supervisors who do not complete the review process as required

A fundamental role of each DTMB manager or supervisor is to provide employees with direction and feedback on their performance. Employees also are expected to take an active role in pursuing professional development opportunities and achieving their competencies and objectives. I encourage you to review the new policy and talk with your manager or supervisor if you have questions. Of course, I welcome your questions and input as well. Please send your comments and ideas to me at behend@michigan.gov.

I know these have been busy weeks for many of you as you take on additional responsibilities and work hard to provide resources and services for our customers and citizens across the state. Please know that your hard work has not gone unnoticed. Thank you for everything you do, every day.

Have a great week,



David

Subject: Thank you for your service

THANK YOU!

Fellow employees,

Each day, more than 46,000 state of Michigan employees come to work with the confidence and commitment to make Michigan a better place to live, work and play. I appreciate the way you care about the citizens we serve, and how it is reflected in the work that you do.

As you have heard from me and the media, our reputation and trust can be severely impacted when people do not make good decisions, or use good judgment in solving problems. That principle is universal, but never more so than when public health is at stake. What happened in Flint can never be allowed to happen again anywhere in our state.

I know that you want to work in a place where employee input is valued, efforts are recognized, and teams are always striving for continuous improvement. That's why we introduced employee surveys, Bureaucracy Busters and other reinvention initiatives. We want and deserve a culture of innovation, continuous improvement and employee engagement at every level. We can never take for granted how important the people are who depend on us to do our jobs, and I am asking you not to let the situation in Flint negatively impact your motivation to excel every day.

Many of you have taken an interest in helping the citizens of Flint on your own time, and I'd like to take this opportunity to recognize and thank those who have volunteered over the last couple of weekends. You have worked tirelessly to deliver cases of bottled water, water filters, replacement cartridges and water testing kits to the families in need. I appreciate you donating your time to help our fellow Michiganders. To date, more than 37,000 homes have been visited by one of our water resource teams.

For employees who would like to further help the people of Flint, please visit www.HelpForFlint.com to learn how you can do so. For additional information and to sign up for daily updates, please visit www.mi.gov/FlintWater. I am committed to ensuring that all residents have access to safe and clean water.

Again, I'd like to express my gratitude for the work you do every day to continuously improve our state and earn the trust of those you serve. You make a real difference.

Thanks,

Governor Rick Snyder

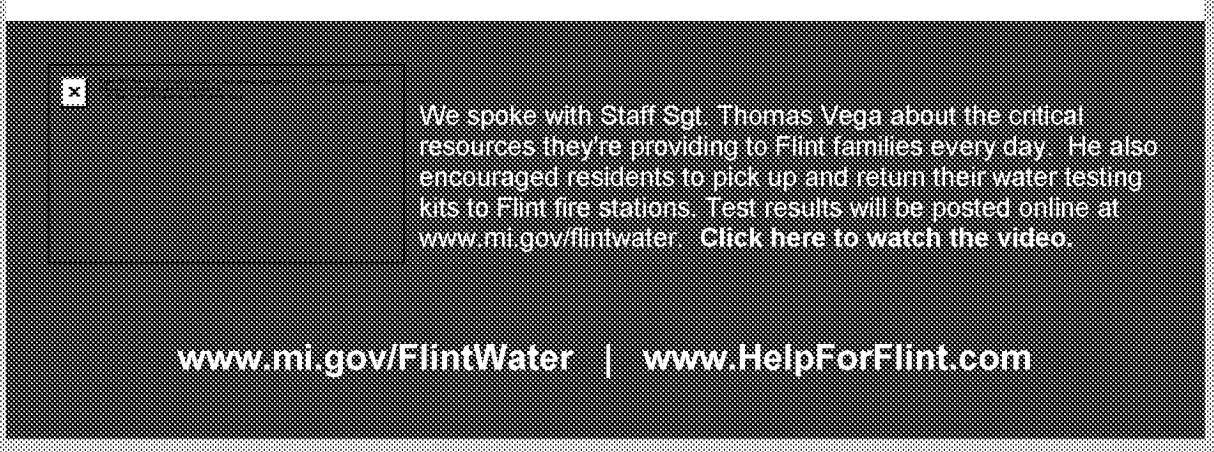
Subject: "Flint residents should not have to pay for water they cannot drink"

Budget recommendation will include $30 million request for Flint water bill repayments

When Governor Rick Snyder presents his budget recommendation next Wednesday, Feb. 10, he will include a $30 million request for the residents of Flint to keep their water service on and eliminate the need to pay for water they cannot completely trust to drink.



Under the governor's ask, the funding would enable the city of Flint to apply credits for customers on future bills. Estimates show water is roughly 47 percent of billing and sewer costs are around 53 percent. The credit would be applied to consumption usage (roughly

65 percent) of a resident's water portion of the bill, such as for bathing, drinking, cooking, and washing your hands. Residents still would be responsible for paying the sewer portion of their water bills.

Professor Marc Edwards of Virginia Tech said, "This essentially refunds all the money associated with consumption or consumer use. I think it's an amazing gesture of common sense and good will and it corrects an injustice. I don't think there's a precedent for this. I feel so encouraged by the direction this is going."

Click here to learn more about the budget request.

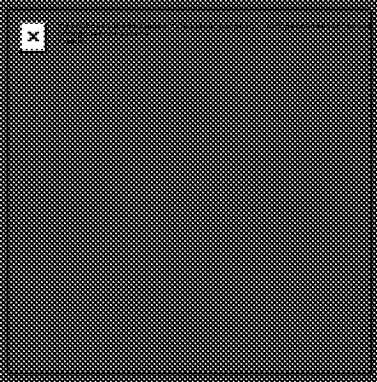
Subject: What this year's budget means for Michigan...

VIDEO: What Governor Snyder's FY17 budget means for Michigan

Gov. Rick Snyder's FY 2017 budget calls for critical investments for the Flint water crisis, statewide infrastructure and the Detroit Public Schools. The governor's recommendation also addresses the skyrocketing costs of specialty medications that Michigan residents depend on for better health outcomes.



This budget also stays committed to the Governor's core statewide priorities of education, talent and economic development, health and human services, and public safety.

The proposed FY 2017 budget makes key investments to strengthen the state for all of

Michigan's families. Click here to learn more about the top 6 takeaways from the Governor's FY 2017 state budget.

Click a tweet to tweet it out:

Subject: The Gov. Snyder's Budget Proposal

Good morning everyone. I hope everyone had a great holiday weekend.

I had the good fortune to travel to Marquette on Monday with Chad Laidlaw, DTMB's policy and planning analyst, to meet with city, business and university leaders and to address the Economic Club of Marquette. I told them about the many things DTMB does, placing special emphasis on our work in mobility and cybersecurity. Marquette is really developing and making its mark as an innovative and entrepreneurial community.

Now work.

The executive budget Gov. Snyder presented last week outlined his investment plan for Michigan. Yes, the proposal for fiscal year 2017-18 outlined a strategy to address the critical challenges of addressing the Flint water crisis and turning around Detroit's Public Schools, but the $54.9 billion plan also includes investment in four key areas:

- **Education.** The budget increases investment to K-12 schools, community colleges and the state's public universities. Additional funds are proposed to expand career, technical, science, technology, engineering and math programs.
- **Protecting the Public.** The governor's plan expands the Secure Cities program, which has reduced violent crime in four major Michigan cities. Funds also would support an additional trooper recruit school and an academy to train corrections officers, among other initiatives.
- **Putting People First.** The governor recommends continued expansion of the Healthy Kids Dental Program and funding efforts to ensure residents have access to affordable health care. His proposal boosts funds to help cover new higher cost specialty medications to treat conditions such as hepatitis C and cystic fibrosis, among others.
- **Investing in Infrastructure.** The proposal allocates $1.2 billion to maintain and repair Michigan roads, bridges and other critical infrastructure.

The budget proposal also includes FY 2017-18 funding recommendations for DTMB. Gov. Snyder recommends ongoing funding of $1.3 billion for department operations and a one-time allocation of $32.4 million.

A few highlights include:

- $502 million for information technology support for all state agencies and $132.8 million for 14 high-priority IT projects in seven agencies. He recommends increasing the Information Technology Investment Fund by $7 million, from $65 million to $72 million. This fund supports several major multiyear IT projects and upgrades, including the replacement of outdated legacy systems.
- An additional $5 million to support cybersecurity improvements to safeguard citizens' personal information and protect critical infrastructure and government services.
- IT support of $6.5 million to modernize the Office of Retirement Services' systems and enhance customer service for more than 530,000 current and future retirees.

You can see the full executive budget recommendations, which are posted on the Budget Office website. Details of DTMB's proposed budget begin on page B-75.

We can expect to see many changes before the budgets are signed and become effective Oct. 1. The executive budget will be used by the House and Senate Appropriations Committees as they work on their own budgets and hold committee hearings on the proposals. I'll keep you posted as the process moves ahead.

As always, I welcome your notes, whether about the budget process or any other topic. Please send them to me at behend@michigan.gov.

Thank you again for all the good work you do. I hope you have a great week ahead.

David

Subject: Bottled Water
Attachments: Board_Resolution.rtf; DMB-292.pdf

Sean,

The state of South Carolina has 93 pallets of bottled water available as well as 32 pallets of canned water. The manager from South Carolina recommended the canned water not be used for drinking but for uses in the home (bathing, toilet, cleaning, etc.). I checked with my director and the State of Michigan does not have semi drivers that can drive outside of the State of Michigan. We will have to figure out the logistic to get the pallets shipped to Flint. My director agreed that we should waive the state's service fees for this donation so the only cost would be for the shipping. I am attaching our application and board resolution that will need to be completed and retuned via fax or email. Please let me know if you have any questions.

Tuesday, December 29, 2015, 02:53 PM

Wyant Resigns In Wake Of Flint Water Crisis

Department of Environmental Quality Director Dan Wyant has resigned in response to the water crisis that erupted three months ago in Flint.

"MDEQ Director Dan Wyant has offered his resignation, and I've determined that it's appropriate to accept it. I'm also making other personnel changes at MDEQ to address problems cited by the task force," Governor Rick Snyder said in a statement.

"But changes in leadership and staff are not enough. I understand there can be disagreements within the scientific community. That is why I have directed both the departments of Environmental Quality and Health and Human Services to invite every external scientist who has worked on this issue to be our partners in helping us improve Flint water," Mr. Snyder said. "Let's share research on water and

blood lead level testing so we can arrive at accurate and mutually supported conclusions. Together, we should work to affirm that we're using the very best testing protocols to ensure Flint residents have safe drinking water and that we're taking steps to protect their health over the short and long term."

The DEQ has come under major criticism for how it handled testing for lead in Flint drinking water after the city switched to the Flint River as its water source. The water was not properly treated for corrosion, causing lead to leach from service lines into the drinking water.

"I want the Flint community to know how very sorry I am that this has happened. And I want all Michigan citizens to know that we will learn from this experience, because Flint is not the only city that has an aging infrastructure," Mr. Snyder said. "I know many Flint citizens are angry and want more than an apology. That's why I'm taking the actions today to ensure a culture of openness and trust. We've already allocated $10 million to test the water, distribute water filters, and help in other ways. Last week, I called Flint Mayor Karen Weaver, and we're going to meet soon to discuss other ways the state can offer assistance."

Sheryl,

I have received quotes from Ryder Logistics ($1600 per truck load) and FedEx Freight ($1674 per truck load), but am still waiting for a quote from UPS. We have a state wide contract with UPS for freight and we should receive a 82% discount on shipping. We will need to ship the water in five truck loads. I will let you know what their quote looks like when I receive it. I have already spoken to the food bank to set up delivery dates. Would you like the shipping invoice to be sent to you attention?

Subject: Food Bank info

Hi Carolyn here is the contact information for the water delivery. I'm copying both Tina Martinez, and Bill Kerr in this email so that we are all aware of what's going on regarding the delivery of the water bottles only.

I do not want the cans of water delivered.

Happy holidays.

Hi Carrie,

I have copied MI SASP on this email, if they are interested in requesting the latrine systems and DLA Battle Creek approve expedited screening of the items, GSA will definitely approve the transfer orders.

Respectfully,
Sheia

Ladies,
I am not sure why my pictures are all turned upside down, but I will have to break them down as they are too big to send all at one time. The Latrines have 3 toilets, and one urinal. They are equipped / supplied with water heater, as well as a connex heater. They have several outlets for electricity connection, and hoses. There are a few of them that are located on top of each other, and I am unable to know if they are in usable condition. They were part of Fleet Hospital, and they have been told to remove them. Some of them are unusable, but some are new. Virginia says that if you are able to use them, and want some, you are able to have first pick.

Sean,

The US General Services Administration has Latrine Shower Units available for donation. The Latrines have 3 toilets, and one urinal. They are equipped / supplied with water heater, as well as a connex heater. They have several outlets for electricity connection, and hoses. They were part of Fleet Hospital, and they have been told to remove them. Some of them are unusable, but some are new. If you are interested GSA is willing to let the State of Michigan have first pick. I would have to check with Sheryl Thompson with DHHS about transportation costs on the units before we ship them. There is more info on the units below and photos attached.

I am not sure why my pictures are all turned upside down, but I will have to break them down as they are too big to send all at one time. The Latrines have 3 toilets, and one urinal. They are equipped / supplied with water heater, as well as a connex heater. They have several outlets for electricity connection, and hoses. There are a few of them that are located on top of each other, and I am unable to know if they are in usable condition. They were part of Fleet Hospital, and they have been told to remove them. Some of them are unusable, but some are new. Virginia says that if you are able to use them, and want some, you are able to have first pick.

Hi Carrie,

I have copied MI SASP on this email, if they are interested in requesting the latrine systems and DLA Battle Creek approve expedited screening of the items, GSA will definitely approve the transfer orders.

Respectfully,

Sheia

Shelia and Carol,
I hope this finds you both doing well today. I'll be short and to the point. We are receiving a bunch of latrine systems left and right down here. They are the laundry and shower type. My feeling is that they need to be sent to Flint for the people there to have access to clean water and clean restrooms. I don't have any knowledge as to how this works, but I see them coming in one after another, and I would rather send them to Flint than to be allocated to sales at this time. Please think it over, and decide from there. Thanks,

Governor Asks To Testify Before Congress On Flint Water

Governor Rick Snyder today requested to testify before the U. S. House Oversight and Government Reform Committee on the Flint water crisis.

Up to now Democrats have been calling for Mr. Snyder to appear before Congress, but so far the committee has not called him.

Mr. Snyder said he has asked the committee chair, U.S. Rep. Jason Chaffetz (R-Utah), if he could testify before the committee, which has met once on the issue.

“The people of Flint have suffered because they were failed by all levels of government, and so it is understandable that there are questions at all levels of government,” Mr. Snyder said in a statement. “In Michigan we are learning a great deal from this crisis and I am hopeful the federal government also will use this as an opportunity to examine health and safety protections in place, assess infrastructure needs, and avoid this type of crisis in the future.”

A spokesperson for the committee could not immediately be reached.

The committee already was planning a second hearing for later this month to hear from former Flint Emergency Manager Darnell Earley, who did not attend the first hearing despite the committee asking that he appear.

Gongwer News Service will have more on this story in Friday's Michigan Report.

Subject: Conversation with Yope, Eric (DTMB)

Yope, Eric (DTMB) 2:21 PM:

any thoughts as to why 3.1 (q) in the NET lease is different than the same paragraph in the Gross lease template?

Darby, Marchan (DTMB) 2:21 PM:

I don't know--I will look at them....what does the paragraph deal with?

Yope, Eric (DTMB) 2:23 PM:

parking lot and specifically the frequency for repainting it

Darby, Marchan (DTMB) 2:26 PM:

yep....because the lease review we conducted as a team was for the gross lease template.....we were supposed to review the net lease as a team at the next meeting, which would have been when I would make the changes to the NET template....I only change what I'm asked to change at the time....I was told to leave the net template until we meet again

Yope, Eric (DTMB) 2:31 PM:

okay

i will use the Gross to double check myself on the Addendum that i am drafting

thanks for the update

Darby, Marchan (DTMB) 2:33 PM:

Cool--we can ask Will about updating the other template... however, the FLINT water crisis has been more pressing for them I think....we will probably get back on track soon

Yope, Eric (DTMB) 2:34 PM:

agreed

Darby, Marchan (DTMB) 2:34 PM:

My thought on it was that it wasn't critical (to the point where the net template is incorrect, as we've used this language for years). If I do as i'm asked, I won't mess up:)

I hope!

Yope, Eric (DTMB) 2:37 PM:

;);) good thinking

and you are doing really good. congrats

Darby, Marchan (DTMB) 2:38 PM:

Thank you! I think we're actually getting things accomplished as a group, which is a great thing!!!

Yope, Eric (DTMB) 2:38 PM:

oh definitely. The Leasing Team meeting is a very worthwhile gathering.

in March we should look to have another breakfast one though.

maybe to celebrate someone's birth(^)day

Darby, Marchan (DTMB) 2:40 PM:

I think Jen and B have already dropped that bug in Will's ear... we just need to figure out which meeting and go for it

hmmmm....I wonder who?

Yope, Eric (DTMB) 2:41 PM:

(chuckle)(rofl):O;)

Darby, Marchan (DTMB) 2:46 PM:

I take it that means YOU

Yope, Eric (DTMB) 2:49 PM:

A man does not tell his age.

Darby, Marchan (DTMB) 2:51 PM:

53? Aren't you and Carmen about the same age? I think she turned 53 this year, if memory serves me correctly.

I guess i could search my drive for her birthday cake pictures and see how long ago that was

Yope, Eric (DTMB) 2:52 PM:

if so, then we are both turning 54 this year.

dang i am old

Darby, Marchan (DTMB) 2:53 PM:

OK--wasn't sure if it was 53 or 54....the only birthdays that suck are the ones you don't live to tell about

Yope, Eric (DTMB) 2:53 PM:

<O)<O)<O)<O)

Darby, Marchan (DTMB) 2:54 PM:

EXACTLY!

Subject: Volunteer Opportunity in Flint

The State Emergency Operations Center (SEOC) is coordinating a response to the ongoing health and safety issues in the city of Flint's drinking water. Teams from the Michigan State Police, Genesee County Sheriff's Department, Michigan Department of Health and Human Services, and volunteer organizations have been delivering bottled water, water filters, replacement cartridges and water testing kits at homes in the city of Flint since Tuesday.

To help with this critical work, the SEOC is looking for volunteers to expand this effort and continue this distribution during the upcoming holiday weekend. Teams are being assembled for shifts on Saturday, January 16; Sunday, January 17; and Monday, January 18, 2016. If you are interested in volunteering your time for this critical work, please complete the information in one of the attached surveys (depending on which day you are volunteering).

To volunteer on Saturday, January 16, https://www.surveymonkey.com/r/28NVJBL

To volunteer on Sunday, January 17, https://www.surveymonkey.com/r/26NMJKK

To volunteer on Monday, January 18, https://www.surveymonkey.com/r/26P7P5G

Volunteers will begin their assignment at the Local Emergency Operations Center located in the Genesee County Administration Building located at 1101 Beach St, Flint at 9 a.m. and end by 4 p.m. Parking is available at the corner of Beach Street and 8th Street. Lunch will be provided. This is strictly a volunteer effort, as all three days will be unpaid. Volunteers are responsible for their own transportation; mileage reimbursement for personal vehicles is not authorized. Volunteers should dress for working outdoors and wear foot attire appropriate for walking.

This opportunity is for state employees and their immediate family members 16 years of age or older only, others looking to assist should volunteer through the American Red Cross in Flint. The volunteer coordination center for the Red Cross is located at 1401 S. Grand Traverse, Flint, MI. They are open from 9 a.m. to 7 p.m.

For more information on the state's response efforts, visit www.michigan.gov/flintwater.

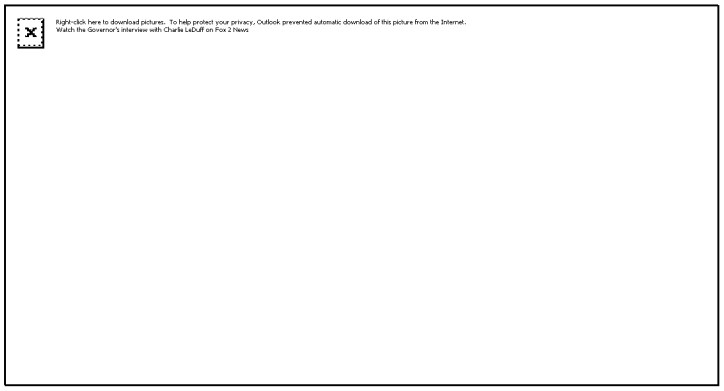
How we are fixing the Flint water crsis

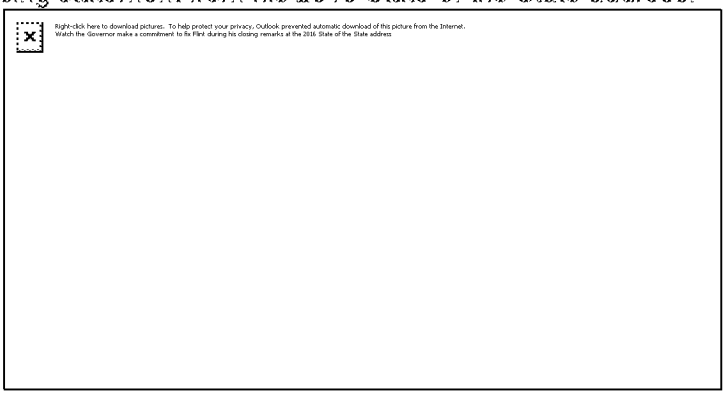
Governor Rick Snyder has committed to spending the rest of his time as Governor to fixing the Flint water crisis. Over the last few days, he has sat down to explain what happened and how we're fixing the Flint water crisis. Watch the interviews below and be sure to read the Governor's Op-Ed in the USA Today.

Governor Snyder on Morning Joe



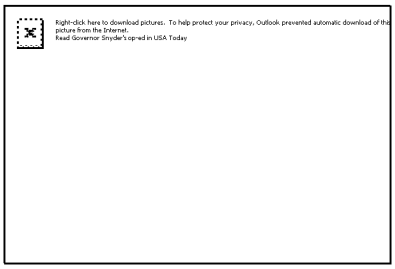
"What is so frustrating and what makes you so angry is you have a handful of experts who were career civil servants that made terrible decisions, in my view. We have to live with the consequences, and they worked for me, so I accept that responsibility. We are going to fix this problem." Watch Governor Snyder address how we are fixing the Flint water crisis on Morning Joe.

Governor Snyder with Charlie LeDuff on Fox 2 Detroit



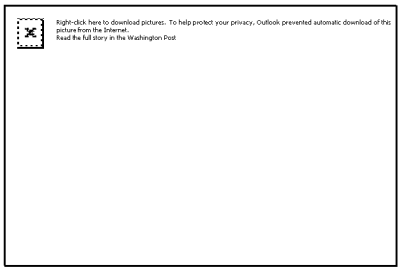
"I feel awful about this. These are people. They've been harmed. You can't feel good about that. The people of Flint have been harmed and a major influence of that harm came from people who worked for me, and I feel responsible for that. But I am committed

to solving the problem and addressing the damage as much as possible for the rest of the time I'm Governor." Watch Governor Snyder address the Flint water crisis with Charlie LeDuff on Fox 2 News.



Governor Snyder's 2016 State of the State

"Michiganders don't quit, we don't give up, instead we will work with even more passion and commitment to truly improve our state. For everyone who's chosen to make Michigan their home, this is more than a promise, this is my commitment." Watch Governor Snyder's full closing statement from his 2016 State of the State address.



Governor in USA Today: "I will fix this, and I mean it."

"Residents in one of Michigan's proud cities cannot drink their water. That's unacceptable. The crisis in Flint arose from missteps at all levels of government — local, state and federal. But as governor, I take responsibility for what these families are going through, and I'm holding people in my administration accountable for their failures." Click here to read the Governor's full op-ed.

Washington Post: "Michigan Gov. Rick Snyder is in a tough spot, but he's his own best spokesman"

Snyder has born the brunt of criticism in the local health crisis that has turned into a national scandal. But unlike many other politicians facing crises of leadership, Snyder may also be his own best counter-programming. Click here to read the full story in the Washington Post.

Subject: Contributing time, muscle and money

During this month's Martin Luther King Jr. holiday weekend, some state employees turned their "day off" into a "day on" in Flint. There, they delivered bottled water, water filters, replacement cartridges and water testing kits to families. The volunteers joined other Michiganders, turning Dr. King's birthday observance into a day of service.

Mike Zimmer, director of the Office of Good Government and the Department of Licensing and Regulatory Affairs, has shared a link – www.helpforflint.com – that offers other opportunities to contribute time, muscle and money to bring clean drinking water to the community.Here in DTMB, some of our employees didn't wait for an invitation to lend a hand. Office of Retirement Services staff contributed funds that were used to buy 31 cases and 23 gallons of water, which a local organization transported to Flint.

Autumn Hubbard, Ambrea Mack and Sarah Esquivel, who are in the photo at the left, nearly emptied the shelves at their local grocery store. Thanks for your efforts.

everyone.

Now work.

Last week, I signed a new policy that formalizes the annual employee review process and sets expectations for employees and managers. Administrative Policy 200.37 establishes consistent standards for implementing performance plans and reviews. Some of the standards are practices we have followed for years. Others are new. Some of particular note include:

- The mandatory use of HRMN
- A standard Feb. 1-Jan. 31 rating period for all employees
- An Individual Development Plan that specifies training or development programs for each employee
- Competencies and objectives that align to DTMB goals or scorecard metrics
- Consequences for managers and supervisors who do not complete the review process as required

A fundamental role of each DTMB manager or supervisor is to provide employees with direction and feedback on their performance. Employees also are expected to take an active role in pursuing professional development opportunities and achieving their competencies and objectives. I encourage you to review the new policy and talk with your manager or supervisor if you have questions. Of course, I welcome your questions and input as well. Please send your comments and ideas to me at behend@michigan.gov.

I know these have been busy weeks for many of you as you take on additional responsibilities and work hard to provide resources and services for our customers and citizens across the state. Please know that your hard work has not gone unnoticed. Thank you for everything you do, every day.

Have a great week,

David

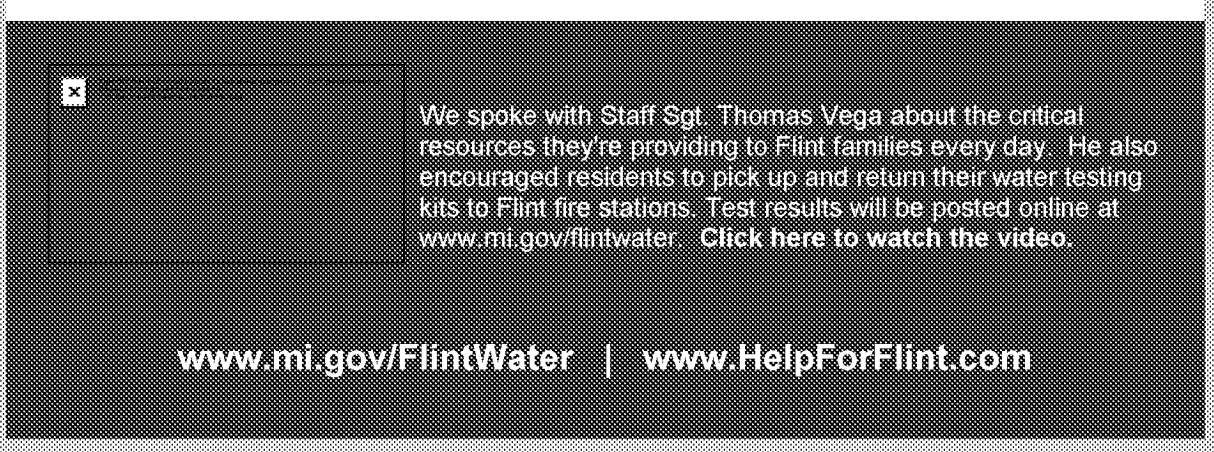
Subject: "Flint residents should not have to pay for water they cannot drink"

Budget recommendation will include $30 million request for Flint water bill repayments

When Governor Rick Snyder presents his budget recommendation next Wednesday, Feb. 10, he will include a $30 million request for the residents of Flint to keep their water service on and eliminate the need to pay for water they cannot completely trust to drink.



Under the governor's ask, the funding would enable the city of Flint to apply credits for customers on future bills. Estimates show water is roughly 47 percent of billing and sewer costs are around 53 percent. The credit would be applied to consumption usage (roughly

65 percent) of a resident's water portion of the bill, such as for bathing, drinking, cooking, and washing your hands. Residents still would be responsible for paying the sewer portion of their water bills.

Professor Marc Edwards of Virginia Tech said, "This essentially refunds all the money associated with consumption or consumer use. I think it's an amazing gesture of common sense and good will and it corrects an injustice. I don't think there's a precedent for this. I feel so encouraged by the direction this is going."

Click here to learn more about the budget request.

Subject: What this year's budget means for Michigan...

VIDEO: What Governor Snyder's FY17 budget means for Michigan

Gov. Rick Snyder's FY 2017 budget calls for critical investments for the Flint water crisis, statewide infrastructure and the Detroit Public Schools. The governor's recommendation also addresses the skyrocketing costs of specialty medications that Michigan residents depend on for better health outcomes.

This budget also stays committed to the Governor's core statewide priorities of education, talent and economic development, health and human services, and public safety.

The proposed FY 2017 budget makes key investments to strengthen the state for all of

Michigan's families. Click here to learn more about the top 6 takeaways from the Governor's FY 2017 state budget.

Click a tweet to tweet it out:

The #MIBudget @OneToughNerd proposed yesterday makes key investments to strengthen Michigan for all families --> www.mi.gov/MIBudget

--> @OneToughNerd's #MIBudget includes $72 million a year for Detroit Public Schools. It is time to act now -- > www.mi.gov/MIBudget

--> @onetoughnerd's significant investment in #Flint families is the right thing to do. #FlintFWD #MIBudget www.mi.gov/MIBudget

VIDEO: How volunteers are helping Flint

Right-click here to download pictures. To help protect your privacy, Outlook prevented automatic download of this picture from the Internet.
Click here to watch the video

Volunteers at the Food Bank of Eastern Michigan are working hard to collect donations in order to help the families of Flint. Last Thursday, Governor Snyder visited with the many dedicated volunteers and helped sort cans of food.

Good nutrition is critically important for Flint's children. Foods that are high in calcium, vitamin C, and iron can help limit the effects of lead exposure. To donate or volunteer at the Food Bank of Eastern Michigan, visit www.fbem.org.

Sent: Wednesday, February 17, 2016 10:10 AM
To: Darby, Marchan (DTMB)
Subject: The Gov. Snyder's Budget Proposal

Good morning everyone. I hope everyone had a great holiday weekend.

I had the good fortune to travel to Marquette on Monday with Chad Laidlaw, DTMB's policy and planning analyst, to meet with city, business and university leaders and to address the Economic Club of Marquette. I told them about the many things DTMB does, placing special emphasis on our work in mobility and cybersecurity. Marquette is really developing and making its mark as an innovative and entrepreneurial community.

Now work.

The executive budget Gov. Snyder presented last week outlined his investment plan for Michigan. Yes, the proposal for fiscal year 2017-18 outlined a strategy to address the critical challenges of addressing the Flint water crisis and turning around Detroit's Public Schools, but the $54.9 billion plan also includes investment in four key areas:

- **Education.** The budget increases investment to K-12 schools, community colleges and the state's public universities. Additional funds are proposed to expand career, technical, science, technology, engineering and math programs.
- **Protecting the Public.** The governor's plan expands the Secure Cities program, which has reduced violent crime in four major Michigan cities. Funds also would support an additional trooper recruit school and an academy to train corrections officers, among other initiatives.
- **Putting People First.** The governor recommends continued expansion of the Healthy Kids Dental Program and funding efforts to ensure residents have access to affordable health care. His proposal boosts funds to help cover new higher cost specialty medications to treat conditions such as hepatitis C and cystic fibrosis, among others.
- **Investing in Infrastructure.** The proposal allocates $1.2 billion to maintain and repair Michigan roads, bridges and other critical infrastructure.

The budget proposal also includes FY 2017-18 funding recommendations for DTMB. Gov. Snyder recommends ongoing funding of $1.3 billion for department operations and a one-time allocation of $32.4 million.

A few highlights include:

- $502 million for information technology support for all state agencies and $132.8 million for 14 high-priority IT projects in seven agencies. He recommends increasing the Information Technology Investment Fund by $7 million, from $65 million to $72 million. This fund supports several major multiyear IT projects and upgrades, including the replacement of outdated legacy systems.
- An additional $5 million to support cybersecurity improvements to safeguard citizens' personal information and protect critical infrastructure and government services.
- IT support of $6.5 million to modernize the Office of Retirement Services' systems and enhance customer service for more than 530,000 current and future retirees.

You can see the full executive budget recommendations, which are posted on the Budget Office website. Details of DTMB's proposed budget begin on page B-75.

We can expect to see many changes before the budgets are signed and become effective Oct. 1. The executive budget will be used by the House and Senate Appropriations Committees as they work on their own budgets and hold committee hearings on the proposals. I'll keep you posted as the process moves ahead.

As always, I welcome your notes, whether about the budget process or any other topic. Please send them to me at behend@michigan.gov.

Thank you again for all the good work you do. I hope you have a great week ahead.

David

Subject: RE: Attendance 1/21/2016

Today's story: Flint's only microbrewery, Tenacity Brewery, reports that it's water is lead-free and they have independent testing documentation to prove it. The brewery has always tested and treated the water it uses in-house and its filtration system effectively removes lead among other impurities. Nonetheless, customer foot traffic at this once thriving business is being crushed by the ongoing city-wide lead poisoning crisis. True to its name, however, Tenacity still finds ways to win new business and support its community at the same time. For starters they donate filtered water to the relief effort. They also have a rotating tap from which $1 per beer will go directly to the Community Foundation of Greater Flint's "Flint Child and Health Development Fund". Nice! The next time I'm in downtown Flint (soon!) I will definitely stop by the Tenacity Brewery Co. at 119 N Grand Traverse St and have a pint for Flint. Please consider doing the same! I hear they serve up a great Irish Red and an equally great Honey Blonde. Wouldn't take much to talk me into going right now….

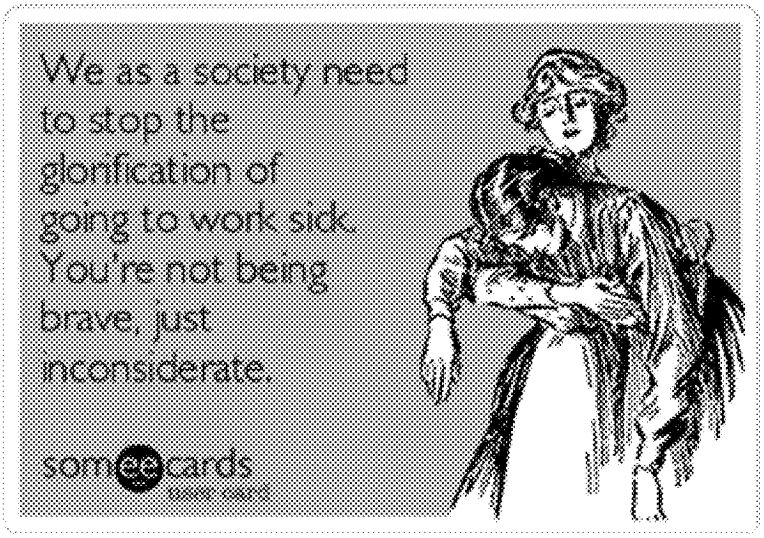
FUN WORD OF THE DAY!!!!

Presenteeism



\prez-uh n-TEE-iz-uh m\

noun

1. the practice of coming to work despite illness, injury, anxiety, etc., often resulting in reduced productivity.
2. the practice of working long hours at a job without the real need to do so.

Origin

Presenteeism was formed on the basis of the word *absenteeism*, which means "frequent or habitual absence from work, school, etc." It entered English in the 1930s.

RED Staff Meeting Notes
Wednesday February 3, 2016 – 9:30 – 10:30 a.m.
GOB – 3rd Floor

Attended: Mike Turnquist, Kerri Droste, Bob Burns, Will Doxie, Robert Swaynie, Leasa Sanchez, Kayla Knieper, Maureen Bailey, Jen Lascari, Eric Yope, Troy Bos, Tracy Clark, Bernice Sullivan, Tony Sump, David Arking, Curt Myers, Erika Shrauger, Dave McGrath & Troy Spitzley

Facilitator: Bob Burns

Recorder: Leasa Sanchez

1. Director's Update

Jim Clark's Retirement

Jim has announced that he will be retiring in March. We will be posting his position as soon as possible and anyone who is interested is welcome to apply.

Operational Excellence

Op Ex meetings continue with the focus of centralizing core functions into one DTMB. Some of the items created and implemented in response to these meetings are: Service Level Agreements, reporting metrics and Standard Operating Agreements. Weekly meetings are scheduled to continue through March.

Roundtable

The annual Roundtable presentation will take place on Tuesday, February 9th in the Ottawa/Hannah Building, Upper Level, Conference Room 3. Topics that are being presented this year include: Customer Satisfaction Survey, Building Web Pages, Capital Area Reconfiguration (CAR), Energy Start Building Awards & Statewide Benchmarking and NASFA (National Association of State Facilities Administrators) Membership.

AG's Office

As an FYI - Iris Lopez from the AG's office is scheduled for knee replacement surgery on February 15th and will be out of the office for several weeks. Staff is reminded to keep in mind this may cause a delay in projects requiring AG approval.

Kudos

Special thanks to Marchan for taking on a special project concerning promulgated rules within the DMB Act and how it relates to our leasing processes. Special thanks to the carpenter crew for taking on an emergency pickup and delivery of a special Law Enforcement Memorial

between Farmington Hills and Grand Rapids. Special thanks to Will, Maureen and Jamie for their efforts to help out with the current water crisis in Flint.

2. Design Section Manager Update

Current Projects

The design section staff currently has 50 active projects in addition to creating Standard Operating Procedures, Service Level Agreements and agency designs. They are also working on a handful of relocation projects (mostly agency services) along with additional projects such as lobby renovations, kitchenettes, carpet and flooring projects, etc. In addition, the design team is in the process of finalizing Autocad standards.

Capitol Area Reconfiguration (CAR)

MSP moves are continuing with SCOC moving into the GOB over this past weekend. Final MSP moves from HQ will take place on the weekend(s) of March 11th (on 2A & 2B), April 8th and April 15th.

CAR DHHS

The CAR project for DHHS will begin on the weekend of March 4th with two small groups moving into the Cass and Grand Tower buildings. The remaining staff in Capitol View are scheduled to move the weekend(s) of May 20th, June 3rd and June 10th, which is a little over two months sooner than originally projected.

FBSA Move to LTA

FBSA's move to building 100 hasn't been finalized yet, however, demolition and construction are now ongoing. We are anticipating the move to take place sometime in late April or early May. A revised block plan is currently being vetted with managers to help with efficiencies amongst the groups. Jamie will be conducting final touchpoint meetings regarding staff satisfaction of their workstations.

3. Leasing Manager Update

Current Projects

The leasing and land teams currently have 190 projects in process with the majority being renewals, rental agreements or conveyances. Our four biggest agencies that include 60 to 70% of our leasing projects are: DHHS, DTMB, MSP and DOS.

4. Building Trades Supervisor Updates

New Projects

Construction projects at Con Hall (DIT), MLHC (CEPI), OPS (Treasury 11 door frame retro's), Cass (modular for DHHS), MDOT (conference room demo construction) and 100 Building millwork.

Project Completion Status Report

The carpenter crew has completed modular projects at Austin, Hannah, MLHC, GOB, MSP Annex, Con Hall and Cass building(s). Construction projects included finishing(s) at Con Hall

HR, Cass DHHS Garden Level, and Romney 6th floor conference room; OPS DTMB door frame retro and Forensics door frame retro.

The carpenter crew has completed an additional 58 reasonable accommodation and/or construction/maintenance work orders.

5. Departmental Analyst Updates

Important Calendar Items

- Next Administrative Board is scheduled for 2/9/16 and will include the following:
  - Addendum No. 1 to Lease No. 11306 DHHS – Iron Mountain – Tony Sump
  - CCO No. 2 for Lease No. 6948 – DHHS – Muskegon Heights – Jen Lascari
  - CCO No. 1 for Lease No. 11822 – MSP – Corunna – Maureen Bailey
  -
- Irene Henry Retirement Gathering – Thursday, February 11th – 4:00 p.m. – 6:00 p.m. at Fireside.
- Presidents Day – Office Closed – Monday, February 15th.

6. Roundtable

Kerri

- Staff will be notified from their manager of the new Performance Management review date which will no longer be September 1st.

David A.

- Provided updates on his current projects including: easement for water main in Coldwater, revised federal RFP response for Lease in Flint and GSA conference call this coming Friday.

Troy S.

- Hollister – swing space for all of the CAR project. The rent will be going up to $14.00 per sq ft. Need to look at new locations for swing space.

Dave M.

- FYI – IT Depot move from leased building located off Pennsylvania Street in Lansing to GSB on March 11th.

Eric

- Kudos to Troy Bos for his emergency efforts to complete an Executive Cancellation project.

NEXT STAFF MEETING: Wednesday, February 17, 2016

Michigan Department of Technology, Management & Budget

RED Staff Meeting Notes
Wednesday January 20, 2016 – 9:30 – 10:30 a.m.
GOB – 2nd Floor

Attended: Bob Burns, Jim Clark, Will Doxie, Keith Hawes, Robert Swaynie, Leasa Sanchez, Kayla Knieper, Maureen Bailey, Jen Lascari, Eric Yope, Troy Bos, Tracy Clark, Bernice Sullivan, Tony Sump, David Arking, Curt Myers, Erika Shrauger, Dave McGrath & Troy Spitzley

Facilitator: Bob Burns

Recorder: Leasa Sanchez

1. Director's Update

Roundtable

The annual Roundtable presentation will take place on Tuesday, February 9th in the Ottawa Building. Staff are invited to attend and encouraged to submit any topics for discussion to Bob.

Kudos

Special thanks to Maureen and Will for their efforts to find emergency warehouse space to house water in Flint. Special thanks to Curt for his efforts to accommodate CEPI.

2. Design Section Manager Update

Current Projects

The design section staff currently has 40 active projects in addition to creating Standard Operating Procedures, Service Level Agreements and agency designs. The design team has also been asked to work with the Detroit Public Schools to assist in restacking their leased space within the Fisher Building.

Capitol Area Reconfiguration (CAR)

Final MSP moves from HQ will take place on the weekend(s) of March 11th, April 8th and April 15th.

First Move Survey Results

The "first move" survey (consisting of 67 staff out of 124) produced a 54% response rate with the results as follows:

1. Average rating was 4.52 out of 5.
2. Highest rating = 4.75 out of 5 – *"Received all belongings and crates"*

3. Lowest rating = 3.45 out of 5 – *"Telephone Functional" – Firewall issues affected this rating; which hopefully has now been resolved and not repeated in future surveys.*

CAR DHHS

The CAR project for DHHS will begin on the weekend of March 4th with two small groups moving into the Cass and Grand Tower buildings. The remaining staff in Capitol View are scheduled to move the weekend(s) of May 20th, June 3rd and June 10th, which is a little over two months sooner than originally projected.

FBSA Move to LTA

FBSA's move to building 100 hasn't been finalized yet, however, demolition and construction are now ongoing. We are anticipating the move to take place sometime in late April or early May.

3. Leasing Manager Update

Current Projects

The leasing team currently has 145 projects in process with the majority being renewals, rental agreements or conveyances. DHHS is our largest customer and holds 21% of our business.

4. Building Trades Supervisor Updates

New Projects

Construction projects at Cass (CAR), Austin (SOS Admin modular) and several others that we are currently waiting for starting dates.

Project Completion Status Report

The carpenter crew has completed modular projects at OPS, SOS, GOB, Hannah, Con Hall, Romney, Victor and PTA building(s). Construction jobs included: Con Hall HR drywall, JOC drywall, Allegan Ramp concrete, 100 building door installation, Romney clearstory windows and OPS 3 door frame retro.

The carpenter crew has completed an additional 64 reasonable accommodation and/or construction/maintenance work orders.

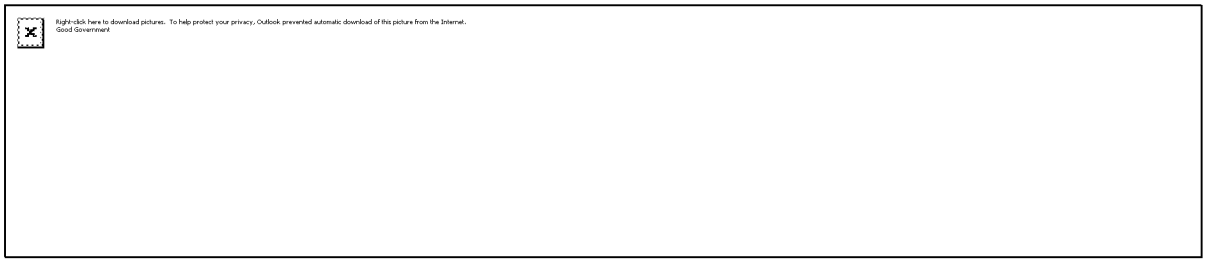
5. Departmental Analyst Updates

Important Calendar Items

- Next Administrative Board is scheduled for 2/9/16 and will include the following:
  - Addendum No. 1 to Lease No. 11306 DHHS – Iron Mountain – Tony Sump
  - CCO No. 2 for Lease No. 6948 – DHHS – Muskegon Heights – Jen Lascari
  - CCO No. 1 for Lease No. 11822 – MSP – Corunna – Maureen Bailey

6. Roundtable

Troy B.



- Working to get the conference rooms on the 2nd floor added to Outlook.
- Working with Blind Commission to have vending machines added to each floor.
- Working on the FM Systems implementation that is going to replace Archibus, X3 and Hal. We now have a written contract and hope to have FM Systems added to the Ad Board agenda in March.

The RED Director requested staff to state what projects/action items they would like to be doing more of in 2016.

1) Bob – Would like to delegate various projects so that he can have more 1 x 1 time with his direct, 2nd and 3rd tier staff reports.
2) Jen – Would like to do more adjustments and reviewing of files.
3) Eric – Would like to train a new hire.
4) Erika – Would like to receive training in Revet.
5) Curt – Would like to branch out into less day-to-day items and do more "extra curricular" projects.
6) Dave M. – Would like to update Autocad drawings so they look better than if we hired a professional.
7) Marchan – Would like to move forward with our processes and look for ways of streamlining and improving what we do.
8) Kayla – Would like to update all of the templates and become more knowledgeable on the leasing side of things.
9) Maureen – Would like to have more "Flint Water Projects."
10) Robert – Would like to be more involved in ordering and purchasing materials.
11) Tracy – Would like to do more sales.
12) Troy S. – Would like more training opportunities through Civil Service and get more involved in Cadillac Place.
13) Will – Would like to get outside of the office more with the leasing team.
14) Keith – Would like to double the crew and take all of DBI's work away.
15) David A. – Would like to assist in the consolidation of Real Estate statewide with it being centrally managed by DTMB.
16) Tony – Would like to gain more knowledge in commercial brokering.
17) Bernice – Would like to work to improve the processes and see more of what the departments' are spending and would like to find opportunities and more efficient ways to do things.
18) Leasa – Would like to assist more in alleviating Bob's workload.

NEXT STAFF MEETING: Wednesday, February 3, 2016

Subject: Flint Volunteer Efforts

Dear State Employees,

Gov. Rick Snyder and I want to thank everyone who donated their time during the holiday weekend to deliver bottled water, water filters, replacement cartridges and water testing kits to families in the city of Flint. We are working hard to ensure all residents are provided with the safe water resources they need, and each donation and hour of your time volunteered goes a long way.

For employees who would like to help the residents of Flint, there are several opportunities to do so. Please visit www.helpforflint.com to learn how you can help.

For additional information and updates, visit www.michigan.gov/flintwater.

Again, thank you for all your support.

Sincerely, Mike Zimmer
Office of Good Government Director
Dept. of Licensing and Regulatory Affairs Director

This e-mail was sent to darbym@michigan.gov using GovDelivery on behalf of: the State of Michigan, 111 S. Capitol Ave., Lansing, MI. *You are receiving this message because you are a State of Michigan employee.*

Subject: Thank you for your service

THANK YOU!

Fellow employees,

Each day, more than 46,000 state of Michigan employees come to work with the confidence and commitment to make Michigan a better place to live, work and play. I appreciate the way you care about the citizens we serve, and how it is reflected in the work that you do.

As you have heard from me and the media, our reputation and trust can be severely impacted when people do not make good decisions, or use good judgment in solving problems. That principle is universal, but never more so than when public health is at stake. What happened in Flint can never be allowed to happen again anywhere in our state.

I know that you want to work in a place where employee input is valued, efforts are recognized, and teams are always striving for continuous improvement. That's why we introduced employee surveys, Bureaucracy Busters and other reinvention initiatives. We want and deserve a culture of innovation, continuous improvement and employee engagement at every level. We can never take for granted how important the people are who depend on us to do our jobs, and I am asking you not to let the situation in Flint negatively impact your motivation to excel every day.

Many of you have taken an interest in helping the citizens of Flint on your own time, and I'd like to take this opportunity to recognize and thank those who have volunteered over the last couple of weekends. You have worked tirelessly to deliver cases of bottled water, water filters, replacement cartridges and water testing kits to the families in need. I appreciate you donating your time to help our fellow Michiganders. To date, more than 37,000 homes have been visited by one of our water resource teams.

For employees who would like to further help the people of Flint, please visit www.HelpForFlint.com to learn how you can do so. For additional information and to sign up for daily updates, please visit www.mi.gov/FlintWater. I am committed to ensuring that all residents have access to safe and clean water.

Again, I'd like to express my gratitude for the work you do every day to continuously improve our state and earn the trust of those you serve. You make a real difference.

Thanks,

Governor Rick Snyder

Will,

The attached brochure provided by Kami states there is nothing the tenant should do and it is not an emergency. Are you aware of this trihalomethanes issue? Based on what was provided, it is (also) not a lease issue?

Whom should call Kami as this appears to be a program decision and expense if they wish to provide water?

Please advise –

Troy

An important message about your drinking water for customers of the Buena Vista Charter Township Water

This public safety notice is required by the U.S.E.P.A.

PLEASE READ CAREFULLY!

This notice is being sent to you by Buena Vista Charter Township

Buena Vista Charter Township Water Department
1160 S. Outer Drive
Saginaw, MI 48601

BULK RATE
U.S. POSTAGE

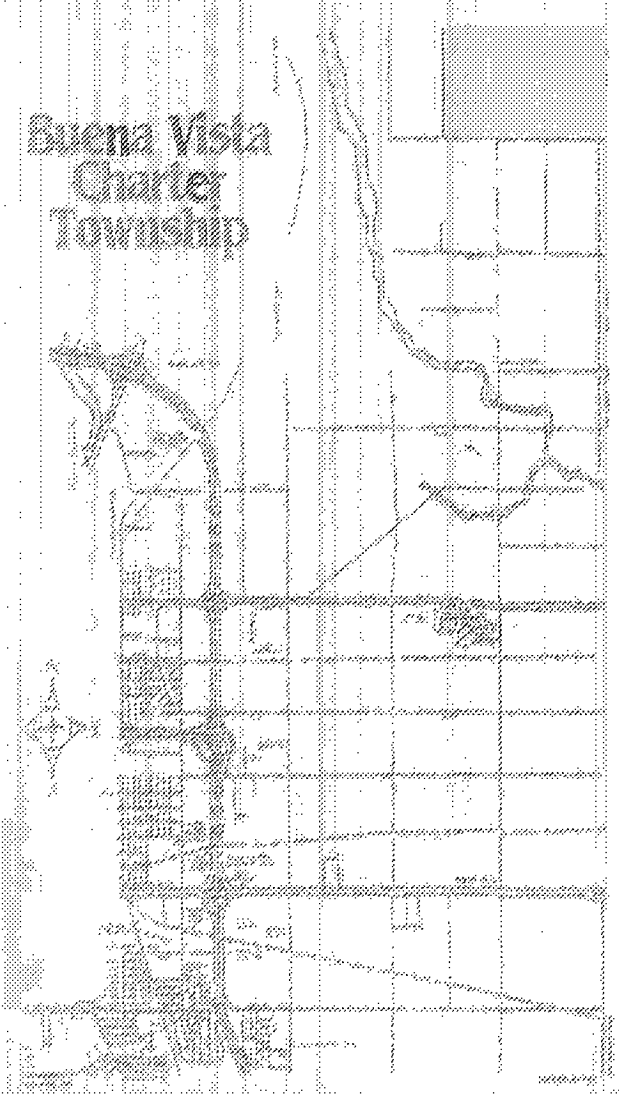
SAGINAW, MI
PERMIT NO. 100
PRESORTED STANDARD



DEPARTMENT OF CORRECTIONS
1835 TREANOR
SAGINAW, MI 48601

SAGINAW COUNTY CARRIER
JAN 0 4 2012

Definitions

Maximum Contaminants Level (MCL) — The standard set by the EPA as the safe limit for a contaminant found in a water supply. Each identified element has a different MCL.

Parts Per Million (ppm) — The measurement used for identifying the amount of contaminant found in water. Parts per million is milligrams per liter.

IMPORTANT INFORMATION ABOUT YOUR DRINKING WATER

Buena Vista Township Did Not Meet Treatment Requirements and Reporting Requirements

Our water system recently violated a drinking water standard. Although this incident was not an emergency, as our customers, you have a right to know what happened and what we are doing to correct this situation.

We routinely monitor for the presence of drinking water contaminants. Testing results from October 1, 2015 to December 31, 2015 show that our system exceeds the standard, or maximum contaminant level (MCL), for trihalomethanes (TTHM). The standard for trihalomethanes is 80 pg/L. The level of trihalomethanes in our system was determined by averaging all samples collected by our system for the past 12 months. The average level of trihalomethanes in our system was 83 pg/L. We also missed a deadline to submit an Operational Evaluation Level (OEL) report.

What should I do?

- There is nothing you need to do unless you have a severely compromised immune system, have an infant, or are elderly. These people may be at increased risk and should seek advice about drinking water from their health care providers.
- You do not need to boil your water or take other corrective actions. If a situation arises where the water is no longer safe to drink, you will be notified within 24 hours.

What does this mean?

This is not an emergency. If it had been an emergency, you would have been notified within 24 hours.

People who drink water containing trihalomethanes in excess of the MCL over many years may experience problems with their liver, kidneys, or central nervous system, and may have an increased risk of getting cancer.

What is being done?

Our testing has shown that higher levels of trihalomethanes occur in areas with less water circulation in our water mains. We will be using an automatic flushing device to increase water circulation. We expect to have procedure for increased circulation in place by June 29, 2016. We also plan on completing an OEL report by the end of December 2015 to help evaluate the high TTHM's in the system.

Our water is purchased from the City of Saginaw. The elevated levels of TTHM in our water system are not in any way related to lead levels. For more information, please contact Roy Hill at 989-752-1560 or 1160 South Outer Drive, Saginaw, MI 48601.

Please share this information with all the other people who drink this water, especially those who may not have received this notice directly (for example, people in apartments, nursing homes, schools, and businesses). You can do this by posting this notice in a public place or distributing copies by hand or mail.

Subject: FW: Southfield MLCC possible bacteria

Please see below per our phone conversation yesterday. It is recommended by LARA HR to go forward and have the office tested to be safe. How would we go about requesting such test through Oakland County Health Department (through the landlord)? And who would be responsible to pay for the testing to occur.

Please keep this information and email confidential for we do not want to cause panic for staff onsite.

Subject: Southfield MLCC possible bacteria

Ethan,

Pursuant to our phone conversation yesterday, below are my notes from my contacts regarding employee's concern that he may have contracted Legionnaire's Disease from the Southfield MLCC office. I take this type of concern very seriously and called Keith Kelly immediately after I heard from [redacted] Keith was helpful and responded quickly. My main question now is that since the County inspected his home, do we need to have Oakland County Health Department

check the office building? I have received no other information regarding a serious illnesses with other employees. I also inquired about any illnesses in MAHS with Makia Coleman and she was not aware of any.

As you know, for health privacy reasons (and for not wishing to feed the rumor mill) I have not discussed Mr. [redacted] diagnosis with other staff members. I would appreciate you doing the same.

Saturday, 9/19/15

Phone call from MLCC Supervisor [redacted]

Was hospitalized and Dr. advised legionella bacteria was found in [redacted] urine. Don believes it may be from all the water damage or poor air circulation in Southfield office building because he pretty much spends all his time either at home or work.

Phone call to Keith Kelly

Notified Keith about [redacted] comments above and requested building be checked. Keith explained we have no water cooling system in our building. Legionella is entered in body through water droplet, not through the air in general. Last (and other) water damage in building was followed by tests for mold and spores. Tests were ok. Air conditioner filters were changed by Max last week and he did not find any issues during check of systems. Max will double check everything on Monday.

Keith subsequently reported he had the drain pans, filters and coils checked – all seemed ok. Coils had been cleaned about a month ago.

Please let me know if I should follow-up on this.

Mary Anne

Subject: FW: Southfield MLCC possible bacteria

Please see below per our phone conversation yesterday. It is recommended by LARA HR to go forward and have the office tested to be safe. How would we go about requesting such test through Oakland County Health Department (through the landlord)? And who would be responsible to pay for the testing to occur.

Please keep this information and email confidential for we do not want to cause panic for staff onsite.

Subject: Southfield MLCC possible bacteria

Ethan,

Pursuant to our phone conversation yesterday, below are my notes from my contacts regarding employee's concern that he may have contracted Legionnaire's Disease from the Southfield MLCC office. I take this type of concern very seriously and called Keith Kelly immediately after I heard from [employee's name removed]. Keith was helpful and

responded quickly. My main question now is that since the County inspected his home, do we need to have Oakland County Health Department check the office building? I have received no other information regarding a serious illnesses with other employees. I also inquired about any illnesses in MAHS with Makia Coleman and she was not aware of any.

As you know, for health privacy reasons (and for not wishing to feed the rumor mill) I have not discussed [employee's name removed] diagnosis with other staff members. I would appreciate you doing the same.

Saturday, 9/19/15

Phone call from MLCC Supervisor [employee's name removed]

Was hospitalized and Dr. advised legionella bacteria was found in [employee's name removed] urine. [employee's name removed] believes it may be from all the water damage or poor air circulation in Southfield office building because they pretty much spends all their time either at home or work.

Phone call to Keith Kelly

Notified Keith about [employee's name removed] comments above and requested building be checked. Keith explained we have no water cooling system in our building. Legionella is entered in body through water droplet, not through the air in general. Last (and other) water damage in building was followed by tests for mold and spores. Tests were ok. Air conditioner filters were changed by Max last week and he did not find any issues during check of systems. Max will double check everything on Monday.

Keith subsequently reported he had the drain pans, filters and coils checked – all seemed ok. Coils had been cleaned about a month ago.

Please let me know if I should follow-up on this.

LeAnn,

The Boji Group have engaged Fishbeck, Thompson, Carr and Huber to complete the requested testing. They will be in on Monday (10/19/15) to perform the testing. In addition, I requested a copy of the environmental testing report performed earlier this year after Lease #11418 experienced some flooding.

I will forward these reports to your office once received.

Re: Water Sampling, *Legionella sp.*
25660 8 Mile Road, Southfield, MI

Dear Mr. Leinweber:

Introduction

On October 19, 2015, at the request of Mr. Keith Kelly and with the assistance of Mr. Max Zamora of the Boji Group, Fishbeck, Thompson, Carr & Huber, Inc. (FTCH) sampled potable water from the hot water heater, conference room sink, drinking fountains, breakroom sink, and employees' men's lavatory at the Boji Facility located at 25660 8 Mile Road, Southfield, Michigan. The purpose of this water sampling was to detect and quantify the level of *Legionella* species present, if any, in each of the water samples.

Legionella bacteria occur naturally in surface waters including lakes, streams, and mud. The bacteria survive and grow particularly well in man-made environments, especially if the water is in a temperature range of 77° to 109°F, sediment and scaling are present, and water flow is relatively stagnant.

The diseases caused by *Legionella* are Legionnaires' disease and Pontiac Fever. Legionnaires' disease is a multi-system disease which includes pneumonia. When outbreaks occur, usually less than 5% of exposed individuals develop the disease, commonly within 3 to 9 days after exposure. Pontiac Fever is a non-fatal, flu-like disease of short duration which does not cause pneumonia. Approximately 95% of exposed individuals develop the disease, usually within 2 to 3 days.

The likelihood of contracting Legionnaires' disease is related to the level of contamination in the water source, the susceptibility of the person exposed, and the intensity of exposure to the contaminated water. Disease transmission usually occurs via inhalation of an aerosol of water contaminated with the organism. Aspiration of contaminated water into the lungs may also cause the disease.[1]

Sampling

Water sampling was conducted for the potential presence of *Legionella* bacteria, particularly *Legionella pneumophilia*. Sampling was performed according to accepted Industrial Hygiene methods recognized by the National Institute for Occupational Safety and Health (NIOSH), the American Conference of Governmental Industrial Hygienists (ACGIH), the American Industrial Hygiene Association (AIHA), and the Occupational Safety and Health Administration (OSHA). As with all sampling, the test results are an indication of the levels of the specific analyte at the time of sampling. It is important to state that *Legionella* bacteria analyses may be

[1] U.S. Department of Labor, Occupational Safety and Health Administration: Technical Manual, Section III, Chapter 7, p. 4.

influenced by the presence of aquatic protozoa, slime, or bioslime. The result of *Legionella* sampling does not predict the future safety of the water systems; it only represents the count in the sample on the test day. Should sampling conditions change, FTCH makes no prediction as to the type or concentration of *Legionella* bacteria in water.

Method

Using strict aseptic technique, water was collected from the hot water heater, conference room sink, drinking fountains (high and low), breakroom sink, and employees' men's room and placed in a sterile bottle. Temperature of the water was determined at all sample locations, except the drinking fountains, and documented.

Real-time polymerase chain reaction (PCR) analysis was used for rapid, specific detection of *Legionellae* bacteria in water by employing a PCR process to amplify and then detect portions of deoxyribonucleic acid (DNA) unique to *Legionella pneumophila* group which includes *Legionella pneumophila*, *L. feeleii*, *F. dumoffii, L. longbeachae, F. bozemanii,* and *L. micdadei*. This method was used because it can produce results in 1 to 2 days, it has reproducible results, and provides accurate bacterial identification. Samples were sent immediately under chain of custody to EMLab P&K, an AIHA accredited laboratory located in Phoenix, Arizona, for identification and enumeration.

The term "real-time PCR" means the laboratory staff can actually monitor and "visualize" the progress of PCR reactions, cycle by cycle, through a computer monitor. This means the earlier the DNA is detected in PCR cycles, the higher the relative concentrations of DNA exist[2].

It is important to note that the PCR method detects *Legionella* bacteria whether they are viable or not.

Culturing for *Legionella* bacteria was not conducted because the PCR levels, being so very low, could not be quantified. In addition, culturing of samples from building water systems may not be predictive of the risk of transmission for the following reasons:

1. Presence of the bacteria cannot be directly equated to the risk of infection. The bacterium is frequently present in water systems without being associated with disease.
2. Interpretation of the results of culturing of water is confounded by use of different bacteriologic methods in various laboratories, by variable culture results among sites sampled within a water system, and by fluctuations in the concentration of *Legionella* isolated from a single site.
3. The risk of illness following exposure to a given source is influenced by a number of factors other than the concentration of organisms in a sample. These factors include, but are not limited to, strain virulence, host susceptibility, and how efficiently the organisms are aerosolized to the small particle size required to reach the deep portion of the human lung and remain viable.
4. Test results only represent the counts at the time the sample was collected. Even with a negative result, any amplifier can quickly become heavily colonized if it suffers neglect.[3]

[2] P&K Microbiology Services, Inc. "Technical Information PCR Analysis".

[3] American Society of Heating, Refrigerating and Air-Conditioning Engineers, Inc. (ASHRAE), Guideline 12-2000, "Minimizing the Risk of Legionellosis Associated with Building Water Systems.

Recommended Exposure Limit

There are no governmental regulations concerning permissible numbers of *Legionellae* bacteria in water systems. To cause disease the organism must be virulent, it must be in sufficient number, the water sources must be aerosolized and distributed to the human host, the *Legionellae* must be inhaled deeply into the lungs by the potential host, and the human host's defenses must be unable to stop the infection. The infectious dose has not been determined, but the larger the dose, the more likely infection may occur.[4]

Legionella analysis (real-time PCR method) results are summarized in Table 1.

Table 1 – Water Sampling, *Legionella* Analysis (Real-Time PCR Method) – Results Summary

October 19, 2015

Sample Identification & Location and Water Temperature	Species	Result	Qualitative Description
151019-H20-1: Hot Water Heater. Temperature of water – 111.0° F	*L. pneumophilia* group	Not Detected	Not Detected
151019-H20-2: Conference Room Sink, (initial, before flush sample).	*L. pneumophilia* group	Not Detected	Not Detected
151019-H20-3: Conference Room Sink, (after flush sample). Temperature of water – 135°F	*L. pneumophilia* group	1 CE	Detection was below the amount that can be accurately quantified.
151019-H20-4: Drinking Fountains (higher)	L. pneumophilia *group*	1 CE	Detection was below the amount that can be accurately quantified.
151019-H20-5: Drinking Fountains (lower)	*L. pneumophilia* group	1 CE	Detection was below the amount that can be accurately quantified.
151019-H20-6: Breakroom Sink (initial, before flush sample).	*L. pneumophilia* group	1 CE	Detection was below the amount that can be accurately quantified.
151019-H20-7: Breakroom Sink (after flush sample). Maximum temperature of water – 134°F	*L. pneumophilia* group	1 CE	Detection was below the amount that can be accurately quantified.
151019-H20-8: Employee's Men's Lavatory, middle sink (initial, before flush sample)	*L. pneumophilia* group	None Detected	None Detected
151019-H20-9: Employee's Men's Lavatory, (after flush). Maximum temperature of water – 108°F	*L. pneumophilia group*	1 CE	Detection was below the amount that can be accurately quantified.
151019-H20-Field Blank	*L. pneumophilia group*	None Detected	None Detected

CE Cell Equivalent

In addition, a surface sample was collected of the hot water from the water cooler. No portions of DNA unique to *Legionella pneumophilia* were detected.

[4] "*Legionella in Environmental Samples: Hazard Analysis and Suggested Remedial Actions.* PathCon Laboratories, Technical Bulletin 1.4 (10/97).

Discussion of Results

Results of sampling indicated that portions of DNA unique to *Legionella pneumophilia* were detected in the after-flush sample at the Conference Room sink; both drinking fountains; both before-flush and after-flush of the breakroom sink; and the after-flush sample of the men's Lavatory, middle sink water. In each of the positive samples, only 1 CE (Cell Equivalent) was detected. The detection was so low that the amount could not be accurately quantified. It is important to note that the minimum number of CE to be able to quantify the presence of *Legionellae* bacteria in water is 100 CE. Therefore, this detection was reported by the laboratory for informational purposes only. In addition, it is not known if the very low count of bacteria is viable or not.

Recommendations

Real-time PCR results were provided as soon as the analysis was completed and reported. *Legionella sp.* are ubiquitous and can be isolated from 20% to 40% of freshwater environments, especially man-made water systems. The presence of *Legionellae* bacteria is not necessarily evidence of potential for causing disease[5], especially at this low (barely detectable) level.

As stated above, there are no governmental regulations concerning permissible numbers of *Legionellae* bacteria in water systems. OSHA provides "Water Sampling Guidelines" to assess the effectiveness of water system maintenance.[6] These guidelines are based on the finding of viable *Legionella* and are reported as colony forming units per milliliter of water. Though viable sampling was not warranted due to the findings of very low (barely detectable) *Legionella* bacteria using the PCR method, these levels (1 CE) would be well below the OSHA action guidelines. Therefore, FTCH offers no recommendations other than to continue to follow best industry practices to minimize the growth of *Legionella* in a domestic hot water system. Best industry practices include to store the hot water at a minimum of 140°F and deliver it at a minimum of 122°F to all outlets. The hot water tank should be drained periodically to remove scale and sediment and cleaned with chlorine solution if possible. The tank must then be thoroughly rinsed to remove excess chlorine before reuse. Domestic hot water recirculation pumps should run continuously. They should be excluded from energy conservation measures.[7]

FTCH appreciate the opportunity to provide these services to the Boji Group. If you have any questions or require additional information, please contact me at 616.464.3831 or dcalderink@ftch.com.

Troy,

Please find attached the report on Southfield. I understand that it came in on 11/9 and we asked them to attach the lab information. I apologize for the delay caused by staff/consultants schedules. As we were told verbally, there is nothing measurable in the results. Please let me know if you need anything else or require further information.

Thanks,
Terri

Re: Water Sampling, *Legionella sp.*
25660 8 Mile Road, Southfield, MI

Dear Mr. Leinweber:

Introduction

On October 19, 2015, at the request of Mr. Keith Kelly and with the assistance of Mr. Max Zamora of the Boji Group, Fishbeck, Thompson, Carr & Huber, Inc. (FTCH) sampled potable water from the hot water heater, conference room sink, drinking fountains, breakroom sink, and employees' men's lavatory at the Boji Facility located at 25660 8 Mile Road, Southfield, Michigan. The purpose of this water sampling was to detect and quantify the level of *Legionella* species present, if any, in each of the water samples.

Legionella bacteria occur naturally in surface waters including lakes, streams, and mud. The bacteria survive and grow particularly well in man-made environments, especially if the water is in a temperature range of 77° to 109°F, sediment and scaling are present, and water flow is relatively stagnant.

The diseases caused by *Legionella* are Legionnaires' disease and Pontiac Fever. Legionnaires' disease is a multi-system disease which includes pneumonia. When outbreaks occur, usually less than 5% of exposed individuals develop the disease, commonly within 3 to 9 days after exposure. Pontiac Fever is a non-fatal, flu-like disease of short duration which does not cause pneumonia. Approximately 95% of exposed individuals develop the disease, usually within 2 to 3 days.

The likelihood of contracting Legionnaires' disease is related to the level of contamination in the water source, the susceptibility of the person exposed, and the intensity of exposure to the contaminated water. Disease transmission usually occurs via inhalation of an aerosol of water contaminated with the organism. Aspiration of contaminated water into the lungs may also cause the disease.[1]

Sampling

Water sampling was conducted for the potential presence of *Legionella* bacteria, particularly *Legionella pneumophilia*. Sampling was performed according to accepted Industrial Hygiene methods recognized by the National Institute for Occupational Safety and Health (NIOSH), the American Conference of Governmental Industrial Hygienists (ACGIH), the American Industrial Hygiene Association (AIHA), and the Occupational Safety and Health Administration (OSHA). As with all sampling, the test results are an indication of the levels of the specific analyte at the time of sampling. It is important to state that *Legionella* bacteria analyses may be

[1] U.S. Department of Labor, Occupational Safety and Health Administration: Technical Manual, Section III, Chapter 7, p. 4.

influenced by the presence of aquatic protozoa, slime, or bioslime. The result of *Legionella* sampling does not predict the future safety of the water systems; it only represents the count in the sample on the test day. Should sampling conditions change, FTCH makes no prediction as to the type or concentration of *Legionella* bacteria in water.

Method

Using strict aseptic technique, water was collected from the hot water heater, conference room sink, drinking fountains (high and low), breakroom sink, and employees' men's room and placed in a sterile bottle. Temperature of the water was determined at all sample locations, except the drinking fountains, and documented.

Real-time polymerase chain reaction (PCR) analysis was used for rapid, specific detection of *Legionellae* bacteria in water by employing a PCR process to amplify and then detect portions of deoxyribonucleic acid (DNA) unique to *Legionella pneumophila* group which includes *Legionella pneumophila*, *L. feeleii*, *F. dumoffii, L. longbeachae, F. bozemanii,* and *L. micdadei*. This method was used because it can produce results in 1 to 2 days, it has reproducible results, and provides accurate bacterial identification. Samples were sent immediately under chain of custody to EMLab P&K, an AIHA accredited laboratory located in Phoenix, Arizona, for identification and enumeration.

The term "real-time PCR" means the laboratory staff can actually monitor and "visualize" the progress of PCR reactions, cycle by cycle, through a computer monitor. This means the earlier the DNA is detected in PCR cycles, the higher the relative concentrations of DNA exist[2].

It is important to note that the PCR method detects *Legionella* bacteria whether they are viable or not.

Culturing for *Legionella* bacteria was not conducted because the PCR levels, being so very low, could not be quantified. In addition, culturing of samples from building water systems may not be predictive of the risk of transmission for the following reasons:

1. Presence of the bacteria cannot be directly equated to the risk of infection. The bacterium is frequently present in water systems without being associated with disease.
2. Interpretation of the results of culturing of water is confounded by use of different bacteriologic methods in various laboratories, by variable culture results among sites sampled within a water system, and by fluctuations in the concentration of *Legionella* isolated from a single site.
3. The risk of illness following exposure to a given source is influenced by a number of factors other than the concentration of organisms in a sample. These factors include, but are not limited to, strain virulence, host susceptibility, and how efficiently the organisms are aerosolized to the small particle size required to reach the deep portion of the human lung and remain viable.
4. Test results only represent the counts at the time the sample was collected. Even with a negative result, any amplifier can quickly become heavily colonized if it suffers neglect.[3]

PCR-Legionella pneumophila (PX): 10-27-2015

Service SOPs: PCR-Legionella pneumophila (PX) (EM-BC-S-1091)

All samples were received in acceptable condition unless noted in the Report Comments portion in the body of the report. Due to the nature of the analyses performed, field blank correction of results is not applied. The results relate only to the items tested.

EMLab P&K ("the Company") shall have no liability to the client or the client's customer with respect to decisions or recommendations made, actions taken or courses of conduct implemented by either the client or the client's customer as a result of or based upon the Test Results. In no event shall the Company be liable to the client with respect to the Test Results except for the Company's own willful misconduct or gross negligence nor shall the Company be liable for incidental or consequential damages or lost profits or revenues to the fullest extent such liability may be disclaimed by law, even if the Company has been advised of the possibility of such damages, lost profits or lost revenues. In no event shall the Company's liability with respect to the Test Results exceed the amount paid to the Company by the client therefor.

Ethan,

Although your letter was not present, I would suggest making your MIOSHA response more of a brief cover letter stating you investigated and attach these three documents.

It should be noted that you are required to post your MIOSHA response, along with the original complaint, on the premises where employees may review. These must remain posted until MIOSHA deems the case is closed.

Thank you,

Troy Bos

Subject: Lease 11418 - MIOSHA Complaint 1052654
Importance: High

Attached you will find three attachments. The first is a letter response to the MIOSHA Complaint from Boji and MLCC. I have taken the response from Boji Group and placed it in a reply letter format. You will also find the test results and original complaint letter sent from MIOSHA.

Please review all information. Keith and Mary Anne, please let me know if there are any corrections you would like to make to your response letter.

Troy – because you have dealt with several of these, can you please review and give your input.

I need all response by the COB Monday, Feb 1st.

Detroit, MI 48202

Dear Sir or Madam:

RE: COMPLAINT #1052654

The following letter is a response from the tenants, Michigan Liquor Control Commission (MLCC), and the building owners, Boji Group, located at 25680 W. 8 Mile Road, Southfield, MI 48033 to complaint #1052654 filed with the Michigan Occupational Safety and Health Administration (MIOSHA).

The following response was provided by Keith Kelly, Building Operations Director for Boji Group, in order to address each specific allegation listed below. As you will see from the information provided by Boji Group in this letter and attachments, MLCC and Boji Group feels they have addressed and corrected the allegations listed in MIOSHA complaint 1052654.

Boji Groups response:

The city of Southfield was having issues with the storm water system, which there were a number of times where our building system would back up from a heavy rain because the city system could not accommodate the volumes from the area. We worked with the city of Southfield to correct the issue. The solution was to power jet the storm drain from the building all the way to the discharge area in the river, which resulted in jetting out about 300 feet of the drain, thus removing sand and rock from the city drain. In addition, after the water damage in early August, the owners made the decision to reroute all roof drains to ensure this would eliminate the issue from reoccurring. The owners spent over $25,000 dollars to complete this project. Since both of these were completed in early fall, there have been no flooding issues as suggested.

When flooding did occur, it always affected a small area of the office space and was always dealt with quickly. Boji Group had All State Restoration Company come in and use many fans and dehumidifiers to, as quickly as possible, dry the space out. Damaged areas involved a hallway, library, open work area, and two enclosed offices. When the last occurrence occurred in early August, again we had All State Restoration Company handle the complete job. They removed all damaged drywall, cove base cleaned and sanitized all carpet, and then replaced the carpet even though it was cleaned. Carpet replacement was completed last month, which was a special order

carpet. The wall repair was completed after everything dried out, which was completed sometime in October.

Attached you will also find the indoor air testing that was completed in early August shortly after the water damage occurred. This was sent to Teri Martin and Troy Bos as instructed. The second document is for water testing, which was completed in October, testing for Legionella at the request of DTMB Real-Estate. All test came back clear.

Below are the questions and responses.
1. Every time it rains the building floods with water. / The buildings has not had any more issues since rerouting the plumbing work, which was completed early fall.
2. Wet and moldy conditions throughout the building. / When water damage happened, it was addressed quickly to avoid any mold or mildew. There are no wet or moldy conditions anywhere in the building, all damaged drywall and carpet has been replaced.
3. Employees have become sick from the atmosphere in the building. / Air testing and water testing has indicated the building has no issues that would cause sickness.
4. Employees are concerned there may be Asbestos. / When the building was completely renovated for the tenant the building was gutted to the shell and rebuilt. We have no knowledge of any asbestos.

As always if there ever any questions please contact us. We are always concerned about our facilities and the all those who work in them.

Re: 25660 & 25680 W. 8 Mile Rd.
Southfield, MI 48033
Job #: 2025-15-5150

Dear Mr. Johnson,

Pursuant to your request, IAQ Management Services, Inc. performed air quality testing (fungus) at the structure located at 25660 & 25680 W. 8 Mile Rd. in Southfield, Michigan. This service was performed on August 6, 2015. The objective of this service is to evaluate air quality conditions at the prescribed sample locations for fungal spores and fragments at the time of testing. This document is intended for the client and does not confer any rights or remedies to any other 3rd party.

Enclosed are the results of the testing. Please call this office with any questions. Thank you.

Respectfully Submitted,

IAQ MANAGEMENT SERVICES, INC.
Jon Dattilo BS, CIEC, CIAQP, CASDT, HST, OCT, FSRT, WRT
Indoor Environmental Professional

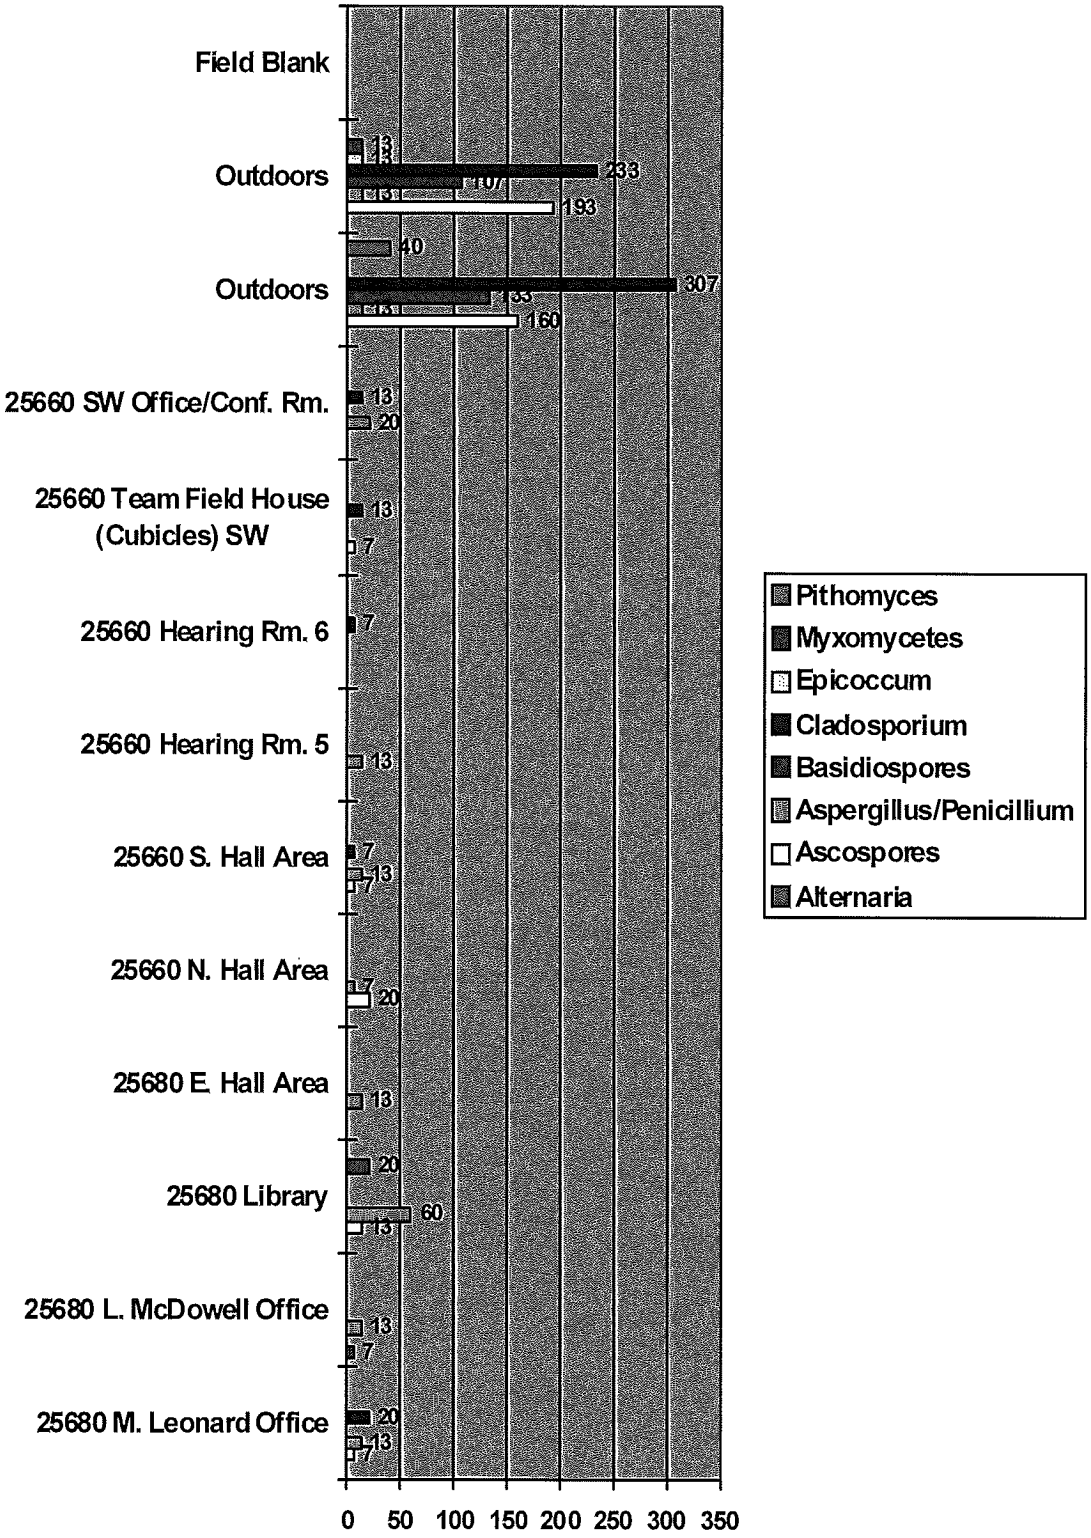
1.0 SCOPE

Fungal air testing occurred in unit 25680 (Melinda Leonard office, Linda McDowell Office, library and east hallway) and in unit 25660 (north hallway area, south hallway area, hearing room 5, hearing room 6, team field house [cubicles] southwest, and southwest office/conference room). Outdoor and field blank control samples were also submitted to the laboratory.

2.0 EVALUATION CRITERIA

Evaluation of indoor fungal exposure has been addressed with supplemental reference to the American Conference of Governmental Industrial Hygienists (ACGIH) guidelines. Bioaerosol concentrations within the affected areas of the building are evaluated per the following criteria:

- Similar indoor / outdoor total concentration ratios
- Similar indoor / outdoor [genera] compositions
- No significant presence of indicator [genera] in the indoor environment



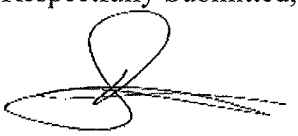
3.0 METHOD

Air testing was performed with BioSIS Air Sampler – a unique sampling device designed for the rapid collection *and* analysis of a wide range of airborne particles, including fungal spores. Samples are analyzed with light microscopy at 600X magnification, with the entire slide being analyzed. The results are reported as total, meaning they include both viable and non-viable fungal spores.

4.0 RESULTS SUMMARY

Fungal air test results indicate (1) dissimilar indoor concentrations relative to fungus **found outdoors** – none are considered notably elevated, (2) dissimilar indoor-outdoor genera profile – none are considered notably elevated, and (3) the presence of potential **indicator genera** *Penicillium / Aspergillus* in the indoor environment.

TOTAL FUNGAL GENERA CHART (Spores / m^3)



5.0 CONCLUSION

Fungal air test results are consistent with **acceptable air quality** at the following sampled locations at the time of testing: Unit 25680 (Melinda Leonard office, Linda McDowell Office, library and east hallway) and in Unit 25660 (north hallway area, south hallway area, hearing room 5, hearing room 6, team field house [cubicles] southwest, and southwest office/conference room).

Thank you for allowing IAQ Management Services, Inc. to serve your indoor quality air needs. Please do not hesitate to contact this office with any questions.

Respectfully Submitted,

IAQ MANAGEMENT SERVICES, INC.

RICK SNYDER
GOVERNOR

STATE OF MICHIGAN
DEPARTMENT OF LICENSING AND REGULATORY AFFAIRS
Michigan Occupational Safety & Health Administration
MARTHA B. YODER
DIRECTOR

MIKE ZIMMER
DIRECTOR

January 25, 2016

State of Michigan
Department of Licensing & Regulatory Affairs
Michigan Liquor Control Commission
25680 W. 8 Mile Road
Southfield, MI 48033

Dear Sir or Madam:

RE: COMPLAINT #1052654

On January 12, 2016, the Michigan Occupational Safety and Health Administration (MIOSHA), General Industry Safety and Health Division received a complaint alleging safety and/or health hazards at your worksite located at:

25680 W. 8 Mile Road
Southfield, MI 48033

A list of the specific nature of the alleged hazard(s) is as follows:

1. Every time it rains the building floods with water.
2. Wet and moldy conditions throughout the entire building.
3. Employees have become sick from the atmosphere in the building.
4. Employees are concerned there may be asbestos.

We have not determined whether the hazards, as alleged, exist at your workplace; we do not intend to conduct an on-site inspection at this time. However, you are requested to investigate the alleged conditions and make any necessary corrections or modifications within **15 calendar days** of the date of this letter. Please advise me in writing of the results of your on-site investigation and provide any supporting documentation of your findings. Include any applicable measurements or monitoring results, as well as a description of any corrective action you have taken or are in the process of taking, including photographs of the corrected condition. Also, please provide me with a contact person's name and contact information in case I have further questions.

This letter is not a citation or a notification of proposed penalty. If you provide this information, we will probably not need to conduct an on-site investigation. If we do not receive a response from you within **15 calendar days** indicating that appropriate action has been taken or that no hazard exists and why, an on-site investigation may be conducted.

You are requested to post a copy of this letter and your response to it where they will be readily accessible for review by all of your employees until MIOSHA deems the case closed.

Please note, however, that MIOSHA selects for on-site investigation a random sample of cases where we have received letters in which employers have indicated satisfactory corrective action. This policy has been established to ensure that employers have actually taken the action asserted in their letters. Any action taken by you in this matter will not automatically remove your workplace from the possibility of an unannounced on-site investigation by duly authorized representatives of MIOSHA in accordance with routine scheduling procedures currently in effect.

Section 65 of Act 154, the Michigan Occupational Safety and Health Act, states that an employer shall not discriminate against an employee for exercising his or her rights under Act 154. If an employee believes that he or she was discharged or otherwise discriminated against as a result of filing a complaint, the employee may file a complaint with the MIOSHA Employee Discrimination Section. The complainant has been informed of their discrimination rights under Act 154.

In addition to its function of inspecting workplaces, MIOSHA offers a wide range of safety and health related services in response to the needs of the working public, both employers and employees. These services include training and education, consultation, voluntary compliance programs, and assistance in correcting hazards.

The MIOSHA Consultation Education and Training (CET) Division offers programs and services without charge to assist you in resolving occupational safety and health issues. Consultations may be available through telephone, email, or in some cases through an on-site visit. The CET Division has free publications, a free video-loan library, and sample written programs, which are available on the MIOSHA web page located at www.michigan.gov/cet. To discuss or request CET services, call 517.284.7720.

If you have any questions concerning this matter, please contact me at 517.202.0037. Your personal support and interest in the safety and health of your employees is appreciated.

Sincerely,

Denise Marshall

Dear Ms. Donley,

Per my voice message to you today, I am sending you a revised copy of the letter we mailed to the Michigan Liquor Control Commission (located at 25680 W. 8 Mile Road in Southfield) regarding potential hazards in the worksite. The original letter should not have listed the Michigan Administrative Hearing System in the mailing address.

If you have any questions regarding my voice message or the contents of this email please contact me.

Sincerely,
Sharman Cross
Health Supervisor

Dear Sir or Madam:

RE: COMPLAINT #1052654

The following letter is a response from the tenants, Michigan Liquor Control Commission (MLCC), and the building owners, Boji Group, located at 25680 W. 8 Mile Road, Southfield, MI 48033 to complaint #1052654 filed with the Michigan Occupational Safety and Health Administration (MIOSHA).

The following response was provided by Keith Kelly, Building Operations Director for Boji Group, in order to address each specific allegation listed below. As you will see from the information provided by Boji Group in this letter and attachments, MLCC and Boji Group feels they have addressed and corrected the allegations listed in MIOSHA complaint 1052654.

Boji Groups response:

The city of Southfield was having issues with the storm water system, which there were a number of times where our building system would back up from a heavy rain because the city system could not accommodate the volumes from the area. We worked with the city of Southfield to correct the issue. The solution was to power jet the storm drain from the building all the way to the discharge area in the river, which resulted in jetting out about 300 feet of the drain, thus removing sand and rock from the city drain. In addition, after the water damage in early August, the owners made the decision to reroute all roof drains to ensure this would eliminate the issue from reoccurring. The owners spent over $25,000 dollars to complete this project. Since both of these were completed in early fall, there have been no flooding issues as suggested.

When flooding did occur, it always affected a small area of the office space and was always dealt with quickly. Boji Group had All State Restoration Company come in and use many fans and dehumidifiers to, as quickly as possible, dry the space out. Damaged areas involved a hallway, library, open work area, and two enclosed offices. When the last occurrence occurred in early August, again we had All State Restoration Company handle the complete job. They removed all damaged drywall, cove base cleaned and sanitized all carpet, and then replaced the carpet even though it was cleaned. Carpet replacement was completed last month, which was a special order

carpet. The wall repair was completed after everything dried out, which was completed sometime in October.

Attached you will also find the indoor air testing that was completed in early August shortly after the water damage occurred. This was sent to Teri Martin and Troy Bos as instructed. The second document is for water testing, which was completed in October, testing for Legionella at the request of DTMB Real-Estate. All test came back clear.

Below are the questions and responses.
1. Every time it rains the building floods with water. / The buildings has not had any more issues since rerouting the plumbing work, which was completed early fall.
2. Wet and moldy conditions throughout the building. / When water damage happened, it was addressed quickly to avoid any mold or mildew. There are no wet or moldy conditions anywhere in the building, all damaged drywall and carpet has been replaced.
3. Employees have become sick from the atmosphere in the building. / Air testing and water testing has indicated the building has no issues that would cause sickness.
4. Employees are concerned there may be Asbestos. / When the building was completely renovated for the tenant the building was gutted to the shell and rebuilt. We have no knowledge of any asbestos.

As always if there ever any questions please contact us. We are always concerned about our facilities and the all those who work in them.

Re: 25660 & 25680 W. 8 Mile Rd.
Southfield, MI 48033
Job #: 2025-15-5150

Dear Mr. Johnson,

Pursuant to your request, IAQ Management Services, Inc. performed air quality testing (fungus) at the structure located at 25660 & 25680 W. 8 Mile Rd. in Southfield, Michigan. This service was performed on August 6, 2015. The objective of this service is to evaluate air quality conditions at the prescribed sample locations for fungal spores and fragments at the time of testing. This document is intended for the client and does not confer any rights or remedies to any other 3rd party.

Enclosed are the results of the testing. Please call this office with any questions. Thank you.

Respectfully Submitted,

IAQ MANAGEMENT SERVICES, INC.
Jon Dattilo BS, CIEC, CIAQP, CASDT, HST, OCT, FSRT, WRT
Indoor Environmental Professional

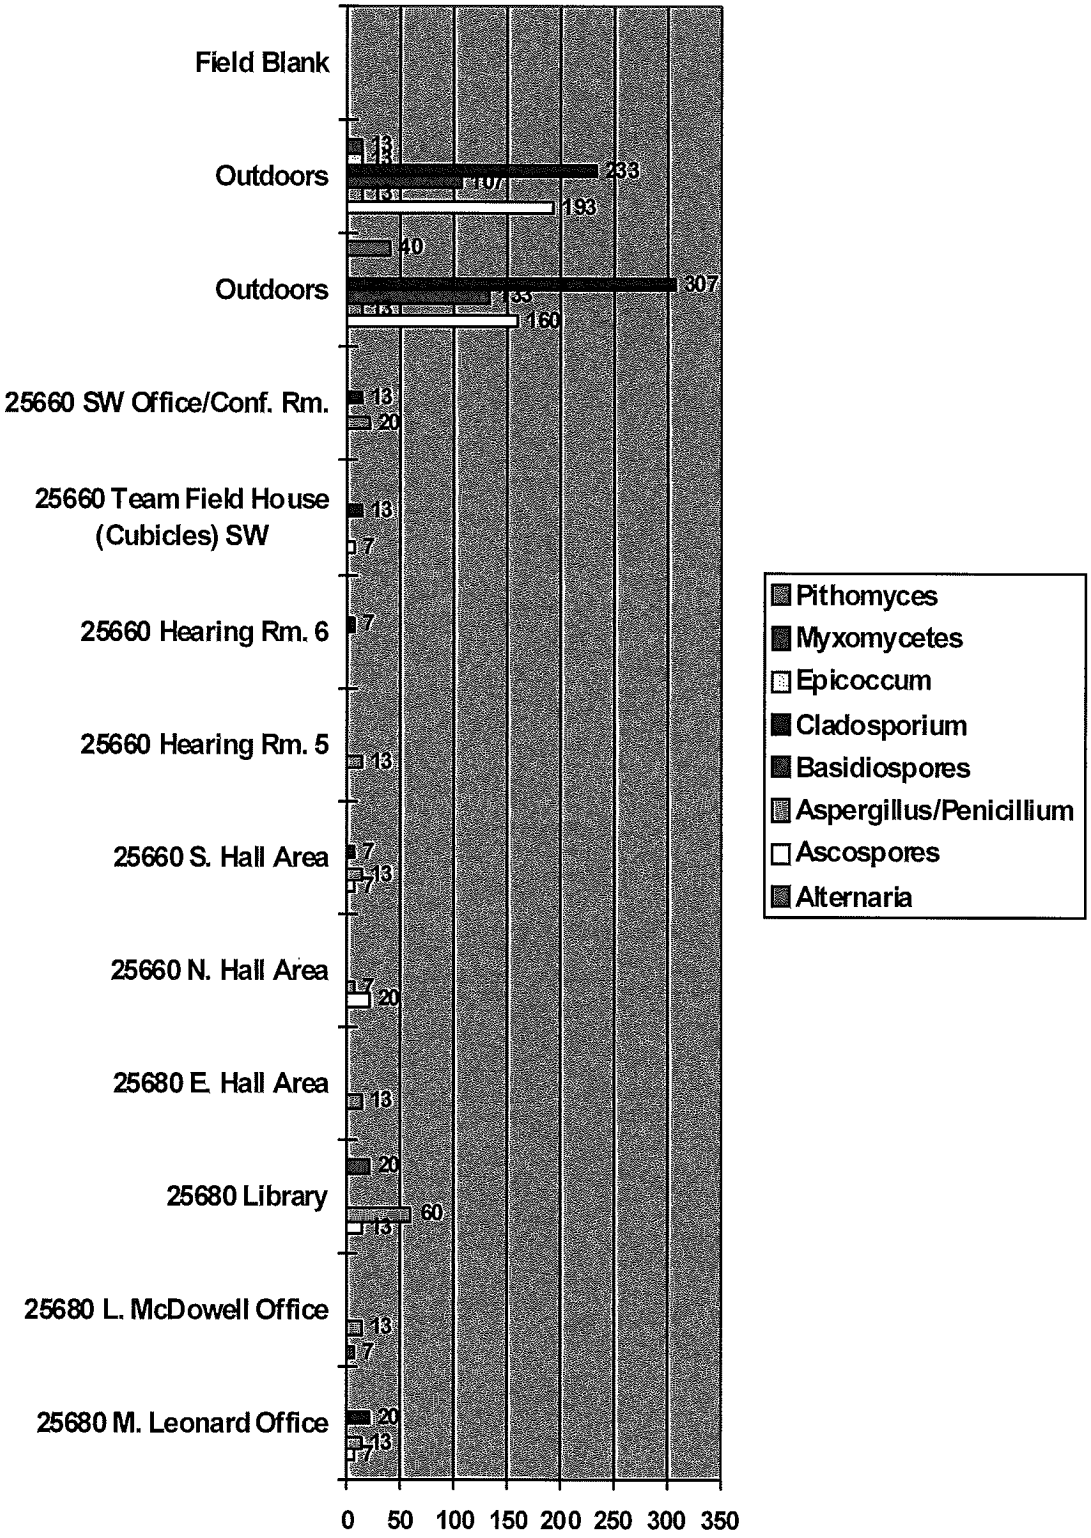
1.0 SCOPE

Fungal air testing occurred in unit 25680 (Melinda Leonard office, Linda McDowell Office, library and east hallway) and in unit 25660 (north hallway area, south hallway area, hearing room 5, hearing room 6, team field house [cubicles] southwest, and southwest office/conference room). Outdoor and field blank control samples were also submitted to the laboratory.

2.0 EVALUATION CRITERIA

Evaluation of indoor fungal exposure has been addressed with supplemental reference to the American Conference of Governmental Industrial Hygienists (ACGIH) guidelines. Bioaerosol concentrations within the affected areas of the building are evaluated per the following criteria:

- Similar indoor / outdoor total concentration ratios
- Similar indoor / outdoor [genera] compositions
- No significant presence of indicator [genera] in the indoor environment



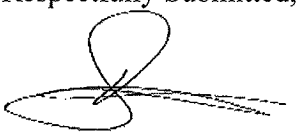
3.0 METHOD

Air testing was performed with BioSIS Air Sampler – a unique sampling device designed for the rapid collection *and* analysis of a wide range of airborne particles, including fungal spores. Samples are analyzed with light microscopy at 600X magnification, with the entire slide being analyzed. The results are reported as total, meaning they include both viable and non-viable fungal spores.

4.0 RESULTS SUMMARY

Fungal air test results indicate (1) dissimilar indoor concentrations relative to fungus **found outdoors** – none are considered notably elevated, (2) dissimilar indoor-outdoor genera profile – none are considered notably elevated, and (3) the presence of potential **indicator genera** *Penicillium / Aspergillus* in the indoor environment.

TOTAL FUNGAL GENERA CHART (Spores / m^3)



5.0 CONCLUSION

Fungal air test results are consistent with **acceptable air quality** at the following sampled locations at the time of testing: Unit 25680 (Melinda Leonard office, Linda McDowell Office, library and east hallway) and in Unit 25660 (north hallway area, south hallway area, hearing room 5, hearing room 6, team field house [cubicles] southwest, and southwest office/conference room).

Thank you for allowing IAQ Management Services, Inc. to serve your indoor quality air needs. Please do not hesitate to contact this office with any questions.

Respectfully Submitted,

RICK SNYDER
GOVERNOR

STATE OF MICHIGAN
DEPARTMENT OF LICENSING AND REGULATORY AFFAIRS
Michigan Occupational Safety & Health Administration
MARTHA B. YODER
DIRECTOR

MIKE ZIMMER
DIRECTOR

January 25, 2016

State of Michigan
Department of Licensing & Regulatory Affairs
Michigan Liquor Control Commission
25680 W. 8 Mile Road
Southfield, MI 48033

Dear Sir or Madam:

RE: COMPLAINT #1052654

On January 12, 2016, the Michigan Occupational Safety and Health Administration (MIOSHA), General Industry Safety and Health Division received a complaint alleging safety and/or health hazards at your worksite located at:

25680 W. 8 Mile Road
Southfield, MI 48033

A list of the specific nature of the alleged hazard(s) is as follows:

1. Every time it rains the building floods with water.
2. Wet and moldy conditions throughout the entire building.
3. Employees have become sick from the atmosphere in the building.
4. Employees are concerned there may be asbestos.

We have not determined whether the hazards, as alleged, exist at your workplace; we do not intend to conduct an on-site inspection at this time. However, you are requested to investigate the alleged conditions and make any necessary corrections or modifications within **15 calendar days** of the date of this letter. Please advise me in writing of the results of your on-site investigation and provide any supporting documentation of your findings. Include any applicable measurements or monitoring results, as well as a description of any corrective action you have taken or are in the process of taking, including photographs of the corrected condition. Also, please provide me with a contact person's name and contact information in case I have further questions.

This letter is not a citation or a notification of proposed penalty. If you provide this information, we will probably not need to conduct an on-site investigation. If we do not receive a response from you within **15 calendar days** indicating that appropriate action has been taken or that no hazard exists and why, an on-site investigation may be conducted.

You are requested to post a copy of this letter and your response to it where they will be readily accessible for review by all of your employees until MIOSHA deems the case closed.

Please note, however, that MIOSHA selects for on-site investigation a random sample of cases where we have received letters in which employers have indicated satisfactory corrective action. This policy has been established to ensure that employers have actually taken the action asserted in their letters. Any action taken by you in this matter will not automatically remove your workplace from the possibility of an unannounced on-site investigation by duly authorized representatives of MIOSHA in accordance with routine scheduling procedures currently in effect.

Section 65 of Act 154, the Michigan Occupational Safety and Health Act, states that an employer shall not discriminate against an employee for exercising his or her rights under Act 154. If an employee believes that he or she was discharged or otherwise discriminated against as a result of filing a complaint, the employee may file a complaint with the MIOSHA Employee Discrimination Section. The complainant has been informed of their discrimination rights under Act 154.

In addition to its function of inspecting workplaces, MIOSHA offers a wide range of safety and health related services in response to the needs of the working public, both employers and employees. These services include training and education, consultation, voluntary compliance programs, and assistance in correcting hazards.

The MIOSHA Consultation Education and Training (CET) Division offers programs and services without charge to assist you in resolving occupational safety and health issues. Consultations may be available through telephone, email, or in some cases through an on-site visit. The CET Division has free publications, a free video-loan library, and sample written programs, which are available on the MIOSHA web page located at www.michigan.gov/cet. To discuss or request CET services, call 517.284.7720.

If you have any questions concerning this matter, please contact me at 517.202.0037. Your personal support and interest in the safety and health of your employees is appreciated.

Sincerely,

Denise Marshall

Shaking my head! I bet they wouldn't drink the water, bathe in the water, or even give it to their dogs. Many of the residents are unable to go outside of their community to wash their clothes, so they still use this water for basic living needs, which I'm sure our elected officials wouldn't do. On top of that, they are still paying astronomical water bills for water that is literally killing them! It hurts and my heart goes out to everyone affected!

Please see below per our phone conversation yesterday. It is recommended by LARA HR to go forward and have the office tested to be safe. How would we go about requesting such test through Oakland County Health Department (through the landlord)? And who would be responsible to pay for the testing to occur.

Please keep this information and email confidential for we do not want to cause panic for staff onsite.

Ethan,

Pursuant to our phone conversation yesterday, below are my notes from my contacts regarding employee's concern that he may have contracted Legionnaire's Disease from the Southfield MLCC office. I take this type of concern very

seriously and called Keith Kelly immediately after I heard from [employee's name removed]. Keith was helpful and responded quickly. My main question now is that since the County inspected his home, do we need to have Oakland County Health Department check the office building? I have received no other information regarding a serious illnesses with other employees. I also inquired about any illnesses in MAHS with Makia Coleman and she was not aware of any.

As you know, for health privacy reasons (and for not wishing to feed the rumor mill) I have not discussed [employee's name removed] diagnosis with other staff members. I would appreciate you doing the same.

Saturday, 9/19/15

Phone call from MLCC Supervisor [employee's name removed]

Was hospitalized and Dr. advised legionella bacteria was found in [employee's name removed] urine. [employee's name removed] believes it may be from all the water damage or poor air circulation in Southfield office building because they pretty much spends all their time either at home or work.

Phone call to Keith Kelly

Notified Keith about [employee's name removed] comments above and requested building be checked. Keith explained we have no water cooling system in our building. Legionella is entered in body through water droplet, not through the air in general. Last (and other) water damage in building was followed by tests for mold and spores. Tests were ok. Air conditioner filters were changed by Max last week and he did not find any issues during check of systems. Max will double check everything on Monday.

Keith subsequently reported he had the drain pans, filters and coils checked – all seemed ok. Coils had been cleaned about a month ago.

Please let me know if I should follow-up on this.
Mary Anne

Troy,

Please find attached the report on Southfield. I understand that it came in on 11/9 and we asked them to attach the lab information. I apologize for the delay caused by staff/consultants schedules. As we were told verbally, there is nothing measurable in the results. Please let me know if you need anything else or require further information.

Thanks,

Terri

Subject: RE: Snyder - Flint Water Details

Shaking my head! I bet they wouldn't drink the water, bathe in the water, or even give it to their dogs. Many of the residents are unable to go outside of their community to wash their clothes, so they still use this water for basic living needs, which I'm sure our elected officials wouldn't do. On top of that, they are still paying astronomical water bills for water that is literally killing them! It hurts and my heart goes out to everyone affected!

Optional Attendees: Stanaway, Deb (DTMB); Huhn, Jacqueline (DTMB); McQuaid, John (DTMB); Reasner, Richard (DTMB); Rakowski, Rock (DTMB); Gonzalez, Tonyia (DTMB); Doerr, Stephen (DTMB); Isaacs, Jan (DTMB)

Please note this meeting can be attended in person or via conference call-in. Location and Dial in information are provided below.

All DTMB Custodians of Co...

***This attachment was updated 2/18/16**

*See agenda below

Requested By:
DTMB Executive Staff

Location:
Ottawa Building
Upper Level – Conference Room 4
611 W. Ottawa Street
Lansing, MI 48933

Call-in: 866-390-1828
Access code: 1842654

Security:
Please have your State Employee ID showing at all times.

Parking:
Metered parking is available along Ottawa and Pine street.

Briefing:
In recent months, the State of Michigan has received a number of requests to produce documents related to the water emergency in Flint. You have been identified as a potential custodian of relevant/responsive correspondence and/or documents related to these requests. As a custodian, you are required to produce, by a

certain date, any documents containing certain search terms. In this meeting we will review instructions for the process of identifying, compiling, scanning, and copying the necessary information.

Agenda

1) Kickoff – Brom Stibitz, Chief Deputy Director
2) Why you are here – Jean Ingersoll, Interim Chief of Staff
3) What you need to do (February 22, 2016 deadline) – Jean
4) What will be done for you – Jean
5) What's next – Jean
6) Public Information Reminder – Caleb Buhs, Public Information Officer
7) Questions and Answers - Group

Custodians of Co...

STATE OF MICHIGAN

RICK SNYDER
GOVERNOR

DEPARTMENT OF TECHNOLOGY, MANAGEMENT & BUDGET
LANSING

DAVID B. BEHEN
DIRECTOR

February 17, 2016

TO: All DTMB Custodians of Correspondence Related to Flint

FROM: Jean Ingersoll, Interim Chief of Staff to David B. Behen, Director and CIO

SUBJECT: Flint Document Production – Search Terms and Guidance

In recent months, the State of Michigan has received a number of requests to produce documents related to the water emergency in Flint. You have been identified as a potential custodian of relevant/responsive correspondence and/or documents related to these requests. **As a custodian, you are required to produce any documents containing the search terms listed below, no later than Monday, February 22, 2016.** This memorandum contains detailed instructions for the process of identifying, compiling, scanning, and copying the necessary information.

Microsoft 365 – Outlook (*includes emails, calendar items) and OneDrive*

DTMB staff will centrally coordinate the Microsoft 365 search for all of DTMB's custodians. Therefore, DTMB's custodians *do not need to independently search any of their Microsoft 365 applications* for the search terms listed below.

Network Drives

Similar to the approach outlined above, DTMB staff will centrally coordinate the network drive search effort for all DTMB custodians. Custodians do *not* need to independently conduct a network drive search for the search terms below.

Non-Network Drives – *includes hard drives, desktop, and thumb/flash drives*

For all non-network drive types, ***each custodian will need to search every search term listed below in every non-network format, and move all relevant/related documents in to a network drive for collection. In order to move items to the network, you must be connected to the network.***

Start by conducting the search of all non-network drives, filling out the attached search term checklist as you go. If you need guidance as to how to perform this search, a step-by-step guide is included below in Appendix 1.

All relevant/responsive items that are produced as a result of your search need to be moved to a network drive. You can move your relevant/related documents to a network drive in whatever format the document is currently in. After the February 22, 2016, deadline, DTMB staff will access the network drives to collect the files.

Paper Files

Review all applicable paper files. Scan any relevant/related documents, and save them to a network drive, as described above. If this is not possible, you may provide hard copies of documents to Jean Ingersoll in the Director's Office. These documents must be received in the Director's Office by February 22, 2016, and will not be returned to you.

Home Computer

Any relevant e-mails or other documents on a personal computer also are subject to this request. Please check your personal computer for any e-mails or other documents relating to this search. If you discover any relevant/related documents, please include the phrase "personal computer" in the file name, and save them to the aforementioned network drive.

Conclusion

Thank you for your cooperation in complying with this request. Should you have any questions, please contact Jean Ingersoll at 1-8844.

- FOIA Checklist
- Attachment 1 – Search Guidance

Search Term Checklist

In recent months, the State of Michigan has received a number of requests to produce documents related to the water emergency in Flint. You have been identified as a potential custodian of relevant/responsive correspondence and/or documents related to these requests. As a custodian, you are required to search and copy all items that you identify to a DTMB network drive, as described above.

Please complete your search no later than close of business on Monday, February 22, 2016. Relevant/related items from the past 10 years should be included.

You should search for *each term exactly as it is shown below, and include quotation marks around each separate word.* For example, "Legionnaire", "Legionella", or "Flint" would all go into search fields. After you complete a search term, check the box beside the term.

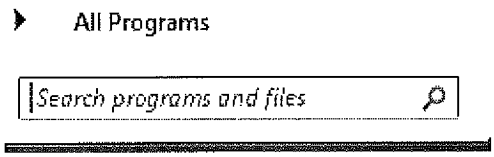
Search Terms:

- ☐ "Legionnaire"
- ☐ "Legionella"
- ☐ "boil water order" & "Flint"
- ☐ "coli" & "Flint"
- ☐ "bacteria" & "Flint"
- ☐ "microb" & "Flint"
- ☐ "TTHM" & "Flint"
- ☐ "Lead" & "Flint"
- ☐ "emergency" & "Flint"
- ☐ "Karegnondi"
- ☐ "Genesee County Health Department"
- ☐ "Flint" & "utilities"
- ☐ "Lead and Copper Rule"
- ☐ "Detroit Water and Sewerage Department" & "Flint"
- ☐ "DWSD" & "Flint"
- ☐ "Flint River"
- ☐ "Pb" & "water"
- ☐ "KWA"

Search conducted on the email account of: _____

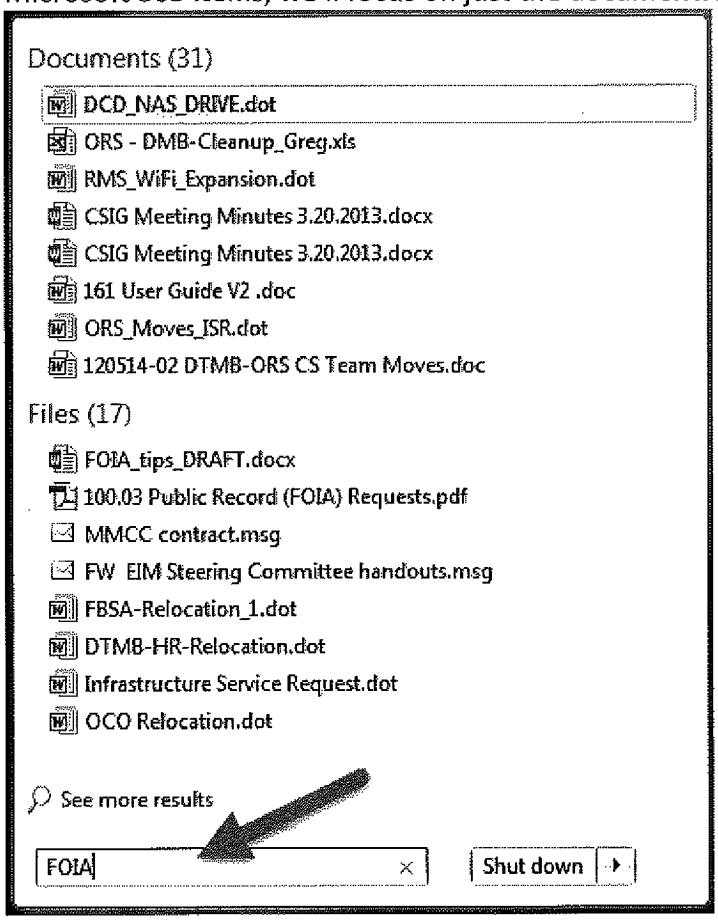
By (your name): _____

Date completed: _____



Please return this completed Checklist to DTMB Director's Office staff by February 22, 2016, at DTMB@michigan.gov, or
Directors Office, Cass Building, Second Floor

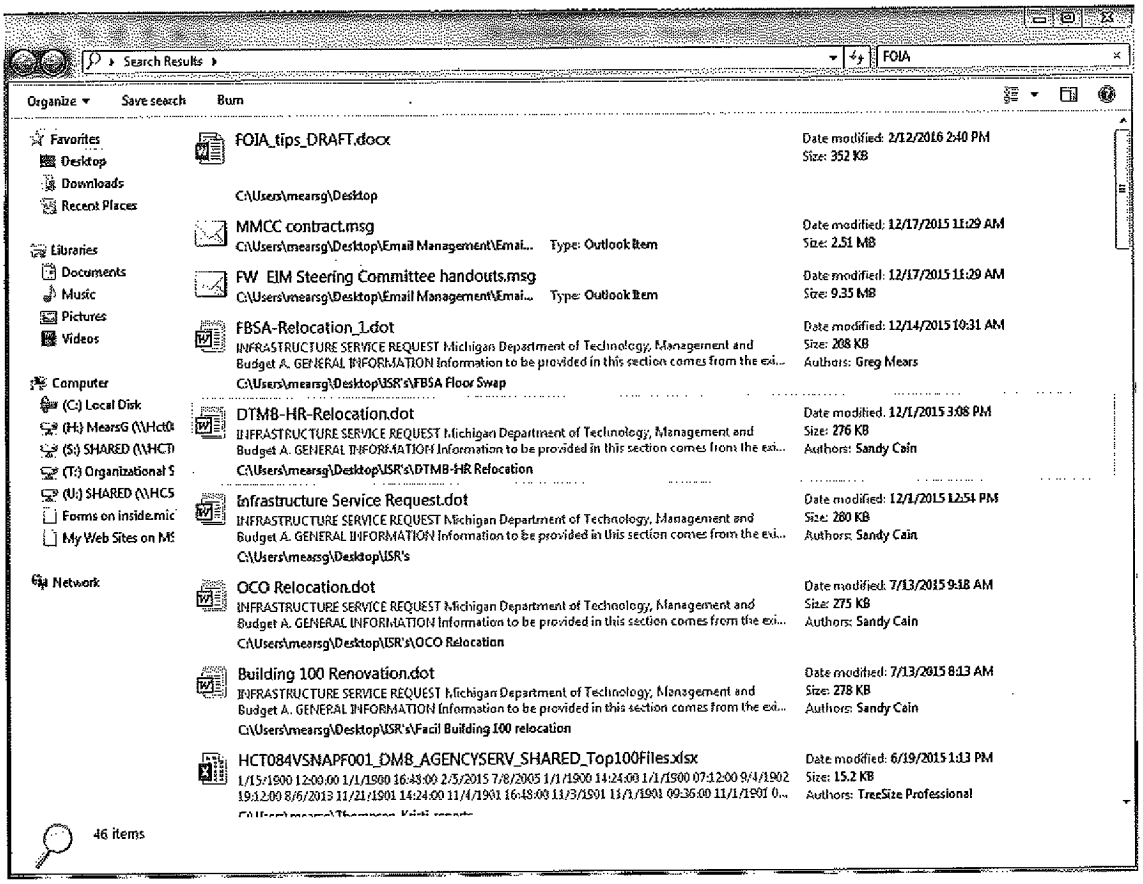
APPENDIX 1 – Search Guidance



Regardless of what version of Windows you're using, each of them has a search feature built in called "Windows Explorer," you see it every time you open up a folder on a network drive, or on your own computer.

Using the search function in windows 7

Since the majority of DTMB is on Windows 7, the examples below are on that operating system. If you click on windows Start button, you'll see the search box right next to it



This example searches for the word FOIA. As you can see, the search yielded numerous documents including emails. Since DTMB is centrally collecting relevant emails and other Microsoft 365 items, we'll focus on just the documents.

You need to open each document to make sure that it's relevant. In this instance, the search brought up a DTMB Move form, but only because it has the word FOIA in the form.
You'll notice that the words "See more results" appears at the bottom of the list. This means that the search turned up a lot more documents than what can easily be displayed. You must

click on the link to open Windows Explorer and reveal a comprehensive list, along with their locations.

As you can see from this example the search found 46 items. We can now select them all using the "Ctrl-A method", and copy them to a network drive.

SUBJECT: Flint Document Production – Search Terms and Guidance

In recent months, the State of Michigan has received a number of requests to produce documents related to the water emergency in Flint. You have been identified as a potential custodian of relevant/responsive correspondence and/or documents related to these requests. **As a custodian, you are required to produce any documents containing the search terms listed below, no later than Monday, February 22, 2016.** This memorandum contains detailed instructions for the process of identifying, compiling, scanning, and copying the necessary information.

Microsoft 365 – Outlook (*includes emails, calendar items) and OneDrive*

DTMB staff will centrally coordinate the Microsoft 365 search for all of DTMB's custodians. Therefore, DTMB's custodians *do not need to independently search any of their Microsoft 365 applications* for the search terms listed below.

Network Drives

Similar to the approach outlined above, DTMB staff will centrally coordinate the network drive search effort for all DTMB custodians. Custodians do *not* need to independently conduct a network drive search for the search terms below.

Non-Network Drives – *includes hard drives, desktop, and thumb/flash drives*

For all non-network drive types, ***each custodian will need to search every search term listed below in every non-network format, and move all relevant/related documents in to a network drive for collection. In order to move items to the network, you must be connected to the network.***

Start by conducting the search of all non-network drives, filling out the attached search term checklist as you go. If you need guidance as to how to perform this search, a step-by-step guide is included below in Appendix 1.

All relevant/responsive items that are produced as a result of your search need to be moved to a network drive. You can move your relevant/related documents to a network drive in whatever format the document is currently in. After the February 22, 2016, deadline, DTMB staff will access the network drives to collect the files.

Paper Files

Review all applicable paper files. Scan any relevant/related documents, and save them to a network drive, as described above. If this is not possible, you may provide hard copies of documents to Jean Ingersoll in the Director's Office. These documents must be received in the Director's Office by February 22, 2016, and will not be returned to you.

Home Computer

Any relevant e-mails or other documents on a personal computer also are subject to this request. Please check your personal computer for any e-mails or other documents relating to this search. If you discover any relevant/related documents, please include the phrase "personal computer" in the file name, and save them to the aforementioned network drive.

Conclusion

Thank you for your cooperation in complying with this request. Should you have any questions, please contact Jean Ingersoll at 1-8844.

Attachments

- FOIA Checklist
- Attachment 1 – Search Guidance

Search Term Checklist

In recent months, the State of Michigan has received a number of requests to produce documents related to the water emergency in Flint. You have been identified as a potential custodian of relevant/responsive correspondence and/or documents related to these requests. As a custodian, you are required to search and copy all items that you identify to a DTMB network drive, as described above.

Please complete your search no later than close of business on Monday, February 22, 2016. Relevant/related items from the past 10 years should be included.

You should search for *each term exactly as it is shown below, and include quotation marks around each separate word.* For example, "Legionnaire", "Legionella", or "Flint" would all go into search fields. After you complete a search term, check the box beside the term.

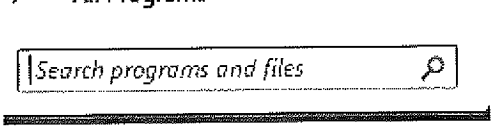
Search Terms:

- ☐ "Legionnaire"
- ☐ "Legionella"
- ☐ "boil water order" & "Flint"
- ☐ "coli" & "Flint"
- ☐ "bacteria" & "Flint"
- ☐ "microb" & "Flint"
- ☐ "TTHM" & "Flint"
- ☐ "Lead" & "Flint"
- ☐ "emergency" & "Flint"
- ☐ "Karegnondi"
- ☐ "Genesee County Health Department"
- ☐ "Flint" & "utilities"
- ☐ "Lead and Copper Rule"
- ☐ "Detroit Water and Sewerage Department" & "Flint"
- ☐ "DWSD" & "Flint"
- ☐ "Flint River"
- ☐ "Pb" & "water"
- ☐ "KWA"
- ☐ "Flint" & "water"

Search conducted on the email account of: _____

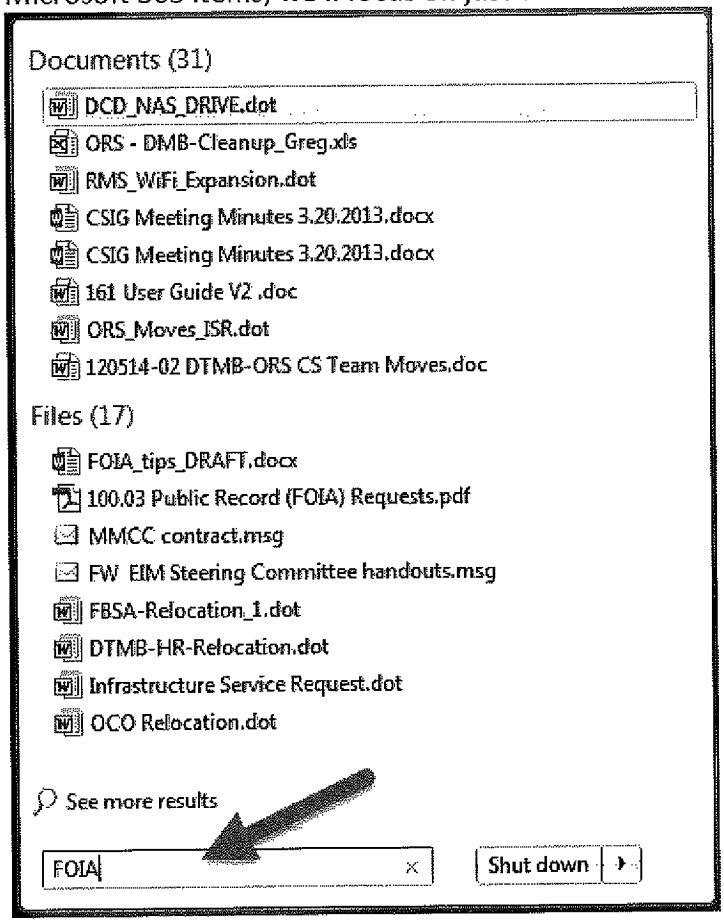
By (your name): _____

Date completed: _____



Please return this completed Checklist to DTMB Director's Office staff by Monday, February 22, 2016, at DTMB@michigan.gov, or Directors Office, Cass Building, Second Floor

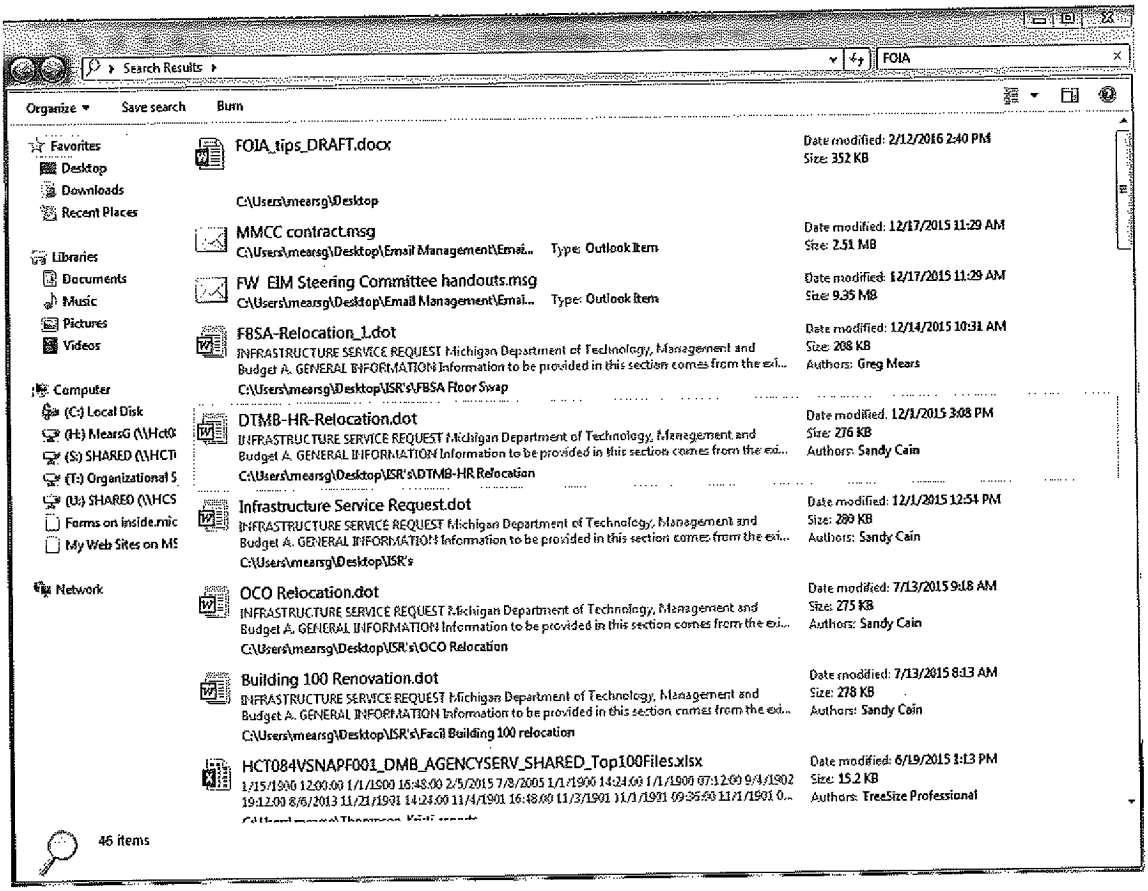
APPENDIX 1 – Search Guidance



Regardless of what version of Windows you're using, each of them has a search feature built in called "Windows Explorer," you see it every time you open up a folder on a network drive, or on your own computer.

Using the search function in windows 7

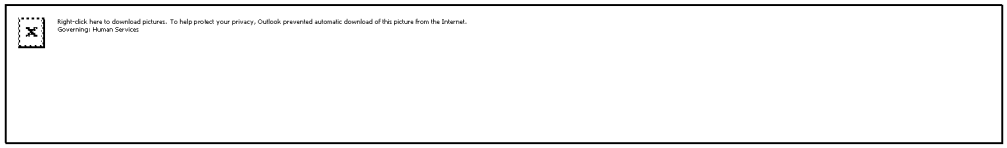
Since the majority of DTMB is on Windows 7, the examples below are on that operating system. If you click on windows Start button, you'll see the search box right next to it



This example searches for the word FOIA. As you can see, the search yielded numerous documents including emails. Since DTMB is centrally collecting relevant emails and other Microsoft 365 items, we'll focus on just the documents.

You need to open each document to make sure that it's relevant. In this instance, the search brought up a DTMB Move form, but only because it has the word FOIA in the form.
You'll notice that the words "See more results" appears at the bottom of the list. This means that the search turned up a lot more documents than what can easily be displayed. You must

click on the link to open Windows Explorer and reveal a comprehensive list, along with their locations.



As you can see from this example the search found 46 items. We can now select them all using the "Ctrl-A method", and copy them to a network drive.

THIS WEEK IN POLITICS

Flint Fallout, Corruption in Court and One State's New Supermajority

BY ALAN GREENBLATT

This was a busy week in politics -- but then, practically every week is. That's why *Governing* is offering this new weekly newsletter.

We won't cover the presidential campaign -- you can find plenty of that elsewhere. Instead, we aim to share with you the most interesting and important developments in state and local politics each week.

You can sign up for a free subscription here.

ADVERTISEMENT ... Content continues below

Flint Curbs Snyder's Future

Although it's premature to call him a lame duck, Michigan Gov. Rick Snyder's political capital has clearly been diminished by the Flint water crisis. During his State of the State address on Tuesday, Snyder offered lots of apologies: "You did not create this crisis;" "Government failed you;" and, "I'm sorry."

Since winning re-election in 2014, Snyder had been mentioned as a potential presidential or vice presidential pick on the Republican side. That kind of talk, however, has abruptly ended. "Even some Michigan Republicans concede that Snyder's national prospects are toast, at least in the short term," reports *Politico*. **KEEP READING >>**

THIS WEEK IN POLITICS

Top Officials at Risk and Unresolved 2016 Election Maps

BY ALAN GREENBLATT

Statewide Officials Find Themselves at Risk

Executive branch jobs are generally more stable than legislative positions. But some didn't seem too secure this week.

In Michigan, the drumbeat of complaints about Republican Gov. Rick Snyder just keep getting louder. On Monday, the Board of State Canvassers approved one of many recall petitions, which gives Snyder's critics a green light to collect signatures to put a recall measure on the November ballot. The approved petition has to do with education, but any recall campaign will focus squarely on how Snyder has handled the Flint water crisis.

In Indiana, Republican Gov. Mike Pence, who is up for re-election this fall, picked a new running mate this week after his quit. Lt. Gov. Sue Ellspermann is up for a job running a community college system, so Pence turned to Eric Holcomb, a former chair of the state GOP, to shore up his ties with party activists.

"By selecting Holcomb as his running mate, Pence sent a clear message about how endangered his political career is," wrote Matthew Tully, a columnist with the *Indianapolis Star*.

Pence is being challenged by Democrat John Gregg, a former House speaker.

DATA NOT AVAILABLE

PERFORMANCE IMPROVING
PERFORMANCE STAYING THE SAME
PERFORMANCE DECREASING

Reasons and Planned Actions for
UNDERPERFORMING OUTCOMES

Financial

Metric	Annual Target	Adj. Target*	Current	Previous
Incented Jobs	22,650	9,370	11,681	8,335
Economic Gardening Jobs**	11,510	3,063	3,312	3,312
Regional Wage Increase	$1.60	$1.60	$0.81	$1.27
Private Investment	$3,815.6M	$1,578.5M	$1,771.4M	$1,290.1M

Reasons for Underperformance

1. Six of the ten regions have lower than average wages. Regions Northwest, Northeast, South Central and Upper Peninsula have a total of nine projects and this small sample size is impacting the overall regional wage increase.
2. Several large BDP and CRP/ TIF projects with below average regional wages are driving the underperformance of wages in West Michigan Region.
3. Two large projects (Project Pork and Project BRK) in the Southwest region are driving underperformance of wages in the region.

Planned Actions to "Get to Green"

1. Community Development and Business Development plan to elevate regional wages as a factor when considering and structuring incentives for future deals.

Other Context

1. Northwest, Northeast and South Central primarily contain community development deals that are designed to drive downtown private investment and downtown revitalized square footage, not jobs and wages.

* Prorated target is the annual target prorated for the current date; e.g., an annual target of 365 is adjusted to 31 on the 31st day of the fiscal year

**Data is updated quarterly. Data is current as of January 31, 2015.

Reasons and Planned Actions for
UNDERPERFORMING OUTCOMES

Operational

Metric		Annual Target	Adj. Target*	Current	Previous
High-Tech Business Starts		252	104	82	66
Deployed Capital		$275.4M	$113.9M	$101.9M	$76.8M
Leverage Ratio		10.1 to 1	10.1 to 1	15.6 to 1	13.7 to 1

Reasons for Underperformance

1. Monthly reporting by service providers is not timely and certain providers are reporting late.
2. A transition issue exists due to the termination of some grants that are being replaced with new grants that will over time spur business starts. Terminated grants are only required to report on a yearly basis at the end of the fiscal year in October.

Planned Actions to "Get to Green"

1. Discussions are ongoing with service providers and a quarterly meeting is scheduled for March 11th specifically to assess, identify and develop programs to ensure the continued creation of start-up businesses.
2. For new grants, the addition of a Milestone that requires monthly and 6-month progress reports to be completed on time and accurately will be mandatory and it is being considered to amend existing grants to add this milestone.

Other Context

1. Discussions were held in December at the quarterly service providers meeting regarding expectations of business starts for FY15 and no concerns were raised regarding meeting the targets.
2. While deployed capital is in "yellow," this is not necessarily a concern. Leverage ratio, private investment and jobs are in "green" which are the primary outcomes that deployed capital is used to drive.

* Prorated target is the annual target prorated for the current date; e.g., an annual target of 365 is adjusted to 31 on the 31st day of the fiscal year

**Data is updated quarterly. Data is current as of January 31, 2015.

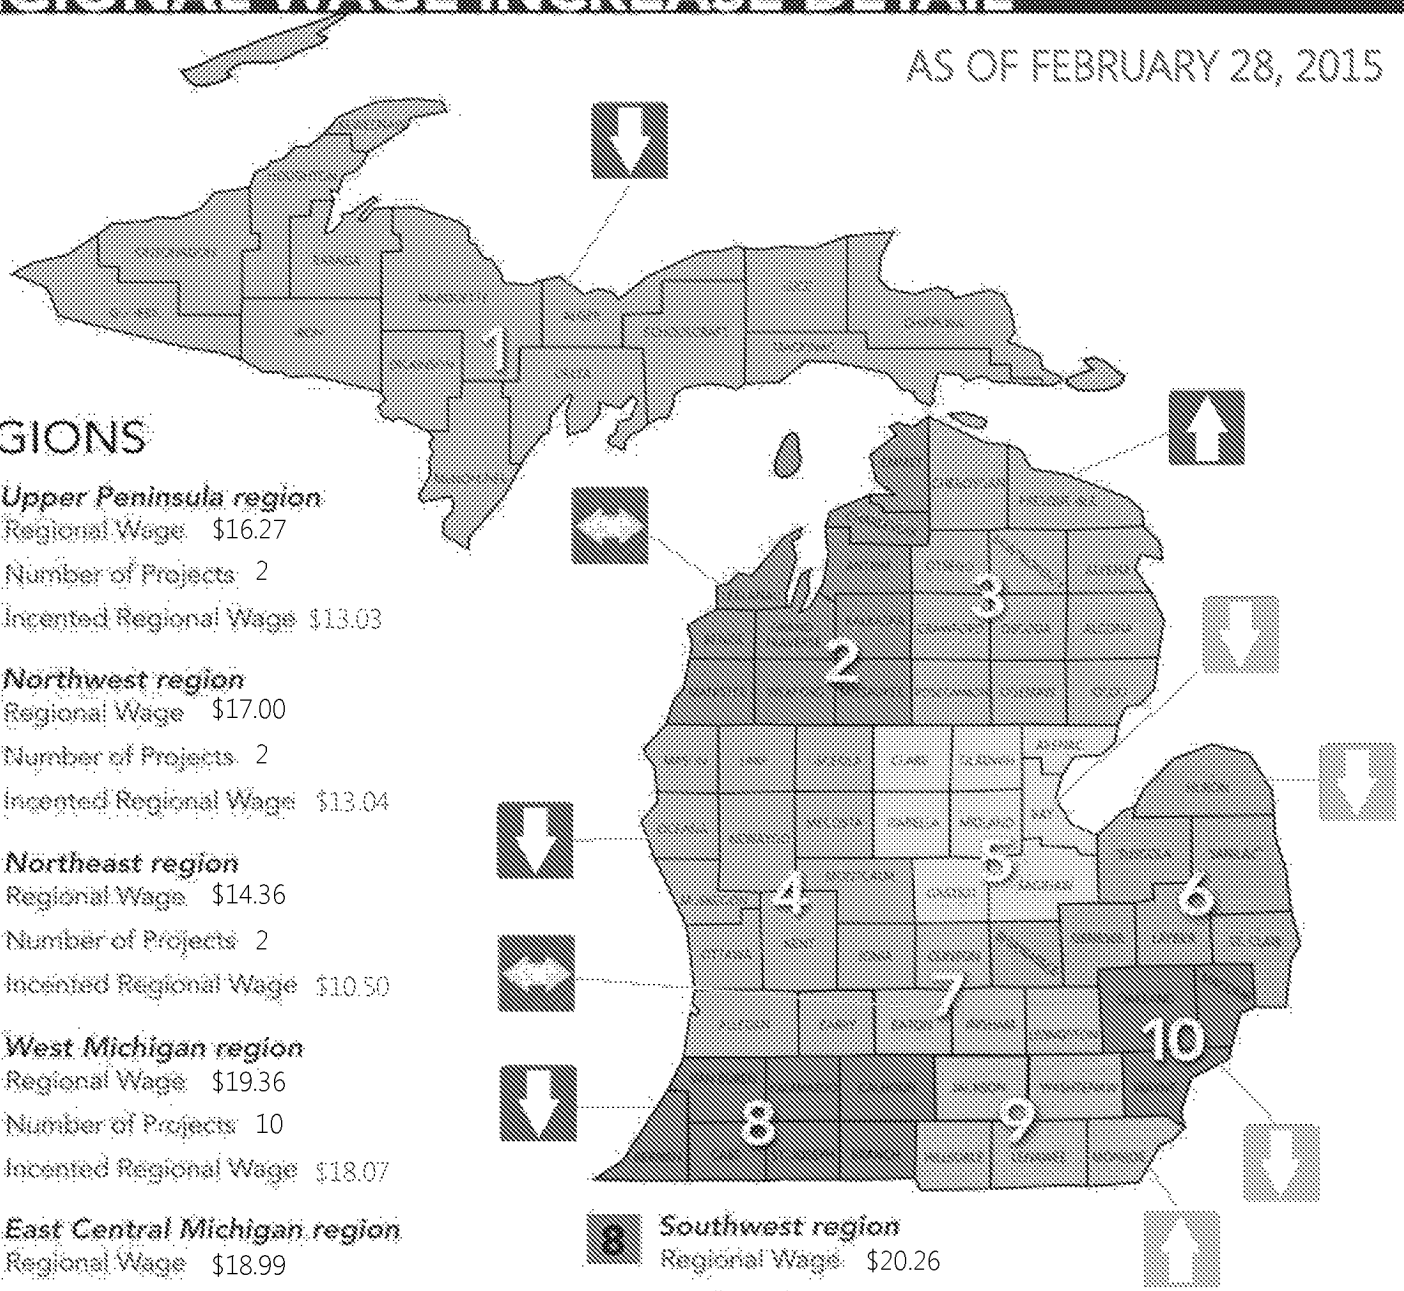
INCENTED JOBS AND INVESTMENT PIPELINE SUMMARY

FY15 Incented Jobs Target = 22,650

Stage		Jobs Committed	Investment (millions)
1 Qualified Projects 72	Don't report jobs	12,889	$13,323.6
2 Packaging Projects 58		3,279	$991.1
3 Commitment Projects 53	Report jobs	3,451	$797.6
4 Monitoring Projects 77		2,764	$411.4
5 Ended Projects 53		332	$209.5
Total		22,715	$15,733.2



* Jobs and investment are included in reporting if the Opportunity is in Stage 3, 4, or 5 (project is approved by Delegation or MSF Board)

Appendix D:

REGIONAL WAGE INCREASE DETAIL

AS OF FEBRUARY 28, 2015

REGIONS

1 ***Upper Peninsula region***
Regional Wage $16.27
Number of Projects 2
Incented Regional Wage $13.03

2 ***Northwest region***
Regional Wage $17.00
Number of Projects 2
Incented Regional Wage $13.04

3 ***Northeast region***
Regional Wage $14.36
Number of Projects 2
Incented Regional Wage $10.50

4 ***West Michigan region***
Regional Wage $19.36
Number of Projects 10
Incented Regional Wage $18.07

5 ***East Central Michigan region***
Regional Wage $18.99
Number of Projects 4
Incented Regional Wage $25.93

6 ***East Michigan region***
Regional Wage $17.72
Number of Projects 7
Incented Regional Wage $20.67

7 ***South Central region***
Regional Wage $19.84
Number of Projects 3
Incented Regional Wage $12.70

8 ***Southwest region***
Regional Wage $20.26
Number of Projects 9
Incented Regional Wage $16.73

9 ***Southeast Michigan region***
Regional Wage $21.33
Number of Projects 3
Incented Regional Wage $26.05

10 ***Detroit Metro region***
Regional Wage $25.65
Number of Projects 44
Incented Regional Wage $29.03

> ## Wyant Resigns In Wake Of Flint Water Crisis
>
> Department of Environmental Quality Director Dan Wyant has resigned in response to the water crisis that erupted three months ago in Flint.
>
> "MDEQ Director Dan Wyant has offered his resignation, and I've determined that it's appropriate to accept it. I'm also making other personnel changes at MDEQ to address problems cited by the task force," Governor Rick Snyder said in a statement.
>
> "But changes in leadership and staff are not enough. I understand there can be disagreements within the scientific community. That is why I have directed both the departments of Environmental Quality and Health and Human Services to invite every external scientist who has worked on this issue to be our partners in helping us improve Flint water," Mr. Snyder said. "Let's share research on water and blood lead level testing so we can arrive at accurate and

mutually supported conclusions. Together, we should work to affirm that we're using the very best testing protocols to ensure Flint residents have safe drinking water and that we're taking steps to protect their health over the short and long term."

The DEQ has come under major criticism for how it handled testing for lead in Flint drinking water after the city switched to the Flint River as its water source. The water was not properly treated for corrosion, causing lead to leach from service lines into the drinking water.

"I want the Flint community to know how very sorry I am that this has happened. And I want all Michigan citizens to know that we will learn from this experience, because Flint is not the only city that has an aging infrastructure," Mr. Snyder said. "I know many Flint citizens are angry and want more than an apology. That's why I'm taking the actions today to ensure a culture of openness and trust. We've already allocated $10 million to test the water, distribute water filters, and help in other ways. Last week, I called Flint Mayor Karen Weaver, and we're going to meet soon to discuss other ways the state can offer assistance."

Gongwer News Service will have more on this story in today's Michigan Report.

Subject: Data

I thought you may want to see this.

State employees who are caught manipulating data could be convicted of a felony under legislation Rep. Phil Phelps plans to introduce, he announced Monday.
Mr. Phelps (D-Flushing) said in a statement the legislation prevents government corruption by making it a felony for any state employee to knowingly manipulate data that would change the outcome of an official report. The felony would be punishable by up to five years in prison.
"As we began to comb through all of the facts surrounding Flint's water crisis it was frightening to learn that there were very few laws on our books that protect the public from potential government abuse such as data manipulation," Mr. Phelps said. "I am not sure if anyone involved in the Flint water crisis deliberately changed or removed critical data in state reports, but I am absolutely certain that it should be a crime if it did happen."
Mr. Phelps said he plans on introducing the legislation when the House resumes session next week.
"Protecting Michigan residents should be our highest priority, yet the Auditor General recently noted that potential bad actors in our government merely stand to lose their jobs, even if they put innocent lives in jeopardy," he said. "As elected leaders we must send out a signal to everyone letting them know that we will not tolerate this form of injustice."

David –

Wanted you to be aware. Jeannette Doll reached out to me earlier today and indicated the staff handling the calls and responses at the DEQ's emergency command team in the Flint SOB are going to be relocating to a nearby room on the 5th Floor Conf. Room. The assigned space was too small for their needs. The adjoining room is anticipated to accommodate them satisfactorily.

Jeannette asked if we could move the MLAN, cabling, IPT, etc. to the larger room first thing Monday morning, Jan. 11. I've asked Tom Hengesbach, who did the initial set-up, to be on-site asap Monday. He anticipates arriving at 7:00 a.m. and should take him less than 1 hour to move everything over and have it ready for staff by 8:00 a.m. This arrangement was more than acceptable to Jeannette.

Regards.

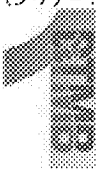
One final note about NTSD's response to the request for an Emergency Command Center:



Jeannette Doll contacted me earlier this morning and asked if the data network, cabling and phones could move today as the PIOs wanted to start staffing the phones earlier on Monday.

Tom Hengesbach went on-site this afternoon and moved the equipment and phones, he completed this relocation around 4:30 p.m. Tom epitomizes customer service and working with a sense of urgency, I am proud to have him on the team with this work ethic.

Additional team members that went over-and-above to support the "call-to-action" to stand up the command center:

Jay Salmon
Stacy Kucharek
Joann Spenski
Patrick Horgan
Quy-Chuang Phuong

Subject: Volunteer Opportunity in Flint

The State Emergency Operations Center (SEOC) is coordinating a response to the ongoing health and safety issues in the city of Flint's drinking water. Teams from the Michigan State Police, Genesee County Sheriff's Department, Michigan Department of Health and Human Services, and volunteer organizations have been delivering bottled water, water filters, replacement cartridges and water testing kits at homes in the city of Flint since Tuesday.

To help with this critical work, the SEOC is looking for volunteers to expand this effort and continue this distribution during the upcoming holiday weekend. Teams are being assembled for shifts on Saturday, January 16; Sunday, January 17; and Monday, January 18, 2016. If you are interested in volunteering your time for this critical work, please complete the information in one of the attached surveys (depending on which day you are volunteering).

To volunteer on Saturday, January 16, https://www.surveymonkey.com/r/28NVJBL

To volunteer on Sunday, January 17, https://www.surveymonkey.com/r/26NMJKK

To volunteer on Monday, January 18, https://www.surveymonkey.com/r/26P7P5G

Volunteers will begin their assignment at the Local Emergency Operations Center located in the Genesee County Administration Building located at 1101 Beach St, Flint at 9 a.m. and end by 4 p.m. Parking is available at the corner of Beach Street and 8th Street. Lunch will be provided. This is strictly a volunteer effort, as all three days will be unpaid. Volunteers are responsible for their own transportation; mileage reimbursement for personal vehicles is not authorized. Volunteers should dress for working outdoors and wear foot attire appropriate for walking.

This opportunity is for state employees and their immediate family members 16 years of age or older only, others looking to assist should volunteer through the American Red Cross in Flint. The volunteer coordination center for the Red Cross is located at 1401 S. Grand Traverse, Flint, MI. They are open from 9 a.m. to 7 p.m.

For more information on the state's response efforts, visit www.michigan.gov/flintwater.

Tuesday, January 19, 2016, 03:17 PM

$28M Flint Supplemental Expected In House Approps Wednesday

A $28 million supplemental to fund various Flint needs as it continues to work through its ongoing water crisis is expected to be taken up in the House Appropriations Committee on Wednesday.

Budget Director John Roberts formally submitted today the requested supplemental to the chairs of the House and Senate Appropriations committees.

The supplemental would provide funding for various initiatives, according to information obtained by Gongwer News Service. In total, the supplemental is $28.03 million with $22.63 million from the General Fund.

It would provide:

- $935,000 in General Fund dollars for hiring nine additional school nurses and two Early On service coordinators, a psychologist and a health professional to coordinate the provision of wrap around services. The funds would also provide fresh fruit and vegetables to the Genesee Intermediate School District;

- $5.79 million from the General Fund for an infrastructure integrity study to assess the status of the Flint water system and additional lab and testing costs in the Department of Environmental Quality. The funds would also assist the city in paying for corrosion control procedures for one year and potentially help with utility issues and water system needs;
- $17.2 million ($2.85 million in federal, $2.55 million in state restricted revenues and $11.8 million in General Fund revenues) to help with purchasing of bottled water, water filters and replacement cartridges; Department of Health and Human Services field operations costs; epidemiological analysts and case management of those with elevated lead blood levels; nutrition support; support for child and adolescent health centers; assessment of potential links to other diseases; food inspections and crisis counseling;
- $2 million in General Fund for emergency efforts related to the water system, specifically purchasing and replacing plumbing fixtures in schools, child care and adult foster care centers, nursing homes, dialysis centers and surgery centers in the city;
- $2 million in General Fund dollars to address immediate needs, including paying for the National Guard's role in providing support for three months; and
- $100,000 in General Fund dollars for the Flint Water Interagency Coordinating Committee.

It was also indicated this would be the first of multiple supplemental appropriations to address the ongoing crisis in Flint.

Gongwer News Service will have more on this story in Tuesday's Michigan Report.

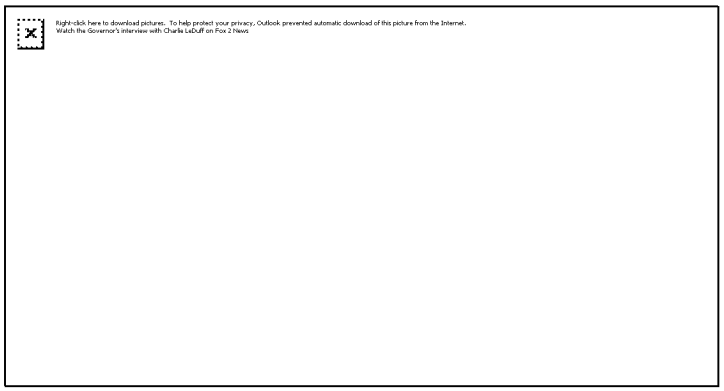
How we are fixing the Flint water crsis

Governor Rick Snyder has committed to spending the rest of his time as Governor to fixing the Flint water crisis. Over the last few days, he has sat down to explain what happened and how we're fixing the Flint water crisis. Watch the interviews below and be sure to read the Governor's Op-Ed in the USA Today.

Governor Snyder on Morning Joe

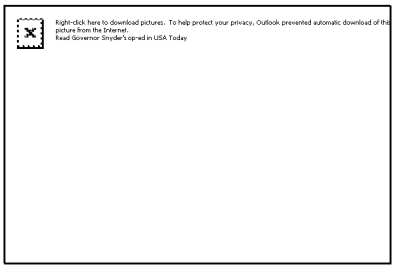


"What is so frustrating and what makes you so angry is you have a handful of experts who were career civil servants that made terrible decisions, in my view. We have to live with the consequences, and they worked for me, so I accept that responsibility. We are going to fix this problem." Watch Governor Snyder address how we are fixing the Flint water crisis on Morning Joe.

Governor Snyder with Charlie LeDuff on Fox 2 Detroit

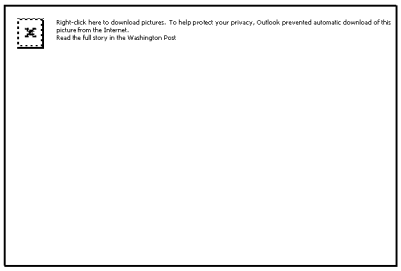
"I feel awful about this. These are people. They've been harmed. You can't feel good about that. The people of Flint have been harmed and a major influence of that harm

came from people who worked for me, and I feel responsible for that. But I am committed to solving the problem and addressing the damage as much as possible for the rest of the time I'm Governor." Watch Governor Snyder address the Flint water crisis with Charlie LeDuff on Fox 2 News.



Governor Snyder's 2016 State of the State

"Michiganders don't quit, we don't give up, instead we will work with even more passion and commitment to truly improve our state. For everyone who's chosen to make Michigan their home, this is more than a promise, this is my commitment." Watch Governor Snyder's full closing statement from his 2016 State of the State address.



Governor in USA Today: "I will fix this, and I mean it."

"Residents in one of Michigan's proud cities cannot drink their water. That's unacceptable. The crisis in Flint arose from missteps at all levels of government — local, state and federal. But as governor, I take responsibility for what these families are going through, and I'm holding people in my administration accountable for their failures." Click here to read the Governor's full op-ed.

Washington Post: "Michigan Gov. Rick Snyder is in a tough spot, but he's his own best spokesman"

Snyder has born the brunt of criticism in the local health crisis that has turned into a national scandal. But unlike many other politicians facing crises of leadership, Snyder may also be his own best counter-programming. Click here to read the full story in the Washington Post.

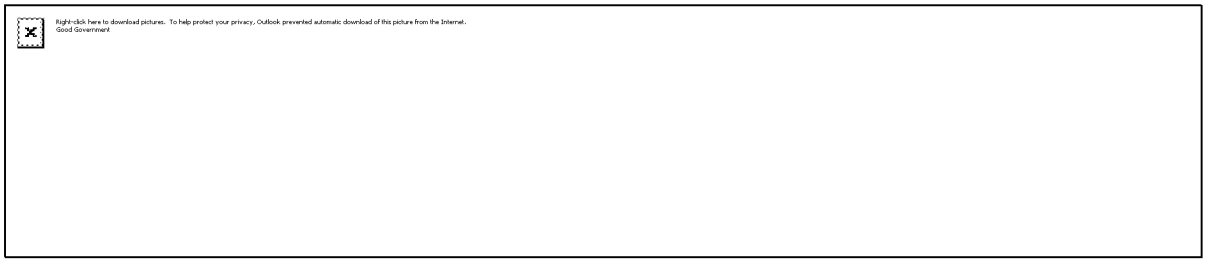
Subject: Flint Volunteer Efforts

Dear State Employees,

Gov. Rick Snyder and I want to thank everyone who donated their time during the holiday weekend to deliver bottled water, water filters, replacement cartridges and water testing kits to families in the city of Flint. We are working hard to ensure all residents are provided with the safe water resources they need, and each donation and hour of your time volunteered goes a long way.

For employees who would like to help the residents of Flint, there are several opportunities to do so. Please visit www.helpforflint.com to learn how you can help.



For additional information and updates, visit www.michigan.gov/flintwater.

Again, thank you for all your support.

Sincerely, Mike Zimmer
Office of Good Government Director
Dept. of Licensing and Regulatory Affairs Director

This is just to update you on some steps we have taken since the call this morning.

MSP will be taking the lead on monitoring any online communication amongst the Anonymous group or threats made by them (Twitter accounts, YouTube, chat rooms, podcasts, hashtags, etc.). I have directed the MIOC commander to assign criminal intelligence analysts to assist the MC3 with this intelligence gathering and monitoring. We will notify the group on anything that merits immediate notification.

We will also be creating a product that lists the known threats and online pseudonyms. We intend for this to be a "living document" that we can update and distribute to the group. It can also be used for MSP briefs on conference calls. If your staff identifies a relevant online posting over this weekend, please have them send it to buddeB1@michigan.gov and EllisJ3@michigan.gov to have it added. We will have a more permanent solution for sharing information on Monday.

Additionally, we will continue to investigate the disruptions that have already occurred. We will brief on this (to the extent we can) as well.

Best,

Dave

> Good afternoon. You have likely seen the media reports regarding the threats being made by through Twitter and YouTube to attack and take down Michigan.gov and other websites related to state government and the City of Flint. I sent you an email last weekend to inform you of the DDOS attack that we experienced on Saturday that briefly took our sites offline.
>
> We experienced another attempt to bring our sites down late last night. At 11:28 p.m. michigan.govbecame inaccessible. Our partners at IBM responded immediately and access was restored at 11:56 p.m.We continue to closely monitor all available data and

are prepared to respond to any additional attacks quickly. I am committed to keeping you updated as things happen.

Effective cybersecurity is a complete team effort. It is imperative that you and your teams are following proper security protocols for the state, and our employees, to stay safe. Recent data shows that 95 percent of cyber breaches are caused by human error such as emailing sensitive documents, clicking on phishing scams and inappropriately using flash drives.

Here are a few tips to protect you both personally and professionally:

- Choose strong passwords and change them often. A strong password uses a combination of letters, numbers, and symbols (when allowed) and does not include a person's name or other commonly known information such as their children's or pet's names.
- Do not use the same password for multiple accounts.
- Be aware of possible phishing attacks. If you receive an email claiming to be from email provider, bank, or other frequented website, and asks you to change your account password or update account information, make sure the email is legitimate. To be safe, go directly to websites to change your password, and type the link yourself rather than clicking on links embedded in emails.
- Be on the lookout for other people accessing your personal accounts. Monitor email and social media accounts for suspicious messages or messages appearing from you, but that you did not send. Monitor bank and credit card accounts for unauthorized charges.
- Be observant in state office buildings for anything unusual. Do not let in anyone without a valid state ID.

Please contact me if you have any questions or need additional information - 517-282-0194.

Thanks,
David

On Jan 17, 2016, at 6:00 PM, Behen, David (DTMB) <Behend@michigan.gov> wrote:

> Good evening. On Saturday, January 17, Michigan.gov experienced a DDoS attack, or distributed denial of service, which is intended to disrupt

the services of an internet site. This effort caused performance slowdowns and briefly made the sites unavailable to users. The incident did not impact internal state systems and did not put any sensitive data at risk.

Due to the recent DDOS attacks against Michigan.gov, I'm encouraging you and all department directors to assess your online safety habits and ensure you are doing everything you can to stay safe. Many times after an attack like the one we experienced the perpetrators turn to other tactics like "doxing" to antagonize the target organization.

"Doxing is the act of publishing someone's personal information, of which there would be a reasonable expectation of privacy and dubious value to the conversation, in an environment that implies or encourages intimidation or threat."

This includes information that may arguably be easy to find, such as a home address from a WhoIs lookup or personal photos from Facebook. Doxing is less about the availability of the information and more about the way it's used to intimidate or harass a target.

Political doxing is happening more and more these days, often targeting high-profile government officials.

Below are a few tips to help you stay safe.

- Be aware of security and privacy settings on your accounts. Be selective about who you share information with and limit how often you post about your location (especially if it's your home).

- Routinely update computers, devices, and software with the latest security fixes.
- Use anti-virus software.
- Pay close attention to links and attachments in email messages. Do not open anything that looks even remotely suspicious. If it's legitimate, the person can always send it again.
- Also be cautious of social engineering with phone calls claiming to be from something familiar to you and asking for personal information
- Add protection to your email, social media, and online bank accounts using two-factor authentication techniques.
- Choose unique, strong passwords for each of your accounts and change your passwords regularly.
- Remember that anything you post on social media might be used against you. Once it's online, you cannot take it back.

Please contact me anytime if you have any questions or need additional information at 517-282-0194.

Thank you,
David

> I have a meeting set up for 8:00 am Monday morning to meet with the clerk and his IT folks. I would like someone with expertise or knowledge in the area of database information extraction from your shop to meet me there if possible. The Genesee County Clerks office is located at 900 S. Saginaw St. Flint Mi on the second floor of the county administration building.
>
> The software that the Clerk/register of Deeds is using is through a company out of Ohio "Document Technology Systems or DTS". I have called the company's owner Pat Kelly on his cell 330-472-3811 and explained in a voicemail message that we need some information on the types of databases they utilize prior to the Monday meeting. John Geason the County Clerk is down with the flu today but is assisting me in getting in contact with this company. Mr. Gleason indicated that he will also assist in connecting us to the new IT Director for the County Monday

morning, unfortunately he does not have his cell # to contact him this weekend. As I get more info I will pass it on. When Mr. Kelly returns my call who should I connect him to so our folks can discuss the databases, extraction etc., i would like to connect the data folks to him yet this weekend if possible.

Your assistance in this matter is greatly appreciated.

Thank you,
Gary Hagler

Rodney, All,

I have a meeting set up for 8:00 am Monday morning to meet with the clerk and his IT folks. I would like someone with expertise or knowledge in the area of database information extraction from your shop to meet me there if possible. The Genesee County Clerks office is located at 900 S. Saginaw St. Flint Mi on the second floor of the county administration building.

The software that the Clerk/register of Deeds is using is through a company out of Ohio "Document Technology Systems or DTS". I have called the company's owner Pat Kelly on his cell 330-472-3811 and explained in a voicemail message that we need some information on the types of databases they utilize prior to the Monday meeting. John Geason the County Clerk is down with the flu today but is assisting me in getting in contact with this company. Mr. Gleason indicated that he will also assist in connecting us to the new IT Director for the County Monday morning, unfortunately he does not have his cell # to contact him this weekend. As I get more info I will pass it on. When Mr. Kelly returns my call who should I connect him to so our folks can discuss the databases, extraction etc., i would like to connect the data folks to him yet this weekend if possible.

Your assistance in this matter is greatly appreciated.

Thank you,
Gary Hagler
Law Enforcement Chief, MDNR
Emergency Management Coordinator for MDNR and MDEQ

Subject: RE: Meeting with Genesee county clerk

All,

I met with Gary Hagler today in Flint to review a potential data opportunity that did not pan out. The source we met with had information but none of it that dated back to the 1950's and was in a format that we could readily use with today's technology. Recognizing that the effort may be to labor intensive Gary is following up on other leads.

While I was there I did see the EOC and meet with members of the plumbers union that were going out to individual houses and installing water filters. Today, they were also going to start collecting information on what type of pipe is being used to bring water into the house.

Although I was unable to help Gary with his request I did have these takeaways from what little I saw while in the field:

The plumbers union was using an IPad app provided by MSP to record data that was collected on paper forms in the field. While trying to demonstrate the app they were unable to locate the first address they tried. Once an address was found they used pick fields to set the values for several questions. Currently the form did not have a place to set which type of water pipe is coming into the home so I suggested that they type into the comments the following string signature until the app can be updated to collect that information:

pipe=C*

*C for copper, G for galvanized, L for lead, U for unknown

This will make it possible to perform an in string search for "pipe=" and then take the next character to determine what pipe information there is.

I am uncertain of the address source being used within the app although if I had to guess I would say it was a parcel layer. I would also suggest that if that is the case then the addresses assigned to those parcels should be passed through an address standardizer and validation such as SAP (which is a shared service from CSS and that team is willing to run the Flint data). Running those addresses through SAP should improve the quality by standardizing the address, updating street name and postal code changes and flagging any addresses that are non-deliverable.

The plumbers also indicated that apprentices were coming every day now to volunteer time as part of their career training and that they also expect many of their sister unions to volunteer time as well. Which will mean an increase in the amount of houses being processed and data having to be entered. My concern here is that there is so much manual reentry of collected paper data that the process will bog down. I see three scenarios in which this problem could be alleviated:

- Provide more devices to renter the data (Likely the easiest solution to implement, keeps the point of entry to a select few that know how to work the devices and minimizes device costs)
- Provide even more devices (or make the app something that can be downloaded on a personal device) to take in the field to collect the data (More equipment costs and more people to train, no idea of what security issues there maybe if personal devices are used)
- Implement a better paper process to collect the information like the way multiple choice tests are handled. Students use a pencil to fill in the circle of the possible choices they could answer and then the form is scanned. There are already IPad apps that can do this sort of thing. (The user base is familiar with a paper process, their already using one, and blotting out choice boxes on a structured form is more efficient than hand writing the values. The challenge here would be to implement the scanning on the IPad, perhaps a university or college has an option)

Please note that these are my few observations from a very narrow perspective. I am not aware of what all is and has been going on between the various agencies and EOCs but I thought I would provide these here in hopes that it helps. Please let me know if there is something further I can assist with.

John,

Great summary.

Thanks for your help today.

I am engaging Tom Weston (who is now at the DNR) to assist internally with some of the technology issues.

Cc: Prange, Laurie (DTMB); Pauley, Michael (DTMB); Davenport, Rodney (DTMB); Holmes, Mark (DTMB)
Subject: RE: Meeting with Genesee county clerk

All,

I met with Gary Hagler today in Flint to review a potential data opportunity that did not pan out. The source we met with had information but none of it that dated back to the 1950's and was in a format that we could readily use with today's technology. Recognizing that the effort may be to labor intensive Gary is following up on other leads.

While I was there I did see the EOC and meet with members of the plumbers union that were going out to individual houses and installing water filters. Today, they were also going to start collecting information on what type of pipe is being used to bring water into the house.

Although I was unable to help Gary with his request I did have these takeaways from what little I saw while in the field:

The plumbers union was using an IPad app provided by MSP to record data that was collected on paper forms in the field. While trying to demonstrate the app they were unable to locate the first address they tried. Once an address was found they used pick fields to set the values for several questions. Currently the form did not have a place to set which type of water pipe is coming into the home so I suggested that they type into the comments the following string signature until the app can be updated to collect that information:

pipe=C*

*C for copper, G for galvanized, L for lead, U for unknown

This will make it possible to perform an in string search for "pipe=" and then take the next character to determine what pipe information there is.

I am uncertain of the address source being used within the app although if I had to guess I would say it was a parcel layer. I would also suggest that if that is the case then the addresses assigned to those parcels should be passed through an address standardizer and validation such as SAP (which is a shared service from CSS and that team is willing to run the Flint data). Running those addresses through SAP should improve the quality by standardizing the address, updating street name and postal code changes and flagging any addresses that are non-deliverable.

The plumbers also indicated that apprentices were coming every day now to volunteer time as part of their career training and that they also expect many of their sister unions to volunteer time as well. Which will mean an increase in the amount of houses being processed and data having to be entered. My concern here is that there is so much manual reentry of collected paper data that the process will bog down. I see three scenarios in which this problem could be alleviated:

- Provide more devices to renter the data (Likely the easiest solution to implement, keeps the point of entry to a select few that know how to work the devices and minimizes device costs)
- Provide even more devices (or make the app something that can be downloaded on a personal device) to take in the field to collect the data (More equipment costs and more people to train, no idea of what security issues there maybe if personal devices are used)
- Implement a better paper process to collect the information like the way multiple choice tests are handled. Students use a pencil to fill in the circle of the possible choices they could answer and then the form is scanned. There are already IPad apps that can do this sort of thing. (The user base is familiar with a paper process, their already using one, and blotting out choice boxes on a structured form is more efficient than hand writing the values. The challenge here would be to implement the scanning on the IPad, perhaps a university or college has an option)

Please note that these are my few observations from a very narrow perspective. I am not aware of what all is and has been going on between the various agencies and EOCs but I thought I would provide these here in hopes that it helps. Please let me know if there is something further I can assist with.

Subject: Re: Meeting with Genesee county clerk

Just a quick update, the DNR GIS Team is now taking those old CAD drawings and is georeferencing the maps. With that said we have ERSI technology that we can build an app for the survey folks to use to accurately collect data that will automatically be fed to Arc GIS online.

We already use this tool to collect data in the field.

I am uncertain of the address source being used within the app although if I had to guess I would say it was a parcel layer. I would also suggest that if that is the case then the addresses assigned to those parcels should be passed through an address standardizer and validation such as SAP (which is a shared service from CSS and that team is willing to run the Flint data). Running those addresses through SAP should improve the quality by standardizing the address, updating street name and postal code changes and flagging any addresses that are non-deliverable.

The plumbers also indicated that apprentices were coming every day now to volunteer time as part of their career training and that they also expect many of their sister unions to volunteer time as well. Which will mean an increase in the amount of houses being processed and data having to be entered. My concern here is that there is so much manual

reentry of collected paper data that the process will bog down. I see three scenarios in which this problem could be alleviated:

- Provide more devices to renter the data (Likely the easiest solution to implement, keeps the point of entry to a select few that know how to work the devices and minimizes device costs)
- Provide even more devices (or make the app something that can be downloaded on a personal device) to take in the field to collect the data (More equipment costs and more people to train, no idea of what security issues there maybe if personal devices are used)
- Implement a better paper process to collect the information like the way multiple choice tests are handled. Students use a pencil to fill in the circle of the possible choices they could answer and then the form is scanned. There are already IPad apps that can do this sort of thing. (The user base is familiar with a paper process, their already using one, and blotting out choice boxes on a structured form is more efficient than hand writing the values. The challenge here would be to implement the scanning on the IPad, perhaps a university or college has an option)

Please note that these are my few observations from a very narrow perspective. I am not aware of what all is and has been going on between the various agencies and EOCs but I thought I would provide these here in hopes that it helps. Please let me know if there is something further I can assist with.

Mr. Harris,
I will be at the Genesee Count Clerks Office at 8:00 am. The information on the address and location of the Clerk's Office in your email below is correct. I look forward to working with you and your staff on data collection effort. My contact information is correct in your email as well.

Thanks,
Gary

Subject: Contributing time, muscle and money

During this month's Martin Luther King Jr. holiday weekend, some state employees turned their "day off" into a "day on" in Flint. There, they delivered bottled water, water filters, replacement cartridges and water testing kits to families. The volunteers joined other Michiganders, turning Dr. King's birthday observance into a day of service.

Mike Zimmer, director of the Office of Good Government and the Department of Licensing and Regulatory Affairs, has shared a link – www.helpforflint.com – that offers other opportunities to contribute time, muscle and money to bring clean drinking water to the community.Here in DTMB, some of our employees didn't wait for an invitation to lend a hand. Office of Retirement Services staff contributed funds that were used to buy 31 cases and 23 gallons of water, which a local organization transported to Flint.

Autumn Hubbard, Ambrea Mack and Sarah Esquivel, who are in the photo at the left, nearly emptied the shelves at their local grocery store. Thanks for your efforts.

everyone.

Now work.

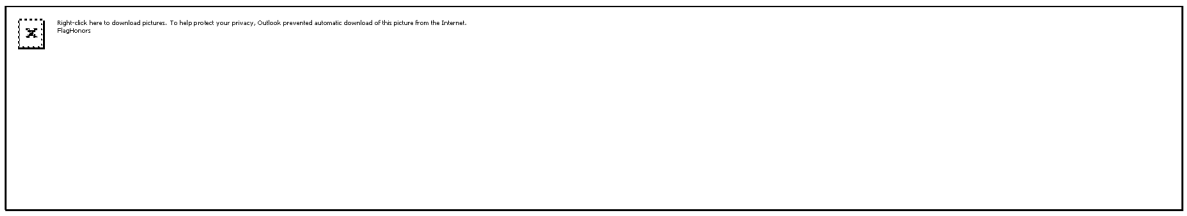
Last week, I signed a new policy that formalizes the annual employee review process and sets expectations for employees and managers. Administrative Policy 200.37 establishes consistent standards for implementing performance plans and reviews. Some of the standards are practices we have followed for years. Others are new. Some of particular note include:

- The mandatory use of HRMN
- A standard Feb. 1-Jan. 31 rating period for all employees
- An Individual Development Plan that specifies training or development programs for each employee
- Competencies and objectives that align to DTMB goals or scorecard metrics
- Consequences for managers and supervisors who do not complete the review process as required

A fundamental role of each DTMB manager or supervisor is to provide employees with direction and feedback on their performance. Employees also are expected to take an active role in pursuing professional development opportunities and achieving their competencies and objectives. I encourage you to review the new policy and talk with your manager or supervisor if you have questions. Of course, I welcome your questions and input as well. Please send your comments and ideas to me at behend@michigan.gov.

I know these have been busy weeks for many of you as you take on additional responsibilities and work hard to provide resources and services for our customers and citizens across the state. Please know that your hard work has not gone unnoticed. Thank you for everything you do, every day.

Have a great week,



David

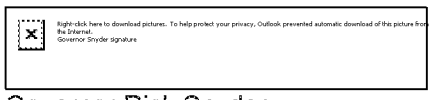
Subject: Thank you for your service

THANK YOU!

Fellow employees,

Each day, more than 46,000 state of Michigan employees come to work with the confidence and commitment to make Michigan a better place to live, work and play. I appreciate the way you care about the citizens we serve, and how it is reflected in the work that you do.

As you have heard from me and the media, our reputation and trust can be severely impacted when people do not make good decisions, or use good judgment in solving problems. That principle is universal, but never more so than when public health is at stake. What happened in Flint can never be allowed to happen again anywhere in our state.



I know that you want to work in a place where employee input is valued, efforts are recognized, and teams are always striving for continuous improvement. That's why we introduced employee surveys, Bureaucracy Busters and other reinvention initiatives. We want and deserve a culture of innovation, continuous improvement and employee engagement at every level. We can never take for granted how important the people are who depend on us to do our jobs, and I am asking you not to let the situation in Flint negatively impact your motivation to excel every day.

Many of you have taken an interest in helping the citizens of Flint on your own time, and I'd like to take this opportunity to recognize and thank those who have volunteered over the last couple of weekends. You have worked tirelessly to deliver cases of bottled water, water filters, replacement cartridges and water testing kits to the families in need. I appreciate you donating your time to help our fellow Michiganders. To date, more than 37,000 homes have been visited by one of our water resource teams.

For employees who would like to further help the people of Flint, please visit www.HelpForFlint.com to learn how you can do so. For additional information and to sign up for daily updates, please visit www.mi.gov/FlintWater. I am committed to ensuring that all residents have access to safe and clean water.

Again, I'd like to express my gratitude for the work you do every day to continuously improve our state and earn the trust of those you serve. You make a real difference.

Thanks,

Governor Rick Snyder

From: Quartz Daily Brief <hi@qz.com>
Sent: Saturday, January 30, 2016 7:03 AM
To: Davenport, Rodney (DTMB)
Subject: Weekend edition—Zika in perspective, helicopters of Davos, Levi's and heroin

Daily Brief sponsored by

Good morning, Quartz readers!

There's a lot of alarm about Zika virus, now spreading "explosively" (says the WHO) in the Americas. Travelers have brought cases from the tropics to the US, and a few to Europe.

The alarm is because there's a lot scientists still aren't sure of. Does Zika really cause microcephaly in babies? Was last year's spike in microcephaly in Brazil even real, or just a result of doctors looking for it harder? Does Zika cause the paralyzing Guillain-Barré syndrome? Can mosquito species other than *Aedes aegypti* spread Zika? Can it be sexually transmitted?

But while there's no vaccine against Zika, inoculating yourself against rumor and fear-mongering is just as important. There are sober explainers on what we do know about Zika; there's advice from health authorities like the CDC and the WHO. The key is to know what to worry about and what not to.

Here's the brief version: If you're pregnant or trying to get pregnant, take special care (here's how) in places where Zika is being actively transmitted (here's a map). If you're trying to get pregnant, consider waiting. You might also be a little cautious in places where Zika isn't spreading but *A. aegypti* is present and active, like Florida and Texas (here are mosquito maps).

If you're not pregnant or trying for it, and you're in a Zika or *aegypti* region, take precautions, but don't panic. The link with Guillain-Barré is worrying, but still tenuous. Most people with Zika never develop symptoms, and most of those who do develop only mild ones. You can't infect someone else by touch. And sexual transmission, if it exists at all, is extremely rare.

And if your local mosquitos aren't *aegypti* but another species of *Aedes*—or a different genus altogether—there's probably nothing to worry about. But keep an eye on the news, all the same.—*Gideon Lichfield*

SPONSOR CONTENT BY QUALCOMM

Interactive: The internet as we know it is about to look radically different. Qualcomm started by connecting the phone to the Internet. Now they are connecting the Internet of Things, inventing the technologies that will accelerate a more seamless and intuitively synchronized world.

~~Five~~ *Six things on Quartz we especially liked*

Nuclear reactors are being built more like cars. They used to be custom-made and highly secretive; today, components and expertise shuttle around the globe. Christopher Groskopf tallies up every reactor built since 1955 and explains the workings of an increasingly globalized industry.

All the helicopters of Davos. Gloriously gadgety journalism: David Yanofsky built a receiver that Jason Karaian brought to Davos and used to identify and track every helicopter flying in and out of World Economic Forum. The data show when most of the world leaders arrived and left, and what routes they flew.

The US political poetry generator. However jaded you are by the US electoral campaign, Keith Collins' algorithm will give you a fresh perspective by fitting excerpts from candidates' speeches into the styles of famous poets. Donald Trump as Maya Angelou? "I try to show them // Free bird thinks of another breeze // Like dust, I'll rise."

Will Europe's bureaucrats break the internet? The Safe Harbor Agreement was a bureaucratic kludge that allowed US companies to comply with European data protection rules—until the EU's top court struck it down. As the deadline looms for regulators to strike a new deal, Joon Ian Wong analyzes the options for what happens if they don't.

"Senior Chinese banker" is a dangerous profession. President Xi Jinping's anti-corruption drive has taken a strange toll: An extraordinary number of top Chinese bank executives have died, disappeared, or been detained over the past year, the latest in an apparent suicide this week. Zheping Huang has a roll-call of the victims.

Get dizzy with drone racing. The Drone Racing League is the US's newest sports federation. Mike Murphy delves into the intricacies of setting up such a competition—from solving technical problems to struggling to codify a set of rules. Jacob Templin's drone's-eye video of a lap around a racecourse at 70 mph may remind you of the chase scenes from *Star Wars* (and make you a little queasy).

~~Five~~ *Four things elsewhere that made us smarter*

What went wrong in Flint. Anna Maria Barry-Jester at FiveThirtyEight explores the bad science that has kept Flint, Michigan residents drinking lead-contaminated water for almost two years. She skewers the Michigan Department of Environmental Quality for a series of bad decisions and reveals how a remarkable effort by citizens finally forced state and local governments to act.

Blue jeans helped fuel the rise of heroin. Yes, you read that right. For men in rural Mexico in the 1990s, Levi's 501s, expensive and hard to obtain, became both a form of currency and a status symbol. Dealers returned again and again to the US to stock up for friends and family, and also sold more heroin while there, Olga Khazan reports in the Atlantic.

Welcome to America—now spy for us. Clear guidelines forbid the FBI from tying people's citizenship applications to their willingness to give up information. But the agency is doing exactly that, according to an investigation by Buzzfeed's Talal Ansari and Siraj Datoo, pressuring Muslim immigrants to inform on family and friends or else have their cases spend years in limbo.

The short and brutal life of Target in Canada. You probably don't think of "poor data entry" as one of the things that can sink a mighty company, nor that there could be drama and adventure in supply-chain software. Joe Castaldo will prove you wrong, in this riveting and illuminating account for Canadian Business of how the US retailer's big push into Canada spectacularly imploded.

Our best wishes for a relaxing but thought-filled weekend. Please send any news, comments, drone-racing videos, and data-entry horror stories to hi@qz.com. You can follow us on Twitter here for updates throughout the day.

You're getting the **Americas** edition of the Quartz Daily Brief. We'd also love it if you shared this email with your friends. They can sign up for free here.

Tom,

If any of the work is to be paid for from the emergency funds you HAVE to go through the SEOC. We are meeting today with the SEOC finance team, procurement team, and DTMB to ensure everyone is going through the correct channels in acquiring services for Flint. If Director Creagh is planning on paying for this out of his own budget then please let me know.

Thanks,

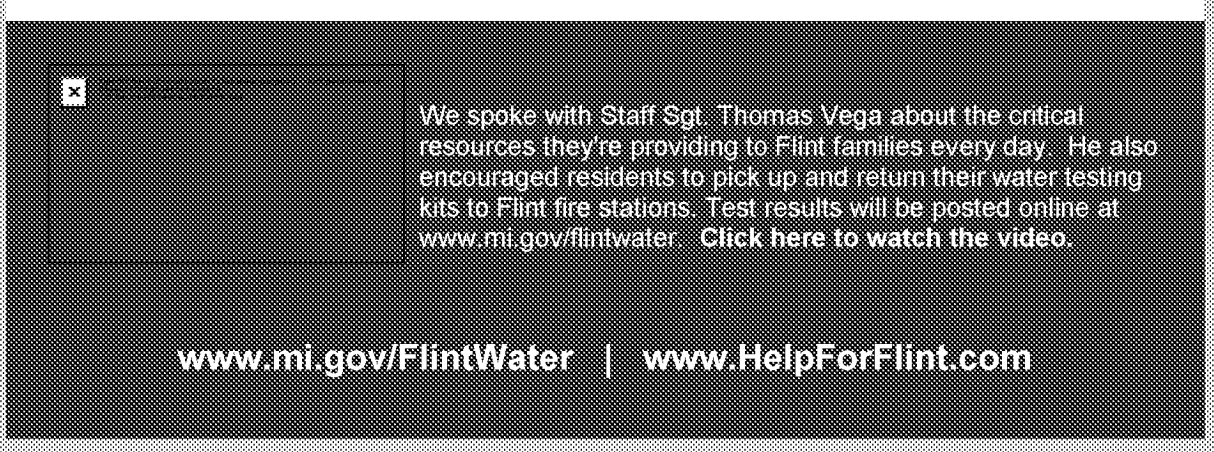
From: Governor's Office <governorsoffice@govsubscriptions.michigan.gov>
Sent: Wednesday, February 03, 2016 6:21 PM
To: Davenport, Rodney (DTMB)
Subject: "Flint residents should not have to pay for water they cannot drink"

Budget recommendation will include $30 million request for Flint water bill repayments

When Governor Rick Snyder presents his budget recommendation next Wednesday, Feb. 10, he will include a $30 million request for the residents of Flint to keep their water service on and eliminate the need to pay for water they cannot completely trust to drink.



Under the governor's ask, the funding would enable the city of Flint to apply credits for customers on future bills. Estimates show water is roughly 47 percent of billing and sewer costs are around 53 percent. The credit would be applied to consumption usage (roughly

65 percent) of a resident's water portion of the bill, such as for bathing, drinking, cooking, and washing your hands. Residents still would be responsible for paying the sewer portion of their water bills.

Professor Marc Edwards of Virginia Tech said, "This essentially refunds all the money associated with consumption or consumer use. I think it's an amazing gesture of common sense and good will and it corrects an injustice. I don't think there's a precedent for this. I feel so encouraged by the direction this is going."

Click here to learn more about the budget request.

Jeanette,

I must still be missing something the software (HP Trim), forensic material and uploading of this application are for the litigation that DEQ is facing. It has nothing to do with helping with the response in Flint right now. You have continued to say that all resource requests need to go through the SEOC and I am trying to understand how the current legal cases, 6 of them as of right now and the state wide FOIA request need to be routed through the SEOC. We have HR investigation that are ongoing with DHHS, DEQ, DNR, and others none of that is going through the SEOC, yet I feel you continue to say it has to go through the SEOC.

Subject: RE: Legal & FOIA concerns

Chris –

The information below where I state the issue should be filtered through the AGs office was in response to the resource request DTMB received today from DEQ for accessing an AG drive, forensic material, a new email address and Adobe software. DTMB's FOIA coordinator would be the one to answer the question you posed to me.

Sorry for the confusion.

Jeanette

Subject: Legal & FOIA concerns

Chris,

I am being told by Jeanette that the Legal and FOIA issues relating to Flint need to come in through the SEOC. The requests are about things that occurred before the SEOC was activated and the amount of work relating to the Legal issues is going to be huge. Additionally the FOIA things are for every agency and like legal require a quick turnaround. I personally wanted to avoid tasking the SEOC with additional responsibilities such as this however I am happy to follow whatever process works best for you. Again I am happy to support in any way possible, I just need clear directions on these issues. Below is the FOIA request that I believe every agency has received and we are meeting about it with the Governors legal counsel tomorrow to discuss the best way to respond. If you would like I can forward you the appointment.

Thanks again

Chris

See FOIA request below.

Subject: FOIA request from the Detroit Free Press, RE: Flint water

Request for Public Record

To: FOIA Coordinators via email

I am a person as defined under Michigan FOIA. Please accept this correspondence as a request pursuant to the Michigan Freedom of Information Act (FOIA) Michigan Compiled Laws §15.231 to §15.246 *et seq*., the Michigan Constitution and common law, and the U.S. Constitution, for certain public documents hereinafter specified.

Date of Request: 2/4/16 **Time:** 4:40 p.m. via email

Person Requesting Record: Matthew Dolan Phone: 313-223-4743
Mailing address: Detroit Free Press
160 W. Fort Street
Detroit, MI 48226
Email Address: msdolan@freepress.com **Fax:** n/a

Delivery Specifications:

Please select the quickest form to be able to view the documents:

☐ **Email:** to requestor at the email address above if possible, and if not please mail to the address above.
☐ **In-office Inspection:** Please contact me with an acceptable contact, time, and date when I may appear for inspection and possible scanning of documents.
☐ **Pick- up:** Please contact me with an acceptable contact, time, and date when I may pick up the documents.

Auditor or Attorney: _____ Contact: _____

Media Specification: Paper Copies or Email attachment less than 20 MB, CD-ROM or DVD, unless certain records are not available in computer format, in which case response by fax or in-person viewing is preferred

Records requested: The records and documents I am requesting are all those relating to:

Copies of the documents, including but not limited to emails already requested by and provided to Progress Michigan or those associated with the organization related to any and all discussion of Flint's water supply, including but not limited to contaminant such as lead and copper in the water as well as any and all discussion of Legionnaire's disease in Genesee County, Mich.

For the purposes of this request, the term "**you**" or "**your**" refers to public body generating or maintaining the public records requested in this request, and to which this request is directed, whether that be an agency, municipality, office, county, or any other entity subject to disclosure under this act; the term "**records**" refers to all documents, regardless of physical form (including without limitation papers, reports, notes of telephone conversations, telephone call messages, studies, proposals, indices, letters, messages, faxes, minutes, logs, journal entries, calendars, and computer-based or computer-generated materials including e-mail, or any other

documentation of any kind of any and all kind) of or belonging to any department, agency, service area, board or other subdivision of the public body. "Records" shall include drafts of records to the extent permitted by law; The term "**email**" includes any electronic message and any attachment to any such message, and specifically includes emails sent or received by an officer, agent, or employee using an email address other than that person's official government issued email address if sent or received while on duty, using a government computer, in a government building, sent or received using a government contact list, or other using any other government resource.

Michigan law requires you to respond to this request not more than five (5) days from your receipt of this request, but you are asked to expedite this request if possible. If this request is sent by fax or email, the time to comply begins the day after the faxed request is sent to you. If your agency does not maintain these public records, please let my designated auditor know who does, and include the proper custodian's name and address. If this fax request does not go directly to the office of the FOIA coordinator, you must deliver it there immediately. If you deny any part of this request, please indicate the name and position of the person too who an appeal should be directed prior to instituting suit, so that needless litigation in which costs, damages, and attorney fee may be taxed against you might be avoided.

Take notice of the penalties and consequences for failure to comply with this request: Willful violation of FOIA by refusing to disclose or delaying in disclosing or providing copies of a public record, may result in the court awarding in addition to any actual or compensatory damages, award punitive damages in the amount of $500 to the person seeking the right to inspect or receive a copy of a public record. Reasonable attorneys' fees, costs, and disbursements" will be awarded to any person who prevails in an action to compel disclosure under MCLA § 15.240. If the requesting person only prevails in part, "the court may, in its discretion, award all or an appropriate portion of reasonable attorneys' fees, costs, and disbursements.

Because of the civic educational purpose of this request, I request a fee waiver and ask that you determine that a waiver or reduction of the fee is in the public interest because furnishing copies of the public record can be considered as primarily benefiting the general public." MCLA § 15.234(l)

I agree to pay any reasonable search, copying, and postage fees of not more than $2.00. If the cost would be greater than this amount, Please immediately contact me by telephone or email if you anticipate that the costs will exceed this amount, so as not to cause delay in the prompt disclosure of the records requested. I may appear in person to inspect the documents on scan them using my portable equipment. Please provide a receipt indicating the charges for each document. The Michigan FOIA law provides that, "A fee shall not be charged for the cost of search, examination, review, and the deletion and separation of exempt from nonexempt information as provided in section 14 unless failure to charge a fee would result in unreasonably high costs to the public body because of the nature of the request in the particular instance, and the public body specifically identifies the nature of these unreasonably high costs. MCLA § 15.234(3).

If the documents I have requested are not subject to disclosure in their entirety, I request that you release all nonexempt portions of the documents that may be segregated and all parts of the documents that can be rendered disclosable by redaction without fee. If you determine that any of the requested documents fall within a statutory exemption, I request that you exercise your discretion to disclose those materials because of the overriding public concern about the improper use of government email systems and resources to further political agendas. As to any portion of the documents that you withhold, please state with specificity the legal and factual basis for withholding such portion. To the extent that you are unable to produce copies of or otherwise make available all records requested within the time frame provided, please notify my auditor in writing and provide me with those records that are available within the prescribed time frame and the remainder of the records on a "rolling" basis as they become available for production.

I appreciate your anticipated prompt cooperation and will expect your response within 5 days, as required by the act. If you need further explanation of the details or the nature or scope of this request, please feel free to call me or my designated auditor or attorney specified above using the contact information provided.

Hello,

I don't believe we don't have any other outstanding tickets to rush.

Barbara's security is set up so once the software is in place she can start using it after double checking the dataset. If there are any questions on doing this, please give me a call...

I also just double checked with Andrew Banas and he has the software installed (he was a priority processing from last week and I wanted to make sure that was done). Michael or Kate might want to double check with him on using the system and setting up favorites for whatever they are doing (i.e. orientation).

Thank you for doing this!

Sincerely,

Sean Evans

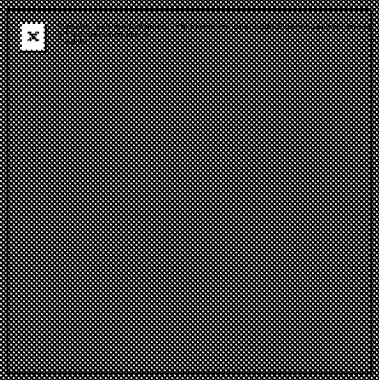
VIDEO: What Governor Snyder's FY17 budget means for Michigan

Gov. Rick Snyder's FY 2017 budget calls for critical investments for the Flint water crisis, statewide infrastructure and the Detroit Public Schools. The governor's recommendation also addresses the skyrocketing costs of specialty medications that Michigan residents depend on for better health outcomes.



This budget also stays committed to the Governor's core statewide priorities of education, talent and economic development, health and human services, and public safety.

The proposed FY 2017 budget makes key investments to strengthen the state for all of Michigan's families. Click here to learn more about the top 6 takeaways from the

Governor's FY 2017 state budget.

Click a tweet to tweet it out:

The #MIBudget @OneToughNerd proposed yesterday makes key investments to strengthen Michigan for all families --> www.mi.gov/MIBudget

--> @OneToughNerd's #MIBudget includes $72 million a year for Detroit Public Schools. It is time to act now --> www.mi.gov/MIBudget

--> @onetoughnerd's significant investment in #Flint families is the right thing to do. #FlintFWD #MIBudget www.mi.gov/MIBudget

Subject: Time Sensitive Request

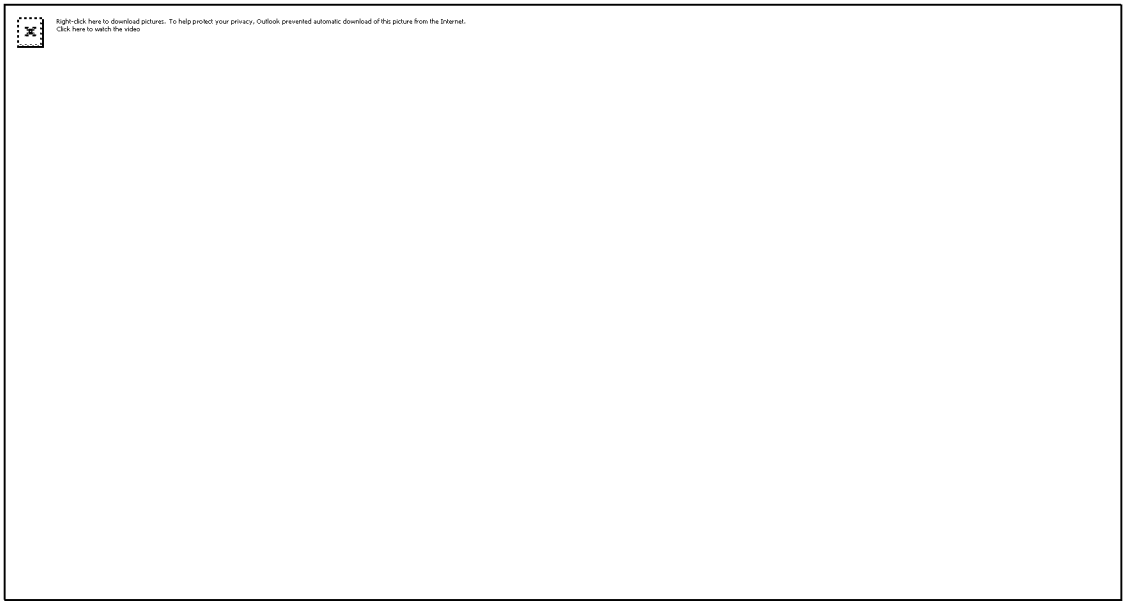
SMT,

Jean Ingersoll is leading DTMB's effort to comply with document production requests related to freedom of information requests and certain lawsuits against the state.

At some point during the day tomorrow, Jean will share with you a list of standard "search terms" which we will use to compile documents related to this lawsuit.

Within 2 hours of receiving this email from Jean, you need to respond with a list of likely custodians from your work area. Jean may have more information on this tomorrow, but generally speaking a custodian will be a staff member who might reasonably be expected to have documents (electronic or otherwise) that correspond to the issues identified in the search terms.

If you have any questions, please call me or Jean. This is an important issue and I thank you in advance for your attention to this matter.



Brom Stibitz
Chief Deputy Director
Michigan Department of Technology, Management and Budget

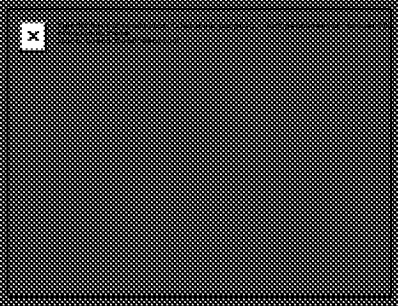
VIDEO: How volunteers are helping Flint



Volunteers at the Food Bank of Eastern Michigan are working hard to collect donations in order to help the families of Flint. Last Thursday, Governor Snyder visited with the many dedicated volunteers and helped sort cans of food.

Good nutrition is critically important for Flint's children. Foods that are high in calcium, vitamin C, and iron can help limit the effects of lead exposure. To donate or volunteer at the Food Bank of Eastern Michigan, visit www.fbem.org.

Importance: High

In querying my team about ways to make this process easier, Mike Ouendag suggested the idea below. Please take a look and see if this is something of merit that could be done to aid in the Flint FOIA process. Just getting out of the box. This is a big job for the agencies. And, we are still working on how to consolidate all of the information after we hear what the requirements are. Let me know if you need anything from us. Thanks.

Subject: FOIA Search Recommendation

Laurie,

As a follow-up to our discussion on identification and handling of files that exist on customer hard drives that may contain keywords related to the Flint Water Crisis, I wanted to outline a request that could be routed to Office Automation.

It seems that it would be a highly desirable effort for Office Automation to research the potential for creating some type of batch job or small application that could be distributed to the desktops. This would run a process to identify all objects that fit the search criteria and copy those to a common repository, in an effort to ensure uniformity and compliance.

They may be already looking into a related method.

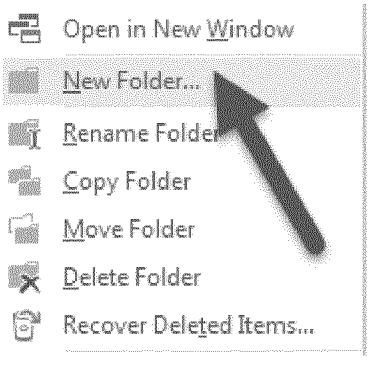
FOIA Keyword Search Tips

Step 1.



Preparation

In order to comply with the many recent FOIA requests, we wanted to give everyone an easy to follow set of instructions for conducting these searches. We at DTMB are still working through the process of setting up a central collection site for each agency. In the interim, we advise each of you take the following steps to prepare for collection.

- Create a folder in your Outlook mailbox called FOIA
- Use the method outlined below to retrieve the affected emails
- Drag and drop the emails you have identified into the FOIA folder you have created
- Await instructions as to how these will be collected

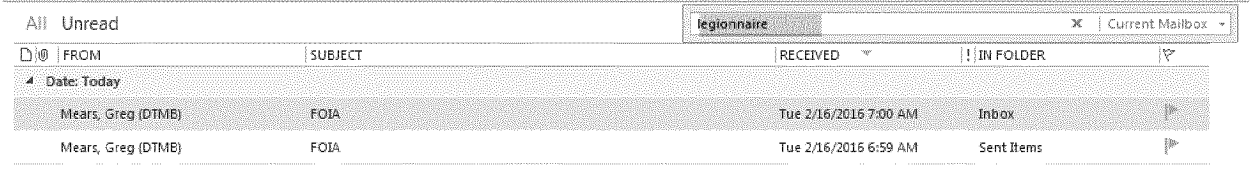
Step 2. Create your FOIA Folder

Create a new folder by **right clicking** on your cabinet, or your mailbox (your @michigan.gov account). Click on the "New Folder" icon. Call the new Folder FOIA, and press Enter.

The new folder should now be created in your account

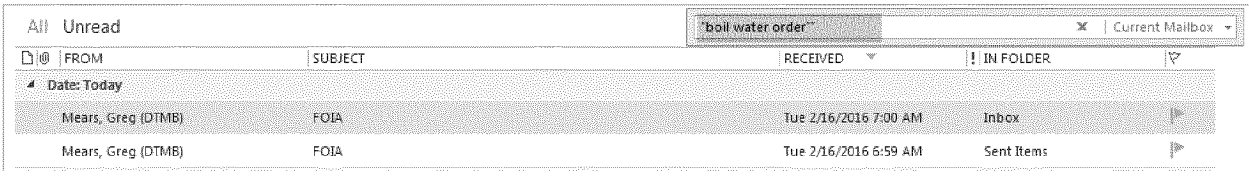
This is the folder that you will drag and drop the relevant emails to when you conduct your search. In our next section we'll give you some tips to assist you in searching your mailbox for relevant items

Step 3. Identifying emails using keyword search



The first step in preparing for your FOIA keyword search is to make sure you have the keyword list available. This list should have been provided to you by the AG, or your management. In the screenshots below we will walk you through the process of identifying the emails, and in later steps how to move them to a special storage folder. Your screens may not look identical to mine, but the methodology is the same for Office 201, and 2013.

First off, locate the search box in Outlook (typically in the upper right hand corner). Make sure that your search is set to "Current mailbox" as seen here. The reason we ask you to do the searches in this manner is that it will search your entire mailbox (received and sent items) including Lync/Skype conversations.



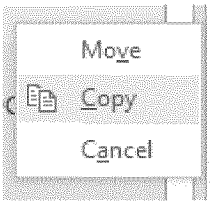
In the examples were going to show we will be doing the word searches one at a time. In testing we found that trying to do multiple word searches, did not give the results we were looking for.

Let's start with a simple one from the keyword search I was provided. In this instance I entered the word legionnaire, and received these results.

Let's try another using a search term in "quotes". By placing an item in quotes it will limit your search to those exact words.

NOTE: By design Microsoft limits the number of items that can be retrieved in a single search to 250. This means that if your search results in more than 250 items you will have to repeat the search process until you have identified all of the emails you wish to address.

As you complete each key word search, you will need to copy those emails to your FOIA folder for retrieval at a later time. We will go over those steps in the next section.



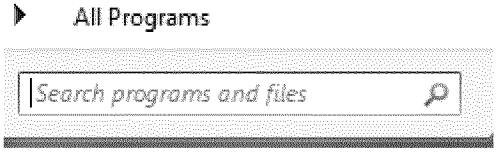
Step 4. Copying your messages to the designated FOIA area

Now that you have identified the emails that meet the search criteria, you'll want to save them off to your newly created "FOIA" folder.

NOTE: Your agency may have you save these items to an alternately designated space. That space can take the form of a network drive, USB flash or portable hard drive. Where ever you choose to store them, the "mechanics" of doing so will not change.

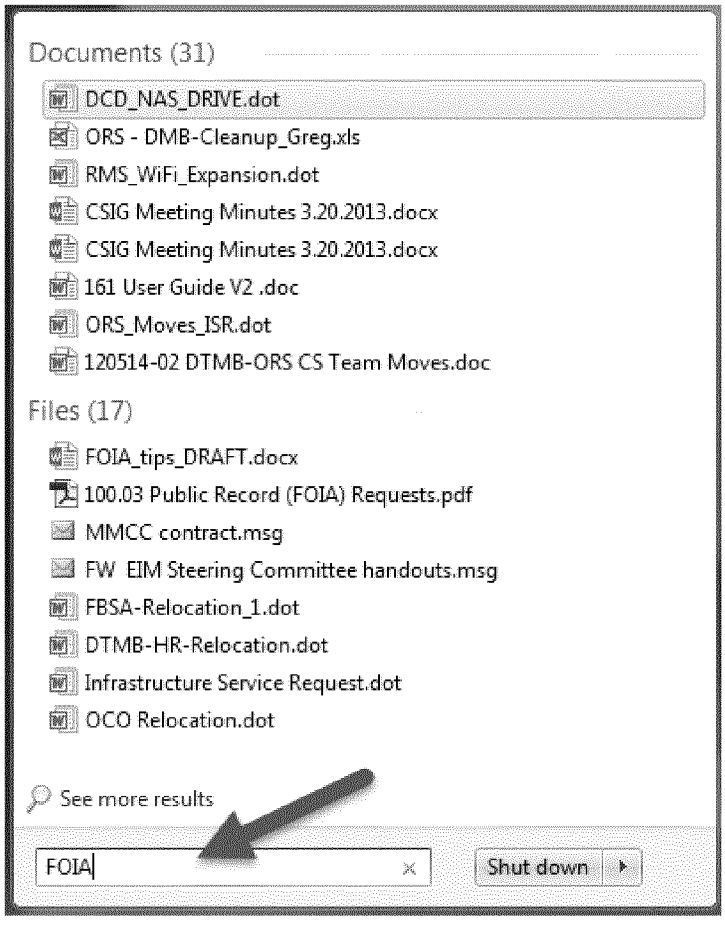
Once you have identified the emails that you want to save, highlight all of them by clicking on the first message, then holding down the Control Key, followed by the letter "a". Next, open up the folder or drive where you wish to save these messages. Using our example above I have created a folder in my Outlook account called FOIA and will save the messages there.

Move your mouse to all of the highlighted message and do a RIGHT CLICK, and then while holding down the right mouse button drag all the messages to where you want to store them. When your mouse pointer arrives in the area you want to save them, release the button and select "copy" from the pop up menu (See illustration)



Depending on the amount of messages you're copying and where you are copying them to, the process can take a few seconds, or many minutes if they include attachments. Once the copy process has completed, you will see the emails you moved appear in the area you stored them.

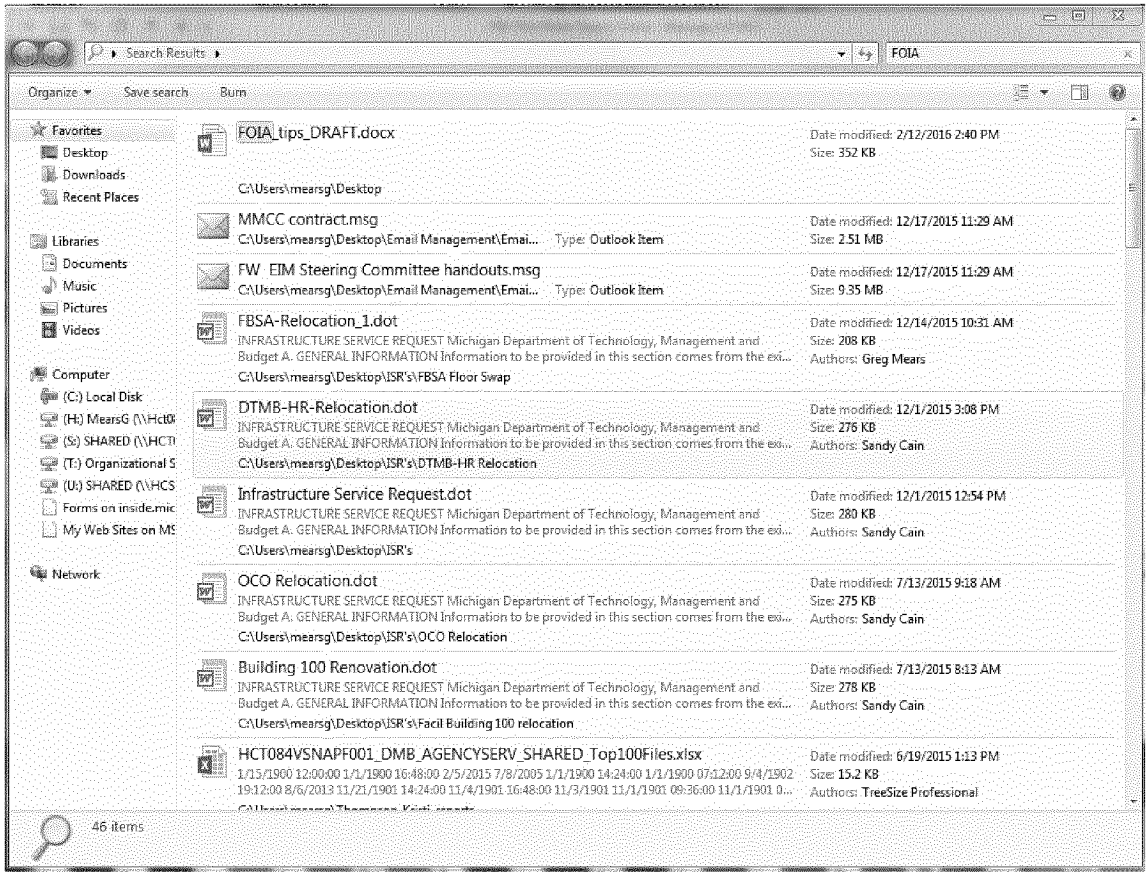
Step 5. Doing a hard drive keyword search for documents and other items



Conducting a hard drive search is fairly simple. Regardless of what version of Windows you're using, each of them has a search feature built in called "Windows Explorer", you see it every time you open up a folder on a network drive, or on your own computer. Before conducting your searches, we would suggest that you create a special folder on your desktop called FOIA where you may copy the items you find until final instructions are issued as to their disposition.

Using the search function in windows 7

Since the majority of DTMB is on Windows 7, the examples I'll be showing are on that operating system. If you click on windows Start button, you'll see the search box right next to it



In this example I'm going to search my computer for the word FOIA. As you can see my search yielded numerous documents including emails. Since I've already saved off all of the relevant emails, we'll focus on just the documents.

This part can be a bit time consuming but we suggest you open each document to make sure that it's relevant. In this instance my search brought up a DTMB Move form, but only because it has the word FOIA in the form. (*Your agency may have slightly different guidelines, please follow them and use this example search as a training tool*)

You'll notice that the words "See more results" appears at the bottom of the list. This means that my search turned up a lot more documents than what can easily be displayed. If I click on the link, it will open Windows Explorer and reveal a comprehensive list, along with their locations.

As you can see from this example my search found 46 items. We can now select them all using the "Ctrl-A method" that we used for the emails, and copy them to our newly created FOIA folder.

Conclusion

This is the simplest, we could devise to help those of you conducting the FOIA searches. We hope that this will make the task a bit easier

What If I have questions?

If you have any questions please contact your Agency FOIA Coordinator, or Client Specialist.

Subject: RE: 7 governors focus heavily on tech in statewide speeches (StateScoop) and Governors tread lightly on talk tech, avoid specifics in statewide addresses (StateScoop)

The SoS is a necessary but incomplete means for assessing a state's commitment to IT. It takes more than one source and more than one point in time, e.g. use of budget messages, budgets, RFP's, contracts, expenditure reports, plans, surveys and more. The 2012 and potential ICT Assessment update are strong examples.

There is considerable variance among methodologies and degree of diligence. For example, the GT ratings place Michigan at or above several of the seven states cited in StateScoop. Further, this year's message placed a strong emphasis on Flint, which detracted from the other components.

The GT assessment of Michigan is cited below, and when the budget synopses will become available, the Michigan IT investments, including cyber will become evident.

Michigan (GT Assessment)

Star rating: ★★★ (3 out of a maximum five. Only AZ and ID received five stars, and AZ is not one of the StateScoop seven))

Speech date: January 19, 2016

To sum it up: Gov. Rick Snyder spent about half of his Jan. 19 State of the State speech discussing the water crisis in Flint. "I'm sorry, and I will fix it," Snyder said, before providing a timeline of the events and response to the city's contaminated water. He also committed to publicly releasing his 2014 and 2015 emails related to Flint. The city's water crisis has received attention from government's highest levels — President Obama signed an emergency declaration, making $5 million in federal assistance available. Snyder went on to say "we have a statewide infrastructure challenge" and called for the creation of the Commission for Building 21st Century Infrastructure to develop a plan for investments in areas like water, sewer, transportation and broadband. While addressing education, he highlighted STEM

programs in the state and said a comprehensive study will be released in 2016 on the topic. Finally, Snyder turned his attention to the auto industry: "Over 70 percent of the research and development for the U.S. auto industry happens right here in Michigan." He directly addressed technology as well, saying that the auto industry will become the mobility industry and therefore the state needs to make investments with a focus on intelligent vehicles. Snyder discussed the Michigan Mobility Transformation Center and its testbed of connected vehicles, as well as Mcity, the University of Michigan's closed-loop system for testing connected and autonomous vehicles. But demand has been so high by the auto industry that more research space is needed. He proposed creation of the American Center for Mobility at Willow Run, a 300-acre campus for testing intelligent vehicles that he envisions becoming a base for international standards.

7 governors focus heavily on tech in statewide speeches (StateScoop)

A StateScoop analysis shows that governors across the country talked about IT in their "state of the state" speeches, but some stood out above the rest.

<image020.jpg>Gov. Terry McAuliffe delivers his "state of the commonwealth" address on Jan. 13. His speech had some of the most mentions of tech issues of any in the nation. (Office of Gov. Terry McAuliffe/Flickr)

Technology continues to play an ever larger role in organizations, and state governments are no exception.

The vast majority of the nation's governors mentioned technology issues in their most recent addresses before their legislatures. But a deeper look into the substance of their remarks reveals only a handful placed a sustained focus on IT issues.

A StateScoop analysis of the country's 41 "state of the state" or budget addresses revealed that only four governors failed to mention tech issues in any capacity. Some governors, however, demonstrate a greater focus on IT subjects than others.

Governors in Colorado, Delaware, Idaho, New Hampshire, Rhode Island, Virginia and West Virginia stood ahead of the pack when it came to tackling tech topics in their speeches.

Like the rest of the country, they largely focused on STEM education and technology jobs, but many chose to dive into other IT areas as well. Here's a closer look at what some of these governors had to say:

Colorado

<image021.jpg>Gov. John Hickenlooper delivers his address on Jan. 14. (Office of Gov. John Hickenlooper/Facebook)

Gov. John Hickenlooper made cybersecurity a prime focus of his speech, headlined by his call for a "National Cybersecurity Intelligence Center" in Colorado Springs.

Hickenlooper hopes to make the center the "country's foremost authority" on cyber research and development, giving state agencies and businesses the chance to detect and respond to attacks. The center would involve a partnership with the cybersecurity program at the University of Colorado, Colorado Springs to bolster training efforts as well.

Delaware

<image022.jpg>Gov. Jack Markell delivers his address on Jan. 21. (Office of Gov. Jack Markell/Flickr)

Gov. Jack Markell used a significant portion of his speech to highlight the state's "TechHire" initiative, which connects people with workforce training to "upgrade their skills."

In the speech, he also announced that he'd be expanding the program to start offering coding classes at another community college in the state.

Markell also touted the 560 students in Delaware high schools that are currently studying computer programming, and set a goal to increase that number to 1,000 by this September.

Idaho

<image023.jpg>Gov. Butch Otter addresses the media following his speech on Jan. 11. (Office of Gov. Butch Otter/Flickr)

Like Hickenlooper, Gov. Butch Otter called for the creation of a new cybersecurity program in coordination with one of the state's universities.

Specifically, he highlighted the $1 million he set aside in his budget proposal to set up a cyber program at Boise State University in partnership with the Idaho National Laboratory, a federal research facility.

Otter also took time to mention the work of the cybersecurity task force he created late last year, as well as the Idaho Air National Guard's recent designation as a "cyber unit," giving them advanced training and access to cybersecurity systems.

The speech also included a STEM focus, as Otter highlighted the "STEM Action Center" he set up to encourage tech programs in schools, and called attention to the $12 million he designated for the center in his budget.

New Hampshire

<image024.jpg>Gov. Maggie Hassan gives her speech on Feb. 4. (Office of Gov. Maggie Hassan/Facebook)

Gov. Maggie Hassan aggressively touted the need for more skilled workers in New Hampshire in her speech, proposing a new partnership between the state's community college system with the private sector to establish "apprenticeship programs in high-need areas such as advanced manufacturing, information technology networking, and health care" to help "expand the middle class."

The progress of the state's clean energy technology sector and Information and Analysis Center also rated mentions. Hassan was also one of three governors nationwide to mention how beefing up the state's database for tracking prescription drugs could help battle abuse of the drugs.

Rhode Island

<image025.jpg>Gov. Gina Raimondo at a recent event stressing the importance of computers in the classroom. (Office of Gov. Gina Raimondo/Twitter)

Gov. Gina Raimondo made economic development a key part of her speech, and frequently mentioned how the tech sector can be part of the effort to bolster the state's economy.

She took time to propose a program where any student in a state university that graduates "with a B+ average in a science or technology field, and who stays in Rhode Island in a STEAM job, will get help paying back their student loans." Raimondo specifically mentioned that one tech company that recently moved to the state had expressed concerns about finding enough skilled workers in Rhode Island, making the area a key priority for her administration.

To encourage further investment in the state from tech companies, she also proposed an extension of the state's research and development tax credit, and a "statewide competition" to build an innovation campus.

Virginia

<image026.jpg>Lawmakers applaud during Gov. Terry McAuliffe's speech on Jan. 13. (Office of Gov. Terry McAuliffe/Flickr)

Gov. Terry McAuliffe mentioned cybersecurity early and often in his address, using a favorite line of his from his public speeches on the issue.

"For those of us old enough to remember the movie, 'The Graduate,' the key word then was 'plastics,'" McAuliffe said. 'Today, it's 'cyber.'"

McAuliffe pointed to his efforts to bolster the cyber workforce with STEM programs in schools, and highlighted the new cyber fusion center Visa recently opened in Northern Virginia.

He also announced a new effort to reduce the time students spend taking standardized tests, with a plan to move to "computer adaptive testing" by 2017.

West Virginia

<image027.jpg>Gov. Earl Ray Tomblin addresses his Legislature on Jan. 14. (Office of Gov. Earl Ray Tomblin/Flickr)

Gov. Earl Ray Tomblin used his speech to call for the end to a sales tax exemption on cell phone and landline bills, a move he hopes will generate an extra $60 million for the state each year.

He also hopes to make some big investments in STEM education, highlighting his efforts to redirect $2.5 million to a program to encourage students' interests in the STEM fields in public schools.

Governors tread lightly on talk tech, avoid specifics in statewide addresses (StateScoop)

A StateScoop analysis of the 41 "state of the state" speeches across the nation reveals a wide-ranging, yet fuzzy focus on tech from chief executives.

<image028.jpg>

VIEW PROFILE
<image030.jpg>Iowa Gov. Terry Branstad delivers his "condition of the state" address on Jan. 16, touching on many of the same STEM education issues that his fellow chief executives around the country mentioned. (Courtesy of the Office of Gov. Terry Branstad)

When governors across the country have a chance to use their bully pulpit and address the entire state, they often mention technology, yet tend to avoid diving deep into the details of IT.

According to a StateScoop analysis of the 41 "state of the state" or budget addresses delivered by the nation's governors before their legislatures this year, all but four highlighted technology in some form.

Overall, the speeches reveal that the nation's state chief executives seem to have a broad grasp of the importance of technology. However, their levels of fluency on tech issues vary substantially.

Indeed, a handful of governors spent significant amounts of time addressing IT in their speeches, while the majority only gave tech a passing mention.

Only 24 governors chose to offer specific proposals about how to confront or resolve the IT issues they spoke about, with the rest merely taking time to mention current IT programs or praise technology's importance without a clear call to action, according to StateScoop's analysis.

Only governors in Indiana, Kansas, New Jersey and Pennsylvania made no specific mention of technology topics in their addresses,

Two speeches have yet to occur, with Minnesota Gov. Mark Dayton and Ohio Gov. John Kasich haven't announced dates for those addresses, while governors in seven states won't deliver similar speeches since their legislatures aren't in session in 2016.

STEM, tech jobs take center stage

When governors did choose to address tech, some subjects tended to crop up more than others.

In particular, governors across the country praised the value of programs to promote the STEM fields at all levels of education — 17 mentioned the issue, while nine laid out specific efforts they plan to push for in the new year.

Similarly, state chief executives chose to stress the need to create tech jobs and promote efforts to equip workers with the skills to take those jobs. In all, 11 governors highlighted the subject and five attempted to spur support for plans in the area in 2016.

Stephen Parker, legislative director for the National Governors Association's education and workforce committee, told StateScoop that those numbers match the sort of rising interest in those areas that he's noticed in recent years.

"We're seeing governors being forward-thinkers when it comes to STEM education," Parker said. "They want to have qualified workers to fill the positions that are available in their states."

In particular, Parker sees governors emphasizing the availability of coding courses for even the youngest students across the country. In 2013, Parker's group tallied 12 states that let public school students count coding courses as math credits toward graduation – that figure has since doubled. Five governors made sure to mention the value of coding education in their speeches.

<image032.jpg>Iowa Gov. Terry Branstad prepares to deliver his address on Jan. 12, which prominently featured STEM education efforts. (Office of Gov. Terry Branstad/Twitter)

"It's not just using computers so they can look up websites, but actually use them to create things that will get them jobs," Parker said.

Indeed, Parker believes the motivation for governors is clear: more educated workers are equipped for more advanced jobs, and tech companies tend to flock to areas with a surplus of proficient potential employees.

"They want to get that Google data center, or they want to get Facebook, or Amazon to come to their state and innovate in their state and create jobs, and they're thinking about how they can get a leg up," Parker said.

Parker pointed to Iowa Gov. Terry Branstad's successful efforts to encourage Google and Facebook to build new facilities in the state and simultaneously install STEM programs in public schools starting at the pre-kindergarten level as an example of how governors try to blend those approaches. Branstad devoted eight paragraphs of his speech to highlighting those initiatives.

Other IT issues ignored

Additionally, Parker noted that cybersecurity is one area where states are rapidly trying to train the workforce of tomorrow and reap the benefits.

Virginia Gov. Terry McAuliffe spent plenty of time discussing his efforts to increase the number of cyber credentials issued by his state's community colleges in his speech, and Parker predicts other states will replicate that sort of effort in the coming months.

"They need the workforce to fill these jobs like any other tech company would in Silicon Valley or Northern Virginia," Parker said.

Yet, overall, most governors failed to mention cybersecurity in any capacity in their speeches. McAuliffe was one of just four state leaders to mention the issue in his address, despite the growing popularity of the subject. He was joined by governors in Colorado, Idaho and New Hampshire in addressing cyber.

Similarly, other tech topics frequently making headlines didn't rate mentions in the governors' speeches. Arizona Gov. Doug Ducey was the only one to mention ridesharing, while South Carolina Gov. Nikki Haley was the lone governor to highlight police body cameras.

Outside of tech-related education and workforce topics, the most popular IT subject for governors proved to be the importance of clean energy technology and broadband accessibility – those subjects popped up in 10 and six speeches respectively.

What does a tech mention mean?

It would be easy to dismiss the meaning of a governor's mention of certain topics. Parker, however, believes any mention of a tech subject in a "state of the state" speech is meaningful, as they function to "set the tone for the rest of the year" in the same manner as the president's state of the union address.

"Highlighting programs that haven't gotten a lot of attention is not only a huge win for folks that have been working on these initiatives for years, but it's a huge win for the economy because it's opening state legislators up to more paths in which they can use state funds," Parker said.

Martin Medhurst, a distinguished professor of rhetoric and communication at Baylor University, is less sure about the speeches' impact on government workers themselves, viewing the addresses as serving more purely political functions.

"Some of them are of the governor's party and some are not, and he really can't address them as a political audience," Medhurst said.

Kathleen Jamieson, a professor of communication at the University of Pennsylvania, agrees with that assessment. She notes that both direct calls to action and mentions of specific accomplishments serve to score significant political points for governors.

"It establishes that these are things he or she is willing to fight for," Jamieson said. "Or, it's an attempt to say to the press and to the legislators, 'Look, things are getting accomplished on my watch.'"

Medhurst stresses that the speeches are important ways for governors to outline their priorities, even if their Legislature is completely controlled by the opposition party, such as in McAuliffe's case in Virginia.

"It's either an agenda for action or an agenda for inaction," Medhurst said. "It's a signal either way."

While debates over tech issues tend not to fall along partisan lines, Medhurst said it's still no surprise to see governors addressing them with such frequency on such a large platform given its increasing importance nationwide.

"In the last decade or so, most chief executives have addressed technology in the area of the spread of technology and access to technology, and trying to use technology to empower audiences that have historically not been empowered and trying to extend the blessings of technology to a wider range of people," Medhurst said.

For a look at the governors that mentioned IT the most in their speeches, click here.

STATE OF MICHIGAN
DEPARTMENT OF TECHNOLOGY, MANAGEMENT & BUDGET
LANSING

RICK SNYDER
GOVERNOR

DAVID B. BEHEN
DIRECTOR

February 17, 2016

TO: All DTMB Custodians of Correspondence Related to Flint

FROM: Jean Ingersoll, Interim Chief of Staff to David B. Behen, Director and CIO

SUBJECT: Flint Document Production – Search Terms and Guidance

In recent months, the State of Michigan has received a number of requests to produce documents related to the water emergency in Flint. You have been identified as a potential custodian of relevant/responsive correspondence and/or documents related to these requests. **As a custodian, you are required to produce any documents containing the search terms listed below, no later than Monday, February 22, 2016.** This memorandum contains detailed instructions for the process of identifying, compiling, scanning, and copying the necessary information.

Microsoft 365 – Outlook (*includes emails, calendar items) and OneDrive*

DTMB staff will centrally coordinate the Microsoft 365 search for all of DTMB's custodians. Therefore, DTMB's custodians *do not need to independently search any of their Microsoft 365 applications* for the search terms listed below.

Shared Drives

Similar to the approach outlined above, DTMB staff will centrally coordinate the shared drive search effort for all DTMB custodians. Custodians do *not* need to independently conduct a shared drive search for the search terms below.

Non-Shared Drives – *includes hard drives, desktop, and thumb/flash drives*

For all non-shared drive types, ***each custodian will need to search every search term below in every non-shared format, and move all relevant/related documents in to a shared drive for collection.***

Start by conducting the search of all non-shared drives, filling out the attached search term checklist as you go. If you need guidance as to how to perform this search, a step-by-step guide is included below in Appendix 1.

All relevant/responsive items that are produced as a result of your search need to be moved to whatever shared drive you regularly use. To do this, first create a file in the shared drive titled "Flint FOIA" and move all relevant/related documents to that folder. Another custodian may use the same shared drive that you do. A separate "Flint FOIA" folder is not needed for each

DRAFT

custodian, multiple custodians may place their files in to the same file. We would ask custodians to add the "Flint FOIA" folder to the shared drive on a first-come basis – if you see a folder there, another custodian has likely added it, and you can begin to place your files there. If you do not see a "Flint FOIA" folder in the shared drive that you regularly use, you are likely the first custodian to start the search. Please add the "Flint FOIA" folder and begin to move your files there. Other custodians will begin to add their items when they begin their search effort.

You can move your relevant/related documents to your shared drive in whatever format the document is currently in. After the February 22, 2016, deadline, DTMB staff will access the shared drives and collect all files from the "Flint FOIA" folders.

Paper Files

Review all applicable paper files. Scan any relevant/related documents, and save them to the "Flint FOIA" folder on the shared drive that you would regularly use, as described above. If this is not possible, you may provide hard copies of documents to Jean Ingersoll in the Director's Office. These documents must be received in the Director's Office by February 22, 2016, and will not be returned to you.

Home Computer

Any relevant e-mails or other documents on a personal computer also are subject to this request. Please check your personal computer for any e-mails or other documents relating to this search. If you discover any relevant/related documents, please include the phrase "personal computer" in the file name, and save them to the aforementioned "Flint FOIA" folder on the applicable shared drive.

Conclusion

Thank you for your cooperation in complying with this request. Should you have any questions, please contact Jean Ingersoll at 1-8844.

Attachments

- FOIA Checklist
- Attachment 1 – Search Guidance

Search Term Checklist

In recent months, the State of Michigan has received a number of requests to produce documents related to the water emergency in Flint. You have been identified as a potential custodian of relevant/responsive correspondence and/or documents related to these requests. As a custodian, you are required to search and copy all items that you identify to a DTMB shared drive, as described above.

Please complete your search no later than close of business on Monday, February 22, 2016. Relevant/related items from the past 10 years should be included.

You should search for *each term exactly as it is shown below, and include quotation marks around each separate word*. For example, "Legionnaire", "Legionella", or "Flint" would all go into search fields. After you complete a search term, check the box beside the term.

Search Terms:

- ☐ "Legionnaire"
- ☐ "Legionella"
- ☐ "boil water order" & "Flint"
- ☐ "coli" & "Flint"
- ☐ "bacteria" & "Flint"
- ☐ "microb" & "Flint"
- ☐ "TTHM" & "Flint"
- ☐ "Lead" & "Flint"
- ☐ "emergency" & "Flint"
- ☐ "Karegnondi"
- ☐ "Genesee County Health Department"
- ☐ "Flint" & "utilities"
- ☐ "Lead and Copper Rule"
- ☐ "Detroit Water and Sewerage Department" & "Flint"
- ☐ "DWSD" & "Flint"
- ☐ "Flint River"
- ☐ "Pb" & "water"
- ☐ "KWA"

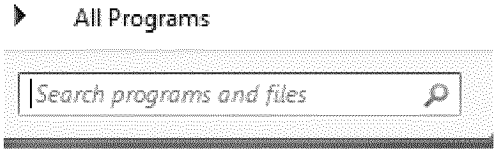
Search conducted on the email account of: _____

By (your name): _____

Date completed: _____

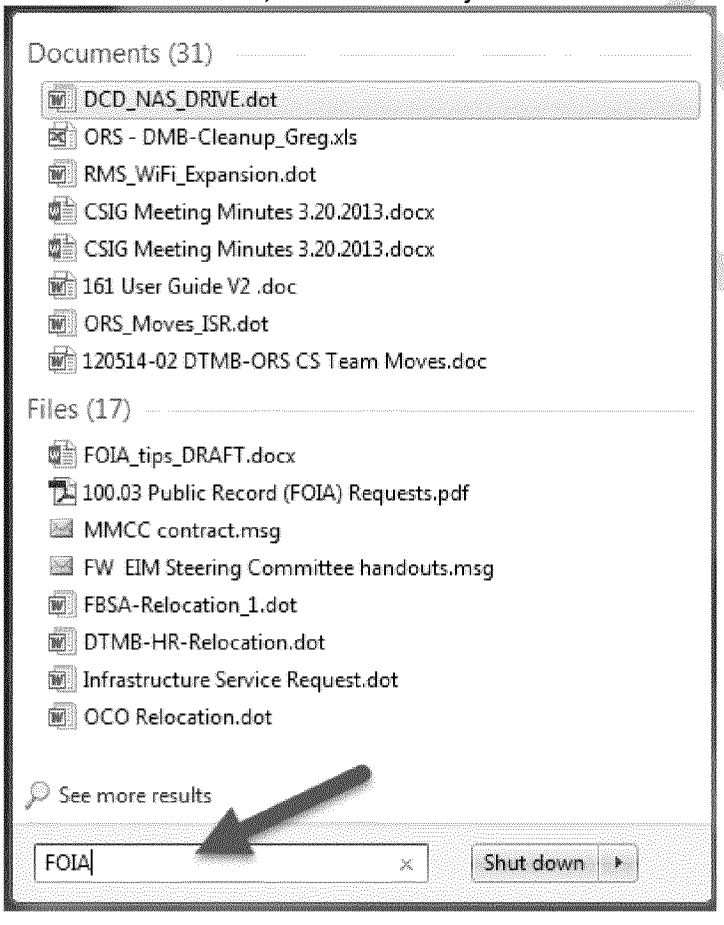
Please return this completed Checklist to Jean Ingersoll by the due date stated above
ingersollj@michigan.gov, or
Directors Office, Cass Building, Second Floor

DRAFT



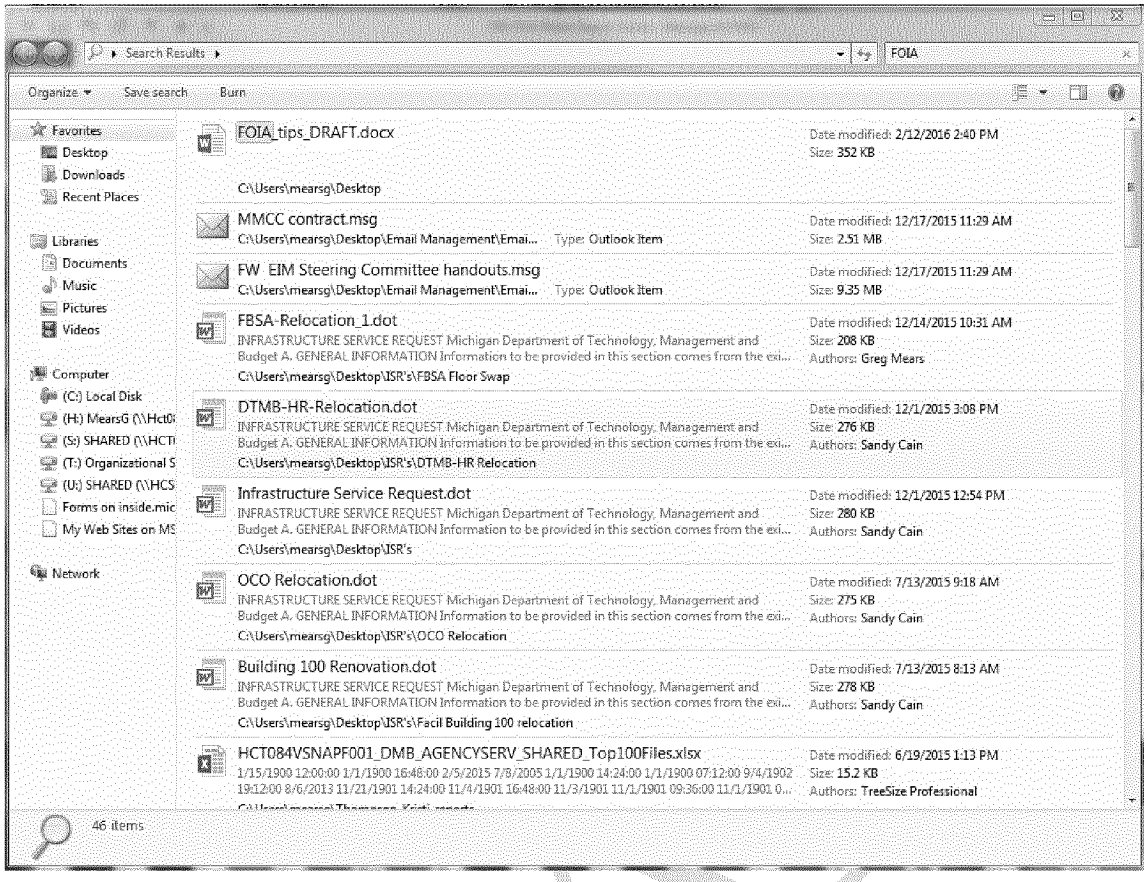
APPENDIX 1 – Search Guidance

Regardless of what version of Windows you're using, each of them has a search feature built in called "Windows Explorer," you see it every time you open up a folder on a network drive, or on your own computer. Before conducting your searches, remember to check the shared drive



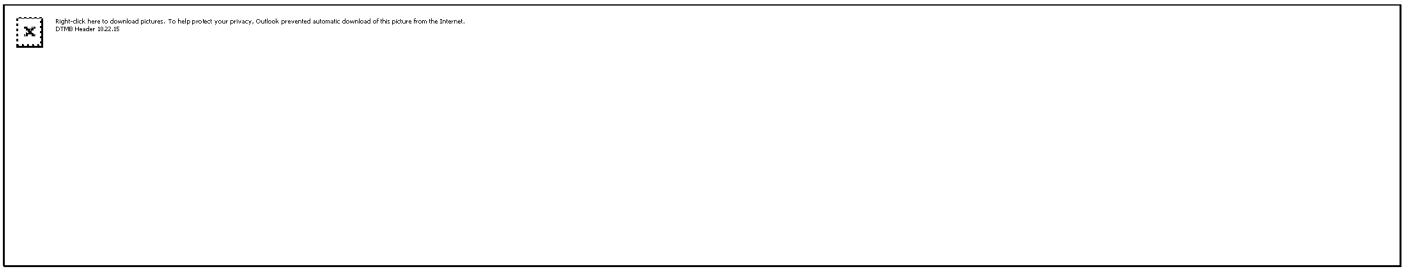
that you typically use to see if a "Flint FOIA" folder has already been created by another custodian. If such a folder has not yet been created in the shared drive that you use, please create one.

Using the search function in windows 7



Since the majority of DTMB is on Windows 7, the examples below are on that operating system. If you click on windows Start button, you'll see the search box right next to it

This example searches for the word FOIA. As you can see, the search yielded numerous documents including emails. Since DTMB is centrally collecting relevant emails and other Microsoft 365 items, we'll focus on just the documents.



You need to open each document to make sure that it's relevant. In this instance, the search brought up a DTMB Move form, but only because it has the word FOIA in the form.
You'll notice that the words "See more results" appears at the bottom of the list. This means that the search turned up a lot more documents than what can easily be displayed. You must click on the link to open Windows Explorer and reveal a comprehensive list, along with their locations.

As you can see from this example the search found 46 items. We can now select them all using the “Ctrl-A method”, and copy them to the “Flint FOIA” folder on the shared drive that you regularly use.

Subject: The Gov. Snyder's Budget Proposal

Good morning everyone. I hope everyone had a great holiday weekend.

I had the good fortune to travel to Marquette on Monday with Chad Laidlaw, DTMB's policy and planning analyst, to meet with city, business and university leaders and to address the Economic Club of Marquette. I told them about the many things DTMB does, placing special emphasis on our work in mobility and cybersecurity. Marquette is really developing and making its mark as an innovative and entrepreneurial community.

Now work.

The executive budget Gov. Snyder presented last week outlined his investment plan for Michigan. Yes, the proposal for fiscal year 2017-18 outlined a strategy to address the critical challenges of addressing the Flint water crisis and turning around Detroit's Public Schools, but the $54.9 billion plan also includes investment in four key areas:

- **Education.** The budget increases investment to K-12 schools, community colleges and the state's public universities. Additional funds are proposed to expand career, technical, science, technology, engineering and math programs.
- **Protecting the Public.** The governor's plan expands the Secure Cities program, which has reduced violent crime in four major Michigan cities. Funds also would support an additional trooper recruit school and an academy to train corrections officers, among other initiatives.
- **Putting People First.** The governor recommends continued expansion of the Healthy Kids Dental Program and funding efforts to ensure residents have access to affordable health care. His proposal boosts funds to help cover new higher cost specialty medications to treat conditions such as hepatitis C and cystic fibrosis, among others.
- **Investing in Infrastructure.** The proposal allocates $1.2 billion to maintain and repair Michigan roads, bridges and other critical infrastructure.

The budget proposal also includes FY 2017-18 funding recommendations for DTMB. Gov. Snyder recommends ongoing funding of $1.3 billion for department operations and a one-time allocation of $32.4 million.

A few highlights include:

- $502 million for information technology support for all state agencies and $132.8 million for 14 high-priority IT projects in seven agencies. He recommends increasing the Information Technology Investment Fund by $7 million, from $65 million to $72 million. This fund supports several major multiyear IT projects and upgrades, including the replacement of outdated legacy systems.
- An additional $5 million to support cybersecurity improvements to safeguard citizens' personal information and protect critical infrastructure and government services.
- IT support of $6.5 million to modernize the Office of Retirement Services' systems and enhance customer service for more than 530,000 current and future retirees.

You can see the full executive budget recommendations, which are posted on the Budget Office website. Details of DTMB's proposed budget begin on page B-75.

We can expect to see many changes before the budgets are signed and become effective Oct. 1. The executive budget will be used by the House and Senate Appropriations Committees as they work on their own budgets and hold committee hearings on the proposals. I'll keep you posted as the process moves ahead.

As always, I welcome your notes, whether about the budget process or any other topic. Please send them to me at behend@michigan.gov.

Thank you again for all the good work you do. I hope you have a great week ahead.

David

Rod, just a quick note to follow up on our conversation after the SIGMA Project Executives meeting last week . . .

I can make some folks from CGI available to share what we've done for other states re: emergencies / disasters. Is that of interested to DTMB?

Here's some additional info on CGI's experience . . .

<< OLE Object: Acrobat Document >> << OLE Object: Acrobat Document >> << File: CGI Capability Notes - Emergencies - Disasters.docx >>

Please give me a call if you'd like to discuss further.

THE TYPICAL BUSINESS PROBLEM IN THIS TYPE OF SITUATION

When an Emergency or Natural Disaster is declared at the State or Federal level and dollars are appropriated, states are faced with setting up policies and procedures to distribute the funds to people and projects in need of recovery. Emergencies are not planned and are not "standard" with conditions, therefore, during these situations, states/municipalities struggle with setting up the policies and procedures for administering the funds (applications, approvals, eligibility, and distribution), establishing and staffing intake centers (if needed), and managing the dollars going in/out. This struggle leads to long delays in getting dollars to citizens and businesses to rebuild and for other economic development projects – and brings unnecessary media and political attention as a distraction. Mismanagement of the funds also occurs where money is either left on the table or not leveraged on the right types of projects. Today's environment also mandates transparency and accountability for how allocated funds are being used.

CGI's CAPABILITES TO ASSIST

- CGI supports states in the recovery efforts resulting from Hurricanes Katrina and Sandy, two of the most destructive hurricanes in recent times. This includes supporting Louisiana with distributing $9+billion in funds to over 130,000 homeowners and processing more than $1.2billon in funding to homeowners, businesses and communities in New Jersey. We also provide analytics and transparency portals to depict which areas are allocated monies, progress of rebuilding efforts, and performance of contractors.
- Our work includes building and operating systems that help disseminate federal and state recovery dollars to assist citizens to rebuild homes and communities to rebuild their infrastructure. We have extensive subject matter expertise in housing assistance and other recovery programs.
- Our most recent technology solution, built for the State of New Jersey, was designed and built with workflow management, transparency, and auditing in mind. Federal and state auditors have applauded the capabilities. This is cloud based and can be easily adopted and customized for other states/municipalities that need to manage their dollars with confidence. We were able to stand up the original system in weeks.
- Based on our experience working with multiple states executing disaster recovery action plans, as well as processing over 5,000 housing assistance applications, and mobilizing intake centers, we developed a policy and procedures playbook, full of templates, for state housing authorities to use to expedite program implementation and distribute dollars quicker. While these were developed for natural disasters, there may be commonalities that can be adapted quickly for other situations.
- Our housing experience extends beyond disaster recovery. We support 25% of HUD's Section 8 project based portfolio where we administer multi-family housing units, calculate rental subsidies, enforce owner delegations, provide inspection services and call centers on behalf of state housing authorities.

- We support some of the largest state environmental agencies in developing and managing comprehensive solutions managing water, waste, and air information. Our experience also includes operating EPA's Central Data Exchange where we manage environmental data exchanges between state and federal agencies, as well as information exchange between federal agencies. We have also supported states in exchange activities between EPA and other state and federal agencies.

Jay,

The SEOC is now actually out at the secondary complex, we moved in on Saturday, before it was just off of Collins road. They follow the ICS (Incident Command System) for coordination of any emergency. I am sure your information has been passed to the Logistics section and I will verify that today. Perhaps you could tell me about what type of help you would like to provide and I can make sure the right person is in the loop.

Thanks,

Laurie,

As a follow-up to our discussion on identification and handling of files that exist on customer hard drives that may contain keywords related to the Flint Water Crisis, I wanted to outline a request that could be routed to Office Automation.

It seems that it would be a highly desirable effort for Office Automation to research the potential for creating some type of batch job or small application that could be distributed to the desktops. This would run a process to identify all objects that fit the search criteria and copy those to a common repository, in an effort to ensure uniformity and compliance.

They may be already looking into a related method.

May need both. More licenses and more working things out ;)

>
> I know that Chad Wiebesick, our Director for Social Media has been working with the Governor's Office, MSP & DEQ, etc. to utilize Radian6 and monitor Flint. In fact, as you can imagine, we have exceeded our monthly limits on mentions due to the additional keywords on the crisis that have been added. We have talked to Salesforce, and they will be flexible about this. They have offered their full support. Chad, I believe, is also sending (or planning on sending) a daily report to the Governor's office from Radian6.
>
> So, do you still want additional licenses, or talk to Chad to see how he can assist further? Even when we get the additional licenses, I am sure you would need Chad's expertise to help navigate and use the tool effectively. LMK.

Are you going to be able to get us additional licenses for radian6? Also I have a program called digital roots that is a Michigan-based company coming to present on Tuesday and set some things up. Would you be interested..

Thanks Chris

Subject: Re: Test Results

Rodney, All,

I have a meeting set up for 8:00 am Monday morning to meet with the clerk and his IT folks. I would like someone with expertise or knowledge in the area of database information extraction from your shop to meet me there if possible. The Genesee County Clerks office is located at 900 S. Saginaw St. Flint Mi on the second floor of the county administration building.

The software that the Clerk/register of Deeds is using is through a company out of Ohio "Document Technology Systems or DTS". I have called the company's owner Pat Kelly on his cell 330-472-3811 and explained in a voicemail message that we need some information on the types of databases they utilize prior to the Monday meeting. John Geason the County Clerk is down with the flu today but is assisting me in getting in contact with this company. Mr. Gleason indicated that he will also assist in connecting us to the new IT Director for the County Monday morning, unfortunately he

does not have his cell # to contact him this weekend. As I get more info I will pass it on. When Mr. Kelly returns my call who should I connect him to so our folks can discuss the databases, extraction etc., i would like to connect the data folks to him yet this weekend if possible.

Your assistance in this matter is greatly appreciated.

Thank you,
Gary Hagler
Law Enforcement Chief, MDNR
Emergency Management
Coordinator for MDNR and MDEQ

Cell # 517-243-7885

Subject: Time Sensitive Request

SMT,

Jean Ingersoll is leading DTMB's effort to comply with document production requests related to freedom of information requests and certain lawsuits against the state.

At some point during the day tomorrow, Jean will share with you a list of standard "search terms" which we will use to compile documents related to this lawsuit.

Within 2 hours of receiving this email from Jean, you need to respond with a list of likely custodians from your work area. Jean may have more information on this tomorrow, but generally speaking a custodian will be a staff member who might reasonably be expected to have documents (electronic or otherwise) that correspond to the issues identified in the search terms.

If you have any questions, please call me or Jean. This is an important issue and I thank you in advance for your attention to this matter.

Brom Stibitz

Chief Deputy Director
Michigan Department of Technology, Management and Budget

*See agenda below

Requested By:
DTMB Executive Staff

Location:
Ottawa Building
Upper Level – Conference Room 4
611 W. Ottawa Street
Lansing, MI 48933

Call-in: 866-390-1828
Access code: 1842654

Security:
Please have your State Employee ID showing at all times.

Parking:
Metered parking is available along Ottawa and Pine street.

Briefing:
In recent months, the State of Michigan has received a number of requests to produce documents related to the water emergency in Flint. You have been identified as a potential custodian of relevant/responsive correspondence and/or documents related to these requests. As a custodian, you are required to produce, by a certain date, any documents containing certain search terms. In this meeting we will review instructions for the process of identifying, compiling, scanning, and copying the necessary information.

Agenda

1) Kickoff – Brom Stibitz, Chief Deputy Director
2) Why you are here – Jean Ingersoll, Interim Chief of Staff
3) What you need to do (February 22, 2016 deadline) – Jean
4) What will be done for you – Jean
5) What's next – Jean
6) Public Information Reminder – Caleb Buhs, Public Information Officer
7) Questions and Answers - Group

DEPARTMENT OF TECHNOLOGY, MANAGEMENT & BUDGET
LANSING

DAVID B. BEHEN
DIRECTOR

February 17, 2016

TO: All DTMB Custodians of Correspondence Related to Flint

FROM: Jean Ingersoll, Interim Chief of Staff to David B. Behen, Director and CIO

SUBJECT: Flint Document Production – Search Terms and Guidance

In recent months, the State of Michigan has received a number of requests to produce documents related to the water emergency in Flint. You have been identified as a potential custodian of relevant/responsive correspondence and/or documents related to these requests. **As a custodian, you are required to produce any documents containing the search terms listed below, no later than Monday, February 22, 2016.** This memorandum contains detailed instructions for the process of identifying, compiling, scanning, and copying the necessary information.

Microsoft 365 – Outlook (*includes emails, calendar items) and OneDrive*

DTMB staff will centrally coordinate the Microsoft 365 search for all of DTMB's custodians. Therefore, DTMB's custodians *do not need to independently search any of their Microsoft 365 applications* for the search terms listed below.

Network Drives

Similar to the approach outlined above, DTMB staff will centrally coordinate the network drive search effort for all DTMB custodians. Custodians do *not* need to independently conduct a network drive search for the search terms below.

Non-Network Drives – *includes hard drives, desktop, and thumb/flash drives*

For all non-network drive types, ***each custodian will need to search every search term listed below in every non-network format, and move all relevant/related documents in to a network drive for collection. In order to move items to the network, you must be connected to the network.***

Start by conducting the search of all non-network drives, filling out the attached search term checklist as you go. If you need guidance as to how to perform this search, a step-by-step guide is included below in Appendix 1.

All relevant/responsive items that are produced as a result of your search need to be moved to a network drive. You can move your relevant/related documents to a network drive in whatever format the document is currently in. After the February 22, 2016, deadline, DTMB staff will access the network drives to collect the files.

Paper Files

Review all applicable paper files. Scan any relevant/related documents, and save them to a network drive, as described above. If this is not possible, you may provide hard copies of documents to Jean Ingersoll in the Director's Office. These documents must be received in the Director's Office by February 22, 2016, and will not be returned to you.

Home Computer

Any relevant e-mails or other documents on a personal computer also are subject to this request. Please check your personal computer for any e-mails or other documents relating to this search. If you discover any relevant/related documents, please include the phrase "personal computer" in the file name, and save them to the aforementioned network drive.

Conclusion

Thank you for your cooperation in complying with this request. Should you have any questions, please contact Jean Ingersoll at 1-8844.

Search Term Checklist

In recent months, the State of Michigan has received a number of requests to produce documents related to the water emergency in Flint. You have been identified as a potential custodian of relevant/responsive correspondence and/or documents related to these requests. As a custodian, you are required to search and copy all items that you identify to a DTMB network drive, as described above.

Please complete your search no later than close of business on Monday, February 22, 2016. Relevant/related items from the past 10 years should be included.

You should search for *each term exactly as it is shown below, and include quotation marks around each separate word.* For example, "Legionnaire", "Legionella", or "Flint" would all go into search fields. After you complete a search term, check the box beside the term.

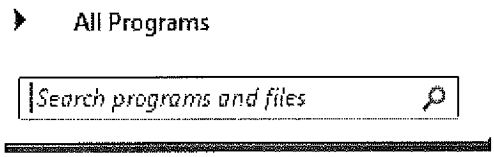
Search Terms:

- ☐ "Legionnaire"
- ☐ "Legionella"
- ☐ "boil water order" & "Flint"
- ☐ "coli" & "Flint"
- ☐ "bacteria" & "Flint"
- ☐ "microb" & "Flint"
- ☐ "TTHM" & "Flint"
- ☐ "Lead" & "Flint"
- ☐ "emergency" & "Flint"
- ☐ "Karegnondi"
- ☐ "Genesee County Health Department"
- ☐ "Flint" & "utilities"
- ☐ "Lead and Copper Rule"
- ☐ "Detroit Water and Sewerage Department" & "Flint"
- ☐ "DWSD" & "Flint"
- ☐ "Flint River"
- ☐ "Pb" & "water"
- ☐ "KWA"

Search conducted on the email account of: _____

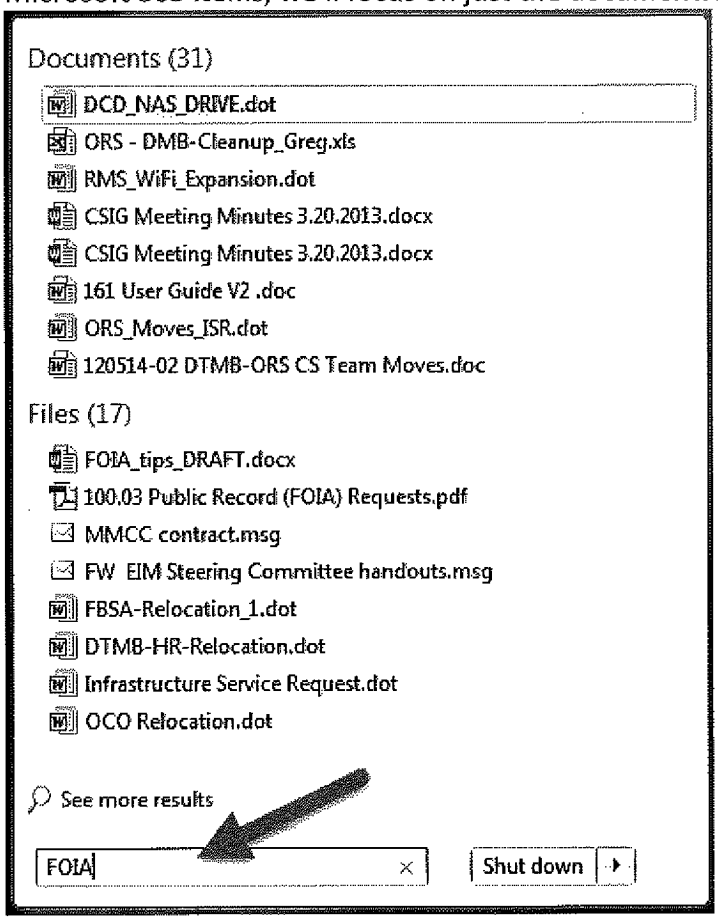
By (your name): _____

Date completed: _____



Please return this completed Checklist to DTMB Director's Office staff by February 22, 2016, at DTMB@michigan.gov, or
Directors Office, Cass Building, Second Floor

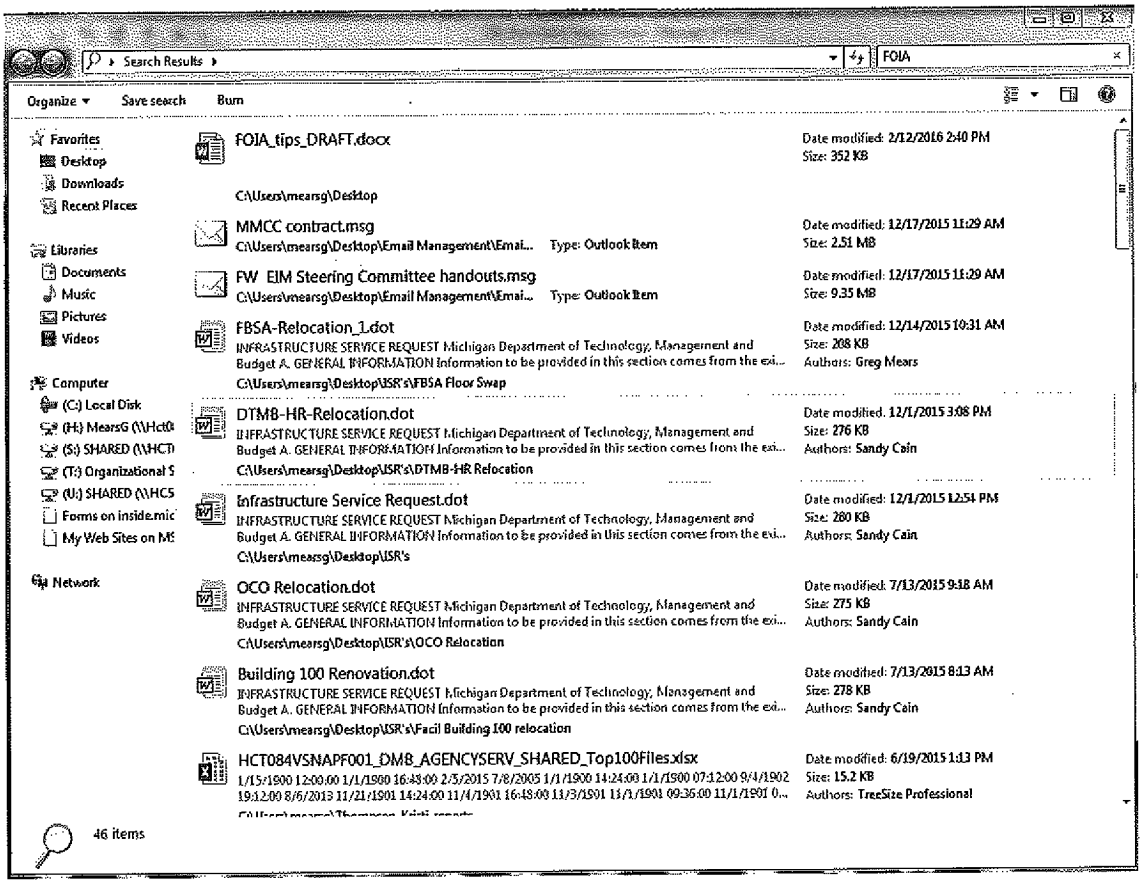
APPENDIX 1 – Search Guidance



Regardless of what version of Windows you're using, each of them has a search feature built in called "Windows Explorer," you see it every time you open up a folder on a network drive, or on your own computer.

Using the search function in windows 7

Since the majority of DTMB is on Windows 7, the examples below are on that operating system. If you click on windows Start button, you'll see the search box right next to it



This example searches for the word FOIA. As you can see, the search yielded numerous documents including emails. Since DTMB is centrally collecting relevant emails and other Microsoft 365 items, we'll focus on just the documents.

You need to open each document to make sure that it's relevant. In this instance, the search brought up a DTMB Move form, but only because it has the word FOIA in the form.
You'll notice that the words "See more results" appears at the bottom of the list. This means that the search turned up a lot more documents than what can easily be displayed. You must

click on the link to open Windows Explorer and reveal a comprehensive list, along with their locations.

As you can see from this example the search found 46 items. We can now select them all using the "Ctrl-A method", and copy them to a network drive.

SERVICE LEVEL AGREEMENT
between the
WAYNE COUNTY DEPARTMENT OF HUMAN SERVICES
and the
DEPARTMENT OF TECHNOLOGY, MANAGEMENT AND BUDGET
OFFICE OF SUPPORT SERVICES
MAIL & DELIVERY SERVICES DIVISION
regarding
MAIL DISTRIBUTION SERVICES

This agreement is effective October 1, 2011 and reflects services provided by the Department of Technology, Management and Budget (DTMB), Office of Support Services, Mail and Delivery Services Division (MDSD) for the Wayne County Department of Human Services (WCDHS). This agreement is subsequent to and replaces the Memorandum of Agreement (MOA) established by the Department of Management and Budget and the Family Independence Agency on October 11, 2002.

1. PURPOSE

The purpose of this Service Level Agreement (SLA) is to set forth in writing the terms and conditions under which the DTMB MDSD shall perform agreed upon mail distribution services for the WCDHS. It is the goal of this SLA for the DTMB MDSD and the WCDHS to work cooperatively, in order to effectively and efficiently provide ongoing mail distribution services for the WCDHS by the DTMB MDSD.

2. STATEMENT OF SERVICES

DTMB MDSD agrees to perform the mail distribution services and tasks specifically described.

- Scheduled drop off/pickup service to the WCDHS office locations in Wayne County. See Attachment A for locations.
- Services include pickup, sort and delivery of ID mail and packages for said office locations.
- Each WCDHS office will have one location at which ID mail and packages will be delivered and picked up.
- DTMB MDSD personnel will enter WCDHS offices via the front door unless delivery access is available.

3. TIME TABLE FOR SERVICES

- Once per day, on standard state business days, drop off and pickup at the designated drop point, for each of the office locations in Wayne County on Attachment A.
- A schedule of delivery/pickup time at each site will be published.
- WCDHS offices have no critical time requirements for the ID mail and package pickup or delivery.

4. SERVICE STANDARDS
   - Agency labeling of ID mail and packages is required for prompt delivery. Standard regular postal mail labeling is the required format.
   - DTMB MDSD provided a training document for mail and package address requirements for WCDHS to disseminate to offices and staff.
   - Incomplete address and undeliverable mail and packages will be returned to the WCDHS SLA manager or designated representative for re-labeling.
   - WCDHS will provide DTMB MDSD a primary contact name, phone number and address for each WCDHS office that will receive the ID mail and packages. This contact will facilitate ID mail and package service for their building.

5. SERVICES NOT INCLUDED IN THIS AGREEMENT
   - Exclusive use of equipment or labor in providing services.
   - Delivery of any incoming U.S. Mail (U.S. Postal Service carriers are responsible for delivering U.S. mail to each office.)
   - Packaging (bundling and labeling) and metering services.
   - Emergency deliveries/pickups.
   - Freight delivery.
   - Inter-department (ID) mail to other DHS sites not served by DTMB MDSD. See Attachment B for listing of DHS offices served by DTMB MDSD ID Mail System.

6. PRICE AND PAYMENTS
   Effective Fiscal Year 2004 GF/GP funds permanently transferred from DHS to DTMB for the services provided for in this SLA.

   New pricing for the Fiscal Year shall be amended annually.

7. AGREEMENT TERMS
   A. Duration and Cancellation
      This agreement will remain in effect until replaced or terminated. The project representatives will determine if the cause justifies the cancellation of this agreement.

      A ninety (90) day written cancellation notice, by either party, is required for Mail Distribution Services.

   B. Review and Revision Process
      At a minimum, the agreement will be reviewed annually. Mutually agreed upon core changes will be incorporated into the agreement and a revised agreement, will be issued for signature no later than September 15. Authorizied designees agree to document changes made to this Service Level Agreement in the form of additions, deletions or modifications to the attachments – A and B. The type of modification, date of modification and signature of authorized designees from both agencies will be recorded each time a modification is made. Changes to attachments A and B (locations) shall not require the issuance and signature of a new

agreement. The signers of this agreement will resolve changes that cannot be mutually agreed upon by operational staff.

C. Meetings
It is further agreed that DTMB and WCDHS shall meet, semi-annually, or as requested by either party, to discuss operational issues, service levels, and any other topics related to the delivery of quality print and post processing.

D. Service Locations
Updated WCDHS locations (Appendix A) and DHS locations served by DTMB ID mail (Appendix B) will be amended as changes occur and new appendixes will be issued as those changes occur.

8. CHANGES IN SCOPE OF AGREEMENT

It is understood and agreed that significant policy and operational changes will be developed and documented in writing. It is understood and agreed that major changes may modify the service expectations and cost of service.

In the event of a significant policy, budgetary or operational program change by either WCDHS or DTMB, the originating party is responsible to consult with the other party beforehand and a reasonable period of time is given for outlining and pricing the service level change before implementation. Each SLA manager will obtain appropriate approvals for the changes. A copy of the changes will be submitted to DTMB MDSD and included with the SLA master file. SLA managers will ensure all customers and stakeholders are informed of the changes made to the agreement.

SLA managers will mutually agree upon any changes in schedule and/or routes.

9. QUALITY ASSURANCE

Managing the Agreement: DTMB MDSD and WCDHS will designate an individual as the SLA manager to perform the following:

- Facilitate annual renewal of the SLA.
- Serve as the point of contact for problems or concerns related to the SLA.
- Maintain ongoing contact between the customer and service provider.
- To ensure quality and timely delivery of ID mail and packages, WCDHS SLA manager will provide DTMB MDSD a list of employees in each WCDHS office, and update such list periodically, not less than annually.
- Facilitate or participate in conflict resolution process regarding service effectiveness.
- Plan and conduct quarterly reviews to include the discussion of customer surveys.

10. PROBLEM MANAGEMENT PROCESS

Should a problem arise related to the Agreement, it will be handled in the following manner. Staff will attempt to resolve problems through communication of the issues and developing solutions. If an effective mutually agreeable resolution cannot be reached, the SLA managers will assist in developing an appropriate resolution.

AGREEMENT REPRESENTATIVES

WCDHS SLA Manager: David Endyke
Phone/email: 313-456-1324 EndykeD@michgan.gov
